DESERT SUN MINING CORP.  
Quarterly Report to February 28, 1999

SCHEDULE C

REVIEW OF OPERATIONS

During the quarterly period from, December 1, 1998 to February 28, 1999:

The Company is waiting for the final Government approval and the signing of the Mineral Processing Sharing Agreement (MPSA) application by the Department of Energy and Natural Resources (DENR). The Mineral Production Sharing Agreement (MPSA) includes several claims covering some 3,280.5 hectares which contain 12 known gold-bearing veins as well as the Ulanin epithermal gold-bearing breccia/stockworks zone. The Ulanin zone, within the grid area, is some 300 metres wide and 1.2 kilometres long.

The Company's consultant, Mr. John Perry, P.Geo., in his report dated February 4, 1998, has recommended a program comprised 24 drill holes totalling a length of some 3,350 metres. The drilling forms Phase I of his recommended drill program proposed in his 1997 report. The purpose of the drilling is to test the Ulanin area for its potential to host bulk mineable resources within the auriferous breccia/stockworks zone.

The Ulanin Zone has been identified from results obtained from soil/eluvium geochemistry, an IP/resistivity geophysical survey, detailed geological mapping, surface rock sampling all recently carried out by Desert Sun Mining Corp., and from previous mapping, fluid inclusion studies and trenching and pitting carried out between 1987 and 1993.

Surface grab samples, taken from within the grid area covering the Ulanin Zone assayed from 0.03 gm. Au/tonne to 15.86 gm. Au/tonne, and the gold soil anomalies support the possibility of an eastward extension to the breccia/stockworks zone along much of its length.

The Company has been examining other opportunities to participate in exploration projects in the Philippines, Indonesia, Africa and Chile. In October 1998, the Company entered into negotiations with a company to acquire a 50% interest in a diamond exploration joint venture in Namibia, Africa. Upon completion of a due diligence review the Company decided not to enter into a formal agreement to participate in the joint venture.

The Company's Form 20F has been filed with and approved by the United States Securities and Exchange Commission. The Form 20F is required to maintain the Company's listing on the NASDAQ Electronic Bulletin Board.

FINANCIAL ANALYSIS

A partial property payment of \$25,000.00 US was made in October 1998 to Batangas Exploration and Development, Inc. No further payments are due until such time that the final government approval of the MPSA is received.

## AUDITORS' REPORT

To the Shareholders of Desert Sun Mining Corp.:

We have audited the consolidated balance sheet of Desert Sun Mining Corp. (An Exploration Stage Company) as at 31 August 1999 and 1998 and the consolidated statements of shareholders' equity, operations and cash flows for each of the three years in the period ended 31 August 1999 and cumulative from inception (21 May 1980) through to 31 August 1999. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the company as at 31 August 1999 and 1998 and the results of its operations and its cash flows for each of the three years ended 31 August 1999 and cumulative from inception (21 May 1980) through 31 August 1999 and the changes in shareholders' equity from inception (21 May 1980) through 31 August 1999 in accordance with generally accepted accounting principles in Canada. As required by the Company Act of British Columbia, we report that, in our opinion, these principles have been applied on a basis consistent with that of the preceding year.

COMMENTS BY AUDITORS FOR THE U.S. READER ON  
CANADA-U.S. REPORTING CONFLICT

In the United States, reporting standards for auditors require the addition of an explanatory paragraph (following the opinion paragraph) when the financial statements are affected by significant uncertainties such as those referred to in Note 1 to the consolidated financial statements. Our report to the shareholders dated 20 January 2000 is expressed in accordance with Canadian reporting standards which does not permit a reference to such an uncertainty in the auditors' report when the uncertainty is adequately disclosed in the financial statements.

1. Continued Operations

These consolidated financial statements have been prepared assuming the company will continue as a going concern for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business.

Several adverse conditions cast doubt on the validity of this assumption. The company has incurred substantial operating losses over the past several years, has a working capital deficiency of \$285,584 and has an accumulated deficit of \$6,975,927.

The ability of the company to continue as a going concern is dependent upon its ability to generate profitable operations in the future and obtain additional financing. If the going concern assumption were not appropriate for these financial statements, then adjustments would be necessary to the carrying value of the assets and liabilities, the reported revenue and expenses and the balance sheet classifications used.

2. Significant Accounting Policies

a) Basis of Consolidation

These consolidated financial statements include the accounts of the company and its wholly-owned subsidiary, Sun River Gold, Inc., a United States company (inactive), and its 40% owned subsidiary Sun River Gold Phils. Inc., a Philippine company.

Sun River Gold Phils. Inc. has been treated as a subsidiary as the company has de facto control by way of a voting trust giving the company voting control over the remaining 60% of the shares. The non-controlling interest has been recorded at the carrying values in the company's records.

b) Cash and Cash Equivalents

For purposes of reporting cash flows, the company considers cash and cash equivalents to include amounts held in banks and highly liquid investments with remaining maturities at point of purchase of three months or less. The company places its cash and cash investments with institutions of high-credit worthiness. At times, such investments may be in excess of federal insurance limits.

c) Amortization

The company provides for amortization of its capital assets, which are stated at cost, on the declining balance method at the following rates:

- ☐ Office furniture and equipment - 20% per annum
- ☐ Mining equipment - 30% per annum

One half of the annual rate is applied on acquisitions during the year.

## 2. Significant Accounting Policies - Continued

### d) Mineral Properties and Deferred Costs

Mineral exploration costs are capitalized on an individual prospect basis until such time as an economic ore body is defined or the prospect is abandoned. Costs for a producing prospect are amortized on a unit-of-production method based on the estimated life of the ore reserves, while those costs for the prospects abandoned are written off.

The recoverability of the amounts capitalized for the undeveloped mineral properties is dependent upon the determination of economically recoverable ore reserves, confirmation of the company's interest in the underlying mineral claims, the ability to obtain the necessary financing to complete their development and future profitable production or proceeds from the disposition thereof.

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties.

### e) Foreign Currency Translation

Items originating in a foreign currency included in the financial statements are translated into Canadian dollars using the temporal method at the following rates: monetary assets and liabilities at the rate in effect on the balance sheet date; non-monetary assets and liabilities at the rate in effect on the transaction date; revenue and expense items at the average rate for the year. Foreign exchange translation gains and losses are included in earnings during the year in which they occur.

### f) Loss Per Share

Basic loss per share calculations are based on the weighted average number of shares outstanding during the year. The weighted average number of shares outstanding during the year was 13,012,628 (1998 - 12,731,050; 1997 - 10,952,138). Fully diluted loss per share has not been presented due to its anti-dilutive effect.

### g) Environmental Expenditures

The operations of the company have been, and may in the future be, affected from time to time in varying degree by changes in environmental regulations, including those for future removal and site restoration costs. Both the likelihood of new regulations and their overall effect upon the company vary greatly from country to country and are not predictable.

Environmental expenditures that relate to ongoing environmental and reclamation programs are charged against earnings as incurred or capitalized and amortized depending on their future economic benefits. To date, the company has incurred no environmental expenditures relating to the exploration of mineral properties.

## 2. Significant Accounting Policies - Continued

### h) Management's Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

### i) Share Capital

i) The proceeds from the exercise of stock options, warrants and escrow shares are recorded as share capital in the amount for which the option, warrant or escrow share enabled the holder to purchase a share in the company.

ii) Share capital issued for non-monetary consideration is recorded at an amount based on fair market value reduced by an estimate of transaction costs normally incurred when issuing shares for cash, as determined by the board of directors of the company.

## 3. Fair Value of Financial Instruments

The company's financial instruments consists of cash, accounts receivable and accounts payable and accrued liabilities and amounts due to related parties. Unless otherwise noted, it is management's opinion that the company is not exposed to significant interest, currency or credit risks arising from the financial instruments. The fair value of these financial instruments approximates their carrying values, unless otherwise noted.

## 4. Resource Property Costs

a) As at 31 August 1999, there are no active resource properties (1998 - Batangas Gold Project, South Luzon Island, Philippines, \$649,980).

b) Violeta, Crisantemo, Anaconda, Grau, Francia, and Progreso Concessions, Bolivia, S.A. During the year ended 31 August 1997 the company's management abandoned the concessions and the related costs have been written off.

### c) Batangas Gold Projects, South Luzon Island, Philippines

Sun River Gold Phils. Inc., the company's subsidiary, entered into an option agreement dated 25 March 1997 (amended 3 November 1997 and 27 October 1998) to acquire a 100% interest in the Batangas Gold Project in South Luzon Island, Philippines. Under the terms of the agreement, Sun River Gold Phils. Inc., at its option, is to make various payments totalling U.S. \$2,142,000 (U.S. \$175,000 paid) and incur exploration on the property totalling U.S. \$1,100,000 (U.S. \$320,000 incurred). A 3% net smelter return royalty is payable to the vendors, an additional 1% to the holders of the titled surface rights and 0.60% to the holders of the untitled surface rights.

#### 4. Resource Property Costs - Continued

##### c) Batangas Gold Projects, South Luzon Island, Philippines - Continued

During the current year, the company's management has written off the related costs because of the inability of the optionor to obtain exploration permits. Management is still negotiating with the government to obtain the permits.

A finder's fee relating to the acquisition of the Batangas Gold Projects required various payments totalling \$139,600 (\$1,250 paid).

During the year, the company issued the finder 4,411 shares at a deemed value of \$3,750. No further payments are to be made as the property has been abandoned.

##### d) Oil and Gas Leases, Marion County, Illinois, U.S.A.

During the year ended 31 August 1998, the company's management abandoned the concessions and the related costs have been written off.

7. Share Capital - Continued

c) Continued

In October 1995, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 123 ("SFAS No. 123"), "Accounting for Stock-Based Compensation". SFAS No. 123 establishes financial accounting and reporting standards for stock-based employee compensation plans. The statement encourages all entities to adopt a fair value based method of accounting, but allows an entity to continue to measure compensation cost for those plans using the intrinsic value based method of accounting prescribed by APB Opinion No. 25, "Accounting for Stock Issued to Employees". The company has adopted the disclosure only provisions of SFAS No. 123 as follows:

	1999	1998
Net loss		
As reported	\$ 903,772	\$ 311,64 0
Pro forma	\$ 904,272	\$ 324,27 9
Net loss per share		
As reported	\$ 0.07	\$ 0.0 2
Pro forma	\$ 0.07	\$ 0.0 3

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions:

	1999	1998
Expected dividend yield	0.00	0.00
Expected stock price volatility	124%	122%
Risk-free interest rate	4.91%	5.55%
Expected life of options	5.0 year	5.0 years

The weighted average grant-date fair value of options granted in 1999 and 1998 was \$0.01 and \$0.01 respectively.

d) During the year, 5,000 warrants were exercised for shares in the amount of \$1,150 by an officer and a director.

8. Related Party Transactions

Related party transactions not disclosed elsewhere in these financial statements are as follows:

10. Commitment

The company has a management agreement with an officer and director. This is a one year renewable contract from 1 September to 31 August with remuneration of \$60,000 per annum. This was reduced by the director and officer to \$30,000 for the year ended 31 August 1999.

11. Contingent Liability

The company is in dispute of an invoice received in the amount of U.S. \$6,252. Management is of the opinion that no amount is owed as the services were not rendered. At year-end, the two parties had not come to a resolution. No amount has been accrued in the consolidated financial statements as the outcome is unknown.

12. Income Taxes

a) The company has income tax losses carried forward of \$3,886,040 available to reduce future taxable income and expire as follows:

Amount	
2000	\$ 96,045
2001	26,434

### 14. United States Generally Accepted Accounting Principles

These financial statements have been prepared in accordance with generally accepted accounting principles in Canada. Except as set out below, these financial statements also comply, in all material aspects, with accounting principles generally accepted in the United States and the rules and regulations of the Securities Exchange Commission.

a) Under the Canadian generally accepted accounting principles the calculation of basic loss per share is calculated using the weighted average number of common shares outstanding during the year as well as including any common stock equivalents which may be outstanding, if such common stock equivalents are not anti-dilutive. This weighted average number of common shares outstanding includes any shares that remain in escrow, that may be earned out based on the company incurring a certain amount of exploration and development expenditures.

Under United States generally accepted accounting principles primary loss per share is calculated using the weighted average number of shares outstanding during the year, as well as including any common stock equivalents which may be outstanding if such common stock equivalents are not anti-dilutive. This weighted average number of common shares outstanding excludes any shares that remain in escrow, but may be earned out based on the company incurring a certain amount of exploration and development expenditures.

14. United States Generally Accepted Accounting Principles - Continued

b) Under Canadian generally accepted accounting principles, the mineral properties are carried at cost and written off or written down if the properties are abandoned, sold or if management decides not to pursue the properties. Under United States generally accepted accounting principles, the company would periodically review and obtain independent reports in determining adjustments to the mineral properties and records properties at net realizable value. The company has not yet obtained an independent report for United States generally accepted accounting principles purposes, therefore, the company's mineral property costs have been written off.

c) Under U.S. generally accepted accounting principles, stock compensation expense is recorded when shares held in escrow become eligible for release and is based upon the number of shares released and the market value of the shares at that time. Under Canadian generally accepted accounting principles, no value is attributed to such shares released and no compensation expense is recorded.

d) The impact of the above differences between Canadian and United States generally accepted accounting principles on loss for the period is as follows:

	Cumulative from Inception (21 May 1980) to 31 August 1999	Year Ended 31 August 1999	Year Ended 31 August 1998	Year Ended 31 August 1997

#### 15. Uncertainty Due to the Year 2000 Issue

The Year 2000 Issue arises because many computerized systems use two digits rather than four to identify a year. Date-sensitive systems may recognize the year 2000 as 1900 or some other date, resulting in errors when information using year 2000 dated is processed. In addition, similar problems may arise in some systems which use certain date in 1999 to represent something other than a date. Although the change in date has occurred, it is not possible to conclude that all aspects of the Year 2000 Issue that may affect the entity, including those related to customers, suppliers, or other third parties, have been fully resolved.

#### 16. Subsequent Event

Subsequent to year-end, the company signed a letter of intent dated 16 September 1999 to earn up to an 80% interest in the Tubutama Borate project in the Alter Mining Agency, Sonora, Mexico. To earn the first 60%, the company, at its option, must make the following payments, share issuances and exploration expenditures:

	U.S. Cash Payments	Share Issuances	U.S. Exploration Expenditures
Upon execution of the formal agreement	\$ 5,000	-	-
Within six months of the acceptance by the Canadian Venture Exchange ("effective date")	10,000	40,000	-
Within one year of the effective date	15,000	40,000	50,000
Within two years of the effective date	20,000	40,000	100,000
Within three years of the effective date	-	-	100,000
	<u>\$ 50,000</u>	<u>120,000</u>	<u>\$250,000</u>

Within five years of the effective date, the company must start hand selection of ore minerals.

To earn a further 20% the company must, within certain time limits, notify the optionor that the company intends to proceed to full commercial production and within five years of the effective date complete a feasibility report on the claims, build the plant required and commence commercial production.

Once the company has obtained either a 60% or 80% interest in the property, a joint venture is to be formed with the optionor.

The letter of intent had an expiry date of 31 October 1999 but this has been extended by making the first payment (U.S. \$5,000 - paid). The company is in negotiation to complete the formal agreement.

The above is subject to shareholder and regulatory approval.

Quarterly Report to August 31, 1999  
SCHEDULE C

REVIEW OF OPERATIONS

During the quarterly period from, May 31, 1999 to August 31, 1999:

The Company has waited for the final Government approval and the signing of the Mineral Processing Sharing Agreement (MPSA) application by the Department of Energy and Natural Resources (DENR). The Optionor has not been successful in obtaining the requisite permits. As a result, the Company is not able to carry out its planned exploration program. The Mineral Production Sharing Agreement (MPSA) includes several claims covering some 3,280.5 hectares which contain 12 known gold-bearing veins as well as the Ulanin epithermal gold-bearing breccia/stockworks zone. The Ulanin zone, within the grid area, is some 300 metres wide and 1.2 kilometres long.

The Company's consultant, Mr. John Perry, P.Geo., in his report dated February 4, 1998, has recommended a program comprised 24 drill holes totalling a length of some 3,350 metres. The drilling forms Phase I of his recommended drill program proposed in his 1997 report. The purpose of the drilling is to test the Ulanin area for its potential to host bulk mineable resources within the auriferous breccia/stockworks zone.

The Ulanin Zone has been identified from results obtained from soil/eluvium geochemistry, an IP/resistivity geophysical survey, detailed geological mapping, surface rock sampling all recently carried out by Desert Sun Mining Corp., and from previous mapping, fluid inclusion studies and trenching and pitting carried out between 1987 and 1993.

Surface grab samples, taken from within the grid area covering the Ulanin Zone assayed from 0.03 gm. Au/tonne to 15.86 gm. Au/tonne, and the gold soil anomalies support the possibility of an eastward extension to the breccia/stockworks zone along much of its length.

As a result of the inability of the Optionor to obtain tenure to its claims, the Company has written down its investment in the Philippine project. The Company has been examining other opportunities to participate in exploration projects in the Philippines, Indonesia, Africa and Chile. In October 1998, the Company entered into negotiations with a company to acquire a 50% interest in a diamond exploration joint venture in Namibia, Africa. Upon completion of a due diligence review the Company decided not to enter into a formal agreement to participate in the joint venture.

During the financial year ended August 31, 1999, the Company negotiated a letter of intent whereby it has been granted the sole and exclusive right and option to earn up to an 80% interest in the Tubutama Borite Project in the Altar Mining Agency, Sonora, Mexico, by paying the optionors \$50,000, issuing the optionors 120,000 common shares (at a deemed price of \$0.19 per share), incurring expenditures of \$250,000 on the project, and completing certain mine development work, all in installments over the course of the earn-in. The Company may elect to proceed to artesanal production on the project and earn a 60% undivided interest or proceed to full scale commercial production and earn an 80% undivided interest. Upon the interest of the Company being determined under the earn-in, the parties will form a joint venture for the further development and operation of the project.

The transaction is subject to the completion of formal agreements and notice of those agreements being accepted for filing by the Canadian Venture Exchange.

The Company's Form 20F has been filed with and approved by the United States Securities and Exchange Commission. The Form 20F is a requirement if the Company is to establish the market for its shares on the NASDAQ Electronic Bulletin Board.

#### CHANGES IN MANAGEMENT

Subsequent to the quarter ended August 31, 1999, Jane Tough resigned as Secretary of the Company and Thomas R. Tough, Jr. was appointed as Secretary.

#### SPECIAL RESOLUTIONS PASSED BY SHAREHOLDERS:

Since the date of the last Quarterly Report, there have been no special resolutions presented to or passed by members of the Company.

#### INVESTOR RELATIONS:

The Company is not a party to any investor relation contracts and no significant investor relation activities were undertaken by or on behalf of the Company during the last quarter.

#### FINANCIAL ANALYSIS

Write-offs of deferred expenditures and mineral properties taken by the Company during the fiscal year ended August 31, 1999 amounted to \$649,980 and the Company had write-offs of \$42,154 during the fiscal year ended August 31, 1998. Management concluded that the projects are no longer considered viable given the current market conditions and the stage of exploration on each of the properties.

General and administrative expenses decreased for the fiscal year ended August 31, 1999 to \$143,049 from 269,486 for the fiscal year ended August 31, 1998. Within the category of General and Administrative Expenses, Professional fees decreased for the fiscal year ended August 31, 1999, to \$62,022 from \$72,616 for the fiscal year ended August 31, 1998. Office expenses decreased for the fiscal year ended August 31, 1999 to \$11,737 from \$13,067 for the fiscal year ended August 31, 1998. Communication expenses decreased for the fiscal year ended August 31, 1999 to \$8,205 from \$50,188 for the fiscal year ended August 31, 1998. Management fees decreased for the fiscal year ended August 31, 1999 to \$30,000 from \$60,000 for the fiscal year ended August 31, 1998.

## REVIEW OF OPERATIONS

During the quarterly period from August 31, 1999, to November 30, 1999:

The Company is still waiting for the final Government approval and the signing of the Mineral Processing Sharing Agreement (MPSA) application by the Department of Energy and Natural Resources (DENR). The Optionor has not been successful in obtaining the requisite permits. As a result, the Company has not been able to carry out its planned exploration program. The Mineral Production Sharing Agreement (MPSA) includes several claims covering some 3,280.5 hectares which contain the Ulanin epithermal gold-bearing breccia/stockworks zone as well as 12 known gold-bearing veins. The Ulanin zone, within the grid area, is some 300 metres wide and 1.2 kilometres long.

As a result of the inability of the Optionor to obtain tenure to its claims, the Company has written down its investment in the Philippine project. The Company has been examining other opportunities to participate in exploration projects.

The Company has continued efforts in its acquisition and finalization of agreements pertaining to the sole and exclusive right and option to earn up to an 80% interest in the Tubutama Borate Project in the Altar Mining Agency, Sonora, Mexico, by paying the optionors \$50,000, issuing the optionors 120,000 common shares (at a deemed price of \$0.19 per share), incurring expenditures of \$250,000 on the project, and completing certain mine development work, all in installments over the course of the earn-in. The Company may elect to proceed to artisanal production on the project and earn a 60% undivided interest or proceed to full scale commercial production and earn an 80% undivided interest. Upon the interest of the Company being determined under the earn-in, the parties will form a joint venture for the further development and operation of the project.

The transaction is subject to the completion of formal agreements and notice of those agreements being accepted for filing by the Canadian Venture Exchange.

## CHANGES IN MANAGEMENT

No changes were made to management during this quarter.

## SPECIAL RESOLUTIONS PASSED BY SHAREHOLDERS:

Since the date of the last Quarterly Report, there have been no special resolutions presented to or passed by members of the Company.

## INVESTOR RELATIONS:

The Company is not a party to any investor relation contracts and no significant investor relation activities were undertaken by or on behalf of the Company during the last quarter.

## FINANCIAL ANALYSIS

Other than minimal administration costs, a total of \$11,074 have been expended on set up costs for the Tubutama Project acquisition, Sonora, Mexico. A loan in the amount of \$15,000 was made to the Company during the quarter from a arm's length party.

#### Appointment and Revocation of Proxies

The persons named in the accompanying form of proxy are directors of the Company. A member desiring to appoint some other person (who need not be a member) to represent him or her at the meeting may do so, either by striking out the printed names and inserting the desired person's name in the blank space provided in the form of proxy or by completing another proper form of proxy and in either case delivering the completed proxy to the office of Montreal Trust Company of Canada, 4<sup>th</sup> Floor, 510 Burrard Street, Vancouver, British Columbia, V6B 3B9, facsimile no.: (604) 683-3694 or to the Company's office, not less than forty-eight (48) hours (excluding Saturdays, Sundays and holidays) before the time fixed for the Meeting.

The chair of the Meeting will have the discretion to accept or reject proxies otherwise deposited.

A member who has given a proxy may revoke it by an instrument in writing delivered to the said office of Montreal Trust Company of Canada or the Company's office at any time up to and including the last business day preceding the day of the Meeting, or any adjournment thereof, or to the chair of the Meeting, or in any manner provided by law.

#### Voting of Proxies

The securities represented by the proxy will be voted or withheld from voting in accordance with the instructions of the member on any ballot that may be called for, and if the member specifies a choice with respect to any matter to be acted upon, the securities will be voted accordingly. The form of proxy confers authority upon the named proxyholder with respect to matters identified in the accompanying notice of Meeting. If a choice with respect to such matters is not specified, it is intended that the person designated by management in the form of proxy will vote the securities represented by the proxy in favour of each matter identified in the proxy and for the nominees of management for directors and auditor. The proxy confers discretionary authority upon the named proxyholder with respect to amendments to or variations in matters identified in the accompanying notice of Meeting and other matters which may properly come before the Meeting. As at the date of this information circular, management is not aware of any amendments, variations, or other matters. If such should occur, the persons designated by management will vote thereon in accordance with their best judgment, exercising discretionary authority.

#### Advance Notice of Annual General Meeting

Advance notice of the Meeting was published on December 30, 1999, pursuant to the requirements of section 111 of the Company Act of British Columbia and section 4 of the "Regulation" to the Company Act.

#### Voting Securities and Principal Holders Thereof

The voting securities of the Company consist of 50,000,000 common shares without par value. As at the date of this information circular, 13,013,474 common shares without par value were issued and outstanding, each such share carrying

the right to one (1) vote at the Meeting. January 25, 2000, has been fixed in advanced by the directors of the Company as the record date for the purpose of determining those members entitled to receive notice of, and to vote at the Meeting. To the knowledge of the directors and senior officers of the Company, no persons beneficially own, directly or indirectly, or exercise control or direction over, voting securities carrying more than 10% of the voting rights attached to the voting securities of the Company.

#### Appointment of Auditor

The persons named in the enclosed instrument of proxy intend to vote for the re-appointment of Staley, Okada, Chandler & Scott, Chartered Accountants as the Company's auditor until the next annual general meeting of members at a remuneration to be fixed by the board of directors.

#### Election of Directors

The persons named in the following table are management's nominees to the board. Each director elected will hold office until the next annual general meeting or until his or her successor is duly elected or appointed unless his or her office is earlier vacated in accordance with the articles of the Company or unless he or she becomes disqualified to act as a director.

Name and Address of Nominee and Present Position with Company	Principal Occupation	Period From Which Nominee Has Been Director	Number of Approximate Voting Securities <sup>1</sup>
Thomas R. Tough Richmond, BC President and Director	Professional Engineer; Geological Consultant	September 5, 1985	171,242
Jane Tough Richmond, BC Director	Registered Nurse	May 7, 1987	803,324
John C. Loretto Ladner, BC Director	Consulting Engineer	June 22, 1998	Nil

<sup>1</sup> voting securities beneficially owned, directly or indirectly, or over which control or direction is exercised

All of the proposed nominees are ordinarily resident in Canada.

The board of directors has not appointed an executive committee.

As the Company is a reporting company the directors of the Company are required to elect from their number an audit committee. Thomas R. Tough, John C. Loretto and Jane Tough are the three directors elected by the board of directors of the Company to the audit committee.

#### Statement of Executive Compensation

##### Compensation to Executive Officers

**Thomas R. Tough** is the Named Executive Officer of the Company as defined in Form 41 prescribed by the "Regulations" under the Securities Act of the Province of British Columbia.

The criteria used in determining the amount of executive officer compensation which is appropriate is based on an assessment of salaries paid in the industry for similar duties in which the Company is engaged.

Executive officers are entitled to participate in incentive stock options granted by the Company. For additional information with respect to incentive stock options granted to executive officers, please refer to the heading "Incentive Stock Options" below.

The following table sets forth particulars concerning the compensation of Named Executive Officers for the Company's previous three financial years:

Thomas R. Tough	Nil	Nil	382,000(exercisable)	Nil

#### Termination of Employment, Change in Responsibilities and Employment Contracts

There are no employment contracts between either the Company or its subsidiaries and the Named Executive Officers except as referred to under the heading "Management Contracts" below.

Neither the Company nor any of its subsidiaries have any plan or arrangement with respect to compensation to its executive officers which would result from the resignation, retirement or any other termination of the executive officers' employment with the Company and its subsidiaries or from a change of control of the Company or any subsidiary of the Company or a change in the executive officers' responsibilities following a change in control, where in respect of an executive officer the value of such compensation exceeds \$100,000.

#### Compensation of Directors

The Company has no standard arrangement pursuant to which directors are compensated by the Company for their services in their capacity as directors other than the unissued treasury shares reserved for the grant of directors' stock options. There has been no other arrangement pursuant to which directors were compensated by the Company in their capacity as directors during the Company's financial year ended August 31, 1999.

#### Management Contracts

The Company is party to a management contract with Thomas R. Tough, President of the Company, whereby Mr. Tough is engaged to perform management services at a cost of **\$60,000 per year**.

#### Indebtedness of Directors and Senior Officers

None of the directors or senior officers of the Company have been indebted to the Company or its subsidiary during the financial year ended August 31, 1999.

#### Interest of Insiders In Material Transactions

During the year ended August 31, 1999, the Company incurred management fees of \$30,000 with Thomas R. Tough. The directors and officers of the Company have an interest in the resolutions concerning the election of directors and stock options. Otherwise no director or senior officer of the Company or any associate of the foregoing has any substantial interest, direct or indirect, by way of beneficial ownership of shares or otherwise in the matters to be acted upon at the Meeting, except for any interest arising from the ownership of shares of the Company where the member will receive no extra or special benefit or advantage not shared on a pro rata basis by all holders of shares in the capital of the Company.

#### Particulars of Other Matters to be Acted Upon

##### Directors' and Key Employees' Stock Options

The current Vancouver Stock Exchange (the "Exchange") policies applicable to venture companies provide the following in regard to stock options:

##### Granting of Stock Options

- (a) no more than 10% of the issued share capital of the company can be subject to directors' and employees' stock options at any one time unless the company has adopted a stock option plan;
- (b) no more than 5% of the issued share capital of the company may be reserved for issuance to any one individual at the time of the granting of stock options;
- (c) no more than 2% of the issued share capital of the company may be reserved for issuance to consultants;
- (d) the Exchange does not favour any grant of stock options in excess of 2% of the issued share capital of the company to directors or employees that are employed by the company in an investor relations capacity;
- (e) an Inactive company is not permitted to grant new stock options;
- (f) the exercise price per share must be the greater of: (i) the 10 day average market price of the company's shares within the 10 trading days before the options are actually granted; (ii) \$0.15; or (iii) the share price paid on any public distribution that occurred within 6 months of the stock option grant;
- (g) incentive stock option plans and agreements must contain the following terms: (i) a condition that the option is non-assignable and non-transferable; (ii) a condition that shareholders must approve of the grant of options to Insiders prior to the exercise of those options; (iii) a condition that shareholders must approve of amendments to the stock option agreements if shareholders had already approved the grant of stock options or if the optionee is an Insider of the company at the time of a proposed amendment;
- (h) the maximum option term is 5 years;

### Establishment of Stock Option Plans

- (i) a company must receive Exchange acceptance of a stock option plan prior to granting options pursuant to the plan;
- (j) the Exchange does not favour stock option plans reserving in excess of 20% of the company's issued share capital;
- (k) each stock option plan must have a specified maximum number of shares issuable pursuant to it;

### Amendment of Stock Options Agreements and Stock Option Plans

- (l) the terms of a stock option agreement or plan may be amended without the acceptance of the Exchange if the amendment is reducing the number, increasing the price or canceling the option;
- (m) the option exercise price may be renegotiated lower after six months, subject to Exchange and shareholder approval;
- (n) the entire option may be renegotiated after one year, subject to Exchange and shareholder approval;

### Shareholder Approval

- (o) Disinterested Shareholder Approval (as defined below) of stock options must be obtained where: (i) Insiders who are not directors or senior officers of the company are receiving stock options as consultants of the company; (ii) a stock option plan, together with all of the company's other previously established or proposed stock option grants could result at any time in: (A) the number of shares reserved for issuance pursuant to stock options granted to Insiders exceeding 10% of the outstanding issue; (B) the issuance to Insiders, within a one year period of a number of shares exceeding 10% of the outstanding issue; or (C) the issuance to any one Insider and such Insider's associates, within a one year period of a number of shares exceeding 5% of the outstanding issue;
- (p) where (o)(i) or (o)(ii) applies, the share compensation arrangement must be approved by a majority of the votes cast at the shareholders meeting other than votes attaching to securities beneficially owned by: (i) Insiders to whom shares may be issued pursuant to the stock option plan; and (ii) associates of such Insiders ("Disinterested Shareholder Approval");
- (q) where a share compensation arrangement is to obtain Disinterested Shareholder Approval, all non-voting and subordinate voting shares are to be given full voting rights; and
- (r) a stock option plan that has received the approval of Disinterested Shareholders generally must receive Disinterested Shareholder approval in order to be amended.

Approval from both the members as a whole and Disinterested Shareholders is sought by management to the empowering resolution approving all stock options granted in the past year, all stock option agreements and stock options amended in the past year, and the granting of any stock options, the establishment of any stock option plans, and the amendment of any stock option plans, stock option agreements or stock options by the Company in the ensuing year providing the same are in accordance with the policies of the Exchange and notice thereof is filed with the Exchange. By passing the empowering resolution, members and Disinterested Shareholders will be providing the approvals referred to above in respect of all stock options granted in the past year, the amendment of any stock option agreements and stock options amended in the past year, and the granting of any stock options, the establishment of any stock option plans, and the amendment of any stock option plans, stock option agreements or stock options by the Company in the ensuing year, including all matters concerning stock options of the Company described herein. As a consequence of obtaining the approvals of members and Disinterested Shareholders sought, the Company will not be required to seek further approval of shareholders to any matter concerning stock options in the ensuing year providing such matter is otherwise in accordance with the policies of the Exchange. This approval is requested at this time to save the Company the expense of convening an extraordinary meeting of members specifically for the purpose of approving a specific grant of Insiders' stock options or any amendment to any existing stock option plans, stock option agreements or stock options made after the date of the annual general meeting. Management has no present intention of issuing any additional Insiders' stock options or amending any specific stock option plans or stock option agreements at this time other than as referred to herein.

A copy of the policies of the Exchange is available for review during regular business hours at the office of the Company's solicitor, Werbes Sasges & Company, Suite 708 - 1111 West Hastings Street, Vancouver, B.C. V6E 2J3. The Company will determine the Disinterested Shareholders at the Meeting and record separately in the minutes of the Meeting the determination of (i) all members, including Disinterested Shareholders, and (ii) Disinterested Shareholders on the motion concerning stock options.

#### Stock Options Granted and Exercised in the Past Year

During the financial year ended August 31, 1999, the Company granted the following incentive stock options:

<u>Name of Optionee</u>	<u>Date of Grant</u>	<u>Number of Shares</u>	<u>Expiry Date</u>	<u>Exercise Price</u>
John Loretto	September 17, 1998	50,000	September 16, 2003	\$0.20

During the financial year ended August 31, 1999, the Company did not issue any shares pursuant to the exercise of stock options.

The stock options described were granted in accordance with the policies of the Exchange.

#### Stock Options for the Ensuing Year

The Company intends to reserve 10% of the issued treasury shares of the Company for issuance to directors and key employees pursuant to stock option agreements entered into with them or to be entered into with them subject to regulatory approval and subject to member approval being obtained with respect to options granted to Insiders of the Company. Options granted will be granted in order to provide an optionee with a form of remuneration and an incentive to act in the best interest of the Company.

Each option will terminate at the close of business on the date which is the earlier of (a) 30 calendar days after which the optionee ceases to be a director, officer or employee or (b) such date as the board may determine at the time of grant. Management knows of no other matters to come before the Meeting of members other than referred to in the notice of Meeting. However, if any other matters which are not known to the management of the Company shall properly come before the said Meeting, the form of proxy given pursuant to the solicitation by management of the Company will be voted on such matters in accordance with the best judgment of the persons voting the proxy.

This proxy form is not valid unless it is signed and dated. If someone other than the registered shareholder of the Company signs this proxy on the shareholder's behalf, authorizing documentation acceptable to the Chairman of the meeting must be deposited with this proxy form. See reverse.

Subject to the discretion of the chairman of the meeting, to be effective, this proxy form must be received at the office of Montreal Trust Company of Canada, or the Company, by mail or by fax no later than 48 hours (excluding Saturdays, Sundays and holidays) prior to the time of the meeting. The following are the mailing address and facsimile number of Montreal Trust Company of Canada: Fourth Floor, 510 Burrard Street, Vancouver, British Columbia, V6C 3B9, Facsimile No.: (604) 683-3694.

Notes:

1. If you cannot attend the meeting but wish to vote on the resolutions and to appoint one of the management nominees, please leave the wording appointing the management nominees as shown, sign and date and return the proxy form. You have the right to appoint another person, who need not be a shareholder of the Company, to attend and act for you and on your behalf at the meeting. If you wish to appoint another person, you may do so by crossing off the names of the management nominees and inserting your appointed proxyholder's name in the space provided. Your appointed proxyholder will then have to attend the meeting if your vote is to be counted. You may also appoint an alternate proxyholder to act in the place of an absent proxyholder.
2. The securities represented by this proxy form will be voted or withheld from voting in accordance with your instructions on any poll that may be called for in respect of any resolution and, if you have specified a choice with respect to any matter to be acted upon, the securities will be voted accordingly. Where no choice on a resolution is specified by you, this proxy form confers discretionary authority on your appointed proxyholder. In such case, a nominee of management acting as proxyholder will vote the securities as if you had specified an affirmative vote. With respect to any amendments or variations in any of the resolutions shown on the proxy form, or other matters which may properly come before the meeting, the securities will be voted by the nominee appointed as the nominee in his or her sole discretion sees fit.
3. If you have returned a proxy form and later decide to vote in person, you may do so by attending the meeting. Please register your attendance with the Company's scrutineers at the meeting and inform them that you have previously returned a proxy form.
4. If the proxy form is signed on your behalf by your attorney or, if the shareholder is a corporation, by an officer or attorney for the corporation and is not under the corporation's common seal, the power of attorney or a director's resolution, as the case may be, or a notarial copy thereof, must accompany the proxy form.
5. A Proxy, to be effective, must be deposited at the office of the Company or the Trust Company, as noted above, not less than forty-eight (48) hours (excluding Saturdays, Sundays and holidays) before the time fixed for the Meeting.
