Consolidated Financial Statements

Note 2 – Significant Accounting Policies

Impairment of Long-Lived Assets, page F-10

1. You disclose that you assess impairment of long-lived assets at a regional level because of interdependencies among your locations. Please tell us in detail what these interdependencies are and how they resulted in your conclusion that each region, rather than each location or store, is the lowest level for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities. Please also tell us the names of the specific regions used for grouping and how you determined them. Refer to FASB ASC 360-10-35-23 through 35-25.
