## **1) NATURE OF OPERATIONS**

Rubicon Minerals Corporation (“Rubicon” or “the Company”) is primarily involved in the acquisition, exploration and development of mineral property interests in Canada and the United States. The Company’s key asset is the Phoenix Gold Project in Red Lake, Ontario, Canada. The Company is incorporated and domiciled in British Columbia, Canada. The address of its registered office is Suite 2800 - 666 Burrard Street Vancouver, BC V6C 2Z7. The Company maintains its head office at Suite 1540 – 800 West Pender Street, Vancouver, BC.

The ability of the Company to recover the costs it has incurred to date on its properties, including the Phoenix Gold Project, is dependent upon profitable extraction of gold or other minerals from its properties, the ability of the Company to resolve any environmental, regulatory, or other constraints which may hinder the successful development of its properties, obtaining, if required, financing to complete exploration and development, and upon future profitable production or proceeds from disposition of mineral properties.

Although the Company is unaware of any defects in its title to its mineral properties, no guarantee can be made that none exist.

## **2) BASIS OF PRESENTATION**

### **a) Statement of compliance**

The Company prepares its financial statements in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). These interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, “Interim Financial Reporting” (“IAS 34”). Accordingly, these interim consolidated financial statements follow the same accounting principles and methods of application as the annual consolidated financial statements for the year ended December 31, 2012 except as noted below and may condense or omit certain disclosures that otherwise would be present in annual financial statements prepared in accordance with IFRS. These financial statements should therefore be read in conjunction with the December 31, 2012 financial statements.

### **b) New Accounting Standards, Interpretations and Amendments**

The Company has adopted the following new and revised standards, along with any consequential amendments, effective January 1, 2013. These Changes were made in accordance with the applicable transitional provisions.

IFRS 10, *Consolidated Financial Statements*, replaces the guidance on control and consolidation in IAS 27, Consolidated and Separate Financial Statements, and SIC-12, Consolidation – Special Purpose Entities. IFRS 10 requires consolidation of an investee only if the investor possesses power over the investee, has exposure to variable returns from its involvement with the investee and has the ability to use its power over the investee to affect its returns. Detailed guidance is provided on applying the definition of control. The accounting requirements for consolidation have remained largely consistent with IAS 27.

The Company assessed its consolidation conclusions on January 1, 2013 and determined that the adoption of IFRS 10 did not result in any change in the consolidation status of any of its subsidiaries and investees.

IFRS 13, *Fair value measurement*, provides a single framework for measuring fair value. The measurement of the fair value of an asset or liability is based on assumptions that market participants would use when pricing the asset or liability under current market conditions, including assumptions about risk. The Company adopted IFRS 13 on January 1, 2013 on a prospective basis. The adoption of IFRS 13 did not require any adjustments to the valuation techniques used by the Company to measure fair value and did not result in any measurement adjustments as at January 1, 2013.

The Company has adopted the amendments to IAS 1 effective January 1, 2013. These amendments required the Company to group other comprehensive income items by those that will be reclassified subsequently to profit or loss and those that will not be reclassified. The Company has reclassified comprehensive income items of the comparative period. These changes did not result in any adjustments to other comprehensive income or comprehensive income.

## **2) BASIS OF PRESENTATION** *(continued)*

### **c) Significant accounting judgments and sources of estimation uncertainty**

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts and the valuation of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the period reported. Management uses its best estimates for these purposes, based on assumptions that it believes reflect the most probable set of economic conditions and planned courses of action. While actual results could differ materially from these estimates, no specific sources of estimation uncertainty have been identified by management that are believed to have a significant risk of resulting in a material adjustment within the next financial year to the carrying amount of the Corporation's assets and liabilities as recorded at March 31, 2013.

The most significant judgment made by management in preparing the Company's financial statements is described as follows:

#### *Impairment of Non-Current Non-Financial Assets*

The Company reviews and evaluates the carrying value of each of its non-current non-financial assets for impairment when events or changes in circumstances indicate that the carrying amounts of the related asset may not be recoverable. The identification of such events or changes and the performance of the assessment requires significant judgment. Furthermore, management's estimates of many of the factors relevant to completing this assessment, including commodity prices, foreign currency exchange rates, mineral resources, and operating, capital and reclamation costs, are subject to risks and uncertainties that may further affect the determination of the recoverability of the carrying amounts of its non-current non-financial assets.

## **3) FINANCIAL INSTRUMENTS**

### **Fair value hierarchy**

Financial instruments recognized at fair value on the consolidated balance sheets must be classified into one of the three following fair value hierarchy levels:

Level 1 – measurement based on quoted prices (unadjusted) observed in active markets for identical assets or liabilities;

Level 2 – measurement based on inputs other than quoted prices included in Level 1, that are observable for the asset or liability;

Level 3 – measurement based on inputs that are not observable (supported by little or no market activity) for the asset or liability.

The Company's financial instruments recognized at fair value consist of marketable securities having a fair value of \$581 (2012 - \$712) and were measured in accordance with Level 1 of the above hierarchy.

### **3) FINANCIAL INSTRUMENTS** *(continued)*

The carrying value of cash, guaranteed investment certificates, accounts receivable and accounts payable approximate fair value.

#### **Financial instrument risks**

The Company's financial instruments are exposed to the following risks:

##### *Credit Risk*

The Company's primary exposure to credit risk is the risk of non-payment of cash equivalents amounting to approximately \$43,159 (December 31, 2012 - \$43,983). These cash equivalents are held on deposit with major Canadian banks or in bank guaranteed investment certificates which are guaranteed by a major Canadian bank or by a provincial government.

The Company also has exposure on temporary investments amounting to \$96,265 (December 31, 2012 - \$120,491). These investments are comprised of bank guaranteed investment certificates which are guaranteed by major Canadian banks or by a provincial government. As the Company's policy is to limit excess cash investments to deposits or investments with or guaranteed by major Canadian banks or the federal or a provincial government, the credit risk is considered by management to be negligible.

The Company's credit risk exposure from accounts receivable financial instruments, which excludes HST refunds, at March 31, 2013 amounted to \$3 (December 31, 2012 - \$21).

##### *Liquidity Risk*

The Company's liquidity risk from financial instruments is its need to meet operating accounts payable requirements, commitments and finance lease obligations. The Company maintains sufficient cash balances to meet these needs.

##### *Foreign Exchange Risk*

Foreign exchange risk relates only to US dollar cash balances and as these were minimal for most of the year, this risk is minimal.

##### *Interest Rate Risk*

The Company is exposed to interest rate risk on its cash equivalent and temporary investments. The majority of these investments are in high interest savings accounts and guaranteed investment certificates with pre-determined fixed yields.

A difference in interest rates of 1.0%, on the March 31, 2013 balance of cash and temporary investments, over a year, would result in a change to net income of approximately \$1,473.

### **4) TEMPORARY INVESTMENTS**

Temporary investments consist of guaranteed investment certificates with an original maturity of greater than 90 days, maturing at various dates in 2013, with an aggregate carrying value and market value of \$96,265 at March 31, 2013 (December 31, 2012 - \$120,491) and effective interest rates between 1.25% and 1.90%.

## 5) MARKETABLE SECURITIES

Marketable securities consist of investments in public company shares and have an aggregate carrying value and fair value of \$581 at March 31, 2013 (December 31, 2012 - \$712).

## 6) RESTRICTED CASH AND DEPOSITS

Restricted cash of \$4,322 at March 31, 2013 (December 31, 2012 - \$4,290) consists of temporary investments deposited during 2012 as security for a letter of credit relating to mill equipment purchases and other credit facilities. Deposits consist of \$3,108 at March 31, 2013 (December 31, 2012 - \$3,108) which are held with the Ontario Ministry of Northern Development and Mines as security for reclamation and closure of the Phoenix Gold Project.

	\$ 15,172	\$ 16,673

## 10) FINANCE LEASE OBLIGATION

The Company has entered into a finance lease transaction with respect to several temporary buildings on the mine-site. The lease has a twenty-two month term, carries an incremental borrowing rate of 13%, and allows the Company to purchase the assets at the end of the term for \$50.

	Less than 1 year	More than 1 year	Total
Total future minimum lease payments	\$ 281	\$ 144	\$ 425
Less amount representing interest	(36)	(5)	(41)
	\$ 245	\$ 139	\$ 384

## 11) PROVISION FOR CLOSURE AND RECLAMATION

The Company's provision for closure and reclamation is for its Phoenix Gold project which is currently at the advanced exploration stage. Closure and reclamation activities related to this project will include land rehabilitation, demolition of buildings and processing facilities, ongoing care and maintenance and other costs.

The current estimated value of the future liability is \$3,344 (December 31, 2012 - \$3,357).

## 11) PROVISION FOR CLOSURE AND RECLAMATION *(continued)*

The estimated closure costs of the Phoenix Gold project, based on the current condition of the site, were inflation adjusted to the estimated date of site remediation, which is 14 years from March 31, 2013, and then discounted back to the period end using an estimate of the Company's risk free rate of 1.83%. Accretion of the discount during the period was recorded to interest expense. The revision to the value of the future liability, amounting to a reduction of \$28 (December 31, 2012 – increase of \$1,397), was recognized at the period end with an offsetting amount added to exploration and evaluation assets. The decrease in the estimated closure and reclamation costs are mostly due to changes in interest and inflation rates used to estimate the costs.

Changes to this provision during the period are summarized as follows:

Balance January 1, 2012	\$ 1,923
Accretion	37
Revision of estimate	1,397
Balance December 31, 2012	3,357

(1) The weighted average share price at the time of exercise was \$2.31 (2012 - \$3.33).

## 12) SHARE CAPITAL (continued)

The following is a summary of the Company's outstanding stock options:

Option Price Range	Number Outstanding	Weighted Average Price	Weighted Average Life
		\$	Years
\$0.76 – \$1.04	145,000	1.00	0.08
\$1.31 - \$1.46	1,840,000	1.31	0.75

During the three months ended March 31, 2013, the Company recorded share-based payments expense of \$425 (March 31, 2012 - \$1,653), of which \$67 (March 31, 2012 - \$852) related to exploration and evaluation activities. The fair value of each option is accounted for over the vesting period of the options and the related credit is included in share-based payment reserve.

### b) Stock Appreciation Rights

The following is a summary of the changes in the Company's outstanding stock appreciation rights ("SARS"):

	Three Months Ended March 31, 2013		Year Ended December 31, 2012

Exercisable, end of the period	300,000	3.86	200,000	4.18

## 12) SHARE CAPITAL (continued)

The amount of cash payable under these stock appreciation rights will be an amount that will achieve the same after tax receipt of funds as the exercise of an equivalent number of stock options, followed by an immediate sale of the stock. At March 31, 2013, the total liability outstanding for SARs calculated using the Black-Scholes formula was \$306 (December 31, 2012 - \$276).

## 13) RELATED PARTY TRANSACTIONS

For the three months ended March 31, 2013, the Company incurred legal fees to a law firm, of which a partner is a director of the Company, aggregating to \$300 (March 31, 2012 - \$650). The fees are recorded within professional expenses in these financial statements. As at March 31, 2013, this law firm was owed \$400 (December 31, 2012 - \$100).
