PART I – FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

As used herein, the terms “Company,” “we,” “our,” “us,” “it,” and “its” refer to Solar Energy Limited, a Delaware corporation, unless otherwise indicated. In the opinion of management, the accompanying unaudited financial statements included in this Form 10-Q reflect all adjustments (consisting only of normal recurring accruals) necessary for a fair presentation of the results of operations for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year.

SOLAR ENERGY LIMITED
(A Development Stage Company)
Condensed Notes to the Consolidated Financial Statements
March 31, 2009

NOTE 1 – DESCRIPTION AND HISTORY OF BUSINESS AND BASIS OF PRESENTATION

Solar Energy Limited (the “Company”) is in the development stage according to Financial Accounting Standards Board Statement No. 7 and is currently focusing its attention on raising capital in order to pursue its goals.

The Company was originally incorporated as Taurus Enterprises, Inc. under the laws the State of Delaware on January 5, 1994. In August of 1996, the Company merged with Salvage World, Inc., a private company, changed its name to “Salvage World, Inc.” and reincorporated in the state of Nevada. On December 17, 1997, the Company merged with Solar Energy Limited a Delaware corporation organized on July 24, 1997, and changed the name to “Solar Energy Limited.” The surviving corporation is a Delaware corporation and the authorized shares were changed to 50,000,000 par value \$0.0001.

These unaudited interim financial statements have been prepared in accordance with United States generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q of Regulation S-K. They may not include all information and footnotes required by United States generally accepted accounting principles for complete financial statements. However, except as disclosed herein, there has been no material changes in the information disclosed in the notes to the financial statements for the year ended December 31, 2008 included in the Company’s Annual Report on Form 10-K filed with the Securities and Exchange Commission. The interim unaudited financial statements should be read in conjunction with those financial statements included in the Form 10-K. In the opinion of management, all adjustments considered necessary for a fair presentation, consisting solely of normal and recurring adjustments have been made. Operating results for the three months ended March 31, 2009 are not necessarily indicative of the results that may be expected for the year ending December 31, 2009.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Solar Energy Limited is presented to assist in understanding the Company’s financial statements. The financial statements and notes are representations of the Company’s management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America, and have been consistently applied in the preparation of the financial statements.

Accounting Method

The Company’s financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid investments and short-term debt instruments with original maturities of three months or less to be cash equivalents.

SOLAR ENERGY LIMITED
(A Development Stage Company)
Condensed Notes to the Consolidated Financial Statements
March 31, 2009

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Derivative Instruments

The Financial Accounting Standards Board issued Statement of Financial Accounting Standards (“SFAS”) No. 133, “Accounting for Derivative Instruments and Hedging Activities,” as amended by SFAS No. 137, “Accounting for Derivative Instruments and Hedging Activities – Deferral of the Effective Date of FASB No. 133”, SFAS No. 138, “Accounting for Certain Derivative Instruments and Certain Hedging Activities”, and SFAS No. 149, “Amendment of Statement 133 on Derivative Instruments and Hedging Activities”, which is effective for the Company as of its inception. These statements establish accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. They require that an entity recognize all derivatives as either assets or liabilities in the balance sheet and measure those instruments at fair value.

If certain conditions are met, a derivative may be specifically designated as a hedge, the objective of which is to match the timing of gain or loss recognition on the hedging derivative with the recognition of (i) the changes in the fair value of the hedged asset or liability that are attributable to the hedged risk or (ii) the earnings effect of the hedged forecasted transaction. For a derivative not designated as a hedging instrument, the gain or loss is recognized in income in the period of change. Historically, the Company has not entered into derivatives contracts to hedge existing risks or for speculative purposes.

The Company issued convertible debt and accounts for that debt according to SFAS 133 and subsequent pronouncements. Consequently, management recognizes its convertible debt contract as containing a derivative instrument and accounts for the derivative according to generally accepted accounting principles in the U.S.

During the year ended December 31, 2006, the Company issued a debenture for a total of \$100,000. The debenture included provisions for the conversion of the debt and interest into shares of the Company’s common stock or into CO2 Tonnes to be generated by Planktos, Inc. Since Planktos, Inc. has discontinued operations, the conversion into CO2 Tonnes is no longer available and the debenture is accounted for as a promissory note with fixed interest. See Note 7.

Development Stage Activities

The Company has been in the development stage since inception. The Company has no revenues from its planned operations. The Company is in the development stage according to Financial Accounting Standards Board Statement No. 7 and is currently focusing its attention on raising capital in order to pursue its goals.

Earnings (Loss) Per Share

The Company adopted Statement of Financial Accounting Standards No. 128, which provides for calculation of “basic” and “diluted” earnings per share. Basic earnings (loss) per share includes no dilution and is computed by dividing net income (loss) available to common shareholders by the weighted average common shares outstanding for the period. Diluted earnings (loss) per share reflect the potential dilution of securities that could share in the earnings of an entity similar to fully diluted earnings per share. For the fiscal year 2008, diluted net loss per share was the same as basic net loss per share as the common stock equivalents outstanding were considered anti-dilutive. For the fiscal year 2008, the Company had a net loss from continuing operations and net income from discontinued operations, therefore earnings per share on a fully diluted basis to include common stock equivalents is disclosed.

SOLAR ENERGY LIMITED
(A Development Stage Company)
Condensed Notes to the Consolidated Financial Statements
March 31, 2009

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Earnings (Loss) Per Share - Continued

As of March 31, 2009, the Company had outstanding common stock options of 500,000 and common stock warrants of 1,250,000. The above common stock equivalents were deemed to be antidilutive for the Company during the three months ended March 31, 2009.

As of December 31, 2008, the Company had outstanding common stock options of 500,000 and common stock warrants of 1,250,000. The above common stock equivalents were deemed to be antidilutive for the Company's year end of December 31, 2008.

Fair Value Measurements

The Company's financial instruments as defined by Statement of Financial Accounting Standards No. 107, "Disclosures about Fair Value of Financial Instruments," include cash, trade accounts receivable, accounts payable and related party payables. All instruments are accounted for on a historical cost basis, which, due to the short maturity of these financial instruments, approximates fair value at March 31, 2009 and December 31, 2008.

Effective January 1, 2008, the Company adopted Financial Accounting Standards Board (FASB) SFAS No.157, *Fair Value Measurements* (SFAS 157). The provisions of SFAS 157 are applicable to all of the Company's assets and liabilities that are measured and recorded at fair value. SFAS 157 defines fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants. SFAS 157 establishes a fair value hierarchy that gives the highest priority to observable inputs and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy defined by SFAS 157 are described below.

- Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date. The Company has no Level 1 assets or liabilities; and
- Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. The Company has no Level 2 assets or liabilities; and
- Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data which require the reporting entity to develop its own assumptions. The Company has no Level 3 assets or liabilities.

Going Concern

As of March 31, 2009, the Company had negative working capital of \$1,040,842 and an accumulated deficit of \$15,004,175. The Company is currently seeking out a new business opportunity that might, if successful, mitigate those factors which raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue in existence.

SOLAR ENERGY LIMITED
(A Development Stage Company)
Condensed Notes to the Consolidated Financial Statements
March 31, 2009

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Principles of Consolidation

The March 31, 2009 financial statements include the accounts of Solar Energy Limited and its wholly owned subsidiaries: Hydro; Sunspring; REEL; and D2 Fusion, Inc. All intercompany accounts and transactions have been eliminated in the consolidation.

On November 13, 2008, the Company sold its 45,000,000 restricted shares of Planktos Corp. to Maidon Services Limited for \$200,000 of which \$125,000 in cash was received on closing and \$75,000 was due within fourteen months with an option to convert into Planktos Corp. shares at \$0.25 per share. These financial statements include the losses from January 1, 2008 to November 12, 2008 of Planktos Corp. and its wholly owned subsidiary, Planktos Inc.

Provision for Taxes

Effective November 1, 2007, the Company adopted the Financial Accounting Standards Board (“FASB”) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109* (“FIN 48”). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Additionally, FIN 48 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The adoption of FIN 48 did not have a material impact on the Company’s financial position, results of operation or liquidity.

Income taxes are provided based upon the liability method of accounting pursuant to Statement of Financial Accounting Standards No. 109, “Accounting for Income Taxes.” Under this approach, deferred income taxes are recorded to reflect the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end. A valuation allowance is recorded against deferred tax assets if management does not believe the Company has met the “more likely than not” standard imposed by SFAS No. 109 to allow recognition of such an asset.

Revenue Recognition

The Company recognizes revenue for product sales when there is a mutually executed sales contract, when the products are shipped and title passes to customers, when the contract price and terms are fixed, and when collectibility is reasonably assured.

Use of Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

SOLAR ENERGY LIMITED
(A Development Stage Company)
Condensed Notes to the Consolidated Financial Statements
March 31, 2009

NOTE 3 – GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As shown in the financial statements, the Company has limited cash, no revenues, and an accumulated deficit since the inception of \$15,004,175. These factors indicate that the Company may be unable to continue in existence. The Company is currently putting business plans in place which will, if successful, mitigate these factors which raise substantial doubt about the Company's ability to continue as a going concern. Management's plans includes the following: (1) obtaining funding from private placement sources; (2) obtaining additional funding from the sale of the Company's securities; (3) establishing revenues from commercializing its project; and (4) obtaining loans and grants from various financial institutions, where possible. The financial statements do not include any adjustments related to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue existence.

NOTE 4 – STOCKHOLDERS' EQUITY TRANSACTIONS

There were no transactions for the three months ended March 31, 2009.

NOTE 5 – NOTES PAYABLE - RELATED PARTY

The loan from Regal RV Resorts, Inc., a shareholder, as of December 31, 2008 was \$376,521 of which \$175,000 is uncollateralized and bears no interest while \$201,521 of the loan is uncollateralized and bears 6% per annum and is due upon demand. The accrued interest owing on this loan at March 31, 2009 and December 31, 2008 was \$30,719 and \$27,738, respectively.

NOTE 6 – DEBENTURE PAYABLE

This loan bears interest at 10% per year for a three year term. Principal and interest may be converted into common shares of the Company at an average trading price of the previous 10 days once the holder has given the Company notice of conversion. Upon such notice, the maximum conversion price is \$0.75 per common share. The holder of the debenture also had the right, at its option, to convert the principal and interest amount due into CO2 tons at any time prior to the end of the three year term, at a rate of one United States Dollar (\$1.00) per CO2 ton, subject to Company's ability to deliver such CO2 tons at the time of conversion. During 2008, Planktos Inc. discontinued operations thus eliminating the conversion option into CO2 tons and the market price of the Company's common stock at year end was below the conversion price of \$0.75.

The original \$100,000 debenture was discounted by \$29,551 in order to reflect the derivative portion of the note. During 2008, this discount was amortized by \$18,739 to the full discounted derivative portion of \$29,551 when Planktos Inc. discontinued operations. As of March 31, 2009, the Company owed \$100,000 in principal and accrued interest of \$29,184.

NOTE 7 – STOCK OPTIONS AND WARRANTS

The Company did not issue any new stock options or share purchase warrants during the three months ended March 31, 2009.

NOTE 8 – DISCONTINUED OPERATIONS

In December 2007, the Company's former minority owned subsidiary Planktos Corp.'s wholly owned subsidiary, Planktos Inc., suspended its Iron-Fertilization Prove-Out operations, and initiated negotiations for the sale of the related assets. Accordingly, this business component has been presented as discontinued operations within the consolidated financial statements in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" and EITF 03-13.

As of March 31, 2009 a cumulative loss of \$5,090,953 has been recognized as a loss in discontinued operations.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This *Management's Discussion and Analysis of Financial Condition and Results of Operations* and other parts of this quarterly report contain forward-looking statements that involve risks and uncertainties. Forward-looking statements can be identified by words such as "anticipates," "expects," "believes," "plans," "predicts," and similar terms. Forward-looking statements are not guarantees of future performance and our actual results may differ significantly from the results discussed in the forward-looking statements. Factors that might cause such differences include but are not limited to those discussed in the subsection entitled *Forward-Looking Statements and Factors That May Affect Future Results and Financial Condition* below. The following discussion should be read in conjunction with our financial statements and notes thereto included in this report. Our fiscal year end is December 31. All information presented herein is based on the three month periods ended March 31, 2009.

Discussion and Analysis

The Company's plan of operation for the coming year is to actively pursue development stage assets and emerging businesses with which to merge or acquire. We intend to function as a business incubator for assets and businesses that focus on (i) cost-effective renewable energy sources that do not threaten the environment, and (ii) practical solutions to mitigate the effects of traditional energy sources' unintended consequences concerning global climate change. We will fund the process of driving emerging technologies towards commercial applications through debt or equity offerings tied to our common stock.

We have not yet entered into any agreement, nor do we have any commitment or understanding to enter into or become engaged in any transaction, as of the date of this filing.

The Company's plan of operation over the next twelve months will require a minimum of \$100,000 to identify a suitable business opportunity for development through merger or acquisition. Should the Company decide to develop a business opportunity through merger or acquisition, our funding requirements will change. We will also require up to \$1,000,000 to satisfy current amounts payable. Financing to meet these cash requirements is not currently available.

Results of Operations

During the three month period ended March 31, 2009, the Company was focused on (i) pursuing financing commitments for its plan of operation, (ii) continuing the search for a business opportunity to develop through merger or acquisition, and (iii) satisfying continuous public disclosure requirements.

The Company has not generated any revenues from inception and has discontinued operations. Since we have no current ability to generate revenue, we expect to incur losses for the foreseeable future.

Net Losses

For the period from January 5, 1994 (inception) to March 31, 2009 the Company recorded a net loss of \$15,004,175. Net losses for the three months ended March 31, 2009 were \$25,485 as compared to \$294,581 for the three months ended March 31, 2008. The decrease in net losses over the comparative three month periods can be attributed to the fall in general and administrative expenses as the result of our discontinuation of operations related to "iron fertilization" and "cold fusion". We expect to continue to incur net losses over the next twelve months as we seek out another business opportunity for development through merger or acquisition.

Capital Expenditures

During 2007 Planktos Corp., formerly a majority owned subsidiary of the Company, purchased a research vessel for \$800,000 which vessel was sold during 2008 for \$1,000,000. Otherwise, the Company has expended no significant amount on capital expenditures for the period from inception to March 31, 2009.

Income Tax Expense (Benefit)

The Company may have a prospective income tax benefit resulting from a net operating loss carryforward and start up costs that could offset future operating profits.

Impact of Inflation

The Company believes that inflation has had a negligible effect on operations over the past three years.

Liquidity and Capital Resources

The Company is in the development stage and, since inception, has experienced significant changes in liquidity, capital resources and stockholders' equity. We have been funded since inception from public or private debt or equity placements or by major shareholders in the form of loans. All of our projects have been experimental in nature and virtually all of the financing raised to date has been either allocated for or related to general and administrative or research and the development activities.

The Company had a working capital deficit of \$1,040,842 as of March 31, 2009, up from \$1,015,357 as of December 31, 2008. As of March 31, 2009 our current and total assets were \$40,587, consisting of cash in the amount of \$2,754 and a receivable related to the sale of our interest in Planktos Corp. Our current liabilities totaled \$1,081,429, which included a note payable to a related party of \$376,521, advances payable of \$444,650, and accounts payable with accrued expenses of \$100,355. Net stockholders' deficit in the Company was \$1,040,842 as of March 31, 2009, up from \$1,015,357 at December 31, 2008.

Cash flow used in operating activities was \$9,010,973 for the period from inception to March 31, 2009. Cash flow used in operating activities for the three months ended March 31, 2009 was \$11,099 as compared to \$608,175 for the three months ended March 31, 2008. The decrease in cash flow used in operating activities in the current period was due primarily to the decrease in cash flow used in operating activities and the decrease in cash flow used by discontinued operating activities over the comparative periods.

Cash flow provided by investing activities was \$3,040,494 for the period from inception to March 31, 2009. Cash flow provided by investing activities for the three months ended March 31, 2009 was \$0 as compared to cash flow provided by investing activities of \$1,000,000 for the three months ended March 31, 2008. Cash flows provided by investing activities in the prior period can be attributed to the sale of the research vessel formerly owned by Planktos Corp.

Cash flow provided by financing activities was \$5,973,233 for the period from inception to March 31, 2009. Cash used in financing activities for the three months ended March 31, 2009 was \$0 as compared to cash used in financing activities of \$184,138 for the three months ended March 31, 2008. Cash flow used in financing activities in the prior period can be attributed to the repayment of related party loans and advances.

The Company's current assets are insufficient to conduct its plan of operation over the next twelve months and we will have to seek additional debt or equity financing to fund operations. The Company has no current commitments or arrangements with respect to, or immediate sources of funding. Further, no assurances can be given that funding is available or available to the Company on acceptable terms. The Company's shareholders would be the most likely source of new funding in the form of loans or equity placements though none have made any commitment for future investment and we have no agreement formal or otherwise. The Company's inability to obtain funding has had a material adverse affect on our plan of operation and will continue to diminish our ongoing businesses.

The Company does not expect to pay cash dividends in the foreseeable future.

The Company had no lines of credit or other bank financing arrangements.

The Company has no defined benefit plan or contractual commitment with any of its officers or directors.

The Company has no current plans for the purchase or sale of any plant or equipment.

The Company currently has no employees and has no plans to hire any employees in the near future.

Off Balance Sheet Arrangements

As of March 31, 2009, we have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources that are material to stockholders.

Critical Accounting Policies

In the notes to the audited consolidated financial statements for the year ended December 31, 2008 included in the Company's Form 10-K, the Company discussed those accounting policies that are considered to be significant in determining the results of operations and our financial position. We believe that the accounting principles utilized by us conform to accounting principles generally accepted in the United States of America.

The preparation of financial statements requires management to make significant estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. By their nature, these judgments are subject to an inherent degree of uncertainty. On an on-going basis, we evaluate our estimates, including those related to bad debts, inventories, intangible assets, warranty obligations, product liability, revenue, and income taxes. We base our estimates on historical experience and other facts and circumstances that are believed to be reasonable, and the results form the basis for making judgments about the carrying value of assets and liabilities. The actual results may differ from these estimates under different assumptions or conditions.

Going Concern

The Company's audit expressed substantial doubt as to the Company's ability to continue as a going concern as a result of recurring losses, lack of revenue-generating activities and an accumulated deficit of \$14,978,690 as of December 31, 2008. Our accumulated deficit increased to \$15,004,175 as of March 31, 2009. The Company's ability to continue as a going concern is subject to our ability to obtain funding from outside sources. Management's plan to address our ability to continue as a going concern, include: (i) obtaining funding from private placement sources; (ii) obtaining additional funding from the sale of our securities; (iii) generating revenues from the development of a business opportunity through acquisition or merger; and (iv) obtaining loans and grants from various financial institutions, where possible. Although management believes that it will be able to obtain the necessary funding to allow us to remain a going concern through the methods discussed above, there can be no assurances that such methods will prove successful.

Forward Looking Statements and Factors That May Affect Future Results and Financial Condition

The statements contained in the section titled *Management's Discussion and Analysis of Financial Condition and Results of Operations*, with the exception of historical facts, are forward looking statements. A safe-harbor provision may not be applicable to the forward looking statements made in this current report. Forward looking statements reflect our current expectations and beliefs regarding our future results of operations, performance, and achievements. These statements are subject to risks and uncertainties and are based upon assumptions and beliefs that may or may not materialize. These statements include, but are not limited to, statements concerning:

- the sufficiency of existing capital resources;
- our anticipated financial performance;
- our ability to raise additional capital to fund cash requirements for future operations;
- uncertainties related to the development of our technologies;
- the volatility of the stock market; and
- general economic conditions.

We wish to caution readers that our operating results are subject to various risks and uncertainties that could cause our actual results to differ materially from those discussed or anticipated including the factors set forth in the section entitled *Risk Factors* included elsewhere in this report. We also wish to advise readers not to place any undue reliance on the forward looking statements contained in this report, which reflect our beliefs and expectations only as of the date of this report. We assume no obligation to update or revise these forward looking statements to reflect new events or circumstances or any changes in our beliefs or expectations, other than is required by law.

Stock-Based Compensation

We have adopted Financial Accounting Standards Board ("FASB") No. 123 (revised 2004) (Statements of Financial Accounting Standards ("SFAS") No. 123R), Share-Based Payment, which addresses the accounting for stock-based payment transactions in which an enterprise receives employee services in exchange for (a) equity instruments of the enterprise or (b) liabilities that are based on the fair value of the enterprise's equity instruments or that may be settled by the issuance of such equity instruments.

We account for equity instruments issued in exchange for the receipt of goods or services from other than employees in accordance with SFAS No. 123 and the conclusions reached by the Emerging Issues Task Force (“EITF”) in Issue No. 96-18. Costs are measured at the estimated fair market value of the consideration received or the estimated fair value of the equity instruments issued, whichever is more reliably measurable. The value of equity instruments issued for consideration other than employee services is determined on the earliest of a performance commitment or completion of performance by the provider of goods or services as defined by EITF 96-18.

Recent Accounting Pronouncements

In November 2008, the FASB issued EITF No. 08-7, *Accounting for Defensive Intangible Assets* (“EITF 08-7”). EITF 08-07 applies to all acquired intangible assets in which the acquirer does not intend to actively use the assets but intends to hold (lock up) the asset to prevent its competitors from obtaining access to the asset (a defensive asset), assets that the acquirer will never actually use, as well as assets that will be used by the acquirer during a transmission period when the intention of the acquirer is to discontinue the use of those assets. EITF 08-7 is effective as of January 1, 2009. The Company does not expect the adoption of EITF 08-7 to have a material impact on its consolidated financial statements.

In June 2008, the FASB issued Staff Position EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities*, (“FSP EITF 03-6-1”). FSP EITF 03-6-1 addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting, and therefore need to be included in the computation of earnings per share under the two-class method as described in FASB SFAS No. 128, “Earnings per Share.” FSP EITF 03-6-1 is effective for financial statements issued for fiscal years beginning on or after December 15, 2008 and earlier adoption is prohibited. We are not required to adopt FSP EITF 03-6-1; neither do we believe that FSP EITF 03-6-1 would have material effect on our consolidated financial position and results of operations if adopted.

In May, 2008, the FASB issued SFAS No. 163, *Accounting for Financial Guarantee Insurance Contracts—an interpretation of FASB Statement No. 60* (“SFAS 163”). SFAS 163 requires that an insurance enterprise recognize a claim liability prior to an event of default (insured event) when there is evidence that credit deterioration has occurred in an insured financial obligation. SFAS 163 also clarifies how SFAS 60 applies to financial guarantee insurance contracts, including the recognition and measurement to be used to account for premium revenue and claim liabilities. Those clarifications will increase comparability in financial reporting of financial guarantee insurance contracts by insurance enterprises. SFAS 163 requires expanded disclosures about financial guarantee insurance contracts. The accounting and disclosure requirements of SFAS 163 will improve the quality of information provided to users of financial statements. SFAS 163 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and all interim periods within those fiscal years, except for some disclosures about the insurance enterprise’s risk-management activities. SFAS 163 requires that disclosures about the risk-management activities of the insurance enterprise be effective for the first period (including interim periods) beginning after issuance of SFAS 163. Except for those disclosures, earlier application is not permitted. The adoption of this statement will have no material effect on the Company’s financial condition or results of operations.

In May, 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (“SFAS No. 162”). SFAS 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). The sources of accounting principles that are generally accepted are categorized in descending order of authority as follows:

- a. FASB Statements of Financial Accounting Standards and Interpretations, FASB Statement 133 Implementation Issues, FASB Staff Positions, and American Institute of Certified Public Accountants (AICPA) Accounting Research Bulletins and Accounting Principles Board Opinions that are not superseded by actions of the FASB
- b. FASB Technical Bulletins and, if cleared by the FASB, AICPA Industry Audit and Accounting Guides and Statements of Position
- c. AICPA Accounting Standards Executive Committee Practice Bulletins that have been cleared by the FASB, consensus positions of the FASB Emerging Issues Task Force (EITF), and the Topics discussed in Appendix D of *EITF Abstracts* (EITF D-Topics)
- d. Implementation guides (Q&As) published by the FASB staff, AICPA Accounting Interpretations, AICPA Industry Audit and Accounting Guides and Statements of Position not cleared by the FASB, and practices that are widely recognized and prevalent either generally or in the industry.

The adoption of SFAS 162 will have no material effect on the Company's financial condition or results of operations.

In March 2008, the FSAB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133" (SFAS No. 161). SFAS 161 changes the disclosure requirements for derivative instruments and hedging activities. Entities are required to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. SFAS 161 is intended to enhance the current disclosure framework in Statement 133. SFAS 161 requires that objectives for using derivative instruments be disclosed in terms of underlying risk and accounting designation. This disclosure better conveys the purpose of derivative use in terms of the risks that the entity is intending to manage. Disclosing the fair values of derivative instruments and their gains and losses in a tabular format should provide a more complete picture of the location in an entity's financial statements of both the derivative positions existing at period end and the effect of using derivatives during the reporting period. Disclosing information about credit-risk-related contingent features should provide information on the potential effect on an entity's liquidity from using derivatives. Finally, SFAS 161 requires cross-referencing within the footnotes, which should help users of financial statements locate important information about derivative instruments. The adoption of SFAS 161 will have no material effect on the Company's financial condition or results of operations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not required.

ITEM 4T. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

In connection with the preparation of this report on Form 10-Q, an evaluation was carried out by the Company's management, with the participation of the chief executive officer and the chief financial officer, of the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 ("Exchange Act")). Disclosure controls and procedures are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Commission's rules and forms and that such information is accumulated and communicated to management, including the chief executive officer and the chief financial officer, to allow timely decisions regarding required disclosures.

Based on that evaluation, the Company's management concluded, as of the end of the period covered by this report, that the Company's disclosure controls and procedures were effective in recording, processing, summarizing, and reporting information required to be disclosed, within the time periods specified in the Commission's rules and forms, and that such information was accumulated and communicated to management, including the chief executive officer and the chief financial officer, to allow timely decisions regarding required disclosures.

Changes in Internal Control over Financial Reporting

There have been no changes in internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) during the period ended March 31, 2009, that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Legal proceedings were initiated by Mary Ruth Ladd against the Company, Planktos Corp. and certain individuals affiliated to the Company on October 3, 2007 in the Superior Court of the State of California, County of San Francisco in connection with allegations of discrimination and retaliation against a whistle blower, wrongful termination, fraud, breach of contract, wrongful business acts and intentionally causing injury in the workplace. The claim seeks \$58,280 in lost wages in addition to certain employee benefits and punitive damages. The Company has retained counsel to respond to these allegations and denies any liability for these alleged causes of action.

ITEM 1A. RISK FACTORS

The Company's operations and securities are subject to a number of risks. Below we have identified and discussed the material risks that we are likely to face. Should any of the following risks occur, they will adversely affect our operations, business, financial condition and/or operating results as well as the future trading price and/or the value of our securities.

Risks Related to the Company's Business

The Company's ability to continue as a going concern is in question

The Company's auditors included an explanatory statement in Note 2 of their report of financial statements for the years ended December 31, 2008 and 2007, stating that there are certain factors which raise substantial doubt about the Company's ability to continue as a going concern. These factors include a lack of revenue generating activities in place and losses since inception.

We have a history of significant operating losses and such losses may continue in the future

Since our inception in 1994, our operations have resulted in a continuation of losses and an accumulated deficit of \$15,004,175 at March 31, 2009. The Company has never realized revenue from operations. We expect to continue to incur operating losses as we seek ways to identify additional business opportunities while maintaining operations and satisfying public disclosure obligations. Should we be unable to transition current losses to future profits by developing or acquiring a revenue producing business, our ability to maintain operations will be severely compromised.

Our business will not be profitable in the next twelve months and may never be profitable.

All of our research and development operations are currently suspended and as such we have no expectation of realizing profitable operations within the next twelve months or ever. Any possibility of future profit from operations is highly speculative.

The Company's limited financial resources cast severe doubt on its ability to develop or acquire a profitable business opportunity.

The Company's future operation is dependent upon the development or acquisition of a profitable business opportunity. However, the prospect of such development or acquisition is doubtful due to the Company's limited financial resources. Further, due to the suspension of all research and development activities, the Company is not in a favorable position to improve its financial condition through debt or equity offerings. Ultimately, this limitation may cause us to cease operations.

Our limited financial resources cast severe doubt on our ability to pursue our business plan of incubating new business opportunities.

The Company's future operation is dependent upon its ability to realize sufficient financing to incubate business opportunities through merger or acquisition. We cannot be certain that financing for our intended purpose will be forthcoming. Our inability to finance new business opportunities will prevent us from developing our business plan and may act as a deterrent in any future negotiations with merger or acquisition candidates. Should the Company be unable to realize financing and develop what might become a profitable business opportunity, it will, in all likelihood, be forced to cease operations.

Risks Related to the Company's Stock

The Company will need to raise additional capital to fund operations which could adversely affect our shareholders

The Company will need to raise additional capital. However, we have no commitment from any source of financing to provide us with this necessary additional capital. Should we secure a commitment to provide us with capital such commitment may obligate us to issue additional shares of the Company's common stock or warrants or other rights to acquire common stock which will result in dilution to existing shareholders. Nonetheless, if we are unable to obtain additional capital, then we will need to restrict or even cease operations, which action would adversely affect our shareholders.

The market for our stock is limited and our stock price may be volatile.

The market for our common stock has been limited due to low trading volume and the small number of brokerage firms acting as market makers. Because of the limitations of our market and volatility of the market price of our stock, investors may face difficulties in selling shares at attractive prices when they want to. The average daily trading volume for our stock has varied significantly from week to week and from month to month, and the trading volume often varies widely from day to day.

We incur significant expenses as a result of the Sarbanes-Oxley Act of 2002, which expenses may continue to negatively impact our financial performance.

We incur significant legal, accounting and other expenses as a result of the Sarbanes-Oxley Act of 2002, as well as related rules implemented by the Commission, which control the corporate governance practices of public companies. Compliance with these laws, rules and regulations, including compliance with Section 404 of the Sarbanes-Oxley Act of 2002, as discussed in the following risk factor, has substantially increased our expenses, including legal and accounting costs, and made some activities more time-consuming and costly. Further, expenses related to our compliance may increase in the future, as legislation affecting smaller reporting companies comes into effect that may negatively impact our financial performance to the point of having a material adverse effect on our results of operations and financial condition.

Our internal controls over financial reporting may not be considered effective in the future, which could result in a loss of investor confidence in our financial reports and in turn have an adverse effect on our stock price.

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 we are required to furnish a report by our management on our internal controls over financial reporting. Such report must contain, among other matters, an assessment of the effectiveness of our internal controls over financial reporting as of the end of the year, including a statement as to whether or not our internal controls over financial reporting are effective. This assessment must include disclosure of any material weaknesses in our internal controls over financial reporting identified by management. If we are unable to continue to assert that our internal controls are effective, our investors could lose confidence in the accuracy and completeness of our financial reports, which in turn could cause our stock price to decline.

The Company's shareholders may face significant restrictions on their stock.

The Company's stock differs from many stocks in that it is a "penny stock." The Commission has adopted a number of rules to regulate "penny stocks" including, but not limited to, those rules from the Securities Act as follows:

- | | |
|--------|---|
| 3a51-1 | which defines penny stock as, generally speaking, those securities which are not listed on either NASDAQ or a national securities exchange and are priced under \$5, excluding securities of issuers that have net tangible assets greater than \$2 million if they have been in operation at least three years, greater than \$5 million if in operation less than three years, or average revenue of at least \$6 million for the last three years; |
| 15g-1 | which outlines transactions by broker/dealers which are exempt from 15g-2 through 15g-6 as those whose commissions from traders are lower than 5% total commissions; |
| 15g-2 | which details that brokers must disclose risks of penny stock on Schedule 15G; |
| 15g-3 | which details that broker/dealers must disclose quotes and other information relating to the penny stock market; |
| 15g-4 | which explains that compensation of broker/dealers must be disclosed; |
| 15g-5 | which explains that compensation of persons associated in connection with penny stock sales must be disclosed; |
| 15g-6 | which outlines that broker/dealers must send out monthly account statements; and |
| 15g-9 | which defines sales practice requirements. |

Since the Company's securities constitute a "penny stock" within the meaning of the rules, the rules would apply to us and our securities. Because these rules provide regulatory burdens upon broker-dealers, they may affect the ability of shareholders to sell their securities in any market that may develop; the rules themselves may limit the market for penny stocks. Additionally, the market among dealers may not be active. Investors in penny stock often are unable to sell stock back to the dealer that sold them the stock. The mark-ups or commissions charged by the broker-dealers may be greater than any profit a seller may make. Because of large dealer spreads, investors may be unable to sell the stock immediately back to the dealer at the same price the dealer sold the stock to the investor. In some cases, the stock may fall quickly in value. Investors may be unable to reap any profit from any sale of the stock, if they can sell it at all. Shareholders should be aware that, according to Commission Release No. 34-29093 dated April 17, 1991, the market for penny stocks has suffered from patterns of fraud and abuse. These patterns include:

- control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer;
- manipulation of prices through prearranged matching of purchases and sales and false and misleading press releases;
- "boiler room" practices involving high pressure sales tactics and unrealistic price projections by inexperienced sales persons;
- excessive and undisclosed bid-ask differentials and markups by selling broker-dealers; and
- the wholesale dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired level, along with the inevitable collapse of those prices with consequent investor losses.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS
None.

ITEM 3. DEFAULTS ON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

CERTIFICATION OF CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER
PURSUANT TO RULE 13a-14 OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED,
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Michael James Gobuty, certify that:

1. I have reviewed this report on Form 10-Q of Solar Energy Limited;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e) and internal control over financial reporting (as defined in the Exchange Act Rules 13a-15(f) and 15d-15(f) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER
PURSUANT TO 18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO SECTION 906 OF THE
SARBANES-OXLEY ACT OF 2002

In connection with the report on Form 10-Q of Solar Energy Limited for the quarterly period ended March 31, 2009 as filed with the Securities and Exchange Commission on the date hereof, I, Michael James Gobuty, do hereby certify, pursuant to 18 U.S.C. §1350, as adopted pursuant to §906 of the Sarbanes-Oxley Act of 2002, that, to the best of my knowledge and belief:

- (1) This report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in this report fairly represents, in all material respects, the financial condition of the registrant at the end of the period covered by this report and results of operations of the registrant for the period covered by this report.

Date: May 20, 2009

/s/ Michael James Gobuty

Michael James Gobuty

Chief Executive Officer and Chief Financial Officer

This certification accompanies this report pursuant to §906 of the Sarbanes-Oxley Act of 2002 and shall not, except to the extent required by the Sarbanes-Oxley Act of 2002, be deemed filed by the registrant for the purposes of §18 of the Securities Exchange Act of 1934, as amended. This certification shall not be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended (whether made before or after the date of this report), irrespective of any general incorporation language contained in such filing.

A signed original of this written statement required by §906 has been provided to the registrant and will be retained by the registrant and furnished to the Securities and Exchange Commission or its staff upon request.
