Homestead Bancorp, Inc. and Subsidiary

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

September 30, 2001

**Note 1 - Basis of Presentation -**

The accompanying consolidated financial statements for the period ended September 30, 2001 include the accounts of Homestead Bancorp, Inc. (the "Company") and its wholly owned subsidiary, Homestead Bank (the "Bank"). Currently, the business and management of Homestead Bancorp, Inc. is primarily the business and management of the Bank. All significant intercompany transactions and balances have been eliminated in the consolidation.

The accompanying unaudited financial statements were prepared in accordance with instructions for Form 10-QSB and, therefore, do not include information or footnotes necessary for complete presentation of financial position, results of operations and cash flows in conformity with generally accepted accounting principles. However, all adjustments (consisting only of normal recurring accruals) which, in the opinion of management, are necessary for a fair presentation of the financial statements have been included.

**Note 2 - Employee Stock Ownership Plan -**

The Company sponsors a leveraged employee stock ownership plan (ESOP) that covers all employees who have at least six months of service with the Company, and obtained age 20. The ESOP shares initially were pledged as collateral for its debt. The debt is being repaid based on a ten-year amortization and the shares are being released for allocation to active employees annually over the ten-year period. The shares pledged as collateral are deducted from stockholder's equity as unearned ESOP shares in the accompanying balance sheets. ESOP compensation expense was \$62,224 for the nine months ended September 30, 2001 based on the annual release of shares.

**Note 3 - Dividends and Earnings Per Share -**

The Company declared a quarterly dividend of \$.06 for the first, second and third quarters of 2001. Total dividends paid to stockholders in the first nine months of 2001 was \$170,000.

Basic earnings per share is computed by dividing net income by the weighted average number of shares of common stock outstanding, which is 905,253 for the nine month period ended September 30, 2001. Earnings per common share - assuming dilution, are computed by dividing net income by the weighted average number of shares of common stock outstanding plus the effect of diluted securities, which was 1,038,053 for the nine month period ended September 30, 2001.

**Homestead Bancorp, Inc. and Subsidiary**  
**Managements Discussion and Analysis**  
**of Financial Condition and Results of Operations**

September 30, 2001

**General**

The following discussion compares the consolidated financial condition of Homestead Bancorp, Inc. (the "Company") and Subsidiary, Homestead Bank (the "Bank") at September 30, 2001 to December 31, 2000 and the results of operations for the three and nine month periods ended September 30, 2001 with the same periods in 2000. Currently, the business and management of Homestead Bancorp, Inc. is primarily the business and management of the Bank. This discussion should be read in conjunction with the interim consolidated financial statements and footnotes included herein.

The Company and Bank's results of operations depends primarily on its net interest income, which is the difference between interest income on interest-earning assets and interest expense on interest bearing liabilities. The Company's principle interest-earning assets are loans and leases, mortgage-backed securities and investment securities. The Company's results of operations also are affected by the provision for losses on loans and leases; the level of its other income, including loan fees and service charges, federal insurance premiums, net real estate owned expense and miscellaneous other expenses; as well as its income tax expense.

**Changes in Financial Condition**

At September 30, 2001, the Company's total assets, deposits and equity amounted to \$120 million, \$53.2 million, and \$12.3 million respectively compared to \$111.6 million, \$41.5 million, and \$12.4 million respectively at December 31, 2000. The increase in total assets of \$8.4 million or 7.6% was due primarily to an increase of \$9.2 million in interest bearing deposits offset by a decrease in the net loan and lease portfolio of 3.4 million or 4.2%. The increase in interest-bearing deposits was due primarily to an increase in deposits. The decrease in the net loan and lease portfolio was due to loan sales and repayments exceeding loan originations. Investments in Mortgage-Backed securities increased in the first nine months of 2001 by \$1.4 million or 7%, due to new purchases of Mortgage-Backed securities exceeding repayments.

The Company's short term borrowing from the Federal Home Loan Bank decreased during the first nine months of 2001 by \$7.3 million or 24.5%. The Bank uses the proceeds from short term borrowing to finance the purchase of mortgage-backed securities and fund long term fixed rate mortgages. The Company's long term borrowing from the Federal Home Loan Bank increased during the first nine months of 2001 by \$4.4 million or 16.4%. Homestead uses the proceeds from long term borrowing to fund long term fixed rate mortgages. Deposits with the Bank have increased by \$11.7 million or 28.2% in the first nine months of 2001, due primarily to the bank offering some new higher yielding certificate of deposits. Other liabilities

decreased in the first nine months of 2001 by \$333,000. The equity of the Company decreased \$27,000 or .22% in the first nine months of 2001, due primarily to net income of \$417,000 offset by the repurchase of the Company's common stock in the stock repurchase plan of \$563,000 and dividends paid out of \$170,000. At September 30, 2001 the Company had repurchased \$4.6 million of its common stock. This amount appears in the equity section of the Statement of Financial Condition as Treasury Stock.

### Capital

The Bank is subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory--and possible additional discretionary---actions by regulators that, if undertaken, could have a direct material effect on the Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of the Bank's assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices. The Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weighting, and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and ratios (set forth in the table below) of total and Tier 1 capital (as defined in the regulations) to risk-weighted assets (as defined), and of Tier 1 capital (as defined) to average assets (as defined). Management believes, as of September 30, 2001, that the Bank meets all capital adequacy requirements to which it is subject.

As of September 30, 2001, the most recent notification categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized the Bank must maintain minimum total risk-based, Tier I risk based, and Tier I leverage ratios as set forth in the table. There are no conditions or events since that notification that management believes have changed the institution's category.

The Bank's actual capital amounts and ratios are also presented in the table.

	<u>Actual</u>		<u>For Capital Adequacy Purposes:</u>		<u>To Be Well Capitalized Under Prompt Corrective Action Provisions:</u>	
	<u>Amount</u>	<u>Ratio</u>	<u>Amount</u>	<u>Ratio</u>	<u>Amount</u>	<u>Ratio</u>
(Dollars in Thousands)						
As of September 30, 2001:						
Total Capital (to Risk Weighted Assets)	\$ 11,542	19.84%	\$ 4,655	≥ 8.0%	\$ 5,819	≥ 10.0%
Tier I Capital (to Risk Weighted Assets)	\$ 11,217	19.28%	\$ 2,327	≥ 4.0%	\$ 3,491	≥ 6.0%
Tier I Capital (to Average Assets)	\$ 11,217	9.36%	\$ 4,794	≥ 4.0%	\$ 5,992	≥ 5.0%

## **Liquidity**

The Bank is required under applicable federal regulations to maintain specific levels of “liquid” investments in qualifying types of United States Government, federal agency and other investments having maturities of five years or less. Current regulations require that a Savings institution maintain liquid assets of not less than 4% of its average daily balance of net withdrawable shares.

## **Results of Operations**

Net income for the first nine months of 2001 was \$417,000 compared to \$522,000 for the same period of 2000. The decrease in net income of \$105,000 or 20.1%, was primarily due to an increase in non-interest expense of \$308,000 or 19.4%, offset by an increase in net interest income after provision for (recovery of) loan and lease losses of \$8,000 or .37%, combined with an increase in non-interest income of \$151,000 or 62.6%. The increase in non-interest income is due to a increase in gain on sale of loans of \$66,000 combined with an increase in loan fees and service charges of \$62,000. Compensation expense increased by \$139,000 or 16.5%, due to the hiring of additional employees for the new branch office and the increase in salaries.

Net income for the three months ended September 30, 2001 was \$107,000 compared to \$185,000 for the same period of 2000. The decrease in net income of \$78,000 or 42.2%, was primarily due to an increase in non-interest expense of \$145,000 or 27.6%, combined with a decrease in net interest income after provision for (recovery of) loan and lease losses of \$18,000 or 2.51%, offset by an increase in non-interest income of \$41,000 or 44.1%. The increase in non-interest income is due to a increase in loan fees and services of \$46,000. Compensation expense increased by \$52,000 or 18.0%, due to the hiring of additional employees for the new branch and the increase in salaries.

## **Net Interest Income**

The primary source of earnings for the Company is net interest income; the difference between income generated from interest-earning assets less interest expense on interest-bearing liabilities. The primary factors that affect interest income are changes in the volume and type of interest-earning assets and interest-bearing liabilities, along with changes in market rates. Net interest income for the first nine months of 2001 was \$2.2 million an increase of \$12,000 or .56% over the same period of 2000. This increase in net interest income was primarily attributable to a decrease in interest expense of \$20,000 or .52% offset by a decrease in interest income of \$8,000 or .13%, over the same period of 2000. Factors contributing to the decrease in interest expense was a decrease in advances from Federal Home Loan Bank offset with an increase in interest on deposits.

Net interest income for the first three months of 2001 was \$705,000 a decrease of \$19,000 or 2.6% over the same period of 2000. This decrease in net interest income was primarily attributable to a decrease in interest income of \$139,000 or 6.6%, offset by a decrease in interest expense of \$120,000 or 8.7% over the same period of 2000. Interest rate spread is the yield of interest-earning assets minus the costs of interest-bearing liabilities. The interest rate spread for the nine months ended September 30, 2001 and 2000 was 2.18% and 2.10% respectively.

The table of Consolidated Average Balance Sheets and Interest Rate Analysis for the nine months ended September 30, 2001 and 2000 on page 12, and the corresponding table of Interest Differentials on page 13, detail the effect the change in average balances and the change in interest yield and interest cost have on net interest income for the respective periods.

### **Nonperforming Assets**

Nonperforming assets include non-accrual loans and leases and real estate owned. Loans are considered non-accrual when the principal or interest becomes 91 days past due or when there is uncertainty about the repayment of the principal and interest in accordance with the terms of the loans. Non-accrual loans at September 30, 2001 were \$199,000 compared to \$495,000 at September 30, 2000. The percentage of non-accrual loans and leases to total loans and leases at September 30, 2001 is .25% down from .61% at September 30, 2000.

Real estate owned is properties held for sale acquired through foreclosure or negotiated settlements of debt. At September 30, 2001 the Bank had real estate owned of \$105,000 compared to \$0 at September 30, 2000. Nonperforming assets at September 30, 2001 were .25% of total assets compared to .44% at September 30, 2000.

### **Current Events**

In the second quarter of 2001, Homestead Bank opened a branch office located in Walker, La. Walker is a residential community located about 20 miles east of Baton Rouge, La.
