OPENLIMIT, INC.

(A Development Stage Company)

Notes to the Interim Consolidated Financial Statements

June 30, 2005

US Funds

Unaudited

1. Organization and Going Concern

OPENLiMiT, Inc. ("OPENLiMiT") is a technology and marketing company. The Company is headquartered in Baar, Switzerland, and maintains several wholly-owned companies and subsidiaries in Switzerland and Germany. The wholly-owned companies and subsidiaries perform various functions, including product development, business development, support of partner distribution companies, licensing, consulting, and training.

The Company is a pioneer and leader in the development of electronic signature and encryption software, enhancing the security, provability and efficiency of electronic business transactions, electronic workflow, communication processes and data. The Company has developed software solutions for the private and public sector.

OPENLiMiT markets its product via a two-channel strategy: the Original Equipment Manufacturer ("OEM") Strategy and a direct sales strategy. OEM-Partners market software solutions, targeting mainly large businesses and the public sector. The modular software may be integrated in existing IT-Infrastructures or modules are licensed for the integration in stand-alone software solutions for third party sellers. The direct sales strategy is focused on marketing the OPENLiMiT products to individuals and small and medium-sized companies.

Going Concern and Liquidity Considerations

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates, among other things, the realization of assets and satisfaction of liabilities in the normal course of business. As at June 30, 2005, the Company has a loss from operations, an accumulated deficit of \$10,203,094 and has incurred an accumulated operating cash flow deficit of \$7,179,120 since incorporation. The Company intends to fund operations through sales and equity financing arrangements, which may be insufficient to fund its capital expenditures, working capital and other cash requirements for the year ending December 31, 2005.

Thereafter, the Company will be required to seek additional funds, either through sales and/or equity financing, to finance its long-term operations. The successful outcome of future activities cannot be determined at this time, and there is no assurance that, if achieved, the Company will have sufficient funds to execute its intended business plan or generate positive operating results.

In response to these conditions, management intends to raise additional funds through future private placement offerings. Management expects its increased marketing efforts to result in additional future sales. There can be no assurances, however, that management's expectations of future sales will be realized.

These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty.

OPENLIMIT, INC.*(A Development Stage Company)***Notes to the Interim Consolidated Financial Statements****June 30, 2005***US Funds**Unaudited***2. Significant Accounting Policies**

These interim consolidated financial statements follow the same accounting policies and methods of their application as the most recent annual financial statements. These interim financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2004.

3. Rights and Technology

In 2003, the Company purchased, from a related party, the exclusive rights to use the digital signature and encryption software. As consideration, the Company issued 39,800,000 common shares. This was a related party transaction and the shares, at that time were not public and did not have a quotable market value, therefore the right as well as the consideration given up (being the issuance of shares) have been recorded at the related party's cost base, which has been deemed to be a nominal value of \$1.

4. Property and Equipment

Details are as follows:

		Cos		Accumulated Depreciation		Net Book Value June 30, 2005		Net Book Value December 31
Office and computer equipment	\$	466,19	\$	326,110	\$	140,088	\$	152,357

5. Related Party Balances and Transactions

The amounts due to related party are with a director and officer of the Company, are non-interest bearing and due on demand.

Included in consulting and salaries are:

- \$225,548 (2004 - \$197,994) paid to directors and companies controlled by directors
 - \$85,602 (2004 - \$9,124) paid to officers or former officers of the Company
-

9. Subsequent events

a) On July 15, 2005, the Company sold for CHF 1.00, to an unrelated party, two wholly owned subsidiaries of its own subsidiary OPENLiMiT Holding AG ("OPENLiMiT AG"): OPENLiMiT Access Marketing AG, headquartered in Baar, Switzerland, and OPENLiMiT Access Marketing AG, headquartered in Berlin, Germany. The decision to sell these subsidiaries was based on management's intent to focus resources on product development and the Original Equipment Manufacturer sales marketing strategy, which indicates the greatest potential for future revenues.

b) On August 1, 2005, the board of directors of the Company agreed to a spin-off of all issued and outstanding shares of its 100% owned subsidiary OPENLiMiT Holding AG. OPENLiMiT Holding AG is the only significant asset of the Company. After completion of this transaction, the shares of OPENLiMiT Holding AG will be listed on the Berlin Stock Exchange. The shares of OPENLiMiT Holding AG are expected to start trading on the Berlin Stock Exchange around September 1, 2005. Thereafter, OPENLiMiT Holding AG will also apply to have its shares trade on the Frankfurt Stock Exchange.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS

This report and the exhibits attached hereto contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The forward-looking statements include, without limitation, statements as to management's good faith expectations and beliefs, which are subject to inherent uncertainties which are difficult to predict and may be beyond the ability of the Company to control. Forward-looking statements are made based upon management's expectations and belief concerning future developments and their potential effect upon the Company. There can be no assurance that future developments will be in accordance with management's expectations or that the effect of future developments on the Company will be those anticipated by management.

The words "believes," "expects," "intends," "plans," "anticipates," "hopes," "likely," "will," and similar expressions identify such forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause the actual results, performance or achievements of the Company, or industry results, to differ materially from future results, performance or achievements expressed or implied by such forward-looking statements.

These risks and uncertainties, many of which are beyond our control, include (i) the sufficiency of existing capital resources and the Company's ability to raise additional capital to fund cash requirements for future operations; (ii) uncertainties involved in the rate of growth of the Company's business and acceptance of products and services; (iii) the ability of the Company to achieve and maintain a sufficient customer base to have sufficient revenues to fund and maintain operations; (iv) uncertainties connected to the anticipated separation from OPENLiMiT Holding AG; (v) whether the Company will be able to sustain operations as a "shell company"; (vi) volatility of the stock market; and (viii) general economic conditions. Although the Company believes that the expectations reflected in these forward-looking statements are reasonable, such expectations may prove to be incorrect.

Readers are cautioned not to place undue reliance on these forward-looking statements which reflect management's view only as of the date of this report. General

The Company develops, markets and sells numerous products and software modules, which it markets under the brand name of OPENLiMiT SignCubes. OPENLiMiT SignCubes is an electronic signature and encryption software. The software has been certified by the German Federal Office for Information Technology (BSI) according to Common Criteria EAL 3+. As such, the software is compliant with the German Signature Laws and Bylaws (SigG and SigV) and meets the security standards of Common Criteria countries. The software permits the user to electronically sign and encrypt any type of printable data and email, providing data manipulation security and provability. The array of functions and additional modules make the software flexible and user-friendly for both private and public sector implementation.

The OPENLiMiT Transaction Module permits online transactions, utilizing the benefits of electronic signature technology.

The OPENLiMiT Package is a software product designed for consumers. The package contains the OPENLiMiT SignCubes Software, the OPENLiMiT Card Reader and the OPENLiMiT Card. As a stand-alone solution, the package permits the user to electronically sign and encrypt any type of printable data and email. The user can also benefit from the increasing number of e-Government applications (varies by country), a large percentage of which require the use of a qualified electronic signature. The OPENLiMiT Card, a smartcard with a crypto-chip, contains an individual's qualified electronic certificates.

OPENLiMiT Business is a software bundle for electronic signature, encryption and company-wide document management for small and medium sized companies. OPENLiMiT Business provides all the benefits of the OPENLiMiT Package, but has been enhanced to include batch processing of electronic signatures and electronic archiving. OPENLiMiT Business increases a company's productivity, making the uninterrupted electronic workflow possible.

The Company markets its products via an Original Equipment Manufacturer (OEM) strategy and direct sales. The direct sales strategy was discontinued on July 15, 2005, with the sale of OPENLiMiT Holding AG subsidiaries, OPENLiMiT Access Marketing AG (Switzerland) and OPENLiMiT Access Marketing AG (Germany), to enable OPENLiMiT Holding AG to focus on OEM sales.

On August 1, 2005, the Company's board of directors declared a distribution of 100% of the shares of OPENLiMiT Holding AG common stock to the Company's common shareholders on a pro rata basis. The Company's shareholders will receive one (1) share of OPENLiMiT Holding AG stock for every five (5) shares of Company common stock they hold as of the record date, August 19, 2005. The distribution date is on or about September 1, 2005. Subsequent to the distribution date the Company will be without significant operations. However, the Company's shareholders' shares of OPENLiMiT Holding AG stock will be tradable on the Berlin-Bremen Stock Exchange. Accordingly, the forward looking statements contained in this report are intended to describe the future operating results of the Company and OPENLiMiT Holding AG as indicated.

Business Strategy

Our short term strategy is to realize net cash flow from operations, expand marketing efforts in Europe and to continue research and development efforts. The realization of net cash flows in the near term will require a significant increase in our revenues and a decrease in expenses. Accordingly, we intend to focus on the completion of existing and pending projects and reducing administrative costs. The Company believes that it can successfully position itself by expanding the network of integration projects and thus selling opportunities by maintaining business development activities and support for its selling partners. The Company believes that it can reduce administrative costs since research and development costs have peaked with the introduction of its products to market. Once the Company has achieved positive net cash flow from operations and improved its position in Europe, its longer term strategy is to expand marketing efforts beyond Europe.

Historically, however, the Company has not been able to generate sufficient cash flow to sustain operations and fund necessary research and development. Therefore, there can be no assurance that our OEM or direct sales strategy or any other sources of revenue will provide sufficient cash flows in the near term to sustain operations. Should the Company be unable to generate sufficient cash flow from the sale of its products to sustain its business it will seek financing through alternative sources such as the sale of its common stock. The Company can provide no assurance that such efforts, if necessary, would be successful.

The Company's business development strategy is prone to significant risks and uncertainties that can have an immediate impact on efforts to realize net cash flow and deter future prospects of revenue growth. The Company's financial condition and results of operations depend primarily on revenue generated from the sale of its products and its ability to reduce administrative expenses. The Company has a limited history of generating revenue that cannot be viewed as an indication of continued growth and a historical record of incurring losses. Should the Company be unable to consistently generate revenue and reduce or stabilize expenses to the point where it can realize net cash flow, such failure will have an immediate impact on the its ability to continue its business operations.

Results of Operations

Three and six month periods ended June 30, 2005 and 2004 (Unaudited)

Revenue

Revenue for the three month period ended June 30, 2005 were \$66,503 as compared to \$337,725 for the three month period ended June 30, 2004, a decrease of 80%. Revenue for the six month period ended June 30, 2005 were \$115,713 as compared to \$473,068 for the six month period ended June 30, 2004, a decrease of 76%. The decrease in revenue for the three and six month periods over the comparable prior periods is attributable to a decrease in sales of the OPENLiMiT package from direct sales efforts as the Company shifts its focus on to its OEM marketing strategy. The Company anticipates that revenues generated by OPENLiMiT Holding AG will increase over the next twelve months as it expands OEM marketed sales.

Losses

Net losses for the three months ended June 30, 2005 increased to \$1,558,528 from \$1,014,328 for the three month period ended June 30, 2004, an increase of 54%. Net losses for the six months ended June 30, 2005 increased to \$2,102,119 from \$1,842,433 for the six month period ended June 30, 2004, an increase of 14%. The increase in net losses for the current three and six month periods over the comparable prior periods can be attributed to decreases in revenue and an extraordinary loss of \$1,034,572 in connection with the settlement of debt with a director of the Company. Except for extraordinary losses associated with the forgiveness of debt on separation from OPENLiMiT Holding AG, the Company expects that net losses will decrease over the next twelve months as it will be without significant operations.

Expenses

Selling, general and administrative expenses for the three months ended June 30, 2005, decreased to \$553,565 from \$1,180,290 for the three month period ended June 30, 2004, a decrease of 53%. Selling, general and administrative expenses for the six months ended June 30, 2005 decreased to \$1,131,457 from \$2,120,431 for the six month period ended June 30, 2004, a decrease of 47%. The decrease in selling, general and administrative expenses for the current three and six month periods over the comparable prior periods is primarily the result of decreased advertising costs, consulting fees and salaries, office and miscellaneous expenses, and professional fees, related to the Company streamlining business operations and its shift toward an OEM marketing strategy. The Company expects that selling, general and administrative expenses will decrease over the next twelve months as subsequent to the separation from OPENLiMiT Holding AG it will be without significant operations.

Cost of goods sold for the three months ended June 30, 2005, was \$43,693 as compared to \$172,579 for the three month period ended June 30, 2004. Cost of goods sold for the six months ended June 30, 2005 was \$56,404 as compared to \$197,675 for the six month period ended June 30, 2004. The decrease in the cost of goods sold for the three and six month periods over the comparable prior periods can be attributed to a decrease in sales. The Company expects that the cost of goods sold will decrease over the next twelve months to zero due to the anticipated separation from OPENLiMiT Holding AG.

Depreciation expenses for the three months ended June 30, 2005, and June 30, 2004, were \$26,527 and \$146,450 respectively. Depreciation expenses for the six months ended June 30, 2005, and June 30, 2004, were \$35,051 and \$160,595 respectively.

Income Tax Expense (Benefit)

The Company has an income tax benefit resulting from net operating losses to offset any future operating profit. The Company has not recorded this benefit in the financial statements as it does not meet the accounting criteria to do so.

Impact of Inflation

The Company believes that inflation has had a negligible effect on operations over the past three years. The Company believes that it can offset inflationary increases in the cost of materials and labor by increasing sales and improving operating efficiencies.

Liquidity and Capital Resources

Cash flow used in operations was \$1,496,612 for the six months ended June 30, 2005, as compared to cash flow used in operations of \$1,174,680 for the six months ended June 30, 2004. The increase in cash flows used in operating activities is primarily attributable to an increase in net losses over the comparative periods. The Company expects that cash flows used in operations will decrease as net losses decline associated with the absence of significant operations subsequent to September 1, 2005, the anticipated separation date from OPENLiMiT Holding AG.

Cash flow produced from financing activities increased to \$1,969,387 for the six months ended June 30, 2005, as compared to cash flow produced from financing activities of \$1,354,381 for the six months ended June 30, 2004. The cash flows produced from financing activities were the result of share issuances over the current six month period. The Company expects that cash flows produced from financing activities may decrease in future periods. OPENLiMiT Holding AG anticipates that cash flows produced from financing activities may increase in future periods as it develops as an independent company.

Cash flows used in investing activities decreased to \$22,781 for the six months ended June 30, 2005, as compared to cash flow used in investing activities of \$121,046 for the six months ended June 30, 2004. Cash flows used in investing activities were primarily spent on the acquisition of software that compliments the OPENLiMiT products. The Company expects that cash flows used in investing activities by OPENLiMiT Holding AG may increase in future periods as it enhances the technology associated with the OPENLiMiT products. The Company does not expect to use cash flow in investing activities over the next twelve months.

The Company has no defined benefit plan or contractual commitment with any of its officers or directors. The Company has no current plans for the purchase or sale of any plant or equipment, outside of normal items to be utilized by office personnel. The Company has no current plans to make any significant changes in the number of employees.

The Company had a working capital surplus of \$796,108 as of June 30, 2005, and has funded its cash needs from inception through revenues and a series of debt and equity transactions, including several private placements. The bulk of these transactions have taken place outside the United States. Since the Company has only recently realized revenues it will require new debt or equity transactions to satisfy cash needs over the next twelve months.

Critical Accounting Policies

In the notes to the audited consolidated financial statements for the year ended December 31, 2004, included in the Company's Form 10-KSB, the Company discusses those accounting policies that are considered to be significant in determining the results of operations and its financial position. The Company believes that the accounting principles utilized by it conform to accounting principles generally accepted in the United States of America.

The preparation of financial statements requires management to make significant estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. By their nature, these judgments are subject to an inherent degree of uncertainty. On an on-going basis, the Company evaluates its estimates, including those related to bad debts, inventories, intangible assets, warranty obligations, product liability, revenue, and income taxes. The Company bases its estimates on historical experience and other facts and circumstances that are believed to be reasonable, and the results form the basis for making judgments about the carrying value of assets and liabilities. The actual results may differ from these estimates under different assumptions or conditions.

The Company applies the following critical accounting policies related to revenue recognition in the preparation of its financial statements

Revenue Recognition

The Company generates revenue from the sale of the OPENLiMiT products through OEM channels where revenues have been realized as the result of the successful implementation of various OEM projects, as well as from sales representatives (wholesale distributors) and individual consumers. Revenues are recognized only when persuasive evidence for a sales arrangement exists; delivery of the product has occurred; the product fee is fixed or determinable; and collection of the fee is reasonably assured. Revenue derived from the sale of services is initially recorded as deferred revenue on the balance sheet. The amount is recognized as income over the term of the contract.

Going Concern

The Company's audit expressed substantial doubt as to the Company's ability to continue as a going concern as a result of recurring losses, limited revenue-generating activities and an accumulated deficit of \$8,100,975 as of December 31, 2004, which had increased to \$10,203,094 as of June 30, 2005. The Company's ability to continue as a going concern is subject to the ability of the Company to realize a profit and/or obtain funding from outside sources. Management's plan to address the Company's ability to continue as a going concern, include: (1) obtaining funding from private placement sources; (2) obtaining additional funding from the sale of the Company's securities; (3) generating sufficient revenues to sustain operations; and (4) obtaining loans and grants from various financial institutions, where possible. Although management believes that it will be able to obtain the necessary funding to allow the Company to remain a going concern through the methods discussed above, there can be no assurances that such methods will prove successful.

ITEM 3. CONTROLS AND PROCEDURES

a) Evaluation of disclosure controls and procedures.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of June 30, 2005. Based on this evaluation, our principal executive officer and our principal financial officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective and adequately designed to ensure that the information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in applicable rules and forms.

The auditors did not test the effectiveness of nor relied on the internal controls of the Company for the fiscal quarters ended June 30, 2005 and 2004.

(b) Changes in internal controls over financial reporting.

During the quarter ended June 30, 2005, there has been no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ITEM 2. CHANGES IN SECURITIES

On April 1, 2005, the Company authorized the issuance of 1,000,000 shares of restricted common stock valued at \$0.40 a share, attached to which were 1,000,000 purchase warrants with an exercise price of \$0.40 a share valid for a two year period, to Magdalena Financial Corp. in exchange for cash consideration the amount of \$400,000 pursuant to the exemptions from registration provided by Regulation S and Section 4(2) of the Securities Act of 1933.

The Company made this offering based on the following factors: (1) the issuance was an isolated private transaction by the Company which did not involve a public offering; (2) there was only one offeree who was issued the Company's stock for cash consideration; (3) the offeree stated an intention not to resell the stock; (4) there were no subsequent or contemporaneous public offerings of the stock; (5) the stock was not broken down into smaller denominations; and (6) the negotiations that lead to the issuance of the stock took place directly between the offeree and the Company.

The Company complied with the requirements of Regulation S by having no directed selling efforts made in the United States, by selling only to an offeree who was outside the United States at the time the settlement agreement originated, and ensuring that the entity to whom the stock was issued was a non-U.S. person with an address in a foreign country.

Regulation S provides generally that any offer or sale that occurs outside of the United States is exempt from the registration requirements of the Securities Act, provided that certain conditions are met. Regulation S has two safe harbors. One safe harbor applies to offers and sales by issuers, securities professionals involved in the distribution process pursuant to contract, their respective affiliates, and persons acting on behalf of any of the foregoing (the “issuer safe harbor”), and the other applies to resales by persons other than the issuer, securities professionals involved in the distribution process pursuant to contract, their respective affiliates (except certain officers and directors), and persons acting on behalf of any of the foregoing (the “resale safe harbor”). An offer, sale or resale of securities that satisfied all conditions of the applicable safe harbor is deemed to be outside the United States as required by Regulation S. The distribution compliance period for shares sold in reliance on Regulation S is one year. The Company complied with the requirements of Regulation S by having no directed selling efforts made in the United States, by selling only to an offeree who was outside the United States at the time the settlement agreement originated, and ensuring that the entity to whom the stock was issued was a non-U.S. person with an address in a foreign country.

On April 1, 2005, the Company authorized the issuance of 332,500 shares of restricted common stock valued at \$0.40 a share attached to which were 332,500 purchase warrants with an exercise price of \$0.40 a share valid for a two year period, to Magdalena Financial Corp. in exchange for cash consideration the amount of \$133,000 pursuant to the exemptions from registration provided by Regulation S and Section 4(2) of the Securities Act of 1933.

On May 4, 2005, the Company authorized the issuance of 3,200,000 shares of restricted common stock valued at \$0.40 a share, attached to which were 3,200,000 purchase warrants with an exercise price of \$0.40 a share valid for a two year period, to Magdalena Financial Corp in exchange for cash consideration the amount of \$1,280,000 pursuant to the exemptions from registration provided by Regulation S and Section 4(2) of the Securities Act of 1933.

The Company made this offering based on the following factors: (1) the issuance was an isolated private transaction by the Company which did not involve a public offering; (2) there was only one offeree who was issued the Company’s stock for cash consideration; (3) the offeree stated an intention not to resell the stock; (4) there were no subsequent or contemporaneous public offerings of the stock; (5) the stock was not broken down into smaller denominations; and (6) the negotiations that lead to the issuance of the stock took place directly between the offeree and the Company.
