Notes to Financial Statements  
March 31, 2024

**Note 1 - Description of Operations and Summary of Significant Accounting Policies**

**Operations** - Pursuant to a plan of reorganization effective January 2, 2008, Thomas Capital Group, Inc. (the "Company"), a Washington Subchapter S Corporation, is the successor organization to Thomas Capital Group, LLC. Thomas Capital Group, Inc. assumed all of the assets and liabilities of Thomas Capital Group, LLC, and no changes in ownership and/or control occurred. The Company continues the business of the registered predecessor broker-dealer as a private equity placement agent focused on raising capital for private equity funds and alternative investment products from institutional investors. It is registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA") and the Securities Investor Protection Corporation ("SIPC"). The Company's primary source of revenue is contractual retainer and placement fees.

**Revenue Recognition** - Investment banking fees consist of retainer fees and placement fees. Retainer fees earned during the year amounted to \$125,500, while placement fees were \$943,751.

The Company earns retainer fees from providing financial consulting services in accordance with placement or other contractual agreements. Generally, these retainer fees are billed on a periodic basis representing the engagement services performed and are nonrefundable. Revenue is recognized in the period billed, upon the performance of the Company's related obligations.

The Company earns placement fees as an agent for client offerings. The Company recognizes placement fees revenue upon the closing date of the underlying transaction. At this point, the parties have been identified, the revenue amount is known or is determinable, and the Company's performance obligations have been completed in accordance with the terms of the contractual agreement.

In all cases, revenue recognition is subject to collection being probable. Reimbursable out-of-pocket expenses are recorded as incurred. Transaction-related costs are recorded as expenses in the same reporting period as the associated revenue, when the actual costs are known or estimable. Transaction-related costs are expensed in the event that client engagements are terminated for other reasons. In certain cases, the retainer fee is fully or partially credited against the success fee. As of March 31, 2024, the Company does not have any open contract balances.

**Cash and cash equivalents** - The Company may hold cash in financial institutions that exceeds the Federal Deposit Insurance Corporation (FDIC) insurable limit. The Company mitigates this credit risk by only using highly qualified financial institutions.

**Accounts Receivable** - The Company carries its accounts receivable at cost less an allowance for doubtful accounts. The evaluation of credit impairment requires immediate recognition of estimated credit losses expected to occur. The estimate of expected credit losses is based on relevant information about past events, current economic conditions, and reasonable forecasts of future economic conditions that affect the ability to collect the receivable. At March 31, 2024, the Company wrote-off \$27,719 as Bad debt on the Statement of Operations.

**Private Investment Funds** - Investments in Private Investment Funds are valued at fair value as determined by the Company's management. The estimated value does not necessarily represent the amount that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined.

**Private Equity Securities** - Investments in private equity securities received in lieu of cash is valued at fair value as determined by the Company's management. The estimated value does not necessarily represent the amount that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined.

Notes to Financial Statements  
March 31, 2024

**Marketable Securities** - U.S. government and equity securities held for investment purposes are carried at market value as determined by the closing price at the reporting date.

**Taxes** - The Company has elected to be a Subchapter S Corporation for income tax purposes, and its net income or loss is included in the personal tax returns of the shareholders.

Taxes assessed by governmental authorities on revenue-producing transactions are recorded on a gross basis and are included in taxes and licenses expense on the accompanying statement of income.

The Company has elected to report the statement of changes in stockholders' equity without disclosing the accumulated adjustment account and other equity accounts pertinent to an S Corporation. There is no financial impact to these financial statements.

The Company is required to file income tax returns in both federal and state tax jurisdictions. The Company's tax returns are subject to examination by taxing authorities in the jurisdictions in which it operates in accordance with the normal statutes of limitations in the applicable jurisdiction. For federal purposes, the statute of limitations is three years. Accordingly, the Company is no longer subject to examination of federal returns filed more than three years prior to the date of these financial statements. The statute of limitations for state purposes is generally three years, but may exceed this limitation depending upon the jurisdiction involved. Returns that were filed within the applicable statute remain subject to examination. As of March 31, 2024, the IRS has not proposed any adjustment to the Company's tax position.

**Use of Estimates** - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Note 2 - Investments in Private Investment Funds, at estimated fair value**

The Company is invested in one nonpublic investment fund with restricted marketability. No quoted market exists for this investment. After initial recognition, in determining the fair market value of the non-exchange-traded externally managed private investment fund, the Company generally considers the Net Asset Value (NAV) of the fund provided by the fund manager to be the best estimate of the fair value and is classified as Level 3 of the fair value hierarchy (Note 4). Management believes this valuation methodology most fairly presents the amount that would have been realized had the investment been redeemed as of the date of these financial statements. Net investment loss on private investment funds is \$23,668 for the fiscal year ended March 31, 2024, and is included in net loss on investments on accompanying Statement of Operations.

**Note 3 - Investments in Private Equity Securities, at estimated fair value**

As discussed in Note 1, investments in private equity securities are recorded at fair value as determined by the Company's management. After initial recognition, in determining the fair market value of the private equity securities, the Company generally considers the quoted price in the latest stock purchase agreement to be the best estimate of the fair value. As of March 31, 2024, fair market value for this investment is \$170,805 and is classified in Level 3 of the fair value hierarchy (See Note 4). The estimated value does not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot readily be determined.

**Thomas Capital Group, Inc.**

Notes to Financial Statements  
March 31, 2024

**Note 4 - Fair Value Measurement**

On January 1, 2009, the Company adopted FASB ASC 820, *Fair Value Measurements and Disclosures*, which defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy, which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of March 31, 2024.

<b>Assets</b>	<b>Fair Value</b>	<b>Level 1 Inputs</b>	<b>Level 2 Inputs</b>	<b>Level 3 Inputs</b>
Marketable securities	\$ 10,014	\$ 10,014	\$ -	\$ -
Investments in private investment funds	\$ 20,306	\$ -	\$ -	\$ 20,306
Investments in private equity securities	\$ 170,805	\$ -	\$ -	\$ 170,805
<b>Total</b>	<b>\$ 201,125</b>	<b>\$ 10,014</b>	<b>\$ -</b>	<b>\$ 191,111</b>

The following is a reconciliation of the beginning and ending balances for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the year ended March 31, 2024:

<b>Balance as of March 31, 2023</b>	<b>\$215,649</b>
Return of Investment	(870)
Unrealized Loss	<u>(23,668)</u>
<b>Balance as of March 31, 2024</b>	<b>\$191,111</b>

**Note 5 - Related Party Transactions**

The Company also has lease agreements with two of its stockholders, whereby the stockholders provide home office space for the Company. For the year ended March 31, 2024, the Company incurred \$12,000 in rent expense under these leases, included in Rent on the Statement of Operations. These home office leases are not subject to the provisions of ASC 842, Leases.

During the year ended March 31, 2019, the Company purchased an unsecured promissory note (the "Note") from its majority stockholder. The Note was purchased at its face amount of \$18,500 plus accrued interest of \$2,629 for a total of \$21,129.

This Note has an \$18,500 principal balance accruing interest at 5.5% with a maturity date of February 18, 2021. At March 31, 2024, the Company had accrued \$6,222 of interest income under this defaulted note from a former employee and is owed \$24,722 inclusive of interest.

It is possible that the terms of certain related party transactions are not the same as those that would result for transactions among wholly unrelated parties.

Notes to Financial Statements  
March 31, 2024

**Note 6 - Retirement Plan**

The Company has a qualified Retirement Plan (the "Plan"). The Company 401K contributions are discretionary and are determined each year by the Company. The contributions are 100% vested at all times. The Company paid contributions of \$36,323 for the year ended March 31, 2024.

**Note 8 - Major Clients**

For the fiscal year ended March 31, 2024, one customer accounted for 90% of the Company's total revenues and one customer accounted for 100% of the accounts receivable balance.

**Note 9 - Net Capital Requirements**

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC rule 15c3-1), which requires the maintenance of minimum net capital and requires that the percentage of aggregate indebtedness to net capital, both as defined, shall not exceed 1500 percent. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. On March 31, 2024, the Company had net capital of \$400,825, which was \$395,825 in excess of its required net capital of \$5,000. The Company's percentage of aggregate indebtedness to net capital was 8.36%.

**Note 10 - Redemption of Common Stock**

In a prior year, the Company had resolved to purchase the 11,900 shares of one of its managing directors. The purchase will occur over an indeterminate amount of time at the discretion of management and as net capital permits. The shares will be cancelled upon purchase. The remaining stockholder's equity ownership percentages will adjust proportionally as the shares are purchased and cancelled. The stockholder will continue fulfilling his duties as a managing director indefinitely.

During the year ended March 31, 2024, the Company repurchased 801 shares for \$25,053. As of March 31, 2024, 4,505 shares remain to be purchased and the Company has no fixed or determinable dates for the purchase of these shares.

**Note 11 - Guarantees**

In the normal course of its business, the Company indemnifies and guarantees certain service providers against specified potential losses in connection with their acting as an agent of, or providing services to, the Company. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in its financial statements for these indemnifications.

**Note 12 - Subsequent Events**

The Company has evaluated events subsequent to the statement of financial condition date for items requiring recording or disclosure in the financial statements. The evaluation was performed through the date the financial statements were available to be issued. As a result of this review, the Company reported no events that would require disclosure or have a material impact on the financial statements.

**Note 13 -Commitments and Contingencies**

In the normal course of business, the Company has possible exposure or may be a defendant in legal actions, claims and disputes arising out of its activities as a registered broker-dealer. While predicting the resolution of such matters is inherently difficult, the Company believes that there are no other actions or possible actions that would have a material impact on the financial statements.

## **REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To The Board of Directors and the Stockholders of Thomas Capital Group, Inc.:

We have reviewed management's statements, included in the accompanying Exemption Report, in which (1) Thomas Capital Group, Inc. does not claim an exemption under paragraph (k) of 17 C.F.R. § 240.15c3-3, and (2) Thomas Capital Group, Inc.'s other business activities contemplated by Footnote 74 of the SEC Release No. 34-70073 adopting amendments to 17 C.F.R. § 240.17a-5 ("Non-Covered Firm") and that the Company did not identify any exceptions to this assertion throughout the year ended March 31, 2024. Thomas Capital Group, Inc.'s management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about Thomas Capital Group, Inc.'s compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in the Non-Covered Firm provision.
