RECOV Energy, Corp.
Report on Form 10-KSB
For the Fiscal Year Ended March 31, 2005

PART I

Item 1. Description of Business

Background

The Company was incorporated in the State of New Jersey on March 4, 1994. On June 13, 1995, the New Jersey corporation migrated to Delaware via a merger with a Delaware corporation formed for that purpose. There are 50,000,000 shares of preferred stock authorized of which none are presently issued and outstanding and 200,000,000 shares of common stock authorized of which 668,026 were issued and outstanding as of March 31, 2005.

The Company was primarily focused on the development, marketing, management and sale of consumer products. Presently, the Company intends to seek potential acquisition candidates in the energy reclamation industry.

The Company discontinued its automotive sales operations, effective October 2001, which was operated by the Company's two wholly-owned subsidiaries AutoSmart USA, Inc. and AutoSmart USA Leasing, Inc.

The principal executive offices of the Company are located at 3163 Kennedy Boulevard, Jersey City, New Jersey, telephone (201) 217-4137. The Company's stock symbol on the Over-the-Counter Bulletin Board is "RCOV".

Business - General

RECOV Energy, Corp., (OTC BB “RCOV”) is actively seeking merger candidates in the energy reclamation field. Previously, the Company was a consumer products development and holding company that had developed or acquired several potentially market leading products that service a wide range of consumer needs.

On February 2, 2005, the Company’s Board of Directors voted to return Global P.O.M. and the Handwash project to the entity the Company had acquired them from in exchange for that entity agreeing to assume all of the debt and liabilities associated with those two products.

On February 17, 2005, the Company’s Board of Directors voted to divest the Company of its ownership of its two subsidiaries, Best Health, Inc. and Soy Slim, Corp. by declaring a stock dividend of its ownership in those two companies to its shareholders of record effective March 29, 2005. To affect this dividend the shares owned by the Company were returned to both Best Health and Soy Slim and both Best Health and Soy Slim issued shares of its common stock to each shareholder of record of the Company on a one for one basis.

Revenue

The Company's revenue came from marketing services that it provided to clients. Revenue for the current period is minimal.

In the twelve month period ended March 31, 2005 revenue from marketing services was $1,052, while in the twelve month period ended March 31, 2004, revenue from the Company’s marketing business accounted for $54,312 (or 100% of revenues).

Employees

As of March 31, 2005, the Company had 2 employees of which 2 are in Management. The Company utilizes the services of independent contractors and subcontracts employees for support functions. The Company believes that its labor relations are good. No employee is represented by a labor union.

Item 2. Description of Property

The Company's principal executive offices are located at 3163 Kennedy Boulevard, Jersey City, New Jersey 07306 in 1,000 square feet of office space on a month to month basis. The Company shares the space with Verdiramo & Verdiramo, P.A., a law firm operated by the Company's former president, who is also the father of the current president. The other partner of the law firm is Vincent S. Verdiramo, the son of Vincent L. Verdiramo and the brother of the Company's current president, Richard J. Verdiramo. Although Verdiramo & Verdiramo, P.A. has agreed not to charge rent and is not expecting payment from the Company for the office use, an amount of $1,200 has been reflected in the financial statements as rent expense, which is offset to Paid in Capital in the same amount for the fiscal years ended March 31, 2005 and 2004.

The Company believes that its property is adequate for its present needs and that suitable space will be available to accommodate its future needs.

Item 3. Legal Proceedings

The Company is involved in no legal proceedings.

The Company's discontinued subsidiary AutoSmart USA Leasing, Inc., is involved in five (5) lawsuits with various vendors that it transacted business with while it was in operation. These cases revolve around certain automotive sales related transactions and are between AutoSmartUSA and certain automotive dealerships and lenders. These cases do not name the Company as a party. All cases are in the state of Florida with three (3) in the 17th Judicial Circuit, Broward County, one (1) in the 15th Judicial Circuit, Palm Beach County and one (1) 11th Judicial Circuit, Dade County. The cumulative contingent liability against the Company's AutoSmart USA subsidiary associated with these lawsuits is $228,253. At present, AutoSmart USA has no assets, so to the best of management's knowledge and belief, should the plaintiffs in any of these lawsuits prevail against AutoSmart USA the subsequent outcome should not impact the business of the Company.

Item 4. Submission of Matters to Vote of Security Holders

The Company filed a Schedule 14C on March 15, 2005, which reflected a notification of action taken by consent of the majority shareholders. The Schedule 14C provided shareholder approval for the Company to adjust its capitalization by increasing the number of authorized shares of Preferred Stock to 50,000,000 and by increasing the number of authorized Common Stock to 200,000,000. It also provided shareholder approval to affect a reverse split of the Company’s common stock on a 1 for 20 basis. Finally, the Schedule 14C provided shareholder approval to declare the stock dividend of the Company’s ownership of its two subsidiaries, Best Health, Inc. and Soy Slim Corp.

PART II

March 31, 2005	$ 1.80	$ 0.40
June 30, 2005	$ 1.80	$ 0.30

Such quotations reflect inter-dealer prices, without retail mark-up, mark-down or commission. Such quotes are not necessarily representative of actual transactions or of the value of the Company's securities, and are in all likelihood not based upon any recognized criteria of securities valuation as used in the investment banking community.

There is no assurance that an active trading market will develop which will provide liquidity for the Company's existing shareholders. The preceding information is from the National Association of Securities Dealers Automated Quotation Service.

As of June 30, 2005, there were 134 holders of record of the Company's common stock. Certain of the shares of common stock are held in "street" name and may, therefore, be held by several beneficial owners.

As of March 31, 2005, there were 668,026 shares of Common Stock issued. Of those shares 339,832 shares are "restricted" securities of the Company within the meaning of Rule 144(a)(3) promulgated under the Securities Act of 1933, as amended, because such shares were issued and sold by the Company in private transactions not involving a public offering.

In general, under Rule 144, as currently in effect, subject to the satisfaction of certain other conditions, a person, including an affiliate of the Company (in general, a person who has a control relationship with the Company) who has owned restricted securities of common stock beneficially for at least one year is entitled to sell, within any three-month period, that number of shares of a class of securities that does not exceed the greater of (i) one percent (1%) of the shares of that class then outstanding or, if the common stock is quoted on NASDAQ, or (ii) the average weekly trading volume of that class during the four calendar weeks preceding such sale. A person who has not been an affiliate of the Company for at least the three months immediately preceding the sale and has beneficially owned shares of common stock for at least two (2) years is entitled to sell such shares under Rule 144 without regard to any of the limitations described above.

No prediction can be made as to the effect, if any, that future sales of shares of common stock or the availability of common stock for future sale will have on the market price of the common stock prevailing from time-to-time. Sales of substantial amounts of common stock on the public market could adversely affect the prevailing market price of the common stock.

The Company has not paid a cash dividend on the common stock since inception. The payment of dividends may be made at the discretion of the Board of Directors of the Company and will depend upon, among other things, the Company's operations, its capital requirements, and its overall financial condition.

In June 2005, the Company issued 140,000 shares of common stock, under Section 4(2) of the Act, for consulting legal services in the amount of $14,000.

Item 6. Management's Discussion And Analysis Of Financial Condition And Results Of Operation

Results of Operations

Twelve months ended March 31, 2005 and 2004

During the twelve month period ending March 31, 2005, the Company had net income of $169,305 compared to a loss of $57,065 for the same period ended March 31, 2004. The main component contributing to the rise in income was an extraordinary gain arising from a reduction of debt of a discontinued subsidiary.

Revenues

During the twelve month period ending March 31, 2005, the Company's revenues from continuing operations $1,052 compared to $54,312 for the same period ended March 31, 2004. Revenues are principally from services from providing marketing services. Revenues from marketing activity are recognized when the services are performed.

Operating Expenses

During the twelve months ended March 31, 2005, the Company incurred $125,978 in operating expenses from continued operations as compared to $104,135 in the same period in 2004. The increase from year to year was a increase in Selling, General and Administrative expenses.

Material changes in financial condition, liquidity and capital resources

At March 31, 2005, the Company had $799,363 in cash and cash equivalents compared to $536 for the same period in 2004. The Company had a negative working capital of approximately $313,786 at March 31, 2005 compared to a negative $819,785 for the same period in 2004. The Company's operations are not generating sufficient cash to maintain its present operations. The Company's cash resources are determined entirely on the volume of sales and services generated and we currently cannot estimate how much they will contribute to our cash flow. The Company has reviewed all non-essential activities and expenditures and has aggressively curtailed these items to assist in reducing the cash used in operating activities.

RECOV ENERGY, CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – ORGANIZATION AND BASIS OF PRESENTATION

RECOV Energy Corp., formerly known as Interactive Multimedia Network, Inc. (the "Company") was organized in the State of New Jersey on March 4, 1994 and reincorporated in the State of Delaware on June 13, 1995. The name of the Company was changed to RECOV Energy Corp effective March 29, 2005. The Company's primary business activity was developing and marketing consumer products, including health and wellness products and ocular health products. It is now actively seeking an acquisition candidate in the energy reclamation field.

The Company had two subsidiaries: AutoSmart USA, Inc., a Nevada corporation and AutoSmart USA Leasing, Inc., a Florida corporation, which operated in tandem the vehicle sales operations of the Company. During the fiscal year ended March 31, 2002, these two subsidiaries ceased operations.

During fiscal year 2003, the Company formed Best Health, Inc., a health product developer and distributor in the development stage. The Company also acquired 90 percent of the outstanding shares of SoySlim Corp., another health product distributor in the development stage. The Company also acquired the rights to a patent-pending security system known as Global *P.O.M.*™

RECOV Energy Corp. prepares its financial statements in accordance with generally accepted accounting principles. This basis of accounting involves the application of accrual accounting; consequently, revenues and gains are recognized when earned, and expenses and losses are recognized when incurred. Financial statement items are recorded at historical cost and may not necessarily represent current values.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and all of its wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Certain amounts included in the financial statements are estimated based on currently available information and management's judgment as to the outcome of future conditions and circumstances. Changes in the status of certain facts or circumstances could result in material changes to the estimates used in the preparation of financial statements and actual results could differ from the estimates and assumptions. Every effort is made to ensure the integrity of such estimates.

Fair value of Financial Instruments

The carrying amounts reported in the balance sheet for cash and cash equivalents, accounts receivable, other receivables, accounts payable and accrued expenses and other liabilities approximate fair value because of the immediate or short-term maturity of these financial instruments.

RECOV ENERGY, CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives when the property and equipment is placed in service.

	Estimate Useful Life (In Years)
Furniture and Fixtures	7
Equipment & Vehicles	5
Computer Equipment & Software	3

Leasehold improvements are amortized over their estimated useful lives or the term of the lease, whichever is shorter.

The cost of fixed assets retired or sold, together with the related accumulated depreciation, are removed from the appropriate asset and depreciation accounts, and the resulting gain or loss is included in net earnings. Maintenance and repairs are expensed as incurred. Repairs and maintenance are charged to operations as incurred, and expenditures for significant improvements are capitalized. The cost of property and equipment retired or sold, together with the related accumulated depreciation, are removed from the appropriate asset and depreciation accounts, and the resulting gain or loss is included in operations.

Revenue Recognition

Revenues are principally from services and commissions from providing marketing plans, services related to the Internet marketing arena and sales from health related products. Revenues from marketing and Internet related activity are recognized when the services are completed. Revenues from the sale of health related products are recognized when the products are shipped to the customer.

In December 1999, the Securities and Exchange Commission ("SEC") issued Staff Accounting Bulletin No. 101 ("SAB 101"), "Revenue Recognition," which provides guidance on the recognition, presentation and disclosure of revenue in financial statements filed with the SEC. SAB 101 outlines the basic criteria that must be met to recognize revenue and provide guidance for disclosures related to revenue recognition policies. Management believes that RECOV Energy Corp.'s revenue recognition practices are in conformity with the guidelines of SAB 101.

Advertising

The Company expenses advertising costs as incurred. Advertising expense was $1,301 in fiscal year 2005.

Earnings (Loss) Per Share of Common Stock

Earnings (Loss) per common share are calculated under the provisions of SFAS No. 128, "Earnings per Share," which establishes standards for computing and presenting earnings per share. SFAS No. 128 requires the Company to report both basic earnings (loss) per share, which is based on the weighted-average number of common shares outstanding during the period, and diluted earnings (loss) per share, which is based on the weighted-average number of common shares outstanding plus all potential dilutive common shares outstanding. Options and warrants are not considered in calculating diluted earnings (loss) per share since considering such items would have an anti-dilutive effect.

Statement of Cash Flows

For purposes of the statement of cash flows, the Company considers all highly liquid instruments with original maturities of three months or less to be cash equivalents.

Recent Accounting Pronouncements:

The Statement of Financial Accounting Standards Board (SFAS) No. 141, "Business Combinations," was issued by the Financial Accounting Standards Board (FASB) in July 2001. This Statement establishes standards for accounting and reporting for business combinations. This statement requires the purchase method of accounting to be used for all business combinations, and prohibits the pooling-of-interests method of accounting. This Statement is effective for all business combinations initiated after June 30, 2001 and supercedes APB Opinion No. 16, "Business Combinations" as well as Financial Accounting Standards Board Statement of Financial Accounting Standards No. 38, "Accounting for Preacquisition Contingencies of Purchased Enterprises." The adoption of this statement by the Company did not have a material impact on its financial condition or results of operations.

The Statement of Financial Accounting Standards Board (SFAS) No. 142, "Goodwill and Other Intangible Assets," was issued by the Financial Accounting Standards Board (FASB) in July 2001. This Statement addresses how intangible assets that are acquired individually or with a group of other assets should be accounted for in financial statements upon their acquisition. This statement requires goodwill amortization to cease and for goodwill to be periodically reviewed for impairment, for fiscal years beginning after October 31, 2001. This Statement requires companies to record a liability for asset retirement obligations in the period in which they are incurred, which typically could be upon completion or shortly thereafter. The adoption of this statement by the Company did not have a material impact on its financial condition or results of operations. The Statement of Financial Accounting Standards Board (SFAS) No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," was issued by the Financial Accounting Standards Board (FASB) in October 2001. This Statement provides a single accounting model for long-lived assets to be disposed of and replaces SFAS No. 121 "Accounting for the Impairment of Long-Lived Assets and Long-Lived Assets to Be Disposed Of." NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – ORGANIZATION AND BASIS OF PRESENTATION

Interactive Multimedia Network, Inc. (the "Company") was organized in the State of New Jersey on March 04, 1994 and reincorporated in the State of Delaware on June 13, 1995. The Company's primary business activity is developing and marketing consumer products, including health and wellness products and ocular health products.

The Company had two subsidiaries: AutoSmart USA, Inc., a Nevada corporation and AutoSmart USA Leasing, Inc., a Florida corporation, which operated in tandem the vehicle sales operations of the Company. During the fiscal year ended March 31, 2002, these two subsidiaries ceased operations.

During fiscal year 2003, the Company formed Best Health, Inc., a health product developer and distributor in the development stage. The Company also acquired 90 percent of the outstanding shares of SoySlim Corp., another health product distributor in the development stage. The Company also acquired the rights to a patent-pending security system known as Global *P.O.M.*™

Interactive Multimedia Network, Inc. prepares its financial statements in accordance with generally accepted accounting principles. This basis of accounting involves the application of accrual accounting; consequently, revenues and gains are recognized when earned, and expenses and losses are recognized when incurred. Financial statement items are recorded at historical cost and may not necessarily represent current values.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and all of its wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Certain amounts included in the financial statements are estimated based on currently available information and management's judgment as to the outcome of future conditions and circumstances. Changes in the

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

status of certain facts or circumstances could result in material changes to the estimates used in the preparation of financial statements and actual results could differ from the estimates and assumptions. Every effort is made to ensure the integrity of such estimates.

Fair value of Financial Instruments

The carrying amounts reported in the balance sheet for cash and cash equivalents, accounts receivable, other receivables, accounts payable and accrued expenses and other liabilities approximate fair value because of the immediate or short-term maturity of these financial instruments.

Inventories

Inventories are stated at the lower of cost or market determined by the LIFO method and specific identification.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives when the property and equipment is placed in service.

	Estimate Useful Life (In Years)
Furniture and Fixtures	7
Equipment & Vehicles	5
Computer Equipment & Software	3

Leasehold improvements are amortized over their estimated useful lives or the estimated useful lives of the leasehold improvements, whichever is shorter.

The cost of fixed assets retired or sold, together with the related accumulated depreciation, are removed from the appropriate asset and depreciation accounts, and the resulting gain or loss is included in net earnings. Maintenance and repairs are expensed as incurred.

Repairs and maintenance are charged to operations as incurred, and expenditures for significant improvements are capitalized. The cost of property and equipment retired or

sold, together with the related accumulated depreciation, are removed from the appropriate asset and depreciation accounts, and the resulting gain or loss is included in operations.

Revenue Recognition

Revenues are principally from services and commissions from providing marketing plans, services related to the Internet marketing arena and sales from health related products. Revenues from marketing and Internet related activity are recognized when the services are completed. Revenues from the sale of health related products are recognized when the products are shipped to the customer.

In December 1999, the Securities and Exchange Commission ("SEC") issued Staff Accounting Bulletin No. 101 ("SAB 101"), "Revenue Recognition," which provides guidance on the recognition, presentation and disclosure of revenue in financial statements filed with the SEC. SAB 101 outlines the basic criteria that must be met to recognize revenue and provide guidance for disclosures related to revenue recognition policies. Management believes that Interactive Multimedia Network, Inc.'s revenue recognition practices are in conformity with the guidelines of SAB 101.

Advertising

The Company expenses advertising costs as incurred. Advertising expense was approximately $1,000 and $8,911 for fiscal year 2004 and 2003 respectively.

Earnings (Loss) Per Share of Common Stock

Earnings (Loss) per common share are calculated under the provisions of SFAS No. 128, "Earnings per Share," which establishes standards for computing and presenting earnings per share. SFAS No. 128 requires the Company to report both basic earnings (loss) per share, which is based on the weighted-average number of common shares outstanding during the period, and diluted earnings (loss) per share, which is based on the weighted-average number of common shares outstanding plus all potential dilutive common shares outstanding. Options and warrants are not considered in calculating diluted earnings (loss) per share since considering such items would have an anti-dilutive effect.

NOTE 9 – OPTIONS AND WARRANTS

In December 1998, Marion Verdiramo, a related party, returned 2,000,000 shares of common stock to the Company as part of a capital restructuring and in return received 2,000,000 common stock options at $0.10 per share which can be exercised any time during the subsequent three years. This exchange was believed to be beneficial to the Company as it reduced its outstanding float. Prior to their expiration, the Company and Ms. Verdiramo agreed to extend the term of this Option Agreement for an additional five (5) years. These options were valued at $330,000 based upon the minimal value of the common stock at the time of the options' issuance.

Marion Verdiramo has never been an employee, officer, director or independent consultant for the Company. Marion Verdiramo converted a loan to the Company for 2,000,000 shares of restricted common stock. Subsequently, those shares were never freed from restrictive legend and returned to the Company.

In February 2004 the stock options were retired and the shares originally issued to Marion Verdiramo were re-issued to her. This occurred during the last quarter of 2003 and the first quarter of 2004.

NOTE 10 – INCOME TAXES

The Company did not provide any current or deferred United States federal, state or foreign income tax provision or benefit for the period presented because it has experienced operating losses since inception. The Company has provided a full valuation allowance on the deferred tax asset, consisting primarily of net operating loss carryforwards, because of uncertainty regarding its realizability.

NOTE 11 – BUSINESS SEGMENT INFORMATION

The Company's segment information has been prepared in accordance with Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards (SFAS) No. 131, "Disclosures about Segments of an Enterprise and Related Information."
