NOTES TO STATEMENT OF FINANCIAL CONDITION

1. Organization:

Gemini Capital, LLC (the Company) was organized in the State of Illinois in accordance with the Illinois Limited Liability Company Act on April 6, 1998. The Company is a securities broker-dealer conducting its business on a fully disclosed basis. It is registered with the U.S. Securities and Exchange Commission (SEC), and is a member of the Financial Industry Regulatory Authority, Inc. (FINRA).

2. Significant Accounting Policies:

The Company follows the accounting standards set by the Financial Accounting Standards Board (FASB). The FASB sets generally accepted accounting principles (GAAP) that the Company follows to ensure consistent reporting of financial condition.

The preparation of the statement of financial condition in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the statement of financial condition. Actual results could differ from those estimates.

The Company maintains cash in a bank account insured by the Federal Deposit Insurance Corporation (FDIC). The insurance is currently limited to \$250,000. During 2022, the account never exceeded the limit and no losses have been incurred on the account.

The Company is not liable for federal or state income taxes, as the member recognizes the Company's income or loss on his personal tax return. As such, management has determined that there were no material uncertain income tax positions at the Company level for 2022. The Company filed a final partnership income tax return in 2019, and is not subject to examination by United States federal and state tax authorities for tax years before 2019.

Recorded amounts of cash and accrued expenses approximate fair value, based on their short-term nature, and are categorized as Level 1 assets and liabilities within the fair value hierarchy established by FASB ASC 820.

Management has evaluated subsequent events through February 17, 2023, the date on which the statement of financial condition was available to be issued.

3. Net Capital Requirements:

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1) which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. (The rule of the applicable exchange also provides that equity capital may not be withdrawn or cash distributions paid if the resulting ratio would exceed 10 to 1). Under this rule, the Company is required to maintain "minimum net capital" equivalent to \$5,000 or 6 2/3% of "aggregate indebtedness," whichever is greater, as these terms are defined. At December 31, 2022, the Company had net capital of \$6,176, which is \$1,176 in excess of its required net capital.

NOTES TO STATEMENT OF FINANCIAL CONDITION

4. Going Concern:

Financial Accounting Standards Board ASU 2014-15 Presentation of Financial Statements-Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern requires management to assess whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern within one year after the statement of financial condition is issued. If substantial doubt exists, additional disclosures are required.

The statement of financial condition has been prepared on the going concern basis, which assumes that the Company will continue in operation for the foreseeable future. Management has identified no conditions or events that create an uncertainty about the ability of the Company to continue as a going concern. Management has made a statement that they will continue to fund the Company despite the lack of revenue during the year.

The following describes management's plans that alleviated substantial doubt about the Company's ability to continue as a going concern. Capital will be contributed as needed by the sole owner. The Company's ability to meet its obligations as they become due is dependent upon the success of management's plans, as described above.
