VOS INTERNATIONAL, INC.
NOTES TO THE CONDENSED FINANCIAL STATEMENTS
DECEMBER 31, 2006
(UNAUDITED)

NOTE 1 – THE COMPANY AND BASIS OF PRESENTATION

The accompanying interim condensed financial statements of VOS International, Inc. and subsidiary (collectively, the "Company" or "VOS") have been prepared pursuant to the rules of the Securities and Exchange Commission (the "SEC") for quarterly reports on Form 10-QSB and do not include all of the information and note disclosures required by generally accepted accounting principles. These condensed financial statements and notes herein are unaudited, but in the opinion of management, include all the adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of the Company's financial position, results of operations, and cash flows for the periods presented. These condensed financial statements should be read in conjunction with the Company's audited financial statements and notes thereto included in the Company's Form 10-KSB for the year ended September 30, 2006 as filed with the SEC. Interim operating results are not necessarily indicative of operating results for any future interim period or for the full year.

"VOS" is; is an acronym for Voice Operated Switching. VOS Systems, Inc. is a technology company involved in the design, development, manufacturing, and marketing of consumer electronic products, platforms and services designed to give people voice command over their living environments.

Our executive offices are currently located at 13000 Danielson Street, Suite J, Poway, CA 92064. Our telephone number is: (858) 679-8027. We maintain a website at www.vosystems.com.

The accompanying condensed financial statements have been prepared assuming that the Company will continue as a going concern. During the three month period ended December 31, 2006, the Company suffered a net loss of \$58,582 and had a positive cash flow from operating activities of \$1,654. As of December 31, 2006, the Company had a stockholders' deficiency of \$993,303. The Company has sustained its operations primarily through debt and equity financing. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

In view of these matters, realization of a major portion of the assets in the accompanying balance sheet is dependent upon continued operations of the Company, which in turn is dependent upon the Company's ability to meet its working capital requirements, and the success of its future operations. Management's current plans are: (1) to further commercialize its own products; (2) to market new products, including products from other manufacturers; (3) to continue to operate and improve e-commerce sites to sell its products; and (4) to continue to generate profitable sales and end-user awareness. To successfully execute its current plans, the Company will need to improve its working capital position. The Company plans to overcome the circumstances that impact our ability to remain a going concern through a combination of achieving profitability, raising additional debt and equity financing. There can be no assurance, however, that we will be able to complete any additional debt or equity financing on favorable terms or at all, or that any such financings, if completed, will be adequate to meet our capital requirements. Any additional equity or debt financings could result in substantial dilution to our stockholders. If adequate funds are not available, we will be required to delay, reduce or eliminate some or all of our planned activities. Our inability to fund our capital requirements would have a material adverse effect on the Company. Management believes that the actions presently being taken to revise the Company's operating and financial requirements may provide the opportunity for the Company to continue as a going concern.

NOTE 2 - SEASONALITY

We believe that our product sales in traditional consumer electronics are generally lower from December through April of each fiscal year. Our products will be affected by these trends in several cases and as a result, may experience lower revenues during this time. Seasonal and cyclical trends in the retail sector may also affect revenues.

Item 2. Management's Discussion and Analysis of Financial Condition and Plan of Operations

The following discussion and analysis should be read in conjunction with the condensed financial statements and notes thereto appearing elsewhere in this Quarterly Report on Form 10-QSB.

This discussion may include projections of future results and “forward looking statements” as that term is defined in Section 27A of the Securities Act of 1933 as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934 as amended (the “Exchange Act”). All statements that are included in this Quarterly Report, other than statements of historical fact, are forward looking statements. Although management believes that the expectations reflected in these forward looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct.

Financial Summary

Results of Operations for the Three-Months Ended December 31, 2006

The Company reports a net loss of \$58,582 for the three months ended December 31, 2006 versus a net loss of \$185,187 for the three months ended December 31, 2005. In all respects, the composition of expenses during these two periods are dissimilar, the difference being attributed to substantial reductions in employees and all operating costs.

Sales and Cost of Goods Sold:

Sales for the three months ended December 31, 2006 were \$18,661 compared to \$64,892 for the three months ended December 31, 2005. This decrease of \$46,231 was due primarily to a change in the marketing of products and the lack of operating cash for marketing and advertising campaigns.

Cost of goods sold for the three months ended December 31, 2006 was \$5,633 or 30% of sales; compared to \$46,421 or 72% of sales for the three month period ending December 31, 2005. The decrease was due mainly to a higher margin on products sold at retail to internet customers during the period ended December 31, 2005.

Liquidity and Capital Resources

During the three month period ending December 31, 2006 the Company's cash position increased by \$1,654; cash at the beginning of the period was \$0, cash remaining at the end of the period was \$1,654. All net cash provided was from operating activities.

During the three month period ending December 31, 2005 the Company's cash position decreased by \$59,982. Net cash used in operating activities was \$83,327; cash provided by financing activities was \$24,345, primarily from proceeds from short term debt. Cash at the beginning of the period was \$59,982; resulting in cash at the end of the period of \$0.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. During the three month period ended December 31, 2006, the Company suffered a net loss of \$58,582 and had a positive cash flow from operating activities of \$1,654. As of December 31, 2006, the Company had a stockholders' deficiency of \$993,303. The Company has sustained its operations primarily through debt and equity financing. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

In view of these matters, realization of a major portion of the assets in the accompanying balance sheet is dependent upon continued operations of the Company, which in turn is dependent upon the Company's ability to meet its working capital requirements, and the success of its future operations. Management's current plans are: (1) to further commercialize its own products; (2) to market new products, including products from other manufacturers; (3) to continue to operate and improve e-commerce sites to sell its products; and (4) to continue to generate profitable sales and end-user awareness. To successfully execute its current plans, the Company will need to improve its working capital position. The Company plans to overcome the circumstances that impact our ability to remain a going concern through a combination of achieving profitability, raising additional debt and equity financing. There can be no assurance, however, that we will be able to complete any additional debt or equity financing on favorable terms or at all, or that any such financings, if completed, will be adequate to meet our capital requirements. Any additional equity or debt financings could result in substantial dilution to our stockholders. If adequate funds are not available, we will be required to delay, reduce or eliminate some or all of our planned activities. Our inability to fund our capital requirements would have a material adverse effect on the Company. Management believes that the actions presently being taken to revise the Company's operating and financial requirements may provide the opportunity for the Company to continue as a going concern.

Management's Plan of Operation

We specialize in the development of embedded processor speech recognition applications for use in products we ourselves develop. We also develop speech recognition platforms for other manufacturers to enhance the features of their products. Currently the Company maintains two patents. Our core business is based on these patented applications.

The first is US Patent # 6,188,986 B1 "Voice Operated Switch Method and Apparatus" which covers the use of embedded processor speech recognition in a device that produces control signals in response to voice commands. This device acts as a control interface between utility power and connected electrical devices by connecting, controlling or disconnecting power to the electrical devices based on voice commands. The second Patent is a continuation on the first, with the Patent Number US 6324514B2. This second patent serves to enhance and broaden the claims of the first Patent.

We own several trade names and one trademark. The registered trade names include VOS Systems™, Your Voice Turns Me On™, Light Genie™ and Intelavoice™. Our registered trademark is the VOS MAN.

We currently derive our revenues from product sales of the Intelavoice™ Product Line.

VOS International is currently engaged in discussions with Synertech International Limited who seeks an exclusive licensing agreement for the VOS Voice Operated Lighting Patents. VOS has done work for Synertech over the years and has been working with them on developing a 220V version of the Intelavoice Voice Operated Lighting Controller. This version would be required to enter into the European and Asian markets. Synertech has an established marketing presence in Europe and Asia with Sales in excess of \$15 million. They are currently moving into relationships with US retailers with their line of timers and lighting controllers VOS Management sees this as an excellent synergistic relationship for both parties. A final proposal is currently being reviewed by attorneys for Synertech International Limited here in San Diego and we will be meeting again soon to negotiate the specific terms of the Agreement.

VOS has also entered into an agreement with Honeywell to begin marketing and distribution of the Intelavoice Voice Operated Dimmer. Honeywell has approved of an initial 1000 piece order to begin test marketing the newest design submitted to them last month. VOS has sold some of it's Intelavoice products to Honeywell in the past for various component integration studies and a interest to move forward has been secured now on VOS's own Intelavoice Product Line.

The purchase order will be held in anticipation of a final agreement with Synertech on the licensing of the VOS Patents is reached or until mid March whichever comes first. If a licensing agreement is reached Synertech will directly supply Honeywell with products based on the VOS patents under license and VOS will be paid a royalty.

Item 3. Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report. There were no changes in our internal control over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting
