*Report of Independent Public Accountants on
the Special Review of Quarterly Information*

March 31, 2003

Deloitte Touche Tohmatsu Auditores Independentes

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS ON THE SPECIAL REVIEW

(Convenience translation into English from the original previously issued in Portuguese.)

To the Shareholders and Board of Directors of
Embratel Participações S.A.
Rio de Janeiro – RJ

1. We have made a special review of the quarterly report of EMBRATEL PARTICIPAÇÕES S.A. (a Brazilian corporation) and subsidiaries (company and consolidated), for the quarter ended March 31, 2003, prepared under the responsibility of the Company's management, in accordance with accounting practices adopted in Brazil, which includes the balance sheets, the related statements of income and the report on performance.
2. Our review was conducted in accordance with specific standards established by the Brazilian Institute of Independent Auditors - Ibracon, together with the Federal Accounting Council, and comprised: (a) inquiries of and discussions with Company's Management responsible for the accounting, financial and operating areas as to the principal criteria adopted in the preparation of the quarterly information; and (b) review of information and subsequent events that had or might have had significant effects on the financial position and operations of the Company and subsidiaries.
3. Based on our special review, we are not aware of any material modification that should be made to the information contained in the quarterly report referred to in paragraph 1, for it to be in accordance with accounting practices adopted in Brazil and presented in accordance with standards laid down by Brazilian Securities Commission (CVM), specifically applicable to the preparation of quarterly information.
4. The individual and consolidated balance sheets as of December 31, 2002, presented for comparative purposes, were audited by us, and our unqualified auditors' report was issued on March, 17, 2003. The individual and consolidated statements of income for the quarter ended March 31, 2002, also presented for comparative purposes, were reviewed by other independent public accountants, and an unqualified special report was issued on May 7, 2002.

Rio de Janeiro, May 6, 2003.

EMBRATEL PARTICIPAÇÕES S.A.

NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE THREE-MONTH PERIOD ENDED MARCH 31, 2003

(In thousands, except as indicated otherwise)

(Translation of the report originally issued in Portuguese.

See Note 28 to the financial statements.)

1. OPERATING OVERVIEW

Embratel Participações S.A. (“Company”) was incorporated in accordance with article 189 of Law No. 9,472/97 - General Telecommunications Law - based on Decree No. 2,546 of April 14, 1998. The Company resulted from the spin-off from Telecomunicações Brasileiras S.A. - Telebrás, as approved at the May 22, 1998 General Meeting of Shareholders. The spin-off was based on an appraisal report as of February 28, 1998.

The Federal Government sold its interest of 19.26% in Embratel Participações S.A., at a public auction at the Rio de Janeiro Stock Exchange held on July 29, 1998, to Startel Participações Ltda. (WorldCom).

Embratel Participações S.A. holds 98.8% of the capital of Empresa Brasileira de Telecomunicações S.A. - Embratel. Embratel provides international and domestic long-distance telecommunications services in Brazil, under the terms of the concession authorized by the Federal Government, which will expire on December 31, 2005, and may be renewed for a 20-year term.

The businesses of the subsidiaries Embratel and Star One S.A. are regulated by Anatel (Agência Nacional de Telecomunicações), which is the regulatory authority for the Brazilian telecommunications industry, pursuant to Law No. 9,472, of July 16, 1997, and related regulations, decrees, decisions and plans.

On August 15, 2002, the subsidiary Embratel was granted an undefined term authorization by Anatel to operate Switched Fixed Telephony Services (STFC), for local services, in areas equivalent to regions I, II and III of the General Grant Plan (“Plano Geral de Outorgas”), which represents the authorization to operate in domestic territory. The subsidiary Embratel started rendering those services effective in December 2002.

On November 1, 2000, the subsidiary Embratel incorporated Star One S.A. to manage satellite operations, as the main Brazilian provider of transponders for radio-communication services such as: (i) network services; (ii) end-to-end telecommunications services; and (iii) transmission of radio and television broadcasting. On the date of incorporation, all terms and conditions related to Brazilian satellite rights and obligations were transferred to Star One, which became the licensee for providing these services until December 31, 2005, free of any burden, except when indicated, renewable for a 15-year term.

2. PRESENTATION OF FINANCIAL STATEMENTS

The individual and consolidated financial statements were prepared in accordance with accounting practices established by the Brazilian corporate law, instructions applicable to telecommunications concessionaires and rules and accounting procedures established by the Brazilian Securities Commission (CVM - Comissão de Valores Mobiliários).

3. SUMMARY OF PRINCIPAL ACCOUNTING PRACTICES

a. Cash and Cash Equivalents

Cash and cash equivalents refer to highly liquid temporary investments that will be held until maturity and are recorded at cost, plus interest earned through the balance sheet date, limited to market value, when applicable.

b. Trade Accounts Receivable

Trade Accounts Receivable refer primarily to the amounts receivable from long distance domestic and international telecommunication and data services, billed and/or unbilled at the closing dates of the financial statements, through operating telecommunications companies.

Allowances for doubtful accounts are accrued for receivables for which recoverability is considered doubtful.

c. Foreign Currency Transactions

Assets and liabilities denominated in foreign currency are stated at the exchange rate prevailing at the closing dates of the financial statements. Exchange gains or losses are recorded in the income statement, classified as Interest Income (Expense) when incurred. The effects of exchange rate differences are detailed in Note 9.

d. Investments

This account refers substantially to investments in subsidiaries, recorded under the equity method. Other investments refer mainly to holdings in satellite companies Intelsat, Inmarsat and New Skies, recorded at acquisition cost, adjusted for any exchange gains or losses and net of provisions for probable losses, when applicable.

e. Property, Plant and Equipment

Property, plant and equipment is recorded at cost of acquisition and/or construction, less the accumulated depreciation, monetarily restated up to December 31, 1995.

The current annual depreciation rates used are calculated on the straight-line method based on the expected useful life of the assets. The main rates used are shown in Note 16.

Expenses for maintenance and repair are expensed as incurred. Expenditures for betterment to fixed assets (which increase the utility of the asset or extend the physical life) are capitalized. The interest charges arising from financing of construction in progress are recorded in Property, Plant and Equipment.

As described in Note 16, fixed assets acquired through leasing contracts are capitalized and the corresponding lease finance is registered as a liability. The liabilities arising from such transactions bear interest and, where applicable, exchange variations.

f. Deferred Assets

This represents the goodwill associated with the acquisition of Acessonet Ltda., which is being amortized over 5 (five) years (Note 17).

g. Loans and Financing

Loans and financing include accrued interest and are updated based on exchange or monetary variation to the balance sheet date, according to the terms of each agreement.

h. Income Tax and Social Contribution

Income tax and social contribution on net income are recorded on an accrual basis. Deferred taxes are provided on temporary differences, tax losses and on the negative basis for calculation of social contribution, as described in Notes 11, 14 and 19, based on the assumption of its future realization.

i. Provision for Contingencies

The provision for contingencies is updated through the closing dates of the financial statements for losses, according to the nature of each contingency. The basis and nature of the provisions are described in Note 21.

j. Actuarial Liabilities - Telos

The subsidiaries Embratel and Star One sponsor a separate entity that provides pensions and other post-retirement benefits for their employees (Note 22). Contributions to the plans are determined according to actuarial calculations and recorded on an accrual basis.

According to CVM Deliberation No. 371 issued on December 13, 2000, actuarial liabilities were integrally recognized in financial statements as of December 31, 2001.

k. Deferred Income

This amount is related to the sale of rights of way primarily for fiber optic cables to Brazilian telecommunications companies and other international companies with activities in the Mercosur, and is reflected in results according to the terms of the contracts.

l. Revenue Recognition

Revenues from services are recognized using the accrual method of accounting, after deducting an estimate for billing errors or disputes. Revenues from international services also include revenues earned under bilateral agreements between the subsidiary Embratel and overseas telecommunications companies. These agreements govern tariffs paid by the subsidiary to the foreign entities for the use of their facilities in connecting international calls billed outside Brazil. Revenues from international calls are recognized monthly as they are made (Note5).

m. Interest Income (Expense)

This represents interest and exchange and monetary variations resulting from financial applications, loans and financing obtained and other liabilities subject to updates, which are recognized on an accrual basis.

n. Employees' Profit Sharing

The subsidiaries Embratel and Star One have provided for employees' profit sharing, calculated based on corporate and individual goals, and payment of which is subject to approval by the General Meeting of Shareholders. As determined by Circular Letter CVM/SEP/SNC No. 01/2003, issued on January 16, 2003, the Company and its subsidiaries reclassified that expense to operational expenses in the statements of income for the period. For comparative purposes, the statements of income for the three-month period ended December 31, 2002 also reflects such reclassification.

o. Minority Interests

Refers to the minority shareholder interests in the Embratel and Star One subsidiaries.

p. Income (Loss) per Thousand Shares

Income (Loss) per thousand shares is calculated based on the number of shares outstanding at the balance sheet date.

q. Use of Estimates

For consolidation purposes, Management is required to make estimates and assumptions related to the recording and disclosure of assets and liabilities, as well as revenues and expenses, on the consolidated financial statements. Actual results may differ from those estimates.

4. CONSOLIDATION PROCEDURES

For consolidation purposes, intercompany balances and transactions were eliminated, including items such as intercompany investments, unrealized profits, when applicable, equity adjustments, intercompany income and expense accounts and intercompany balances under short and long-term assets and liabilities. The intercompany investments were eliminated against the respective intercompany shareholders' equity.

The consolidated financial statements as of March 31, 2003 and December 31, 2002 include the financial statements of Embratel Participações S.A. and of its direct and indirect subsidiaries, as follows:

	Voting capital stock	
	Direct and/or

	455,206	450,133
Other services	<u>72,594</u>	<u>54,806</u>
Total	<u><u>1,708,742</u></u>	<u><u>1,852,130</u></u>

(*) During the first quarter of 2003, the Company adopted the procedure of reporting international long-distance revenues reflecting the amounts payable to foreign administrators (settlement) in the cost of services. Previously, these revenues were being presented net of settlement. Such change aims to align the Company's procedures with the recent changes in the telecommunications industry's practices. Although this change does not affect gross profit, and the practice previously adopted by the Company is in accordance with that of industry, the current procedure is considered as preferential since it facilitates the comparability with other companies of the industry.

As a result of this change, gross and net international long-distance revenues of the three-month period ended March 31, 2002, as well as the cost of services in the same period, were reclassified, for better comparability purposes.

6. COST OF SERVICES

	Consolidated

Other	<u>(82)</u>	<u>(169)</u>
Total	<u>(39,477)</u>	<u>2,071</u>

11. INCOME TAX AND SOCIAL CONTRIBUTION

The Company and its subsidiaries are subject to corporate income tax (IRPJ) and social contribution on profits (CSSL) on their actual profit, and have chosen to pay such taxes based on monthly estimates. As provided in current tax legislation, the monthly estimated payment is suspended or reduced when the amounts originated from such criteria are higher than those obtained through calculation made based on the accumulated actual profit of the current period, upon balance sheets prepared for this purpose (tax balance sheet). The amounts of the prepaid Income Tax and Social Contribution are recorded as Income Tax - Estimated and Social Contribution - Estimated, and are shown as a deduction from the taxes payable (see Note 19).

Tax legislation introduced in 1995 (Law No. 8,981) limited the offset of accumulated tax losses and negative calculation basis for social contribution on profits to 30% (thirty percent) of taxable income in each fiscal year. On December 31, 2002, the subsidiary Embratel had R\$1,074,621 in tax losses and R\$944,547 of negative basis of social contribution (on March 31, 2002, R\$155,957 in tax losses and R\$44,684 of negative basis of social contribution).

11.1 - Income Tax and Social Contribution Income (Expenses)

The income tax and social contribution expense is comprised of the current expense for the year, computed in accordance with current tax legislation, and of the deferred expense, corresponding to the effects of the taxes on the temporary differences arising or realized in the year. The deferred income tax and social contribution income for three-month periods ended March 31, 2003 and 2002 totals R\$8,607 and R\$20,030, respectively (consolidated), and were calculated on the allowance for doubtful accounts, tax losses, temporarily non-deductible taxes and other expenses, as well as other temporarily non-taxable revenues (Note 14).

Social contribution	-	-	2,279	5,300
Income tax	<u>-</u>	<u>-</u>	<u>6,328</u>	<u>14,730</u>
Total deferred income	<u>-</u>	<u>-</u>	<u>8,607</u>	<u>20,030</u>
Total	<u>(3)</u>	<u>(39)</u>	<u>(12,106)</u>	<u>11,170</u>

The current income tax and social contribution charge, reported in the statements of income for the three-month periods ended 2003 and 2002, arises substantially from the subsidiary Star One.

11.2 - Reconciliation of Tax Income (Expenses) with Nominal Rates

The reconciliation between the income tax and the social contribution, calculated based on the statutory tax rates in relation to the amounts recorded is shown below:

	Company		Consolidated	
	March 31,		March 31,	
	<u>2003</u>	<u>2002</u>	<u>2003</u>	<u>2002</u>
Income (Loss) before taxes and minority interest	<u>10,698</u>	<u>(36,576)</u>	<u>29,763</u>	<u>(44,658)</u>
Social contribution income (loss) at nominal rate	(963)	3,292	(2,679)	4,019
Rate adjustment to obtain effective rate-				
Social contribution on amortization of goodwill from merger	-	-	(595)	(595)
Non-deductible financial charges	-	-	-	(1,074)
Sundry permanent additions and exclusions ^(*)	<u>962</u>	<u>(3,304)</u>	<u>68</u>	<u>602</u>
Social contribution benefit (expense) on statement of income	<u>(1)</u>	<u>(12)</u>	<u>(3,206)</u>	<u>2,952</u>
Income tax income (expense) at nominal rate-	(2,675)	9,144	(7,441)	11,165
Rate adjustment to obtain effective rate-				
Income tax on amortization of goodwill from merger	-	-	(1,653)	(1,653)
Non-deductible financial charges	-	-	-	(2,983)
Sundry permanent additions and exclusions ^(*)	<u>2,673</u>	<u>(9,171)</u>	<u>194</u>	<u>1,689</u>
Corporate income tax credit (expense) per statement of income	<u>(2)</u>	<u>(27)</u>	<u>(8,900)</u>	<u>8,218</u>
Income tax and social contribution on profits	<u>(3)</u>	<u>(39)</u>	<u>(12,106)</u>	<u>11,170</u>

^(*) Sundry permanent additions and exclusions at the Parent Company are substantially related to equity method results on investments.

The provision for income tax was accrued based on taxable income at the rate of 15%, plus the additional 10% foreseen in the law. The social contribution was calculated at the rate of 9%.

12. CASH AND CASH EQUIVALENTS

	Company		Consolidated	
	March 31,	December 31,	March 31,	December 31,
	<u>2003</u>	<u>2002</u>	<u>2003</u>	<u>2002</u>
Cash and bank deposits	83	33	230,390	268,837
Foreign short-term investments	-	-	62,698	292,164
Marketable securities	<u>19,787</u>	<u>20,134</u>	<u>232,911</u>	<u>325,990</u>
Total	<u>19,870</u>	<u>20,167</u>	<u>525,999</u>	<u>886,991</u>

Marketable securities are represented primarily by fixed income bonds. The investments abroad are funded from mutual traffic revenues received from international operators and invested in short-term financial applications.

13. TRADE ACCOUNTS RECEIVABLE

	Consolidated	
	March 31, <u>2003</u>	December 31, <u>2002</u>
Voice services	2,729,216	2,676,977
Data, telecom operators and other services	588,316	585,377
Foreign administrators	<u>279,183</u>	<u>319,126</u>
Subtotal	3,596,715	3,581,480
Allowance for doubtful accounts	<u>(2,095,854)</u>	<u>(1,990,484)</u>
Total	<u><u>1,500,861</u></u>	<u><u>1,590,996</u></u>

The Company constantly monitors its accounts receivables past due. An allowance for doubtful accounts is recognized as from the first day after maturity, and is gradually increased to reflect any deterioration in recoverability with the aging of receivables. The balance of the allowance for doubtful accounts as of March 31, 2003 and December 31, 2002 refers substantially to provisions for amounts over 120 days past due on voice services.

During 2002 and 2003, the Company continued making significant investments in measures to improve its collection rate and also continued to manage calls more aggressively so as to ensure that non-payers were prevented from using its network. These investments have resulted in a decrease in doubtful accounts charges. In the first quarter of 2003, such charges decreased by approximately R\$67,000, as compared to the same period in 2002.

During 2002, the Company signed co-billing agreements with local phone service providers. This consists of invoicing customers for services rendered by the subsidiary Embratel on the same bill which is used by the local phone company to charge for its own services. Co-billing is a billing alternative which the subsidiary Embratel offers to its customers to make the payment easier, and may also contribute to improve collections as the procedure is more widely implemented.

14. DEFERRED AND RECOVERABLE TAXES

Noncurrent	<u>-</u>	<u>-</u>	<u>1,207,762</u>	<u>1,185,636</u>

As part of the agreement for the sale of a minority shareholding in the subsidiary Star One S.A., in January 2001, SES Participações Ltda. (the Brazilian subsidiary of the new minority shareholder) was merged into Star One S.A. Deferred Income Tax and Social Contribution credits (Assets), in the amount of R\$24,726 as of March 31, 2003 (R\$26,974 as of December 31, 2002) resulted from that merger, and were recognized in Star One's financial statements as a deferred asset and with a corresponding credit to a special reserve for goodwill in the shareholders' equity of the referred subsidiary, as foreseen in article 6 of CVM Instruction No. 319/99.

Deferred taxes were recorded based on the assumption of future realization, as follows:

- Tax losses and negative basis will be compensated at the limit of 30% of the taxable income in each period.
- Goodwill on investment: recovery will occur proportionally to the amortization of the goodwill from the subsidiary Star One, in a 5-year term.
- Other temporary differences: realization will occur with the payment of accrued provisions and the actual write-off of underlying doubtful accounts.

In July 2002, CVM Instruction No. 371 was issued, establishing cumulative conditions for recording and maintenance of deferred assets arising from temporary differences and tax losses and negative basis of social contribution, as follows:

- Presentation of historical profitability through generation of taxable income in, at least, three of five tax periods, or presentation of actions implemented for generation of taxable income in the future; and
- Presentation of expectation of generation of taxable income in the future. The projected income has to be discounted to present value based on the expected term for realization, supported by a study which demonstrates the realization of the deferred tax assets over a maximum term of ten years.

Additionally, this Instruction determines that the maintenance of the capitalized amounts must be supported by updated financial projections.

The Company's financial projections, which were approved by the Company's Board of Directors and reviewed by the Company's Fiscal Counsel, indicate the full recovery of the amounts recognized by the subsidiaries within the period defined by this Instruction.

The referred financial projections correspond to the best Management estimates on the future conditions of the Company. Due to the nature of prospective information and the inherent uncertainties of information based on future events, mainly considering the market which the Company operates, there may be significant differences between the actual results and those shown by the financial projections.

The table below shows the schedule for realization of deferred fiscal assets recorded in the subsidiary Embratel:

<u>Year / Period</u>	
April through	
December 2003	153,000
2004	134,663
2005	189,105
2006	129,657
2007	204,339
2008 through 2010	443,843

The Company's Management is monitoring the evolution of deferred assets arising from temporary differences and tax losses and negative basis of social contribution. Hence, the Company is aware that, should future analysis and forecasts indicate that profitability will not be sufficient to recover the full amount of the assets, it may be forced to write off part of the credit recorded. However, some measures have already been or are being taken by the Company's Management in order to make its business return to profitability and, in doing so, to assure the realization of tax credits, among which we highlight:

- Better management of services, seeking to improve collectability of revenues and reducing costs associated with high bad debt rates (Note 13);
- Launching of operations in the local telephony market as from December 2002 (Note 1);
- Renegotiation of debt with financial institutions (Note 20); and
- Continuing efforts to reduce operational costs.

15. INVESTMENTS

Total		<u>14.012.100</u>	<u>(6.412.530)</u>	<u>7.599.570</u>	<u>7.795.867</u>

(1) Vehicles, IT infrastructure, furniture and fixtures.

(2) Software licenses and rights of way.

(3) On March 31, 2003, fully depreciated assets amount to R\$1,980,279 (R\$1,701,506 on December 31, 2002).

(4) The Company revalued the depreciation rates applicable to switching equipment and, consequently, since January 2003 the referred equipment have been depreciated on a 10% annual rate (7.69% until December 31, 2002).

a. Assets related to the concession contract

The concession to provide international and domestic long-distance telecommunications services, as mentioned on Note 1, foresees the reversibility of certain fixed assets indispensable for the rendering of concession services, in order to guarantee its continuity after the concession expires.

As regards the fixed assets considered as reversible, the General Telecommunications Law established that those assets are allocated for use in services provided under concession, which prevents their removal, disposal, assignment or use as guarantee in mortgages without the express prior authorization of the regulatory authority.

b. Assets acquired through financial leasing

In the first quarter of 2002, the Company decided to start capitalizing the assets acquired through financial leasing contracts and to treat the corresponding obligations as liabilities. Therefore, on the date of the adoption of this practice, the accumulated cost of the leased assets was identified, the related accumulated depreciation calculated according to the estimated useful life of the assets, the amount of the corresponding liabilities was determined, and the amounts recorded. The adoption of this practice has not significantly impacted the financial statements.

c. Assets pledged as a guarantee

As of March 31, 2003, the Company had real estate and other fixed assets, considered as non reversible, in the amount of R\$412,091, listed and/or designated as guarantees in judicial claims.

d. Construction of the C-1 Satellite – Star One subsidiary

In 2002, the subsidiary Star One S.A. signed an agreement for construction of the satellite “C-1”. The cost of the project is approximately equivalent to US\$126,105, and, according to the original 32-month schedule, will be concluded in 2005. Based on the agreement, on March 31, 2003, the amount of R\$116,536 (R\$115,973 on December 31, 2002) related to the payment of 15% of the total costs estimated for the project, plus other building costs incurred until that date, was recorded under the heading Construction in Progress.

In November 2002, the subsidiary Star One and the contractor agreed to revise technical specifications of satellite C-1, in order to optimize benefits of this investment. While the final revisions to the specifications are being made, the contractor will work only on the items not affected by possible changes. The final revision proposals for the specifications, including any contractual changes, as well as the schedule previously agreed, are expected by the end of the first semester of 2003.

The original agreement provides that, if the construction of satellite C-1 is cancelled, the subsidiary Star One would be obliged to reimburse the contractor and its sub-contracted parties the costs incurred until the date of cancellation, plus 5% of that amount, after subtracting the payments made.

17. DEFERRED ASSETS

	Consolidated	
	March 31, <u>2003</u>	December 31, <u>2002</u>
Goodwill on acquisition of subsidiary	202,978	202,978
Accumulated amortization	<u>(91,340)</u>	<u>(81,191)</u>
Net book value	<u><u>111,638</u></u>	<u><u>121,787</u></u>

On July 23, 2001, the subsidiary Acessionet Ltda. was merged into the subsidiary Embratel. As required by CVM Instruction No. 319/99 for cases when goodwill paid is economically supported by forecasted future profits, the subsidiary Embratel transferred the goodwill paid upon the acquisition of Acessionet, in December 2000, to a specific account in deferred charges.

18. ACCOUNTS PAYABLE AND ACCRUED EXPENSES

Current	<u>-</u>	<u>22,635</u>	<u>271,000</u>	<u>252,284</u>
Noncurrent	<u>12,516</u>	<u>12,516</u>	<u>55,516</u>	<u>55,557</u>

In 1999, the subsidiary Embratel challenged the changes caused by Law No. 9,718/99 which increased: (a) the taxable revenues for calculation of PIS and COFINS, including financial income and exchange variation and (b) the COFINS rate from 2% to 3%. Despite this challenge, the subsidiary Embratel continued to accrue the total amount of the tax liability and made judicial deposits in the period from August 1999 through April 2001.

Since May 2001, based on jurisprudence, the Company decided to cease making deposits and started paying PIS and COFINS.

20. LOANS AND FINANCING

	Consolidated		
	March 31, 2003		December 31, 2002
	Principal	Interest	Total
Financial institutions	4,460,578	104,001	4,564,579
Suppliers	5,578	51	5,629
Total	<u>4,466,156</u>	<u>104,052</u>	<u>4,570,208</u>
Current	<u>1,822,578</u>	<u>104,052</u>	<u>1,926,630</u>
Noncurrent	<u>2,643,578</u>	<u>-</u>	<u>2,643,578</u>

The loans and financing with financial institutions are primarily denominated in foreign currency. Part of the debt is hedged against devaluation of the Brazilian Real through “swap” operations (Note 26), as described below:

	Amount	%	Average cost of debt	Maturity
Current-				
Hedged debt (notional amount)	988,944	51.3	84.67% CDI p.a.	Up to 1.0 year
Unhedged debt	<u>937,686</u>	<u>48.7</u>	6.99% p.a. in foreign currency (i)	Up to 1.0 year
Total short term debt	<u>1,926,630</u>	<u>100.0</u>		
Noncurrent-				
Hedged debt (notional amount)	720,024	27.2	93.86% CDI p.a.	Up to 4.2 years
Unhedged debt	<u>1,923,554</u>	<u>72.8</u>	8.22% p.a. in foreign currency (i)	Up to 7.4 years
Total long term debt	<u>2,643,578</u>	<u>100.0</u>		
Total-				
Hedged debt	1,708,968	37.4		
Unhedged debt	<u>2,861,240</u>	<u>62.6</u>		
Total debt (ii)	<u>4,570,208</u>	<u>100.0</u>		

(i) Various interest rates in different currencies expressed in US Dollar equivalents as if all loans were US dollar denominated. The breakdown of debt by currency appears in item (c) of this note.

(ii) Net of receivable balance originated from hedge contracts - R\$141,605 on March 31, 2003.

The Company's policy is to seek hedges with financial institutions for all new debt with maturity of less than three years. This policy seeks to achieve a balance between preserving cash and protecting results from significant variations on exchange rates.

The suppliers' financing is foreign currency denominated and refers to purchases of materials and equipment used to enhance domestic and international telecommunication services.

In March 2003, the renegotiation of part of the loans with some banking institutions became effective, as described in item “f” below. The original characteristics of the renegotiation loans (maturities, interest rates and currencies) remained unchanged until the original maturity foreseen, and then the new terms became effective. Consequently, information disclosed in relation to the average cost of debt, breakdown by currency and noncurrent debt repayment schedules, reflect the status on the balance sheet date, which will be gradually adjusted to the renegotiated terms on the original maturity dates. Specifically in relation to currency, the banking institutions were given the option to swap the currency of the original loans.

a. Mode/Objective

Total		<u>4,570,208</u>		<u>4,891,935</u>

d. Guarantees

Until the date of debt renegotiation, loans and financing operations were guaranteed primarily by promissory notes (though they do not represent real guarantees, these notes are executable instruments in cases of indebtedness) – see item “f” below for information on the new guarantees agreed.

e. Financial agreement for the construction of satellite – subsidiary Star One

On April 19, 2002, the subsidiary Star One entered into a financial agreement with BNP Paribas in order to finance 85% of C1 satellite construction costs and 100% of the insurance premium to be paid to COFACE ("Compagnie Française d'Assurance pour le Commerce Extérieur"). The total amount is equivalent to US\$122,337, with 36 months of grace period and 14 equal and consecutive semi-annual installments, resulting in a 9.5 year contract. During the grace period, the interest rate will be at the sum of the six-month LIBOR plus a margin of 0.75% per annum and during the repayment period, 5.96% per annum.

The current agreement foresees the following guarantee clauses:

- e.1.) during the entire term of the agreement, the subsidiary Star One pledges to keep deposits, in the creditor's services accounts, in an amount in Brazilian reais equivalent to 6 months of the above mentioned loan in US dollars, and to issue a promissory note in favor of BNP Paribas, in the outstanding balance of principal and interest in US dollars. The promissory note has attributable characteristics according to the French Laws. It is a legal instrument that can be executed judicially with the purpose of reinforcing guarantees offered to creditors, and represents a commitment to pay the cited amounts, in the case of the subsidiary Star One delays the payments contractually scheduled;
- e.2.) in the event of unavailability of the above mentioned guarantee, there is the guarantee of part of the accounts receivable originated from the 10-year term agreement signed between subsidiaries Embratel and Star One for the rent of transponders; and
- e.3.) in the event of unavailability of guarantees “e.1.” and “e.2.”, the subsidiary Embratel, controlling shareholder of subsidiary Star One, is unconditionally responsible for paying the principal.

During the term of the agreement, the subsidiary Embratel pledges to hold not less than 51% of the total shares with right of vote of subsidiary Star One.

The first draft should have occurred in August 2002. However, as mentioned in Note 16, the terms of the original agreement for the acquisition of the satellite are being renegotiated with the supplier for changes in technical specifications, in order to optimize performance of satellite C-1. Consequently, the building of the satellite and the first draft were postponed in relation to the initial schedule, in order to properly adjust the terms of the original agreement.

f. Renegotiation of debt

On March 17, 2003, an agreement was reached with some banking institutions to roll over maturing debt, in the amount of R\$861,416.

In April 2003, new contracts were signed, in the amount of R\$20,454, raising the renegotiated total amount to US\$881,870, of which US\$730,268 refer to loans which had the repayment dates postponed, some of them with principal to be paid in full and some others with principal to be paid in installments.

The major conditions of the agreement, on the date of renegotiation, are as follows:

a) Agreements with principal to be paid in full:

The outstanding balance shall be paid as follows: (i) 20% upon maturity, according to the original agreements, and part of it, equivalent to 10% of the outstanding balance of the loans with principal to be paid in full, with guarantees in the amount of US\$76,523 given by the subsidiary Embratel or by one of its subsidiaries; (ii) 7 quarterly installments, corresponding to approximately 4.29% of the outstanding balance; and (iii) 50% of the remainder in 2 years after the original maturity date.

b) Agreements with principal to be paid in installments:

The amortization scheduled according to the original agreements that would occur between the date of renegotiation and June 30, 2004 will not be made, and the accumulated amount of debt in the period will be divided by the number of future installments provided in the original agreements, which will be duly paid.

c) Interest rates renegotiated:

Debt by Currency:	Interest Rates:
Loans in US dollars	Libor + 4% p.a.
Loans in Japanese Yens	Yen Libor + 4% p.a.
Loans in Brazilian reais	CDI + 4% p.a.

d) Main guarantees established, which were also extended to all banking institutions with outstanding loan agreements on the renegotiation date with “pari-passu” right of participation in guarantees, include part of the receivables from corporate customers of the subsidiary Embratel, as well as shares and dividends of subsidiary.

e) The subsidiary Embratel is bound by financial covenants to the creditor banking institutions, on account of the renegotiated agreements, with respect to the following items: the level of debt, minimum earnings before financial result, income taxes, depreciation and amortization (“EBITDA”), and limits for capital expenditures, among other requirements.

21. PROVISION FOR CONTINGENCIES

In the normal course of business, the subsidiary Embratel is party to legal proceedings and potential discussions, which were or may be raised by competent Authorities, including among others, labor, social security, tax, administrative and civil issues.

A significant portion of the contingencies discussed below involve complex issues, with unique characteristics applying either to the Company itself or the telecommunications industry, and arise from different interpretations of the laws in effect, which are not yet covered by consolidated jurisprudence.

It should also be noted that most issues discussed below result from procedures followed prior to the Company's privatization, based on instructions issued by government entities at the time.

Based on the facts currently available and on the legal advisors' opinion, subsidiary Embratel's Management believes that the outcome of a significant portion of present and future claims will be favorable to the Company.

Contingencies which have been evaluated as probable losses are provisioned in the financial statements, as follows:

	March 31, <u>2003</u>	December 31, <u>2002</u>
Commercial disputes with third parties (a)	16,387	17,268
Labor claims (b)	29,874	29,610
Other judicial claims (f)	<u>6,500</u>	<u>6,500</u>
Total provision for contingencies	<u>52,761</u>	<u>53,378</u>

a. Commercial Disputes with Third Parties

Subsidiary Embratel was notified of a decision in an arbitration case administrated by the International Court of Arbitration - ICA, Paris, where Embratel and another company were discussing credits and rights deriving from contractual infringements.

Since the arbitrators decided in favor of the other company, the Company accrued a provision in the amount of R\$16,387 (R\$17,268 on December 31, 2002) in its financial statements.

b. Labor Claims

The provision for loss on labor claims amounted to R\$29,874 on March 31, 2003 (R\$29,610 on December 31, 2002). Such amount represents Management's estimate, based on legal advice of probable loss on numerous suits filed by current and former employees. Additionally, the Company had unaccrued labor contingencies, on March 31, 2003, in the amount of, approximately, R\$28,628 (R\$27,697 on December 31, 2002) related to those claims for which the probability of loss was estimated as possible by legal counsel, thus no provision was recorded in the financial statements.

b.1 - INSS (Brazilian Social Security Institute)

On September 5, 2001, the subsidiary Embratel became aware of an unfavorable decision of the Social Security Council of Appeal on a claim regarding the applicability of Social Security charges (INSS) to certain fringe benefits, such as vacation bonus, life insurance, etc. The total amount of the INSS assessment is R\$55,000. Having exhausted appeals at the administrative levels, the Company immediately filed a court appeal seeking to cancel this assessment. Based on this initial appeal, more than 70% of the credit is currently in suspension, without any requirement for a deposit or guarantee, by force of early relief granted by the Court. The amount of R\$22,930, which was not covered by the initial appeal, is currently deposited in court, in an interest-bearing account. In light of the good chances of success on the judicial appeal and in view of analyses conducted internally and by the Company's Legal Counsel, which have identified a series of mistakes in the calculations of the claims made by INSS, no loss provision was recorded relating to this assessment.

c. Tax Contingencies

c.1 - Withholding Income Tax on Remittances to Foreign Telecommunications Companies

The subsidiary Embratel regularly makes payments to foreign telecommunications companies to complete international calls that originate in Brazil and terminate in a foreign country (outbound traffic). The Brazilian tax law generally requires Brazilian recipients of services from foreign companies to withhold income tax from payments to such foreign companies for such services.

However, the Company has never withheld Brazilian income tax from such payments, based on the International Telecommunications Convention of Nairobi, Kenya (Nairobi Treaty), dated November 6, 1982, which is in force in Brazil, having been approved by Decree Law No. 55, of October 4, 1989, ratified by Presidential letter of January 21, 1990, and promulgated by Presidential Decree No. 70, of March 26, 1991.

As a result, the subsidiary Embratel is required to comply with the Administrative Regulation of the International Telecommunication Union (ITU), of which Brazil is a member. Accordingly, Management believes that the subsidiary Embratel is under no obligation to withhold income tax on the remittances abroad to telephone operators for payment of international calls originating from Brazil, as established in the International Telecommunications Regulations approved in Melbourne, Australia, on December 9, 1988.

On February 8, 1999, the Company made a formal consultation on the matter to the Brazilian Income Tax authorities. In their response of September 3, 1999, the tax authorities claimed that the exemption from the withholding income tax on remittances abroad is applicable only as from October 19, 1998, based on Decree No. 2,962/99, which approved the Constitution and Convention of the ITU. In their reply, the tax authorities also recognized that the withholding income tax on remittances made by the Company to foreign telecommunication operators should comply with

Article 7 of the OECD Model. These guidelines are followed by Brazil for bilateral treaties on avoidance of double taxation, wherever doing so does not result in breaches of specific treaties or of additional protocol. In October 2000, responding to a request from the Ministry of Communications, the Federal Attorney General's Office issued an expert opinion against the applicability of the Melbourne Treaty. More recently, in August 2002, the Federal Revenue Agency (SRF), responding to a consultation made by another taxpayer, reiterated its opinion on the non remittance of income tax on outbound traffic.

Upon the aforementioned opinion of the SRF, providing that the non incidence of the withholding income tax would be valid only after October, 19, 1998, on December 23, 1999, the Company was assessed by the Federal Revenue Agency (SRF) in the amount of R\$410,697 for not withholding income tax on payments made from December 1994 to October 1998. Such taxation did not take into consideration the analysis of bilateral double taxation treaties, which was specifically mentioned in the income tax authorities' response to the formal consultation made.

Accordingly, the Company challenged this assessment and submitted its administrative defense, due to the errors presented in the assessment (basis for the calculation of the assessment), and also questioned the applicability of the tax assessment, seeking to obtain a favorable decision from the court.

Regarding the administrative defense, on September 10, 2002, the SRF issued a sentence, still to be reviewed at the second administrative level, reducing the assessment to R\$12,975, due to errors in the amounts presented in the assessment, as well as the exclusion of payments made to countries supported by bilateral double taxation treaties, according to the orientation given by the SRF itself in response to the formal consultation made. On September 30, 2002, the Company made the administrative deposit in the amount of R\$35,532.

On January 28, 2003, Embratel was notified by the Federal Revenue Agency (SRF) about the need to complement that deposit, corresponding to the benefit of reduction of 30% of the judicial charge, based on the understanding of the SRF that it would be due only in case of payment of the tax in debt. On February 7, 2003, the Company made a complementary deposit in the amount of R\$3,929.

On February 3, 2003, Embratel, through its attorneys, communicated the SRF branch that since the decision issued on the administrative level was related only to the calculation basis, the Company was not opposed to that decision. However, Embratel retained its right to discuss this matter in the future, should any changes occur in the understanding originating from the decision at the first judicial level. Moreover, the SRF branch was informed of the Company's decision to abstain from transforming the administrative deposit into a judicial deposit, in view of the fiduciary letter which guarantees the entire credit at the judicial level.

Accordingly, the subsidiary Embratel decided to convert the administrative deposit into a payment, notwithstanding the possible restitution of the amount based on an expected favorable decision by the Court. The Company conservatively recognized the amount of R\$39,461 as an expense in the income statement in the first quarter of 2003.

Regarding the court claim filed with the 14th Federal Court of Rio de Janeiro on January 14, 2002, a sentence was issued which revoked the writ of mandamus. However, a fiduciary bank guarantee was presented and the payment of the credit will remain in suspension until the final decision is made. The Company is currently challenging that sentence.

On December 23, 2002, the Company was notified of a decision by SRF which modifies their previous interpretation on this matter, indicating that withholding income tax is applicable to payments to foreign companies for outbound traffic from the date of the payment. In view of legal precedent that contradicts this new interpretation of the SRF, the Company has challenged this decision at the administrative level.

Based on the opinion of the Company's Management and Legal Counsel, which considers that the possibility of loss is minimal, no loss provision has been accrued in the financial statements with respect to this dispute.

c.2 - Income Tax on Inbound International Income

Based on its legal advisors' opinion, the subsidiary Embratel believes that the foreign operating income from telecommunications services (inbound traffic) is not subject to taxation, inasmuch as Law No. 9,249 of December 26, 1995, did not revoke the exemption established by specific legislation.

In connection with this matter, in late March 1999, the SRF assessed the Company in the amount of R\$287,239 for failing to pay the related income tax for the years 1996 and 1997. In late April 1999, the subsidiary Embratel filed an administrative defense against this assessment that is pending judgment at the first level of the judicial system. On October 24, 2002, the first administrative level issued a decision which kept the assessment. The Company appealed to the Taxpayers' Council against this decision.

On June 17, 1999, the subsidiary Embratel was further assessed for nonpayment of income tax on net foreign source income for a part of the year 1998 amounting to R\$64,396. The subsidiary Embratel filed an administrative defense contesting this assessment, but it was maintained at the administrative level. The Company requested a writ of mandamus, which was later revoked on September 25, 2002. The Company filed suit to challenge this decision, and on December 12, 2002, the payment was suspended, pending a final decision by the Court.

The Company has been paying income tax on the net foreign source income since 1998 until the tax dispute is solved.

The Company's management and its legal counsel consider that the probability of loss in this case is only reasonably possible and consequently no loss provision was recorded in the financial statements.

c.3 - ICMS for Services Provided

Until the introduction of Complementary Law No. 87 of September 13, 1996 (Official Gazette of September 16, 1996), the Local Telecommunication Operating Companies invoiced and collected State Value-Added Tax ("ICMS") on Fixed Line Telecommunication Services, on a reduced basis equivalent to an effective rate of 13%, in accordance with ICMS Convention No. 27 of March 29, 1994.

With the above-mentioned Complementary Law entering into effect on September 16, 1996, the telecommunications operating companies of the Telebrás System were instructed by Telebrás to no longer invoice and collect such tax on international outbound telephone traffic.

Currently, certain state tax authorities are fining local telecommunications carriers for non-payment of ICMS related to international traffic.

The subsidiary Embratel received a number of fines for non-payment of ICMS for services provided, including international services and others, also considered by the Company as partially or entirely exempt or non-taxable. Based on the facts currently available, the Company's Management, jointly with its legal counsel, considered the probability of loss on this issue to be remote. The fines concerning facts that may lead to losses, according to the legal counsel, represent a total of approximately R\$460,000 as of March 31, 2003 (R\$351,000 as of December 31, 2002). As a result of this evaluation, no provision was recorded in the financial statements.

In July 2002, the subsidiary Star One was assessed by the ICMS (Value Added Tax) tax authorities, in the state of Rio de Janeiro, in the amount of R\$236,000. These assessments refer to the ICMS tax on the rental of transponders and on broadband internet services. Star One understands that there is no ICMS obligation on the referred services. In addition, the assessments were made considering the total amount of the revenue in the trial balance. The tax authorities did not consider a number of facts that would reduce the tax base, even if the ICMS was indeed levied on such activities. The subsidiary Star One filed an administrative defense against these assessments are still pending. In view of the nature of those services, the Company believes that it can prevail in its arguments. Due to the interpretation of Company's management and legal counsel, which consider that the possibility of loss is possible, no loss provision was recorded in the financial statements with respect to this dispute.

Meanwhile, the Company is participating in efforts to demonstrate the detrimental economic effects of any such tax being charged on the mentioned services, as well as the indispensability of establishing a tax system more appropriate to the sector.

c.4 - PIS/Cofins Taxes

On August 21, 2001, the subsidiary Embratel received two tax claims from the Federal Revenue Service (SRF), totaling R\$501,000, including fines and interest, for prior years' PIS/Cofins taxes.

The first claim, in the amount of R\$159,000, is related to PIS charges prior to 1995, which were offset according to Complementary Law No. 7/70. In similar cases, both the Taxpayers' Council, and more recently the Federal Court of Justice (STJ), in a decision of its First Section, were favorable to the offset made by the Company. The

Company filed an administrative defense against this assessment in the first administrative level, but the decision by the SRF branch in Rio de Janeiro maintained the assessment. Therefore, the Company appealed this decision before the Taxpayers' Council in August 2002.

The second claim, in the amount of R\$342,000, is related to Cofins exemption on the exportation of telecommunication services for revenues through the end of 1999. The subsidiary Embratel believes that these revenues were exempt, based on legal opinions on the legislation in effect at that time. As disclosed in prior periods, there were substantial mistakes in the calculations of the tax auditor. As of July 26, 2002, the decision in the first administrative level, the Company's understanding in relation to those mistakes was confirmed, thus the fine was reduced by R\$220,000. In view of this event, the actual remaining amount is R\$122,000. Such a decision is being challenged to a higher administrative level. Additionally, contradictory arguments were made in support of the claim, which reflect the lack of basis for the assessment, facilitating the Company's legal defense, and making it likely that the entire case will be dismissed.

Based on facts and arguments provided, and also on the opinion of its legal counsel, the Company's management evaluated the probability of loss in these assessments as remote. Accordingly, no provision was recorded in the financial statements for this matter.

d. Other Taxes

The manner in which Federal, State and Municipal taxes apply to the operations of the Company is subject to several interpretations due to the unique nature of such operations. Management believes that its interpretation of the Company's tax obligations is substantially in compliance with the current legislation. Accordingly, any changes in the tax treatment of these operations will result in new legislation or interpretative rulings on the part of the tax authorities.

e. Contingencies Related to Anatel and the State Government of São Paulo

As a result of the inconveniences caused to the telephone system users by the telecommunications carriers, on July 3, 1999, the implementation date for the new domestic dialing system, Embratel was officially notified by Anatel to pay a fine related to the period when the carriers implemented the change in dialing codes.

The Company filed suit contesting the validity of the fine and, on April 24, 2001, despite the favorable opinion from the prosecutor's office, the lower court decision was announced, ordering the Company to pay the fine, but favoring the Company's request for lowering the amount from R\$55,000 to R\$50,000. The Company appealed to the Court against this decision and obtained a preliminary judicial injunction which may guarantee the non-payment of the fine while discussing this matter at the second court level.

Based on the same facts, the State of São Paulo and the Consumer Protection Foundation (Procon) filed a public civil action at the 14th Court of Public Finances of the State of São Paulo. On March 30, 2000, a lower court decision was announced,

ordering the Company and the local carrier to pay a fine of R\$30,000 and to reimburse the users of telephone services in the State of São Paulo for the phone calls made from July 3 to 12, 1999. The Company filed an appeal against this decision and is currently awaiting the outcome.

The Company's management and its legal counsel consider that the probability of loss in these cases is only reasonably possible and consequently no loss provision was recorded in the financial statements.

f. Other judicial claims

The subsidiary Embratel is a defendant in two judicial claims against the Company for payment of indemnities for alleged unsettled contractual charges.

Considering the current status of the lawsuits and the arguments presented by legal counsel, the Company evaluates the probability of loss in such claims as probable and has recorded a loss provision in the amount of R\$6,500 in the financial statements.

The subsidiary Embratel is also a defendant in two judicial claims against the Company for payment of amounts arising from interconnection agreements with two local operators, which totaled, approximately, R\$520,200. This amount relates to disputed amounts from 2000.

Regarding the lawsuit filed in Rio de Janeiro, any current disputed amounts are now being deposited in court. The Company has already deposited the total of R\$83,111 related to the months from August, 2002 to March, 2003. In the judicial claim filed by the other local operator, the Court has still not evaluated the request made to force the Company to pay currently disputed amounts, and the only deposit made was of R\$47,315 concerning the invoices which were due last October.

Considering the terms of the agreements and legal arguments that support the Company's position, as well as the counter-claims that the Company has against these companies, and also considering the initial phase of both claims, the Company and its legal counsel evaluate the probability of loss in these causes as possible, thus no provision was recorded in the financial statements.

22. ACTUARIAL LIABILITIES - TELOS

Telos - Fundação Embratel de Seguridade Social, a closed private pension fund, is a legal entity under private law, with the objective of providing pensions, assistance and non-profit activities, with administrative and financial independence, based in Rio de Janeiro. It was founded by the subsidiary Embratel on August 1, 1975.

Embratel sponsors two benefit plans in the forms of a defined benefits plan and a defined contributions plan, as well as a medical health care plan for retired employees who are participants of the defined benefits plan, all managed by Telos. The rate of contribution to the first plan (the defined benefits plan) for the years of 2003 and 2002, is 19.8% of the participation salary of the active participants in this plan (16 participants on March 31, 2003).

Subsequent to the privatization, the Company created a defined contributions plan, through Telos, which was reviewed and approved by the Brazilian Federal Government on November 19, 1998. Subsidiary Star One also became a sponsor effective November 1, 2000. All newly hired employees automatically adhere to the new plan and no further admittance to the defined benefits plan is allowed. For the defined contributions plan, the sponsor's contribution ranges from 3% to 8% of the participants' applicable salary, in addition to the extraordinary contribution, provided in the plan's by-laws, for financing administrative expenses, and the balance of the account intended to cover cases of disability and death of the participant in activity.

On September 1, 1999, a statement of recognition, acknowledgement of debt, acceptance and amortization of actuarial insufficiency was signed between the subsidiary and Telos, and approved by the Brazilian pensions regulatory authority ("Secretaria de Previdência Complementar"). In accordance with this statement, the actuarial insufficiency recognized in favor of Telos will be paid over the next 20 years, based on the monthly flow of benefits to the employees covered by the defined contributions plan. The unamortized balance of the liability is increased monthly at the rate of remuneration of Telos assets in the month as to which they refer based on the variation of IGP-DI plus 6% p. a., whichever higher. As of March 31, 2003, the outstanding balance payable to Telos amounts to R\$158,691 (R\$189,098 on December 31, 2002).

Upon the issuance of CVM Deliberation No. 371, on December 13, 2000, which approved the IBRACON pronouncement on accounting for employee benefits, new accounting guidelines for recording and disclosure of the effects arising from employee benefit plans were instituted and presented in the sponsors' financial statements..

The above mentioned previdenciary pension plan and medical health care plans sponsored by subsidiaries Embratel and Star One are the only post-employment benefits granted to employees.

Consequently, on December 31, 2001, the subsidiary Embratel recorded an additional liability in the amount of R\$193,424 (effect in Company – R\$191,050) against shareholders' equity in the form of a prior period adjustment. On March 31, 2003, that liability amounted to R\$220,097 (R\$213,857 as of December 31, 2002).

Statement of changes in actuarial liabilities:

Actuarial liabilities as of December 31, 2002	<u>402,955</u>
Charges and interests on actuarial liabilities	21,860
Payments made in the period (defined contribution plan)	<u>(46,027)</u>
Actuarial liabilities as of March 31, 2003	<u>378,788</u>
Current	<u>68,209</u>
Noncurrent	<u>310,579</u>

Main actuarial assumptions used at balance sheet date:

a. Economic assumptions:

(i)	Discount rate for present value of actuarial liabilities	Inflation + 6.0% p.a. = 11.3% p.a.
(ii)	Expected rate of returns for plan assets	Inflation + 6.0% p.a. = 11.3% p.a.
(iii)	Average salary increases, INSS benefit growth and plan benefit	Inflation + 0.0% p.a. = 5.0% p.a.
(iv)	Long term annual inflation rate	5.0% p.a.
(v)	Wage and benefits capacity	0.98 ⁽¹⁾
(vi)	Health care cost trend rate	Inflation + 5.35% p.a. ⁽²⁾ = 10.6% p.a.

(1) The wage and benefits capacity factor aims to reflect the monetary loss of the amounts verified on the date of evaluation, considering the periodicity and indexes used to recover losses due to inflation.

(2) Decreasing to Inflation + 2.70% p.a. after 44 years.

b. Other assumptions:

(i)	Table of general mortality rate	UP-94 rated up to 4 for males and females
(ii)	Table of mortality rate of disability	IAPB-57
(iii)	Table of entry into disability	Mercer table of entry into disability
(iv)	Turnover	Not used

23. SHAREHOLDERS' EQUITY

a. Capital Stock

The authorized capital on March 31, 2003 and December 31, 2002 is comprised of 700 billion common or preferred shares. The subscribed and fully paid-in capital stock amounts to R\$2,273,913 at the end of the first quarter of 2003. It is comprised of 334,399,028 thousand shares without par value, held (in-batches of one thousand shares) as follows: 124,369,031 common shares and 210,029,997 preferred shares. The book value per share (batches of one thousand shares, expressed in reais) as of March 31, 2003 and December 31, 2002, amounts to R\$14.15 and R\$14.11, respectively.

As of June 29, 2001, Startel Participações Ltda., which held 19.3% of the Company's capital stock, transferred 2,350,575 common shares (in thousands of shares) to a new shareholder, New Startel Participações Ltda., which now holds 0.7% of the Company's capital stock.

b. Income Reserves

Legal Reserve

The constitution of this reserve is mandatory based on 5% of net annual income up to the limit of 20% of the paid-up capital, or 30% of the capital stock taken together with capital reserves. After this limit, no further appropriation of this reserve is mandatory. The legal reserve may only be used for future capital increase or to offset accumulated deficits.

Unrealized Earnings Reserve

This reserve apparently originated from the Telebrás spin-off (Note 1), and results from net gains on the monetary restatement of the balance sheet and from the equity pick up of investments. The reserve is realized when dividends are received from the subsidiaries, or to complement minimum dividends due to preferred shareholders.

Since Law No. 10,303/01 became effective, the Unrealized Earnings Reserve has been constituted by the amount of the statutory dividend, calculated according to the terms foreseen in article 202 of the referred Law and the Company's by-laws, which exceeds the net earnings for the period. Therefore, the amounts constituted from the issuance of Law No. 10,303/01 now represent the postponed dividend itself, instead of its base for realization.

In connection with Circular Letter CVM/SEP/SNC No. 01/2003, of January 16, 2003, the Unrealized Earnings Reserve balance which originated under the old criteria will keep its original characteristics, i.e., the realized amount will compose the base for calculation of dividends.

c. Treasury Shares

As of March 31, 2003, the Holding Company held 1,769,667 thousand of its own preferred shares in, at a weighted average cost of R\$23.53 per thousand shares. During the first quarter of 2003, there were no sales of treasury shares.

The market value per lot of 1,000 preferred shares at the end of the first quarter of 2003, expressed in reais, was R\$3.37.

d. Dividends and Interest on Capital

The preferred shares are non-voting, except under certain limited circumstances. They are entitled to (i) a minimum non-cumulative dividend of 6% per annum on the amount resulting from the division of the subscribed capital by the number of shares, or (ii) a dividend 10% higher than that paid to each ordinary share, whichever is the higher (Company's by-law alteration on December 30, 2002), and have priority in relation to the common shares in the event of liquidation of the Company.

According to the Company's by-laws, dividends must be distributed for each fiscal year ended December 31. These dividends must be at least 25% of the adjusted net income. Dividends are calculated according to the Company's by-laws and in accordance with the corporate law. The proposed dividends are appropriated at year-end.

The subsidiary Embratel recorded, as of December 31, 2002, R\$29,982 of interest on capital (receivable) and R\$27,070 of dividends (receivable), credited by subsidiary Star One. Because of that, the retained earnings of subsidiary Star One were fully allocated to its shareholders.

e. Retained Earnings

Retained earnings were destined to permanent investments of the Company, duly documented in a budgetary appraisal approved by Management, as foreseen in Article 196 of the Corporate Law and in Article 8 of CVM Instruction No. 59, of December 22, 1986.

f. Stock Option Plan

The stock option plan was approved at the General Meeting of Shareholders held on December 17, 1998 and is regulated by the Management Commission on stock option plan, within the limits of its authority.

The contracts issued in 2001 grant directors and employees the option of acquiring preferred shares at market value on the grant date at the rate of 25% in each period, the first being after an eight-month period from the date the option was granted, and the other every January after 2003. The options must be exercised within 10 years of the grant date. Until the third quarter of 2001, the market value at grant date was restated by the General Market Price Index (IGP-M) until the exercise date, with exercise proportional to 33.33% in each base-period, after one year as from the grant date, also within the limit of 10 years.

The contracts issued in 2002 and 2003 grant directors and employees the option of acquiring preferred shares at a pre-defined price on the grant date, at the rate of 1/3 (one third) in each period, after one year as from the grant date, and within the maximum limit of 10 years.

The acquired shares will maintain all of the rights pertaining to the shares of equal class and type, including dividends. The summarized information on the plan is as follows:

Number of preferred share purchase options (thousands of shares)-

Open options as of December 31, 1999	1,762,667
Options offered in 2000	2,048,265
Options exercised in 2000	(122,700)
Options sold in 2000	(4,800)
Options cancelled in 2000	<u>(130,000)</u>
Open options as of December 31, 2000	3,553,432
Options offered in 2001	3,106,904
Options sold in 2001	(13,333)
Options cancelled in 2001	<u>(382,292)</u>
Open options as of December 31, 2001	6,264,711
Options offered in 2002	2,097,333
Options cancelled in 2002	<u>(477,615)</u>
Open options as of December 31, 2002	7,884,429
Options offered in 2003	13,000
Options cancelled in 2003	<u>(317,625)</u>
Open options as of March 31, 2003	7,579,804
	=====
Weighted average exercise price of the purchase options on March 31, 2003 (per thousand shares, expressed in reais)	5.33
	=====

g. Reconciliation of Loss of the Company to those of the Consolidated Financial Statements

As of March 31, 2003 and 2002, the reconciliation between the Company's net loss for the period and the Consolidated net loss is as follows:

	<u>March 31,</u>	
	<u>2003</u>	<u>2002</u>
Company	10.695	(36.615)
Recognition of the effects of other subsidiaries in the subsidiary Embratel	<u>(27)</u>	<u>175</u>
Consolidated	<u><u>10.668</u></u>	<u><u>(36.440)</u></u>

24. TRANSACTIONS WITH RELATED PARTIES

After the privatization, the major transactions with related parties started being carried out with WorldCom, under normal market conditions for these types of operations. Balances receivable and payable as of March 31, 2003 and December 31, 2002, resulting from such transactions, are as follows:

	Company		Consolidated	
	March 31, 2003	December 31, 2002	March 31, 2003	December 31, 2002

Under the terms of the concession contract with Anatel and as approved by the shareholders on November 18, 1998, in the three-month periods ended March 31, 2003 and 2002, the amounts of R\$3,417 and R\$9,003, respectively, were charged to General and Administrative Expenses for consulting services rendered by WorldCom International, Inc., a subsidiary of WorldCom.

25. INSURANCE

The Company's Management considers that all assets and responsibilities of significant values and risks are covered by insurance policies.

26. FINANCIAL INSTRUMENTS

a. Miscellaneous

The subsidiary Embratel carries out transactions with financial instruments designed to reduce the exposure to risks of fluctuation in currency and interest rates, which usually involve swap of indices and/or earnings/interest rates of cash equivalents and marketable securities and loans. The management of such risks is conducted by means of a hedge policy, based on measuring the Company's financial risk using the VaR (Value at Risk) factor.

b. Swap - Interest and Currency

The subsidiary Embratel used derivative operations to protect against the variation of foreign currency loan principal and interest against the Real. The par values of such operations, at the end of the first quarter of 2003 and at the end of 2002, totaled R\$760,604 and R\$1,492,801, respectively, and were not recorded in the balance sheet.

The gains and losses on such operations result from differences of variations in contracted indices, and are recorded on an accrual basis under Interest Income (Expense).

c. Criteria, Assumptions and Limitations in Market Value Calculations

- Cash and Cash Equivalents, Trade Accounts
Receivable and Accounts Payable - Current

The balances per books approximate market value because of the high turnover of these instruments.

- Deferred Taxes - Assets and Liabilities

The market value was calculated through the discount of projected cash flows, indexed by the TJLP (a Brazilian benchmark long-term interest rate).

- Loans and Financing and Swap (Hedge)

The market value is calculated through the present value of the projected cash flows related to each instrument and maturity dates, using current interest and exchange rates for similar instruments in financial markets.

- Limitations

The market values are calculated on a specific date, based on relevant market and financial instrument information. The changes in assumptions may significantly impact such estimates.

The financial instruments, including short-term amounts, which are recorded at amounts different from market values, are summarized below:

	Consolidated			
	March 31, 2003		December 31, 2002	
	Book value	Market value	Book value	Market value
Deferred and recoverable taxes	<u>1,698,722</u>	<u>1,119,449</u>	<u>1,623,474</u>	<u>1,083,249</u>
Assets	<u>1,698,722</u>	<u>1,119,449</u>	<u>1,623,474</u>	<u>1,083,249</u>
Taxes and contributions	326,516	305,392	307,841	282,868
Loans and financing	4,711,813	4,434,132	5,391,294	4,547,315
Swap/Hedge	<u>(141,605)</u>	<u>(116,079)</u>	<u>(499,359)</u>	<u>(323,535)</u>
Liabilities	<u>4,896,724</u>	<u>4,623,445</u>	<u>5,199,776</u>	<u>4,506,648</u>

27. VOLUNTARY DISMISSAL PROGRAM

The subsidiary Embratel completed, in the first half of January 2003, a Temporary Dismissal Program, with granted financial, assistance and social incentives.

The Program, initiated in December 2002, was destined to employees who were already retired through INSS and those who were entitled to retire, proportional or integrally, through INSS or Telos.

In order to implement this Program, the subsidiary Embratel set up a provision, in December 2002, in the approximate amount of R\$20,000.

28. TRANSLATION OF THE REPORT ORIGINALLY ISSUED IN PORTUGUESE

The accompanying financial statements are presented on the basis of accounting practices established by the corporate law in Brazil. Certain accounting practices applied by the Company and its subsidiaries that conform to those accounting practices in Brazil may not conform to accounting principles generally accepted in other countries.

EMBRATEL PARTICIPAÇÕES S.A.

COMMENTS ON THE CONSOLIDATED PERFORMANCE AS OF AND FOR THE FIRST QUARTER OF 2003 COMPARED TO THE MAIN VARIATIONS OCCURRED IN THE SAME PERIOD LAST YEAR

Net Revenues

R\$ thousands	1Q02	4Q02	1Q03	% Var YoY	% Var QoQ
Net Revenues	1,852,130	1,786,115	1,708,742	-7.7%	-4.3%
Voice Services	1,347,191	1,244,079	1,180,942	-12.3%	-5.1%
Data Services	450,133	470,624	455,206	1.1%	-3.3%
Other Services	54,806	71,412	72,594	32.5%	1.7%

Voice Services

R\$ thousands	1Q02	4Q02	1Q03	% Var YoY	% Var QoQ
Total Voice	1,347,191	1,244,079	1,180,942	-12.3%	-5.1%
Domestic Long Distance	1,119,337	1,010,842	954,684	-14.7%	-5.6%
International Long Distance	227,854	233,237	226,258	-0.7%	-3.0%

Embratel is focused on enhancing the growth of profitable revenues. Coordinated actions involving collection strategies (including blocking lines, co-billing, internet and automatic bill payment) and targeting clients with appropriate services and calling plans are being refined to optimize returns. Certain activities, such as blocking lines due to fraud or delinquency, induce reductions in revenues while increasing the profitability of Embratel's revenues.

Domestic Long Distance

Profitable revenues trend continues

Net domestic long distance revenues in the first quarter of 2003 were R\$955 million representing a decline of 5.6 percent from the previous 2002 quarter and 14.7 percent year-over-year. On a quarter over-quarter basis the decline is explained largely by seasonal factors (fewer business days and holidays) as well as by the effect of blocking of delinquent and fraudulent lines.

Average domestic long distance revenue per minute in the first quarter of 2003 rose 6.2 percent year-over-year and 8.5 percent compared to the prior quarter, reinforcing our focus on profitable revenues.

International Long Distance

Continued stability

International long distance revenues were R\$226 million in the first quarter of 2003 representing a 3.0 percent decline from the previous quarter. Seasonal factors as well as competition contributed to this outcome. Compared to the first quarter of 2002, international revenues were stable, mostly due to the positive impact of stronger inbound revenues.

Data Communication Services

Circuit growth continues to be strong

R\$ thousands	1Q02	4Q02	1Q03	% Var YoY	% Var QoQ
Total Data	450,133	470,624	455,206	1.1%	-3.3%
Data & Internet	429,988	451,321	434,743	1.1%	-3.7%
Wholesale	20,145	19,303	20,463	1.6%	6.0%

Embratel data communications revenues (data & Internet and wholesale) were R\$455 million in first quarter of 2003, representing a 1.1 percent increase relative to the first quarter 2002. Compared to the previous 2002 quarter when data revenues benefited from services provided in the presidential elections, data revenues declined 3.3 percent.

Data market trends in the first quarter of 2003 did not vary substantially from the previous quarter. Price reductions for Internet services continues. Contract renewals during the quarter started to incorporate price inflation adjustments. Circuit growth expressed in 2Mbit equivalent units grew 47.9 percent year-over-year and 10.3 percent when compared to the fourth quarter of 2002.

Embratel continues to invest in access for data services. Digital copper wire networks, Acesso Digital Embratel (ADE), are being extended replacing expensive third party leased lines with our own networks. Over 40 digital metallic networks have been built, of which 13 were finished in the first quarter of 2003. Clients are being migrated from third party to our own access networks, thereby reducing our cost of services.

Local Services

Embratel's local services continue to expand. In total, 70 cities, including all state capitals, are covered by Embratel's local services. By the end of first quarter 2003, more than 800 contracts had been signed as medium, large and government clients are attracted by finally having a choice for local services.

As Brazil's premium telecommunications provider, Embratel has been able to attract new local service customers by extending its superior quality and reliability into the local market, attracting both traditional data and long distance customers as well as new. Attributes of its local services include competitive pricing, detailed local call billing and specialized customer support.

Embratel is currently the only telecommunications company providing corporate local services in all regions of Brazil.

EBITDA

R\$ thousands	1Q02	4Q02	1Q03	% Var YoY	% Var QoQ
Net Revenues	1,852,130	1,786,115	1,708,742	-7.7%	-4.3%
Cost of Services	(1,251,548)	(1,240,483)	(1,156,074)	-7.6%	-6.8%
Operational Income (Expenses)	(548,324)	(530,266)	(475,415)	-13.3%	-10.3%
Operating Income before interest	52,258	15,366	77,253	47.8%	402.8%
Depreciation/Amortization	272,453	300,567	291,590	7.0%	-3.0%
Income before interest, depreciation and amortization (Ebitda)	324,711	315,933	368,843	13.6%	16.7%
<i>Margin Ebitda</i>	<i>17.5%</i>	<i>17.7%</i>	<i>21.6%</i>	<i>4.1 p.p</i>	<i>3.9 p.p</i>

EBITDA was R\$369 million in the first quarter 2003 representing a 16.7 percent increase relative to an EBITDA of R\$316 million in fourth quarter of 2002 and a 13.6 increase over the same period of the previous year. EBITDA margin rose by 3.9 percentage points reaching 21.6 percent in the first quarter 2003. The primary reasons for this growth were improved collections, lower interconnection costs and reduced billing expenses (third party services).

Allowance for doubtful accounts dropped for the fifth consecutive quarter to R\$106 million, or 4.9 percent of gross revenues (6.2 percent of net revenues). This is a significant reduction when compared to the fourth quarter of 2002 when provision for doubtful accounts represented 6.1 percent of gross revenues (7.7 of net revenues). It shows that Embratel's actions to improve collections, focus on profitable revenues and target clients with specific calling plans are producing returns. In absolute terms, provision for doubtful accounts dropped 22.8 and 38.9 percent quarter-over-quarter and year-over-year, respectively.

Also continuing to contribute to the improvement in EBITDA is the relative reduction in interconnection costs. Directing more and more traffic to Embratel's own network which include PPI construction and also other telco management efficiencies, have helped to keep this major cost item down. In the quarter, we added 24 PPIs.

Overall third party services dropped from 15.5 to 13.6 percent of net revenues. Continued proactive actions, such as self-enveloping bills, combined with increased usage of co-billing (lower printing and banking fees and postage expenses) have helped to reduce overall billing costs. In addition, Anatel has mandated reductions in co-billing rates, further reducing overall billing costs.

EBIT

In the first quarter 2003, EBIT was R\$77 million increasing from R\$15 million in the previous quarter, evidencing the improvement in the company's operating performance. Compared to the first quarter of 2002, EBIT rose 47.8 percent.

Net Income

First quarter net income was R\$11 million

	1Q02	4Q02	1Q03	% Var YoY	% Var QoQ
Net Income/(Loss) (R\$ thousands)	(36,440)	111,942	10,668	129.3%	-90.5%
Shares Outstanding (million shares)	332,932	332,629	332,629		
Earnings per 1000 shares (R\$)	(0.11)	0.34	0.03		

In the first quarter of 2003, net income was R\$11 million compared to a net income of R\$112 million in the fourth quarter of 2002 and a loss of R\$36 million in the same period of 2002. In addition to the improvement in EBIT, bottom line was positively impacted by the currency parity on the company's foreign currency non-hedged debt. In the quarter, we made a one-time payment of R\$39 million relative to the settlement of a tax contingency due to income tax on remittances to foreign telecommunications companies, as described in Note 21 of the financial statements if the referred quarter. Without this one-time charge, net income in the first quarter 2003 would have been R\$37 million.

Financial Position

2003 and first half of 2004 financing is concluded. R\$314 million of debt repaid during the quarter

On March 17, 2003, the Company closed its financing program, rolling over debt maturing in 2003 and the first half of 2004. The purpose of this financing program was to: (1) reduce the Company overall debt; (2) eliminate refinancing risk in 2003; and (3) reduce financing requirements in 2004. The Company has achieved these three objectives.

The extended maturities will ensure that the Company continues to invest in quality services and networks to serve corporate, government and residential customers. The financing program essentially eliminates the Company's refinancing risk in 2003 and reduces its financing requirements in 2004. The Company has retained the ability to prepay debt from excess cash flow or new debt as market conditions improve. The conclusion of this financing program improves the Company's overall credit standing and puts it in a stronger financial position. Embratel has also maintained the operational flexibility it needs to implement its business plan.

Following the closing, a few other financial institutions joined the program under the same conditions and as a result the total amount of the financing rose from US\$861 million (R\$2,889 million) to US\$882 million (R\$2,957 million). Approximately US\$306 million (R\$1,057

million) of debt matured in the first quarter of 2003. Net debt amortized during the quarter was US\$93 million (R\$314 million).

The Company's hedged debt/currency profile is presented in Exhibit 11 below.

Embratel Participações S.A.	Dec 31, 2002		Mar 31, 2003			
	Amounts in R\$ thousands	%	Amounts in R\$ thousands	%	Average Cost of Debt	Maturity
Hedged (notional amount) and reais short term debt	1,599,623	62.3%	988,944	51.3%	84.67% CDI	up to 1.0 year
Unhedged short term debt	966,859	37.7%	937,685	48.7%	US+6.99% pa	up to 1.0 year
Total short term debt	2,566,482	100%	1,926,630	100%		
Hedged (notional amount) and reais long term debt	246,894	10.6%	720,024	27.2%	93.86% CDI	up to 4.2 years
Unhedged long term debt	2,078,559	89.4%	1,923,554	72.8%	US+8.22% pa	up to 7.4 years
Total long term debt	2,325,453	100%	2,643,578	100%		
Total hedged and reais debt	1,846,517	37.7%	1,708,968	37.4%		
Total unhedged debt	3,045,418	62.3%	2,861,239	62.6%		
Total debt (net of hedge gains)	4,891,935	100%	4,570,208	100%		

The short-term debt reflected above does not include the full benefit of the financing program. Even though contracts have been entered into that require extension of maturities on the debt, the reclassification from short-term to long-term debt only occurs at the time of the original loan maturity.

The Company ended the first quarter of 2003 with a cash position of R\$526 million. In addition, at the end of the quarter, R\$75.8 million of cash was reflected in Other Current Assets as this amount was applied as a temporary guarantee which was subsequently liquidated in early April. The decline in cash is associated with debt repayment and other settlements. Total outstanding debt is R\$4.6 billion, of which R\$1.9 billion is short term debt.

Accounts Receivables

The Company's net receivable position on March 31, 2003 was R\$1.5 billion an improvement of more than R\$90 million relative to the previous 2002 quarter. The voice aging profile has continued to improve: approximately 72.4 percent of net voice receivables were current at the end of the first quarter of 2003 compared to 67.9 percent at the end of December 2002. Days sales outstanding, based on net receivables, was 62 in first quarter 2003, down from 67 and 73 in fourth quarter 2002 and first quarter 2002, respectively.

Embratel Participações SA R\$ thousands	Gross Receivables		Embratel Participações SA R\$ thousands	Net Account Receivables

Data, Telco and Other Services	588.316	585.377	1-60 days	20,3%	23,1%
Foreign Administrations	279.183	319.126	61-120 days	7,3%	9,0%
Gross Receivables	3.596.715	3.581.480	> 120 days	0	0
Allowance for Doubtful Accounts	(2.095.854)	(1.990.484)			
Net Receivables	1.500.861	1.590.996			

CAPEX

Total capital expenditures in the quarter were R\$86 million. The breakout of this expenditure is the following: local infrastructure and access – 10.7 percent (including PPIs); data and Internet services – 46.8 percent; network infrastructure – 7.4 percent, others - 18.8 percent and Star One - 16.3 percent. The bulk of the investments included in "others" are investments in IT and in switches.

Regulatory

February 27, as part of an administrative process submitted by Embratel, the Antitrust Agency (CADE) adopted a landmark preventive decision against Telefonica on the grounds that the possibility of price discrimination of leased lines for local access would constitute an anti-competitive practice prohibited by law. CADE concluded that irreparable damage to market competition could occur and among a variety of measures it required Telefonica to immediately stop such practice, as well as to provide ample disclosure of prices and discounts practiced for such services. Telefonica has appealed before CADE, the decision continues to be in effect.

A month later, and based on a different process also submitted by the Company, Anatel adopted a similar preventive action against Brasil Telecom on the same grounds, that is, the possibility of price discrimination of leased lines for local access would constitute an anti-competitive practice prohibited by law. In addition to the preventive measures imposed by CADE on Telefonica, Anatel required Brasil Telecom to charge the Company the same price for leased lines than the best price offered to any of its customers. Brasil Telecom has appealed before CADE and requested and obtained an injunction from a Court of Law. We expect the injunction to be lifted soon after Anatel submission of additional information required by the Judge or after CADE's final decision.

These actions mark the first time the Brazilian regulators have explicitly acted on behalf of competition in telecommunications.

- - X - -

Embratel is the premier communications provider in Brazil offering a wide array of advanced communications services over its own state of the art network. It is the leading provider of data and Internet services in the country and is uniquely positioned to be the country's only true

national local service provider for corporates. Service offerings: include telephony, advanced voice, high-speed data communication services, Internet, satellite data communications, corporate networks and local voice services for corporate clients. Embratel is uniquely positioned to be the all-distance telecommunications network of South America. The Company's network is has countrywide coverage with 28,868 km of fiber cables comprising 1,068,657 km of optic fibers.
