Reported EPS:				
Q2	0.88	0.78**	22%	13%
6 Months	1.60*	1.24**	33%	29%

* Includes a \$0.07 per share deferred income tax benefit in the first quarter of FY11 due to a 1% reduction in the UK statutory corporate income tax rate.

** Includes a \$0.14 per share impairment charge related to GIT Verlag.

Note: For comparability to our full year guidance, six month EPS excluding the negative effect of FX, the \$0.07 per share first quarter UK statutory tax benefit and the prior year \$0.14 per share impairment charge related to GIT Verlag grew 15%.

Hoboken, NJ, December 9, 2010- For the second quarter, revenue declined 1% from prior year to \$442 million, but grew 1% excluding foreign exchange. Growth in Higher Education (HE) and Scientific, Technical, Medical and Scholarly (STMS) offset a soft second quarter in Professional/Trade (P/T). Revenue for the six months increased 2% to \$850 million, or 5% excluding foreign exchange.

Operating income in the quarter rose 3% over prior year to \$78 million, or 12% excluding foreign exchange. Prior year operating income included an asset impairment charge of approximately \$11 million, \$0.14 per share, related to GIT Verlag. Excluding the prior year charge, operating income declined 10% or 3% excluding foreign exchange due to top-line results and increased investment in digital products and support systems to support future business growth. On the same basis, operating income for the six months slipped 1%, but rose 9% excluding foreign exchange.

Adjusted to exclude last year's impairment charge and foreign exchange, earnings per share (EPS) rose 3% in the quarter to \$0.88, but declined 4% including foreign exchange. On a year-to-date basis, adjusted to exclude the impairment charge, EPS increased 17%, or 20% excluding foreign exchange. Top-line results, lower interest expense and a lower effective tax rate were partially offset by higher technology investments. These results are consistent with our expectations.

Management Commentary

"Despite continued softness in some of our markets, Wiley continues to drive growth in revenue and earnings on a performance basis," said William J. Pesce, President and CEO. "STMS exhibited modest top-line growth, excluding the unfavorable effect of currency. We continue to build successful relationships with current society partners, while adding new ones. Wiley Online Library has already become one of the most visited academic websites in the world. While it is still early in the calendar year 2011 journal subscription renewal process, we are pleased to be ahead of where we were at the same time last year."

Mr. Pesce continued: "After a strong first quarter, Professional/Trade, particularly in the consumer product line, had a soft quarter compared with a strong second quarter last year. Low traffic and sell-through at some retail accounts contributed to these results. eBook sales continue to grow, more than doubling over prior year in the quarter and for the six-months."

"Higher Education maintained its momentum with solid growth in high margin products, including WileyPLUS, eBooks and digital sales to institutions," said Mr. Pesce. "Higher Education's gross margin continued its upward trend, increasing to 68.3% in the first half of the year, up from 66.9% a year ago."

Outlook

Mr. Pesce concluded: "Based on year-to-date results, market conditions and leading indicators, we reiterate our fiscal year 2011 guidance of mid-single-digit revenue growth on a currency neutral basis. Excluding the effect of foreign exchange and the first quarter deferred tax benefit, we continue to project EPS growth of approximately 10% from fiscal year 2010 adjusted EPS of \$2.58. For comparative purposes, the full year weighted average foreign exchange rates reflected in Wiley's income statement for fiscal year 2010 were approximately 1.60 Sterling and 1.40 Euro."

Foreign Exchange

The foregoing and following references to “currency neutral basis”, “excluding foreign exchange” and “performance basis” exclude the effect of foreign exchange transactions and translations.

SCIENTIFIC, TECHNICAL, MEDICAL AND SCHOLARLY (STMS)

- *Second quarter revenue +3% excluding FX, +5% YTD*
- *Second quarter contribution to profit +3% excluding FX and a prior year impairment charge, +6% YTD*
- *Journal license subscription renewals proceeding as expected; total billings for calendar year 2011 moderately ahead of prior year*
- *Signed publishing contracts in the quarter for 10 new society journals; renewed or extended 10 existing journal publishing contracts*
- *Wiley Online Library now the second most-visited academic website in the world*

STMS revenue for the quarter was down 2% to \$245 million, but rose 3% excluding foreign exchange. Higher journal revenue from production scheduling, moderate price increases, new business and increased advertising was partially offset by lower journal reprint sales. Book revenue excluding foreign exchange showed moderate growth in the quarter, reflecting higher online book sales and lower sales returns.

Direct contribution to profit declined 4% to \$103 million, but increased 3% excluding foreign exchange and an \$11 million impairment charge in the prior year related to GIT Verlag. Top-line growth drove the results. Including the impairment charge, direct contribution to profit for the quarter grew 16% excluding foreign exchange.

For the six months, STMS revenue was down 1% to \$474 million, but increased 5% excluding foreign exchange. Excluding the prior year impairment charge, direct contribution to profit decreased 2% to \$197 million, but increased 6% excluding foreign exchange. Top-line performance by journals and books drove the results.

- Access to full text HTML in September 2010 increased by 56% over prior year

PROFESSIONAL/TRADE (P/T)

- *Second quarter revenue down 6% excluding FX, +2% YTD*
- *Second quarter contribution to profit down 16% excluding FX, flat YTD*

- *Six-month eBook revenue more than doubled over prior year to \$10 million*

Second quarter P/T revenue fell 6% to \$113 million, both on a reported and currency neutral basis. Growth was strong in EMEA, while Asia-Pacific was flat with prior year.

Direct contribution to profit fell 16% to \$29 million for the quarter, reflecting top-line performance and lower margins due to sales mix.

For the six months, P/T revenue was up 1% over the prior year period, or 2% excluding foreign exchange. Direct contribution to profit declined 1%, but was flat excluding foreign exchange. Higher revenue was offset by increased employment costs.
