-

Item 7.01 Regulation FD Disclosure.

On June 21, 2005 Hank Carabelli, President and CEO of Pac-West Telecomm, Inc. made the following comments in response to questions from the audience during the Company's Annual Shareholder Meeting.

In response to a question regarding future expansion, Mr. Carabelli stated: "In the coming months [Pac-West] will be considering options on how to address the desires of certain of our current customer base to see us expand beyond our current footprint."

In response to questions regarding the state of competition in the industry, Mr. Carabelli stated: "Qwest [Communications Corporation], an ILEC, is the largest customer of [our] managed modem services. As the telecomm industry changes in response to new technologies, our main competition may no longer be the ILECs, but rather companies such as Level 3 [Communications], which is also a customer of Pac-West."

In response to a question regarding stock price, Mr. Carabelli stated: "Although I don't know for sure, I believe that the 350,000 vested options that pertained to employees who were terminated as a result of the sale of our SME customers to [US] TelePacific [Corporation] have been recently exercised. They had a window of time [in which] to exercise their options or [the options] have no value."

The information in this Current Report shall not be deemed "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subjected to the liabilities of that Section. The information in this Current Report shall not be incorporated by reference into any registration statement or other document pursuant to the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference in such a filing.
