In this press release, our use of the words "outlook," "expect," "anticipate," "estimate," "forecast," "project," "likely," "objective," "plan," "designed," "goal," "target," and similar expressions is intended to identify forward-looking statements. While these statements represent our current judgment on what the future may hold, and we believe these judgments are reasonable, actual results may differ materially due to numerous important risk factors, including risk factors described in our Annual Report on Form 10-K for the period ended December 31, 2005, as filed with the SEC on March 29, 2006, which may be revised or supplemented in subsequent reports filed by us with the SEC. Such risk factors include, but are not limited to risks associated with: our level of indebtedness; our inability to comply with the covenants contained in, or the possibility of triggering a default under, our borrowing arrangements, our inability to execute our business plans and objectives, regulatory and legal uncertainty with respect to intercarrier compensation payments received by us; the migration to broadband Internet access affecting dial-up Internet access; the loss of key executive officers that could negatively impact our business prospects; an increase in our network expenses; our principal competitors for local services and potential additional competitors, which may have advantages that may adversely affect our ability to compete with them.
