INCORPORATION BY REFERENCE

Sappi Limited's report for the conformed third quarter results ended June 2007, furnished by the Registrant under this Form 6-K, is incorporated by reference into (i) the Registration Statements on Form S-8 of the Registrant filed December 23, 1999 and December 15, 2004 in connection with The Sappi Limited Share Incentive Scheme, (ii) the Section 10(a) Prospectus relating to the offer and sale of the Registrant's shares to Participants under The Sappi Limited Share Incentive Scheme, (iii) the Registration Statements on Form S-8 of the Registrant filed December 15, 2004 and December 21, 2005 in connection with The Sappi Limited 2004 Performance Share Incentive Plan and (iv) the Section 10(a) Prospectus relating to the offer and sale of the Registrant's shares to Participants under The Sappi Limited 2004 Performance Share Incentive Plan. This Form 6-K includes a conformed version of the earnings announcement sent by the Registrant to its shareholders. This conformed version was prepared solely for purposes of supplementing the documents referred to in clauses (i) - (iv) above.

FORWARD-LOOKING STATEMENTS

In order to utilize the "Safe Harbor" provisions of the United States Private Securities Litigation Reform Act of 1995 (the "Reform Act"), Sappi Limited (the "Company") is providing the following cautionary statement. Except for historical information contained herein, statements contained in this Report on Form 6-K may constitute "forward-looking statements" within the meaning of the Reform Act. The words "believe", "anticipate", "expect", "intend", "estimate", "plan", "assume", "positioned", "will", "may", "should", "risk" and other similar expressions which are predictions of or indicate future events and future trends which do not relate to historical matters identify forward-looking statements. In addition, this Report on Form 6-K may include forward-looking statements relating to the Company's potential exposure to various types of market risks, such as interest rate risk, foreign exchange rate risk and commodity price risk. Reliance should not be placed on forward-looking statements because they involve known and unknown risks, uncertainties and other factors which are in some cases beyond the control of the Company, together with its subsidiaries (the "Group"), and may cause the actual results, performance or achievements of the Group to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements (and from past results, performance or achievements). Certain factors that may cause such differences include but are not limited to: the highly cyclical nature of the pulp and paper industry; pulp and paper production, production capacity, input costs including raw material, energy and employee costs, and pricing levels in North America, Europe, Asia and southern Africa; any major disruption in production at the Group's key facilities; changes in environmental, tax and other laws and regulations; adverse changes in the markets for the Group's products; any delays, unexpected costs or other problems experienced with any business acquired or to be acquired; consequences of the Group's leverage; adverse changes in the South African political situation and economy or the effect of governmental efforts to address present or future economic or social problems; and the impact of future investments, acquisitions and dispositions (including the financing of investments and acquisitions) and any delays, unexpected costs or other problems experienced in connection with dispositions. These and other risks, uncertainties and factors are discussed in the Company's Annual Report on Form 20-F and other filings with and submissions to the Securities and Exchange Commission, including this Report on Form 6-K. Shareholders and prospective investors are cautioned not to place undue reliance on these forward-looking statements. These forward-looking statements are made as of the date of the submission of this Report on Form 6-K and are not intended to give any assurance as to future results. The Company undertakes no obligation to publicly update or revise any of these forward-looking statements, whether to reflect new information or future events or circumstances or otherwise.

financial highlights

- EPS 23 US cents
- Strong Forest Products performance
- European price realisation disappointing
- Input cost pressure
- Underlying operating profit improvement continues

summary

	June 2007	Quarter ended March 2007	June 2006	Nine months ended June 2007	June 2006
Sales (US\$ million)	1,297	1,318	1,214	3,882	3,645
Operating profit (US\$ million)	87	117	(34)	296	74
Operating profit to sales (%)	6.7	8.9	(2.8)	7.6	2.0
EBITDA (US\$ million) *	182	211	62	580	366
EPS (US cents)	23	25	(23)	62	(19)

* Refer to note 1, additional information in Supplemental Information for the reconciliation of EBITDA to profit.

comment

The performance of the business improved significantly in the quarter compared to a year earlier in a quarter which is usually slower than our second and fourth fiscal quarters. Pulp prices strengthened further, supporting the strong performance of our Forest Products business. We did not realise the full benefit of the higher coated fine paper prices in Europe partly as a result of an increase in the volume we exported from Europe. The North American business had a further recovery in margin for the quarter.

Group sales for the quarter were US\$1.3 billion, a 7% increase compared to a year earlier with improvements from each of the regions.

As a result of storm damage, wood prices in Europe were lower than the previous quarter. Other raw material input costs and energy costs remained high during the quarter. Our efforts to offset these high input costs through process and product innovation has helped reduce the impact on our unit costs.

Operating profit for the quarter was US\$87 million, compared to a loss of US\$34 million a year ago. Our operating profit margin was 6.7% in the quarter compared to a loss last year and improved on the previous quarter (excluding the Nash sale in the previous quarter). Tight control of fixed manufacturing costs and Selling, General and Administration costs and better pricing contributed to this improvement.

We reported a plantation fair value gain of US\$15 million before tax in the quarter (last year a loss of US\$23 million) as a result of an increase in wood prices, which was partly offset by increased costs to delivery of the wood to market following fuel price increases.

During the quarter plantation fires exacerbated by severe weather conditions destroyed large tracts of timber land in South Africa and approximately 5,000 hectares of timber in our Southern African plantations. We recorded an after insurance charge of US\$7 million before tax for this damage during the quarter. A charge of US\$2 million before tax was taken for damage caused by flooding at Westbrook Mill, USA.

Net finance costs were US\$37 million, up US\$2 million from a year ago. Net interest paid increased as a result of higher interest rates and debt levels and an unfavourable change in the value of financial instruments, partly offset by the capitalisation of interest in respect of the Saiccor expansion project and favourable foreign exchange gains.

The effective tax rate has reduced as a result of the reduction of deferred tax liabilities by US\$14 million following the German tax rate reduction from 38% to 30%.

Earnings per share for the quarter was 23 US cents compared to a loss of 23 US cents a year ago.

cash flow

Cash generated by operations improved to US\$177 million for the quarter, an increase of US\$110 million compared to a year ago. Working capital increased US\$36 million during the quarter compared to a reduction in working capital of US\$16 million during the equivalent quarter last year. We expect a reduction in working capital during the fourth quarter. Other items impacting cash flow in the quarter were the US Dollar bonds bi-annual interest payment of US\$26 million, pension fund payments of US\$34 million and a German tax settlement payment of US\$15 million.

Capital expenditure of US\$116 million was US\$40 million higher than the previous quarter, as a result of increased capital expenditure on the Saiccor expansion project. We remain confident we will be able to finance the Saiccor project from internal cash flow and therefore expect to end the year with a similar level of debt as at September 2006, excluding the impact of currency movements.

operating review for the quarter

Sappi Fine Paper

	Quarter ended June 2007 US\$ million	Quarter ended June 2006 US\$ million	% change	March 2007 US\$ million
Sales	1,037	968	7.1	1,057
Operating profit (loss)	25	(18)	–	49
Operating profit (loss) to sales (%)	2.4	(1.9)	–	4.6

Sales volumes increased by 4% compared to a year ago. In Dollar terms prices increased significantly as a result of the relatively weak US Dollar. In local currency terms average prices realised in the quarter were slightly down compared to last year's level in Europe and North America. Margins continued to improve compared to both a year ago and the previous quarter (excluding the Nash sale in the previous quarter).

operating review for the quarter (continued)

Europe

	Quarter ended June 2007 US\$ million	Quarter ended June 2006 US\$ million	% change (US\$)	% change (Euro)	March 2007 US\$ million
Sales	584	536	9.0	1.5	597
Operating profit	14	1	–	–	44
Operating profit to sales (%)	2.4	0.2	–	–	7.4

Sales volumes improved 4% year on year. Our geographic sales mix changed with a greater proportion of sales to overseas markets and reflected a loss of market share in the European markets.

Average prices realised were affected by the change in geographic mix. Within Western Europe we achieved higher coated fine paper prices during the quarter, but towards the end of the quarter prices started to erode.

The European cost reduction programme is progressing well with the reductions helping to offset the high wood and pulp prices.

North America

	Quarter ended June 2007 US\$ million	Quarter ended June 2006 US\$ million	% change	March 2007 US\$ million
Sales	362	354	2.3	371
Operating profit (loss)	8	(14)	–	3
Operating profit (loss) to sales (%)	2.2	(4.0)	–	0.8

Apparent consumption in North America for the quarter shows a decline of 13% compared to a year ago largely as a result of reduced imports. Shipments from local suppliers were about 2% lower.

Our sales volume increased 3% including strong pulp sales in the quarter compared to a year ago. Average paper prices realised were marginally lower than a year ago mainly as a result of product mix and slower demand, but pulp prices were substantially higher.

The operating profit margin has continued to recover as a result of improved operating efficiency, but is still far from an acceptable level. Further plans to improve margins through process and product innovation are being implemented.

Some price increases were realised on certain grades of coated fine paper and pulp during the quarter. Further general coated fine paper price increases have been announced for July.

South Africa

	Quarter ended June 2007 US\$ million	Quarter ended June 2006 US\$ million	% change (US\$)	% change (Rand)	March 2007 US\$ million
Sales	91	78	16.7	28.3	89
Operating profit (loss)	3	(5)	–	–	2
Operating profit (loss) to sales (%)	3.3	(6.4)	–	–	2.2

The business had a strong sales performance in the quarter. Margins improved slightly but remain under pressure from the high cost of pulp purchases.

Forest Products

	Quarter ended June 2007 US\$ million	Quarter ended June 2006 US\$ million	% change (US\$)	% change (Rand)	March 2007 US\$ million
Sales	260	246	5.7	16.2	261
Operating profit (loss)	65	(16)	–	–	69
Operating profit (loss) to sales (%)	25.0	(6.5)	–	–	26.4
Plantation fair value gain (loss)	15	(23)	–	–	12

The sales volume of pulp and paper was 3% below a year ago mainly as a result of a major maintenance shut at Usutu. Prices were strong and sales increased 5% in Dollar terms.

Global demand for pulp, including chemical cellulose and unbleached pulp, was strong. Demand in the South African economy remains strong for our containerboard and newsprint.

The result for the quarter included the plantation fair value gain of US\$15 million. In the equivalent quarter last year a loss of US\$23 million was recorded.

The Saiccor expansion project is progressing well. The expected start-up date for the expansion is May 2008.

operating review for the quarter (continued)

directors

Ralph Boëttger was appointed to the board as Chief Executive Officer of Sappi Limited from July 2007. He has completed a brief hand over period and will take executive responsibility for the group after this results announcement.

Wolfgang Pfarl retired as a non-executive director in June 2007 following his retirement as Chief Executive Officer of Sappi Fine Paper Europe at the end of March 2007.

post balance sheet event

During the weekend of 27 July to 29 July 2007 fires destroyed further large tracts of timber land in South Africa and Swaziland. The extent of the fire damage to our plantations is being determined and could be of a similar magnitude to the previous quarter's fire, which destroyed approximately 2% of our plantations.

outlook

We see good demand for our products on a global basis and an improving supply demand balance in our major markets.

The preliminary introduction of countervailing and anti-dumping duties in the USA against certain Asian importers last quarter is likely to alter the trade flows and to provide some support for improved price levels in the USA.

The extent of our price increases in Europe has not met our initial expectation and still does not compensate for the increases in input costs; however, the end of the downward pricing trend and the continued growth of demand provide the opportunity for further coated fine paper increases. Most of the industry has announced coated fine paper price increases for September.

We expect the trend of improving underlying earnings to continue next quarter.

On behalf of the Board

forward-looking statements

Certain statements in this release that are neither reported financial results nor other historical information, are forward-looking statements, including but not limited to statements that are predictions of or indicate future earnings, savings, synergies, events, trends, plans or objectives. Undue reliance should not be placed on such statements because, by their nature, they are subject to known and unknown risks and uncertainties and can be affected by other factors, that could cause actual results and company plans and objectives to differ materially from those expressed or implied in the forward-looking statements (or from past results). Such risks, uncertainties and factors include, but are not limited to the highly cyclical nature of the pulp and paper industry (and the factors that contribute to such cyclicity, such as levels of demand, production capacity, production, input costs including raw material, energy and employee costs, and pricing), adverse changes in the markets for the group's products, consequences of substantial leverage, changing regulatory requirements, unanticipated production disruptions, economic and political conditions in international markets, the impact of investments, acquisitions and dispositions (including related financing), any delays, unexpected costs or other problems experienced with integrating acquisitions and achieving expected savings and synergies and currency fluctuations. The company undertakes no obligation to publicly update or revise any of these forward-looking statements, whether to reflect new information or future events or circumstances or otherwise.

notes to the group results

1. Basis of preparation

The condensed financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting. The accounting policies and methods of computation used in the preparation of the results are consistent, in all material respects, with those used in the annual financial statements for September 2006 which are compliant with the English language version of International Financial Reporting Standards (IFRS) as published by the International Accounting Standards Board.

These results are unaudited.

2. Reconciliation of movement in shareholders' equity

additional information

	Quarter ended June 2007 US\$ million	Quarter ended June 2006 US\$ million	Nine months ended June 2007 US\$ million	Nine months ended June 2006 US\$ million
1. Profit (loss) for the period to EBITDA ⁽¹⁾ reconciliation				
Profit (loss) for the period	53	(53)	141	(44)
Net finance costs	37	35	107	93
Taxation – current	17	1	32	16
– deferred	(20)	(17)	16	9
Depreciation	95	96	283	291
Amortisation	–	–	1	1
EBITDA ^{(1) (2)}	182	62	580	366
			June 2007 US\$ million	Sept 2006 US\$ million
Net debt (US\$ million) ⁽³⁾			2,313	2,113
Net debt to total capitalisation (%) ⁽³⁾			46.1	46.4
Net asset value per share (US\$) ⁽³⁾			8.53	7.26

⁽¹⁾ In connection with the U.S. Securities Exchange Commission (“SEC”) rules relating to “Conditions for Use of Non-GAAP Financial Measures”, we have reconciled EBITDA to net profit rather than operating profit. As a result our definition retains non-trading profit/loss and minority interest as part of EBITDA. EBITDA represents earnings before interest (net finance costs), taxation, depreciation and amortisation. Net finance costs includes: gross interest paid; interest received; interest capitalised; net foreign exchange gains; and net fair value adjustments on interest rate financial instruments. See the Group income statement for an explanation of the computation of net finance costs. We use EBITDA as an internal measure of performance to benchmark and compare performance, both between our own operations and as against other companies. EBITDA is a measure used by the group, together with measures of performance under IFRS and US GAAP, to compare the relative performance of operations in planning, budgeting and reviewing the performances of various businesses. We believe EBITDA is a useful and commonly used measure of financial performance in addition to net profit, operating profit and other profitability measures under IFRS or US GAAP because it facilitates operating performance comparisons from period to period and company to company. By eliminating potential differences in results of operations between periods or companies caused by factors such as depreciation and amortisation methods, historic cost and age of assets, financing and capital structures and taxation positions or regimes, we believe EBITDA can provide a useful additional basis for comparing the current performance of the underlying operations being evaluated. For these reasons, we believe EBITDA and similar measures are regularly used by the investment community as a means of comparison of companies in our industry. Different companies and analysts may calculate EBITDA differently, so making comparisons among companies on this basis should be done very carefully. EBITDA is not a measure of performance under IFRS or US GAAP and should not be considered in isolation or construed as a substitute for operating profit or net profit as an indicator of the company's operations in accordance with IFRS or US GAAP.

⁽²⁾ The EBITDA calculation was amended at the beginning of the financial year to eliminate the adjustment for fellings which previously resulted in fellings being added back in the calculation as part of amortisation. Given the current accounting treatment of plantations, management has concluded that eliminating such an adjustment would be more appropriate in determining the EBITDA performance measure in future both for internal and reporting purposes. Prior year figures have been recalculated for comparison purposes as follows: June 2006 quarter: decreased by US\$20 million; June 2006 year to date: decreased by US\$55 million.
