Preliminary Proxy Statement on Schedule 14A

Proposal 1

Information Concerning the Board of Directors and Its Committees, page 4

1. Disclosure pursuant to the requirements of Item 7(d)(3)(i) of Schedule 14A and Item 306 of Regulation S-B does not appear to have been provided. Notwithstanding your disclosure here that you currently do not have any committees, such disclosure is required. Please see Item 306(b) for additional guidance. Please revise as appropriate.

Proposal 3, page 13

2. We note that a possible reverse stock split as well as an increase in your authorized capital would result in the increased availability of authorized shares for your use. Please disclose whether you presently have any plans, proposals or arrangements to issue any of the newly available authorized shares for any purpose, including future acquisitions and/or financings. If so, please disclose by including materially complete descriptions of the future acquisitions and financing transactions. If not, please state that you have no such plans, proposals, or arrangements, written or otherwise, at this time to issue any of the additional authorized shares.
3. Please provide an illustrative chart indicating the impact of the proposed reverse stock split ratios on the number of shares currently outstanding, reserved for issuance and available for issuance. Please also disclose the market price of your common stock as of a recent date.
4. In light of the increase in available capital as a result of a possible reverse stock split and increase in authorized capital, please refer to Release No. 34-15230 and discuss the possible anti-takeover effects of the increase in available capital. Please also discuss other anti-takeover mechanisms that may be present in your governing documents or otherwise and whether there are any plans or proposals to adopt other provisions or enter into other arrangements that may have material anti-takeover consequences. Inform holders that management might use the additional shares to resist or frustrate a third-party transaction providing an above-market premium that is favored by a majority of the independent stockholders.

Federal Income Tax Consequences, page 17

5. Please explain to us the relevance of your discussion here regarding the federal income tax consequences for stockholders receiving cash in lieu of fractional shares when your prior disclosure states that all fractional shares will be rounded up.

Proposal 4, page 17

6. Please provide an illustrative chart indicating the impact of your proposed increase in authorized capital on the number of shares currently outstanding, reserved for issuance and available for issuance. Please also have such chart reflecting the effect on your capital upon the approval and disapproval of your reverse stock split proposal.
7. Please further explain the reason for increasing your authorized capital in the event your reverse stock split is approved.
