This report is submitted for the general information of the shareholders of Waddell & Reed Advisors Funds. It is not authorized for distribution to prospective investors in the Funds unless preceded or accompanied by a current Waddell & Reed Advisors Funds prospectus, or summary prospectus, and current performance information, including current Lipper ranking information.

Henry J. Herrmann, CFA

Dear Shareholder,

The connections among politics, economic growth and financial markets have continued to make themselves evident over the past six months. Bond yields rose during the period. There were clear political headwinds and the recovery has progressed more slowly than any of us would like.

Markets remained volatile during the period as they encountered political uncertainty related to the U.S. election and federal budget deficits. While a compromise on income taxes helped the U.S. avoid the worst of the fiscal cliff of spending cuts and tax increases, the long-term impact of budget cuts and debt ceiling restraints remain unclear.

Europe entered a recession with the southern periphery especially challenged. Cyprus became the latest example of Europe's banking crisis late in the period and Italy added to concerns as it struggled to form a government.

Bond trading was volatile, with yields rising over the period. The benchmark 10-year Treasury was at 1.87% at the end of the six-month period, compared with 1.65% six months earlier. In stocks, the uncertainty led to periodic pullbacks but the S&P 500 Index still gained nearly 9% (including reinvested dividends) during the six-month period.

The past six months have validated one of the messages that we often stress: it is important to take a long view of the markets. We still believe good reasons remain for optimism on the economy and equity markets over the course of the coming year, but it may take some time until the data become convincing enough to allow for meaningful upside. We think U.S. economic growth will show further improvement in the second half of 2013 and will be slightly better than the first half, leading to growth of about 2.5% for the year.

We will continue monitoring these and other economic developments in the months ahead.

Economic Snapshot

	3/31/13	9/30/12
S&P 500 Index	1,569.19	1,440.67
MSCI EAFE Index	1,674.30	1,510.76
10-Year Treasury Yield	1.87%	1.65%
U.S. unemployment rate	7.6%	7.8%
30-year fixed mortgage rate	3.68%	3.43%
Oil price per barrel	\$ 97.23	\$ 92.19

Sources: Bloomberg, U.S. Department of Labor, CME

All government statistics shown are subject to periodic revision. The S&P 500 Index is an unmanaged index that tracks the stocks of 500 primarily large-cap U.S. companies. MSCI EAFE Index is an unmanaged index comprised of securities that represent the securities markets in Europe, Australasia and the Far East. Citigroup Broad Investment Grade Index is an unmanaged index comprised of securities that represent the bond market. Annualized yield to maturity is the rate of return anticipated on a bond if it is held until the maturity date. It is not possible to invest directly in any of these indexes. Mortgage rates are from BankRate and reflect the overnight national average rate on a conventional 30-year fixed loan. Oil prices reflect the market price of West Texas intermediate grade crude.

As always, we thank you for your continued trust and partnership.

Respectfully,

A handwritten signature in dark ink, reading "Henry J. Herrmann".

Henry J. Herrmann, CFA
President

The opinions expressed in this letter are those of the President of the Waddell & Reed Advisors Funds and are current only through the end of the period of the report, as stated on the cover. The President's views are subject to change at any time, based on market and other conditions, and no forecasts can be guaranteed.

ILLUSTRATION OF FUND EXPENSES

Waddell & Reed Advisors Funds

(UNAUDITED)

As a shareholder of a Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, redemption fees and exchange fees; and (2) ongoing costs, including management fees, distribution and service fees, and other Fund expenses. The following table is intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the six-month period ended March 31, 2013.

Actual Expenses

The first section in the following table provides information about actual account values and actual expenses for each share class. You may use the information in this section, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, a \$7,500 account value divided by \$1,000 = 7.5), then multiply the result by the number in the first section under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period. There may be additional fees charged to holders of certain accounts that are not included in the expenses shown in the table. These fees apply to Individual Retirement Accounts (IRAs), IRA Rollovers, Roth IRAs, Conversion Roth IRAs, Simplified Employee Pension (SEP), Simple IRAs, Tax-Sheltered Accounts (TSAs), Keogh Plans, Owner Only 401(k) (Exclusive K) Plans and Final Pay Plans. As of the close of the six months covered by the table, a customer is charged an annual fee of \$18 within each plan type. This fee is waived for IRA Rollovers and Conversion Roth IRAs if the customer owns another type of IRA. Coverdell Education Savings Account plans are charged an annual fee of \$10 per customer. You should consider the additional fees that were

charged to your Fund account over the six-month period when you estimate the total ongoing expenses paid over the period and the impact of these fees on your ending account value as such additional expenses are not reflected in the information provided in the following table. Additional fees have the effect of reducing investment returns.

Hypothetical Example for Comparison Purposes

The second section in the following table provides information about hypothetical account values and hypothetical expenses for each share class based on the Fund's actual expense ratio and an assumed rate of return of five percent per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this five percent hypothetical example with the five percent hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees or exchange fees. Therefore, the second section in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Expenses paid may be impacted by expense reduction arrangements. If those arrangements had not been in place, expenses paid would have been higher. See Note 5 to the Financial Statements for further information.

Fund	Actual ⁽¹⁾			Hypothetical ⁽²⁾			Annualized Expense Ratio Based on the Six-Month Period

Class C	\$1,000	\$1,021.70	\$ 8.59	\$1,000	\$1,016.48	\$ 8.57	1.70%

*Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 182 days in the six-month period ended March 31, 2013, and divided by 365.

**Class B and Class C are not available for direct investments.

(1) This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column of this section.

(2) This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees.

Notes to Schedule of Investments

*Not shown due to rounding.

(A) Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At March 31, 2013, the total value of these securities amounted to \$135,734 or 8.1% of net assets.

(B) Variable rate security. Interest rate disclosed is that which is in effect at March 31, 2013.

(C) Interest-only security. Amount shown as principal represents notional amount for computation of interest.

(D) Rate shown is the yield to maturity at March 31, 2013.

(E) Variable rate security. Interest rate disclosed is that which is in effect at March 31, 2013. Date shown represents the date that the variable rate resets.

SCHEDULE OF INVESTMENTS

Bond Fund *(in thousands)*

MARCH 31, 2013 (UNAUDITED)

The following table is a summary of the valuation of the Fund's investments by the fair value hierarchy levels as of March 31, 2013. See Note 3 to the Financial Statements for further information regarding fair value measurement.

	Level 1	Level 2	Level 3
Assets			
Investments in Securities			
Corporate Debt Securities	\$ —	\$1,123,531	\$ —
Mortgage-Backed Securities	—	14,966	—
Municipal Bonds	—	10,300	—
Other Government Securities	—	29,278	—
United States Government Agency Obligations	—	249,991	—
United States Government Obligations	—	211,247	—
Short-Term Securities	—	21,307	—
Total	\$ —	\$1,660,620	\$ —

The following acronyms are used throughout this schedule:

CMO = Collateralized Mortgage Obligation

GTD = Guaranteed

REMIC = Real Estate Mortgage Investment Conduit

See Accompanying Notes to Financial Statements.

Notes to Schedule of Investments

*Not shown due to rounding.

(A)No dividends were paid during the preceding 12 months.

(B>Listed on an exchange outside the United States.

(C)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At March 31, 2013, the total value of these securities amounted to \$305,063 or 34.7% of net assets.

(D)Variable rate security. Interest rate disclosed is that which is in effect at March 31, 2013.

(E)Non-income producing as the issuer has either missed its most recent interest payment or declared bankruptcy.

(F)Principal amounts are denominated in the indicated foreign currency, where applicable (BRL – Brazilian Real, CLP – Chilean Peso, CNY – Chinese Yuan Renminbi, COP – Colombian Peso and RUB – Russian Ruble).

(G)Interest-only security. Amount shown as principal represents notional amount for computation of interest.

(H)Rate shown is the yield to maturity at March 31, 2013.

(I)Variable rate security. Interest rate disclosed is that which is in effect at March 31, 2013. Date shown represents the date that the variable rate resets.

SCHEDULE OF INVESTMENTS

Government Securities Fund *(in thousands)*

MARCH 31, 2013 (UNAUDITED)

Notes to Schedule of Investments

(A)Variable rate security. Interest rate disclosed is that which is in effect at March 31, 2013.

(B)Interest-only security. Amount shown as principal represents notional amount for computation of interest.

(C)Rate shown is the yield to maturity at March 31, 2013.

(D)Variable rate security. Interest rate disclosed is that which is in effect at March 31, 2013. Date shown represents the date that the variable rate resets.

The following table is a summary of the valuation of the Fund's investments by the fair value hierarchy levels as of March 31, 2013. See Note 3 to the Financial Statements for further information regarding fair value measurement.

	Level 1	Level 2	Level 3
Assets			
Investments in Securities			
United States Government Agency Obligations	\$ —	\$330,702	\$ —
United States Government Obligations	—	102,807	—
Short-Term Securities	—	31,809	1,664
Total	\$ —	\$465,318	\$1,664

The following acronyms are used throughout this schedule:

CMO = Collateralized Mortgage Obligation

GTD = Guaranteed

REMIC = Real Estate Mortgage Investment Conduit

See Accompanying Notes to Financial Statements.

PORTFOLIO HIGHLIGHTS

High Income Fund

ALL DATA IS AS OF MARCH 31, 2013 (UNAUDITED)

Asset Allocation

Bonds	95.5%
Corporate Debt Securities	76.8%
Senior Loans	18.7%
Cash and Cash Equivalents and Equities	4.5%

Lipper Rankings

Category: Lipper High Current Yield Funds	Rank	Percentile
1 Year	13/523	3
3 Year	5/436	2
5 Year	36/384	10
10 Year	96/264	37

Past performance is no guarantee of future results. Rankings are for Class A shares and are based on average annual total returns, but do not consider sales charges. Rankings for other share classes may vary.

Quality Weightings

Investment Grade	0.8%
BBB	0.8%
Non-Investment Grade	94.7%
BB	7.7%
B	51.1%
CCC	32.6%
Non-rated	3.3%
Cash and Cash Equivalents and Equities	4.5%

Our preference is to always use ratings obtained from Standard & Poor's. For securities not rated by Standard & Poor's, ratings are obtained from Moody's.

SCHEDULE OF INVESTMENTS

High Income Fund *(in thousands)*

MARCH 31, 2013 (UNAUDITED)

Notes to Schedule of Investments

(A) No dividends were paid during the preceding 12 months.

(B) Warrants entitle the Fund to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date, if any.

(C) Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At March 31, 2013, the total value of these securities amounted to \$1,007,786 or 49.1% of net assets.

(D) Payment-in-kind bonds.

(E) Variable rate security. Interest rate disclosed is that which is in effect at March 31, 2013.

(F) Principal amounts are denominated in the indicated foreign currency, where applicable (EUR – Euro).

(G) Zero coupon bond.

(H) Rate shown is the yield to maturity at March 31, 2013.

(I) Variable rate security. Interest rate disclosed is that which is in effect at March 31, 2013. Date shown represents the date that the variable rate resets.

The following forward foreign currency contracts were outstanding at March 31, 2013:

Type	Currency	Counterparty	Principal Amount of Contract (Denominated in Indicated Currency)	Settlement Date	Unrealized Appreciation	Unrealized Depreciation
Sell	Euro	Morgan Stanley International	12,900	4-22-13	\$214	\$—

SCHEDULE OF INVESTMENTS

High Income Fund *(in thousands)*

MARCH 31, 2013 (UNAUDITED)

The following table is a summary of the valuation of the Fund's investments by the fair value hierarchy levels as of March 31, 2013. See Note 3 to the Financial Statements for further information regarding fair value measurement.

	Level 1	Level 2	Level 3
Assets			
Investments in Securities			
Common Stocks	\$11,627	\$ —	\$ —
Preferred Stocks	6,223	2,045	—
Warrants	—	782	—
Corporate Debt Securities	—	1,553,063	25,071
Senior Loans	—	301,701	82,772
Short-Term Securities	—	70,149	—
Total	\$17,850	\$1,927,740	\$107,843
Forward Foreign Currency Contracts	\$ —	\$ 214	\$ —

The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used to determine fair value:

	Warrants	Corporate Debt Securities	Senior Loans
Beginning Balance 10-1-12	\$ 204	\$ —	\$ 65,180
Net realized gain (loss)	—	—	21
Net unrealized appreciation (depreciation)	—	(71)	2,646
Purchases	—	15,791	41,965
Sales	—	—	(15,185)
Transfers into Level 3 during the period	—	9,351	14,649
Transfers out of Level 3 during the period	(204)	—	(26,504)
Ending Balance 3-31-13	\$ —	\$25,071	\$ 82,772
Net change in unrealized appreciation (depreciation) for all Level 3 investments still held as of 3-31-13	\$ —	\$ (71)	\$ 2,777

Transfers from Level 2 to Level 3 occurred generally due to the lack of observable market data due to decreased market activity or information for these securities. Transfers from Level 3 to Level 2 occurred generally due to the increased availability of observable market data due to increased market activity or information. As shown above, transfers in and out of Level 3 represent the value at the later of the beginning of the fiscal period or the purchase date of the security. There were no transfers between Levels 1 and 2 during the period ended March 31, 2013.

Quantitative Information about Level 3 fair value measurements:

	Fair Value at 3-31-13	Valuation Technique(s)	Unobservable Input(s)
Assets			
Corporate Debt Securities	\$25,071	Third-party Valuation service	Vendor/Broker quotes
Senior Loans	\$82,772	Third-party Valuation service	Broker quotes

The following acronyms are used throughout this schedule:

GTD = Guaranteed

REIT = Real Estate Investment Trust

PORTFOLIO HIGHLIGHTS

Municipal Bond Fund

ALL DATA IS AS OF MARCH 31, 2013 (UNAUDITED)

Asset Allocation

Bonds	85.6%
Municipal Bonds	85.6%
Cash and Cash Equivalents	14.4%

Lipper Rankings

Category: Lipper General Municipal Debt Funds	Rank	Percentile
1 Year	176/252	70
3 Year	113/225	50
5 Year	43/202	22
10 Year	44/162	27

Past performance is no guarantee of future results. Rankings are for Class A shares and are based on average annual total returns, but do not consider sales charges. Rankings for other share classes may vary.

Quality Weightings

Investment Grade	79.4%
AAA	2.7%
AA	28.2%
A	29.2%
BBB	19.3%
Non-Investment Grade	6.2%
BB	1.4%
Below CCC	0.0%
Non-rated	4.8%
Cash and Cash Equivalents	14.4%

Our preference is to always use ratings obtained from Standard & Poor's. For securities not rated by Standard & Poor's, ratings are obtained from Moody's.

Notes to Schedule of Investments

(A)Variable rate security. Interest rate disclosed is that which is in effect at March 31, 2013.

(B)Zero coupon bond.

(C)Non-income producing as the issuer has either missed its most recent interest payment or declared bankruptcy.

SCHEDULE OF INVESTMENTS

Municipal Bond Fund *(in thousands)*

MARCH 31, 2013 (UNAUDITED)

(D)Rate shown is the yield to maturity at March 31, 2013.

(E)Variable rate security. Interest rate disclosed is that which is in effect at March 31, 2013. Date shown represents the date that the variable rate resets.

The following table is a summary of the valuation of the Fund's investments by the fair value hierarchy levels as of March 31, 2013. See Note 3 to the Financial Statements for further information regarding fair value measurement.

	Level 1	Level 2	Level 3
Assets			
Investments in Securities			
Municipal Bonds	\$—	\$843,879	\$29,155
Short-Term Securities	—	136,544	—
Total	\$—	\$980,423	\$29,155

The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used to determine fair value:

	Municipal Bonds
Beginning Balance 10-1-12	\$ 4,909
Net realized gain (loss)	21
Net unrealized appreciation (depreciation)	463
Purchases	23,422
Sales	(677)
Transfers into Level 3 during the period	1,717
Transfers out of Level 3 during the period	(700)
Ending Balance 3-31-13	\$29,155
Net change in unrealized appreciation (depreciation) for all Level 3 investments still held as of 3-31-13	\$ 463

Transfers from Level 2 to Level 3 occurred generally due to the lack of observable market data due to decreased market activity or information for these securities. Transfers from Level 3 to Level 2 occurred generally due to the increased availability of observable market data due to increased market activity or information. As shown above, transfers in and out of Level 3 represent the value at the later of the beginning of the fiscal period or the purchase date of the security.

Quantitative Information about Level 3 fair value measurements:

	Fair Value at 3-31-13	Valuation Technique(s)	Unobservable Input(s)
Assets			
Municipal Bonds	\$29,155	Third-party Valuation service	Vendor/Broker quotes

The following acronyms are used throughout this schedule:

AGM = Assured Guaranty Municipal
 AMBAC = American Municipal Bond Assurance Corp.
 BHAC = Berkshire Hathaway Assurance Corporation
 CR = Custodial Receipts
 FGIC = Financial Guaranty Insurance Co.
 FHA = Federal Housing Administration
 FHLMC = Federal Home Loan Mortgage Corp. FNMA = Federal National Mortgage Association
 FNMA = Federal National Mortgage Association
 GNMA = Government National Mortgage Association
 GTD = Guaranteed
 NPFPGC = National Public Finance Guarantee Corp.
 VA = Department of Veterans Affairs

See Accompanying Notes to Financial Statements.

PORTFOLIO HIGHLIGHTS

Municipal High Income Fund

Notes to Schedule of Investments

(A)Variable rate security. Interest rate disclosed is that which is in effect at March 31, 2013.

(B)Non-income producing as the issuer has either missed its most recent interest payment or declared bankruptcy.

(C)Zero coupon bond.

(D)Rate shown is the yield to maturity at March 31, 2013.

(E)Variable rate security. Interest rate disclosed is that which is in effect at March 31, 2013. Date shown represents the date that the variable rate resets.

The following table is a summary of the valuation of the Fund's investments by the fair value hierarchy levels as of March 31, 2013. See Note 3 to the Financial Statements for further information regarding fair value measurement.

	Level 1	Level 2	Level 3
Assets			
Investments in Securities			
Municipal Bonds	\$ —	\$794,569	\$10,931
Short-Term Securities	—	64,897	—
Total	\$ —	\$859,466	\$10,931

The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used to determine fair value:

	Municipal Bonds
Beginning Balance 10-1-12	\$ 10,197
Net realized gain (loss)	—
Net unrealized appreciation (depreciation)	219
Purchases	10,712
Sales	—
Transfers into Level 3 during the period	—
Transfers out of Level 3 during the period	(10,197)
Ending Balance 3-31-13	\$ 10,931
Net change in unrealized appreciation (depreciation) for all Level 3 investments still held as of 3-31-2013	\$ 219

SCHEDULE OF INVESTMENTS

Municipal High Income Fund *(in thousands)*

MARCH 31, 2013 (UNAUDITED)

Quantitative Information about Level 3 fair value measurements:

	Fair Value at 3-31-13	Valuation Technique(s)	Unobservable Input(s)
Assets			
Municipal Bonds	\$10,931	Third-party Valuation service	Vendor/Broker quotes

The following acronyms are used throughout this schedule:

AGM = Assured Guaranty Municipal
 AMBAC = American Municipal Bond Assurance Corp.
 FGIC = Financial Guaranty Insurance Co.
 FHA = Federal Housing Administration
 GTD = Guaranteed

See Accompanying Notes to Financial Statements.

See Accompanying Notes to Financial Statements.

1. ORGANIZATION

Waddell & Reed Advisors Funds, a Delaware statutory trust (the “Trust”), is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. Waddell & Reed Advisors Bond Fund, Waddell & Reed Advisors Cash Management, Waddell & Reed Advisors Global Bond Fund, Waddell & Reed Advisors Government Securities Fund, Waddell & Reed Advisors High Income Fund, Waddell & Reed Advisors Municipal Bond Fund and Waddell & Reed Advisors Municipal High Income Fund (each, a “Fund”) are seven series of the Trust and are the only series of the Trust included in these financial statements. The investment objective(s), policies and risk factors of each Fund are described more fully in the Prospectus and Statement of Additional Information. The investment manager to each Fund is Waddell & Reed Investment Management Company (“WRIMCO” or the “Manager”).

Each Fund (except Cash Management, Municipal Bond Fund and Municipal High Income Fund, which do not offer Class Y shares) offers Class A, Class B, Class C and Class Y shares. Class B and Class C shares of Cash Management are closed to direct investment. Class A shares are sold at their offering price, which is normally net asset value plus a front-end sales charge. Class B and Class C shares are sold without a front-end sales charge, but may be subject to a contingent deferred sales charge (“CDSC”). Class Y shares are sold to certain institutional investors without either a front-end sales charge or a CDSC. All classes of shares have identical rights and voting privileges with respect to the Fund in general and exclusive voting rights on matters that affect that class alone. Net investment income, net assets and net asset value per share may differ due to each class having its own expenses, such as transfer agent and shareholder servicing fees, directly attributable to that class. Class A, Class B and Class C shares have separate distribution and/or service plans. No such plan has been adopted for Class Y shares or Class A shares of Cash Management. Class B shares will automatically convert to Class A shares 96 months after the date of purchase.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by each Fund.

Security Transactions and Related Investment Income. Security transactions are accounted for on the trade date (date the order to buy or sell is executed). Realized gains and losses are calculated on the identified cost basis. Interest income is recorded on the accrual basis and includes paydown gain (loss) and accretion of discounts and amortization of premiums. Dividend income is recorded on the ex-dividend date, except certain dividends from foreign securities where the ex-dividend date may have passed, which are recorded as soon as the Fund is informed of the ex-dividend date. All or a portion of the distributions received from a real estate investment trust or publicly traded partnership may be designated as a reduction of cost of the related investment and/or realized gain.

Foreign Currency Translation. Each Fund’s accounting records are maintained in U.S. dollars. All assets and liabilities denominated in foreign currencies are translated into U.S. dollars daily, using foreign exchange rates obtained from an independent pricing service authorized by the Board of Trustees of the Trust (the “Board”). Purchases and sales of investment securities and accruals of income and expenses are translated at the rate of exchange prevailing on the date of the transaction. For assets and liabilities other than investments in securities, net realized and unrealized gains and losses from foreign currency translation arise from changes in currency exchange rates. Each Fund combines fluctuations from currency exchange rates and fluctuations in market value when computing net realized gain (loss) and net change in unrealized appreciation (depreciation) on investments. Foreign exchange rates are valued as of the close of the New York Stock Exchange (“NYSE”), normally 4:00 P.M. Eastern time, on each day the NYSE is open for trading.

Allocation of Income, Expenses, Gains and Losses. Income, expenses (other than those attributable to a specific class), gains and losses are allocated on a daily basis to each class of shares based upon the relative proportion of net assets represented by such class. Operating expenses directly attributable to a specific class are charged against the operations of that class.

It is the policy of each Fund to distribute all of its taxable income and capital gains to its shareholders and otherwise qualify as a regulated investment company under Subchapter M of the Internal Revenue Code. In addition, each Fund intends to pay distributions as required to avoid imposition of excise tax. Accordingly, no provision has been made for Federal income taxes. Management of the Trust periodically reviews all tax positions to assess that it is more likely than not that the position would be sustained upon examination by the relevant tax authority based on the technical merits of each position. As of and for the period ended March 31, 2013, management believes that no liability for unrecognized tax positions is required. The Funds are subject to examination by U.S. federal and state authorities for returns filed for tax years after 2007.

Dividends and Distributions to Shareholders. Dividends and distributions to shareholders are recorded by each Fund on the business day following record date. Net investment income dividends and capital gains distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America (“U.S. GAAP”). If the total dividends and distributions made in any tax year exceeds net investment income and accumulated realized capital gains, a portion of the total distribution may be treated as a tax return of capital.

Segregation and Collateralization. In cases in which the 1940 Act and the interpretive positions of the Securities and Exchange Commission (“SEC”) require that a Fund either deliver collateral or segregate assets in connection with certain investments (e.g., dollar rolls, financial futures contracts, foreign currency exchange contracts, options written, securities with extended settlement periods and swaps), the Fund will segregate collateral or designate on its books and records cash or other liquid securities having a market value at least equal to the amount that is required to be physically segregated for the benefit of the counterparty. Furthermore, based on requirements and agreements with certain exchanges and third party broker-dealers, each party has requirements to deliver/deposit cash or securities as collateral for certain investments. Certain countries require that cash reserves be held while investing in companies incorporated in that country. These cash reserves and cash collateral that has been pledged to cover obligations of the Funds under derivative contracts, if any, will be reported separately on the Statement of Assets and Liabilities as “Restricted cash.” Securities collateral pledged for the same purpose, if any, is noted on the Schedule of Investments.

Concentration of Market and Credit Risk. In the normal course of business, the Funds invest in securities and enter into transactions where risks exist due to fluctuations in the market (market risk) or failure of the issuer of a security to meet all its obligations (issuer credit risk). The value of securities held by the Funds may decline in response to certain events, including those directly involving the issuers whose securities are owned by the Funds; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency and interest rate and price fluctuations. Similar to issuer credit risk, the Funds may be exposed to counterparty credit risk, or the risk that an entity with which the Funds have unsettled or open transactions may fail to or be unable to perform on its commitments. The Funds manage counterparty credit risk by entering into transactions only with counterparties that they believe have the financial resources to honor their obligations and by monitoring the financial stability of those counterparties. Financial assets, which potentially expose the Funds to market, issuer and counterparty credit risks, consist principally of financial instruments and receivables due from counterparties. The extent of the Funds' exposure to market, issuer and counterparty credit risks with respect to these financial assets is generally approximated by their value recorded on the Funds' Statement of Assets and Liabilities, less any collateral held by the Funds.

Certain Funds may hold high-yield and/or non-investment-grade bonds, which may be subject to a greater degree of credit risk. Credit risk relates to the ability of the issuer to meet interest or principal payments or both as they become due. The Funds may acquire securities in default and are not obligated to dispose of securities whose issuers subsequently default.

Certain Funds may enter into financial instrument transactions (such as swaps, futures, options and other derivatives) that may have off-balance sheet market risk. Off-balance sheet market risk exists when the maximum potential loss on a particular financial instrument is greater than the value of such financial instrument, as reflected on the Statement of Assets and Liabilities.

If a Fund invests directly in foreign currencies or in securities that trade in, and receive revenues in, foreign currencies, or in financial derivatives that provide exposure to foreign currencies, it will be subject to the risk that those currencies will decline in value relative to the base currency of the Fund, or, in the case of hedging positions, that the Fund's base currency will decline in value relative to the currency being hedged. Currency rates in foreign countries may fluctuate significantly over short periods of time for a number of reasons, including changes in interest rates, intervention (or the failure to intervene) by U.S. or foreign governments, central banks or supranational entities such as the International Monetary Fund, or by the imposition of currency controls or other political developments in the United States or abroad.

Refer to the Fund's Prospectus and Statement of Additional Information for more information regarding the risks associated with owning shares in the Funds.

Inflation-Indexed Bonds Certain Funds may invest in inflation-indexed bonds. Inflation-indexed bonds are fixed-income securities whose principal value is periodically adjusted to the rate of inflation. The interest rate on these bonds is generally fixed at issuance at a rate lower than typical bonds. Over the life of an inflation-indexed bond, however, interest will be paid based on a principal value, which is adjusted for inflation. Any increase or decrease in the principal amount of an inflation-indexed bond will be included as interest income on the Statement of Operations, even though investors do not receive their principal until maturity.

Interest Only Obligations. These securities entitle the owner to receive only the interest portion from a bond, Treasury note or pool of mortgages. These securities are generally created by a third party separating a bond or pool of mortgages into distinct interest-only and principal-only securities. As the principal (par) amount of a bond or pool of mortgages is paid down, the amount of interest income earned by the owner will decline as well.

Payment In-Kind Securities Certain Funds may invest in payment in-kind securities. Payment in-kind securities ("PIKs") give the issuer the option at each interest payment date of making interest payments in either cash or additional debt securities. Those additional debt securities usually have the same terms, including maturity dates and interest rates, and associated risks as the original bonds. The daily market quotations of the original bonds may include the accrued interest (referred to as a dirty price) and require a pro-rata adjustment from the unrealized appreciation or depreciation on investments to interest receivable on the Statement of Assets and Liabilities.

Securities on a When-Issued or Delayed Delivery Basis. Certain Funds may purchase securities on a "when-issued" basis, and may purchase or sell securities on a "delayed delivery" basis. "When-issued" or "delayed delivery" refers to securities whose terms and indenture are available and for which a market exists, but which are not available for immediate delivery. Delivery and payment for securities that have been purchased by a Fund on a when-issued basis normally take place within six months and possibly as long as two years or more after the trade date. During this period, such securities do not earn interest, are subject to market fluctuation and may increase or decrease in value prior to their delivery. The purchase of securities on a when-issued basis may increase the volatility of a Fund's net asset value to the extent the Fund executes such transactions while remaining substantially fully invested. When a Fund engages in when-issued or delayed delivery transactions, it relies on the buyer or seller, as the case may be, to complete the transaction. Their failure to do so may cause the Fund to lose the opportunity to obtain or dispose of the security at a price and yield WRIMCO, or the Fund's investment subadvisor, as applicable, consider advantageous. The Fund maintains internally designated assets with a market value equal to or greater than the amount of its purchase commitments. The Fund may also sell securities that it purchased on a when-issued or delayed delivery basis prior to settlement of the original purchase.

Senior Loans. Certain Funds may invest in senior secured corporate loans (senior loans) either as an original lender or as a purchaser of a loan assignment or a participation interest in a loan. Senior loans are generally made to U.S. and foreign borrowers that are corporations, partnerships, or other business entities. Senior loans are generally readily marketable, but some loans may be illiquid or may be subject to some restrictions on resale.

Certain senior loans contain provisions that obligate a Fund to fund future commitments at the borrower's discretion. See Note 8 in the Notes to the Financial Statements for more information regarding commitments.

Custodian Fees. “Custodian fees” on the Statement of Operations may include interest expense incurred by a Fund on any cash overdrafts of its custodian account during the period. Such cash overdrafts may result from the effects of failed trades in portfolio securities and from cash outflows resulting from unanticipated shareholder redemption activity. A Fund pays interest to its custodian on such cash overdrafts, to the extent they are not offset by positive cash balances maintained by that Fund. The “Earnings credit” line item, if shown, represents earnings on cash balances maintained by that Fund during the period. Such interest expense and other custodian fees may be paid with these earnings.

Trustees and Chief Compliance Officer Fees. Fees paid to the Trustees can be paid in cash or deferred to a later date, at the election of the Trustee according to the Deferred Fee Agreement entered into between the Trust and the Trustee(s). Each Fund records its portion of the deferred fees as a liability on the Statement of Assets and Liabilities. All fees paid in cash plus any appreciation (depreciation) in the underlying deferred plan are shown on the Statement of Operations. Additionally, fees paid to the office of the Chief Compliance Officer of the Funds are shown on the Statement of Operations.

Indemnifications. The Trust’s organizational documents provide current and former Trustees and Officers with a limited indemnification against liabilities arising in connection with the performance of their duties to the Trust. In the normal course of business, the Trust may also enter into contracts that provide general indemnification. The Trust’s maximum exposure under these arrangements is unknown and is dependent on future claims that may be made against the Trust. The risk of material loss from such claims is considered remote.

New Accounting Pronouncements. In December 2011, the Financial Accounting Standards Board (“FASB”) issued an Accounting Standards Update (“ASU”) to enhance disclosures requiring improved information about financial instruments and derivative instruments that are subject to offsetting (“netting”) on the Statement of Assets and Liabilities. This information will enable users of the entity’s financial statements to evaluate the effect or potential effect of netting arrangements on the entity’s financial position. The ASU is effective prospectively during interim or annual periods beginning on or after January 1, 2013. At this time, management is evaluating the implications of these changes on the financial statements.

Estimates. The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Subsequent Events. Management has performed a review for subsequent events through the date this report was issued.

3. INVESTMENT VALUATION AND FAIR VALUE MEASUREMENTS

Each Fund’s investments are reported at fair value. Fair value is defined as the price that each Fund would receive upon selling an asset or would pay upon satisfying a liability in an orderly transaction between market participants at the measurement date. Each Fund calculates the Net Asset Value (“NAV”) of its shares as of the close of the NYSE, normally 4:00 P.M. Eastern time, on each day the NYSE is open for trading.

For purposes of calculating the NAV, the portfolio securities and other assets are valued on each business day using pricing and valuation methods as adopted by the Board. Where market quotes are readily available, fair market value is generally determined on the basis of last reported sales prices, or if no sales are reported, based on quotes obtained from a quotation reporting system, established market makers, or pricing services.

Prices for fixed-income securities are typically based on quotes that are obtained from an independent pricing service authorized by the Board. To determine values of fixed-income securities, the independent pricing service utilizes such factors as current quotations by broker/dealers, coupon, maturity, quality, type of issue, trading characteristics, and other yield and risk factors it deems relevant in determining valuations. Securities that cannot be valued by the independent pricing service may be valued using quotes obtained from dealers that make markets in the securities.

Short-term securities with maturities of 60 days or less are valued on the basis of amortized cost (which approximates market value), whereby a portfolio security is valued at its cost initially, and thereafter valued to reflect a constant amortization to maturity of any discount or premium.

Because many foreign markets close before the NYSE, events may occur between the close of the foreign market and the close of the NYSE that could have a material impact on the valuation of foreign securities. Waddell & Reed Services Company (“WRSCO”), pursuant to procedures adopted by the Board, evaluates the impact of these events and may adjust the valuation of foreign securities to reflect the fair value as of the close of the NYSE. In addition, all securities for which market values are not readily available or are deemed unreliable are appraised at fair value as determined in good faith under the supervision of the Board.

Where market quotes are not readily available, portfolio securities or assets are valued at fair value, as determined in good faith by the Board or WRSCO pursuant to instructions from the Board.

Market quotes are considered not readily available in circumstances where there is an absence of current or reliable market-based data (e.g., trade information or broker quotes), including where events occur after the close of the relevant market, but prior to the NYSE close, that materially affect the values of a Fund’s securities or assets. In addition, market quotes are considered not readily available when, due to extraordinary circumstances, the exchanges or markets on which the securities trade do not open for trading for the entire day and no other market prices are available.

The Board has delegated to WRSCO, the responsibility for monitoring significant events that may materially affect the values of a Portfolio’s securities or assets and for determining whether the value of the applicable securities or assets should be re-evaluated in light of such significant events. WRSCO has established a Valuation Committee to administer and oversee the valuation process, including the use of third party pricing vendors.

The Board has adopted methods for valuing securities and other assets in circumstances where market quotes are not readily available. For instances in which daily market quotes are not readily available, investments may be valued, pursuant to guidelines established by the Board, with reference to other securities or indices. In the event that the security or asset cannot be valued pursuant to one of the valuation methods established by the Board, the value of the security or asset will be determined in good faith by the Valuation Committee.

When a Fund uses these fair valuation methods applied by WRSCO that use significant unobservable inputs to determine its NAV, securities will be priced by a method that the Board or persons acting at their direction believe accurately reflects fair value and are categorized as Level 3 of the fair value hierarchy. These methods may require subjective determinations about the value of a security. While the Trust's policy is intended to result in a calculation of a Fund's NAV that fairly reflects security values as of the time of pricing, the Trust cannot guarantee that values determined by the Board or persons acting at their direction would accurately reflect the price that a Fund could obtain for a security if it were to dispose of that security as of the time of pricing (for instance, in a forced or distressed sale). The prices used by a Fund may differ from the value that would be realized if the securities were sold.

WRSCO is responsible for monitoring the implementation of the pricing and valuation policies through a series of activities to provide reasonable comfort of the accuracy of prices including: 1) periodic vendor due diligence meetings to review methodologies, new developments, and process at vendors, 2) daily and monthly multi-source pricing comparisons reviewed and submitted to the Valuation Committee, and 3) daily review of unpriced, stale, and variance reports with exceptions reviewed by management and the Valuation Committee and appropriate consultation with the Board.

Accounting standards establish a framework for measuring fair value and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the factors that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

An individual investment's fair value measurement is assigned a level based upon the observability of the inputs which are significant to the overall valuation.

The three-tier hierarchy of inputs is summarized as follows:

Level 1 – Observable input such as quoted prices, available in active markets, for identical assets or liabilities.

Level 2 – Significant other observable inputs, which may include, but are not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market corroborated inputs.

Level 3 – Significant unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available, which may include assumptions made by the Board or persons acting at their direction that are used in determining the fair market value of investments.

A description of the valuation techniques applied to the Funds' major classes of assets and liabilities measured at fair value on a recurring basis follows:

Asset-Backed Securities and Mortgage-Backed Securities. The fair value of asset-backed securities and mortgage-backed securities are estimated using recently executed transactions and based on models that consider the estimated cash flows of each debt tranche of the issuer, establish a benchmark yield, and develop an estimated tranche specific spread to the benchmark yield based on the unique attributes of the tranche including, but not limited to, the prepayment speed assumptions and attributes of the collateral. To the extent the inputs are observable and timely, the values would be categorized in Level 2 of the fair value hierarchy, and otherwise they would be categorized as Level 3.

Bank Loans. Bank loans are valued using a price or composite price from one or more brokers or dealers as obtained from an independent pricing service. The fair value of bank loans is estimated using recently executed transactions, market price quotations, credit/market events, and cross-asset pricing. Inputs are generally observable market inputs obtained from independent sources. Bank loans are generally categorized in Level 2 of the fair value hierarchy, unless key inputs are unobservable in which case they would be categorized as Level 3.

Bullion. The fair value of bullion is at the last settlement price at the end of each day on the board of trade or exchange upon which they are traded and are categorized in Level 1 of the fair value hierarchy.

Corporate Bonds: The fair value of corporate bonds is estimated using various techniques, which consider recently executed transactions in securities of the issuer or comparable issuers, market price quotations (where observable), bond spreads, fundamental data relating to the issuer, and credit default swap spreads adjusted for any basis difference between cash and derivative instruments. While most corporate bonds are categorized in Level 2 of the fair value hierarchy, in instances where lower relative weight is placed on transaction prices, quotations, or similar observable inputs, they are categorized in Level 3 of the fair value hierarchy.

Derivative Instruments. Forward foreign currency contracts are valued based upon the closing prices of the forward currency rates determined at the close of the NYSE. Swaps are valued by an independent pricing service unless the price is unavailable, in which case they are valued at the price provided by a dealer in that security. Futures contracts traded on an exchange are generally valued at the settlement price. Listed options are ordinarily valued at the mean of the last bid and ask price provided by an independent pricing service unless the price is unavailable, in which case they are valued at a quotation obtained from a broker-dealer. Over-the-counter ("OTC") options are ordinarily valued at the mean of the last bid and ask price provided by an independent pricing service for a comparable listed option unless such a price is unavailable, in which case they are valued at a quotation obtained from a broker-dealer. If no comparable listed option exists from which to obtain a price from an independent pricing service and a quotation cannot be obtained from a broker-dealer, the OTC option will be valued using a model reasonably designed to provide a current market price.

Listed derivatives that are actively traded are valued based on quoted prices from the exchange and are categorized in Level 1 of the fair value hierarchy. OTC derivative contracts include forward foreign currency contracts, swap agreements, and option contracts related to interest rates, foreign currencies, credit standing of reference entities, equity prices, or commodity prices. Depending on the product and the terms of the transaction, the fair value of the OTC derivative products are modeled taking into account the counterparties' creditworthiness and using a series of techniques, including simulation models. Many pricing models do not entail material subjectivity because the methodologies employed do not necessitate significant judgments and the pricing inputs are observed from actively quoted markets, as is the case with interest rate swap and option contracts. A substantial majority of OTC derivative products valued by the Fund's using pricing models fall into this category and are categorized within Level 2 of the fair value hierarchy.

Equity Securities. Equity securities traded on U.S. or foreign securities exchanges or included in a national market system are valued at the official closing price at the close of each business day unless otherwise stated below. OTC equity securities and listed securities for which no price is readily available are valued at the average of the last bid and asked prices.

Mutual funds, including investment funds, typically are valued at the NAV reported as of the valuation date.

Securities that are stated at the last reported sales price or closing price on the day of valuation taken from the primary exchange where the security is principally traded and to the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

Foreign securities, for which the primary trading market closes at the same time or after the NYSE, are valued based on quotations from the primary market in which they are traded and categorized in Level 1. Because many foreign securities markets and exchanges close prior to the close of the NYSE, closing prices for foreign securities in those markets or on those exchanges do not reflect the events that occur after that close. Certain foreign securities may be fair valued using a pricing service that considers the correlation of the trading patterns of the foreign security to the intra-day trading in the U.S. markets for investments such as American Depositary Receipts, financial futures, Exchange Traded Funds, and the movement of the certain indices of securities based on a statistical analysis of their historical relationship; such valuations generally are categorized in Level 2.

Preferred stock, repurchase agreements, and other equities traded on inactive markets or valued by reference to similar instruments are also generally categorized in Level 2.

Municipal Bonds. Municipal bonds are fair valued based on pricing models that take into account, among other factors, information received from market makers and broker-dealers, current trades, bid-wants lists, offerings, market movements, the callability of the bond, state of issuance, benchmark yield curves, and bond insurance. To the extent that these inputs are observable and timely, the fair values of municipal bonds would be categorized as Level 2; otherwise the fair values would be categorized as Level 3.

Restricted Securities. Restricted securities that are deemed to be both Rule 144A securities and illiquid, as well as restricted securities held in non-public entities are included in Level 3 of the fair value hierarchy because they trade infrequently, and, therefore, the inputs are unobservable. Restricted securities that are valued at a discount to similar publicly traded securities and may be categorized as Level 2 of the fair value hierarchy to the extent that the discount is considered to be insignificant to the fair value measurement in its entirety; otherwise they may be categorized as Level 3.

U.S. Government and Agency Securities. U.S. government and agency securities are normally valued using a model that incorporates market observable data such as reported sales of similar securities, broker quotes, yields, bids, offers, quoted market prices, and reference data. Accordingly, U.S. government and agency securities are normally categorized in Level 1 or 2 of the fair value hierarchy depending on the liquidity and transparency of the market.

There were no transfers between Levels 1 or 2 during the period ended March 31, 2013.

Transfers from Level 2 to Level 3 occurred generally due to the lack of observable market data due to decreased market activity or information for these securities. Transfers from Level 3 to Level 2 occurred generally due to the increased availability of observable market data due to increased market activity or information. Transfers in and out of Level 3 represent the value at the later of the beginning of the period or the purchase date of the security.

For fair valuations using unobservable inputs, U.S. GAAP requires a reconciliation of the beginning to ending balances for reported fair values that presents changes attributable to total realized and unrealized gains or losses, purchases and sales, and transfers in or out of the Level 3 category during the period. The end of period timing recognition is used for the transfers between Levels of the Funds' assets and liabilities. In accordance with the requirements of U.S. GAAP, a fair value hierarchy and Level 3 reconciliation, if any, have been included in the Notes to the Schedule of Investments for each respective Fund.

Net realized gain (loss) and net unrealized appreciation (depreciation), shown on the reconciliation of Level 3 investments if applicable, are included on the Statement of Operations in net realized gain (loss) on investments in unaffiliated securities and in net change in unrealized appreciation (depreciation) on investments in unaffiliated securities, respectively. Additionally, the net change in unrealized appreciation for all Level 3 investments still held as of March 31, 2013; if applicable, is included on the Statement of Operations in net change in unrealized appreciation (depreciation) on investments in unaffiliated securities.

The Funds may own different types of assets that are classified as Level 2 or Level 3. Assets classified as Level 2 can have a variety of observable inputs, including, but not limited to, benchmark yields, reported trades, broker quotes, benchmark securities, and bid/offer quotations. These observable inputs are collected and utilized, primarily by an independent pricing service, in different evaluated pricing approaches depending upon the specific asset to determine a value.

4. DERIVATIVE INSTRUMENTS (\$ amounts in thousands unless indicated otherwise)

The following disclosures contain information on why and how the Funds use derivative instruments, the associated risks of investing in derivative instruments, and how derivative instruments affect the Funds' financial positions and results of operations when presented by primary underlying risk exposure.

Forward Foreign Currency Contracts. Certain Funds may enter into forward foreign currency contracts ("forward contracts") for the purchase or sale of a foreign currency at a negotiated rate at a future date. Forward contracts are reported on a schedule following the Schedule of Investments. Forward contracts will be valued daily based upon the closing prices of the forward currency rates determined at the close of the NYSE as provided by a bank, dealer or independent pricing service. The resulting unrealized appreciation and depreciation is reported on the Statement of Assets and Liabilities as a receivable or payable and on the Statement of Operations within the change in unrealized appreciation (depreciation). At contract close, the difference between the original cost of the contract and the value at the close date is recorded as a realized gain (loss) on the Statement of Operations.

Risks to a Fund related to the use of such contracts include both market and credit risk. Market risk is the risk that the value of the forward contract will depreciate due to unfavorable changes in the exchange rates. Credit risk arises from the possibility that the counterparty will default. If the counterparty defaults, a Fund's maximum loss will consist of the aggregate unrealized gain on appreciated contracts that is not collateralized.

Futures Contracts. Certain Funds may engage in buying and selling futures contracts. Upon entering into a futures contract, the Fund is required to deposit, in a segregated account, an amount equal to a varying specified percentage of the contract amount. This amount is known as the initial margin. Subsequent payments (variation margins) are made or received by the Fund each day, dependent on the daily fluctuations in the value of the underlying debt security or index.

Futures contracts are reported on a schedule following the Schedule of Investments. Securities held in collateralized accounts to cover initial margin requirements on open futures contracts are identified on the Schedule of Investments. Cash held by the broker to cover initial margin requirements on open futures contracts and the receivable and/or payable for the daily mark to market for the variation margin are noted on the Statement of Assets and Liabilities. The net change in unrealized appreciation (depreciation) is reported on the Statement of Operations. Realized gains (losses) are reported on the Statement of Operations at the closing or expiration of futures contracts.

Risks of entering into futures contracts include the possibility of loss of securities or cash held as collateral, that there may be an illiquid market where the Fund is unable to close the contract or enter into an offsetting position and, if used for hedging purposes, the risk that the price of the contract will correlate imperfectly with the prices of the Fund's securities.

Option Contracts. Options purchased by a Fund are accounted for in the same manner as marketable portfolio securities. The cost of portfolio securities acquired through the exercise of call options is increased by the premium paid to purchase the call. The proceeds from securities sold through the exercise of put options are decreased by the premium paid to purchase the put.

When a Fund writes (sells) an option, an amount equal to the premium received by the Fund is recorded as a liability. The amount of the liability is subsequently adjusted to reflect the current market value of the option written. When an option expires on its stipulated expiration date or a Fund enters into a closing purchase transaction, the Fund realizes a gain (or loss if the cost of a closing purchase transaction exceeds the premium received when the call option was sold), and the liability related to such option is extinguished. When a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether a Fund has realized a gain or loss. For each Fund, when a written put is exercised, the cost basis of the securities purchased by a Fund is reduced by the amount of the premium received.

Investments in options, whether purchased or written, involve certain risks. Writing put options and purchasing call options may increase a Fund's exposure to the underlying security (or basket of securities). With written options, there may be times when a Fund will be required to purchase or sell securities to meet its obligation under the option contract where the required action is not beneficial to the Fund, due to unfavorable movement of the market price of the underlying security (or basket of securities). Additionally, to the extent a Fund enters into OTC option transactions with counterparties, the Fund will be exposed to the risk that counterparties to these OTC transactions will be unable to meet their obligations under the terms of the transaction.

Swap Agreements. Certain Funds may invest in swap agreements.

Total return swaps involve a commitment to pay periodic interest payments in exchange for a market-linked return based on a security or a basket of securities representing a variety of securities or a particular index. To the extent the total return of the security, index or other financial measure underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Fund will receive a payment from or make a payment to the counterparty.

The creditworthiness of firms with which a Fund enters into a swap agreement is monitored by IICO. If a firm's creditworthiness declines, the value of the agreement would likely decline, potentially resulting in losses. If a default occurs by the counterparty to such a transaction, the Fund will have contractual remedies pursuant to the agreement related to the transaction. The maximum loss a Fund may incur consists of the aggregate unrealized gain on appreciated contracts that is not collateralized.

Collateral. A Fund may mitigate credit risk through credit support annexes ("CSA") included with an International Swaps and Derivatives Association, Inc. ("ISDA") Master Agreement, which is the standard contract governing most derivative transactions between the Fund and each of its counterparties. The CSA allows the Fund and its counterparty to offset certain derivative financial instruments' payables and/or receivables with collateral, which is generally held by the Fund's custodian. The amount of collateral moved to/from applicable counterparties is based upon minimum transfer amounts specified in the CSA. To the extent amounts due to the Fund from its counterparties are not fully collateralized contractually or otherwise, the Fund bears the risk of loss from counterparty non-performance. See Note 2 "Segregation and Collateralization" for additional information with respect to collateral practices.

Additional Disclosure Related to Derivative Instruments

Fair values of derivative instruments as of March 31, 2013:

Fund	Type of Risk Exposure	Assets		Liabilities	
		Statement of Assets & Liabilities Location	Value	Statement of Assets & Liabilities Location	Value
Global Bond Fund	Foreign currency	Unrealized appreciation on forward foreign currency contracts	\$430	Unrealized depreciation on forward foreign currency contracts	\$10
High Income Fund	Foreign currency	Unrealized appreciation on forward foreign currency contracts	214		

Amount of realized gain (loss) on derivatives recognized on the Statement of Operations for the period ended March 31, 2013:

Fund	Type of Risk Exposure	Net realized gain (loss) on:					Total
		Investments in unaffiliated securities*	Swap agreements	Futures contracts	Written options	Forward foreign currency contracts	
Global Bond Fund	Foreign currency	\$—	\$—	\$—	\$—	\$330	\$330
High Income Fund	Foreign currency	—	—	—	—	(403)	(403)

* Purchased options are reported as investments in unaffiliated securities and are reflected in the accompanying Schedule of Investments.

Change in unrealized appreciation (depreciation) on derivatives recognized on the Statement of Operations for the period ended March 31, 2013:

Fund	Type of Risk Exposure	Net change in unrealized appreciation (depreciation) on:					Total
		Investments in unaffiliated securities*	Swap agreements	Futures contracts	Written options	Forward foreign currency contracts	
Global Bond Fund	Foreign currency	\$—	\$—	\$—	\$—	\$243	\$243
High Income Fund	Foreign currency	—	—	—	—	351	351

* Purchased options are reported as investments in unaffiliated securities and are reflected in the accompanying Schedule of Investments.

During the period ended March 31, 2013, the average derivative volume was as follows:

Fund	Long forward contracts ⁽¹⁾	Short forward contracts ⁽¹⁾	Long futures contracts ⁽¹⁾	Short futures contracts ⁽¹⁾	Swap agreements ⁽²⁾	Purchased options ⁽¹⁾	Written options ⁽¹⁾
Global Bond Fund	\$12,307	\$12,180	\$—	\$—	\$—	\$—	\$—
High Income Fund	21,170	21,316	—	—	—	—	—

(1) Average market value outstanding during the period.

(2) Average notional amount outstanding during the period.

Objectives and Strategies

Global Bond Fund. The Fund's objective in using derivatives during the period was to manage the exposure to various foreign currencies. To achieve this objective, the Fund utilized forward contracts to either hedge a position held by the Fund, to gain exposure to a currency where a foreign bond is not available, or to take a fundamental position long or short in a particular currency.

High Income Fund. The Fund's objective in using derivatives during the period was to hedge the exposure to foreign currencies from securities held in the portfolio. To achieve this objective, the Fund utilized forward contracts.

5. INVESTMENT MANAGEMENT AND PAYMENTS TO AFFILIATED PERSONS (\$ amounts in thousands unless indicated otherwise)

Management Fees. WRIMCO, a wholly owned subsidiary of Waddell & Reed, Inc. ("W&R"), serves as each Fund's investment manager. The management fee is accrued daily by each Fund at the following annual rates as a percentage of average daily net assets:

Fund (M – Millions)	\$0 to \$500M	\$500 to \$1,000M	\$1,000 to \$1,500M	Over \$1,500M
Bond Fund	0.525%	0.500%	0.450%	0.400%
Cash Management	0.400	0.400	0.400	0.400
Global Bond Fund	0.625	0.600	0.550	0.500
Government Securities Fund	0.500	0.450	0.400	0.350
High Income Fund	0.625	0.600	0.550	0.500
Municipal Bond Fund	0.525	0.500	0.450	0.400
Municipal High Income Fund	0.525	0.500	0.450	0.400

Effective October 1, 2006, under terms of a settlement agreement, the fee is payable at the following annual rates for those Funds included in the settlement agreement until September 30, 2016:

Fund (M – Millions)	\$0 to \$500M	\$500 to \$1,000M	\$1,000 to \$1,500M	Over \$1,500M
Bond Fund	0.485%	0.500%	0.450%	0.400%
Global Bond Fund	0.590	0.600	0.550	0.500
Government Securities Fund	0.460	0.450	0.400	0.350
High Income Fund	0.575	0.600	0.550	0.500
Municipal Bond Fund	0.485	0.500	0.450	0.400
Municipal High Income Fund	0.485	0.500	0.450	0.400

Effective October 8, 2007, upon completion of the merger of Limited-Term Bond Fund into Bond Fund, the fee for Bond Fund is as follows: 0.475% of net assets up to \$1 billion, 0.45% of net assets over \$1 billion and up to \$1.5 billion, and 0.40% of net assets over \$1.5 billion.

WRIMCO has voluntarily agreed to waive a Fund's management fee on any day that the Fund's net assets are less than \$25 million, subject to WRIMCO's right to change or modify this waiver. See Expense Reimbursements and/or Waivers for more information.

Accounting Services Fees. The Trust has an Accounting Services Agreement with WRSCO, doing business as WI Services Company ("WISC"), an affiliate of W&R. Under the agreement, WISC acts as the agent in providing bookkeeping and accounting services and assistance to the Trust, including maintenance of Fund records, pricing of Fund shares and preparation of certain shareholder reports. For these services, each Fund pays WISC a monthly fee of one-twelfth of the annual fee based on the average net asset levels shown in the following table:

(M – Millions)	\$0 to \$10M	\$10 to \$25M	\$25 to \$50M	\$50 to \$100M	\$100 to \$200M	\$200 to \$350M	\$350 to \$550M	\$550 to \$750M	\$750 to \$1,000M	Over \$1,000M
Annual Fee Rate	\$0.00	\$11.50	\$23.10	\$35.50	\$48.40	\$63.20	\$82.50	\$96.30	\$121.60	\$148.50

In addition, for each class of shares in excess of one, each Fund pays WISC a monthly per-class fee equal to 2.5% of the monthly accounting services base fee.

Administrative Fee. Each Fund also pays WISC a monthly fee at the annual rate of 0.01%, or one basis point, for the first \$1 billion of net assets with no fee charged for net assets in excess of \$1 billion. This fee is voluntarily waived by WISC until a Fund's net assets are at least \$10 million and is included in "Accounting services fee" on the Statement of Operations.

Shareholder Servicing. General. Under the Shareholder Servicing Agreement between the Trust and WISC, with respect to Class A, Class B and Class C shares, for each shareholder account that was in existence at any time during the prior month, each Fund (except Cash Management) pays a monthly fee of \$1.6958 per account; however, WISC has agreed to reduce that fee if the number of total shareholder accounts within the Complex (Waddell & Reed Advisors Funds, InvestEd Portfolios and Ivy Funds) reaches certain levels. Cash Management pays a monthly fee of \$1.75 for each shareholder account that was in existence at any time during the prior month plus, for Class A shareholder accounts, \$0.75 for each shareholder check processed in the prior month. Government Securities Fund Class A, which also has check writing privileges, pays \$0.75 for each shareholder check processed in the prior month. For Class Y shares, each Fund pays a monthly fee equal to one-twelfth of 0.15 of 1% of the average daily net assets of the class for the preceding month. Each Fund also reimburses WISC for certain out-of-pocket costs for all classes.

Networked accounts. For certain networked accounts (that is, those accounts whose Fund shares are purchased through certain financial intermediaries), WISC has agreed to reduce its per account fees charged to the Funds to \$0.50 per month per shareholder account. Additional fees

may be paid by the Funds to those intermediaries. If the aggregate annual rate of the WISC transfer agent fee and the costs charged by the financial services companies exceeds \$18.00 per account for a Fund, WISC will reimburse the Fund the amount in excess of \$18.00.

Broker accounts. Certain broker-dealers that maintain shareholder accounts with each Fund through an omnibus account provide transfer agent and other shareholder-related services that would otherwise be provided by WISC if the individual accounts that comprise the omnibus account were opened by their beneficial owners directly. Each Fund may pay such broker-dealers a per account fee for each open account within the omnibus account, or a fixed rate fee, based on the average daily net asset value of the omnibus account (or a combination thereof).

Distribution and Service Plan for Class A Shares. Under a Distribution and Service Plan for Class A shares adopted by the Trust pursuant to Rule 12b-1 under the 1940 Act, each Fund, other than Cash Management, may pay a distribution and/or service fee to W&R in an amount not to exceed 0.25% of the Fund's average annual net assets. The fee is paid daily to compensate W&R for amounts it expends in connection with the distribution of the Class A shares and/or provision of personal services to Fund shareholders and/or maintenance of shareholder accounts of that class either directly or by third parties. For each of Bond Fund, Government Securities Fund, Municipal Bond Fund and Municipal High Income Fund, the Board of Trustees has limited payments to 0.237%, 0.232%, 0.237% and 0.247%, respectively, of the Fund's average Class A net assets on an annual basis. The Board may in the future, without shareholder approval, authorize payments up to a maximum of 0.25% of the Fund's average Class A net assets on an annual basis, if it determines to do so.

Distribution and Service Plan for Class B and Class C Shares. Under the Distribution and Service Plan adopted by the Trust for Class B and Class C shares, respectively, each Fund may pay W&R a service fee not to exceed 0.25% and a distribution fee not to exceed 0.75% of the Fund's average annual net assets attributable to that class to compensate W&R for its services in connection with the distribution of shares of that class and/or provision of personal services to Class B or Class C shareholders and/or maintenance of shareholder accounts of that class.

Sales Charges. As principal underwriter for the Trust's shares, W&R receives sales commissions (which are not an expense of the Trust) for sales of Class A shares. A CDSC may be assessed against a shareholder's redemption amount of Class B, Class C or certain Class A shares and is paid to W&R. During the period ended March 31, 2013, W&R received the following amounts in sales commissions and CDSCs:

	Gross Sales Commissions	CDSC			Commissions Paid ⁽¹⁾
		Class A	Class B	Class C	
Bond Fund	\$ 522	\$ 3	\$ 3	\$ 2	\$ 333
Cash Management	—	5	4	—*	16,075
Global Bond Fund	295	1	2	—*	192
Government Securities Fund	88	1	3	1	64
High Income Fund	1,225	1	3	3	800
Municipal Bond Fund	496	3	1	5	376
Municipal High Income Fund	615	2	1	3	448

* Not shown due to rounding.

(1) W&R reallocated/paid this portion of the sales charge to financial advisors and selling broker-dealers.

Expense Reimbursements and/or Waivers. During the period ended March 31, 2013, the following amounts were waived as a result of the reduced management fees related to the settlement agreement:

Global Bond Fund	\$ 88
Government Securities Fund	96
High Income Fund	124
Municipal Bond Fund	100
Municipal High Income Fund	100

For each of Bond Fund, Government Securities Fund, Municipal Bond Fund and Municipal High Income Fund, the Board of Trustees has limited Rule 12b-1 payments to 0.237%, 0.232%, 0.237% and 0.247%, respectively, of the Fund's average Class A net assets on an annual basis. During the period ended March 31, 2013, the following amounts represent the difference between 0.25% and the reduced Rule 12b-1 fees:

Bond Fund	\$ 105
Government Securities Fund	41
Municipal Bond Fund	63
Municipal High Income Fund	12

WRIMCO has voluntarily agreed to reimburse sufficient expenses of any class of Cash Management to maintain a minimum annualized yield of 0.02%. This reimbursement serves to reduce shareholder servicing and/or distribution and service fees. For the period ended March 31, 2013, the following expenses were reimbursed:

Cash Management, Class A	\$3,009
Cash Management, Class B	7
Cash Management, Class C	35

Any amounts due to the funds as a reimbursement but not paid as of March 31, 2013 are shown as a receivable from affiliates on the Statement of Assets and Liabilities.

6. INVESTMENT SECURITIES TRANSACTIONS (\$ amounts in thousands)

The cost of purchases and the proceeds from maturities and sales of investment securities (excluding short-term securities) for the period ended March 31, 2013, were as follows:

	Purchases		Sales	
	U.S. Government	Other Issuers	U.S. Government	Other Issuers
Bond Fund	\$126,118	\$ 167,629	\$124,445	\$ 82,145

8. COMMITMENTS

Bridge loan commitments may obligate a Fund to furnish temporary financing to a borrower until permanent financing can be arranged. At March 31, 2013, High Income Fund had outstanding bridge loan commitments of \$94,457,000. In connection with these commitments, the Fund earns a commitment fee, typically set as a percentage of the commitment amount. Such fee income is included in interest income on the Statement of Operations.

9. FEDERAL INCOME TAX MATTERS (\$ amounts in thousands)

For Federal income tax purposes, cost of investments owned at March 31, 2013 and the related unrealized appreciation (depreciation) were as follows:

Fund	Cost of Investments	Gross Appreciation	Gross Depreciation	Net Unrealized Appreciation
Bond Fund	\$1,557,537	\$119,664	\$16,581	\$103,083
Cash Management	1,120,534	—	—	—
Global Bond Fund	868,029	37,560	25,369	12,191
Government Securities Fund	447,308	20,068	394	19,674
High Income Fund	1,951,250	111,728	9,545	102,183
Municipal Bond Fund	916,961	96,390	3,773	92,617
Municipal High Income Fund	819,786	80,341	29,730	50,611

For Federal income tax purposes, the Funds' distributed and undistributed earnings and profit for the year ended September 30, 2012 and the post-October and late-year ordinary activity updated with information available through the date of this report were as follows:

Fund	Distributed Ordinary Income	Undistributed Ordinary Income	Distributed Long-Term Capital Gains	Undistributed Long-Term Capital Gains	Tax Return of Capital	Post-October Capital Losses Deferred	Late-Year Ordinary Losses Deferred
Bond Fund	\$ 45,323	\$2,150	\$ —	\$ —	\$—	\$1,346	\$—
Cash Management	215	168	—	—	—	—	—
Global Bond Fund	35,908	8,490	—	1,003	—	—	—
Government Securities Fund	9,724	123	4,188	2,217	—	—	—
High Income Fund	124,934	1,259	—	—	—	—	—
Municipal Bond Fund	31,775	1,197	—	—	—	—	—
Municipal High Income Fund	36,537	380	—	—	—	2,882	—

Internal Revenue Code regulations permit each Fund to elect to defer into its next fiscal year capital losses incurred between each November 1 and the end of its fiscal year. Each Fund is also permitted to defer into its next fiscal year late-year ordinary losses that arise from the netting of activity generated between each November 1 and the end of its fiscal year on certain specified ordinary items.

Accumulated capital losses represent net capital loss carryovers as of September 30, 2012 that may be available to offset future realized capital gains and thereby reduce future capital gains distributions. Under the Regulated Investment Company Modernization Act of 2010 (the "Modernization Act"), a Fund is permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period. Any losses incurred during those future taxable years will be required to be utilized prior to any losses incurred in pre-enactment taxable years which have only an eight year carryforward period. As a result of this ordering rule, pre-enactment capital loss carryovers may expire unused. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under the previous law. The Fund's first fiscal year end subject to the Modernization Act is September 30, 2012. The following table shows the expiration dates for capital loss carryovers from pre-enactment taxable years and the amounts of capital loss carryovers, if any, by each of the applicable Funds electing to be taxed as a RIC during the year ended September 30, 2012:

Fund	Pre-Enactment							Post-Enactment	
	2013	2014	2015	2016	2017	2018	2019	Short-Term Capital Loss Carryover	Long-Term Capital Loss Carryover
Bond Fund	\$ —	\$ —	\$ —	\$—	\$ —	\$ 4,462	\$ —	\$ —	\$—
Cash Management	—	—	—	—	—	202	215	—	—
Global Bond Fund	—	—	—	—	—	—	—	—	—
Government Securities Fund	—	—	—	—	—	—	—	—	—
High Income Fund	—	—	—	—	2,729	17,192	—	—	—
Municipal Bond Fund	—	115	1,919	—	—	53	56	596	—
Municipal High Income Fund	5,048	—	420	—	504	16,061	—	—	—

10. REGULATORY AND LITIGATION MATTERS

On July 24, 2006, WRIMCO, W&R and WRSCO (collectively, Waddell & Reed) reached a settlement with the SEC to resolve proceedings brought in connection with its investigation of frequent trading and market timing in certain Waddell & Reed Advisors Funds.

Under the terms of the SEC's cease-and desist order (SEC Order), pursuant to which Waddell & Reed neither admitted nor denied any of the findings contained therein, among other provisions Waddell & Reed agreed to pay \$40 million in disgorgement and \$10 million in civil money penalties.

The SEC Order further requires that the \$50 million in settlement amounts will be distributed in accordance with a distribution plan developed by an independent distribution consultant, in consultation with Waddell & Reed, and that is agreed to by the SEC staff and the Funds' Disinterested Trustees. The SEC Order requires that the independent distribution consultant develop a methodology and distribution plan pursuant to which Fund shareholders shall receive their proportionate share of losses, if any, suffered by the Funds due to market timing. Therefore, it is not currently possible to specify which particular Fund shareholders or groups of Fund shareholders will receive distributions of those settlement monies or in what proportion and amounts.

The foregoing is only a summary of the SEC Order. A copy of the SEC Order is available on the SEC's website at www.sec.gov.

PROXY VOTING INFORMATION

Waddell & Reed Advisors Funds

Proxy Voting Guidelines

A description of the policies and procedures Waddell & Reed Advisors Funds uses to determine how to vote proxies relating to portfolio securities is available (i) without charge, upon request, by calling 1.888.WADDELL and (ii) on the Securities and Exchange Commission's (SEC) website at www.sec.gov.

Proxy Voting Records

Information regarding how each Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available on Form N-PX through Waddell & Reed's website at www.waddell.com and on the SEC's website at www.sec.gov.

QUARTERLY PORTFOLIO SCHEDULE INFORMATION

Waddell & Reed Advisors Funds

Portfolio holdings can be found on the Trust's website at www.waddell.com. Alternatively, a complete schedule of portfolio holdings of each Fund for the first and third quarters of each fiscal year is filed with the SEC and can be found on the Trust's Form N-Q. These holdings may be viewed in the following ways:

- On the SEC's website at www.sec.gov.
- For review and copy at the SEC's Public Reference Room in Washington, DC. Information on the operations of the Public Reference Room may be obtained by calling 1.800.SEC.0330.

TO ALL TRADITIONAL IRA PLANHOLDERS:

Waddell & Reed Advisors Funds

As required by law, we are hereby providing notice to you that income tax may be withheld automatically from any distribution or withdrawal from a traditional IRA. A Fund is generally required to withhold taxes unless you make a written election not to have taxes withheld. The election may be made on the distribution/withdrawal form provided by Waddell & Reed, Inc. which can be obtained from your Waddell & Reed financial advisor or by submitting Internal Revenue Service Form W-4P. Once made, an election can be revoked by providing written notice to Waddell & Reed, Inc. If you elect not to have tax withheld you may be required to make payments of estimated tax. Penalties may be imposed by the IRS if withholding and estimated tax payments are not adequate.
