## **PART I FINANCIAL INFORMATION**

### **ITEM 1. FINANCIAL STATEMENTS**

The accompanying unaudited condensed financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions for Form 10-QSB and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are of a normal recurring nature. Operating results for the nine month periods ended September 30, 2006 and 2005 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006. For further information refer to the financial statements and footnotes thereto included in the Company's Annual Financial Statements filed on Form 10-KSB filed with the Securities and Exchange Commission.

## **REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Board of Directors and Stockholders of  
**Sorell, Inc. and the Subsidiary**

We have reviewed the accompanying consolidated interim balance sheets of **Sorell, Inc. and the Subsidiary** (the "Company") as of September 30, 2006 and 2005 and the related consolidated interim statements of stockholders' deficit, operations, and cash flows for the nine-month periods ended September 30, 2006 and 2005. These financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

## **SORELL, INC. AND THE SUBSIDIARY**

Notes to Consolidated Interim Financial Statements

September 30, 2006 and 2005

Unaudited

(Expressed in U.S. Dollars)

### **1. Description of Business and Going Concern**

Sorell, Inc. (formerly NetMeasure Technology, Inc.) ("the Company") was incorporated under the laws of the State of Nevada on May 4, 1998. The Company has no business activity before its merger with S. Cam Co. Ltd. ("S.Cam").

On October 4, 2005, in accordance with a Share Exchange Agreement dated July 12, 2005, S.Cam entered into a reverse-takeover transaction with the Company, whereby 78.8% of all the outstanding shares of the S Cam Co. Ltd., a Korean corporation, were exchanged for 23,305,000 of the newly issued shares of the Company. As a result of the transaction, the shareholders of S.Cam control 81% of the Company. While the Company is the legal parent, S.Cam, as a result of the reverse-takeover, became the parent company for accounting purposes.

S.Cam, a company operating in Namsa, Kyungki-Do, Korea, was founded on October 13, 1998 under the laws of the Republic of Korea to manufacture and sell consumer electronic products such as MP3 players and mobile phones.

Since 2002, the S.Cam, has been actively investing in research to develop consumer electronic products such as MP3 players under its own brand name 'Sorell'. Revenue from Sorell products amounted to approximately 50% of total revenues of 2006 (2005 - 44.2%).

#### **Going Concern**

The Company's consolidated financial statements are presented on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. The Company has experienced recurring losses since inception that raise substantial doubt as to its ability to continue as a going concern. For the periods ended September 30, 2006 and 2005, the Company experienced net losses of \$7,950,266 and \$9,171,248 and has a negative working capital of \$14,617,601 and \$4,706,907 for the quarters ended September 30, 2006 and 2005 respectively.

The Company's ability to continue as a going concern is contingent upon its ability to secure additional financing, initiating sale of its product and attaining profitable operations.

Management is pursuing various sources of equity financing in addition to increasing its sales base. During the year, the Company shifted its primary focus to the production of goods under its own brand name "Sorell". During 2006, the Company entered into two major contracts for sales of its GPS and NFI products to China and Europe for a total of \$21.9 million. Although the Company has plans to pursue additional financing, there can be no assurance that the Company will be able to secure financing when needed or obtain such on terms satisfactory to the Company, if at all.

The consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

Notes to Consolidated Interim Financial Statements

September 30, 2006 and 2005

Unaudited

(Expressed in U.S. Dollars)

### **2. Summary of Significant Accounting Policies**

The accounting policies of the Company are in accordance with generally accepted accounting principles of the United States of America, and their basis of application is consistent. Outlined below are those policies considered particularly significant:

a) **Basis of Financial Statement Presentation**

These financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business.

b) **Basis of Consolidation**

The acquisition of S.Cam, by the Company has been recorded as a recapitalization of the Company, with the net assets of the Company and S.Cam, brought forward at their historical basis. The intention of the management of S.Cam, was to acquire the Company as a shell company listed on Nasdaq. Management does not intend to pursue the business of the Company. As such, accounting for the merger as the recapitalization of the Company is deemed appropriate.

Minority interest are recorded to the extent of their equity. Losses in excess of minority interest equity capital are charged against the majority interest and will be reversed when the losses reverse.

c) **Unit of Measurement**

The US Dollar has been used as the unit of measurement in these financial statements.

d) **Use of Estimates**

Preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related notes to financial statements. These estimates are based on management's best knowledge of current events and actions the Company may undertake in the future. Actual results may ultimately differ from estimates, although management does not believe such changes will materially affect the financial statements in any individual year.

## **SORELL, INC. AND THE SUBSIDIARY**

Notes to Consolidated Interim Financial Statements

September 30, 2006 and 2005

Unaudited

(Expressed in U.S. Dollars)

### **2. Summary of Significant Accounting Policies (cont'd)**

#### **e) Revenue Recognition**

The Company generates revenues from sales of manufactured goods and merchandise, as well as subcontracted processing and assembly of goods.

Revenues from products sales and processing are recognized in accordance with Staff Accounting Bulletin No. 101 "Revenue Recognition in Financial Statements" ("SAB No. 101") when delivery has occurred provided there is persuasive evidence of an agreement, the fee is fixed or determinable and collection of the related receivable is probable.

#### **f) Provision for Warranty**

The Company provides a provision for estimated warranty costs relating to the Company's brand 'Sorell' products during the warranty period of one year. Estimated costs of product warranties are charged to current operations at the time of sale and are included in the balance sheet as part of accounts payable.

#### **g) Currency Translation**

The Company's functional currency is Korean won. Adjustments to translate these statements into U.S. dollars at the balance sheet date are recorded in other comprehensive income.

Foreign currency transactions of the Korean operation have been translated to Korean Won at the rate prevailing at the time of the transaction. Balance sheets items recorded in foreign currencies have been translated to Korean Wons at the year end rate. Realized foreign exchange gains and losses have been charged to income in the year.

#### **h) Cash and Equivalents**

Highly liquid investments with maturities of three months or less when purchased are considered cash equivalents and recorded at cost, which approximates fair value.

#### **i) Loss per Common Share**

The Company calculates net loss per share based on SFAS No. 128, "Earnings Per Share". Basic loss per share is computed by dividing net loss attributable to the common stockholders by the weighted average number of common shares outstanding. Fully diluted loss per share is computed similar to basic loss per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive.

## **SORELL, INC. AND THE SUBSIDIARY**

Notes to Consolidated Interim Financial Statements

September 30, 2006 and 2005

Unaudited

(Expressed in U.S. Dollars)

### **2. Summary of Significant Accounting Policies (cont'd)**

#### **j) Comprehensive Income**

The Company adopted SFAS No. 130, "Reporting Comprehensive Income". SFAS No. 130 establishes the standards for reporting and presentation of comprehensive income and its components in a full set of financial statements. Comprehensive income is presented in the statements of stockholders' deficit, and consists of net income and unrealized gains (losses) on available for sale marketable securities; foreign currency translation adjustments and changes in market value of future contracts that qualify as a hedge; and negative equity adjustments recognized in accordance with SFAS No. 87. SFAS No. 130 requires only additional disclosures in the financial statements and does not affect the Company's financial position or results of operations.

#### **k) Properties and Equipment, net**

Properties and equipment are stated at cost. Major renewals and betterments are capitalized and expenditures for repairs and maintenance are charges to expense as incurred. Depreciation is computed using the undernoted annual rates and methods:

Buildings	40 years	Straight line
Leasehold improvements	2 years	Straight line
Machinery	6 years	Declining balance
Tools and equipment	6 years	Declining balance
Vehicles	6 years	Declining balance
Furniture and fixtures	6 years	Declining balance

#### **l) Inventories**

Inventories are stated at the lower of cost or net realizable value. Net realizable value is determined by deducting selling expenses from selling price.

The cost of inventories is determined on the weighted average method, except for materials-in-transit for which the specific identification method is used.

#### **m) Investments**

Investments in available-for-sale securities are being recorded in accordance with FAS-115 "Accounting for Certain Investments in Debt and Equity Securities". Equity securities that are not held principally for the purpose of selling in the near term are reported at fair market value with unrealized holding gains and losses excluded from earnings and reported as a separate component of stockholders' equity.

### **2. Summary of Significant Accounting Policies (cont'd)**

#### **n) Financial Instruments**

Fair values of cash equivalents, short-term and long-term investments and short-term debt approximate cost. The estimated fair values of other financial instruments, including debt, equity and risk management instruments, have been determined using market information and valuation methodologies, primarily discounted cash flow analysis. These estimates require considerable judgment in interpreting market data, and changes in assumptions or estimation methods could significantly affect the fair value estimates.

#### **o) Recent Accounting Pronouncements**

In February 2006, the Financial Accounting Standards Board ("FASB") issued SFAS No. 155, "Accounting for Certain Hybrid Financial Instruments—an amendment of FASB Statements No. 133 and 140" ("SFAS No. 155"). This Statement permits fair value of remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation; clarifies which interest-only strips and principal-only strips are not subject to the requirements of SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities"; establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation; clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives; and amended SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities," to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. SFAS No. 155 is effective for all financial instruments acquired, issued, or subject to a remeasurement (new basis) event occurring after the beginning of an entity's first fiscal year that begins after September 15, 2006. The Company is currently reviewing the effect, if any, the proposed guidance will have on its consolidated financial statements.

In March 2006, FASB issued SFAS No. 156, "Accounting for Servicing of Financial Assets which amends FAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities" ("SFAS No. 156"). In a significant change to current guidance, SFAS No. 156 permits an entity to choose either of the following subsequent measurement methods for each class of separately recognized servicing assets and servicing liabilities: (1) Amortization Method or (2) Fair Value Measurement Method. SFAS No. 156 is effective as of the beginning of an entity's first fiscal year that begins after September 15, 2006. The Company is currently reviewing the effect, if any, the proposed guidance will have on its financial position.

### **2. Summary of Significant Accounting Policies (cont'd)**

#### **o) Recent Accounting Pronouncements (cont'd)**

In June 2006 FASB issued Financial Accounting Standards Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprises' financial statements in accordance with SFAS No. 109, "Accounting for Income Taxes" ("SFAS No. 109"). FIN 48 prescribes a recognition threshold and measurement attributable for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosures and transitions. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company is currently reviewing the effect, if any, FIN 48 will have on its financial position.

In September 2006, the Securities and Exchange Commission ("SEC") staff issued Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements" ("SAB No. 108"). SAB No. 108 was issued to provide consistency in how registrants quantify financial statement misstatements. The Company is required to and will initially apply SAB No. 108 in connection with the preparation of its annual financial statements for the year ending December 31, 2006. The Company does not expect the application of SAB No. 108 to have a material effect on its financial position and results of operations.

In September 2006, FASB issued SFAS No. 157, "Fair Value Measurements," which is effective for calendar year companies on January 1, 2008. The statement defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and expands disclosures about fair value measurements. The statement codifies the definition of fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The standard clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. The Company is currently assessing the potential impacts of implementing this standard.

In September 2006, the FASB issued SFAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106 and 132 (R)" ("SFAS No. 158"). SFAS 158 requires an employer to recognize the funded status of a defined benefit postretirement plan as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. The funded status of a benefit plan is defined as the difference between the fair value of the plan assets and the plans benefit obligation. For

### **2. Summary of Significant Accounting Policies (cont'd)**

#### **o) Recent Accounting Pronouncements (cont'd)**

a pension plan the benefit obligation is the projected benefit obligation and for any other postretirement benefit plan, such as a retiree health care plan, the benefit obligation is the accumulated postretirement benefit obligation. SFAS No. 158 requires an employer to recognize as a component of other comprehensive income, net of tax, the gains and losses and prior service costs or credits that arise during the period but that are not recognized as components of net periodic benefit costs pursuant to SFAS No. 87. SFAS No. 158 also requires an employer to measure the funded status of a plan as of the date of its year-end. Additional footnote disclosure is also required about certain effects on net periodic benefit cost for the next year that arise from the delayed recognition of gains or losses, prior service costs or credits, and transition asset or obligation. Except for the year-end measurement requirement, SFAS No. 158 is effective for the year ending December 31, 2006. The Company does not anticipate that the adoption of this statement will have a material effect on its financial condition or operations.

### **3. Cash and Cash Equivalents**

The Company has provided a term deposit of \$856,170 (2005 - \$479,500) as security for bank loans as described in note 7. These loans will mature in November and December 2006. As at Sept 30, 2006, the total loan outstanding was \$4,723,420 (2005 - \$5,274,500).

The Company has provided \$50,000 (2005 - \$50,000) as a guarantee for the royalty agreement as described in note 14b.

### **4. Inventory**

Inventory includes the following:

	<b>2006</b>	2005
Finished goods (net of inventory allowance of \$263,328 (2005 - \$689,038))	<b>\$ 559,575</b>	\$ 2,138,953
Work in progress (net of inventory allowance of \$327,804 (2005 - \$1,009,992))	<b>696,584</b>	1,067,443
Raw materials (net of inventory allowance of \$1,305,075 (2005 - \$500,664))	<b>3,153,337</b>	5,127,614
	<b><u>\$ 4,409,496</u></b>	<b><u>\$ 8,334,010</u></b>

### **7. Loans Payable - Current (cont'd)**

The current loans are payable monthly, interest only, and are secured as follows;

The Export - Import Bank of Korea loan of \$1,764,662 is guaranteed by the Korea Technology Credit Guarantee Fund up to \$927,518.

The Hanmi Bank loan of \$3,715,355 is guaranteed by the Korea Credit Guarantee Fund up to \$2,972,284 and a term deposit of \$539,070 as described in note 3.

The Shinhan Bank loan of \$421,153 is guaranteed by the Korea Technology Credit Guarantee Fund up to \$662,105.

The Korea Exchange Bank loan of \$1,661,115 is guaranteed by the Korea Technology Credit Guarantee Fund up to \$1,437,520.

The Hana Bank loan of \$294,723 is guaranteed by a second charge of the Company's land and building as described in note 5 with a carrying value of \$5,796,056.

The Jo Hung Bank loan of \$1,008,065 is guaranteed by a term deposit of \$317,100 as described in note 3.

Letters of Credit with Korea Exchange Bank is guaranteed by the Korea Credit Guaranteed Fund up to \$1,078,140.

The Industrial Bank of Korea loan of \$829,744 and the Jo Hung Bank loan of \$405,250 are unsecured.

### **8. Income Taxes**

The Company accounts for income taxes pursuant to SFAS No. 109, "Accounting for Income Taxes". This Standard prescribes the use of the liability method whereby deferred tax asset and liability account balances are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates. The effects of future changes in tax laws or rates are not anticipated. Corporate income tax rates applicable to the Korean subsidiary in 2006 and 2005 are 16.5% of the first 100 million Korean Won (\$84,000) of taxable income and 29.7 percent of the excess which was amended to 27.5% effective January 1, 2005, in accordance with the Corporate Income Tax Law enacted in 2004. The Company provided a valuation allowance equal to the deferred tax amounts resulting from the tax losses. Tax losses from the Korean subsidiary can be carried forward for five years to offset future taxable income. Deferred income taxes were calculated based on the lower enacted rate of 16.5%. The utilization of the losses expire in 2010.

**8. Income Taxes (cont'd)**

Under SFAS No. 109 income taxes are recognized for the following: a) amount of tax payable for the current year, and b) deferred tax liabilities and assets for future tax consequences of events that have been recognized differently in the financial statements than for tax purposes. The Company has deferred income tax assets arising from research and development expenses. For accounting purposes, these amounts are expenses when incurred. Under Korean tax laws, these amounts are deferred and amortized on a straight-line basis over 5 years.

The Company has deferred income tax liabilities as follows:

	2006	2005
Deferred income tax liabilities:		
Research and development expenses claimed in excess of accounting for tax purposes	\$ 515,192	\$ 464,171
Timing differences:		
Allowance for warranty provision	(38,114)	(9,827)
Allowance for severance accrual	(8,955)	(171,696)
Allowance for doubtful accounts receivable	(408,893)	(175,883)
Inventory provision	(136,105)	(219,157)
Other miscellaneous timing differences	(24,924)	115,464
Net operating loss carryforwards	(2,615,830)	(1,638,665)
	(2,717,629)	(1,635,593)
Valuation allowance for deferred income tax assets	2,717,629	1,635,593
	<u>\$ -</u>	<u>\$ -</u>

(Expressed in U.S. Dollars)

### **9. Convertible Notes**

Pursuant to SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" the Company accounts for the convertible debentures as a liability at face value and no formal accounting recognition is assigned to the value inherent in the conversion feature.

The Company issued \$2,000,000 in convertible notes and 2,000,000 warrants to purchase 2,000,000 shares of common stock (see note 12) for gross proceeds of \$2,000,000.

The convertible notes are outstanding as at September 30, 2006, are unsecured and bear interest at 8% per annum. The note holders have one year from the date of their agreements (the conversion date) to convert their notes into common stock of the Company.

There was no conversion during the quarter.

	<b>Conversion Price</b>	<b>Maturity date</b>	<b>Amount</b>
Convertible notes #1	\$ 0.50	05/01/2007	\$ 1,000,000
Convertible notes #2	0.50	06/09/2007	1,000,000
Total			<b><u>\$ 2,000,000</u></b>

At any time prior to the conversion date the Company completes a financing transaction that results in gross proceeds of at least \$5,000,000, the notes become redeemable and retractable at the conversion rate. If the Company issues shares of common stock below the conversion price, the conversion price will be reduced accordingly.

### **10. Retirement and Severance Benefits**

The Company's liability for severance pay is calculated pursuant to applicable labour laws in Korea. Severance payment will be the monthly average of the three most recent months' salary of the employees multiplied by the number of years of employment as of the balance sheet date for all employees. For the chief executive officer and the directors, the severance pay is two times and one and a half times the monthly average respectively. The Company's liability is fully accrued and reduced by monthly deposits into a severance pay fund with an insurance company.

### **11. Loans Payable - Long-Term**

The Industrial Bank of Korea loans are payable quarterly, interest only at 3.5% to 4.4% for the first three years of the term. Principal will be payable quarterly, commencing in 2007, for the balance of the term. The loans will mature March and May of 2012. The loans are guaranteed by a first charge on the land and building as described in note 5 with a carrying value of \$5,796,056.

Principal repayments of long-term debt is comprised as follows:

2007	\$ 442,439
2008	884,940
2009	884,940
2010	884,940
2011	884,940
2012	<u>562,901</u>
	<u>\$ 4,545,100</u>

### **12. Capital Stock**

**\$ 31,055** \$ 5,390

In accordance with a share exchange agreement dated July 12, 2005, the Company issued 23,305,000 common shares on October 4, 2005 to acquire 78.8% interest in S.Cam. As a result of the transaction the shareholders of S.Cam control 81% of the Company.

In October 2005 the Company issued 845,000 common shares for services valued at \$42,250.

In May 2006 the Company issued 1,165,250 common shares for services valued at \$116,525.

In August 2006 the Company issued 350,000 common shares for services valued at \$68,250.

## **SORELL, INC. AND THE SUBSIDIARY**

Notes to Consolidated Interim Financial Statements

September 30, 2006 and 2005

Unaudited

(Expressed in U.S. Dollars)

### **12. Capital Stock (cont'd)**

#### Stock Warrants and Options

In accordance with the bylaw, the Korean subsidiary may issue convertible bonds up to \$9,751,000 and bonds with stock warrants up to \$9,751,000, to individuals or companies other than shareholders. As of September 30, 2006, no bonds with stock warrants or convertible bonds have been issued by the subsidiary.

In accordance with the bylaw, the Korean subsidiary may grant stock options to its directors and employees up to 10% of its shares in accordance with the special resolution of shareholders' meeting (board of directors may grant up to 3% without the special resolution of shareholders' meeting). As of June 30, 2006, no stock options have been granted by the subsidiary.

On May 1, 2006 and June 9, 2006 the Company issued a total of 2,000,000 warrants to purchase up to 2,000,000 shares of common stock in conjunction with the issuance of convertible notes as described in note 9. The warrants are exercisable at a price of \$0.75 per share until five years from the date of issuance. If the Company issues shares pursuant to a financing agreement below the exercise price, the exercise price of the warrants will be reduced accordingly.

### **13. Retained Earnings**

Pursuant to the Korean tax laws, the Company is allowed to claim the amount of retained earnings appropriated for reserves for research and human resource development as deductions in its income tax return. These reserves are not available for the payment of dividends until used for the specified purposes or reversed. However, the reserves which are not deducted in its income tax return are available for the payment of dividends.

The Commercial Code of the Republic of Korea requires the Company to appropriate, as a legal reserve, an amount equal to a minimum of 10% of cash dividends paid until such reserve equals 50% of its issued capital stock. The reserve is not available for the payment of cash dividends, but may be transferred to capital stock or used to reduce accumulated deficit, if any, with the ratification by the Company's majority shareholders.

Included in retained earnings are reserves for \$2,230,348 (2005 - \$2,829,644) appropriated for tax purposes and \$46,829 (2005 - \$46,829) appropriated as a legal reserve regarding cash dividend.

(Expressed in U.S. Dollars)

### **14. Commitments**

- a) The Company is committed to lease obligations of its head office and employee residences, with varying expiring dates from November 2006 to November 2007. Future minimum annual payments (exclusive of taxes, insurance and maintenance costs) under these leases are as follows:

2006	<u>\$ 38,450</u>
------	------------------

- b) The Company has several licensing agreements for technologies that it acquired. The agreements require the Company to pay royalties in various flat and variable rates. The terms of these agreements range from one year to indefinite periods. During the quarter, the Company incurred approximately \$61,615 of royalty fees.

### **15. Contingent Liability**

The Company has been sued by three companies for damages for approximately \$2.4 million. In each case, the company has filed a counter claim. As at the quarter end, the outcome of the lawsuits can not be reasonably determined.

### **16. Major Customers**

For the period ended Sept 30, 2006, the Company had four major customers who accounted for 15%, 13% 11% and 10% of the total sales in the period.

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION**

### **FORWARD-LOOKING STATEMENTS**

The information in this Quarterly Report on Form 10-QSB contains forward-looking statements. All statements other than statements of historical fact made in this registration statement are forward looking. In particular, the statements herein regarding industry prospects and future results of operations or financial position are forward-looking statements. In many cases, you can identify forward-looking statements by terminology, such as "may," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential," or "continue" or the negative of such terms and other comparable terminology. Forward-looking statements reflect management's current expectations and are inherently uncertain. Known and unknown risks, uncertainties and other factors could cause our actual results to differ materially from those projected in any forward-looking statements.

The following discussion and analysis should be read in conjunction with the consolidated financial statements of Sorell, Inc. included herewith. This discussion should not be construed to imply that the results discussed herein will necessarily continue into the future, or that any conclusion reached herein will necessarily be indicative of actual operating results in the future. Such discussion represents only the best present assessment of our management.

### **GENERAL OVERVIEW**

We were established in October 1998 as a spin-off of the DVS production department from Samsung Electronics. That unit, which was responsible for producing Samsung camcorders, was born again as S-Cam Co., Ltd., which was responsible for manufacturing Samsung Electronics products as an Electronics Manufacturing Services provider.

From 2002 until recently, through our operating subsidiary S-Cam Co., Ltd., we invested in research to develop consumer electronic products such as MP3 players under our own brand name "Sorell."

### **GOING CONCERN**

Our consolidated financial statements are presented on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the ordinary course of business. We have experienced recurring losses since inception that raise substantial doubt as to our ability to continue as a going concern. For the nine months ended September 30, 2006, we generated \$14,058,430 in revenue and incurred a net loss of \$7,950,266. At September 30, 2006, we had a working capital deficiency of \$14,617,601 and an accumulated deficit of \$17,006,691. For the years ended December 31, 2005 and 2004, we generated revenue of \$41,619,260 and \$111,228,815, respectively, and incurred net losses of \$11,285,886 and \$760,040, respectively. Our ability to continue as a going concern is contingent upon our ability to secure additional financing when needed, continuing sales of our products and attaining profitable operations.

To secure higher efficiency of the operation, the Company is going through a substantial restructuring process which began during the third quarter of 2006. The restructuring process has and will encompass every corner of the Company including management from reductions in salary, reductions in the number of employees and the disposition of assets which are not urgently required for the Company. Also at the same time, Management continues to pursue various sources of capital financing in addition to seeking to increase its sales volume. The Company has been unable to secure additional financing needed to cover negative cash flows.

As a consequence, The company has discontinued the Korean local manufacturing service as of the end of September 2006 and now, S-Cam Co, Ltd., the Company's operating subsidiary, which is the Korean local manufacturing site, has entered into a liquidation process under Korean Law. Management of the company has been working to find alternative solutions to continue the operations since then, but there is no guaranty that the company will succeed in any such new operations.

## **CRITICAL ACCOUNTING POLICIES**

### **Revenue Recognition**

We generate revenues from sales of manufactured goods and merchandise, as well as subcontracted processing and assembly of goods. Revenues from products sales and processing are recognized, in accordance with Staff Accounting Bulletin No. 101, "Revenue Recognition in Financial Statements" ("SAB No. 101"), when delivery has occurred provided there is persuasive evidence of an agreement, the fee is fixed or determinable and collection of the related receivable is probable.

### **Provision for Warranty**

We account for estimated warranty costs relating to our "Sorell" brand products during the warranty period of one year. Estimated costs of product warrants are charged to current operations at the time of sale and are included in the balance sheet as part of accounts payable.

### **Currency Translation**

Our functional currency is Korean Won. Adjustments to translate these statements into U.S. dollars at the balance sheet date are recorded in other comprehensive income. Foreign currency transactions of the Korean operation have been translated to Korean Won at the rate prevailing at the time of the transactions. Balance sheet items recorded in foreign currencies have been translated to Korean Won at the year end rate. Realized foreign exchange gains and losses have been charged to income in the year realized.

### **Comprehensive Income**

We have adopted SFAS No. 130, "Reporting Comprehensive Income." SFAS No. 130 establishes the standards for reporting and presentation of comprehensive income and its components in a full set of financial statements. Comprehensive income is presented in the

statements of stockholders' deficit, and consists of net income and unrealized gains (losses) on: available-for-sale, marketable securities; foreign currency translation adjustments and changes in market value of future contracts that qualify as a hedge; and negative equity adjustments recognized in accordance with SFAS No. 87. SFAS No. 130 requires only additional disclosures in the financial statements and does not affect our financial position or results of operations.

## **Properties and Equipment**

We state properties and equipment at cost. We capitalize major renewals and betterments, and expense the costs of repairs and maintenance as they are incurred. We compute depreciation according to the following recovery periods and depreciation methods:

Buildings	40 years	Straight line
Leasehold improvements	2 years	Straight line
Machinery	6 years	Declining balance
Tools and equipment	6 years	Declining balance
Vehicles	6 years	Declining balance
Furniture and fixtures	6 years	Declining balance

## **Inventories**

We state inventories at the lower of cost or net realizable value. Net realizable value is selling price minus selling expenses.

The cost of inventories is determined on the weighted average method, except for materials-in-transit for which the specific identification method is used.

## **Investments**

Investments in available-for-sale securities are recorded in accordance with SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities". Equity securities that are not held principally for the purpose of selling in the near term are reported at fair market value with unrealized holding gains and losses excluded from earnings and reported as a separate component of stockholders' equity.

## **Financial Instruments**

The fair values of cash equivalents, short-term and long-term investments, and short-term debt are their approximate costs. The estimated fair values of other financial instruments, including debt, equity and risk management instruments, have been determined using market information and valuation methodologies, primarily discounted cash flow analysis. These estimates require considerable judgment in interpreting market data, and changes in assumptions or estimation methods could significantly affect the fair value estimates.

## **Recent Accounting Pronouncements**

In February 2006, the Financial Accounting Standards Board (“FASB”) issued SFAS No. 155, “Accounting for Certain Hybrid Financial Instruments—an amendment of FASB Statements No. 133 and 140” (“SFAS No. 155”). This Statement permits fair value of remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation; clarifies which interest only strips and principal only strips are not subject to the requirements of SFAS No. 133, “Accounting for Derivative Instruments and Hedging Activities”; establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation; clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives; and amended SFAS No. 140, “Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities,” to eliminate the prohibition on a qualifying special purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. SFAS No. 155 is effective for all financial instruments acquired, issued, or subject to a remeasurement (new basis) event occurring after the beginning of an entity’s first fiscal year that begins after September 15, 2006. We are currently reviewing the effect, if any, the proposed guidance will have on our consolidated financial statements.

In March 2006, FASB issued SFAS No. 156, "Accounting for Servicing of Financial Assets which amends FAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities" ("SFAS No. 156"). In a significant change to current guidance, SFAS No. 156 permits an entity to choose either of the following subsequent measurement methods for each class of separately recognized servicing assets and servicing liabilities: (1) Amortization Method or (2) Fair Value Measurement Method. SFAS No. 156 is effective as of the beginning of an entity’s first fiscal year that begins after September 15, 2006. We are currently reviewing the effect, if any, the proposed guidance will have on our financial position.

In June 2006 FASB issued Financial Accounting Standards Interpretation No. 48, “Accounting for Uncertainty in Income Taxes” (“FIN 48”). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprises’ financial statements in accordance with SFAS No. 109, “Accounting for Income Taxes” ("SFAS No. 109"). FIN 48 prescribes a recognition threshold and measurement attributable for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosures and transitions. FIN 48 is effective for fiscal years beginning after December 15, 2006. We are currently reviewing the effect, if any, FIN 48 will have on our financial position.

In September 2006, the Securities and Exchange Commission (“SEC”) staff issued Staff Accounting Bulletin No. 108, “Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements” (“SAB No. 108”). SAB No. 108 was issued to provide consistency in how registrants quantify financial statement misstatements. We are required to and will initially apply SAB No. 108 in connection with the

preparation of our annual financial statements for the year ending December 31, 2006. We do not expect the application of SAB No. 108 to have a material effect on our financial position and results of operations.

In September 2006, FASB issued SFAS No. 157, "Fair Value Measurements," which is effective for calendar year companies on January 1, 2008. The statement defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and expands disclosures about fair value measurements. The statement codifies the definition of fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The standard clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. We are currently assessing the potential impacts of implementing this standard.

In September 2006, the FASB issued SFAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106 and 132 (R)" ("SFAS No. 158"). SFAS 158 requires an employer to recognize the funded status of a defined benefit postretirement plan as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. The funded status of a benefit plan is defined as the difference between the fair value of the plan assets and the plans benefit obligation.

## **RESULTS OF OPERATIONS**

### **NINE MONTHS ENDED SEPTEMBER 30, 2006 COMPARED TO NINE MONTHS ENDED SEPTEMBER 30, 2005**

We are providing comparisons between historical periods for the nine months ended September 30, 2006 and 2005. Please note, however, that effective September 30, 2006 the Company's operating subsidiary, S-Cam Co., Ltd., has entered into a liquidation process under Korean law and the Company is seeking alternatives for its operations. As a consequence, the results may not be meaningful for future operations.

Total revenues in the nine months ended September 30, 2006 were \$14,058,430 compared to \$29,110,044 for the nine months ended September 30, 2005. For the nine months ended September 30, 2006, we reported a net loss of \$7,950,266 compared to a net loss in the comparable quarter of 2005 of \$9,171,248.

The reduction in revenues during this period is attributable to our planned reduction of our Electronic Manufacturing Services business. In addition, we were completing the preparation and production of a new product line which we began to release only in April 2006.

Cost of sales decreased immaterially from \$3,629,730 in the nine months ended September 30, 2005 from \$3,403,105 in the nine months ended September 30, 2006. The

company had anticipated a higher decrease from the substantial reduction of our Electronic Manufacturing Services business.

Our operating expenses decreased by \$1,331,566 to \$7,770,377 in the nine months ended September 30, 2006 from \$9,101,943 in the nine months ended September 30, 2005 again primarily as a result of the reduction in revenues attributable to our change in the Electronic Manufacturing Services business.

Our net loss decreased \$1,220,982 to \$7,950,258 or a loss of \$0.26 loss per common share for the nine months ended June 30, 2006, from a net loss of \$9,171,248, or \$1.70 loss per common share, for the nine months ended September 30, 2005. This reduction in loss per share is attributable to our focus on changing on business to a more profitable overall operation through sale of our own branded products as well as a substantial increase in shares during the period.

## **LIQUIDITY AND CAPITAL RESOURCES**

We have historically participated in several extremely competitive markets, including GPS Navigation with Digital Mobile broadcasting system (DMB), Mp3 production and some EMS business. The Company anticipates that it's operation focus will be on GPS Navigation

As a major business. Mobile Digital Multimedia Broadcasting (DMB) market was planned to be expanded into the Korean national market by the end of 2006, which could potentially have increased the national consumption by double. Currently, however, the nationalized service system is not yet adopted. We expects that sometime in the middle of 2007 this broadcasting system will be operated in nationwide in Korea.

Total market demand for GPS Navigation products has increased. In order to effectively compete with our competitors, we have to respond to price competition by lowering prices or increasing features which could adversely affect our gross margin. At the same time, we will have to invest more capital in research and development and marketing and advertising to remain competitive.

To secure higher efficiency of the operation, the Company is going through a substantial restructuring process which began during the third quarter of 2006. The restructuring process has and will encompass every corner of of the Company including management from reductions in salary, reductions in the number of employees and the disposition of assets which are not urgently required for the Company. Also at the same time, Management continues to pursue various sources of capital financing in addition to seeking to increase its sales volume. The Company has been unable to secure additional financing needed to cover negative cash flows.

As a consequence, The company has discontinued the Korean local manufacturing service as of the end of September 2006 and now, S-Cam Co, Ltd., the Company's operating subsidiary, which is the Korean local manufacturing site, has entered into a liquidation process under Korean Law. Management of the company has been working to find alternative solutions

to continue the operations since then, but there is no guaranty that the company will succeed in any such new operations.

### **Current Loans Payable**

As with most manufacturing operations, we are dependent on substantial bank loans to support our equipment, plants and other operations. At June 30, 2006, these loans consisted of \$25,430,307 of current loans payable and \$4,532,200 of long term loans payable, compared to \$17,403,182 of current loans payable and \$4,415,664 of long term loans payable at June 30, 2005.

Our current loans payable for September 30, 2006 and September 30, 2005 are as follows:

<b>Bank Name</b>	<b>Interest</b>	<b>Maturity Date</b>	<b>2006</b>	<b>2005</b>
Industrial Bank of Korea	5.90%	October 20, 2006	\$ 829,744	\$ 613,760
The Export - Import Bank of Korea	Libor+1.17%	November 18, 2006	1,764,662	1,822,100
Hanmi Bank	6.95%	November 29, 2006	3,715,355	4,123,700
Shinhan Bank	6.5%	November 4, 2006	421,153	1,016,732
Korea Exchange Bank	5.93%	October 20, 2006	1,661,115	1,195,279
Hana Bank	7%	December 21, 2006	294,723	959,000
Jo Hung Bank	6.5%	November 4, 2006	405,250	1,150,800
Jo Hung Bank	6.00%	December 26, 2006	1,008,065	-
Letters of Credit			581,477	874,122
			<b>\$ 10,681,544</b>	<b>\$ 11,755,493</b>

The current loans are payable monthly, interest only, and are secured as follows;

The Export - Import Bank of Korea loan of \$1,764,662 is guaranteed by the Korea Technology Credit Guarantee Fund up to \$927,518.

The Hanmi Bank loan of \$3,715,355 is guaranteed by the Korea Credit Guarantee Fund up to \$2,972,284 and a term deposit of \$539,070 as described in note 3 to our Financial Statements.

The Shinhan Bank loan of \$421,153 is guaranteed by the Korea Technology Credit Guarantee Fund up to \$662,105.

The Korea Exchange Bank loan of \$1,661,115 is guaranteed by the Korea Technology Credit Guarantee Fund up to \$1,437,520.

The Hana Bank loan of \$294,723 is guaranteed by a second charge of the Company's land and building as described in note 5 to our Financial Statements with a carrying value of \$5,796,056.

The Jo Hung Bank loan of \$1,008,065 is guaranteed by a term deposit of \$317,100 as described in note 3 to our Financial Statements.

Letters of Credit with Korea Exchange Bank is guaranteed by the Korea Credit Guaranteed Fund up to \$1,078,140.

The Industrial Bank of Korea loan of \$829,744 and the Jo Hung Bank loan of \$405,250 are unsecured.

### **Long Term Loans Payable**

We have one long term loan payable at September 30, 2006 with Industrial Bank of Korea.

The Industrial Bank of Korea loans are payable quarterly, interest only at 3.5% to 4.4% for the first three years of the term. Principal will be payable quarterly, commencing in 2007, for the balance of the term. The loans will mature March and May of 2012. The loans are guaranteed by a first charge on the land and building as described in note 5 to our Financial Statements with a carrying value of \$5,796,056.

Principal repayments of long term debt is comprised as follows:

2007	\$ 442,439
2008	884,940
2009	884,940
2010	884,940
2011	884,940
2012	<u>562,901</u>
	\$ 4,545,100

### **June 2006 Private Placement**

On June 9, 2006, we entered into a Securities Purchase Agreement with 23 accredited investors and sold to such accredited investors: (i) \$1,000,000 principal amount of senior convertible notes; and (ii) warrants to purchase up to 2,000,000 shares of common stock, resulting in gross proceeds of \$1,000,000. The sale of the senior convertible notes and warrants was exempt from registration requirements pursuant to Section 4(2) of the Securities Act of 1933, as amended, and Rule 506 promulgated thereunder.

The senior convertible notes bear interest at 8% per annum payable quarterly, they mature one year from the date of issuance and are convertible into shares of our common stock at the investors' option at \$0.50 per share, subject to adjustment. If after the subscription date we complete a financing transaction that results in gross proceeds of at least \$5,000,000, then we are required to promptly deliver written notice thereof to the holders of the senior convertible notes and the holders may thereafter require us to redeem the senior convertible notes. If at any time after the subscription date we complete a financing transaction that results in gross proceeds of at least \$5,000,000 and the holders of the senior convertible notes do not require us to redeem the Notes, we have the right to require the holders to convert all of their senior convertible notes into common stock at the then applicable conversion rate.

If we issue shares of common stock below the then applicable conversion price, the exercise price of the senior convertible notes will be reduced accordingly. The conversion price of the senior convertible notes also will be adjusted if we pay a stock dividend, subdivide or combine outstanding shares of common stock into a greater or lesser number of shares, or take such other actions as would otherwise result in dilution of the holders' position. Interest may be paid with shares of common stock at our option based on 90% of the dollar volume weighted average price of our common stock on each of the 30 consecutive trading days immediately preceding the applicable interest payment due date.

The warrants are exercisable at a price of \$0.75 per share until five years from the date of issuance. The investors may exercise the warrants on a cashless basis if the shares of common stock underlying the warrants are not then registered for sale pursuant to an effective registration statement. We may call the outstanding warrants if: (a) the weighted average price per share of common stock has been greater than \$2.50 for a period of 15 consecutive trading days immediately prior to the date of delivery of a call notice (the "Call Notice Period"); (b) the daily trading volume of the common stock has been greater than 50,000 shares on each trading day during the Call Notice Period; (c) trading in the common stock has not been suspended; and (d) we are in material compliance with the terms and conditions of the warrants and the other transaction documents.

If we issue shares of common stock below the then applicable exercise price, the exercise price of the warrants will be reduced accordingly. The exercise price of the warrants also will be adjusted if we pay a stock dividend, subdivide or combine outstanding shares of common stock into a greater or lesser number of shares, or take such other actions as would otherwise result in dilution of the holders' position. Upon each such adjustment of the exercise price, the number shares of common stock issuable upon exercise of the warrants will be adjusted determined by multiplying the exercise price in effect immediately prior to such adjustment by the number of shares issuable upon exercise of the warrants immediately prior to such adjustment and dividing the product thereof by the exercise price resulting from such adjustment.

The investors have agreed to restrict their ability to convert their senior convertible notes and exercise their warrants such that the number of shares of common stock held by them in the aggregate and their affiliates after such conversion or exercise does not exceed 4.99% of our then issued and outstanding shares of common stock.

We were required to file a registration statement with the Securities and Exchange Commission within 30 days of closing to register the sale of the common stock issuable upon conversion of the senior convertible notes and exercise of the warrants. The registration statement was filed and has been declared effective by the SEC.

New York Global Securities, Inc. and its agents acted as placement agent in connection with the sale of the senior convertible notes and related warrants and, together with its agents, was paid cash compensation of \$120,000 (12% of the gross proceeds from the closing), and, together with its agents, was issued placement agent warrants to purchase 400,000 shares of common stock exercisable at \$0.50 per share until two years after the closing.

We have agreed with the investors to pay interest payments due on these Convertible Debentures in shares of common stock. These shares were not issued as of September 30, 2006.

### **May 2006 Private Placement**

On May 1, 2006, we entered into a Securities Purchase Agreement with four accredited investors and sold to such accredited investors: (i) \$1,000,000 principal amount of senior convertible notes; and (ii) warrants to purchase up to 2,000,000 shares of common stock, resulting in gross proceeds of \$1,000,000. The sale of the senior convertible notes and warrants

was exempt from registration requirements pursuant to Section 4(2) of the Securities Act of 1933, as amended, and Rule 506 promulgated thereunder.

The senior convertible notes bear interest at 8% per annum payable quarterly, they mature one year from the date of issuance and are convertible into shares of our common stock at the investors' option at \$0.50 per share, subject to adjustment. If after the subscription date we complete a financing transaction that results in gross proceeds of at least \$5,000,000, then we are required to promptly deliver written notice thereof to the holders of the senior convertible notes and the holders may thereafter require us to redeem the senior convertible notes. If at any time after the subscription date we complete a financing transaction that results in gross proceeds of at least \$5,000,000 and the holders of the senior convertible notes do not require us to redeem the Notes, we have the right to require the holders to convert all of their senior convertible notes into common stock at the then applicable conversion rate.

If we issue shares of common stock below the then applicable conversion price, the exercise price of the senior convertible notes will be reduced accordingly. The conversion price of the senior convertible notes also will be adjusted if we pay a stock dividend, subdivide or combine outstanding shares of common stock into a greater or lesser number of shares, or take such other actions as would otherwise result in dilution of the holders' position. Interest may be paid with shares of common stock at our option based on 90% of the dollar volume weighted average price of our common stock on each of the 30 consecutive trading days immediately preceding the applicable interest payment due date.

The warrants are exercisable at a price of \$0.75 per share until five years from the date of issuance. The investors may exercise the warrants on a cashless basis if the shares of common stock underlying the warrants are not then registered for sale pursuant to an effective registration statement. We may call the outstanding warrants if: (a) the weighted average price per share of common stock has been greater than \$2.50 for a period of 15 consecutive trading days immediately prior to the date of delivery of a call notice (the "Call Notice Period"); (b) the daily trading volume of the common stock has been greater than 50,000 shares on each trading day during the Call Notice Period; (c) trading in the common stock has not been suspended; and (d) we are in material compliance with the terms and conditions of the warrants and the other transaction documents.

If we issue shares of common stock below the then applicable exercise price, the exercise price of the warrants will be reduced accordingly. The exercise price of the warrants also will be adjusted if we pay a stock dividend, subdivide or combine outstanding shares of common stock into a greater or lesser number of shares, or take such other actions as would otherwise result in dilution of the holders' position. Upon each such adjustment of the exercise price, the number shares of common stock issuable upon exercise of the warrants will be adjusted determined by multiplying the exercise price in effect immediately prior to such adjustment by the number of shares issuable upon exercise of the warrants immediately prior to such adjustment and dividing the product thereof by the exercise price resulting from such adjustment.

The investors have agreed to restrict their ability to convert their senior convertible notes and exercise their warrants such that the number of shares of common stock held by them in the

aggregate and their affiliates after such conversion or exercise does not exceed 4.99% of our then issued and outstanding shares of common stock.

We were required to file a registration statement with the Securities and Exchange Commission within 30 days of closing to register the sale of the common stock issuable upon conversion of the senior convertible notes and exercise of the warrants. The registration statement was filed and has been declared effective by the SEC.

New York Global Securities, Inc. and its agents acted as placement agent in connection with the sale of the senior convertible notes and related warrants and, together with its agents, was paid cash compensation of \$120,000 (12% of the gross proceeds from the closing), and, together with its agents, was issued placement agent warrants to purchase 400,000 shares of common stock exercisable at \$0.50 per share until two years after the closing.

We have agreed with the investors to pay interest payments due on these Convertible Debentures in shares of common stock. These shares were not issued as of September 30, 2006.

### **ITEM 3. CONTROLS AND PROCEDURES**

As required by Rule 13a-15 under the Securities Exchange Act of 1934 (the "Exchange Act"), as of September 30, 2006, the Company carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures. This evaluation was carried out under the supervision and with the participation of the Company's management, including the Company's Chairman (who has served as the principal financial and accounting officer) and its President and CEO (who serves as the principal operating officer). Based upon that evaluation, the Company's Chairman and President have concluded that the Company's disclosure controls and procedures are effective in alerting them to material information regarding the Company's financial statement and disclosure obligation in order to allow the Company to meet its reporting requirements under the Exchange Act in a timely manner.

The Company's management, with the participation of its chief executive officer and chief financial officer, has determined that there has been no change in the Company's internal control over financial reporting that occurred during the Company's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

## **PART II – OTHER INFORMATION**

### **ITEM 1. LEGAL PROCEEDINGS**

*Miracle Progress International against S-Cam Co., Ltd. and TNP telecom.*

Plaintiff Miracle Progress International filed in the Seoul District Court in Korea alleging compensation for damages amounting to USD \$2,000,000 against S-Cam Ltd and TNP Telecom. The three companies entered into an agreement to launch a GSM phone business on which the Company is in charge of manufacturing, and TNP telecom is in charge of design and development, with the Plaintiff charged with marketing. Plaintiff claims damages in marketing and sales because of quality defects in manufacturing. The Company asserted the defect was the result from the design, not quality control. The final decision has not been made. The Company is vigorously defending this lawsuit.

*TNP Telecom against S-Cam Co., Ltd. and Miracle Progress International*

Plaintiff TNP Telecom filed in the Seoul District Court in Korea region alleging compensation for the development cost of a GSM phone design amounting to USD \$200,000 against S-Cam Ltd and Miracle Progress International. The Company has asserted that the design and development of Plaintiff caused the defect of products and ruined the business. The final decision has not been made. The Company is vigorously defending this lawsuit.

*Information Tele-communication Company ("ITC") against S-Cam Co., Ltd.*

Plaintiff Information Tele-communication Company filed in the Suwon District Court in Korea alleging compensation for damages amounting to USD \$221,932 against the Company. Plaintiff claimed the Company did not purchase parts after placing the order. The company asserted the Plaintiff did not keep the delivery date and payment condition was Letter of Credit. The final decision has not been made. The Company is vigorously defending this lawsuit.

### **ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

In August 2006 the Company issued 300,000 shares of common stock to a consultant. These shares were issued without public offering in reliance on Section 4(2) of the Securities Act of 1933, as amended.

In August 2006 the Company issued 50,000 shares to an accredited investor as a finders fee in connection with the company's convertible debentures. These shares were issued without public offering in reliance on Section 4(2) of the Securities Act of 1933, as amended.

### **ITEM 3. DEFAULTS UPON SENIOR SECURITIES**

The Company is presently technically in default in connection with the issuance of shares of common stock as interest on its Convertible Debentures issued on May 1, 2006 and June 9, 2006.

The Company and the debenture holders have agreed to issue common shares with respect to such interest.

**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

None.

## ITEM 5. OTHER INFORMATION

Not Applicable.

## ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

(a) Exhibit Index. The following exhibits are filed with or incorporated by reference into this quarterly report:

Exhibit Number	Description
3.1	Articles of Incorporation of Powertech, Inc. (incorporated by reference to the Company's Registration Statement on Form 10-SB, file number 0-27675, filed on October 15, 1999).
3.2	Articles of Amendment to Articles of Incorporation changing name to Netmeasure Technology, Inc. (incorporated by reference to the Company's Registration Statement on Form 10-SB, file number 0-27675, filed on October 15, 1999).
3.3	Articles of Amendment to Articles of Incorporation of Netmeasure Technology, Inc. changing name to Sorell, Inc. (incorporated by reference to the Company's Form 10-KSB/A, filed on June 14, 2006).
3.5	By-laws (incorporated by reference to the Company's Registration Statement on Form 10-SB, file number 0-27675, filed on October 15, 1999).
4.1	Form of Senior Convertible Note (incorporated by reference to the Company's Current Report on Form 8-K, filed on May 4, 2006).
4.2	Form of \$0.75 Warrant (incorporated by reference to the Company's Current Report on Form 8-K, filed on May 4, 2006).
10.1	Reorganization and Stock Purchase Agreement dated as of July 12, 2005 between the Company (then Netmeasure Technology, Inc.) and S-Cam Co., Ltd. (incorporated by reference to the Company's Form 8-K, filed on October 11, 2005).
10.2	Mutual Nondisclosure Agreement and Business Agreement dated as of September 21, 2005 between S-Cam Co., Ltd. and ANUBIS Electronic GmbH (incorporated by reference to the Company's Form 10-KSB/A, filed on August 3, 2006)
10.3	Public Relations Agreement dated as of November 1, 2005 between the Company and Martin E. Janis & Company (incorporated by reference to the Company's Form 10-KSB/A, filed on August 3, 2006)
10.4	Letter Agreement dated February 2, 2006 between the Company and New York Global Securities (incorporated by reference to the Company's Form 10-KSB/A, filed on August 3, 2006)
10.5	Pro Forma Invoice and Sales Agreement dated July 6, 2006 between S-Cam Co., Ltd. and Creative Technology, Ltd. (incorporated by reference to the Company's Form 10-KSB/A, filed on June 14, 2006).
10.6	License Agreement dated February 4, 2005 between S-Cam Co., Ltd and Ingenient Technologies (incorporated by reference to the Company's Form 10-KSB/A, filed on June 14, 2006).
10.7	License Agreement dated May 12, 2005 between S-Cam Co., Ltd. and Sisvel (incorporated by reference to the Company's Form 10-KSB/A, filed on June 14, 2006).
10.8	License Agreement dated August 1, 2005 between S-Cam Co., Ltd and Microsoft Corporation (incorporated by reference to the Company's Form 10-KSB/A, filed on August 3, 2006)

## EXHIBIT 31.1

Certification by Bon Kwan Koo, President and Chief Executive Officer of Sorell, Inc.

I, Bon Kwan Koo, certify that:

1. I have reviewed this report on Form 10-QSB of Sorell, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the small business issuer as of, and for, the periods presented in this report;
4. The small business issuer's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the small business issuer and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures; as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting.
5. The small business issuer's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the small business issuer's auditors and the audit committee of small business issuer's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal control over financial reporting.
