The Company currently has no commitments or plans for the issuance of any shares of common stock or preferred stock. This Information Statement is being furnished to the shareholders of record of our common stock, par value \$.001 per share, on the record date as determined by our board of directors to be the close of business on July 10, 2008.

Our board of directors approved the amendments to our Articles of Incorporation to increase our authorized common stock from 500,000,000 shares to 800,000,000 shares, to authorize a new class of 5,000,000 shares of preferred stock and to effect a 1 for 500 reverse stock split of our outstanding common stock on February 28, 2008. Our Company thereafter received the written consent from shareholders of our company holding a majority of the outstanding shares of our common stock on February 29, 2008. Upon the expiration of the 20 day period required by Rule 14c-2 and in accordance with the provisions of the Chapter 78, Nevada Revised Statutes, our Company intends to file a Certificate of Amendment to our Articles of Incorporation to effect the amendments to increase our authorized common stock, to authorize the new class of preferred stock and to effect a 1 for 500 reverse stock split of our outstanding common stock. The Certificate of Amendment will not be filed until at least 20 days after we file the Information Statement with the Securities and Exchange Commission and deliver the Information Statement to our shareholders of record.

The proposed Certificate of Amendment, attached hereto as Appendix A, will become effective when it has been accepted for filing by the Secretary of State of the State of Nevada. We anticipate that our Company will file the Certificate of Amendment 20 days after the Definitive Information Statement is first mailed to our shareholders.

The entire cost of furnishing this Information Statement will be borne by our Company. We will request brokerage houses, nominees, custodians,

fiduciaries and other like parties to forward this Information Statement to the beneficial owners of our common stock held on the record date.

Our board of directors has fixed the close of business on July 10, 2008, as the record date for determining the holders of our common stock who are entitled to receive this Information Statement. As of August 22, 2008, there were 487,990,256 shares of our common stock issued and outstanding. AMENDMENTS TO OUR COMPANY'S ARTICLES

Increase in Authorized Common Stock

The Board of Directors of the Company on February 28, 2008, adopted a resolution approving and recommending to the Company's stockholders for their approval an amendment to the Company's Articles of Incorporation to provide for an increase of the number of shares of common stock that the Company is authorized to issue from 500,000,000 to 800,000,000.

The Board of Directors recommends the proposed increase in the authorized number of shares of common stock to insure that a sufficient number of authorized and unissued shares is available (i) for the outstanding warrants, options and convertible debt, availability of the full number of shares so reserved being subject to approval of this amendment; (ii) to raise additional capital for the operations of the Company; and (iii) to make options and shares available to employees, future non-employee directors and consultants of the Company as an incentive for services provided to the Company. The Company has outstanding \$453,480 principal amount of 6% convertible debentures due February, 2011. These debentures are convertible at a 25% discount from market. The increase in authorized shares was additionally viewed as advisable by the Board of Directors to ensure that the Company does not default under such debentures, which require a 300% conversion coverage ratio in authorized but unissued shares reserved for that purpose.

Such additional authorized shares would be available for issuance by the Board of Directors of the Company without further action by the stockholders, unless required by the Company's Articles of Incorporation or by the laws of the State of Nevada. Neither the presently authorized shares of common stock nor the additional shares of common stock that may be authorized pursuant to the proposed amendment carry preemptive rights.

As of August 22, 2008, with 500,000,000 shares of common stock authorized, we had 487,990,256 shares of common stock issued and outstanding. Therefore, as of August 22, 2008, we have only 12,009,744 shares available for issuance upon debt conversions and grant of future options or for other corporate purposes. Moreover, approval of this amendment, in conjunction with the reverse stock split, will be necessary for us to be able to issue the full number of shares reserved for outstanding warrants, options and convertible debt and to ensure that we are not placed in a default situation with our outstanding 6% convertible debentures. There are currently no set plans or arrangements relating to the possible issuance of any additional shares of common stock proposed to be authorized.

The additional shares of common stock, if issued, would have a dilutive effect upon the percentage of equity of the Company owned by present stockholders. The issuance of such additional shares of common stock might be disadvantageous to current stockholders in that any additional issuances would potentially reduce per share dividends, if any. Stockholders should consider, however, that the possible impact upon dividends is likely to be minimal in view of the fact that the Company has never paid dividends, has never adopted any policy with respect to the payment of dividends and does not intend to pay any cash dividends in the foreseeable future. In addition, the issuance of such additional shares of common stock, by reducing the percentage of equity of the Company owned by present stockholders, would reduce such present stockholders' ability to influence the election of

directors or any other action taken by the holders of common stock.

Authorization of New Class of Preferred Stock

The Board of Directors of the Company on February 28, 2008, adopted a resolution unanimously approving and recommending to the Company's stockholders for their approval an amendment to the Company's Articles of Incorporation to authorize a new class of 5,000,000 shares of preferred stock, par value \$.001 per share, and to authorize the Board of Directors to issue one or more series of the preferred stock with such designations, rights, preferences, limitations and/or restrictions as it should determine by vote of a majority of such directors. The Company's Articles of Incorporation currently only permits the Company to issue shares of common stock. This, the Company believes, has limited the Company's flexibility in seeking additional working capital. The Board of Directors has recommended that the Articles of Incorporation be amended to authorize a class of 5,000,000 shares of preferred stock and to allow the Board of Directors of the Company the widest possible flexibility in setting the terms of preferred stock that may be issued in the future. The Company will, therefore, be afforded the greatest flexibility possible in seeking additional financing, as the Board of Directors deems appropriate in the exercise of its reasonable business judgment. The Company currently has no commitments or plans for the issuance of any shares of preferred stock.

Under our Articles of Incorporation as amended by this amendment, the Board of Directors will have the right, without further stockholder approval or action, to issue up to 5,000,000 shares of preferred stock, having such rights and preferences, including voting rights, as the Board of Directors may determine. The ability of the Company to issue such shares of preferred stock may, under certain circumstances, make it more difficult for a third party to gain control of the Company (e.g., by means of a tender offer), prevent or substantially delay such a change of control, discourage bids for the common stock at a premium, or otherwise adversely affect the market price of the common stock.

Reverse Split of Outstanding Common Stock

The Board of Directors of the Company on February 28, 2008, adopted a resolution approving and recommending to the Company's stockholders for their approval an amendment to the Company's Articles of Incorporation to effect a 1 for 500 reverse stock split of our outstanding common stock. The reverse stock split, when implemented, will not change the number of authorized shares of common stock or the par value of the common stock. Except for any changes as a result of the treatment of fractional shares, each stockholder who owns 500 or more shares will hold the same percentage of common stock outstanding immediately following the reverse stock split as the stockholder did immediately prior to the reverse stock split.

At February 28, 2008, we had 487,990,256 shares of our common stock issued and outstanding. The amendment for the reverse stock split provides that each five hundred (500) shares of our common stock outstanding immediately prior to the Effective Date of the Amendments (the "Old Shares") will be automatically converted into one (1) share of our common stock (the "New Shares"), thereby reducing the number of outstanding shares of our common stock to approximately 975,981 shares, subject to rounding or the issuance of additional shares of our common stock. The Amendment does not change the par value of our common stock or the number of shares of our

common stock authorized for issuance. Upon effectiveness of the amendments proposed herein (the "Effective Date of the Amendments"), including the reverse stock split and the increase in authorized common stock to 800,000,000 shares, we will have 800,000,000 shares of common stock authorized for issuance. We have no present intention, however, to issue any additional shares of our common stock before the Effective Date of the Amendments.

Purpose and Effect of Reverse Split Amendment.

Our common stock is currently quoted on the over-the-counter Pink Sheets market under the symbol "ILVG.PK" On August 22, 2008, the last sale price of our common stock was \$0.0001 per share. Our Board of Directors believes that our relatively low per-share market price of our common stock impairs the acceptability of our common stock to potential acquisition candidates and certain members of the investing public, including institutional investors, as well as adversely affecting our ability to raise additional working capital.

For these reasons our Board of Directors has chosen to adopt and recommend the Amendment for the reverse stock split. We are not, however, a party to any binding agreement, acquisition agreement or agreement to raise additional working capital, nor can we be certain that the reverse stock split will have a long-term positive effect on the market price of our common stock, or increase our abilities to enter into acquisition or financing arrangements in the future.

The market price of our common stock is also based on factors which may be unrelated to the number of shares outstanding. These factors include our performance, general economic and market conditions and other factors, many of which are beyond our control. The market price per new share of the New Shares may not rise or remain constant in proportion to the reduction in the number of Old Shares outstanding before the reverse stock split. Accordingly, the total market capitalization of common stock after the reverse stock split may be lower than the total market capitalization before the reverse stock split. In the future, the market price of common stock following the reverse stock split may not equal or exceed the market price prior to the reverse stock split.

The reverse stock split will affect all of the holders of our common stock uniformly. Any fractional shares existing as a result of the reverse stock split shall be rounded to the next higher whole number to those stockholders who are entitled to receive them as a consequence of the reverse stock split. On the Effective Date of the Amendments, each stockholder will own a reduced number of shares of our common stock, but will hold the same percentage of the outstanding shares as the stockholder held prior to the Effective Date of the Amendments.

The liquidity of our common stock may be adversely affected by the reduced number of shares outstanding after the reverse stock split. In addition, the split will increase the number of stockholders who own odd-lots. An odd-lot is fewer than 100 shares. Such stockholders may experience an increase in the cost of selling their shares and may have greater difficulty in making sales.

The reverse stock split will not affect the par value of our common stock. As a result, on the Effective Date of the Amendments, the stated

capital on our balance sheet attributable to our common stock will be reduced in proportion with the reverse stock split and our additional paid-in capital account will be credited with the amount by which the stated capital is reduced. These accounting entries will have no impact on total stockholders' equity. All share and per share information will be retroactively adjusted following the Effective Date of the Amendments to reflect the reverse stock split for all periods presented in future filings.

The reverse stock split will have the following effects upon our common stock:

- The number of shares owned by each holder of common stock will be reduced five-hundred fold;
- The number of shares of our common stock which will be issued and outstanding after the reverse stock split will be reduced from 487,990,256 shares to approximately 975,981 shares;
- The per share loss and net book value of our common stock will be increased because there will be a lesser number of shares of our common stock outstanding;
- The par value of the common stock will remain \$0.001 per share;
- The stated capital on our balance sheet attributable to the common stock will be decreased 500 times its present amount and the additional paid-in capital account will be credited with the amount by which the stated capital is decreased; and
- All outstanding options, warrants, and convertible securities entitling the holders thereof to purchase shares of common stock will enable such holders to purchase, upon exercise thereof, 500 times fewer of the number of shares of common stock which such holders would have been able to purchase upon exercise thereof immediately preceding the reverse stock split, at the same aggregate price required to be paid therefor upon exercise thereof immediately preceding the reverse stock split.

The shares of common stock after the reverse stock split will be fully paid and non-assessable. The amendments will not change any of the other the terms of our common stock. The shares of common stock after the reverse stock split will have the same voting rights and rights to dividends and distributions and will be identical in all other respects to the shares of common stock prior to the reverse stock split.

Because the number of authorized shares of our common stock will not be reduced by reason of the reverse stock split, an overall effect of the reverse split of the outstanding common stock, together with the amendment increasing our authorized common stock to 800,000,000 shares, will be a substantial increase in authorized but unissued shares of our common stock. These shares may be issued by our Board of Directors in its sole discretion. Any future issuance will have the effect of diluting the percentage of stock ownership and voting rights of the present holders of our common stock.

Our common stock will be quoted in the over-the-counter Pink Sheets market at the post-split price on and after the Effective Date of the Amendments.

Following the reverse split, the share certificates representing the shares will continue to be valid. In the future, new share certificates will be issued reflecting the reverse stock split, but this in no way will affect the validity of your current share certificates. The reverse split will occur

on the Effective Date of the Amendments without any further action on the part of our stockholders. After the Effective Date of the Amendments, each share certificate representing the shares prior to the reverse stock split will be deemed to represent 1/500th of the number of shares shown on the certificate. Certificates representing the shares after the reverse stock split will be issued in due course as share certificates representing shares prior to the reverse stock split are tendered for exchange or transfer to our transfer agent. We request that stockholders do not send in any of their stock certificates at this time.

As applicable, new share certificates evidencing New Shares following the reverse stock split that are issued in exchange for share certificate issued prior to the reverse stock split representing Old Shares that are restricted shares will contain the same restrictive legend as on the old certificates. Also, for purposes of determining the term of the restrictive period applicable to the New Shares after the reverse stock split, the time period during which a stockholder has held their existing pre-split Old Shares will be included in the total holding period.

Certain Federal Income Tax Consequences

The reverse stock split should not result in any recognition of gain or loss. The holding period of the New Shares will include the stockholder's holding period for the corresponding Old Shares owned prior to the reverse stock split. The adjusted basis of the New Shares (including the original shares) will be equal to the adjusted basis of a stockholder's original shares. Notwithstanding the foregoing, the federal income tax consequences of the receipt of an additional share in lieu of a fractional interest is not clear but may result in tax liabilities which should not be material in amount in view of the low value of the fractional interest. Our beliefs regarding the tax consequence of the reverse stock split are not binding upon the Internal Revenue Service or the courts, and there can be no assurance that the Internal Revenue Service or the courts will accept the positions expressed above. This summary does not purport to be complete and does not address the tax consequences to holders that are subject to special tax rules, such as banks, insurance companies, regulated investment companies, personal holding companies, foreign entities, nonresident foreign individuals, broker-dealers and tax exempt entities. The state and local tax consequences of the reverse stock split may vary significantly as to each stockholder, depending upon the state in which he or she resides.

The foregoing summary is included for general information only. Accordingly, stockholders are urged to consult their own tax advisors with respect to the Federal, State and local tax consequences of the reverse stock split.

SHAREHOLDER APPROVAL OF PROPOSED AMENDMENTS

Our company obtained shareholder approval for the amendments to increase the number of shares of our common stock that we are authorized to issue from 500,000,000 shares to 800,000,000 shares, to authorize a new class of 5,000,000 shares of preferred stock and to effect the 1 for 500 reverse stock split of our outstanding common stock by written consent on February 29, 2008, from shareholders holding 285,120,981 shares, or 58.43%, of the issued and outstanding shares of our common stock.

The amendments authorizing the increase in our common stock, the new class of preferred stock and the reverse stock split will not become effective until (i) at least 20 days after we deliver the Definitive Information Statement to our shareholders of record, (ii) we file the Definitive Information Statement with the Securities and Exchange Commission and (iii) the Certificate of Amendment has been accepted for filing by the Secretary of State of the State of Nevada.

DISSENTERS' RIGHTS

Pursuant to Chapter 78, Nevada Revised Statutes, shareholders of our common stock are not entitled to dissenters' rights of appraisal with respect to the authorization of the increase in our authorized common stock, the new class of preferred stock or the reverse stock split.
