## **NOTE 1 – BASIS OF PRESENTATION**

Intelligent Living Corp (“ILC”, the “Company”, “we”, “us”) was incorporated in the State of Nevada in 1998. Through its wholly owned subsidiary MCM Integrated Technologies, Ltd. (“MCM”) the Company specializes in designing, supplying, installing, upgrading and servicing home automation solutions, energy use monitoring and conservation systems including: structured wiring, security and access control systems, lighting, HVAC and environmental controls, energy use monitoring and reduction systems and distributed audio/video systems. The Company offers both wired and wireless technology for single and multi unit new construction and existing buildings, using both traditional component and Windows 7 Media Center based systems. Income is derived from both equipment sales and the provision of installation, repair and maintenance services. Customers include technology consumers, residential home owners, developers and builders of single family and multi-unit developments and commercial businesses.

The Company previously engaged in the import and distribution of home décor products for the North American market. This activity was pursued through its wholly owned subsidiary Cardinal Points Trading Corp. In July 2006, as a result of a breach of the Company’s exclusivity agreement with its principal supplier by its principal supplier and other production related issues the board of directors began an evaluation of alternative business models and opportunities. In December 2006 the Company discontinued its activity in the home décor sector and began a process to dispose of assets and obligations related to the home décor import and distribution business. This process continued through the year ended May 31, 2010. Liquidation of the Company’s home décor inventory has been slower than expected principally as a result of the slowdown of the US economy, dating of the Company’s home décor inventory and competition from suppliers of similar product to the home décor wholesale market.

Results from ongoing operations reported for the periods ending August 31, 2010 and 2009 relate to sales of home automation and energy efficiency products and services including system design, equipment supply, installation and support. Results from discontinued operations relate to the Company’s phase out activities in the home décor sector and include the costs of liquidating inventory, renting warehouse space for surplus office equipment and furniture, depreciation, legal and professional time related to eliminating and reducing liabilities associated with discontinued operations and pursuing legal recourse against the Company’s home décor supplier.

The Company’s year-end is May 31.

The foregoing unaudited interim financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Regulation S-X as promulgated by the Securities and Exchange Commission. Accordingly, these financial statements do not include all of the disclosures required by generally accepted accounting principles for complete financial statements. These unaudited interim financial statements should be read in conjunction with the audited financial statements for the period ended May 31, 2010. In the opinion of management, the unaudited interim financial statements furnished herein include all adjustments, all of which are of a normal recurring nature, necessary for a fair statement of the results for the interim period presented.

The preparation of financial statements in accordance with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities known to exist as of the date the financial statements are published, and the reported amounts of revenues and expenses during the reporting period. Uncertainties with respect to such estimates and assumptions are inherent in the preparation of the Company’s financial statements; accordingly, it is possible that the actual results could differ from these estimates and assumptions that could have a material effect on the reported amounts of the Company’s financial position and results of operations.

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. The Company has suffered material recurring losses from operations since inception. At August 31, 2010, the Company had a working capital deficit of approximately \$1,571,769, an accumulated deficit of approximately \$14,115,700 and historically has reported negative cash flows from consolidated operations. These factors raise substantial doubt about the Company's ability to continue as a going concern.

Continuation of the Company is dependent on achieving sufficiently profitable operations and obtaining additional financing. Management has and is continuing to raise additional capital from various sources. There can be no assurances that the Company will be successful in raising additional capital. The financial statements do not include any adjustment relating to the recoverability and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Intelligent Living Corp. is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

### Earnings per Share

The Company has adopted ASC 260 "Earnings Per Share". Basic loss per share is computed using the weighted average number of common shares outstanding. Diluted net loss per share is the same as basic net loss per share, as the inclusion of common stock equivalents would be antidilutive.

(in thousands)	For the Three Months Ended August 31,	
	2010	2009
Gain (Loss) from continuing operations	\$ 12.8	\$ (61.1)
Gain (Loss) from discontinued operations	(15.2)	(8.9)
Net gain (loss) income	<u>\$ (2.4)</u>	<u>\$ (70.0)</u>
Weighted average shares outstanding:		
basic and dilutive	63,292,874	52,044,453
Effect of dilutive securities:		
stock options	—	—
Convertible debt	—	—
diluted	<u>63,292,874</u>	<u>52,044,453</u>
Gain (Loss) per share from continuing operations: basic and diluted	\$ 0.00	\$ (0.00)
Gain (Loss) per share from discontinued operations: basic and diluted	\$ (0.00)	\$ (0.00)
Net (loss) income per share: basic and diluted	\$ (0.00)	\$ (0.00)

The following potential common shares have been excluded from the computation of diluted net income per share for the quarters ended August 31, 2010 and 2009 because their inclusion would have been antidilutive:

INTELLIGENT LIVING CORP. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
August 31, 2010  
(Unaudited)

	For the Quarter Ended August 31, 2010	For the Quarter Ended August 31, 2009
Outstanding common stock options and warrants	Nil	Nil
Convertible debt	193,646,695	34,275,111

Fair Value of Financial Instruments

On July 1, 2008, the Company adopted Accounting Standards Codification Topic 820, Fair Value Measurements and Disclosures ("Topic 820"). Topic 820 defines fair value, establishes a three-level valuation hierarchy for disclosures of fair value measurement and enhances disclosure requirements for fair value measures. The three levels are defined as follows:

- Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 inputs to valuation methodology are unobservable and significant to the fair measurement.

The fair value of the Company's cash and cash equivalents, accrued liabilities and payables, and loans payable approximate carrying value because of the short-term nature of these items.

Recent Accounting Pronouncements

There have been no recently issued accounting pronouncements since the filing of the Company's Form 10K on September 14, 2010 that are expected to have a material impact on the Company's financial position, results of operations, or cash flows.

**NOTE 3 - COMMON STOCK**

During the quarter ended August 31, 2010 the Company issued 16,500,000 shares of its unregistered common stock for \$85,000 of debt at an average price rounded to the nearest cent of \$0.01 per share.

**NOTE 4 – RELATED PARTIES**

During the year ended May 31, 2010 the short term loans due to the Company's officers increased by \$29,967. The Company had short-term loans outstanding to corporate officers at May 31, 2010 in the amount of \$375,769. They are unsecured, due on demand and bear interest at an average rate of 7.1%. Accrued interest to May 31, 2010 was \$4,750.

During the three months ended August 31, 2010 the Company's officers loaned the Company \$3,908, which was uncollateralized and due on demand. The Company repaid the Company's officers \$1,516 of principal and \$5,879 of interest in cash. Total outstanding related party debt [principal plus accrued interest] for the period ended August 31, 2010 and May 31, 2010 was respectively \$383,501 and \$380,519.

The following table summarizes the position of notes, and amounts due to related parties at August 31, 2010:

Related Parties	Principal Outstanding on Aug 31, 2010	Interest Accrued to Aug 31, 2010
Non-convertible short-term notes	\$ 378,161	5,340
Total	\$ 378,161	5,340

INTELLIGENT LIVING CORP. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2010

(Unaudited)

The Company shares office space and administrative costs in Vancouver with ScanTech Imaging Corp. ("ScanTech"), a company controlled by Murat Erbatur the Company's COO. The Company provides technical consulting services to ScanTech and Scan Tech's clients on an as needed basis. For the period ended August 31, 2010 the total value of services provided was \$19,654.

**NOTE 5 – THIRD PARTY NOTES AND DEBENTURES PAYABLE**

During the twelve months ended May 31, 2010, the third party non-interest bearing notes increased by \$35,684. The total principal outstanding on May 31, 2010 was \$61,959.

During the three months ended August 31, 2010 the Company converted \$35,000 of third party note principal into 6,500,000 shares of common stock. The total third party note principal outstanding on August 31, 2010 was \$26,984.

The Company also has outstanding convertible debentures. In the 12 months ended May 31, 2010 the Company converted \$228,000 of debenture principal into 12,244,444 shares of the Company's common stock. The debenture principal, debenture balance sheet liability net of discounts and accrued interest outstanding at May 31, 2010 was \$912,253, \$898,308 and \$252,832 respectively.

During the three months ended August 31, 2010 the Company converted \$50,000 of third party debenture principal into 10,000,000 shares of common stock.

The following table summarizes the outstanding principal and discounts associated with debentures and principal amounts of notes outstanding at August 31, 2010.

Debentures			Notes	Total
Principal at end of period	Remaining Discounts	Balance Sheet Amount net of discounts	Principal at end of period	End of Period Balance Sheet Amount
\$862,252	(\$6,972)	\$855,280	\$26,984	\$882,264

The principal and accrued interest on notes and debentures as at August 31, 2010 are summarized in the following table:

Notes and Debentures	Principal Amount at Aug 31, 2010	Weighted Average Interest Rate	Accrued Interest to Aug 31, 2010
Third Party Notes	\$ 26,984	nil	\$ nil
Third Party Debentures	862,252	6.4%	272,681
Total	\$ 889,236	6.0%	\$ 272,681

Principal payments on notes and debentures payable in the years ending May 31, 2011 through 2015 are as follows:

Fiscal Year	Principal	Discount as applicable to debenture portion of principal	Balance Sheet
2011	\$889,236	(\$6,972)	\$882,264
2012	-	-	-
2013	-	-	-
2014	-	-	-
2015	-	-	-
Total	\$889,236	(\$6,972)	\$882,264

**NOTE 6 – DISCONTINUED OPERATIONS**

At August 31, 2010 the Company continued to retain a reserve against the full recorded cost of discontinued operations inventory. The value of the reserve on August 31, 2010 was \$100,100. The Company believes that limited recovery will be realized from the disposal of discontinued inventory. The Company plans to fully dispose of all remaining discontinued operations inventory not later than the close of the 2010 calendar year.

The loss from discontinued operations, recorded for the quarter ended August 31, 2010, include the costs of liquidating inventory, renting temporary warehouse space for office furniture and equipment, legal, and professional time associated with discontinued operations and depreciation.

At August 31, 2010, assets net of the inventory reserve and liabilities from discontinued operations were de minimis.

**NOTE 7 – CHANGES IN PRESENTATION OF COMPARATIVE STATEMENTS**

The presentation of certain amounts for previous periods has been reclassified to conform to the presentation adopted for the current period.

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF CONTINUING AND FUTURE PLAN OF OPERATION**

***Cautionary Statement Regarding Forward-Looking Statements.*** *This annual report contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. These statements relate to future events or our future financial performance. Some discussions in this report may contain forward-looking statements that involve risk and uncertainty. A number of important factors could cause our actual results to differ materially from those expressed in any forward-looking statements made by us in this report. Forward-looking statements are often identified by words like: "believe", "expect", "estimate", "anticipate", "intend", "project" and similar expressions or words which, by their nature, refer to future events.*

*In some cases, you can also identify forward-looking statements by terminology such as "may", "will", "should", "plans", "predicts", "potential" or "continue" or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.*

*Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.*

### **OVERVIEW**

Intelligent Living Corp ("ILC", the "Company", "we", "us") was incorporated in the State of Nevada in 1998. Through its wholly owned subsidiary MCM Integrated Technologies, Ltd. ("MCM") the Company specializes in designing, supplying, installing, upgrading and servicing home automation solutions, energy use monitoring and conservation systems including: structured wiring, security and access control systems, lighting, HVAC and environmental controls, energy use monitoring and reduction systems and distributed audio/video systems. The Company offers both wired and wireless technology for single and multi unit new construction and existing buildings, using both traditional component and Windows 7 Media Center based systems. Income is derived from both equipment sales and the provision of installation, repair and maintenance services. Customers include technology consumers, residential home owners, developers and builders of single family and multi-unit developments and commercial businesses.

MCM has supplied custom IT solutions since 1994 and home automation and energy management solutions since 2003. The Company has offices and demonstration suites in Phoenix Arizona and Vancouver British Columbia and is active with single family homes and multi-unit town homes and condominium projects in southwest BC, the greater Phoenix area and is pursuing market opportunities in Istanbul Turkey.

The Company previously engaged in the import and distribution of home décor products for the North American market. This activity was pursued through its wholly owned subsidiary Cardinal Points Trading Corp. In July 2006, as a result of a breach of the Company's exclusivity agreement with its principal supplier by its principal supplier and other production related issues the board of directors began an evaluation of alternative business models and opportunities. In December 2006 the Company discontinued its activity in the home décor sector and began a process to dispose of assets and obligations related to the home décor import and distribution business. This process continued through the year ended May 31, 2010. Liquidation of the Company's home décor inventory has been slower than expected principally as a result of the slowdown of the US economy, dating of the Company's home décor inventory and competition from

suppliers of similar product to the home décor wholesale market.

Following the acquisition of MCM in December 2006, the Company expanded its service offerings to include home comfort and energy efficiency solutions integrated with and controlled by home automation applications. In response to the severe downturn in the US housing market the Company has increased its focus on the western Canadian housing market by expanding its marketing and project base, and has initiated technology cooperation on a best efforts basis with Kilia Teknologi, a leading security and surveillance group in the Republic of Turkey for market development in Turkey and the Middle East.

Results from ongoing operations reported for the 3 months ended August 31, 2010 and 2009 relate to sales of home automation and energy efficiency products and services including system design, equipment supply, installation and support. Results from discontinued operations relate to the Company's phase out activities in the home décor sector and include the costs of liquidating inventory, renting temporary warehouse space for equipment and furniture, legal and professional time associated with discontinued operations.

#### **Foreign currency translation**

MCM Integrated Technologies, Ltd. and Cardinal Points Trading, Corp. use the Canadian Dollar as their functional currency. Transactions denominated in currencies other than the entity's functional currency are translated into the entity's functional currency at the exchange rate ruling on the date of the transaction. Currency translation differences are recognized in the statement of income for the period.

On consolidation, the results of operations and cash flows whose functional currency is other than the US dollar are translated into US dollars at the average exchange rate for the period and their assets and liabilities are translated into US dollars at the exchange rate ruling on the balance sheet date. Currency translation differences are recognized within other comprehensive income as a separate component of shareholders' equity. In the event that such an operation is sold, the cumulative currency translation differences that are attributable to the operation are reclassified to income.

During the three month period June 1, 2010 through August 31, 2010, the US dollar to Canadian Dollar exchange rate has varied from a low of 0.9404 on July 6, 2009 to a high of 0.9855 on August 6, 2010. The closing exchange rate was 0.9500 and the average exchange rate over the 3 month period ended August 31, 2010 was 0.9613 resulting in comprehensive income of \$2,053 for the period ended August 31, 2010.

#### **Transactions with related parties**

Our By-Laws include a provision regarding related party transactions which requires that each participant to such transaction identify all direct and indirect interests to be derived as a result of the Company's entering into the related transaction. A majority of the disinterested members of the board of directors must approve any related party transaction.

Except for the transactions described below, none of our directors, senior officers or principal shareholders, nor any associate or affiliate of the foregoing have any interest, direct or indirect, in any transaction, since the beginning of the fiscal year ended May 31, 2010, or in any proposed transactions, in which such person had or is to have a direct or indirect material interest.

During the year ended May 31, 2010, the Company's CEO loaned the Company \$19,054 which was uncollateralized and due on demand. The Company repaid \$1,250 to its COO in cash during the year ended May 31, 2010. Total outstanding related party debt (principal plus accrued interest) for the year ended May 31, 2010 was \$380,519.

During the three months ended August 31, 2010 the Company's CEO loaned the Company \$3,908, which was uncollateralized and due on demand. The Company repaid the Company's COO \$1,516 of principal and \$5,879 of interest in cash. Total outstanding related party debt [principal plus accrued interest] for the period ended August 31, 2010 and May 31, 2010 was respectively \$383,501 and \$380,519.

The Company shares office space and administrative costs in Vancouver with ScanTech Imaging Corp. ("ScanTech"), a company controlled by Murat Erbatur the Company's COO. The Company provides technical consulting services to ScanTech and Scan Tech's clients on an as needed basis. For the period ended August 31, 2010 the total value of services provided was \$19,654.

## **RESULTS OF OPERATIONS – for the three months ended August 31, 2010 and August 31, 2009**

For the 3 months ended August 31, 2010, revenues from continuing operations were \$108,474 compared to \$45,676 in the same period ending last year. These revenues are a result of the sale of smart home products and services.

For the 3 months ended August 31, 2010, gross profit was \$66,012 compared to \$30,384 in the same period in the prior year, an increase of 117%. Gross margin (gross profit as a percent of revenue) was 61%, compared to 67% for the same period in the prior year.

Operating expenses for the 3 months ending August 31, 2010 were \$43,399 versus \$58,437 for the same period in the prior year, a decrease of 26%.

The Company recorded an operating profit from continuing operations of \$22,613 for the period ending August 31, 2010 compared to a loss on operations of (\$28,053) for the same period in the prior year.

Total other expenses for the three month period ending August 31, 2010 were \$9,792 compared to \$33,106 for the comparable period in the prior year, a decrease of 70%. The net profit from continuing operations for the three month period ending August 31, 2010 was 12,821 compared to a net loss of (\$61,159) in the comparable period in the prior year.

During the 3 months ended August 31, 2010 the Company incurred expenses associated with its discontinued wholesale business. The net loss from discontinued operations was (\$15,229) compared to a net loss of (\$8,861) for the comparable period in the prior year, an increase of 72%.

The total net loss for the 3 months ended August 31, 2010 was (\$2,408) compared to a total net loss of (\$70,020) for the corresponding period in the prior year. The total net loss decreased 97% compared to the corresponding period in the prior year. A gain of \$2,053 was realized as a result of foreign currency translation and the resulting comprehensive loss the period ending August 31, 2010 was \$(355) compared to a loss of (\$2,587) as a result of foreign currency translation and a comprehensive loss of (\$72,607) for the corresponding period in the prior year. The comprehensive loss decreased approximately 99% compared to the corresponding period in the prior year.

## **LIQUIDITY AND CAPITAL RESOURCES**

### **Liquidity**

As of August 31, 2010, our principal sources of liquidity included cash and cash equivalents, cash flow from our operating subsidiary, and shareholder and related party loans. At August 31, 2010, cash and cash equivalents totaled \$3,509 compared to \$3,931 at May 31, 2010. Our liquidity must be considered in light of the risks, expenses and difficulties frequently encountered by companies in our stage of re-development.

The Company operates in both the U.S. and Canadian markets. The impact on the Canadian market as a result of the U.S. led downturn in the global economy was delayed and did not appear in strength until the beginning of calendar year 2008. While the U.S. and Canadian economies remain impaired compared to their pre summer 1998 levels, the Canadian economy has shown signs of recovery over the past quarter, while the US economy remains stagnant despite massive stimulus spending by the US federal government.

Risk factors relevant to these events and management decisions include, but are not limited to: the Company's ability to secure ongoing product supply, foreign exchange fluctuations, continued acceptance of the Company's products and services, changes in technology and consumer adoption of technology, the

strength of the North American housing market and consumer economy in general. These risks and factors cannot be credibly quantified by the Company at this time.

### **Internal and External Sources of Capital**

For the 3 month period ending August 31, 2010 the Company realized income from operations of \$12,821 and a net loss of \$2,408. As of August 31, 2010 the Company had a working capital deficit of \$1,571,769 and limited assets to sell in order to create short or long term liquidity. Therefore, we are dependent on external sources for funding until such time as the Company develops positive net cash flow to maintain liquidity. Until such time as we have positive cash flow on a sustained basis, the dependence on external capital will remain. There are no guarantees that we will be able to raise external capital in sufficient amounts or on terms acceptable to us.

### **Investing Activities**

The Company purchased a support vehicle at the conclusion of the vehicle's three year lease for the value of the lease residual, \$11,615.

**Financing Activities** Since inception, we financed operations through proceeds from the issuance of equity and debt securities and loans from shareholders and others. To date, we raised approximately \$12.8 million from the sale of common stock and as at August 31, 2010 we have borrowings of approximately \$1.27 million from investors and shareholders. Funds from these sources were used as working capital to fund the development of the Company.

In the quarter closing August 31, 2010 the Company negotiated short term loans from related parties totaling \$2,392 and increased the line of credit by \$5,034. These loans are interest bearing and due on demand.

## **FUTURE PLAN OF OPERATIONS**

Beginning in 2007 and continuing through 2010 the U.S. credit markets experienced serious disruption due to a deterioration in residential property values, defaults and delinquencies in the residential mortgage market (particularly, subprime and non-prime mortgages), a decline in the credit quality of mortgage backed securities, and the failure and near failure of major businesses. These problems led to a dramatic and prolonged slow-down in residential housing market transactions in the U.S and an unprecedented intervention by international central banks and governments.

In response to the 2008 downturn in the U.S. housing market the Company increased its focus on the western Canadian housing market by expanding its marketing and project base and initiated technology cooperation on a best efforts basis with a leading security surveillance group in the Republic of Turkey for market development in Turkey and the middle East. This effort continued through the quarter ended August 31, 2010.

The western Canadian housing market and, in particular, the southwestern British Columbia housing market were significantly less impacted by the 2008 downturn than the U.S. market and are showing strong signs of growth.

Statistics Canada recorded the issuance of \$1.5 billion in national building permits for August 2010, up 13% over the prior month and the greatest one month issuance since pre-recession 2008. Home builders in British Columbia were issued \$620 million in permit value in August 2010, a 73% increase over August 2009. Metro Vancouver, BC issued \$548 million in building permits in August 2010, up 10% over the prior month and 42% over the same month in the prior year. Canada Mortgage and Housing is forecasting Metro Vancouver housing starts will top 12,000 units for the calendar year 2010 up 44% from the 2009 collapse in housing starts. 2011 housing starts are forecast to rise 17% over 2010 levels to 14,000 units. In August 2010 Re/Max reality reported a 16% increase in greater Vancouver housing prices compared to the same period in the prior year. The average residential sale price is currently poised to reach a new record high for the Greater Vancouver area. The opportunity for the Company's products and services within the Greater

Vancouver housing market has significantly increased over the past 12 months.

The Company is actively evaluating opportunities to expand its business activities in the Greater Vancouver market through both vertical expansion within the Company's current green building, home automation and energy conservation sectors and horizontally within related sectors including housing construction and power generation. The Company is currently evaluating options for expanding through acquisition and joint ventures.

Cash flow from current ongoing activities combined with loans from related parties are estimated to be sufficient to sustain the current level of operations and planned activities through to the end of the current fiscal year.

#### **OFF BALANCE-SHEET ARRANGEMENTS**

During year ended May 31, 2010, and the three months ended August 31, 2010, the Company did not engage in any off-balance sheet arrangements.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

#### ***Interest Rate Risk***

Our exposure to market risk for changes in interest rates relates primarily to our bank credit facility because borrowings under the facility are variable rate borrowings. At the current time all of the borrowings under our credit agreements accrue interest at the Prime Rate plus the applicable margin. Assuming that the balance on our variable interest loans as of August 31, 2010, was the same throughout the entire quarter, each 1.0% increase in the prime interest rate on our variable rate borrowings would result in an increase in annual interest expense and a decrease in our cash flows and income before taxes of approximately \$3,867 per year.

#### ***Foreign Currency Exchange Risks***

Our home automation subsidiary (MCM) and discontinued home décor subsidiary (Cardinal Points) have operations in Canada, both have assets and liabilities in Canadian dollars and both use the Canadian Dollar as a functional currency. Each financial period, all assets, including goodwill, and liabilities of MCM and Cardinal Points are translated into U.S. Dollars, our reporting currency, using the closing rate method. In addition, we routinely purchase goods in Canadian dollars for resale in US dollars and goods in US dollars for resale in Canadian dollars.

There are principally two types of foreign exchange risk: transaction risks and translation risks. Transaction risks may impact the results of operations and translation risks may impact comprehensive income. These are discussed more fully below.

#### ***Transaction risks***

Transactions in currencies other than the functional currency are translated at either an average exchange rate used for the reporting period in which the transaction took place (to approximate to the exchange rate at the date of transactions for that period) or in some cases the rate in effect at the date of the transaction. Differences in exchange rates during the period between the date a transaction denominated in a foreign currency is consummated and the date on which it is settled or translated, are recognized in the consolidated statements of operations as foreign exchange transaction gains and losses.

MCM's and Cardinal Points' cash balances consist of Canadian Dollars and U.S. Dollars. This exposes us to foreign currency exchange rate risk in the Statement of Operations. The change in exposure from period to period is related to the change in the balance of the bank accounts based on timing of event receipts and payments. For the period ended August 31, 2010, MCM purchased approximately \$7,000 of goods valued in US dollars for sale in Canadian dollars. For the 3 month period ended August 31, 2010, a 10% increase or decrease in the average level of the U.S. Dollar exchange rate against the Canadian Dollar with all other variables held constant would result in a realized gain or loss of approximately \$673.

#### ***Translation risks***

The financial statements of MCM and Cardinal Points, with a functional currency of Canadian dollars, are translated into U.S. dollars using the current rate method. Accordingly, assets and liabilities are translated at period-end exchange rates while revenue, expenses and cash flows are translated at reporting period weighted average exchange rates. Adjustments resulting from these translations are accumulated and reported as the principal component of other comprehensive loss in stockholders' equity.

The fluctuation in the exchange rates resulted in foreign currency translation gains reflected in comprehensive gain in stockholders' equity of \$2,053 at August 31, 2010. Future changes in the value of the U.S. dollar to Canadian dollar could have a material impact on our financial position.

## ITEM 4T. CONTROLS AND PROCEDURES

### *Evaluation of Disclosure Controls and Procedures*

In connection with the preparation of this quarterly report on Form 10-Q, an evaluation was carried out by our management, with the participation of the Chief Executive, Principal Financial and Accounting Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 ("Exchange Act")) as of August 31, 2010. Based on that evaluation the Chief Executive, Principal Financial and Accounting Officer has concluded that as of the end of the period covered by this report, the Company's disclosure controls and procedures were not effective for the reasons stated below.

Our management, including our principal executive officer and principal financial officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error or fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Due to the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. To address the material weaknesses, we performed additional analysis and other post-closing procedures in an effort to ensure our consolidated financial statements included in this report have been prepared in accordance with generally accepted accounting principles. Accordingly, management believes that the financial statements included in this report fairly present in all material respects our financial condition, results of operations and cash flows for the periods presented.

### *Changes in Internal Controls over Financial Reporting*

There were no changes in our internal control over financial reporting (as defined in Rule 13(a)-15(f) or 15(d)-15(f)) that occurred during the period covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

### *Limitations on the Effectiveness of Internal Controls*

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

## **PART II. OTHER INFORMATION.**

### **ITEM 1. LEGAL PROCEEDINGS**

We are not currently involved in any litigation, nor do we know of any threatened litigation against us that would have a material effect on our financial condition.

### **ITEM 1A. RISK FACTORS**

Not applicable.

### **ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

During the period ended August 31, 2010 the Company converted \$85,000 of debt to 16,500,000 shares of its unregistered common stock at an average price rounded to the nearest cent of approximately \$0.01 per share.

The Company offered and sold the securities in reliance on an exemption from federal registration under Section 4(2) of the Securities Act of 1933, as amended (the "Securities Act"), and Rule 506 promulgated thereunder, or alternatively, under Regulation S promulgated under the Securities Act .

### **ITEM 3. DEFAULTS UPON SENIOR SECURITIES**

None.

### **ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

None.

### **ITEM 5. OTHER INFORMATION**

None

### **ITEM 6. EXHIBITS.**

Dated: October 20, 2010

CERTIFICATION

I, Michael F. Holloran, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Intelligent Living Corp., (the “registrant”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter (the registrant’s fourth quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
