**CAPITOL FEDERAL FINANCIAL
REPORTS THIRD QUARTER 2006 RESULTS**

Topeka, KS - Capitol Federal Financial (NASDAQ: CFFN) (the "Company") announced results today for the quarter ending June 30, 2006. Detailed results of the quarter are available in the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2006, which will be filed today and posted on our website, <http://ir.capfed.com>. Highlights for the quarter include:

- net income of \$11.3 million,
- diluted earnings per share of \$0.15,
- efficiency ratio of 49.41%.

On July 25, 2006, the Board of Directors declared a \$0.50 per share dividend to stockholders of record as of August 4, 2006 payable on August 18, 2006.

Results of Operations for the Quarter Ended June 30, 2006

Net income for the quarter was \$11.3 million compared to \$16.2 million for the same quarter one year ago. The \$4.9 million decrease in net income was primarily a result of a \$10.1 million increase in interest expense. This increase in interest expense was mainly attributable to higher rates on the certificate of deposit portfolio and interest rate swaps which are both generally priced based upon short-term interest rates (two year and shorter maturities). The increase in interest expense was partially offset by a \$2.6 million decrease in income tax expense due to a reduction in earnings between the two periods and a \$2.1 million increase in interest and dividend income.

Total interest and dividend income for the quarter was \$102.4 million compared to \$100.3 million for the prior year quarter. The \$2.1 million increase was primarily a result of an increase in interest income on loans receivable due to growth in the loan portfolio, which was partially offset by a decrease in interest income on mortgage-related and investment securities.

Interest expense on deposits for the current quarter was \$31.6 million compared to \$24.3 million for the prior year quarter. The \$7.3 million increase was primarily a result of an increase in the average rate on the money market and certificate of deposit portfolios.

Interest expense on Federal Home Loan Bank ("FHLB") advances for the current quarter was \$39.0 million compared to \$36.5 million for the prior year quarter. The \$2.5 million increase was a result of an increase in the paying rate on the interest rate swaps, partially offset by a decrease in the average balance of advances as a result of the repayment of \$200.0 million in advances during fiscal year 2006.

Results of Operations for the Nine Months Ended June 30, 2006

Net income for the nine months ended June 30, 2006 was \$38.2 million compared to net income of \$52.2 million for the nine month period ended June 30, 2005. The \$14.0 million decrease in net income was a result of a \$22.8 million decrease in net interest and dividend income offset by a \$7.7 million decrease in income tax expense.

Net interest and dividend income for the current nine month period was \$98.4 million compared to

\$121.2 million for the nine month period ended June 30, 2005. The \$22.8 million decrease between the two periods was a result of a \$28.7 million increase in interest expense, which was partially offset by the \$5.9 million increase in interest and dividend income.

Total interest and dividend income was \$306.2 million for the current nine month period, compared to \$300.3 million for the nine month period ended June 30, 2005. The \$5.9 million increase was primarily a result of an increase in interest income on loans receivable due to growth in the loan portfolio, which was partially offset by a decrease in interest income on mortgage-related and investment securities.

Interest expense on deposits for the current nine month period was \$87.8 million compared to \$71.0 million for the nine month period ended June 30, 2005. The \$16.8 million increase was primarily a result of an increase in the average rate on the certificate of deposit and money market portfolios which was partially offset by a decrease in the average balance of each portfolio.

Interest expense on FHLB advances for the current nine month period was \$117.0 million compared to \$105.9 million for the nine month period ended June 30, 2005. The \$11.1 million increase in interest expense was primarily a result of an increase in the weighted average rate of the FHLB advances due to an increase in the paying rate on the interest rate swaps.

Financial Condition as of June 30, 2006

Total assets decreased \$292.5 million from \$8.41 billion at September 30, 2005 to \$8.12 billion at June 30, 2006. The decrease in assets was attributed mainly to a decrease in mortgage-related securities of \$356.4 million and partially to a decrease in investment securities of \$48.4 million. The decrease in assets was partially offset by an increase in loans receivable of \$100.4 million and cash and cash equivalents of \$46.6 million.

Total liabilities decreased \$287.5 million from \$7.54 billion at September 30, 2005 to \$7.26 billion at June 30, 2006. The decrease in liabilities was due primarily to the repayment of \$200.0 million in FHLB advances and a decrease in deposits of \$64.4 million, particularly in the certificate of deposit and money market portfolios.

Stockholders' equity decreased \$5.1 million from \$865.1 million at September 30, 2005 to \$860.0 million at June 30, 2006. The decrease was primarily a result of \$36.7 million in dividend payments and partially a result of a \$12.8 million increase in treasury stock primarily due to stock repurchases. The decrease in stockholders' equity was partially offset by \$38.2 million in net income and a \$5.8 million increase in additional paid-in capital from stock option exercises.

Management's Discussion of Dividends

We strive to enhance stockholder value while maintaining a strong capital position. We continue to provide returns to stockholders through our dividend payments. On July 25, 2006, the Board of Directors declared a dividend of \$0.50 per share which will be paid on August 18, 2006 to stockholders of record on August 4, 2006. Due to Capitol Federal Savings Bank MHC's ("MHC") waiver of dividends, the dividend of \$0.50 per share will be paid only on public shares. Our cash dividend payout policy is continually reviewed by management and the Board of Directors, and our ability to pay dividends under the policy depends upon a number of factors including the Company's financial condition, results of operations, regulatory capital requirements of the Bank, other regulatory limitations on the Bank's ability to make capital distributions to the Company and the continued waiver of dividends by MHC.

Because the Company has a relatively unique corporate structure, the reporting of certain information under generally accepted accounting principles in the United States of America ("GAAP") is not necessarily reflective of the process considered by the Board of Directors in connection with its dividend policy. The earnings per share amounts in the following table are presented in accordance with

GAAP. Included in the GAAP earnings per share calculations are the average shares held by MHC. It is expected that MHC will continue to waive future dividends except to the extent dividends are needed to fund its continuing operations.

The following is a reconciliation of the denominators of the basic and diluted earnings per share calculations.

Because of the waiver of dividends by MHC, the inclusion of shares held by MHC understates earnings available to be paid out through dividends to public stockholders of CFFN stock. The following table is presented to provide a better understanding of the information the Board of Directors reviews when considering the amount of dividends to declare. The table presents basic and diluted earnings per share, excluding shares held by MHC from the earnings per share calculation. **The following information is not presented in accordance with GAAP.**

The following table shows the number of shares eligible to receive dividends (“public shares”) because of the waiver of dividends by MHC at June 30, 2006. The unvested shares in the ESOP receive cash equal to the dividends paid on the public shares. The cash received is used first to repay the annual debt obligation on the loan taken out by the ESOP from the Company at the time of the mutual-to-stock conversion of the Bank to purchase shares for the ESOP. Cash received in excess of the debt obligation is distributed to participants in the plan. Because these shares are held in trust for a future employee benefit, they are excluded from the calculation of public shares.
