Calendar Year Dividend History

Fiscal Year 2007

The following asset and liability management strategies were implemented during 2007 to address interest rate sensitivity:

- Proceeds from the sale of trading securities were invested in short-term investment securities.
- \$750.0 million of FHLB advances matured, of which \$600.0 million were not renewed.
- Reduction of the balance sheet due to the lack of investment opportunities with adequate spread over the cost of funding.

Subsequent Events

Since September 30, 2007:

- \$200.0 million of FHLB advances matured and were replaced with new borrowings at 4.39%.
- Capitol Federal has borrowed an additional \$350.0 million, at 4.00%, for investment purposes and in anticipation of \$300.0 million of FHLB advances which mature in January 2008.

Subsequent Events

Capitol Federal terminated \$575.0 million of interest rate swaps which were hedging certain FHLB advances. This action will lower interest expense associated with the hedged advances and significantly improve our interest rate risk exposure by eliminating short-term liabilities.

Commitment to Community

- Capitol Federal Foundation donated over \$3.35 million to numerous nonprofit and charitable organizations in our market areas during calendar year 2007.
- Foundation total gifts to date reached approximately \$18.8 million in calendar year 2007.
