NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue Recognition

In accordance with ASU No. 2014-09, "Revenue from Contracts with Customers" ("ASC Topic 606") revenues from contracts with customers is recognized when, or as, the Company satisfies its performance obligations by transferring the promised services to the customers. A service is transferred to a customer when, or as, the customer obtains control of that service. A performance obligation may be satisfied at a point in time or over time. Revenue from a performance obligation satisfied at a point in time is recognized at the point in time that the Company determines the customer obtains control over the promised service. Revenue from a performance obligation satisfied over time is recognized by measuring the Company's progress in satisfying the performance obligation in a manner that depicts the transfer of the services to the customer. The amount of revenue recognized reflects the consideration the Company expects to receive in exchange for those promised services (i.e., the transaction price"). In determining the transaction price, the Company considers multiple factors, including the effects of variable consideration, if any.

Securities transactions and related commission revenue are recorded on a trade-date basis. Technology services revenue is recognized as the service is provided. Investment banking income includes fees earned for financial advisory services, which are recorded as earned in accordance with the underlying agreement. Placement fees are earned at the time the placement is completed.

Under the provisions, the Company does not pay federal or state corporate income taxes on its taxable income. Instead, the stockholder is liable for Individual income taxes on his respective share of the Company's taxable income. The Company continues to pay New York City general corporation taxes.

NOTE 3 - OFF-BALANCE SHEET RISK AND CONCENTRATION OF CREDIT RISK

In the normal course of its business, the Company indemnifies and guarantees certain service providers, such as clearing and custody agents, trustees, and administrators, against specified potential losses in connection with them acting as an agent of, or providing services to, the Company. The Company also indemnifies some customers against potential losses incurred in the event specified third-party service providers, including sub-custodians and third-party brokers, improperly execute transactions. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statement for these indemnifications.

NOTE 4 - SIGNIFICANT CUSTOMERS

At December 31, 2020 and for the year then ended, 57% of gross revenues was derived from three customers. These three customers accounted for 34%, 12% and 11% of gross revenues, respectively.

NOTE 5 - NET CAPITAL REQUIREMENTS

The rule also provides that equity capital may not be withdrawn, or cash dividends paid, if the resulting net capital ratio would exceed 10 to 1. The Company is also subject to the net capital requirements of CFTC Regulation 1.17 and requirements of the National Futures Association.

At December 31, 2020, the Company has regulatory net capital of \$328,488, which exceeds the Company's minimum regulatory net capital requirement of \$250,000 (which is net capital requirement of the SEC Rule 15c3-1) by \$78,488. The Company's percentage of aggregate indebtedness to net capital is 41% as of December 31, 2020.

NOTE 6 - SUBSEQUENT EVENTS

The Company has evaluated subsequent events to determine if events or transactions, occurring through the date the financial statement was available to be issued, require adjustment to or disclosure in the financial statement.

A coronavirus (COVID-19) was first reported in China. In January 2020, the World Health Organization declared it a Public Health Emergency of International Concern. This contagious disease outbreak, which has continued to spread to additional countries, and any related adverse public health developments, could adversely affect the Company's customers, service providers and suppliers as a result of quarantines, facility closures, and travel and logistics restrictions in connection with the outbreak. More broadly, the outbreak could affect workforces, economies and financial markets globally, potentially leading to an economic downturn. The ultimate impact of the COVID-19 is uncertain. Management continues to monitor the outbreak, however, as of the date of these financial statements the potential impact of such on the Company's business and operations cannot be reasonably estimated.

The U.S. enacted the CARES Act which is an economic stimulus package to assist eligible small businesses to cover certain operational costs due to the adverse impact of COVID-19. In addition, the CARES Act included temporary tax law changes to provide additional relief to U.S. businesses and individual taxpayers.
