## Winnebago Industries, Inc. Unaudited Notes to Consolidated Financial Statements

## Note 1: Basis of Presentation

The "Company," "we," "our" and "us" are used interchangeably to refer to Winnebago Industries, Inc. and its subsidiary, Winnebago of Indiana, LLC, as appropriate in the context.

We were incorporated under the laws of the state of lowa on February 12, 1958 and adopted our present name on February 28, 1961. Our executive offices are located at 605 West Crystal Lake Road in Forest City, lowa. Our telephone number is (641) 585-3535; our website is www.winnebagoind.com. Our common stock trades on the NYSE under the symbol "WGO".

In our opinion, the accompanying condensed unaudited consolidated financial statements contain all adjustments, consisting of normal recurring accruals, necessary to present fairly our consolidated financial position as of March 2, 2013 and the consolidated results of operations and comprehensive income and consolidated cash flows for the first six months of Fiscal 2013 and 2012. The consolidated statement of operations and comprehensive income for the first six months of Fiscal 2013 is not necessarily indicative of the results to be expected for the full year. The consolidated balance sheet data as of August 25,2012 was derived from audited financial statements, but does not include all of the information and footnotes required by GAAP for complete financial statements. These interim financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto appearing in our Annual Report on Form 10-K for the fiscal year ended August 25, 2012.

## Fiscal Period

We follow a 52-/53-week fiscal year, ending the last Saturday in August. Fiscal 2013 is a 53 -week fiscal year; the first quarter ending December 1, 2012 was a 14-week quarter, and the six months ending March 2, 2013 had 27 weeks. Fiscal 2012 was a 52week year; the first quarter ending November 26, 2011 was a 13-week quarter, and the six months ending February 25, 2012 had 26 weeks.

## New Accounting Pronouncements

In June 2011, the FASB issued ASU 2011-05, Presentation of Comprehensive Income, which revised the manner in which entities present comprehensive income in their financial statements. Specifically, the new guidance requires an entity to present components of net income and other comprehensive income in one continuous statement, referred to as the statement of comprehensive income, or in two separate but consecutive statements. While the new guidance changed the presentation of comprehensive income, there are no changes to the components that are recognized in net income or other comprehensive income. ASU 2011-05 is effective for fiscal years beginning after December 15, 2011 (our Fiscal 2013). We adopted this guidance as of August 26, 2012, and have presented total comprehensive income in our Unaudited Consolidated Statements of Operations and Comprehensive Income.

In September 2011, the FASB issued ASU 2011-08, Testing Goodwill for Impairment, which simplified the manner in which entities test goodwill for impairment. After assessment of certain qualitative factors, if it is determined to be more likely than not that the fair value of a reporting unit is less than its carrying amount, entities must perform a quantitative analysis of the goodwill impairment test. Otherwise, the quantitative test becomes optional. ASU 2011-08 is effective for fiscal years beginning after December 15, 2011 (our Fiscal 2013). We do not believe that the adoption of this ASU will have a significant impact on our consolidated financial statements.

In February 2013, the FASB issued ASU 2013-02, Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income, which expands the presentation of changes in AOCI. The new guidance requires an entity to disaggregate the total change of each component of other comprehensive income either on the face of the net income statement or as a separate disclosure in the notes. ASU 2013-02 is effective for fiscal years beginning after December 15, 2012 (our Fiscal 2014). We do not believe that the adoption of this ASU will have a significant impact on our consolidated financial statements.

## Note 2: Concentration Risk

One of our dealer organizations accounted for $26.2 \%$ and $25.7 \%$ of our consolidated net revenue for the first six months of Fiscal 2013 and Fiscal 2012, respectively. A second dealer organization, accounted for $13.4 \%$ and $7.7 \%$ of our consolidated net revenue for the first six months of Fiscal 2013 and Fiscal 2012, respectively. The loss of these dealer organizations could have a significant adverse effect on our business. In addition, deterioration in the liquidity or creditworthiness of these dealers could negatively impact our sales and could trigger repurchase obligations under our repurchase agreements.

## Note 3: Fair Value Measurements

## Assets and Liabilities that are Measured at Fair Value on a Recurring Basis

We account for fair value measurements in accordance with ASC 820, Fair Value Measurements and Disclosures, which defines fair value, establishes a framework for measurement and expands disclosure about fair value measurement. The fair value hierarchy requires the use of observable market data when available. In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input
that is significant to the fair value measurement in its entirety. Our assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

## Cash Equivalents

The carrying value of cash equivalents approximates fair value as original maturities are less than three months. Our cash equivalents are comprised of money market funds traded in an active market with no restrictions.

The following tables set forth by level within the fair value hierarchy our financial assets that were accounted for at fair value on a recurring basis at March 2, 2013 and August 25, 2012 according to the valuation techniques we used to determine their fair values:

| (In thousands) | Fair Value at March 2, 2013 |  | Fair Value Measurements Using Inputs Considered As |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Level 1 Quoted Prices in Active Markets for Identical Assets |  | Level 2 Significant Other Observable Inputs |  | Level 3 Significant Unobservable Inputs |  |
| Long-term investments: |  |  |  |  |  |  |  |  |
| Student loan ARS | \$ | 8,735 |  | - |  | - | \$ | 8,735 |
| Assets that fund deferred compensation: |  |  |  |  |  |  |  |  |

| Total assets at fair value | \$ | 16,718 | \$ | 7,983 | \$ | - | \$ | 8,735 |

| (In thousands) | Fair Value at August 25, 2012 |  | Fair Value Measurements Using Inputs Considered As |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Level 1 Quoted Prices in Active Markets for Identical Assets |  | Level 2 Significant Other Observable Inputs |  | Level 3 Significant Unobservable Inputs |  |
| Long-term investments: |  |  |  |  |  |  |  |  |
| Student loan ARS | \$ | 9,074 | \$ | - | \$ | - | \$ | 9,074 |
| Assets that fund deferred compensation: |  |  |  |  |  |  |  |  |
| Domestic equity funds |  | 7,924 |  | 7,924 |  | - |  | - |
| International equity funds |  | 957 |  | 957 |  | - |  | - |

| Total assets at fair value | \$ | 18,442 | \$ | 9,368 | \$ | - | \$ | 9,074 |

The following table provides a reconciliation between the beginning and ending balances of items measured at fair value on a recurring basis in the table above that used significant unobservable inputs (Level 3):

| (In thousands) | Quarter Ended |  |  |  | Six Months Ended |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Balance at beginning of period | \$ | 8,823 | \$ | 9,753 | \$ | 9,074 | \$ | 10,627 |
| Transfer to Level 2 |  | - |  | - |  | (250) |  | (250) |
| Net change included in other comprehensive income |  | (88) |  | 150 |  | (89) |  | 26 |

| Balance at end of period | \$ | 8,735 | \$ | 9,903 | \$ | 8,735 | \$ | 9,903 |

The following table presents quantitative information regarding unobservable inputs that were significant to the valuation of assets measured at fair value on a recurring basis at March 2, 2013 using Level 3 inputs:

| (In thousands) | Fair Value |  | Valuation Technique | Unobservable Input | Low | High |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Student loan ARS | \$ | 8,735 | DCF | Projected ARS yield | 1.94\% | 2.06\% |
|  |  |  |  | Discount for lack of marketability | 2.94\% | 3.62\% |

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

## Long-Term Investments

Our long-term investments are ARS and classified as Level 3, as quoted prices were unavailable due to events described in Note 4. Due to limited market information, we utilized a DCF model to derive an estimate of fair value for the ARS at March 2, 2013. The assumptions used in preparing the DCF model included estimates with respect to the amount and timing of future interest and principal payments, forward projections of the interest rate benchmarks, the probability of full repayment of the principal considering the credit quality and guarantees in place and the rate of return required by investors to own such securities given the current liquidity risk associated with ARS.

## Assets that Fund Deferred Compensation

Our assets that fund deferred compensation are marketable equity securities measured at fair value using quoted market prices and primarily consist of equity-based mutual funds. They are classified as Level 1 as they are traded in an active market for which closing stock prices are readily available. These securities fund the Executive Share Option Plan (see Note 10), a deferred compensation program, and are presented as other assets in the accompanying balance sheets.

## Assets and Liabilities that are Measured at Fair Value on a Nonrecurring Basis

Our non-financial assets, which include goodwill, intangible assets and property and equipment, are not required to be measured at fair value on a recurring basis. However, if certain triggering events occur, or if an annual impairment test is required, we must evaluate the non-financial asset for impairment. If an impairment did occur, the asset is required to be recorded at the estimated fair value. During the first six months of Fiscal 2013, no impairments were recorded for non-financial assets.

## Note 4: Investments

We own investments in marketable securities that have been designated as "available for sale" in accordance with ASC 320, Investments - Debt and Equity Securities. Available for sale securities are carried at fair value with the unrealized gains and losses reported in "Accumulated Other Comprehensive Income," a component of stockholders' equity.

At March 2, 2013, we held $\$ 9.4$ million (par value) of tax-exempt ARS, which are variable-rate debt securities and have a long-term maturity with the interest rate being reset through Dutch auctions that are typically held every 7, 28 or 35 days. Prior to February 2008, these securities traded at par and are callable at par at the option of the issuer. Interest is typically paid at the end of each auction period or semiannually. The ARS we hold are rated AAA by Standard \& Poor's Ratings Services and AAA to A by Fitch Ratings, and are collateralized by student loans guaranteed by the US Government under the Federal Family Education Loan Program.

Since February 2008, most ARS auctions have failed and there is no assurance that future auctions for our ARS will succeed and, as a result, our ability to liquidate our investment and fully recover the par value in the near term may be limited or nonexistent. We have no reason to believe that any of the underlying issuers of our ARS are presently at risk of default. We have continued to receive interest payments on the ARS in accordance with their terms. We believe we will ultimately be able to liquidate our ARS related investments without significant loss primarily due to the collateral securing the ARS, but also due to the partial redemptions we have received over the last five fiscal years at par value. However, redemption could take until final maturity of the ARS (up to 29 years) to realize the par value of our investments. Due to the changes and uncertainty in the ARS market, we believe the recovery period for these investments is likely to be longer than 12 months and as a result, we have classified our $\$ 9.4$ million (par value) of these investments as long-term as of March 2, 2013.

At March 2, 2013, there was insufficient observable ARS market information available to determine the fair value of our ARS investments. Therefore, we estimated fair value by incorporating assumptions that market participants would use in their estimates of fair value. Some of these assumptions included credit quality, final stated maturities, estimates on the probability of the issue being called prior to final maturity, impact due to extended periods of maximum auction rates and broker quotes from independent evaluators. Based on this analysis, we recorded an unrealized temporary impairment of $\$ 665,000$ in AOCl before tax considerations related to our long-term ARS investments of \$9.4 million (par value) at March 2, 2013.

## Note 5: Inventories

Inventories consist of the following:

| (In thousands) | $\begin{gathered} \text { March } 2, \\ 2013 \end{gathered}$ |  | $\begin{gathered} \text { August } 25, ~ \end{gathered}$ |  |
| :---: | :---: | :---: | :---: | :---: |
| Finished goods | \$ | 56,961 | \$ | 30,054 |
| Work-in-process |  | 45,489 |  | 45,240 |
| Raw materials |  | 53,069 |  | 42,824 |
| Total |  | 155,519 |  | 118,118 |
| LIFO reserve |  | $(31,575)$ |  | $(31,024)$ |
| Total inventories | \$ | 123,944 | \$ | 87,094 |

The above value of inventories, before reduction for the LIFO reserve, approximates replacement cost. Of the $\$ 155.5$ million and $\$ 118.1$ million inventory at March 2, 2013 and August 25, 2012, respectively, $\$ 144.5$ million and $\$ 110.1$ million is valued on a LIFO basis. Towables inventory of $\$ 11.0$ million and $\$ 8.0$ million at March 2,2013 and August 25,2012 , respectively, is valued on a FIFO basis.

Note 6: Property, Plant and Equipment and Assets Held for Sale
Property, plant and equipment is stated at cost, net of accumulated depreciation and consists of the following:

| (In thousands) | $\begin{gathered} \text { March 2, } \\ 2013 \end{gathered}$ |  | $\begin{gathered} \text { August 25, } 2012 \end{gathered}$ |  |
| :---: | :---: | :---: | :---: | :---: |
| Land | \$ | 757 | \$ | 757 |
| Buildings and building improvements |  | 50,308 |  | 49,641 |
| Machinery and equipment |  | 91,194 |  | 90,775 |
| Transportation |  | 8,864 |  | 8,858 |
| Total property, plant and equipment, gross |  | 151,123 |  | 150,031 |
| Less accumulated depreciation |  | $(130,863)$ |  | $(130,053)$ |
| Total property, plant and equipment, net | \$ | 20,260 | \$ | 19,978 |

## Assets Held for Sale

During the first quarter of Fiscal 2013, an idled fiberglass facility in Hampton, lowa classified as held for sale, was sold. The sale was finalized on August 30, 2012 and generated $\$ 550,000$ in gross proceeds, selling costs of $\$ 28,000$ and a loss of $\$ 28,000$.

## Note 7: Goodwill and Amortizable Intangible Assets

Goodwill and intangible assets are the result of the acquisition of SunnyBrook during Fiscal 2011. Goodwill of $\$ 1.2$ million is not subject to amortization for financial statement purposes, but is amortizable for tax return purposes. Amortizable intangible assets are amortized on a straight-line basis. The weighted average remaining amortization period at March 2, 2013 is 7.6 years.

Goodwill is reviewed for impairment annually or whenever events or circumstances indicate a potential impairment. Intangible assets are also subject to impairment tests whenever events or circumstances indicate that the asset's carrying value may exceed its estimated fair value, at which time an impairment would be recorded.

Amortizable intangible assets consist of the following:

March 2, 2013

| (In thousands) |  |  |  |  | Cost |  | Accumulated Amortization |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Cost |  | Accumulated Amortization |  |  |  |  |  |
| Dealer network | \$ | 534 | \$ | 116 | \$ | 534 | \$ | 88 |
| Trademarks |  | 196 |  | 42 |  | 196 |  | 32 |
| Non-compete agreement |  | 40 |  | 13 |  | 40 |  | 10 |
| Total | \$ | 770 | \$ | 171 | \$ | 770 | \$ | 130 |

Estimated amortization expense of intangible assets for next five fiscal years is as follows:

| (In thousands) |  | Amount |
| :--- | :--- | :--- |
| Year Ended: | 2014 | $\$$ |
|  | 2015 | 86 |
|  | 2016 | 77 |
|  | 2017 | 73 |
|  | 2018 | 73 |
|  |  | 73 |

## Note 8: Credit Facilities

On October 13, 2012, we terminated our Loan Agreement with Wells Fargo Bank, National Association in accordance with its terms. There was no termination fee associated with this agreement, and no borrowings had been made.

On October 31, 2012, we entered into the Credit Agreement with GECC. The Credit Agreement provides for an initial $\$ 35.0$ million revolving credit facility based on the Company's eligible inventory and expires on October 31, 2015, unless terminated earlier in accordance with its terms. There is no termination fee associated with the Credit Agreement.

The Credit Agreement contains no financial covenant restrictions for borrowings where we have excess borrowing availability under the facility of greater than $\$ 5.0$ million. The Credit Agreement requires us to comply with a fixed charge ratio if excess borrowing availability under the facility is less than $\$ 5.0$ million or if we repurchase more than $\$ 25.0$ million of company stock within the first twelve months of the date of the Credit Agreement. In addition the Credit Agreement also includes a framework to expand the size of the facility up to $\$ 50.0$ million, based on mutually agreeable terms at the time of the expansion. Interest on loans made under the new facility will be based on LIBOR plus a margin of $3.0 \%$. The initial unused line fee associated with the Credit Agreement is $0.5 \%$ per annum and has the ability to be lowered based upon facility usage.

The Credit Agreement contains typical affirmative representations and covenants for a credit agreement of this size and nature. Additionally, the Credit Agreement contains negative covenants limiting our ability, among other things, to incur debt, grant liens, make acquisitions, make certain investments, pay certain dividends and distributions, engage in mergers, consolidations or acquisitions and sell certain assets. Obligations under the Credit Agreement are secured by a security interest in all of our accounts and other receivables, chattel paper, documents, deposit accounts, instruments, equipment, inventory, investment property, leasehold interest, cash and cash equivalents, letter-of-credit rights, most real property and fixtures and certain other business assets.

As of the date of this report, we are in compliance with all terms of the Credit Agreement, and no borrowings have been made thereunder.

## Note 9: Warranty

We provide our motorhome customers a comprehensive 12-month/15,000-mile warranty on our Class A, B and C motorhomes, and a 3 -year/36,000-mile structural warranty on Class A and C sidewalls and floors. We provide a comprehensive 12-month warranty on all towable products. We have also incurred costs for certain warranty-type expenses which occurred after the normal warranty period. We have voluntarily agreed to pay such costs to help protect the reputation of our products and the goodwill of our customers. Estimated costs related to product warranty are accrued at the time of sale and are based upon past warranty claims and unit sales history and adjusted as required to reflect actual costs incurred, as information becomes available. A significant increase in dealership labor rates, the cost of parts or the frequency of claims could have a material adverse impact on our operating results for the period or periods in which such claims or additional costs materialize. We also incur costs as a result of additional service actions not covered by our warranties, including product recalls and customer satisfaction actions. Estimated costs are accrued at the time the service action is implemented and are based upon past claim rate experiences and the estimated cost of the repairs.

Changes in our product warranty liability are as follows:

| (In thousands) | Quarter Ended |  |  |  | Six Months Ended |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## Note 10: Employee and Retiree Benefits

Postretirement health care and deferred compensation benefits are as follows:

| (In thousands) | $\begin{gathered} \text { March } 2, \\ 2013 \\ \hline \end{gathered}$ |  | $\begin{gathered} \text { August } 25, \\ 2012 \end{gathered}$ |  |

| SERP benefit liability |  | 3,257 |  | 3,342 |
| Executive deferred compensation |  | 101 |  | 102 |
| Officer stock-based compensation |  | 147 |  | - |
| Total postretirement health care and deferred compensation benefits |  | 74,595 |  | 80,004 |
| Less current portion |  | $(4,568)$ |  | $(4,869)$ |
| Long-term postretirement health care and deferred compensation benefits | \$ | 70,027 | \$ | 75,135 |

## Postretirement Health Care Benefits

We provide certain health care and other benefits for retired employees hired before April 1, 2001, who have fulfilled eligibility requirements at age 55 with 15 years of continuous service. We use a September 1 measurement date for this plan and our postretirement health care plan currently is not funded. Changes in the postretirement benefit plan include:

- In Fiscal 2005, we established dollar caps on the amount that we will pay for postretirement health care benefits per retiree on an annual basis so that we were not exposed to continued medical inflation. Retirees are required to pay a monthly premium in excess of the employer dollar caps for medical coverage based on years of service and age at retirement.
- In January 2012 the employer established dollar caps were reduced by 10\%, which reduced our liability for postretirement health care by $\$ 4.6$ million and is being amortized as prior service credit over 7.8 years.
- In January 2013 the employer established dollar caps were further reduced by $10 \%$, which reduced our liability for postretirement health care by approximately $\$ 4.3$ million and is being amortized as prior service credit over 7.5 years.

Net periodic postretirement benefit income consisted of the following components:

| (In thousands) | Quarter Ended |  |  |  | Six Months Ended |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## Note 11: Stock-Based Compensation Plans

We have a 2004 Incentive Compensation Plan approved by shareholders (as amended, the "Plan") in place which allows us to grant or issue non-qualified stock options, incentive stock options, share awards and other equity compensation to key employees and to non-employee directors.

On October 10, 2012 the Board of Directors granted an aggregate of 155,600 shares of restricted common stock to our key employees and non-employee directors. The value of the restricted stock award is determined using the intrinsic value method which, in this case, is based on the number of shares granted and the closing price of our common stock on the date of grant.

Stock-based compensation expense was $\$ 309,000$ and $\$ 572,000$ during the second quarters of Fiscal 2013 and 2012, respectively. Stock-based compensation expense was $\$ 996,000$ and $\$ 749,000$ during the six months of Fiscal 2013 and 2012, respectively. Of the $\$ 996,000, \$ 713,000$ related to the October 10,2012 grant. The remainder is related to the amortization of previously granted restricted stock awards, as well as nonemployee director stock units issued in lieu of their fees. Compensation expense is recognized over the requisite service period of the award or over a period ending with the employee's eligible retirement date, if earlier.

## Note 12: Contingent Liabilities and Commitments

## Repurchase Commitments

Generally, manufacturers in the RV industry enter into repurchase agreements with lending institutions which have provided wholesale floorplan financing to dealers. Most dealers' RVs are financed on a "floorplan" basis under which a bank or finance
company lends the dealer all, or substantially all, of the purchase price, collateralized by a security interest in the recreation vehicles purchased.

Our repurchase agreements provide that, in the event of default by the dealer on the agreement to pay the lending institution, we will repurchase the financed merchandise. The terms of these agreements, which generally can last up to 18 months, provide that our liability will be the lesser of remaining principal owed by the dealer or dealer invoice less periodic reductions based on the time since the date of the original invoice. Our contingent liability on these repurchase agreements was approximately $\$ 227.8$ million and $\$ 165.4$ million at March 2, 2013 and August 25, 2012, respectively.

In certain instances, we also repurchase inventory from our dealers due to state law or regulatory requirements that govern voluntary or involuntary relationship terminations. Although laws vary from state to state, some states have laws in place that require manufacturers of recreation vehicles to repurchase current inventory if a dealership exits the business. Incremental repurchase exposure beyond existing repurchase agreements, related to dealer inventory in states that we have had historical experience of repurchasing inventory, totaled $\$ 6.7$ million and $\$ 5.0$ million at March 2, 2013 and August 25, 2012, respectively.

Our risk of loss related to our repurchase commitments is significantly reduced by the potential resale value of any products that are subject to repurchase and is spread over numerous dealers and lenders. The aggregate contingent liability related to our repurchase agreements represents all financed dealer inventory at the period reporting date subject to a repurchase agreement, net of the greater of periodic reductions per the agreement or dealer principal payments. Based on the repurchase exposure as previously described, we established an associated loss reserve. Our accrued losses on repurchases were $\$ 1.1$ million as of March 2, 2013 and \$627,000 as of August 25, 2012.

A summary of repurchase activity is as follows:

| (Dollars in thousands) | Quarter Ended |  |  |  | Six Months Ended |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\begin{gathered} \hline \text { March 2, } \\ 2013 \end{gathered}$ |  | February 25, 2012 |  | $\begin{gathered} \hline \text { March 2, } \\ 2013 \end{gathered}$ |  | $\begin{gathered} \hline \text { February 25, } \\ 2012 \end{gathered}$ |  |
| Inventory repurchased: |  |  |  |  |  |  |  |  |
| Units |  | - |  | - |  | - |  | 17 |
| Dollars | \$ | - | \$ | - | \$ | - | \$ | 1,249 |
| Inventory resold: |  |  |  |  |  |  |  |  |
| Units |  | - |  | 5 |  | - |  | 17 |
| Cash collected | \$ | - | \$ | 60 | \$ | - | \$ | 1,103 |
| Loss recognized | \$ | - | \$ | 29 | \$ | - | \$ | 146 |
| Units in ending inventory |  | - |  | - |  | - |  | - |

We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to calculate our loss reserve for repurchase commitments. A hypothetical change of a $10 \%$ increase or decrease in our significant repurchase commitment assumptions at March 2, 2013 would have affected net income by approximately $\$ 245,000$.

## Litigation

We are involved in various legal proceedings which are ordinary routine litigation incidental to our business, some of which are covered in whole or in part by insurance. We believe while the final resolution of any such litigation may have an impact on our results for a particular reporting period, the ultimate disposition of such litigation will not have any material adverse effect on our financial position, results of operations or liquidity.

## Note 13: Income Taxes

We account for income taxes under ASC 740, Income Taxes. The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in our financial statements or tax returns.

Significant judgment is required in determining our provision for income taxes, our deferred tax assets and liabilities and any valuation allowance recorded against our deferred tax assets. Valuation allowances arise due to uncertainty of realizing deferred tax assets. ASC 740 requires that companies assess whether valuation allowances should be established against their deferred tax assets based on the consideration of all available evidence, using a "more-likely-than-not" standard. In making such assessments, significant weight is given to evidence that can be objectively verified. A company's current or previous losses are given more weight than its future outlook. Based on ASC 740 guidelines, as of March 2, 2013 and August 25, 2012, we have applied a valuation allowance of $\$ 1.8$ million and $\$ 1.6$ million, respectively, against our deferred tax assets. We will continue to assess the likelihood that our deferred tax assets will be realizable at each reporting period and our valuation allowance will be adjusted accordingly, which could materially impact our financial position and results of operations.

We file tax returns in the U.S. federal jurisdiction, as well as various international and state jurisdictions. Although certain years are no longer subject to examinations by the IRS and various state taxing authorities, net operating loss carryforwards generated in
those years may still be adjusted upon examination by the IRS or state taxing authorities if they either have been or will be used in a future period. Due to such carryback claims, our federal returns from Fiscal 2004 to present continue to be subject to review by the IRS. As such, the IRS is currently reviewing our Fiscal 2011 federal tax return. A number of years may elapse before an uncertain tax position is audited and finally resolved, and it is often very difficult to predict the outcome of such audits. Periodically, various state and local jurisdictions conduct audits, therefore, a variety of years are subject to state and local jurisdiction review.

As of March 2, 2013, our unrecognized tax benefits were $\$ 5.1$ million, of which if realized $\$ 3.1$ million could have a positive impact on the overall effective tax rate. It is our policy to recognize interest and penalties accrued relative to unrecognized tax benefits as tax expense. As of March 2, 2013, we had accrued $\$ 2.1$ million in interest and penalties which are included in unrecognized tax benefits. We do not anticipate any significant changes in unrecognized tax benefits within the next twelve months. Actual results may differ materially from this estimate.

## Note 14: Earnings Per Share

The following table reflects the calculation of basic and diluted income per share:

| (In thousands, except per share data) | Quarter Ended |  |  |  | Six Months Ended |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Net income (loss) | \$ | 6,285 | \$ | (912) | \$ | 13,676 | \$ | 123 |
| Weighted average shares outstanding |  | 28,084 |  | 29,151 |  | 28,196 |  | 29,145 |
| Dilutive impact of awards and options outstanding |  | 107 |  | 97 |  | 84 |  | 86 |
| Weighted average shares and potential dilutive shares outstanding |  | 28,191 |  | 29,248 |  | 28,280 |  | 29,231 |
| Net income (loss) per share - assuming dilution | \$ | 0.22 | \$ | (0.03) | \$ | 0.48 | \$ | 0.00 |

At the end of the second quarters of Fiscal 2013 and Fiscal 2012, there were options outstanding to purchase 673,328 shares and 790,331 shares, respectively, of common stock at an average price of $\$ 29.83$ and $\$ 29.03$, respectively, which were not included in the computation of diluted income per share because they are considered anti-dilutive under the treasury stock method per ASC 260, Earnings Per Share.

## Note 15: Subsequent Event

We evaluated all events or transactions occurring between the balance sheet date for the quarterly period ended March 2, 2013 and the date of issuance of the financial statements that would require recognition or disclosure in the financial statements. There were no material subsequent events.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

It is suggested this management's discussion be read in conjunction with the Financial Statements contained in this Form 10-Q as well as the Management's Discussion and Analysis and Risk Factors included in our Annual Report on Form 10-K for the fiscal year ended August 25, 2012.

## Forward-Looking Information

Certain of the matters discussed in this Quarterly Report on Form 10-Q are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which involve risks and uncertainties. A number of factors could cause actual results to differ materially from these statements, including, but not limited to, increases in interest rates, availability of credit, low consumer confidence, significant increase in repurchase obligations, inadequate liquidity or capital resources, availability and price of fuel, a slowdown in the economy, increased material and component costs, availability of chassis and other key component parts, sales order cancellations, slower than anticipated sales of new or existing products, new product introductions by competitors, the effect of global tensions, integration of operations relating to mergers and acquisitions activities and other factors which may be disclosed throughout this report. Although we believe that the expectations reflected in the "forward-looking statements" are reasonable, we cannot guarantee future results, or levels of activity, performance or achievements. Undue reliance should not be placed on these "forward-looking statements," which speak only as of the date of this report. We undertake no obligation to publicly update or
revise any "forward-looking statements" whether as a result of new information, future events or otherwise, except as required by law or the rules of the NYSE.

## Executive Overview

Winnebago Industries, Inc. is a leading US manufacturer of RVs with a proud history of manufacturing RV products for more than 50 years. We produce all of our motorhomes in vertically integrated manufacturing facilities in lowa and we produce all travel trailer and fifth wheels in Indiana. We distribute our products primarily through independent dealers throughout the US and Canada, who then retail the products to the end consumer.

Our retail unit market share, as reported by Stat Surveys based on state records, is illustrated below. Note that this data is subject to adjustment and is continuously updated.

(Mar 2012-Feb 2013)
Highlights of the first six months of Fiscal 2013:
Motorized performance:

- We continued to see growing demand for our product during the first half of Fiscal 2013 at the wholesale and retail level. For the second quarter of Fiscal 2013 wholesale deliveries were up over $40 \%$ and retail registrations were up approximately $23 \%$ as compared to the second quarter of Fiscal 2012. We have also seen our motorized backlog increase for five consecutive Fiscal quarters which we view as a further evidence of the strong demand for our product. The ramp up in our production has been accomplished through a combination of overtime and hiring of incremental hourly employees; it also required ordering larger quantities of materials. The benefit of the increased production has been realized in improved operating results, notably due to better absorption of our overhead costs.
- In comparison, we experienced a dramatically different environment one year ago during the first half of Fiscal 2012. Demand was very weak and as a result we utilized multiple shortened work weeks to reduce production and then increased sales incentives to secure more orders. Conversely, the first half of Fiscal 2013 benefited from continued strong dealer demand that did not require the same level of sales incentives.

Towables performance:

- Towables generated an operating loss of $\$ 2.2$ million in the first half of Fiscal 2013 compared to an operating loss of $\$ 470,000$ in the first half of Fiscal 2012. The two most significant issues that negatively impacted Towables' operating performance during the first half of Fiscal 2013 were increased warranty expense due to escalating negative claim experience and unfavorable overhead variances due to lower production. Significant changes have been made throughout the first half of Fiscal 2013 in key management positions to address the recent performance problems. Notably, a new Towables President was named in January 2013 and leadership responsibilities of warranty and service were centralized to the Company's headquarters in lowa to better leverage the Company's industry leading capabilities, processes and expertise of long time motorized resources. During February 2013, production was idled in one of the assembly plants where production issues had been pervasive and only a small core group of employees were retained to train and work in the other assembly plant that has not experienced similar issues. Our intention is to reopen the plant once the appropriate employee training has occurred and the capacity is needed.

## Company Outlook

Based on our profitable operating results in recent years, we believe that we have demonstrated our ability to maintain our liquidity, cover operations costs, recover fixed assets, and maintain physical capacity at present levels. Now that we have entered into the towable market, we have the potential to grow revenues and earnings in a market significantly larger than the motorized market.

As evidenced in the following table, our motorhome sales order backlog at the end of the second quarter of Fiscal 2013 significantly increased as compared to the end of the second quarter of Fiscal 2012. It has also increased sequentially from the end of the first quarter of Fiscal 2013, as previously illustrated. We believe the increase is a result of the overall growth of the RV industry coupled with positive dealer response and increased retail registration activity of our products. The demand for our product has outpaced the overall industry growth and thus our Class A and C retail market share increased from 19.0\% to 20.6\% from the end of calendar year 2011 to the end of calendar year 2012.

As a result of the improved demand, we have been increasing our production throughout the past nine months. We have increased our weekly production schedule in the second quarter of Fiscal 2013 to meet the growing demand for our products while managing constraints as they present themselves in relation to labor and component parts. Although we had fewer production days in our Fiscal second quarter as compared to the first quarter of Fiscal 2013, we did produce at a higher rate per production day. When measured as units produced per production day our production increased by $24 \%$. The impact of the increased production in our fiscal second quarter combined with lower wholesale volume compared to the first fiscal quarter increased our finished goods level by approximately $\$ 22.5$ million within the quarter. Approximately $50 \%$ of the finished goods increase is attributable to an increase in units in transit to our dealers.

Our motorized sales order backlog of 2,752 as of March 2, 2013 represents orders to be shipped in the next two quarters.
We believe that the level of our dealer inventory at the end of the second quarter of Fiscal 2013 is aligned with current market conditions given the improved retail demand and increased sales order backlog of our product.

Our unit order backlog was as follows:

${ }^{(2)}$ Includes towable units and parts.
The increase in motorhome net revenues of $\$ 47.9$ million or $44.4 \%$ was attributed primarily to a $41.8 \%$ increase in unit deliveries, as well as an increase in motorhome ASP of $2.1 \%$ as compared to the second quarter of Fiscal 2012. The increase in ASP was partially due to reductions in certain discounts offered in 2012 that were necessary when we chose to produce specific products rather than incur unabsorbed overhead costs.

The decrease in Towables revenues of $\$ 2.6$ million or $17.8 \%$ was attributed to a decrease in ASP of $14.9 \%$ as well as a $2.5 \%$ decrease in unit deliveries as compared to the second quarter of Fiscal 2012.

Cost of goods sold was $\$ 160.0$ million, or $90.3 \%$ of net revenues for the second quarter of Fiscal 2013 compared to $\$ 124.8$ million, or $94.8 \%$ of net revenues for the second quarter of Fiscal 2012 due to the following:

- Total variable costs (materials, direct labor, variable overhead, delivery expense and warranty), as a percent of net revenues, decreased to $84.1 \%$ this year from $86.9 \%$ last year which was primarily due to lower material costs and greater production efficiencies due to increased production levels and was partially offset by increased warranty expense.
- Fixed overhead (manufacturing support labor, depreciation and facility costs) and research and development-related costs decreased to $6.2 \%$ of net revenues compared to $7.9 \%$ for Fiscal 2012. This difference was primarily due to significantly higher production levels in Fiscal 2013.
- All factors considered, gross profit increased from $5.2 \%$ to $9.7 \%$ of net revenues.

Selling expenses decreased $\$ 161,000$, or $4.0 \%$, in the second quarter of Fiscal 2013 . The expense decrease was primarily due to advertising expenses associated with the timing of our Louisville show falling in the first quarter of Fiscal 2013 (the show typically is expensed in our second fiscal quarter) and was partially offset by increased sales compensation expense. As a percent of net revenues, selling expenses were $2.2 \%$ and $3.0 \%$ in the second quarter of Fiscal 2013 and Fiscal 2012, respectively.

General and administrative expenses increased $\$ 470,000$, or $11.7 \%$ in the second quarter of Fiscal 2013. This increase was due primarily to increases of $\$ 500,000$ in incentives accrued under annual and long-term bonus plans, $\$ 240,000$ in product liability expenses, and was partially offset by a reduction of $\$ 325,000$ in stock-based compensation expense. As a percent of net revenues, general and administrative expenses were $2.5 \%$ and $3.1 \%$ in the second quarter of Fiscal 2013 and Fiscal 2012, respectively.

Non-operating expense decreased $\$ 91,000$ or $82.7 \%$, in the second quarter of Fiscal 2013. This difference is due to decreased financing fees and COLI expenses.

The overall effective income tax provision rate for the second quarter of Fiscal 2013 was $29.0 \%$ compared to the tax benefit rate of $28.4 \%$ for the second quarter of Fiscal 2012. The increase in tax rate for the second quarter of Fiscal 2013 most notably is a result of the level of pretax book income earned during the quarter. We also had a reduced level (in comparison to book income) of benefits recorded for uncertain tax positions during the quarter. Most notably, our effective tax benefit rate for the second quarter of Fiscal 2012 was impacted by the lack of taxable income being generated during the quarter, thus resulting in minimal tax being recorded during the quarter from operations. In addition, we recorded tax benefits in the quarter associated with tax planning initiatives as well as reductions to reserves for uncertain tax positions.

Net income and diluted income per share were $\$ 6.3$ million and $\$ 0.22$ per share, respectively, for the second quarter of Fiscal 2013. In the second quarter of Fiscal 2012, the net loss was $\$ 912,000$ and diluted loss was $\$ 0.03$ per share. The impact of stock repurchases since July 2012 (the date we began recent repurchases) on diluted net income per share was an increase of $\$ 0.01$ for the second quarter of Fiscal 2013. See Part II, Item 2.

${ }^{(1)}$ Motorhome unit revenue less discounts, sales promotions and incentives, and accrued loss on repurchase adjustments.
${ }^{(2)}$ Includes towable units and parts.
The increase in motorhome net revenues of $\$ 106.2$ million or $48.4 \%$ was attributed primarily to a $44.7 \%$ increase in unit deliveries, as well as an increase in motorhome ASP of $2.7 \%$ in the first six months of Fiscal 2013 as compared to the first six months of Fiscal 2012. ASPs were positively impacted in the first six months of Fiscal 2013 by a higher mix of Class A products, as well as decreased discounts and promotional pricing.

Towables revenues were $\$ 24.0$ million in the first six months of Fiscal 2013, compared to $\$ 24.6$ million in the first six months of Fiscal 2012. Overall, the $10.8 \%$ increase in unit deliveries was offset by a $11.0 \%$ decrease in ASPs.

Cost of goods sold was $\$ 332.8$ million, or $89.8 \%$ of net revenues for the first six months of Fiscal 2013 compared to $\$ 248.1$ million, or $94.2 \%$ of net revenues for the first six months of Fiscal 2012 due to the following:

- Total variable costs (materials, direct labor, variable overhead, delivery expense and warranty), as a percent of net revenues, decreased to $83.9 \%$ this year from $86.0 \%$ last year which was primarily due to lower material costs and greater production efficiencies due to increased production levels.
- Fixed overhead (manufacturing support labor, depreciation and facility costs) and research and development-related costs decreased to $12.3 \%$ of net revenues compared to $8.1 \%$ for Fiscal 2012. This difference was primarily due to higher plant utilization due to the additional week in the first six months of Fiscal 2013 and significantly higher production levels in Fiscal 2013.
- All factors considered, gross profit increased from $5.8 \%$ to $10.2 \%$ of net revenues.

Selling expenses increased $\$ 638,000$, or $7.8 \%$, in the first six months of Fiscal 2013. The expense increase was due to increased sales compensation and stock-based compensation expenses. As a percent of net revenues, selling expenses were $2.4 \%$ and $3.1 \%$ in the first six months of Fiscal 2013 and Fiscal 2012, respectively.

General and administrative expenses increased $\$ 2.6$ million, or $33.3 \%$ in the first six months of Fiscal 2013. This increase was due primarily to increases of $\$ 1.9$ million in incentives accrued under annual and long-term bonus plans, $\$ 300,000$ in legal expenses, $\$ 290,000$ in product liability expense. As a percent of net revenues, general and administrative expenses were $2.8 \%$ and $2.9 \%$ in the first six months of Fiscal 2013 and Fiscal 2012, respectively.

During the first quarter of Fiscal 2013 we realized a loss of $\$ 28,000$ on the sale of an idled manufacturing facility (Hampton). See Note 6.

Non-operating income increased $\$ 448,000$ or $304.8 \%$, in the first six months of Fiscal 2013. This difference is primarily due to increased proceeds from COLI policies of $\$ 331,000$ and reduced financing fees.

The overall effective income tax provision rate for the first six months of Fiscal 2013 was $29.6 \%$ compared to the tax benefit rate of $131.5 \%$ for the first six months of Fiscal 2012. The tax rate for the first six months of Fiscal 2013 most notably is a result of the level of pretax book income earned during the first six months of Fiscal 2013. We also had a reduced level (in comparison to book income) of benefits recorded for uncertain tax positions during the first six months. Most notably, our effective tax benefit rate for the first six months of Fiscal 2012 was impacted by the pretax loss recorded during the first six months, as well as favorable tax benefits being recorded to the reserve for uncertain tax positions, as well as tax planning initiatives recorded during this period.

Net income and diluted income per share were $\$ 13.7$ million and $\$ 0.48$ per share, respectively, for the first six months of Fiscal 2013. In the first six months of Fiscal 2012, the net income was $\$ 123,000$ and diluted income was $\$ 0.00$ per share. The impact of stock repurchases since July 2012 (the date we began recent repurchases) on diluted net income per share was an increase of $\$ 0.02$ for the first six months of Fiscal 2013. See Part II, Item 2.

## Analysis of Financial Condition, Liquidity and Resources

Cash and cash equivalents decreased $\$ 36.4$ million during the first six months of Fiscal 2013 and totaled $\$ 26.2$ million as of March 2, 2013. Significant liquidity events that occurred during the first six months of Fiscal 2013 were:

- Generated net income of $\$ 13.7$ million
- Increase in inventory of $\$ 37.4$ million: The increase was primarily a result of significantly more finished goods units ready for delivery and in transit
- Stock repurchases of approximately $\$ 8.4$ million

On October 31, 2012, we entered into the Credit Agreement with GECC. The Credit Agreement provides for an initial $\$ 35.0$ million revolving credit facility based on our eligible inventory and expires on October 31, 2015 unless terminated earlier in accordance with its terms. There is no termination fee associated with the Credit Agreement.

The Credit Agreement contains no financial covenant restrictions for borrowings where we have excess borrowing availability under the facility of greater than $\$ 5.0$ million. The Credit Agreement requires us to comply with a fixed charge ratio if excess borrowing availability under the facility is less than $\$ 5.0$ million or if we repurchase more than $\$ 25.0$ million of company stock within the first twelve months of the date of the Credit Agreement. In addition, the Credit Agreement also includes a framework to expand the size of the facility up to $\$ 50.0$ million, based on mutually agreeable terms at the time of the expansion. See Note 8.

We filed a Registration Statement on Form S-3, which was declared effective by the SEC on March 31, 2010. Subject to market conditions, we have the ability to offer and sell up to $\$ 35$ million of our common stock in one or more offerings pursuant to the Registration Statement. The Registration Statement will be available for use for three years from its effective date. We currently have no plans to offer and sell the common stock registered under the Registration Statement; however, it does provide another potential source of liquidity in addition to the alternatives already in place. We intend to file a Registration Statement on Form S-3 in April of 2013.

Working capital at March 2, 2013 and August 25, 2012 was $\$ 130.5$ million and $\$ 126.1$ million, respectively, an increase of $\$ 4.4$ million. We currently expect cash on hand, funds generated from operations and the availability under a credit facility to be sufficient to cover both short-term and long-term operating requirements. We anticipate capital expenditures during the balance of Fiscal 2013 of approximately $\$ 3.7$ million, primarily for manufacturing equipment and facilities.

We made share repurchases of $\$ 8.4$ million in the first six months of Fiscal 2013. If we believe the common stock is trading at attractive levels we may purchase additional shares in the remainder of Fiscal 2013.

## Operating Activities

Cash used in operating activities was $\$ 26.1$ million for the six months ended March 2, 2013 compared to cash provided by operating activities of $\$ 11.4$ million for the six months ended February 25, 2012. The combination of net income of $\$ 13.7$ million in Fiscal 2013 and changes in non-cash charges (e.g., depreciation, LIFO, stock-based compensation, deferred income taxes) provided $\$ 15.1$ million of operating cash compared to $\$ 4.1$ million in the first six months of Fiscal 2012. In the six months ended March 2, 2013 changes in assets and liabilities (primarily increases in inventories and receivables) used an additional $\$ 41.2$ million of operating cash. In the six months ended February 25, 2012, changes in assets and liabilities (primarily a decrease in inventories) provided $\$ 7.3$ million of operating cash.

## Investing Activities

Cash used in investing activities of $\$ 1.8$ million for the six months ended March 2, 2013 was due primarily to capital spending of $\$ 2.4$ million and payments of COLI borrowings of $\$ 1.4$ million, and was partially offset by proceeds of $\$ 974,000$ from COLI policies and proceeds of $\$ 614,000$ from the sale of property. In the six months ended February 25,2012 , cash provided by investing activities of $\$ 297,000$ was mostly due to ARS redemptions of $\$ 750,000$ and COLI proceeds of $\$ 643,000$, partially offset by capital spending of $\$ 1.2$ million.

## Financing Activities

Cash used in financing activities of $\$ 8.5$ million for the six months ended March 2, 2013 was primarily due to $\$ 8.4$ million in repurchases of our stock. Cash used in financing activities for the six months ended February 25, 2012 was $\$ 202,000$.

## Significant Accounting Policies

We describe our significant accounting policies in Note 1, Summary of Significant Accounting Policies, of the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended August 25, 2012. We discuss our critical accounting estimates in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in our Annual Report on Form 10-K for the fiscal year ended August 25, 2012. We refer to these disclosures for a detailed explanation of our significant accounting policies and critical accounting estimates. There has been no significant change in our significant accounting policies or critical accounting estimates since the end of Fiscal 2012.

Item 3. Quantitative and Qualitative Disclosures About Market Risk
We have market risk exposure to our ARS, which is described in further detail in Note 4.
Item 4. Controls and Procedures

## Evaluation of Disclosure Controls and Procedures

We maintain "disclosure controls and procedures", as such term is defined under Securities Exchange Act of 1934, as amended ("Exchange Act") Rule 13a-15(e), that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. Management necessarily applied its judgment in assessing the costs and benefits of such controls and procedures, which, by their nature, can provide only reasonable assurance regarding management's disclosure control objectives.

We have carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, required by Exchange Act Rule 13a-15(b), as of the end of the period covered by this Report (the "Evaluation Date"). Based on this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of the Evaluation Date.

## Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting as defined in Exchange Act Rule 13a-15(f) that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II OTHER INFORMATION

## Item 1. Legal Proceedings

We are involved in various legal proceedings which are ordinary routine litigation incidental to our business, some of which are covered in whole or in part by insurance. We believe, while the final resolution of any such litigation may have an impact on our results for a particular reporting period, the ultimate disposition of such litigation will not have any material adverse effect on our financial position, results of operations or liquidity.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds
On December 19, 2007, the Board of Directors authorized the repurchase of outstanding shares of our common stock, depending on market conditions, for an aggregate consideration of up to $\$ 60$ million. There is no time restriction on this authorization. During the second quarter of Fiscal 2013, approximately 69,000 shares were repurchased under the authorization, at an aggregate cost of approximately $\$ 1.3$ million. Approximately 500 of these shares were repurchased from employees who vested in Winnebago Industries shares during the second quarter of Fiscal 2013 and elected to pay their payroll tax via shares as opposed to cash. As of March 2, 2013, there was approximately $\$ 44.2$ million remaining under this authorization.

This table provides information with respect to purchases by us of shares of our common stock during each fiscal month of the second quarter of Fiscal 2013:

In January 2013, a director exercised options to purchase 4,000 shares of common stock on a cashless, net exercise basis. The director was issued 64 shares as a result of the option exercise.

## CERTIFICATION BY CHIEF EXECUTIVE OFFICER <br> PURSUANT TO 18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Randy Potts, Chief Executive Officer of Winnebago Industries, Inc., certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Winnebago Industries, Inc. (the "Registrant");
2. Based on my knowledge, this Quarterly Report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this Quarterly Report;
3. Based on my knowledge, the financial statements and other financial information included in this Quarterly Report fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this Quarterly Report;
4. The Registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures as defined in Exchange Act Rules 13a-15(e) and 15d-15(e) and internal control over financial reporting as defined in Exchange Act Rules 13a-15(f) and 15d-15(f) for the Registrant and have:
a. designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision to ensure that material information relating to the Registrant is made known to us by others within those entities, particularly during the period in which this Quarterly Report is being prepared;
b. designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
c. evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this Quarterly Report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this Quarterly Report based on such evaluation;
d. disclosed in this Quarterly Report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's second fiscal quarter in this case) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting;
5. The Registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of Registrant's Board of Directors (or persons performing the equivalent functions):
a. all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
b. any fraud, whether or not material, that involved management or other employees who have a significant role in the Registrant's internal control over financial reporting.

## CERTIFICATION BY CHIEF FINANCIAL OFFICER PURSUANT TO 18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Sarah N. Nielsen, Chief Financial Officer of Winnebago Industries, Inc., certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Winnebago Industries, Inc. (the "Registrant");
2. Based on my knowledge, this Quarterly Report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this Quarterly Report;
3. Based on my knowledge, the financial statements and other financial information included in this Quarterly Report fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this Quarterly Report;
4. The Registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures as defined in Exchange Act Rules 13a-15(e) and 15d-15(e) and internal control over financial reporting as defined in Exchange Act Rules 13a-15(f) and 15d-15(f) for the Registrant and have:
a. designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision to ensure that material information relating to the Registrant is made known to us by others within those entities, particularly during the period in which this Quarterly Report is being prepared;
b. designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
c. evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this Quarterly Report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this Quarterly Report based on such evaluation;
d. disclosed in this Quarterly Report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's second fiscal quarter in this case) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting;
5. The Registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of Registrant's Board of Directors (or persons performing the equivalent functions):
a. all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
b. any fraud, whether or not material, that involved management or other employees who have a significant role in the Registrant's internal control over financial reporting.
