WINNEBAGO INDUSTRIES ANNOUNCES SECOND QUARTER FISCAL 2017 RESULTS

-- Quarterly gross margin expansion of 210 basis points compared to prior year --

-- Towable segment accounted for 46% of revenue in second quarter of Fiscal 2017 --

FOREST CITY, IOWA, March 22, 2017 - Winnebago Industries, Inc. (NYSE:WGO), a leading United States recreation vehicle manufacturer, today reported financial results for the Company's second quarter of Fiscal 2017.

Second Quarter Fiscal 2017 Results

Revenues for the Fiscal 2017 second quarter ended February 25, 2017, were \$370.5 million, an increase of 64.2%, compared to \$225.7 million for the Fiscal 2016 period. Gross profit was \$49.3 million, an increase of 95.1% compared to \$25.3 million for the Fiscal 2016 period as gross profit margins expanded 210 basis points driven by the favorable inclusion of Grand Design products within the overall sales mix. Operating income was \$28.4 million for the current quarter, an improvement of 110.1% compared to \$13.5 million in the second quarter of last year. Fiscal 2017 second quarter net income was \$15.3 million, or \$0.48 per diluted share, an increase of 63.3% compared to \$9.4 million, or \$0.35 per diluted share, in the same period last year.

President and Chief Executive Officer Michael Happe commented, "Our second quarter results reflect our progress in transforming Winnebago into a larger company with greater scale, a more balanced portfolio, increased profitability and better positioned to compete effectively across the entire RV market. In our first full quarter with Grand Design as part of our organization, we continued to deliver significant wholesale and retail growth in our Towable segment, enabling us to reach our highest level of consolidated gross margin in nearly a decade. In addition to delivering improved profitability, we also made significant progress in further strengthening our balance sheet by reducing our debt by \$13 million in the quarter. As we move into the second half of 2017, we intend to build on this momentum by further expanding Towable market penetration and working diligently to improve future results for our Motorized business by strengthening product value and leveraging our reputation for industry leading customer service."

Significant items impacting income before income taxes in the second quarter of Fiscal 2017:

- Postretirement health care benefit income: as previously disclosed, the Company's decision to terminate its postretirement health care plan effective January 1, 2017 positively impacted the quarter by \$12.0 million or \$0.25 per diluted share, net of tax, compared to prior year postretirement health care benefit income of \$1.6 million or \$0.04 per diluted share, net of tax. All of the benefits of this plan termination have now been recorded in the financial statements and there will be no further impact on a prospective basis.
- Grand Design acquisition related expenses:
 - additional transaction costs related to the Grand Design acquisition were \$0.5 million, or \$0.01 per diluted share, net of tax
 - a full quarter of amortization expense of \$10.4 million was recorded related to the definite-lived intangible assets acquired, or \$0.22 per diluted share, net of tax. We expect that there will be a similar level of amortization expense in the third quarter of Fiscal 2017 as the remaining backlog-related intangible assets are amortized. Starting in the

fiscal fourth quarter, we expect amortization expense will be approximately \$2.0 million per quarter through Fiscal 2021.

- a full quarter of interest expense of \$5.2 million was recorded related to the debt established to fund the acquisition, or \$0.11 per diluted share, net of tax.

Excluding these items as well as depreciation expense, consolidated adjusted EBITDA (a non-GAAP measure) was \$29.1 million compared to \$13.3 million last year, an increase of 118.5%.

Motorized

Revenues for the Motorized segment were \$198.9 million for the quarter, down 3.0% from the previous year. Although unit deliveries were up 3.6% over the prior year same quarter, the average selling price of product sold decreased 5.2% due to a shift in product mix. Segment Adjusted EBITDA was \$9.1 million, down 22.3% from the prior year. Adjusted EBITDA decreased 110 basis points, primarily driven by product mix, pricing pressures and acceleration of West Coast operations.

Towable

Revenues for the Towable segment were \$171.6 million for the quarter, up \$151.0 million over the prior year, driven by the addition of \$143.6 million in revenue from the Grand Design acquisition and continued strong organic growth from Winnebago-branded Towable products in excess of 36%. Segment Adjusted EBITDA was \$20.0 million, up \$18.4 million over the prior year. Adjusted EBITDA increased 400 basis points primarily due to the inclusion of Grand Design's products within this segment.

Balance Sheet

As of February 25, 2017, the Company had total outstanding debt of \$329.5 million (\$340.0 million of debt, net of debt issuance costs of \$10.5 million) and working capital of \$142.1 million. The debt to equity ratio was 81.8% and the current ratio was 1.9 as of the end of the quarter. Cash from operations improved by \$14.0 million compared to the same period last year.

Forward Looking Statements

This press release may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Investors are cautioned that forward-looking statements are inherently uncertain. A number of factors could cause actual results to differ materially from these statements, including, but not limited to increases in interest rates, availability of credit, low consumer confidence, availability of labor, significant increase in repurchase obligations, inadequate liquidity or capital resources, availability and price of fuel, a slowdown in the economy, increased material and component costs, availability of chassis and other key component parts, sales order cancellations, slower than anticipated sales of new or existing products, new product introductions by competitors, the effect of global tensions, integration of operations relating to mergers and acquisitions activities, any unexpected expenses related to ERP, risks relating to the integration of our acquisition of Grand Design including: risks inherent in the achievement of cost synergies and the timing thereof, risks related to the disruption of the

transaction to Winnebago and Grand Design and its management, the effect of the transaction on Grand Design's ability to retain and hire key personnel and maintain relationships with customers, suppliers and other third parties, risk related to compliance with debt covenants and leverage ratios, risks related to integration of the two companies and other factors. Additional information concerning certain risks and uncertainties that could cause actual results to differ materially from that projected or suggested is contained in the Company's filings with the Securities and Exchange Commission (SEC) over the last 12 months, copies of which are available from the SEC or from the Company upon request. The Company disclaims any obligation or undertaking to disseminate any updates or revisions to any forward looking statements contained in this release or to reflect any changes in the Company's expectations after the date of this release or any change in events, conditions or circumstances on which any statement is based, except as required by law.

Non-GAAP Reconciliation

The Company has provided non-GAAP financial measures, which are not calculated or presented in accordance with GAAP, as information supplemental and in addition to the financial measures presented in the accompanying news release that are calculated and presented in accordance with GAAP. Such non-GAAP financial measures should not be considered superior to, as a substitute for, or as an alternative to, and should be considered in conjunction with, the GAAP financial measures presented in the news release. The non-GAAP financial measures in the accompanying news release may differ from similar measures used by other companies.

The following table reconciles net income to consolidated Adjusted EBITDA.

Adjusted EBITDA	<u>\$ 29,071</u>	<u>\$ 13,303</u>	<u>\$ 43,750</u>	<u>\$ 26,087</u>

The Company has provided non-GAAP performance measures of EBITDA and Adjusted EBITDA as a comparable measure to illustrate the effect of non-recurring transactions occurring during the quarter and improve comparability of our results from period to period. EBITDA is defined as net income before interest expense, provision for income taxes, and depreciation and amortization expense. We believe EBITDA and Adjusted EBITDA provide meaningful supplemental information about our operating performance because they exclude amounts that we do not consider part of our core operating results when assessing our performance. These types of adjustments are also specified in the definition of certain measures required under the terms of our credit facility. Examples of items excluded from Adjusted EBITDA include the postretirement health care benefit results from terminating the plan and the transaction costs related to our acquisition of Grand Design.

Management uses these non-GAAP financial measures (a) to evaluate the Company's historical and prospective financial performance as well as its performance relative to competitors and peers as they assist in highlighting trends; (b) to measure operational profitability on a consistent basis; (c) in presentations to the members of our board of directors to enable our board of directors to have the same measurement basis of operating performance as is used by management in their assessments of performance and in forecasting and budgeting for our company; (d) to evaluate potential acquisitions; and, (e) to ensure compliance with covenants and restricted activities under the terms of our credit facility. We believe these non-GAAP financial measures are frequently used by securities analysts, investors and other interested parties to evaluate companies in our industry.
