FPB FINANCIAL CORP. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

June 30, 2001

Note 1 - Basis of Presentation -

The accompanying consolidated financial statements at June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include the accounts of FPB Financial Corp. (the Company) and its wholly owned subsidiary, Florida Parishes Bank (the Bank). Currently, the business and management of FPB Financial Corp. is primarily the business and management of the Bank. All significant inter-company transactions and balances have been eliminated in the consolidation.

On February 23, 1999, the Bank incorporated FPB Financial Corp. to facilitate the conversion of the Bank from mutual to stock form (the Conversion). In connection with the Conversion, the Company offered its common stock to the depositors and borrowers of the Bank as of specified dates, to an employee stock ownership plan and to members of the general public. Upon consummation of the Conversion on June 30, 1999, all of the Bank's outstanding common stock was issued to the Company, the Company became the holding company for the Bank and the Company issued 331,355 shares of common stock.

The Conversion was accounted for under the pooling of interest method of accounting. In the Conversion, the Company issued 331,355 shares of common stock, 26,508 shares of which were acquired by its Employee Stock Ownership Plan, and the Bank issued 1,000 shares of \$.01 par value common stock to the Company.

The accompanying consolidated unaudited financial statements were prepared in accordance with instructions for Form 10-QSB and, therefore, do not include information or footnotes necessary for a complete presentation of financial position, results of operations and cash flows in conformity with generally accepted accounting principles. However, all adjustments (consisting only of normal recurring accruals) which, in the opinion of management, are necessary for a fair presentation of the consolidated financial statements have been included. The results of operations for the six months ended June 30, 2001 are not necessarily indicative of the results to be expected for the year ending December 31, 2001.

Note 2 - Employee Stock Ownership Plan-

The Company sponsors a leveraged employee stock ownership plan (ESOP) that covers all employees who have at least one year of service with the Company. The ESOP shares initially were pledged as collateral for its debt. The debt is being repaid based on a thirteen-year amortization and the shares are being released for allocation to active employees annually over the thirteen-year period. The shares pledged as collateral are deducted from stockholders equity as unearned ESOP shares in the accompanying balance sheets.

As shares are released from collateral, the Company reports compensation expense equal to the current market price of the shares. Dividends on allocated ESOP shares are recorded as a reduction of retained earnings; dividends on unallocated ESOP shares are recorded as additional compensation expense.

The ESOP shares as of June 30, 2001 were as follows:

Allocated shares.....	4,487
Shares released for allocation.....	1,055
Unreleased shares.....	<u>21,191</u>
Total ESOP shares.....	<u>26,733</u>
Fair value of unreleased shares.....	<u>\$318,925</u>

Note 3 - Earnings Per Share -

The computation of basic earnings per share for the three and six months ended June 30, 2001 includes reported net income of \$87,914 and \$144,021 in the numerator respectively and the weighted average number of shares outstanding of 292,283 and 292,676 in the denominator respectively. Diluted earnings per share are calculated with reported net income in the numerator and the weighted average number of shares outstanding of 295,416 and 295,127 in the denominator.

Note 4 - Recognition and Retention Plan

On April 25, 2000, the Company's stockholders approved a Recognition and Retention Plan (RRP) as an incentive to retain personnel of experience and ability in key positions. The shareholders approved a total of 13,254 shares of stock to be acquired for the Plan, of which 7,954 shares have been allocated for distribution to key employees and directors. As shares are acquired for the plan, the purchase price of these shares is recorded as unearned compensation, a contra equity account. As the shares are distributed, the contra equity account is reduced. The allocated shares are earned by participants as plan share awards vest over a specified period. If the service of an employee or non-employee director plan participant is terminated prior to the end of the vesting period for any reason other than death, disability, retirement or a change in control, the recipient shall forfeit the right to any shares subject to the awards which have not been earned. The compensation cost associated with the plan is based on the market price of the stock as of the date on which the plan shares are earned.

Note 5 - Stock Option Plan

On April 25, 2000, the Company's stockholders approved a stock option plan for the benefit of directors, officers, and other key employees. An amount equal to 10% of the total number of common shares issued in the initial public offering or 33,135 shares are reserved for issuance under the stock option plan. The option exercise price cannot be less than the fair value of the underlying common stock as of the date of the option grant and the maximum option term cannot exceed ten years.

The stock option plan also permits the granting of stock appreciation rights (SARs). SARs entitle the holder to receive, in the form of cash or stock, the increase in fair value of the Company's common stock from the date of the grant to the date of exercise. No SARs have been issued under the plan.

The following table summarizes the activity related to stock options:

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General

The following discussion compares the consolidated financial condition of FPB Financial Corp. and Subsidiary at June 30, 2001 to December 31, 2000 and the results of operations for the three and six months ended June 30, 2001 with the same periods in 2000. Currently, the business and management of FPB Financial Corp. is primarily the business and management of the Bank. This discussion should be read in conjunction with the interim consolidated financial statements and footnotes included herein.

This quarterly report on Form 10 - QSB includes statements that may constitute forward-looking statements, usually containing the words "believe", "estimate", "expect", "intend" or similar expressions. These statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements inherently involve risks and uncertainties that could cause actual results to differ materially from those reflected in the forward-looking statements. Factors that could cause future results to vary from current expectations include, but are not limited to, the following: changes in economic conditions (both generally and more specifically in the markets in which the Company operates); changes in interest rates, accounting principles, policies or guidelines and in government legislation and regulation (which change from time to time and over which the Company has no control); and other risks detailed in this quarterly report on Form 10 - QSB and the Company's other Securities and Exchange Commission filings. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's analysis only as of the date hereof. The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof.

FPB Financial Corp. is the holding company for the Bank. Substantially all of the Company's assets are currently held in, and its operations are conducted through, its sole subsidiary the Bank. The Company's business consists primarily of attracting deposits from the general public and using such deposits to make loans for the purchase and construction of residential properties. The Company also originates commercial real estate loans and various types of consumer and commercial loans.

Changes in Financial Condition

The Company's total assets increased \$2.6 million, or 4.23%, from \$61.4 million at December 31, 2000 to \$64.0 million at June 30, 2001. This increase was primarily due to increases of \$5.5 million in net loans receivable, and increase in other assets of \$126,000, and was offset by a decrease of \$2.7 million in investment securities, and a decrease of \$310,000 in cash and cash equivalents.

Interest-earning deposits in other institutions decreased by \$286,000, or 9.23%, from \$3.1 million at December 31, 2000 to \$2.8 million at June 30, 2001. This decrease was primarily due to increased loan demand.

The demand for mortgage and consumer loans in the Bank's market area increased during the past six months. The net loan portfolio increased \$5.5 million, or 11.8%, from \$46.6 million at December 31, 2000 to \$52.1 million at June 30, 2001.

The Company's total classified assets for regulatory purposes at June 30, 2001 (excluding loss assets specifically reserved for) amounted to \$328,000, all of which are classified as substandard. This represents an increase of \$172,000, or 110.3%, from \$156,000 at December 31, 2000. The largest classified asset at June 30, 2001 consisted of an \$83,000 residential loan. The remaining \$245,000 of substandard assets at June 30, 2001 consisted of eight residential mortgage loans and two consumer loans.

The increase in other assets was due in part to the deposit paid for a parcel of land. The Company plans to construct a new office on this parcel at an estimated cost for land and improvements of \$2.5 million.

Deposits increased by \$2.4 million, or 5.2%, from \$46.0 million at December 31, 2000 to \$48.4 million at June 30, 2001. The \$2.4 million increase was made up of \$350,000 in interest-bearing deposits and \$2.0 million in non-interest bearing deposits. Federal Home Loan Bank advances were \$8.2 million at December 31, 2000, and \$8.2 million at June 30, 2001. Advances were utilized to structure liabilities for asset-liability management purposes.

Total stockholders' equity increased by \$91,000 in the six months ending June 30, 2001. Net income of \$144,000, ESOP shares released for allocation of \$10,000, \$17,000 release of Management Recognition and Retention Plan stock and \$5,000 unrealized gain on investment securities were partially offset by the purchase of \$35,000 of treasury stock, \$11,000 of Management Recognition and Retention Plan stock, and \$40,000 in dividends paid.

Liquidity and Capital Resources

In the past, the Bank was required under applicable federal regulations to maintain specified levels of "liquid" investments in qualifying types of U. S. Government, federal agency and other investments having maturities of up to five years. OTS regulations required that a savings institution maintain liquid assets of not less than 4% of its average daily balance of net withdrawable deposit accounts and borrowings payable in one year or less. At June 30, 2001, the Bank's liquidity was 21.6%, or 5.6 million in excess of the prior minimum OTS requirement. In March 2001, the OTS issued an interim rule that removed the requirement that savings institutions maintain an average daily balance of 4.0% of its liquidity base. The OTS proposes that all savings institutions and service corporations maintain sufficient liquidity to ensure their safe and sound operation.

The Bank is required to maintain regulatory capital sufficient to meet core and risk-based capital ratios of at least 4.0% and 8.0%, respectively. At June 30, 2001, the Bank's core capital amounted to \$5.5 million, or 8.61% of adjusted total assets of \$63.3 million, and the Bank's risk-based capital amounted to \$5.6 million, or 17.23% of adjusted risk-weighted assets of \$32.5 million.

As of June 30, 2001, the Bank's unaudited regulatory capital requirements are as indicated in the following table:

	(In Thousands)	
	CORE CAPITAL	RISK-BASED CAPITAL
GAAP Capital.....	\$5,456	\$5,456
Additional Capital Items:		
General Valuation Allowances	-	162
Equity Investments	<u>-</u>	<u>(15)</u>
Regulatory Capital Computed.	5,456	5,603
Minimum Capital Requirement	<u>2,533</u>	<u>2,601</u>
Regulatory Capital Excess	<u>\$2,923</u>	<u>\$3,002</u>
Regulatory Capital as a Percentage	8.61%	17.23%
 Minimum Capital Required as a Percentage	 <u>4.00%</u>	 <u>8.00%</u>
 Regulatory Capital as a Percentage in Excess of Requirements	 <u>4.61%</u>	 <u>9.23%</u>

Based on the above capital ratios, the Bank meets the criteria for a "well capitalized" institution at June 30, 2001. The Bank's management believes that under the current regulations, the Bank will continue to meet its minimum capital requirements in the foreseeable future. However, events beyond the control of the Bank, such as increased interest rates or a downturn in the economy of the Bank's area, could adversely affect future earnings and, consequently, the ability of the Bank to continue to exceed its future minimum capital requirements.

Results of Operations

The profitability of the Company depends primarily on its net interest income, which is the difference between interest income on interest-earning assets, principally loans, mortgage-backed securities, and investment securities, and interest expense on interest-bearing deposits and advances from the Federal Home Loan Bank. Net interest income is dependent upon the level of interest rates and the extent to which such rates are changing. The Company's profitability also is dependent, to a lesser extent, on the level of its non-interest income, provision for loan losses, non-interest expenses and income taxes. In each of the three and six months periods ended June 30, 2001, net interest income after provision for loan losses exceeded total non-interest expense. Total non-interest expense consists of general, administrative and other expenses, such as compensation and employee benefits, occupancy and equipment expense, federal insurance premiums, professional fees, advertising, stationery, printing, and supplies, and miscellaneous other expenses.

Net income decreased by \$9,000, or 9.3%, in the quarter ended June 30, 2001 and decreased by \$59,000, or 29.1%, in the six months ended June 30, 2001 compared to the respective 2000 periods. The decrease in the June 30, 2001 quarter was due to an increase in non-interest expense of \$75,000, which was offset by an increase of \$36,000 in net interest income, an increase in non-interest income of \$22,000 and a decrease in income tax expense of \$7,000. The decreased net income for the first six months of 2001 was due to an increase in non-interest expense of \$160,000, which was offset by a \$25,000 increase in net interest income, an increase in non-interest income of \$41,000 and a decrease in the provision for income taxes of \$35,000.

Net interest income increased by \$36,000 or 9.1% in the quarter ended June 30, 2001 and increased by \$25,000, or 3.2%, for the six months ended June 30, 2001 over the comparable 2000 periods. This is primarily due to an increase in net interest earning assets to \$8.8 million and \$8.3 million for the three and six months ending June 30, 2001, compared to \$7.1 million and \$7.5 million in the 2000 respective periods, and is offset by a decrease in the net interest margin to 2.80% for the three months and 2.66% for the six months ended June 30, 2001, compared to 2.91% for the three months and 2.96% for the six months ended June 30, 2000. With the recent decreases in market interest rates, we anticipate our net interest margin may improve in the second half of 2001, which could increase our net interest income.

Total interest income increased by \$130,000, or 12.8%, in the quarter ended June 30, 2001 and increased by \$302,000, or 15.3%, for the six months ended June 30, 2001 over the comparable 2000 periods. This is due primarily to an increase in net loans receivable to \$52.0 million at June 30, 2001 compared to net loans receivable of \$46.6 million at June 30, 2000, and is offset by a decrease in investment securities to \$8.0 million at June 30, 2001 compared to \$9.9 million at June 30, 2000, and a decrease in interest-earning deposits to \$2.8 million at June 30, 2001 compared to \$5.5 million at June 30, 2000.

Total interest expense increased by \$94,000, or 15.3%, for the quarter and increased \$277,000, or 23.4%, for the six months ended June 30, 2001 over the comparable 2000 periods. This is due to an increase in average interest-bearing deposits to \$45.1 million for the three months and \$45.0 million for the six months ended June 30, 2001, compared to \$40.1 million for the three months and \$38.8 million for the six months ended June 30, 2000. FHLB advances average \$8.2 million for the three months and \$8.2 million for the six months ended June 30, 2001, compared to \$7.5 million for the three months and \$6.5 million for the six months ended June 30, 2000. The Company's average cost of funds increased to 5.33%

for the three months and 5.50% for the six months ended June 30, 2001, compared to 5.18% for the three months and 5.23% for the six months ended June 30, 2000.

The Company decreased its allowance for loan losses by \$8,000 in the three and six months ended June 30, 2001. This is due to charging off two consumer loans that totaled \$8,000. The Company had no provisions for losses in the 2001 or the 2000 periods. At June 30, 2001, the Company's non-accruing loans amounted to \$111,000, a decrease of \$171,000, or 60.6%, compared to June 30, 2000. The allowance for loan losses amounted to \$162,000 at June 30, 2001 and \$170,000 at June 30, 2000, representing 0.3% and 0.4%, respectively, of the total loans held in portfolio and 146.0% and 60.3%, respectively, of total non-accruing loans at such dates. The non-accruing loans are made up of residential and consumer loans. Management believes our allowance for loan losses is adequate as of June 30, 2001.

Non-interest income increased by \$22,000, or 75.9%, in the three months ended June 30, 2001 and increased by \$41,000, or 83.7%, in the six months ended June 30, 2001 over the comparable 2000 periods. The increase for both periods was attributed to increased fees for deposit accounts with insufficient funds and deposit account service charges, and to a lesser extent income from the sale of investment products and was offset by decreased income from insurance commissions.

Non-interest expenses increased in the quarter ended June 30, 2001 by \$75,000, or 27.4%, and increased by \$160,000, or 30.4%, in the six months ended June 30, 2001 over the comparable 2000 periods. The increase in the quarter was due to increases of \$43,000 in compensation and employee benefits, \$3,000 professional fees, \$5,000 printing, stationery & supplies, \$5,000 occupancy and equipment, \$6,000 data processing and \$18,000 in other expenses which were offset by a decrease of \$5,000 in advertising. The increase in the six month period was due to increases of \$79,000 in compensation and employee benefits, \$2,000 professional fees, \$11,000 in occupancy and equipment, \$19,000 data processing, and \$52,000 other expenses which was offset by a decrease of \$3,000 in advertising. Other expenses increased in both the three and six months periods due primarily to the Company expensing \$21,000 in the three months and \$42,000 for the six months ending June 30, 2001 compared to \$12,000 in the three months and \$23,000 for the six months ended June 30, 2000, for the State of Louisiana shares tax.

Income tax expense decreased in the quarter and for the six months ending June 30, 2001 over the comparable 2000 periods due to a reduction in pre-tax income.
