Selected Notes to Condensed Consolidated Interim Financial Statements
(Unaudited)

Note 1 - Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of Alaska Pacific Bancshares, Inc. (the “Company”) and its wholly owned subsidiary, Alaska Pacific Bank (the “Bank”), and have been prepared in accordance with generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. They should be read in conjunction with the audited consolidated financial statements included in the Company’s 2005 Annual Report to Stockholders filed as an exhibit to the Annual Report on Form 10-KSB for the year ended December 31, 2005. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for fair presentation have been included. The results of operations for the interim periods ended June 30, 2006 and 2005, are not necessarily indicative of the results which may be expected for an entire year or any other period.

Certain amounts in prior-period financial statements have been reclassified to conform with the current-period presentation. These reclassifications had no effect on net income.

Note 2 - Capital Compliance

At June 30, 2006, the Bank exceeded each of the three current minimum regulatory capital requirements and was categorized as “well capitalized” under the “prompt corrective action” regulatory framework. The following table summarizes the Bank's regulatory capital position and minimum requirements at June 30, 2006:

<i>(dollars in thousands)</i>		
Tangible Capital:		
Actual	\$16,365	9.42%
Required	2,606	1.50
Excess	\$13,759	7.92%

Required	6,950	4.00
Excess	\$ 9,415	5.42%
Total Risk-Based Capital:		
Actual	\$17,680	13.14%
Required	10,762	8.00
Excess	\$ 6,918	5.14%

Note 3 – Earnings Per Share

Basic earnings per share (“EPS”) is computed by dividing net income by the weighted-average number of common shares outstanding during the period less treasury stock, unvested stock awards under the Management Recognition Plan (“unvested stock awards”), and unallocated and not yet committed to be released ESOP shares (“unearned ESOP shares”). Diluted EPS is calculated by dividing net income by the weighted-average number of common shares used to compute basic EPS plus the incremental amount of potential common stock from unvested stock awards and stock options, determined by the treasury stock method.

Note 4 – Comprehensive Income

The Company's only item of "other comprehensive income" is net unrealized gains or losses on investment securities available for sale. Comprehensive income is calculated in the following table:

	Three Months Ended June 30,		Six Months Ended June 30,	
<i>(in thousands)</i>	2006	2005	2006	2005
Net income	\$208	\$156	\$333	\$256
Other comprehensive income (loss)	(35)	40	(57)	11
Comprehensive income	\$173	\$196	\$276	\$267

Note 5 – Impaired Loans

Impaired loans were \$1,276,000 and \$1,299,000 at June 30, 2006 and December 31, 2005, respectively. Estimated impairments of \$450,000 and \$365,000, respectively, were recognized on these loans in assessing the adequacy of the allowance for loan losses at June 30, 2006 and December 31, 2005.

Note 6 – Commitments

Commitments to extend credit, including lines of credit, total \$4,411,000 and \$8,122,000 at June 30, 2006 and December 31, 2005, respectively. Commitments to extend credit are arrangements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates (of less than one year) or other termination clauses and may require payment of a fee by the customer. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Bank evaluates creditworthiness for commitments on an individual customer basis.

Undisbursed loan proceeds, primarily for real estate construction loans, total \$6,235,000 and \$4,636,000 at June 30, 2006 and December 31, 2005, respectively. These amounts are excluded from loan balances.

Note 7 – Branch Office Closures

On January 27, 2006, the Bank closed its offices in Hoonah and Yakutat, Alaska. The Bank continues to serve customers in these two communities, each with a population of less than 1,000, through its five other offices in Southeast Alaska, on-line banking and bill payment services, toll-free telephone banking, and traditional bank-by-mail services.

The cost of closing the offices was approximately \$138,000, of which \$113,000 was included in noninterest expense for the six months ended June 30, 2006.

ITEM 2. Management's Discussion and Analysis or Plan of Operation

Forward-Looking Statements

This discussion contains forward-looking statements which are based on assumptions and describe future plans, strategies and expectations of the Company. These forward-looking statements are generally identified by use of the word “believe,” “expect,” “intend,” “anticipate,” “estimate,” “project,” or similar words. The Company’s ability to predict results or the actual effect of future plans or strategies is uncertain. Factors which could have a material adverse effect on operations include, but are not limited to, changes in interest rates, general economic conditions, legislative/regulatory changes, monetary and fiscal policies of the U.S. Government, including policies of the U.S. Treasury and the Federal Reserve Board, the quality or composition of the loan or investment portfolios, demand for loan products, deposit flows, competition, demand for financial services in our market areas and accounting principles and guidelines. You should consider these risks and uncertainties in evaluating forward-looking statements and you should not rely too much on these statements.

Financial Condition

Total assets of the Company at June 30, 2006 were \$174.5 million, a decrease of \$2.7 million, or 1.5%, from \$177.2 million at December 31, 2005. The small net change is characterized by a decrease in deposits and a decrease in cash, investments, and loans held for sale.

Loans held for sale decreased to \$465,000 at June 30, 2006 from \$2.5 million at December 31, 2005, partly as a result of the sale of a \$1.7 million participation in a commercial real estate loan held at December 31, 2005.

Loans (excluding loans held for sale) were \$153.8 million at June 30, 2006, compared to \$152.7 million at December 31, 2005, a net increase of \$1.1 million, or 0.7%. Loans are summarized by category as follows:

<i>(in thousands)</i>	June 30, 2006	December 31, 2005

Deposits decreased \$5.8 million, or 4.0%, to \$140.8 million at June 30, 2006, compared with \$146.7 million at December 31, 2005. The following summarizes deposits by major category for the last five quarters:

<i>(in thousands)</i>	June 30, 2006	March 31, 2006	December 31, 2005	September 30, 2005	June 30, 2005

Total deposits	\$140,847	\$140,112	\$146,650	\$145,011	\$139,077

Included in certificates of deposit in the accompanying balance sheet are “CDARS” deposits, which are insured time deposits obtained through the nationwide *Certificate of Deposit Account Registry Service*. They range in maturities from one month to three years, and are generally priced higher than locally obtained deposits but are often less expensive than other brokered deposits. The Bank began using CDARS deposits in 2005 as an alternative source of funds in addition to advances from the Federal Home Loan Bank of Seattle (“FHLB”).

FHLB advances increased to \$13.6 million at June 30, 2006 from \$12.0 million at December 31, 2005. During the first quarter of 2006, the Bank replaced \$5.0 million of short-term advances with fixed-rate long-term advances with maturities of four, five, and seven years, and with interest rates ranging from 5.24% to 5.30%. The restructuring was done as part of the Bank’s management of interest-rate risk to protect against future increases.

Results of Operations

Net Income. Net income for the second quarter of 2006 was \$208,000 (\$.32 per diluted share) compared to \$156,000 (\$.24 per diluted share) for the second quarter of 2005. Net income for the first half of 2006 was \$333,000 (\$.52 per diluted share) compared with \$256,000 (\$.40 per diluted share) for the same period in 2005. However, the first-half comparison is affected by the cost of closing two branch offices, amounting to \$113,000 (\$68,000 net of tax) in the first quarter of 2006. Excluding this cost, net income for the first half of 2006 would have been \$401,000 (\$.62 per diluted share), an increase of 56.6% over the first half of 2005.

For purposes of comparison, income might be separated into major components as follows:

<i>(in thousands)</i>	Three Months Ended June 30,			Six Months Ended June 30,		
	2006	2005	Income Incr. (Decr.)	2006	2005	Income Incr. (Decr.)

<i>Net income before branch closure costs</i>	<i>208</i>	<i>156</i>	<i>52</i>	<i>401</i>	<i>256</i>	<i>145</i>
Branch closure costs, net of income tax	-	-	-	(68)	-	(68)
Net income	\$ 208	\$ 156	\$ 52	\$ 333	\$ 256	\$ 77

Net Interest Income. Net interest income for the second quarter of 2006 increased \$114,000 (5.8%) compared with the second quarter of 2005. Net interest income for the first half of 2006 increased \$283,000 (7.4%) compared with the first half of 2005. The net interest margin on average interest-earning assets was 5.03% in the second quarter and 5.02% for the first half of 2006, approximately unchanged from 2005.

The net increase is primarily attributable to growth in loans. Average loans in the second quarter of 2006 increased \$14.3 million (10.2%) compared with the second quarter of 2005. Partially offsetting the positive effects of loan growth, however, has been a narrowing of the spread between the yield on average interest-earning assets and the average cost of interest-bearing liabilities. This spread decreased to 4.56% in the second quarter of 2006 from 4.73% in the second quarter of 2005, as a result of a more rapid rise in short-term rates than long-term rates (a “flattening” yield curve) as well as more reliance on borrowings and certificates of deposit because loans have recently grown faster than core deposits.

Provision for Loan Losses. The provisions for loan losses for the second quarter and first half of 2006 increased to \$75,000 and \$150,000, respectively, compared with \$30,000 and \$60,000, respectively, for the same periods in 2005. The provisions in all periods reflect management's assessment of asset quality and estimated loan impairments and were considered appropriate in order to maintain the allowance for loan losses at a level adequate to absorb losses inherent in the loan portfolio. Net loan chargeoffs for the second quarter and first half of 2006 were \$17,000 and \$34,000, respectively, compared with zero and \$22,000, respectively, for the same periods in 2005.

Noninterest Income. Excluding gains on sale of loans, noninterest income for the second quarter of 2006 increased \$7,000 (2.7%) to \$265,000 compared with \$258,000 for the second quarter of 2005. For the first half of 2006, noninterest income increased \$28,000 (5.7%) to \$516,000 compared with \$488,000 in the first half of 2005.

Gains on sale of loans increased \$11,000 to \$27,000 in the second quarter of 2006 and increased \$35,000 to \$80,000 in the first half of 2006, each in comparison with the same periods in 2005. The increases are primarily attributable to selling a greater proportion of new mortgage production in the secondary market versus retaining such loans in the portfolio.

Noninterest Expense. Excluding branch closure costs, noninterest expense for the second quarter of 2006 was \$1.9 million, approximately unchanged from the second quarter of 2005. For the first half of 2006, such expenses amounted to \$3.9 million, an increase of 0.7% compared with the first half of 2005. The small year-to-year changes reflect the initial cost savings of closing two offices during the first quarter of 2006, which offset normal increases in compensation, benefits, and other expenses.

The Bank closed its two smallest offices in Hoonah and Yakutat, Alaska, on January 27, 2006, in order to eliminate most of the approximately \$350,000 annual expense of operating the facilities. The Bank continues to serve its customers in these communities through its other offices in Southeast Alaska and through a variety of remote services, including on-line banking. Ultimately, any improvement in earnings as a result of the closures depends on the amount of business retained. At present, no other financial institution has a facility in either of these small communities, each with a population less than 1,000, but another financial institution is considering establishing limited service facilities in both locations.

The cost of closing the offices was approximately \$138,000. Of this amount \$113,000 was recognized in the first quarter of 2006, and \$25,000 was recognized in the fourth quarter of 2005.

Asset Quality

Nonaccrual loans were \$1.4 million at June 30, 2006, compared with \$1.3 million at December 31, 2005. Loans with balances totaling \$1.3 million at June 30, 2006 and at December 31, 2005 were considered to be impaired. Total estimated impairments of \$450,000 and \$365,000, respectively, were recognized on these loans in evaluating the adequacy of the allowance for loan losses.

The only impaired loan at June 30, 2006 was a commercial business loan for \$1.3 million secured by inventory and equipment. The loan was restructured in 2004 and is performing in accordance with the restructured terms.

The Bank had no repossessed assets at June 30, 2006, compared with \$101,000 at December 31, 2005. The decrease reflects the disposal of a commercial boat.

Liquidity and Capital Resources

The Company's primary sources of funds are deposits, borrowings, and principal and interest payments on loans. While maturities and scheduled amortization of loans are a predictable source of funds, deposit flows and mortgage prepayments are greatly influenced by general interest rates, economic conditions, and competition. The Company's primary investing activity is loan originations. The Company maintains liquidity levels believed to be adequate to fund loan commitments, investment opportunities, deposit withdrawals and other financial commitments. In addition, the Bank has available from the FHLB a line of credit generally equal to 25% of the Bank's total assets, or approximately \$43 million at June 30, 2006, of which approximately \$30 million was unused.

At June 30, 2006, management had no knowledge of any trends, events or uncertainties that may have material effects on the liquidity, capital resources, or operations of the Company.

The Company is not subject to any regulatory capital requirements separate from its banking subsidiary. The Bank exceeded all of its regulatory capital requirements at June 30, 2006. See Note 2 of the Selected Notes to Condensed Consolidated Interim Financial Statements contained herein for information regarding the Bank's regulatory capital position at June 30, 2006.

Recent Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement No. 123 (R), *Share-Based Payment*. This Statement replaces FASB Statement No. 123, *Accounting for Stock Based Compensation*, and supersedes APB Opinion No. 25, *Accounting for Stock Issued to Employees*. Statement No. 123(R) requires that the compensation cost relating to share-based payment transactions (for example, stock options granted to employees of the Company) be recognized in the Company's financial statements. That cost will be measured based on the fair value of the equity or liability instruments used. Statement No. 123(R) covers a

wide range of share-based compensation arrangements including share options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans.

On April 21, 2005 the Securities and Exchange Commission issued a ruling extending the mandatory compliance date for Statement 123(R). Under the ruling public entities will be required to apply Statement No. 123(R) as of the first interim or annual reporting period beginning after December 15, 2005. The Company has thus far not adopted the provisions of FASB Statement No. 123(R), as the effects on the Company's consolidated financial statements are insignificant.

Item 3. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures: An evaluation of the registrant's disclosure controls and procedures (as defined in Rule 13(a)-15(e) of the Securities Exchange Act of 1934 (the "Act")) was carried out under the supervision and with the participation of the registrant's Chief Executive Officer, Chief Financial Officer and other members of the registrant's senior management. The registrant's Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2006, the registrant's disclosure controls and procedures were effective in ensuring that the information required to be disclosed by the registrant in the reports it files or submits under the Act is (i) accumulated and communicated to the registrant's management (including the Chief Executive Officer and Chief Financial Officer) in a timely manner, and (ii) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

The Company does not expect that its disclosures and procedures will prevent all error and all fraud. A control procedure, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control procedure are met. Because of the inherent limitations in all control procedures, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any control procedure also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control procedure, misstatements due to error or fraud may occur and not be detected.

Section 404 of the Sarbanes-Oxley Act of 2002 requires that companies evaluate and annually report on their systems of internal control over financial reporting. In addition, our independent accountants must report on management's evaluation of its internal control over financial reporting. We are in the process of evaluating, documenting and testing our system of internal control over financial reporting to provide the basis for our report that will, for the first time, be a required part of our annual report on Form 10-KSB for the fiscal year ending December 31,

2007. As a result of the ongoing evaluation and testing of our internal controls, there can be no assurance that if any control deficiencies are identified they will be remediated before the end of the 2007 fiscal year, or that there may not be significant deficiencies or material weaknesses that would be required to be reported. In addition, we expect the evaluation process and any required remediation, if applicable, to increase our accounting, legal and other costs and divert management resources from core business operations.

(b) Changes in Internal Controls: In the quarter ended June 30, 2006, the registrant did not make any significant changes in, nor take any corrective actions regarding, its internal controls or other factors that could significantly affect these controls.
