CAMFLO ACQUIRES 10% OIL & GAS PROSPECT AND ARRANGES FINANCING

Camflo International Inc. ("the Company") has acquired a 10% working interest of petroleum and natural gas rights in four sections north of Swan Hills, Alberta. The 10% working interest is based on paying 10% of the costs of drilling, completion and pipeline tie -in of the test well before payout subject to a convertible overriding royalty of 15%. After payout, the convertible overriding royalty will convert to a 5% working interest. The private placement is for 1,000,000 units, each unit consisting of one common share and one share purchase warrant at a price of Can \$0.30 per unit. ONA ENTERS OIL & GAS PARTICIPATION AGREEMENTS

On behalf of the board of Ona International Inc. (the Company) Alan Crawford is pleased to give the following corporate update in regards to drilling and development activity. The Company has entered into agreements to participate in the Bridges #1 and the Hinkson #5 (10% working 8% net revenue interest) wells, The Bridges #7 & 8 and the Hinkson #3 (5% working interest 4% net revenue interest) wells located in Palo Pinto County, Fort Worth, Texas, USA. Site preparation has been initiated and the Company and its partners are confident that the wells will be drilled prior to the first week of May, 2003 with final frac and completion before month end. Total investment in this development project is USD \$92,846.00 With the entering of the above mentioned agreements the Company is confident that it is on the right track in meeting its goal of building an underling asset and revenue base through the strategic development of producing oil and gas properties for and on behalf of the Company and its shareholders.

The Martex Prospects are in a multi-play area with production being obtained from the shallow strawn sands from 1800 feet in depth through the Big Saline Conglomerates at approximately 4,000 feet to Missippian Chappel Reefs at 4,500 feet in depth. The objective for this project is the previously overlooked zone of interest, the Marble Falls located below these conglomerates. The Martex Prospects are mapped to be in the heart of the western most Marble Falls bank or shoal deposit. The prospects are on the updip edge of the shoal with already established production known as the Pickwick (Marble Falls) Field. The Martex Prospects are considered to be top development wells in an already established field.

The Cumming Company Inc. is the operator of the above-described development projects. Cumming currently operates several other recently completed gas well developments within the Jack and Palo Pinto County vicinity.

INFORMATION CIRCULAR
AS AT AND DATED MAY 26, 2003

This Information Circular accompanies the Notice of the 2003 Annual General Meeting (the “Meeting”) of members of **CAMFLO INTERNATIONAL INC.** (the “Company”), and is furnished in connection with a solicitation of proxies for use at that Meeting and at any adjournment thereof.

PERSONS OR COMPANIES MAKING THE SOLICITATION

THE ENCLOSED PROXY IS BEING SOLICITED BY
MANAGEMENT OF THE COMPANY

Solicitations will be made by mail and possibly supplemented by telephone or other personal contact to be made without special compensation by officers and employees of the Company. The Company may reimburse members' nominees or agents (including brokers holding shares on behalf of clients) for the cost incurred in obtaining from their principals authorization to execute forms of proxy. No solicitation will be made by specifically engaged employees or soliciting agents. The cost of solicitation will be borne by the Company.

VOTING SHARES AND PRINCIPAL HOLDERS THEREOF

The Company has an authorized capital consisting of an unlimited number of common shares without par value of which there are 3,536,666 issued and outstanding shares. There is one class of shares only. At a General Meeting of the Company, on a show of hands, every member present in person and entitled to vote shall have one vote and on a poll, every member present in person or represented by proxy and entitled to vote shall have one vote for each share of which such member is the registered holder. Shares represented by proxy will only be voted on a poll that is requested by a member or proxyholder present at the Meeting or required because the number of shares represented by proxies that are to be voted against a matter is greater than 5% of the votes that could be cast at the Meeting.

To the knowledge of the directors and senior officers of the Company, no person or company beneficially owns, directly or indirectly, or exercises control or direction over, voting securities carrying more than 10% of the outstanding voting rights of the Company.

The directors have determined that all members of record as of May 19, 2003 will be entitled to receive notice of and to vote at the Meeting. Those members so desiring may be represented by proxy at the Meeting. The instrument of proxy, and the power of attorney or other authority, if any, under which it is signed or a notarially certified copy thereof, must be deposited either at the office of the Registrar and Transfer Agent of the Company, CIBC Mellon #1600, 1066 W. Hastings Street, Vancouver, BC V6E 3X1 or at the Accounting Office of the Company at Suite #400, 455 Granville Street, Vancouver, BC, V6C 1T1, not less than 48 hours, Saturdays and holidays excepted, prior to the time of the holding of the Meeting or any adjournment thereof.

BENEFICIAL HOLDERS

Only registered shareholders or duly appointed proxyholders are permitted to vote at the Meeting. Most shareholders of the Company are "non-registered" or "beneficial" shareholders because the shares they own are not registered in their names, but are instead registered in the name of the brokerage firm, bank or trust company through which they purchased the shares. More particularly, a person is not a registered shareholder in respect of shares which are held on behalf of that person (the "Beneficial Holder") but which are registered either: (a) in the name of an intermediary (an "Intermediary") that the Beneficial Holder deals with in respect of the shares (Intermediaries include, among others, banks, trust companies, securities dealers or brokers and trustees or administrators of self-administered RRSP's, RRIF's, RESPs and similar plans); or (b) in the name of a clearing agency (such as The Canadian Depository for Securities Limited ("CDS")) of which the Intermediary is a participant. In accordance with the requirements of National Instrument 54-101 of the Canadian Securities Administrators, the Company has distributed copies of the Notice of Meeting, this Information Circular and the Proxy (collectively, the "Meeting Materials") to the clearing agencies and Intermediaries for onward distribution to Beneficial Holders. Intermediaries are required to forward the Meeting Materials to Beneficial Holders unless a Beneficial Holder has waived the right to receive them. Very often, Intermediaries will use service companies to forward the Meeting Materials to Beneficial Holders. Generally, Beneficial Holders who have not waived the right to receive Meeting Materials will either:

- (a) be given a form of proxy **which has already been signed by the Intermediary** (typically by a facsimile, stamped signature), which is restricted as to the number of shares beneficially owned by the Beneficial Holder but which is otherwise not completed. Because the Intermediary has already signed the form of proxy, this form of proxy is not required to be signed by the Beneficial Holder when submitting the proxy. In this case, the Beneficial Holder who wishes to submit a proxy should otherwise properly complete the form of proxy and **deposit it with the Company's Registrar and Transfer Agent as provided above; or**
- (b) more typically, be given a voting instruction form **which is not signed by the Intermediary**, and which, when properly completed and signed by the Beneficial Holder and **returned to the Intermediary or its service company**, will constitute voting instructions (often called a "proxy authorization form") which the Intermediary must follow. Typically, the proxy authorization form will consist of a one page pre-printed form. Sometimes, instead of the one page pre-printed form, the proxy authorization form will consist of a regular printed proxy form accompanied by a page of instructions which contains a removable label containing a bar-code and other information. In order for the form of proxy to validly constitute a proxy authorization form, the Beneficial Holder must remove the label from the instructions and affix it to the form of proxy, properly complete and sign the form of proxy and return it to the Intermediary or its service company in accordance with the instructions of the Intermediary or its service company.

In either case, the purpose of this procedure is to permit Beneficial Holders to direct the voting of the shares which they beneficially own. Should a Beneficial Holder who receives one of the above forms wish to vote at the Meeting in person, the Beneficial Holder should strike out the names of the Management Proxyholders named in the form and insert the Beneficial Holder's name in the blank space provided. **In either case, Beneficial Holders should carefully follow the instructions of their Intermediary, including those regarding when and where the proxy or proxy authorization form is to be delivered.**

FINANCIAL STATEMENTS

The audited financial statements of the Company for the year ended December 31, 2002 (the "Financial Statements"), together with the Auditors' Report thereon, will be presented to the members at the Meeting. The Financial Statements, together with the Auditors' Report thereon, are being mailed to the members of Record with this Information Circular.

ELECTION OF DIRECTORS

Each director of the Company is elected annually and holds office until the next Annual General Meeting of the members unless that person ceases to be a director before then. In the absence of instructions to the contrary, the shares represented by proxy will be voted on a poll for the nominees herein listed.

MANAGEMENT DOES NOT CONTEMPLATE THAT ANY OF THE NOMINEES WILL BE UNABLE TO SERVE AS A DIRECTOR. IN THE EVENT THAT PRIOR TO THE MEETING ANY VACANCIES OCCUR IN THE SLATE OF NOMINEES HEREIN LISTED, IT IS INTENDED THAT DISCRETIONARY AUTHORITY SHALL BE EXERCISED BY THE PERSON NAMED IN THE PROXY AS NOMINEE TO VOTE THE SHARES REPRESENTED BY PROXY ON A POLL FOR THE ELECTION OF ANY OTHER PERSON OR PERSONS AS DIRECTORS.

PARTICULARS OF MATTERS TO BE ACTED UPON

2002 Stock Option Plan

The recent policies of the TSX Venture Exchange now require the Company to implement an incentive stock option plan. Accordingly, the Company proposes to implement a stock option plan (the "Plan") for insiders, key employees, and certain other persons who provide services to the Company and/or its subsidiaries, with an opportunity to purchase shares of the Company and benefit from any appreciation in the value of the Company's shares. This will provide an increased incentive for these individuals to contribute to the future success and prosperity of the Company, thus enhancing the value of the Company's shares for the benefit of all the shareholders and increasing the ability of the Company and its subsidiaries to attract and retain skilled and motivated individuals in the service of the Company.

The proposed Plan is a "rolling" plan that provides that the aggregate number of shares reserved for issuance under it is 10% of the Company's issued common shares at the time of the grant of a stock option under the Plan.

Under the proposed Plan, the option price must not be less than the closing price of the common shares on the TSX Venture Exchange (the "Exchange") on the day immediately preceding the date of grant, less the applicable discount permitted by the policies of the Exchange. An option must be exercised within a period of five years from the date of granting. Within this five-year period, the Board of Directors of the Company may determine the limitation period during which an option may be exercised and whether a particular grant will have a minimum vesting period, unless such is otherwise required by the policies of the Exchange. Any amendment to the proposed Plan will require the approval of the Exchange and may require shareholder approval.

In accordance with the terms of the proposed Plan, it is subject to its acceptance for filing by the Exchange and the approval of the Company's shareholders. Under the policies of the Exchange, such shareholder approval must be "disinterested shareholder approval" if the grants of options under the proposed Plan to "insiders" of the Company, together with all of the Company's outstanding stock options, could result at any time in:

- a) the number of shares reserved for issuance pursuant to stock options granted to insiders of the Company exceeding 10% of the issued common shares of the Company; or
- b) the grant to insiders of the Company, within a 12-month period, of a number of options exceeding 10% of the issued common shares of the Company.

As the proposed Plan is not restrictive as to these results, at the Meeting, the members will be asked to approve, by disinterested shareholder approval, the proposed Plan.

The term “disinterested shareholder approval” means approval by a majority of the votes cast at the Meeting other than votes attaching to shares of the Company beneficially owned by insiders of the Company to whom options may be granted under the proposed Plan and associates of such persons. The term “insiders” is defined in the *Securities Act* (British Columbia) and generally includes directors and senior officers of the Company and its subsidiaries, the five highest paid employees and holders of greater than 10% of the voting securities of the Company. The term “associates” is defined in the *Securities Act* (British Columbia). Management of the Company has been informed that, as at May 26, 2003, 434,136 shares of the Company are beneficially owned by insiders of the Company to whom shares may be issued pursuant to grants of stock options under the proposed Plan and their associates.

If disinterested shareholder approval of the proposed Plan or a modified version thereof is not obtained, the Company will not proceed to implement the proposed Plan nor grant options under it. Even if approved, the directors may determine not to proceed with the proposed Plan.

Members are referred to the 2002 Stock Option Plan a copy of which is attached hereto as Schedule “A” for complete details.

MANAGEMENT KNOWS OF NO OTHER MATTERS TO COME BEFORE THE MEETING OTHER THAN THOSE REFERRED TO IN THE NOTICE OF MEETING. HOWEVER, SHOULD ANY OTHER MATTERS PROPERLY COME BEFORE THE MEETING, THE SHARES REPRESENTED BY THE PROXY SOLICITED HEREBY WILL, ON A POLL, BE VOTED ON SUCH MATTERS IN ACCORDANCE WITH THE BEST JUDGMENT OF THE PERSONS VOTING THE SHARES REPRESENTED BY THE PROXY.

MANAGEMENT'S DISCUSSION & ANALYSIS

For the period ended March 31, 2003

The following discussion of the operations, results and financial position of the Company for the Period ended March 31, 2003 should be read in conjunction with the March 31, 2003 Interim Financial Statement and the related Notes.

Description of Business

The Company's principal business activities are the acquisition, development and exploration, or production, and marketing of petroleum and natural gas reserves in Alberta, and Texas and is a public company, whose common shares trade on the TSX– Venture Exchange under the symbol [CFF].

Results of Operations

The Company reports a net loss of Cdn \$32,592 or \$0.01 per share for the period ended March 31, 2003. The Company had no operating revenues but recognized interest income of \$228 for the period. There were no write-offs or write-downs during the year.

Included in the loss was amortization of \$239, interest expense of \$7,087. The balance of the loss, \$25,266 relates to administrative expenses, including professional fees. The expenses have decreased during the period compared to the corresponding period in 2002 by approximately \$49,836. The decline in expenses is a result in part to the previous period incurring \$30,709 in legal fees and \$7,195 in listings fees, both expenses related to the Company obtaining a full listings on the exchange.

Current operations

Prairie River, Alberta

The Company has acquired a 10% working interest of petroleum and natural gas rights in four sections north of Swan Hills, Alberta. The 10% working interest is based on paying 10% of the costs of drilling, completion and pipeline tie -in of the test well before payout subject to a convertible overriding royalty of 15%. After payout, the convertible overriding royalty will convert to a 5% working interest. By drilling this well, the Company earns an option to participate in further exploration in an additional three contiguous sections at the same terms and conditions.

Jack County, Texas

The Company has acquired a 20% working interest in the drilling and development of Wimberley # 5 gas well located in the Barnett Shale region in Jack County, Texas. The operator of the project is the Cumming Company Inc. (CCI) of Fort Worth, which operates several other recently completed Barnett Shale wells in the vicinity. The well is expected to commence production within the next financial quarter.

Related Party Transactions

Under a Management and Services Agreements with a company owned by the President of the Company, the Company pays a monthly fee of \$5,000.

Competition

The resource industry in which the Company is engaged is in general, highly competitive. Competitors include well-capitalized resource companies, independent resource companies and other companies having financial and other resources far greater than those of the Company. Thus, a degree of competition exists between those engaged in the resource industry to acquire the most valuable properties. As a result, the Company may eventually be unable to acquire attractive resource properties.

Liquidity and Capital Resources

At this time, the Company has no operating revenues, and does not anticipate any operating revenues until the Company is able to find, acquire, place in production and operate a resource property. Historically, the Company has raised funds through equity financing and the exercise of options and warrants to fund its operations.

The market price of natural resources is highly speculative and volatile. Instability in prices may affect the interest in resource properties and the development of and production from such properties. This may adversely affect the Company's ability to raise capital to acquire and explore resource properties.

The Company has a working capital of \$144,612 at March 31, 2003.
