BIOMASSE INTERNATIONAL, INC.
(A COMPANY IN THE DEVELOPMENT STAGE)
NOTES TO FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED MARCH 2003 AND 2002

NOTE 1 –BASIS OF PRESENTATION

The accompanying unaudited financial statements of Biomasse International, Inc. have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Article 10 of Regulation S-X. The financial statements reflect all adjustments consisting of normal recurring adjustments which, in the opinion of management, are necessary for a fair presentation of the results for the periods shown. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

These financial statements should be read in conjunction with the audited financial statements and footnotes thereto included in Biomasse International, Inc.'s form 10-KSB as filed with the Securities and Exchange Commission.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and that effect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 – EARNINGS (LOSS) PER SHARE

Earnings (Loss) per common share are calculated under the provisions of SFAS No. 128, "Earnings per Share," which establishes standards for computing and presenting earnings per share. SFAS No. 128 requires the Company to report both basic earnings (loss) per share, which is based on the weighted-average number of common shares outstanding during the period, and diluted earnings (loss) per share, which is based on the weighted-average number of common shares outstanding plus all potential dilutive common shares outstanding. Options and warrants are not considered in calculating diluted earnings (loss) per share since considering such items would have an anti-dilutive effect.

NOTE 3 – GOING CONCERN

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. The company reported a net loss of \$291,475 for the six months ended March 31, 2003 (unaudited) as well as reporting net losses of \$2,239,591 from inception (March 19, 1999) to March 31, 2003 (unaudited). As reported on the statement of cash flows, the Company has incurred negative cash flows from operating activities of \$553,140 from inception (March 19, 1999) (unaudited). Continuation of the Company as a going concern is dependent upon obtaining sufficient working capital for its planned activity. Additional capital and/or borrowings will be necessary in order for the Company to continue in existence until attaining and sustaining profitable operations. The Company is aggressively pursuing strategic alliances which will bring a cash infusion, restructuring and a forward looking business plan.

Item 2. Plan of Operations

The following discussion should be read in conjunction with the financial statements and related notes that are included under Item 1. Statements made below which are not historical facts are forward-looking statements. Forward-looking statements involve a number of risks and uncertainties including, but not limited to, general economic conditions, our ability to complete development and then market our services, competitive factors and other risk factors as stated in other of our public filings with the Securities and Exchange Commission.

Our main business purpose is to provide the pulp and paper industry with the most practical, economical and efficient way of disposing of the sludge they produce as a by-product of their operations. Our proprietary technology also allows us to give enhanced value to the waste sludge and other residues generated by their wastewater treatment systems. We own a process to convert, by combustion, in an environmentally safe manner, the waste residue produced by pulp and paper mills into steam. We intend to profit by charging mills for the disposal of their sludge by converting it to steam, which will be less than they are currently paying for shipping and storage of waste sludge. As an added benefit to the mill, it can, in turn, use the steam as energy thereby creating a low cost, clean energy source.

We signed our first agreement on April 12, 2002 with J. Ford Ltee., a pulp and paper manufacturer in Quebec, Canada. This agreement is for five years with a revenue stream of approximately \$1 million US per year to Biomasse. The equipment for this project is in the construction phase and we anticipated the project to begin generating revenue by December 2002. Due to financing difficulties we experienced with this project, the installation has yet to take place and tentatively is scheduled to begin in the later part of the second calendar quarter of 2003, which postpones our revenue generation to October 2003 from this project.

We intend to concentrate initially on the North American pulp and paper companies. During the past year we identified several potential customers. We completed the profitability and feasibility studies for these installation and based upon the study's very positive conclusions, we believe we are close to finalizing a ten-year contract for the sale of steam utilizing our process with one of these organizations in the near future. Once this contract is finalized, a nine to twelve month installation process will ensue. We do not expect to generate any substantial revenue until the installation is completed and the system has been tested and is operational. Our studies indicate that the cost of equipment and installation for a plant suitable approximately \$9,200,000.

Liquidity

As reflected in our March 31, 2003 balance sheet, we have minimal cash on hand. The Company's operations are not generating sufficient cash to maintain its present operations. The Company had a negative working capital of approximately \$864,952 at March 31, 2003. The company has reviewed all non-essential activities and expenditures and has aggressively curtailed these items to assist in reducing the cash used in operating activities. Monthly operating expenses including rent, communications, travel, consulting, and professional fees and other general and administrative are approximately \$10,000. When we listed on the OTC bulletin board, the number of our employees increased to four with the addition of a Vice President of Legal Affairs as well as an administrative person. Once this happened, executive and management salaries are estimated to be approximately \$20,000 per month. We have several options to fund the above monthly expenditures: In our contract with the pulp and paper manufacturers, we are requiring a deposit with the signing of the contract of approximately one months revenue. In the case of the J Ford Ltee project, that equates to approximately \$83,000 US. These deposits will then contribute to the satisfying our overall monthly expenditures. Additional capital and/or borrowings will be necessary in order for the Company to continue in existence until attaining and sustaining profitable operations. The Company is aggressively pursuing strategic alliances which will bring a cash infusion, restructuring and a forward looking business plan.

Item 3. Controls and Procedures

Within the 90 days prior to the date of this report, the company carried out an evaluation, under the supervision and with the participation of the company's management, including the company's principal executive officer and principal financial officer, of the effectiveness of the design and operation of the company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. Based upon that evaluation, the principal executive officer and principal financial officer concluded that the company's disclosure controls and procedures are effective in timely alerting them to material information relating to the company required to be included in the company's periodic SEC filings.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 2. Changes in Securities

In October 2002, the Company increased its authorized shares from 55,000,000 to 125,000,000.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to Vote of Security Holders

None

Item 5. Other Information

None

Item 6. Exhibits and Reports on Form 8-K.

(a) Exhibits: 99.1 and 99.2 Certification, dated June 10, 2003, of the Principal Executive Officer and Principal Financial Officer of the Company pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

(b) Reports on Form 8-K:

No reports on Form 8-K were filed during the period ended March 31, 2003.

SIGNATURES

In accordance with Section 13 or 15(d) of the 1934 Exchange Act, the registrant caused this report to be signed on its behalf by the undersigned, thereto duly authorized.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER

I, Abdel Jabbar Abouelouafa, certify that:

1. I have reviewed this revised quarterly report on Form 10-QSB of Biomasse International, Inc.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this annual report, fairly present, in all material respects, the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-14 and 15d-14) for the registrant and have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and
 - c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. I have disclosed, based on my most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
