## **BUFFALO GOLD EXCOURAGED BY RECENT POLITICAL DEVELOPMENTS IN QUEENSLAND, AUSTRALIA**

### **Queensland's Premier Beattie Does a U-Turn on Uranium Mining**

**Vancouver, B.C., March 23rd, 2007 – Buffalo Gold Ltd. (TSX-V: BUF.U; OTC-BB: BYBUF; FWB: B4K)** is pleased to announce that the Labor party in Queensland appears to be doing a U-turn on its long-standing ban on new Uranium mines. Premier Peter Beattie confirmed the change of heart after a government-commissioned report from the Sustainable Minerals Institute at the University of Queensland showed Uranium mining would not threaten the state's multi-billion dollar coal industry. Queensland is rich in Uranium with an estimated \$3.2 billion in deposits.

Management of Buffalo is encouraged by this recent development as two of the four Uranium projects, the North Maureen and the Juntala, are located in known prolific Uranium producing areas of Queensland. The North Maureen Project, which consists of 4,400 square km and 100% Buffalo owned, is adjacent to the Maureen Deposit (6.5 million lbs) and shows very similar magnetics along with an abundant uranium occurrence in outcrop which bode well for discovery under cover. The Juntala Uranium project, south of the Maureen Deposit, consists of 700 square km of high amplitude radiometric anomalies. Targets for both projects are sandstone and large intrusive related deposits over a large area containing radiometric anomalies.

Both properties were vended in 100% by GoldFx in early 2006 with the foresight that the Uranium ban would indeed be lifted as the global demand for energy increased. **Proposed work program or some more info on properties would be helpful....**

Mr. Brian McEwen, PGeol., President and COO, Buffalo Gold, is the qualified person for Buffalo Projects and has approved the contents of this news release.

## **BUFFALO GOLD MAKES STRATEGIC INVESTMENT IN UPCOMING GOLD PRODUCER KINBAURI GOLD**

**Vancouver, B.C., April 5, 2007 – Buffalo Gold Ltd. (TSX-V: BUF.U; OTC-BB: BYBUF; FWB: B4K)** is pleased to announce that it is expanding its gold assets through a strategic CAD\$5,500,000 investment in **Kinbauri Gold Corp. (TSX-V: KNB)**. Kinbauri is using the proceeds of the brokered private placement to complete the purchase of the El Valle and Carles gold mines, the El Valle mill, auxiliary facilities, and two further exploration properties in northern Spain, from Rio Narcea Gold Mines S.L. (“Rio Narcea”).

Under the terms of the private placement, Buffalo will acquire 11,000,000 subscription receipts convertible into Units of Kinbauri at a purchase price of CAD\$0.50. Each Unit will be comprised of one common share and one-half common share purchase warrant exercisable for eighteen months at a price of CAD\$0.70. The total offering by Kinbauri is up to CAD\$13,500,000 and if closed in full will result in Buffalo holding approximately 28% of the company. The securities are subject to a four month hold from the closing date of the offering.

Upon approval of the offering from the TSX Venture Exchange, Mr. Brian McEwen, President and C.O.O. of Buffalo Gold will be appointed to the Board of Directors of Kinbauri.

### **Value from growth strategies emphasizing careful opportunity assessment**

While Buffalo’s current exploration programs are focused on Australasia, the company is continuing with a strategy of aggressively adding value through investing in or acquiring projects and companies that offer considerable growth potential. By purchasing a major stake in Kinbauri, Buffalo’s management is confident that it is making an investment with excellent upside potential. With a current market cap of less than CAD\$9,000,000 (pre-financing) Kinbauri has positioned itself as a potential near-term gold mining company by completing the purchase of the El Valle and Carles gold mines and associated facilities and properties from Rio Narcea. An experienced due diligence team from Kinbauri reviewed the projects in detail and confirmed the favourable potential for rejuvenation of gold mining operations. In addition, they put together a plan to re-start operations through selectively expanding resources and establishing reserves.

*"I agree with the evaluation by Kinbauri's due diligence team," commented Buffalo's President and C.O.O., Brian McEwen, after visiting the El Valle site in March 2007. "With proper mine development and exploration drilling prior to start-up, I expect both the El Valle and Carles mines to be profitable. With the permits and infrastructure in place we could be in production within 18 months."*

As reported by Kinbauri in a January 16<sup>th</sup> 2007 news release, Rio Narcea reported the following resources for the El Valle and Carles mines as of December 31<sup>st</sup>, 2005:

Table 1. Resource Estimates for El Valle and Carles Mines							
Deposit	Category	Au-bearing Tonnes (000s)	Au (g/t)	Cu-bearing Tonnes (000s)	Cu (%)	Contained Metal	
						Au (000 ounces)	Cu (tonnes)
El Valle	Measured	953	5.08	903	1.24	157	11,193
	Indicated	1,025	5.93	904	1.20	195	10,872
	M&I	1,978	5.52	1,808	1.22	351	22,065
	Inferred	2,569	8.74	1,040	0.79	722	8,182
Carles	Measured	240	5.32	195	0.80	41	1,566
	Indicated	619	5.20	618	0.68	103	4,171
	M&I	859	5.23	813	0.71	145	5,737
	Inferred	832	5.05	619	0.58	135	3,608

Rio Narcea stated its mineral resources in accordance with the definitions adopted by CIM on August 20, 2000. They were prepared by or under the direction of Alan C. Noble, Ore Reserves Engineering, Colorado, USA, an independent qualified person as defined by N.I. 43-101. As of January 15<sup>th</sup>, 2007, the above stated resources need to be reduced by approximately 258,483t as 97,021t grading 3.46g Au/t and 1.03% Cu were mined at El Valle and 161,462t grading 4.67g Au/t and 0.72% Cu at Carles were mined during 2006. It should be noted that Rio Narcea has indicated that the economic viability of the resources as stated in the above table are not demonstrable.

The immediate plan for the El Valle project is to commence exploration drilling both from surface and underground with an objective of delineating a minimum of 1 million ounces gold prior to feasibility.

## Kinbauri Portfolio

As well as the mining operations at El Valle and Carles, Kinbauri has options on advanced exploration permits at the Corcoesto project in Spain. Kinbauri can earn up to a 65% interest in the property from Rio Narcea by spending 4 million Euros over the next 5 years. An NI 43-101 Technical Report completed by Alan C. Noble confirmed resource estimates reported by Rio Narcea in 2003 for the Corcoesto deposit. This includes a Measured and Indicated resource of 7.1 million tonnes at 1.43 g/t gold at a 0.65 g/t gold cut-off grade.

In addition to its projects in Spain, Kinbauri also has early stage gold tenements in Nevada, platinum group element and diamond projects in Quebec and a gold project near Kirkland Lake, Ontario.

Damien Reynolds, Chairman and C.E.O. of Buffalo commented, *"This investment by Buffalo is exciting as it takes us one step closer to our corporate strategy of becoming a mid-tier gold producer through mergers, acquisitions and exploration."*

For additional details on Kinbauri and its portfolio of assets, please refer to the website [www.kinbauri-gold.com](http://www.kinbauri-gold.com).

## **BUFFALO GOLD MAKES STRATEGIC INVESTMENT IN UPCOMING GOLD PRODUCER KINBAURI GOLD**

**Vancouver, B.C., April 5, 2007 – Buffalo Gold Ltd. (TSX-V: BUF.U; OTC-BB: BYBUF; FWB: B4K)** is pleased to announce that it is expanding its gold assets through a strategic CAD\$5,500,000 investment in **Kinbauri Gold Corp. (TSX-V: KNB)**. Kinbauri is using the proceeds of the brokered private placement to complete the purchase of the El Valle and Carles gold mines, the El Valle mill, auxiliary facilities, and two further exploration properties in northern Spain, from Rio Narcea Gold Mines S.L. ("Rio Narcea").

Under the terms of the private placement, Buffalo will acquire 11,000,000 subscription receipts convertible into Units of Kinbauri at a purchase price of CAD\$0.50. Each Unit will be comprised of one common share and one-half common share purchase warrant exercisable for eighteen months at a price of CAD\$0.70. The total offering by Kinbauri is up to CAD\$13,500,000 and if closed in full will result in Buffalo holding approximately 28% of the company. The securities are subject to a four month hold from the closing date of the offering.

Upon approval of the offering from the TSX Venture Exchange, Mr. Brian McEwen, President and C.O.O. of Buffalo Gold will be appointed to the Board of Directors of Kinbauri.

### **Value from growth strategies emphasizing careful opportunity assessment**

While Buffalo's current exploration programs are focused on Australasia, the company is continuing with a strategy of aggressively adding value through investing in or acquiring projects and companies that offer considerable growth potential. By purchasing a major stake in Kinbauri, Buffalo's management is confident that it is making an investment with excellent upside potential. With a current market cap of less than CAD\$9,000,000 (pre-financing) Kinbauri has positioned itself as a potential near-term gold mining company by completing the purchase of the El Valle and Carles gold mines and associated facilities and properties from Rio Narcea. An experienced due diligence team from Kinbauri reviewed the projects in detail and confirmed the favourable potential for rejuvenation of gold mining operations. In addition, they put together a plan to re-start operations through selectively expanding resources and establishing reserves.

*"I agree with the evaluation by Kinbauri's due diligence team," commented Buffalo's President and C.O.O., Brian McEwen, after visiting the El Valle site in March 2007. "With proper mine development and exploration drilling prior to start-up, I expect both the El Valle and Carles mines to be profitable. With the permits and infrastructure in place we could be in production within 18 months."*

As reported by Kinbauri in a January 16<sup>th</sup> 2007 news release, Rio Narcea reported the following resources for the El Valle and Carles mines as of December 31<sup>st</sup>, 2005:

Table 1. Resource Estimates for El Valle and Carles Mines							
Deposit	Category	Au-bearing Tonnes (000s)	Au (g/t)	Cu-bearing Tonnes (000s)	Cu (%)	Contained Metal	
						Au (000 ounces)	Cu (tonnes)
El Valle	Measured	953	5.08	903	1.24	157	11,193
	Indicated	1,025	5.93	904	1.20	195	10,872
	M&I	1,978	5.52	1,808	1.22	351	22,065
	Inferred	2,569	8.74	1,040	0.79	722	8,182
Carles	Measured	240	5.32	195	0.80	41	1,566
	Indicated	619	5.20	618	0.68	103	4,171
	M&I	859	5.23	813	0.71	145	5,737
	Inferred	832	5.05	619	0.58	135	3,608

Rio Narcea stated its mineral resources in accordance with the definitions adopted by CIM on August 20, 2000. They were prepared by or under the direction of Alan C. Noble, Ore Reserves Engineering, Colorado, USA, an independent qualified person as defined by N.I. 43-101. As of January 15th, 2007, the above stated resources need to be reduced by approximately 258,483t as 97,021t grading 3.46g Au/t and 1.03% Cu were mined at El Valle and 161,462t grading 4.67g Au/t and 0.72% Cu at Carles were mined during 2006. It should be noted that Rio Narcea has indicated that the economic viability of the resources as stated in the above table are not demonstrable.

The immediate plan for the El Valle project is to commence exploration drilling both from surface and underground with an objective of delineating a minimum of 1 million ounces gold prior to feasibility.

## Kinbauri Portfolio

As well as the mining operations at El Valle and Carles, Kinbauri has options on advanced exploration permits at the Corcoesto project in Spain. Kinbauri can earn up to a 65% interest in the property from Rio Narcea by spending 4 million Euros over the next 5 years. An NI 43-101 Technical Report completed by Alan C. Noble confirmed resource estimates reported by Rio Narcea in 2003 for the Corcoesto deposit. This includes a Measured and Indicated resource of 7.1 million tonnes at 1.43 g/t gold at a 0.65 g/t gold cut-off grade.

In addition to its projects in Spain, Kinbauri also has early stage gold tenements in Nevada, platinum group element and diamond projects in Quebec and a gold project near Kirkland Lake, Ontario.

Damien Reynolds, Chairman and C.E.O. of Buffalo commented, *"This investment by Buffalo is exciting as it takes us one step closer to our corporate strategy of becoming a mid-tier gold producer through mergers, acquisitions and exploration."*
