Note 1 - Nature of Business and Summary of Significant Accounting Policies

Nature of Business:

Preferred Client Group, Inc. (the Company) was organized in June 1999 as a Texas corporation. The Company is a broker/dealer in securities registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA) and the Securities Investor Protection Corporation (SIPC).

The Company operates under the exemptive provisions of Rule 15c3-3(k)(2)(ii) of the Securities Exchange Act of 1934, and accordingly, is exempt from the remaining provisions of that Rule. The Company does not hold customer funds or securities.

The Company's operations consist primarily of providing securities brokerage services to individuals located in the state of Texas.

Significant Accounting Policies:

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

Debt securities held in a clearing deposit account are for investment purposes and are recorded at fair value in accordance with FASB ASC 820, *Fair Value Measurements and Disclosures*. The increase or decrease in fair value is credited or charged to operations.

The Company's other financial asset and liability amounts reported in the statement of financial condition are short-term in nature and approximate fair value.

PREFERRED CLIENT GROUP, INC.
Notes to Financial Statements

Note 1 - Nature of Business and Summary of Significant Accounting Policies (Continued)

Revenue Recognition

Securities Commissions

The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company may charge a commission. Commissions and related clearing expenses are recorded on the trade date (the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer. Securities commissions also includes other revenue related to customer accounts which is recorded on the trade date.

Mutual Fund Commissions

The Company enters into arrangements with pooled investment vehicles (funds) to distribute shares to investors. The Company may receive distribution fees paid by the funds up front, over time, upon the investor's exit from the fund (that is, a contingent deferred sales charge), or as a combination thereof. The Company believes that its performance obligation is the sale of securities to investors and as such this is fulfilled on the trade date. Any fixed amounts are recognized on the trade date and variable amounts are recognized to the extent it is probable that a significant revenue reversal will not occur once the uncertainty is resolved. For variable amounts, as the uncertainty is dependent on the value of the shares at future points in time as well as the length of time the investor remains in the fund, both of which are highly susceptible to factors outside the Company's influence, the Company does not believe it can overcome this constraint until the market value of the funds and the investor activities are known, which are either monthly or quarterly. Distribution fees recognized in the current period are primarily related to performance obligations that have been satisfied in prior periods.

Income Taxes

The Company has elected to be taxed under the provisions of Subchapter S of the Internal Revenue Code, resulting in all the federal tax liabilities or benefits relating to the operations of the Company passing through to the individual shareholder.

As of September 30, 2022, open Federal tax years subject to examination include the tax years ended September 30, 2019 through September 30, 2021.

The Company is also a member of a combined group subject to state income taxes.

PREFERRED CLIENT GROUP, INC.
Notes to Financial Statements
September 30, 2022

Note 2 - Transactions with Clearing Broker/Dealer

The Company has an agreement with a national clearing broker/dealer to provide clearing, execution and other related services. The agreement requires the Company to maintain a minimum of \$100,000 as a deposit in an account with the clearing broker/dealer.

Note 3 - Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At September 30, 2022, the Company had net capital of \$292,379 which was \$287,379 in excess of its net capital requirement of \$5,000. The Company's net capital ratio was 0.06 to 1.

Note 4 - Fair Value / Debt Securities

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a hierarchy of fair value inputs. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- *Level 1.* Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.
- *Level 2.* Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly.
- *Level 3.* Unobservable inputs for the asset or liability.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

PREFERRED CLIENT GROUP, INC.
Notes to Financial Statements
September 30, 2022

Note 4 - Fair Value / Debt Securities (continued)

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2022.

Debt securities: Valued by the Company using the actual bid prices of similar securities. When bid prices are not available for similar securities, the Company uses market observable inputs in determining the valuation for a security based on underlying characteristics of the debt instrument.

The following table sets forth by level, within the fair value hierarchy, the Company's assets at fair value as of September 30, 2022

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Debt Securities	\$ -	\$ 108,229	\$ -	\$ 108,229

The debt securities consist of two municipal bonds, which mature in February 2048 and August 2048. Cost and fair values of the debt securities at September 30, 2022, are as follows:

<u>Amortized Cost</u>	<u>Gross Unrealized Gains</u>	<u>Gross Unrealized Losses</u>	<u>Fair Value</u>
\$ 116,489		\$ 8,260	\$ 108,229

There were no transfers between level 1 and level 2 during the year.

There were no assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (level 3) during the year ended September 30, 2022.

PREFERRED CLIENT GROUP, INC.
Notes to Financial Statements
September 30, 2022

Note 5 - Related Party Transactions/Economic Dependency/Concentration of Revenue and Services

The Company and other entities are under the control of the sole shareholder. The existence of that control creates operating results and financial position different than if the entities were autonomous.

The sole shareholder generated substantially all of the Company's revenue and accounted for approximately 37% of the Company's compensation and related costs for the year ended September 30, 2022. The Company is economically dependent upon the sole shareholder's service due to the concentration of revenue generated.

The Company and the sole shareholder have entered into an expense sharing agreement (Agreement) effective January 1, 2017 and amended as of October 1, 2020. The Agreement shall continue until canceled by either party. Under the Agreement, the sole shareholder and other related entities controlled by the sole shareholder (Related Parties) provide the Company with office facilities and certain services. The sole shareholder and Related Parties allocate a pro-rata portion of such facilities and services provided on behalf of the Company. Amounts allocated to the Company under the Agreement are \$12,980 per month and totaled \$155,760 for the year. The amounts allocated were \$103,680 in occupancy and equipment costs, \$9,960 in professional fees and contract services, \$9,480 in communications, and \$32,640 of auto and entertainment, which is included in other expenses in the accompanying statement of income. The Agreement was not consummated on terms equivalent to arms-length transactions.

Note 6 - Off-Balance-Sheet Risk

In the normal course of business, the Company's customer activities involve the execution and settlement of customer securities transactions on a fully disclosed basis with its clearing broker-dealer. The clearing broker-dealer carries accounts of the Company's customers and is responsible for execution, collection and payment of funds, and receipt and delivery of securities relative to customer transactions. These transactions may expose the Company to off-balance-sheet risk in the event the customer or other broker is unable to fulfill their contractual obligations wherein the clearing broker-dealer may charge any losses it incurs to the Company. The worthiness of its customers and that customer transactions are executed properly by the clearing broker-dealer.

PREFERRED CLIENT GROUP, INC.
Notes to Financial Statements
September 30, 2022

Note 7 - Concentration of Credit Risk

The Company has \$157,529, or approximately 50% of its total assets, in commissions receivable and clearing deposit due from or held by the Company's clearing broker/dealer.

The Company has \$108,229, or approximately 34% of its total assets, in two debt securities issued by Texas municipalities, which are held by the clearing broker/dealer as a part of the Company's required clearing deposit.

Note 8 - Contingencies

There are currently no asserted claims or legal proceedings against the Company, however, the nature of the Company's business subjects it to various claims, regulatory examinations, and other proceedings in the ordinary course of business. The ultimate outcome of any such action against the Company could have an adverse impact on the financial condition, results of operations, or cash flows of the Company.

Note 9 - Subsequent Events

Management has evaluated the Company's events and transactions that occurred subsequent to September 30, 2022, through November 11, 2022, the date which the financial statements were available to be issued.

The Company made a distribution to the sole shareholder of \$155,000 in October 2022.
