General

9. We note your responses to comments one through seven of our letter dated August 3, 2011. It appears based on the information you have provided and the risk factor added to your disclosures, a material weakness may exist in your internal control over financial reporting. Absent further information or significant changes to your internal level of U.S. GAAP expertise, we believe you should carefully consider your level of US GAAP expertise when performing your assessment of internal control over financial reporting.

10. Please revise future filings to disclose revenue by product line as required by FASB ASC 280-10-50-40.

- Quantify the reasons you have identified for the significant changes in your operating expenses from period-to-period;
