Notes to the Financial Statements

NOTE 1 - ORGANIZATION AND HISTORY

The financial statements presented are those of Asia4Sale.com, Inc. (the Company).

The Company was incorporated under the laws of the State of Nevada on September 23, 1996. The Company ceased all operating activities during the period from September 23, 1996 to July 9, 1999 and was considered dormant. On July 9, 1999 the Company obtained a certificate of renewal from the State of Nevada. Since July 9, 1999, the Company has been in the development stage, and has not commenced planned principal operations.

The Company has no products or services as of June 30, 2006. The Company was organized primarily as a vehicle to seek merger or acquisition candidates. The Company's primary focus is to seek out and consummate a merger with or acquisition of an existing operating entity.

NOTE 2 - GOING CONCERN

The Company's financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, the Company does not have significant cash or other current assets, nor does it have an established source of revenues sufficient to cover its operating costs and to allow it to continue as a going concern. The Company is seeking to merge with an existing operating company.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish its merger and/or acquisition strategy, and eventually attain profitable operations. The accompanying financial statements do not include any adjustments that may be necessary if the Company is unable to continue as a going concern.

NOTE 3 - SIGNIFICANT EVENT

During the quarter ended June 30, 2006, the Company issued 8,301,345 shares of common stock for an aggregate of \$520,060 in cash, at prices ranging from \$0.06 to \$0.08 per share.

ITEM 2. MANAGEMENT'S PLAN OF OPERATION

This Management's Plan of Operation and Results of Operations and other parts of this report contain forward-looking statements that involve risks and uncertainties. Forward-looking statements can also be identified by words such as "anticipates," "expects," "believes," "plans," "predicts," and similar terms. Forward-looking statements are not guarantees of future performance and our actual results may differ significantly from the results discussed in the forward-looking statements. Factors that might cause such differences include, but are not limited to, those discussed in the subsections entitled "Forward-Looking Statements and Factors That May Affect Future Results and Financial Condition" below. The following discussion should be read in conjunction with our financial statements and notes thereto included in this report. All information presented herein is based on our period ended June 30, 2006. Our fiscal year end is December 31.

The Company

The Company is a corporation, organized and existing under the laws of the State of Nevada, having been incorporated in September 1996 as "H&L Investments, Inc." The name of the corporation was changed to "Asia4Sale.com, Inc." on December 22, 1999.

We are not currently engaged in any active business other than the search for an operating business to acquire.

During June of 2000, the Company paid \$970,000 to acquire 49% of World Wide Auctioneers, Inc., a Nevada registered corporation, holding 100% of a British Virgin Island registered company World Wide Auctioneers, Ltd. In August of 2003, World Wide Auctioneers, Inc., sold 100% of its subsidiary World Wide Auctioneers, Ltd., to a Nevada registered company WWA Group, Inc. ("WWA"), in a stock for stock transaction whereby WWA stock was issued directly to owners of World Wide Auctioneers, Inc., in exchange for ownership of World Wide Auctioneers, Ltd. The exchange caused the Company to acquire a minority equity investment in WWA which is accounted for using the equity method. WWA operates auctions of used, heavy construction equipment from Dubai, United Arab Emirates, and other locations.

Plan of Operation

The Company's current focus is to seek out and consummate a merger with an existing operating entity. We intend to actively seek out and investigate possible business opportunities for the purpose of possibly acquiring or merging with one or more business ventures. We do not intend to limit our search to any particular industry or type of business. Management is continually investigating possible merger candidates and acquisition opportunities. However, management can provide no assurance that we will have the ability to acquire or merge with an operating business, business opportunity or property that will be of material value to us.

The Company anticipates that we will require only nominal capital to maintain our corporate viability, and necessary funds will most likely be provided by our officers and directors in the immediate future. However, unless we are able to facilitate an acquisition of or merger with an operating business or are able to obtain significant outside financing, there is substantial doubt about our ability to continue as a going concern.

The Company has not yet entered into any agreement, nor do we have any commitment or understanding to enter into or become engaged in any transaction, as of the date of this filing. Further, our directors will

defer any compensation until such time as an acquisition or merger can be accomplished, and will strive to have the business opportunity provide their remuneration. As of the date hereof, we have not made any arrangements or definitive agreements to use outside advisors or consultants or to raise any additional capital.

We do not intend to use any employees, with the possible exception of part-time clerical assistance on an as-needed basis. Outside advisors or consultants will be used only if they can be obtained for minimal cost or on a deferred payment basis. Management is confident that it will be able to operate in this manner and to continue the search for business opportunities during the next twelve months.

Results of Operations

During the period ended June 30, 2006, the Company remained in the process of identifying a prospective business opportunity, which opportunity if acquired, may or may not produce revenue. Therefore, due to this uncertainty, we do not expect to generate any revenues until such time as a revenue producing acquisition is accomplished.

Net Losses

For the period from July 9, 1999 to June 30, 2006, the Company recorded a net loss of \$885,970 which is primarily attributable to losses from the discontinuation of business operations and to general and administrative expenses from continuing operations. General and administrative expenses include accounting expenses, professional fees consulting fees, and costs associated with the preparation of disclosure documentation in connection with registration pursuant to the Securities Exchange Act of 1934, as amended.

During the three month period ended June 30, 2006, the Company recorded a net loss of \$123,165 as compared to net income of \$326,263 during the comparable 2005 period. During the six month period ended June 30, 2006, the Company recorded a net loss of \$185,374 as compared to net income of \$99,253 during the comparable 2005 period. Net losses in the current periods are primarily attributable to general and administrative expenses. During the comparable periods in 2005, the Company recognized significant gains on equity investments which were only partially offset by general and administrative expenses. The 2006 general and administrative expenses were primarily professional fees.

Since the Company does not anticipate generating any revenues in the near term we will continue to operate at a loss.

Capital Expenditures

The Company expended no amounts on capital expenditures for the period from July 9, 1999 (inception) to June 30, 2006.

Liquidity and Capital Resources

The Company is in the development stage and, since inception, has experienced significant changes in

liquidity, capital resources and shareholders' equity. The Company had current assets of \$9,665, consisting solely of cash on hand, and current and total liabilities of \$1,052,072, as of June 30, 2006. Additionally, we have assets consisting primarily of investments totaling \$1,939,552 related to our minority interest in WWA. Net stockholders' equity in the Company was \$1,915,933 at June 30, 2006.

We are holding our shares of WWA as an equity investment. The shares are restricted common stock in a publicly traded company. As the market allows and in accordance with the limits of Rule 144, we intend to sell all or part of the shares as a source of operating funds. Any sales proceeds may be used to fund payment of ongoing expenses.

During the three months ended June 30, 2006, our expenses were paid with funds received primarily from the sale of common shares.

The Company's current assets are only sufficient to sustain operations for 90 days or less. We need to raise approximately \$150,000 in additional cash to sustain operations for the next 12 months. Other than the sales of shares of WWA, we have no current commitments or arrangements with respect to funding nor do we have immediate sources of funding. Further, no assurances can be given that any additional funding would be available to us on acceptable terms if at all. Although our major shareholders would be the most likely source of new funding in the form of loans or equity placements, none have made any commitment for future investment and the Company has no agreement formal or otherwise. The Company's inability to obtain additional funding, if required, would have a material adverse affect on our plan of operation.

The Company has no current plans for the purchase or sale of any plant or equipment.

The Company has no current plans to make any changes in the number of employees.

Inflation

In the opinion of management, inflation has not and will not have a material effect on our operations until such time as we successfully complete an acquisition or merger. At that time, management will evaluate the possible effects of inflation on our business and operations.

Net Operating Loss Carryforwards

We have accumulated approximately \$1,650,000 of net operating loss carryforwards as of June 30, 2006. This loss carryforward may be offset against taxable income and income taxes in future years and expires in the year 2026. The use of these losses to reduce future income taxes will depend on the generation of sufficient taxable income prior to the expiration of the net operating loss carryforwards. In the event of certain changes in control, there will be an annual limitation on the amount of net operating loss carryforwards which can be used. No tax benefit has been reported in the financial statements as of June 30, 2006 because it has been fully offset by a valuation reserve. The use of future tax benefit is undeterminable because we presently have no operations.

Forward Looking Statements and Factors that May Affect Future Results and Financial Condition

The statements contained in the section titled "Plan of Operation", with the exception of historical facts, are forward looking statements within the meaning of the Private Securities Litigation Reform Act of

1995, which reflect our current expectations and beliefs regarding our future results of operations, performance, and achievements. These statements are subject to risks and uncertainties and are based upon assumptions and beliefs that may or may not materialize. These forward looking statements include, but are not limited to, statements concerning:

- our ability to search for an appropriate business opportunity and to subsequently acquire or merge with such entity;
- the sufficiency of existing capital resources to meet our cash and working capital needs;
- our ability to raise additional capital to fund cash requirements for future operations;
- our ability to maintain our corporate existence as a viable entity;
- the volatility of the stock market; and
- general economic conditions.

We wish to caution readers that the Company's operating results are subject to various risks and uncertainties that could cause our actual results to differ materially from those discussed or anticipated in this report. We also wish to advise readers not to place any undue reliance on the forward looking statements contained in this report, which reflect our beliefs and expectations only as of the date of this report. We assume no obligation to update or revise these forward looking statements to reflect new events or circumstances or any changes in our beliefs or expectations, other than is required by law.

Risks Factors

Our future operating results are highly uncertain. Before deciding to invest in us or to maintain or increase your investment, you should carefully consider the risks described below, in addition to the other information contained in this annual report. If any of these risks actually occur, our business, financial condition or results of operations could be seriously harmed. In that event, the market price for our common stock could decline and you may lose all or part of your investment.

We have a history of significant operating losses and such losses may continue in the future.

Since our inception in 1996, our expenses have substantially exceeded our income, resulting in continuing losses and an accumulated deficit during our development stage of \$885,970 at June 30, 2006. During the three months ended June 30, 2006, we recorded a net loss of \$123,165. Though the Company has a historical income from the sale of investments, interest, and equity investments, we have never realized revenue from operations. We will continue to incur operating losses as we maintain our search for a suitable business opportunity and satisfy our ongoing disclosure requirements with the Securities and Exchange Commission ("Commission"). Our only expectation of future profitability is dependent upon our ability to acquire a revenue producing business opportunity, which acquisition can in no way be assured. Therefore, we may never be able to achieve profitability.

The Company's limited financial resources cast severe doubt on our ability to acquire a profitable business opportunity.

The Company's future operation is dependent upon the acquisition of a profitable business opportunity. However, the prospect of such an acquisition is doubtful due to the Company's limited financial resources

and current assets of only \$9,665. Since we have no current business opportunity, the Company is not in a position to improve this financial condition through debt or equity offerings. Therefore, this limitation may act as a deterrent in future negotiations with prospective acquisition candidates. Should we be unable to acquire a profitable business opportunity the Company will, in all likelihood, be forced to cease operations.

The market for our stock is limited and our stock price may be volatile.

The market for our common stock has been limited due to low trading volume and the small number of brokerage firms acting as market makers. Because of the limitations of our market and volatility of the market price of our stock, investors may face difficulties in selling shares at attractive prices when they want to. The average daily trading volume for our stock has varied significantly from week to week and from month to month, and the trading volume often varies widely from day to day.

We may incur significant expenses as a result of being quoted on the Over the Counter Bulletin Board, which may negatively impact our financial performance.

We may incur significant legal, accounting and other expenses as a result of being listed on the Over the Counter Bulletin Board. The Sarbanes-Oxley Act of 2002, as well as related rules implemented by the Commission has required changes in corporate governance practices of public companies. We expect that compliance with these laws, rules and regulations, including compliance with Section 404 of the Sarbanes-Oxley Act of 2002 as discussed in the following risk factor, may substantially increase our expenses, including our legal and accounting costs, and make some activities more time-consuming and costly. As a result, there may be a substantial increase in legal, accounting and certain other expenses in the future, which would negatively impact our financial performance and could have a material adverse effect on our results of operations and financial condition.

Our internal controls over financial reporting may not be considered effective, which could result in a loss of investor confidence in our financial reports and in turn have an adverse effect on our stock price.

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, beginning with our annual report for the year ending December 31, 2007, we may be required to furnish a report by our management on our internal controls over financial reporting. Such report will contain, among other matters, an assessment of the effectiveness of our internal controls over financial reporting as of the end of the year, including a statement as to whether or not our internal controls over financial reporting are effective. This assessment must include disclosure of any material weaknesses in our internal controls over financial reporting identified by management. The report will also contain a statement that our independent registered public accounting firm has issued an attestation report on management's assessment of internal controls. If we are unable to assert that our internal controls are effective as of December 31, 2007, or if our independent registered public accounting firm is unable to attest that our management's report is fairly stated or they are unable to express an opinion on our management's evaluation or on the effectiveness of our internal controls, investors could lose confidence in the accuracy and completeness of our financial reports, which in turn could cause our stock price to decline.

Critical Accounting Policies

In the notes to the audited financial statements for the year ended December 31, 2005, included in the Company' Form 10-KSB, the Company discusses those accounting policies that are considered to be significant in determining the results of operations and our financial position. The Company believes that

the accounting principles we utilized conform to accounting principles generally accepted in the United States of America.

The preparation of financial statements requires Company management to make significant estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. By their nature, these judgments are subject to an inherent degree of uncertainty. On an on-going basis, the Company evaluates estimates. We base our estimates on historical experience and other facts and circumstances that are believed to be reasonable, and the results form the basis for making judgments about the carrying value of assets and liabilities. The actual results may differ from these estimates under different assumptions or conditions.

Going Concern

The Company's audit expressed substantial doubt as to the Company's ability to continue as a going concern as a result of recurring losses, lack of revenue-generating activities and an accumulated deficit of \$700,596 as of December 31, 2005, which increased to \$885,970 as of June 30, 2006. The Company's ability to continue as a going concern is subject to the ability of the Company to realize a profit from operations and/or obtain funding from outside sources. Since the Company has no revenue generating operations, our plan to address the Company's ability to continue as a going concern over the next twelve months includes: (1) obtaining additional funding from the sale of our securities; and (2) obtaining loans where possible. Although we believe that we will be able to obtain the necessary funding to allow us to remain a going concern through the methods discussed above, there can be no assurances that such methods will prove successful.

ITEM 3. CONTROLS AND PROCEDURES.

The Company's president acts both as the Company's chief executive officer and chief financial officer and is responsible for establishing and maintaining disclosure controls and procedures for the Company.

(a) Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as of June 30, 2006. Based on this evaluation, our principal executive officer and our principal financial officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective and adequately designed to ensure that the information required to be disclosed by us in the reports we submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the applicable rules and forms and that such information was accumulated and communicated to our chief executive officer and chief financial officer, in a manner that allowed for timely decisions regarding disclosure.

(b) Changes in Internal Controls

During the period ended June 30, 2006, there has been no change in internal control over financial reporting that has materially affected, or is reasonably likely to materially affect our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the three month period ended June 30, 2006, the Company authorized the issuance of 92,500 shares to common stock to Eric Montandon valued at \$0.08 per share for cash consideration of \$7,400 in the form of debt, relying on exemptions provided by Section 4(2) of the Securities Act of 1933, as amended.

The Company made this offering based on the following factors: (1) the issuance was an isolated private transaction by the Company which did not involve a public offering; (2) there was only one offeree who is an officer and director of the Company that was issued the Company's stock in satisfaction of debt; (3) the offeree stated an intention not to resell the stock; (4) there were no subsequent or contemporaneous public offerings of the warrants; and (5) the negotiations that lead to the issuance of the warrants took place directly between the offeree and the Company.

During the three month period ended June 30, 2006, the Company authorized the issuance of 8,208,845 shares of common stock to certain individuals and entities valued between \$0.06, \$0.08 per share for cash consideration of \$520,060, relying on exemptions provided by Regulation S of the Securities Act of 1933, as amended.

Regulation S provides generally that any offer or sale that occurs outside of the United States is exempt from the registration requirements of the Securities Act, provided that certain conditions are met. Regulation S has two safe harbors. One safe harbor applies to offers and sales by issuers, securities professionals involved in the distribution process pursuant to contract, their respective affiliates, and persons acting on behalf of any of the foregoing (the "issuer safe harbor"), and the other applies to resales by persons other than the issuer, securities professionals involved in the distribution process pursuant to contract, their respective affiliates (except certain officers and directors), and persons acting on behalf of any of the foregoing (the "resale safe harbor"). An offer, sale or resale of securities that satisfied all conditions of the applicable safe harbor is deemed to be outside the United States as required by Regulation S. The distribution compliance period for shares sold in reliance on Regulation S is one year.

The Company complied with the requirements of Regulation S for all of the above issuances by having no directed selling efforts made in the United States, by selling only to offerees who were outside the United States at the time of the offering, and ensuring that the entities to whom the stock were issued were non-U.S. persons with addresses in foreign countries.
