CAUTIONARY NOTICE REGARDING FORWARD-LOOKING STATEMENTS

We caution readers that certain important factors may affect our actual results and could cause such results to differ materially from any forward-looking statements that we make in this report. For this purpose, any statements that are not statements of historical fact may be deemed to be forward-looking statements. This report contains statements that constitute "forward-looking statements." These forward-looking statements can be identified by the use of predictive, future-tense or forward-looking terminology, such as "believes," "anticipates," "expects," "estimates," "plans," "may," "will," or similar terms. These statements appear in a number of places in this report and include statements regarding our intent, belief or current expectations with respect to many things. Some of these things are:

- * trends affecting our financial condition or results of operations for our limited history;
- * our business and growth strategies;
- * our technology;
- * the Internet; and
- * our financing plans.

We caution readers that any such forward-looking statements are not guarantees of future performance and involve significant risks and uncertainties. In fact, actual results most likely will differ materially from those projected in the forward-looking statements as a result of various factors. Some factors that could adversely affect actual results and performance include:

- * our limited operating history;
- * our lack of sales to date;
- * our future requirements for additional capital funding;
- * the failure of our technology and products to perform as specified;
- * the discontinuance of growth in the use of the Internet;
- * the enactment of new adverse government regulations; and
- * the development of better technology and products by others.

The information contained in the following sections of this report identify important additional factors that could materially adversely affect actual results and performance:

- * "Part I. Item 1. Description of Business" especially the disclosures set out under the heading "Risk Factors"; and
- * "Part II. Item 6. Management's Discussion and Analysis or Plan of Operation"

You should carefully consider and evaluate all of these factors. In addition, we do not undertake to update forward-looking statements after we file this report with the SEC, even if new information, future events or other circumstances have made them incorrect or misleading.

PART I

Item 1. Description of Business.

Summary

Validian Corporation provides software products to assist public and private enterprises address the increasingly complex issues surrounding application security. Validian ASI™ is an application-security software system that helps to protect the exchange of information at the application layer, where the majority of breaches occur, and helps to protect mission-critical applications against hack attacks and unauthorized access, which often occur at the hardware and software perimeter. Validian ASI makes secure data exchange among applications, including distributed applications, straightforward and affordable for any organization, regardless of size and resources. Validian ASI facilitates security audit compliance and assurance, whether mandated by government, industry or internal policy; helps to prevent impersonation through application authentication and authorization; delivers confidentiality through application authentication and authorization; and delivers confidentiality through end-to-end encryption of all exchanges, so that data never travels “in the clear”. Incorporated in the United States, Validian has offices in the United States and Canada.

Our Technology

Our technology is based upon our intellectual property and was used to develop our products.

Our Intellectual Property

Our intellectual property includes an addressing scheme, an authentication process and a key exchange process for all parties to a communication, thus offering an authentication model for secure data exchanges. It also includes an encryption function using standard algorithms that encrypts data from within an originating application and decrypts the data within the receiving application.

Our technology provides benefits, by enabling users:

- * to integrate security and transport in all communication and document exchanges through an integrated approach; and
- * to develop and use existing interactive, distributed applications (like e-commerce, e-banking, e-health and e-loyalty) with an integrated security model.

Based on this technology, we have developed the products described below.

Target Market

Our business strategy is to license our technology either directly or through distribution channels to medium to large organizations that develop, market, sell, distribute or use software products where interaction with a distributed customer, employee and/or partner base is essential. This includes:

- * IT departments that serve their organization with a variety of applications and implementation environments, according to the needs of the various internal departments. This implies writing applications to ensure the security of communication between applications and over distributed networks; and
- * independent software vendors and developers serving a relatively large group of customers, on a regional or national basis and who must respond to a variety of conditions and platforms, as imposed by their customers in specific industrial sectors and secure the exchanges between their customers’ partners, suppliers and other participants.

Potential customer industrial sectors include, among others:

- * post-production houses, studios and production companies in the digital media industry;
- * transportation industry;
- * manufacturers in supply management chains;
- * health care providers and suppliers;
- * governments;
- * financial institutions and insurance companies; and
- * software distribution services.

Marketing Strategy and Distribution Channels

We have initiated a marketing program in North America to bring our products to the marketplace. This program has two components: direct and channel sales.

Direct Sales

The direct sales approach entails making high-level contacts within the organizations of target customers to present the benefits and competitive advantages of our products. Leads to such presentations are generated through existing contacts of management and sales representatives, and through attendance at and participation in specialized e-commerce and computer security trade shows, and the presentation of the benefits of our products in technical seminars attended by personnel with a mandate for application security.

Channel Sales

In order to penetrate the market for our products, we are attempting to partner with value-added resellers ("VARs"), independent marketing representatives ("IMRs"), system integrators ("SIs"), independent software vendors ("ISVs") and application service providers ("ASPs"). Potential partners are identified based upon their ability to penetrate specific markets more easily than we can. We believe major customers also will act as VARs in their sector.

Sales representatives and sales agents are promoting our products within these two channels. The representatives are responding to queries and expressions of interest from those interested in becoming early adopters of our working models. These early customers and distributors may have an impact on the product development schedule, as we will develop interfaces with users' existing systems in response to their feedback and individual requirements.

Currently, we have agreements with IMRs and SIs in the U.S.

Marketing Analysis

During the year ended December 31, 2006, we utilized the services of industry specialists in the health care, government, supply chain management and entertainment sectors. Their mandate was to identify specific areas and a limited number of organizations where our products would facilitate secure communication and the implementation of a strong security infrastructure with ease of deployment and management.

To support our sales force and these specialists, we have developed technical literature on the following topics:

- * security;
- * features and benefits;

- * integration into current systems;
- * openness of the architecture;
- * future developments; and
- * implementation procedures.

Estimated Sales Cycles

We expect that individual sales cycles will be from four to eight months in duration. The territories where most potential customers reside are expected to be in North America, Europe and Asia Pacific. We started building our sales team by retaining two sales representatives during the third quarter of 2002. At March 30, 2007 we had a vice president of sales and one sales representative.

Marketing Expenses

The main expense factors for our marketing campaign are for:

- * personnel, both internal and outside specialists;
- * buying or renting lists of potential customers for direct marketing campaigns;
- * direct marketing to potential customers;
- * participation in trade shows;
- * travel and living expenses;
- * Web site development and maintenance; and
- * literature preparation and distribution.

For more information, please see "Part II. Item 6. Management's Discussion and Analysis or Plan of Operation; Plan of Operations."

Our Products

Currently, we offer three main products on a commercial basis.

Our Application Security Infrastructure (ASI)

Our ASI is an application security framework for securing data transport between distributed applications and Web services. ASI is specifically designed to secure communication between distributed applications and distributed networks. It automatically manages all critical security functions for any application, including authentication, encryption, key generation, key distribution, addressing and data transport. ASI delivers messages and files to, and only to, the target destination, and data never travels "in the clear" at any time between applications.

Supplemental to our ASI product, we offer a Software Development Kit (SDK), for rapidly and simply securing data transport between applications through ASI. The SDK includes a complete, integrated and built-in set of control, transport and security features, which are automatically inherited by any applications linked to ASI through the SDK. Application developers who use the Validian SDK do not have to learn and master any of the various transport and security products or mechanisms to implement security on their applications. Our SDK establishes low-level IP addresses and ports, and implements complex security features automatically. This provides the application with a complete communication security chain, as the ASI protection initiates from within the originating application and transports data to within the destination application. The SDK is offered free of charge to qualified developers and system integrators.

Our Secure Send & Receive (SSR)

Our Secure Send & Receive (SSR) product transforms a user's desktop or mobile PC into a secure communication facility for uploading sensitive, proprietary information to a shared repository. The solution also transforms any server into an efficient download manager that simplifies the distribution of proprietary files to authorized users. Our SSR protects file exchanges against malicious interference, interception by rogue applications and unwanted leaks.

Our Biometric Media Seal (BMS)

Our Biometric Media Seal (BMS) product is designed and developed specifically to prevent hacking, theft and piracy of digital media including films, videos, television programs and music during the production and post-production process.

Our BMS solution enables post-production houses, studios and production companies:

- * to authenticate project workers using fingerprint signatures;
- * to store media files in encrypted form on portable media storage drives
- * to transfer encrypted media files of any size and any format between Authenticated workers and/or reviewers across the Internet;
- * to track media file activity such as create, rename, modify, transfer and Delete, transparently and in real-time over the Internet; and
- * to set universal policies which govern security and tracking levels applied on a per project basis.

Competition

There are different competitors for the ASI, SSR and BMS markets.

ASI competition

Our ASI product competes primarily with the products described below.

VPN

Virtual Private Networks (VPN) is a technology that ensures a secure communication link between two devices linked to the Internet or any communication network. This type of network security ensures that between those two hardware devices, the data cannot be intercepted and tampered with.

The main supplier of VPN is Check Point Software Technologies Ltd., but a number of suppliers are also offering competing products.

PKI

Public Key Infrastructure ("PKI") is a sophisticated method of authenticating communicating parties by providing each party with a set of two uniquely linked keys, one private key that is kept by the party and one public key that is published for every one to see. When communicating, messages are encrypted with the private key of the sender and decrypted by the receiver using the public key of the sender. Since both keys are mathematically linked, the receiver is assured that the message is coming from that sender and nobody else.

This exchange mechanism has been extended to protect more applications but we believe that its implementation on a large scale for distributed environment proves difficult and costly. The main suppliers of PKI include Entrust, Baltimore Technology and Verisign.

SSL

Secure Socket Layer (“SSL”) is a browser level protection offered by Netscape and Microsoft and incorporated in most browsers. SSL establishes a secure connection from a server to a browser requesting access to an application on this server. SSL is an industry standard widely used across a large number of platforms and systems. However, we believe that it relies on a rather weak authentication model, because the browser is not authenticated by the server, which introduces a risk of impersonation.

SSR Competition

File transfer protocol (FTP) is freeware available to organizations that don’t require security controls. Secure FTP provides minimal file protection. A number of companies compete in the growing secure file transfer market space, including Tumbleweed Communications, Proginet Corporation, Aspera, Inc. and Radiance Technologies.

BMS Competition

To date, the only productized competition we are aware of in the digital media industry is the Aspera solution, which focuses on file transfer speed for large files. We are not aware of an integrated solution featuring biometric access control and file tracking and logging.

Research and Development

We spent the following amounts during the periods mentioned on research and development activities:

Year ended December 31,	
2006	2005
<hr/>	
\$1,125,285	\$1,307,483

For more information, see: "Part II. Item 6. Management's Discussion and Analysis or Plan of Operation - Plan of Operations."

Intellectual Property Protection

We rely on common law and statutory protection of trade secrets and confidentiality agreements. We claim copyright in specific software products and various elements of our core technology. We have registered trademarks in North America and in Europe to cover the Flash Communicator product and the generic term of “FlashWare”, as well as some graphic identification and the Validian name itself.

Our intellectual property includes an addressing scheme, an authentication process and a key exchange process for all parties to a communication, thus offering a strong trust model for secure exchanges. It also includes an encryption function using standard algorithms that encrypts data from within an originating application and decrypts within the receiving application.

We believe, but we cannot assure, that our technology and its implementation may be patentable. We have filed patent applications covering certain aspects of our products in the U.S., Canada and the European Union. Further applications may be made in other countries, as and when we penetrate new markets. We have defined migration paths for the various products and developed schedules for that migration. This

defines the requirement for additional patent, trademarks and copyright protection, which we plan to apply for as required in order to prevent unauthorized use of our technology.

We cannot assure that we will be able to obtain or to maintain the foregoing intellectual property protection. We also cannot assure that our technology does not infringe upon the intellectual property rights of others. In the event that we are unable to obtain the foregoing protection or our technology infringes intellectual property rights of others, our business and results of operations could be materially and adversely affected. For more information please see “Risk Factors - We may not be able to protect and enforce our intellectual property rights which could result in the loss of our right, loss of business or increase our costs.” and “Claims by third parties that we infringe upon their proprietary technology could hurt our financial condition,” below.

Employees

As at December 31, 2006, we had nine full-time employees and contractual personnel, including two executive officers, four sales and marketing staff, one product development specialist, and two in administration. Eight are located in Ottawa, Canada, and one is located in Washington, DC. In addition, we contract with an independent software development group in Europe, which had twenty individuals deployed to our contract on a full-time basis as at December 31, 2006. We also regularly engage technical consultants and independent contractors to provide specific advice or to perform certain marketing or technical tasks.

Risk Factors

Our business operations and our securities are subject to a number of substantial risks, including those described below. If any of these or other risks actually occur, our business, financial condition and operating results, as well as the trading price or value of our securities could be materially adversely affected.

Risks relating to our Business

We are a development stage company, and our limited operating history makes evaluating our business and prospects difficult.

We are a development stage company, and our limited operating history makes it difficult to evaluate our current business and prospects or to accurately predict our future revenues or results of operations. The commercial acceptance of our products is unproven and therefore we may not be able to generate a sufficient number of revenue-paying customers to sustain operations. Our revenue and income potential are unproven, and our business plan is constantly evolving. The Internet is constantly changing and software technology is constantly improving, therefore we may need to continue to modify our business plan to adapt to these changes. As a result of our being in the early stages of development, particularly in the emerging technology industry, we are more vulnerable to risks, uncertainties, expenses and difficulties than more established companies. As a result, we may never achieve profitability and we may not be able to continue operations if we cannot successfully address the risks associated with early stage development companies in emerging technologies.

We have a history of operating losses and we anticipate losses and negative cash flow for the foreseeable future. Unless we are able to generate profits and positive cash flow we may not be able to continue operations.

We incurred a net loss of \$3,236,392 and negative cash flow from operations of \$1,976,022 during the year ended December 31, 2006. During the year ended December 31, 2005, we incurred a net loss of \$4,205,659 and negative cash flow from operations of \$3,035,255. We expect operating losses and negative cash flow from operations to continue for the foreseeable future.

We will need to generate significant revenues to achieve profitability. Consequently, we may never achieve profitability. Even if we do achieve profitability, we may not sustain or increase profitability on a quarterly or annual basis in the future. If we are unable to achieve or sustain profitability in the future, we may be unable to continue our operations. See “Management’s Discussion and Analysis or Plan of Operations – Liquidity and Capital Resources.”

Our auditors have drawn readers’ attention to the uncertainty of our ability to continue as a going concern.

Our independent certified public accountants have added an explanatory paragraph to their audit opinion issued in connection with our consolidated financial statements. It states that our ability to continue as a going concern is uncertain due to our history of operating losses and difficulty in generating operating cash flows. Our consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. These adjustments might include changes in the possible future recoverability and classification of assets or the amounts and classification of liabilities that might result from the outcome of this uncertainty.

We will require additional capital to proceed with our business plan. If we are unable to obtain such capital, we will be unable to proceed with our business plan and we will be forced to limit or curtail our operations.

We have an immediate requirement for additional working capital in order to proceed with our business plan. We are currently pursuing alternatives regarding the raising of additional capital to fund operations. For a discussion of our capital requirements, see the disclosure in "Part II. Item 6. Management's Discussion and Analysis or Plan of Operation; Plan of Operations." We do not currently have a commitment from any third party to provide financing and may be unable to obtain financing on reasonable terms or at all. Furthermore, if we raise additional working capital through equity, our shareholders will experience dilution. If we are unable to raise additional financing in the immediate future, and thereafter as required, we will be unable to grow or maintain our current level of business operations and, in fact, we will be forced to limit or curtail our operations.

The loss of any of our key personnel would likely have an adverse effect on our business.

Our future success depends, to a significant extent, on the continued services of our key personnel. Our loss of any of these key people most likely would have an adverse effect on our business. Competition for personnel throughout the industry is intense and we may be unable to retain our current personnel or attract, integrate or retain other highly qualified personnel in the future. If we do not succeed in retaining our current personnel or in attracting and motivating new personnel, our business could be materially adversely affected.

The business environment is highly competitive and, if we do not compete effectively, we may experience material adverse effects on our operations.

The market for Internet security products and services is intensely competitive and we expect competition to increase in the future. We compete with large and small companies that provide products and services that are similar to some aspects of our security services. Our competitors may develop new technologies in the future that are perceived as being more secure, effective or cost efficient than the technology underlying

our security services. In particular, the Internet security market has historically been characterized by low financial entry barriers.

Some of our competitors have longer operating histories, greater name recognition, access to larger customer bases and significantly greater financial, technical and marketing resources than we do. As a result, they may be able to adapt more quickly to new or emerging technologies and changes in customer requirements or to devote greater resources to the promotion and sale of their products than we will. We believe that there may be increasing consolidation in the Internet security market and this consolidation may materially adversely affect our competitive position. In addition, our competitors may have established or may establish financial or strategic relationships among themselves, with existing or potential customers, resellers or other third parties and rapidly acquire significant market share. If we cannot compete effectively, we may experience future price reductions, reduced gross margins and loss of market share, any of which will materially adversely affect our business, operating results and financial condition.

If we are unable to develop market recognition, we may be unable to generate significant revenues and our results of operations may be materially adversely affected.

To attract customers we may have to develop a market identity and increase public awareness of our technology and products. To increase market awareness of our technology and our products, we will continue to make significant expenditures for marketing initiatives. However, these activities may not result in significant revenue and, even if they do, any revenue may not offset the expenses incurred in building market recognition. Moreover, despite these efforts, we may not be able to increase public awareness of our technology and our products, which would have a material adverse effect on our results of operations.

We must establish and maintain strategic and other relationships.

One of our significant business strategies has been to enter into strategic or other similar collaborative relationships in order to reach a larger customer base than we could reach through our direct sales and marketing efforts. We may need to enter into additional relationships to execute our business plan. We may not be able to enter into additional, or maintain our existing, strategic relationships on commercially reasonable terms. If we fail to enter into additional relationships, or maintain our existing relationships, we would have to devote substantially more resources to the distribution, sale and marketing of our security services and communications services than we would otherwise.

Our success in obtaining results from these relationships will depend both on the ultimate success of the other parties to these relationships and on the ability of these parties to market our products successfully.

Furthermore, our ability to achieve future growth will also depend on our ability to continue to establish direct seller channels and to develop multiple distribution channels. Failure of one or more of our strategic relationships to result in the development and maintenance of a market for our services could harm our business. If we are unable to maintain our relationships or to enter into additional relationships, this could harm our business.

If we are unable to respond to rapid technological change and improve our products and services, our business could be materially adversely affected.

The Internet security industry is characterized by rapid technological advances, changes in customer requirements, frequent new product introductions and enhancements and evolving industry standards in computer hardware and software technology. As a result, we must continually change and improve our products in response to changes in operating systems, application software, computer and communications

hardware, networking software, programming tools and computer language technology. The introduction of products embodying new technologies and the emergence of new industry standards may render existing products obsolete or unmarketable. In particular, the market for Internet and intranet applications is relatively new and is rapidly evolving. Our future operating results will depend upon our ability to enhance our current products and to develop and introduce new products on a timely basis that address the increasingly sophisticated needs of our end-users and that keep pace with technological developments, new competitive product offerings and emerging industry standards. If we do not respond adequately to the need to develop and introduce new products or enhancements of existing products in a timely manner in response to changing market conditions or customer requirements, our operating results may be materially diminished.

New products and services developed or introduced by us may not result in any significant revenues.

We must commit significant resources to developing new products and services before knowing whether our investments will result in products and services the market will accept. The success of new products and services depends on several factors, including proper new definition and timely completion, introduction and market acceptance. There can be no assurance that we will successfully identify new product and service opportunities, develop and bring new products and services to market in a timely manner, or achieve market acceptance of our products and services, or that products, services and technologies developed by others will not render our products, services or technologies obsolete or non-competitive. Our inability to successfully market new products and services may harm our business.

We may not be able to protect and enforce our intellectual property rights, which could result in the loss of our rights, loss of business or increased costs.

Our success depends to a significant degree upon the protection of our software and other proprietary technology. The unauthorized reproduction or other misappropriation of our proprietary technology would enable third parties to benefit from our technology without paying us for it. We rely on a combination of patent, trademark, trade secret and copyright laws, license agreements and non-disclosure and other contractual provisions to protect proprietary and distribution rights of our products. We have registered trademarks in the United States, Canada and the European Union, and we have filed one patent application for our technology in each of these jurisdictions. Although we have taken steps to protect our proprietary technology, they may be inadequate and the unauthorized use thereof could have a material adverse effect on our business, results of operations and financial condition. Existing trade secret, copyright and trademark laws offer only limited protection. Moreover, the laws of other countries in which we market our products may afford little or no effective protection of our intellectual property. If we resort to legal proceedings to enforce our intellectual property rights, the proceedings could be burdensome and expensive, even if we were to prevail.

Claims by third parties that we infringe upon their proprietary technology could hurt our financial condition.

If we discover that any of our products or technology we license from third parties violates third party proprietary rights, we may not be able to reengineer our product or obtain a license on commercially reasonable terms to continue offering the product without substantial reengineering. In addition, product development is inherently uncertain in a rapidly evolving technology environment in which there may be numerous patent applications pending for similar technologies, many of which are confidential when filed. Although we sometimes may be indemnified by third parties against claims that licensed third party technology infringes proprietary rights of others, this indemnity may be limited, unavailable or, where the third party lacks sufficient assets or insurance, ineffective. We currently do not have liability insurance to protect against the risk that our technology or future licensed third party technology infringes the

proprietary rights of others. Any claim of infringement, even if invalid, could cause us to incur substantial costs defending against the claim and could distract our management from our business. Furthermore, a party making such a claim could secure a judgment that requires us to pay substantial damages. A judgment could also include an injunction or other court order that could prevent us from selling our products. Any of these events could have a material adverse effect on our business, operating results and financial condition.

If our electronic security technology were breached, our business would be materially adversely affected.

A key element of our technology and products is our Internet security feature. If anyone is able to circumvent our security measures, they could misappropriate proprietary information or cause interruptions or problems with hardware and software of customers using our products. Any such security breaches could significantly damage our reputation. In addition, we could be liable to our customers for the damages caused by such breaches or we could incur substantial costs as a result of defending claims for those damages. We may need to expend significant capital and other resources to protect against such security breaches or to address problems caused by such breaches. Security measures taken by us may not prevent disruptions or security breaches. In the event that future events or developments result in a compromise or breach of the technology we use to protect a customer's personal information, our financial condition and business could be materially adversely affected.

We face restrictions on the exportation of our encryption technology, which could limit our ability to market our products outside of the United States, Canada and Europe.

Some of our Internet security products utilize and incorporate encryption technology. Exports of software products utilizing encryption technology are generally restricted by the United States and various non-United States governments, particularly in response to the terrorist acts of September 11, 2001. If we do not obtain the required approvals, we may not be able to sell some of our products in international markets, which could materially adversely affect our results of operations.

Our operating results may prove unpredictable, and may fluctuate significantly.

Our operating results are likely to fluctuate significantly in the future due to a variety of factors, many of which are outside of our control. Factors which may cause operating results to fluctuate significantly include the following:

- * new technology or products introduced by us or by our competitors;
- * the timing and uncertainty of sales cycles and seasonal declines in sales;
- * our success in marketing and market acceptance of our products and services by our existing customers and by new customers;
- * a decrease in the level of spending for information technology-related products and services by our existing and potential customers; and
- * general economic conditions, as well as economic conditions specific to users of our products and technology.

Our operating results may be volatile and difficult to predict. As such, future operating results may fall below the expectations of securities analysts and investors. In this event, the trading price of our common stock may fall significantly.

We expect to generate some revenues and incur some operating expenses outside of the United States. If applicable currency exchange rates fluctuate our revenues and results of operations may be materially and adversely affected.

We expect that some portion of our revenues will be based on sales provided outside of the United States. In addition, a significant portion of our operating expenses are incurred outside of the United States, and we expect that this will continue to be the case. As a result, our financial performance will be affected by fluctuations in the value of the U.S. dollar to foreign currency. At the present time, we have no plan or policy to utilize forward contracts or currency options to minimize this exposure, and even if these measures are implemented there can be no assurance that such arrangements will be available, be cost effective or be able to fully offset such future currency risks.

Other risks associated with international operations could adversely affect our business operations and our results of operations.

There are certain risks inherent in doing business on an international level, such as:

- * unexpected changes in regulatory requirements, export and import restrictions;
- * controls relating to encryption technology that may limit sales sometime in the future;
- * legal uncertainty regarding liability and compliance with foreign laws;
- * competition with foreign companies or other domestic companies entering into the foreign markets in which we operate;
- * tariffs and other trade barriers and restrictions;
- * difficulties in staffing and managing foreign operations;
- * longer sales and payment cycles;
- * problems in collecting accounts receivable;
- * political instability;
- * fluctuations in currency exchange rates;
- * software piracy;
- * seasonal reductions in business activity during the summer months in Europe and elsewhere;
- and
- * potentially adverse tax consequences.

Any of these factors could adversely impact the success of our international operations. One or more of such factors may impair our future international operations and our overall financial condition and business prospects.

Risks relating to our Common Stock

Our common stock price may be volatile.

The market prices of securities of Internet and technology companies are extremely volatile and sometimes reach unsustainable levels that bear no relationship to the past or present operating performance of such companies. Factors that may contribute to the volatility of the trading price of our common stock include, among others:

- * our quarterly results of operations;
- * the variance between our actual quarterly results of operations and predictions by stock analysts;
- * financial predictions and recommendations by stock analysts concerning Internet companies and companies competing in our market in general, and concerning us in particular;
- * public announcements of technical innovations relating to our business, new products or technology by us or our competitors, or acquisitions or strategic alliances by us or our competitors;
- * public reports concerning our products or technology or those of our competitors; and

- * the operating and stock price performance of other companies that investors or stock analysts may deem comparable to us.

In addition to the foregoing factors, the trading prices for equity securities in the stock market in general, and of Internet-related companies in particular, have been subject to wide fluctuations that may be unrelated to the operating performance of the particular company affected by such fluctuations. Consequently, broad market fluctuations may have an adverse effect on the trading price of our common stock, regardless of our results of operations.

There is a limited market for our common stock. If a substantial and sustained market for our common stock does not develop, our shareholders' ability to sell their shares may be materially and adversely affected.

Our common stock is tradable in the over-the-counter market and is quoted on the OTC Bulletin Board. Many institutional and other investors refuse to invest in stocks that are traded at levels below the Nasdaq Small Cap Market which could make our efforts to raise capital more difficult. In addition, the firms that make a market for our common stock could discontinue that role. OTC Bulletin Board stocks are often lightly traded or not traded at all on any given day. We cannot predict whether a more active market for our common stock will develop in the future. In the absence of an active trading market:

- * investors may have difficulty buying and selling or obtaining market quotations;
- * market visibility for our common stock may be limited; and
- * a lack of visibility for our common stock may have a depressive effect on the market price for our common stock.

Shares issuable upon the exercise of options, warrants and convertible debentures, or under anti-dilution provisions in certain agreements, could dilute stock holdings and adversely affect our stock price.

We have issued options and warrants to acquire common stock to our employees and certain other persons at various prices, some of which have, or may in the future have, exercise prices at or below the market price of our stock. As of April 30, 2007, we have outstanding options and warrants to purchase a total of 11,949,635 shares of our common stock, all of which have exercise prices above the recent market price of \$0.04 per share (as of April 19, 2007). If exercised, these options and warrants will cause immediate and possibly substantial dilution to our stockholders.

We have two existing stock option plans, one of which had 2,315,000 shares remaining for issuance as of April 30, 2007, the second of which had 1,679,698 shares remaining for issuance as of April 30, 2007. Future options issued under these plans may have further dilutive effects.

Issuance of shares pursuant to the exercise of options, warrants, or anti-dilution provisions, could lead to subsequent sales of the shares in the public market, which could depress the market price of our stock by creating an excess in supply of shares for sale. Issuance of these shares and sale of these shares in the public market could also impair our ability to raise capital by selling equity securities.

A large number of shares will be eligible for future sale and may depress our stock price.

As of April 30, 2007, we had outstanding 45,720,403 shares of common stock, of which approximately 27,417,763 shares were "restricted securities" as that term is defined under Rule 144 promulgated under the Securities Act of 1933. These restricted shares are eligible for sale under Rule 144 at various times, upon the expiry of the applicable holding period. No prediction can be made as to the effect, if any, that sales of shares of common stock or the availability of such shares for sale will have on the market prices prevailing from time to time. Nevertheless, the possibility that substantial amounts of our common stock may be sold

in the public market may adversely affect prevailing market prices for the common stock and could impair our ability to raise capital through the sale of our equity securities.

We will have to increase our authorized common shares in order to raise a significant amount of equity capital.

Our authorized common stock is limited to 100,000,000. We currently have the following issued and reserved for issuance (as at April 30, 2007):

Common stock outstanding	45,720,403
Common stock reserved for stock option plans	7,000,000
Common stock reserved for exercise of warrants	8,944,333
Common stock reserved for conversion of 10% convertible notes	25,833,333
	<u>87,498,069</u>

If we do not increase our authorized common shares we will be limited in how much equity capital or convertible debt securities we can issue. In the event that we do increase our authorized common stock, our existing stockholders may experience dilution and the value of our common stock may decrease.

We do not intend to pay dividends in the near future.

Our board of directors determines whether to pay dividends on our issued and outstanding shares. The declaration of dividends will depend upon our future earnings, our capital requirements, our financial condition and other relevant factors. Our board does not intend to declare any dividends on our shares for the foreseeable future.

Our common stock may be deemed to be a "penny stock." As a result, trading of our shares may be subject to special requirements that could impede our shareholders' ability to resell their shares.

Our common stock may be deemed to be a "penny stock" as that term is defined in Rule 3a51-1 of the Securities and Exchange Commission. Penny stocks include stocks:

- * that are not traded on a national securities exchange that has been continuously registered since April 20, 1992 and has maintained quantitative initial and continued listing standards that are substantially similar to or stricter than the listing standards in place at January 8, 2004;
- * that are not traded on a securities exchange, a "junior tier" of an exchange or an automated quotation system sponsored by a registered national securities association that has established initial listing standards that meet or exceed specified criteria and maintains similar quantitative continued listing standards; or
- * whose prices are not quoted on the NASDAQ automated quotation system ; or
- * of issuers with net tangible assets less than:
 - * \$2,000,000 if the issuer has been in continuous operation for at least three years; or
 - * \$5,000,000 if in continuous operation for less than three years, or
 - * of issuers with average revenues of less than \$6,000,000 for the last three years.

Section 15(g) of the Exchange Act, and Rule 15g-2 of the Securities and Exchange Commission, require broker-dealers dealing in penny stocks to provide potential investors with a document disclosing the risks of penny stocks not less than two business days before a transaction is effected, and to obtain a manually signed and dated written receipt of the document before effecting any transaction in a penny stock for the

investor's account. Moreover, Rule 15g-9 of the Securities and Exchange Commission requires broker-dealers in penny stocks to approve the account of any investor for transactions in such stocks before selling any penny stock to that investor. This procedure requires the broker-dealer:

- * to obtain from the investor information concerning his or her financial situation, investment experience and investment objectives;
- * to determine reasonably, based on that information, that transactions in penny stocks are suitable for the investor and that the investor has sufficient knowledge and experience as to be reasonably capable of evaluating the risks of penny stock transactions;
- * to provide, not less than two business days before a transaction is effected, the investor with a written statement setting forth the basis on which the broker-dealer made the determination in the second bullet above; and
- * to receive a signed and dated copy of such statement from the investor, confirming that it accurately reflects the investor's financial situation, investment experience and investment objectives.

Compliance with these requirements may make it more difficult for holders of our common stock to resell their shares to third parties or to otherwise dispose of them.

Our current executive officers, directors and major stockholders own a significant percentage of our voting stock. As a result, they exercise significant control over our business affairs and policy.

As of April 30, 2007, our current executive officers, directors and holders of 5% or more of our outstanding common stock together beneficially owned approximately 30% of the outstanding common stock if they exercised all of the options and warrants held by them. These stockholders are able to significantly influence all matters requiring approval by stockholders, including the election of directors and the approval of significant corporate transactions. This concentration of ownership may also have the effect of delaying, deterring or preventing a change in control and may make some transactions more difficult or impossible to complete without the support of these shareholders.

Our restated articles of incorporation contain provisions that could discourage an acquisition or change of control of our company.

Our restated articles of incorporation authorize our board of directors to issue preferred stock without stockholder approval. Provisions of our certificate of incorporation, such as the provision allowing our board of directors to issue preferred stock with rights more favorable than our common stock, could make it more difficult for a third party to acquire control of us, even if that change of control might benefit our stockholders.

We currently do not have an effective system of internal controls, and therefore we may not be able to detect fraud or report our financial results accurately, which could harm our business.

Effective internal controls are necessary for us to provide reliable financial reports and to detect and prevent fraud. We periodically assess our system of internal controls to review their effectiveness and identify potential areas of improvement. These assessments may conclude that enhancements, modifications or changes to our system of internal controls are necessary. Performing assessments of internal controls, implementing necessary changes, and maintaining an effective internal controls process is expensive and requires considerable management attention. Internal control systems are designed in part upon assumptions regarding the likelihood of future events, and all such systems, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met. A consequence of these and other inherent limitations of control systems is that there can be no

assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. If we fail to implement and maintain an effective system of internal controls or prevent fraud, we could suffer losses, could be subject to costly litigation, investors could lose confidence in our reported financial information, and our image and operating results could be harmed, which could have a negative effect on the trading price of our common stock.

In connection with the audit of our consolidated financial statements for the year ended December 31, 2006, our independent registered public accounting firm advised the Board of Directors and management of certain significant internal control deficiencies that they consider to be, in aggregate, a material weakness. In particular, our independent registered public accounting firm identified the following weaknesses in our internal control system: (1) a lack of segregation of duties; and (2) the lack of timely preparation of certain back up schedules. Due to the size and resources of our company we may not be able to remediate in the foreseeable future all of the deficiencies identified. If we are unable to remediate the identified material weaknesses, there is a more than remote likelihood that a material misstatement to our SEC reports will not be prevented or detected, in which case investors could lose confidence in the accuracy and completeness of our financial reports, which could have an adverse effect on our ability to raise additional capital and could also have an adverse effect on our stock price.

We may have difficulty implementing in a timely manner the internal controls procedures necessary to allow our management to report on the effectiveness of our internal controls, and we may incur substantial costs in order to comply with the requirements of the Sarbanes-Oxley Act of 2002.

The Sarbanes-Oxley Act of 2002 has introduced many new requirements applicable to us regarding corporate governance and financial reporting. Among many other requirements is the requirement under Section 404 of the Act for management to report on our internal controls over financial reporting and for our registered public accountant to attest to this report. We are required to comply with Section 404 effective the fiscal year ending December 31, 2007. Although our management has begun the necessary processes and procedures for issuing its report on our internal controls, we cannot be certain that we will be successful in complying with Section 404. We expect to devote substantial time and incur costs during fiscal 2007 and 2008 to implement appropriate controls and procedures to ensure compliance. If we are not able to timely comply with the requirements set forth in Section 404, we might be subject to sanctions or investigations by regulatory authorities. Any such action could adversely affect our business and financial results.

Our Corporate History

We were incorporated in Nevada on April 12, 1989 as CCC Funding Corp. to seek out one or more potential business ventures. On January 28, 2003, we changed our name from Sochrys.com Inc. to Validian Corporation.

Item 2. Description of Properties.

Our Canadian office is located at 30 Metcalfe St., Suite 620, Ottawa, Canada, K1P 5L4. The telephone number is (613) 230-7211. Our United States office is located at 4651 Roswell Road, Suite B-106, Atlanta, Georgia 30342, telephone number (404) 256-1963.

Our Ottawa office is leased from a non-affiliated party under a long-term operating lease. Until April 30, 2007, the lease provided shared access to and use of 5,576 square feet. Effective May 1, 2007, we reduced the amount of space we occupy in our Ottawa location to 3,526 square feet. Our Atlanta office is leased from a non-affiliated party per oral arrangement on a month-by-month basis. The lease provides shared access to and use of 1,000 square feet.

Item 3. Legal Proceedings.

On December 31, 2006, Dr. Andre Maisonneuve retired from the Corporation. On December 21, 2006, Dr. Maisonneuve commenced legal action against the Corporation at Ontario Superior Court of Justice in Ottawa, Canada, seeking approximately \$42,905 in unpaid salary claimed to be owed to him at the date of his retirement, plus costs with respect to collecting the amount due. We are contesting this action, but have included \$42,905 in accrued liabilities in the consolidated financial statements at December 31, 2006. Additional costs which may become payable in relation to this claim cannot be reasonably estimated at this time; we will record such costs, if any, when they become known to us.

Item 4. Submission of Matters to a Vote of Security holders.

There have been no matters submitted to a vote of our shareholders since February 25, 2005.

PART II

Item 5. Market for Common Equity and Related Stockholder Matters.

(a) Market Information -- The principal U.S. market in which our common stock, all of which are of one class, \$.001 par value per share, is traded is in the over-the-counter market. Our stock is quoted on the OTC Bulletin Board under the symbol "VLDI".

The following table sets forth the range of high and low bid quotes of our common stock for the periods noted as reported by the OTC Bulletin Board. These quotes reflect inter-dealer prices without retail mark-up, markdown or commission and may not necessarily represent actual transactions.

MARKET PRICE OF COMMON STOCK

Quarter Ending	BID	
	High	Low
2005		
January 1 to March 31	\$0.78	\$0.39
April 1 to June 30	0.70	0.40
July 1 to September 30	0.60	0.38
October 1 to December 31	0.45	0.18
2006		
January 1 to March 31	0.37	0.11
April 1 to June 30	0.30	0.11
July 1 to September 30	0.17	0.08
October 1 to December 31	0.10	0.07
2007		
January 1 to March 30	0.12	0.04

On April 19, 2007, the closing price of our common stock was \$0.04 per share.

(b) Holders -- There were approximately 178 holders of record of our common stock as of March 30, 2007, inclusive of those brokerage firms and/or clearing houses holding our securities for their clientele, with each such brokerage house and/or clearing house being considered as one holder. The aggregate number of shares of common stock outstanding as of March 30, 2007 was 45,720,402 shares.

(c) Dividends -- We have not paid or declared any dividends upon our common stock since inception and, by reason of our present financial status and our contemplated financial requirements, we do not contemplate or anticipate paying any dividends in the foreseeable future (see Part I; Item 1: Risk Factors).

(d) Sales of Unregistered Securities--During the three months ended December 31, 2006, we issued the following:

- * 118,378 shares of our common stock to holders of our 10% senior convertible notes, in settlement of \$13,638 in accrued interest on the notes;

- * 500,000 shares of our common stock, valued at \$47,500, to an accredited investor in consideration for consulting services rendered during the three months ended December 31, 2006, and to be rendered during the three months ended March 31, 2007;
- * 1,000,000 shares of our common stock pursuant to the terms of \$500,000 in principal amount of our 10% senior convertible notes, which were issued October 5, 2006 to an accredited investor;
- * 600,000 shares of our common stock to an accredited investor pursuant to the terms of \$150,000 in principal amount of our 10% senior secured convertible notes, which were issued December 21, 2006;
- * 412,000 shares of our common stock to an accredited investor, in settlement of financing fees payable with respect to the 10% senior convertible notes and 10% senior secured promissory notes issued during the period;
- * 650,000 Series J warrants, in exchange for the cancellation of 520,000 Series E warrants and 1,005,000 stock options on the retirement of one of our directors.
- * 500,000 shares of our common stock to the holder of our 10% promissory note, in settlement of a penalty for failing to repay the entire balance of the note plus accrued interest prior to October 11, 2006.

During the period from January 1 to May 15, 2007, we issued the following:

- * 659,000 shares of our common stock to the holders of our 10% senior secured convertible notes and our 10% senior convertible notes, in satisfaction of \$44,342 of accrued interest on the notes;
- * 3,000,000 shares of our common stock to accredited investors in consideration for consulting services to be rendered over a six-month period;
- * 1,000,000 shares of our common stock to an accredited investor pursuant to an agreement to provide investor relations services over a six month period;
- * 600,000 shares of its common stock to an accredited investor in settlement of \$60,000 in fees payable;
- * 775,000 shares of its common stock to an accredited investor in settlement of financing fees payable;
- * 400,000 shares of its common stock pursuant to the terms of \$200,000 in principal amount of our 10% senior secured convertible notes;
- * 49,333 shares of its common stock to an accredited investor in settlement of finance fees payable with respect to the 10% senior secured convertible note issued during the period;
- * 25,000 shares of our common stock to an accredited investor in consideration for consulting services to be rendered over a one month period commencing March 14, 2007;
- * 750,000 shares of our common stock to an accredited investor pursuant to the terms of \$250,000 in principal amount of our 10% senior convertible notes.

The foregoing securities were issued in reliance upon the exemption provided by Sections 3(a)(9) or 4(2) under the Securities Act of 1933 and the rules promulgated thereunder.

Item 6. Management's Discussion and Analysis or Plan of Operations.

General

In this section, we explain our consolidated financial condition and results of operations for the years ended December 31, 2006 and December 31, 2005. As you read this section, you may find it helpful to refer to our Consolidated Financial Statements in Item 7 of this annual report.

Until we acquired our former subsidiary, Graph-O-Logic, S.A. in August 1999, we had no material or substantive business operations. Since then, our business has been as more fully described in " Part I, Item 1: Description of Business". Accordingly, in this section we focus solely on the historical business operations of the subsidiary and our current business plan and operations.

Critical Accounting Policies

We prepare our financial statements in accordance with generally accepted accounting principles in the United States of America. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and related disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant accounting policies and methods used in preparation of the financial statements are described in note 2 to our 2006 Consolidated Financial Statements included with this Annual Report on Form 10-KSB for the year ended December 31, 2006. We evaluate our estimates and assumptions on a regular basis, based on historical experience and other relevant factors. Actual results could differ materially from these estimates and assumptions. The following critical accounting policies are impacted by judgments, assumptions and estimates used in preparation of our December 31, 2006 Consolidated Financial Statements>

Revenue recognition:

For sales of product licenses, the Corporation recognizes revenue in accordance with Statement of Position 97-2, "Software Revenue Recognition" ("SOP 97-2"), as amended by Statement of Position 98-9, "Software Revenue Recognition with Respect to Certain Transactions", issued by the American Institute of Certified Public Accountants. Revenue from sale of product licenses is recognized when all of the following criteria are met: persuasive evidence of an arrangement exists, delivery has occurred, the fee is fixed or determinable and collectibility is probable.

Revenue from product support contracts is recognized ratably over the life of the contract. Revenue from services is recognized at the time such services are rendered.

For contracts with multiple elements such as product licenses, product support and services, the Corporation follows the residual method. Under this method, the total fair value of the undelivered elements of the contract, as indicated by vendor specific objective evidence, is deferred and subsequently recognized in accordance with the provisions of SOP 97-2. The difference between the total contract fee and the amount deferred for the undelivered elements is recognized as revenue related to the delivered elements. Vendor specific objective evidence for support and consulting services is obtained from contracts where these elements have been sold separately. Where the Corporation cannot determine the fair value of all of the undelivered elements, revenue is deferred until such time as it can be determined, or until all of the elements are delivered.

Long-Lived assets:

We perform impairment tests on our long-lived assets if events or changes in circumstances indicate that an impairment loss may have occurred. We estimate the useful lives of capital assets and deferred charges based on the nature of the asset, historical experience and the terms of any supplier contracts. The valuation of long-lived assets is based on the amount of future net cash flows these assets are estimated to generate. Revenue and expense projections are based on management's estimates, including estimates of current and future industry conditions. A significant change to these assumptions could impact the estimated useful lives or valuation of long-lived assets resulting in a change to depreciation or amortization expense and impairment charges.

Research and development expenses:

We expense all of our research and development expenses in the period in which they are incurred. At such time as our products are determined to be commercially available, we will capitalize those development expenditures that are related to the maintenance of the commercial products, and amortize these capitalized expenditures over the estimated life of the commercial product. The estimated life of the commercial product will be based on management's estimates, including estimates of current and future industry conditions. A significant change to these assumptions could impact the estimated useful life of our commercial products resulting in a change to amortization expense and impairment charges.

Stock-based compensation:

Effective January 1, 2006, the Corporation adopted the provisions of Financial Accounting Standards Board Statement No. 123R "Share-Based Payment – a revision of FAS 123" (SFAS 123R) to account for its stock-based payments. SFAS 123R requires all share-based payments, including stock options granted by the Corporation to its employees, to be recognized as expenses, based on the fair value of the share-based payments at the date of grant. For purposes of estimating the grant date fair value of stock-based compensation, the Corporation uses the Black Scholes option-pricing model, and has elected to treat awards with graded vesting as a single award. The fair value of awards granted is recognized as compensation expense on a straight-line basis over the requisite service period, which in the Corporation's circumstances is the stated vesting period of the award.

In adopting SFAS 123R, the Corporation has applied the modified-prospective transition method. Under this method, the Corporation will recognize compensation costs for all share-based payments granted, modified, or settled after January 1, 2006, as well as for any awards that were granted prior to January 1, 2006 for which the requisite service had not been provided as of that date (unvested awards). Under the modified prospective method, prior periods are not adjusted, and the Corporation continues to provide pro forma disclosure for these periods, as presented below.

For reporting periods ending on or before December 31, 2005, the Corporation applied the intrinsic value-based method of accounting prescribed by Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees", and related interpretations including FASB Interpretation No. 44, "Accounting for Certain Transactions Involving Stock Compensation an interpretation of APB Opinion No. 25" issued in March 2000, to account for its stock options for employees. Under this method, compensation expense is recorded on the date of grant only if the current market price of the underlying stock exceeded the exercise price. Statement of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-Based Compensation," established accounting and disclosure requirements using a fair value-based method of accounting for stock-based employee compensation plans. These provisions are required to be applied to stock compensation granted to non-employees. As allowed by SFAS No. 123, the

Corporation elected to apply the intrinsic value-based method of accounting described above for awards granted to employees, and adopted the disclosure requirements of SFAS No. 123.

Had compensation costs in respect of options granted to employees been determined using the fair value based method at the grant date, the Corporation's pro forma net loss and basic and diluted loss per share for the year ended December 31, 2005 would have been as follows:

Net loss, as reported	\$(4,205,659)
Deduct total stock-based employee compensation expense determined under the fair value-based method for all awards	<u>(1,071,008)</u>
Pro forma net loss	<u><u>\$(5,222,667)</u></u>
Loss per share:	
Basic and diluted – as reported	\$(0.13)
Basic and diluted – pro-forma	\$(0.17)

Plan of Operations

We are a development stage enterprise. As such, our historical results of operations are unlikely to provide a meaningful understanding of the activities expected to take place during the period through December 31, 2007. Our major initiatives through December 31, 2007 are:

- * obtaining commercial sales of our products, and continuing our current marketing program;
- * developing and improving product agents to perform specialized functions common to many e-commerce sites; and
- * furthering the development of our products.

For more information, please see “Part 1. Item 1: Description of Business - Technology.”

Sales and Marketing Plans: We started our marketing process during the second quarter of 2000, with our original focus being potential customers located in the United States and Western Europe. The potential customers and our current marketing program are more fully described in “Part 1. Item 1: Description of Business - The Target Market.”

We will continue to focus our marketing efforts on identifying potential customers by presenting technical seminars, participating in trade shows, using the services of public relations firms, market research, the creation and dissemination of technical and commercial collateral materials, the maintenance and periodic re-design of our website, and the placement of advertisements in print and electronic publications. Subject to our ability to obtain adequate funding, we plan on spending \$200,000 on our marketing efforts during the year ending December 31, 2007.

Our sales representatives, who are compensated on a base compensation plus commission basis, will follow up with potential customers identified through our marketing efforts, with the objective of more fully explaining the benefits of our products and negotiating the terms of the licensing of our products. Subject to our ability to obtain adequate funding, we expect to spend approximately \$873,000 on our sales initiatives, including compensation and travel expenses, during the year ending December 31, 2007.

Subject to our ability to obtain adequate funding, our sales and marketing expenditures for the year ending

December 31, 2007 are expected to total \$1,073,000.

Cost of Sales and Services: In the event that our sales efforts are successful, we will need to assist our customers in the implementation of our products. Depending on the success of our sales efforts, and subject to our ability to obtain adequate funding, we expect to spend \$50,000 on compensation, training and related activities during the year ending December 31, 2007.

Product Development: We plan on continuing to fund third parties to develop our key technology and related products, under the direction and management of our product management group and our senior management. For more information please see “Part 1. Item 1. Description of Business - Our Technology”.

We will improve and further develop our products based on responses from potential customers. The cost associated with our product development activities are primarily those currently planned and thus are subject to a high degree of control. Subject to our ability to obtain adequate funding, we estimate that the cost of our product development program during the year ending December 31, 2007 will be \$1,150,000.

General and Administrative Expenses: Subject to our ability to obtain adequate funding, we expect to spend \$850,000 on general and administrative activities during the year ending December 31, 2007.

During the year ending December 31, 2007, provided we are able to obtain adequate funding, we expect to spend a total of \$3,123,000, subject to our ability to generate revenues from the licensing of our products and our ability to raise additional capital.

Since entering the development stage, we have obtained financing through the private placement of debt, convertible debentures, common stock and warrants, and through the exercise of some of these warrants. Until such time as we generate sufficient revenues from the licensing of our software applications, we will continue to be dependent on raising substantial amounts of additional capital through any one of a combination of debt offerings or equity offerings, including but not limited to:

- * debt instruments, including demand notes and convertible debentures similar to those discussed below in “Liquidity and Capital Resources”;
- * private placements of common stock;
- * exercise of stock options at an average exercise price of \$0.50 per share;
- * exercise of Series ‘E’ warrants at an exercise price of \$0.33 per share;
- * exercise of Series ‘F’ warrants at an exercise price of \$0.50 per share;
- * exercise of Series ‘I’ warrants at an exercise price of \$0.03 per share;
- * exercise of Series “J” warrants at an exercise price of \$0.15 per share; or
- * funding from potential clientele or future industry partners.

Selected Financial Data

The selected financial data set forth below with respect to our consolidated statements of operations for each of the two fiscal years ended December 31, 2006 and with respect to the consolidated balance sheets as at December 31, 2006 and 2005, are derived from our audited consolidated financial statements included at the end of this report. Results of Operations

In this section, we discuss our earnings for the periods indicated and the factors affecting them that resulted in changes from one period to the other.

The fiscal year ended December 31, 2006 compared to the fiscal year ended December 31, 2005

Revenue: We completed our first commercial sale during the third quarter of 2005, however we were unable to recognize revenue in connection with this sale, as all of the criteria required for us to do so as set out in our accounting policies were not met. During April 2006 we determined that collection of the amount invoiced in connection with this sale was in jeopardy, and have recorded an allowance against the entire amount, as an offset against deferred revenue.

On January 1, 2006 we entered into an agreement with a Value Added Reseller (“VAR”), pursuant to which we granted the VAR a license to sell our software to the VAR’s customers for a period of three years. Our fee for this license, excluding applicable sales taxes, was \$155,000, of which \$151,650 had been received as of the financial statement date. We will recognize revenue in connection with this sale once all of the criteria required for us to do so as set out in our accounting policies, have been met.

Since August 1999, we have directed all of our attention towards the completion, and sales and marketing of, our software applications. We believe that if we are successful in our development and sales and marketing efforts, we will generate a source of revenue in the future from sales and/or licensing of our software applications.

Selling, general and administrative expenses: Selling, general and administrative expenses consist primarily of personnel costs, professional fees, insurance, communication expenses, occupancy costs and other miscellaneous costs associated with supporting our research and development and sales and marketing activities. During the year ended December 31, 2006 we incurred a total of \$1,890,887, including \$1,533,660 in cash-based expenses and \$357,227 in stock-based expenses, as compared to \$2,213,403, of which \$1,920,742 was cash-based and \$292,661 was stock-based expenses, during the year ended December 31, 2005. There was an overall decrease in selling, general and administrative expenses of \$322,516 (15%), comprised of a \$387,082 (20%) decrease in the cash-based component of this expense, which was partially offset by a \$64,566 (22%) increase in stock-based expenses. The decrease in the cash-based component of selling, general and administrative expenses occurred primarily as a result of a reduction in the level of activity of our sales and marketing departments, as compared to the level of activity of these departments during the year ended December 31, 2005, during which we were in the process of scaling back our sales and marketing efforts in response to a delay in the expected release date of one of our products. During 2006, we made efforts to further reduce costs in these departments through measures such as reducing the number of sales personnel, discontinuing the services of our public relations firm, reducing the number of trade shows in which we participate, and delaying production of new promotional material. We will continue to carefully monitor these costs as we work within current budgetary limits leading up to the full commercial release of our products.

In addition to the reduction in cash-based costs incurred by our sales and marketing departments, cash-based administrative expenses also decreased during the year ended December 31, 2006 as compared with the year ended December 31, 2005, primarily as a result of a reduction in professional fees, which occurred due to lower ongoing reporting costs relating to our private debt and equity placements which took place during the fourth quarter of 2003 and the first quarter of 2004. We also incurred \$26,000 during the year ended December 31, 2005 in relation to our annual general meeting, for which there was no comparable expense during the year ended December 31, 2006. These reductions were partially offset by increases in cash-based investor relation consultants’ fees and travel costs, due to our efforts to raise additional capital.

Much of our selling, general and administrative expenses are incurred in Canadian dollars. As such, the decreased costs in these departments were partially offset by the higher average exchange rate between the Canadian dollar and the United States dollar experienced during the year ended 2006, as compared with the year ended December 31, 2005 (\$0.882 in 2006; \$0.826 in 2005).

The stock-based component of selling, general and administrative expenses for the year ended December 31, 2006 consisted of \$221,727 in amortization of prepaid consulting fees recognized on the issuance of warrants during 2003, and on the extension, during August 2005, of the expiry date of these warrants from August 31, 2005 to December 31, 2006; \$60,000 in fair value of common stock issued as compensation for investor relations services rendered; \$18,750 in fair value of unvested employee stock options earned during the period, reduced by a reversal of the fair value of unvested employee stock options forfeited during the period; \$11,500 in fair value of 100,000 common shares issued as compensation for the

extension of the repayment period of investor relations fees owing; and \$45,000 in fair value of 500,000 common shares issued as a penalty for failing to repay our 10% promissory note within the initial period set out under the terms of the note. The \$292,661 in the stock-based component of this expense for the year ended December 31, 2005 consisted of \$136,130 in amortization of prepaid consulting fees recognized on the issuance of warrants during 2003, and on the extension, during August 2005, of the expiry date of warrants issued during 2003; and \$156,531 recognized as the fair value of stock options issued to a consultant during the second quarter of 2005 as compensation for services rendered.

Research and development expenses: Research and development expenses consist primarily of personnel costs and consulting expenses directly associated with the development of our software applications. During the year ended December 31, 2006, we spent \$1,125,285, developing our software applications, which represent a decrease of \$182,198 (14%) from the \$1,307,483 we incurred during the year ended December 31, 2005. This decrease is due primarily to a reduction in the size of the Europe-based contract development group from an average of 26 personnel during the year ended December 31, 2005, to an average of 20 personnel during the year ended December 31, 2006. Additionally, we engaged external consultants to perform technical writing and testing of our products during the year ended December 31, 2005, for which there were no comparable costs during the year ended December 31, 2006. In an effort to reduce overall expenses, we also incurred lower travel costs relating to meetings with our Europe-based contract development group during the year ended December 31, 2006 as compared with the year ended December 31, 2005.

Interest and financing costs: Interest and financing costs during the year ended December 31, 2006 consisted of interest and financing costs associated with our 10% senior secured convertible notes, our 10% senior convertible notes, our 10% and 12% promissory notes and interest on the capital lease. During the year ended December 31, 2005, interest and financing costs included interest and financing costs associated with our 4% senior convertible debentures, interest on our 12% promissory notes and interest on the capital lease. During the year ended December 31, 2006, we incurred \$382,817 in interest and financing costs, a decrease of \$232,469 (38%) over the \$615,286 in interest and financing costs incurred during the year ended December 31, 2005.

Of the \$382,817 in interest and financing costs we incurred during the year ended December 31, 2006, \$62,729 relates to our 10% senior secured convertible notes, \$186,654 relates to our 10% senior convertible notes, \$71,247 relates to our 10% promissory notes, \$59,983 relates to our 12% promissory notes and \$2,204 relates to the capital lease. The \$62,729 in interest and financing costs relating to our 10% senior secured convertible notes is comprised of: \$10,900 of accrued interest charges; \$45,992 of accretion of the principal through charges to interest expense; and \$5,837 of amortization of deferred financing costs. The 10% senior secured convertible notes were issued during the year ended December 31, 2006, therefore there is no comparable cost for the year ended December 31, 2005.

The \$186,654 in interest and financing costs relating to our 10% senior convertible notes is comprised of: \$38,620 of accrued interest charges; \$118,607 of accretion of the principal through charges to interest expenses; and \$29,427 of amortization of deferred financing costs. The 10% senior convertible notes were issued during 2006, therefore there is no comparable cost for the year ended December 31, 2005.

The \$71,247 in interest and financing costs relating to our 10% promissory notes is comprised of: \$11,027 of accrued interest charges; \$44,956 of accretion of the principal through charges to interest expenses; and \$15,264 of amortization of deferred costs. The 10% promissory notes were issued during 2006, therefore there is no comparable cost for 2005.

Of the \$615,286 in interest and financing costs we incurred during 2005, \$576,844 related to our 4% senior convertible debentures, which matured on December 31, 2005, resulting in there being no comparable cost

during the year ended December 31, 2006. The remaining \$38,442 in interest and financing costs for the year ended December 31, 2005 consisted of \$35,556 in interest on our 12% promissory notes payable, and \$2,886 related to the capital lease.

Interest on our 12% promissory notes increased by \$24,427 (69%), from \$35,556 during the year ended December 31, 2005, to \$59,983 during the year ended December 31, 2006. This increase occurred as a result of a net increase of \$307,607 in the principal outstanding on the notes during the year ended December 31, 2006, which increased the balance on which interest was charged for 2006 as compared with the year ended December 31, 2005. There was a decrease of \$682 in the amount of interest incurred on our capital lease, as a result of a reduction in the principal outstanding.

Gain on extinguishment of debt: During the year ended December 31, 2006, we recorded \$79,303 in net gains on extinguishment of debt. The terms of our 10% senior secured promissory notes were modified; a gain of \$38,097 was recorded on this transaction. Also during 2006, we exchanged our 10% promissory note for a 10% senior secured convertible note; a gain of \$44,956 was recorded on this transaction. These gains were partially offset by a loss of \$3,750 on the issuance of 250,000 common shares of the Corporation, valued at \$28,750, in satisfaction of accounts payable totaling \$25,000. There were no comparable transactions during the year ended December 31, 2005.

Depreciation of property and equipment: Depreciation of property and equipment was \$61,897 during the year ended December 31, 2006, a decrease of \$21,959 (26%), over the \$83,856 charged to depreciation expense during the year ended December 31, 2005. This decrease occurred as a result of there being a lower value on which depreciation was charged during 2006, due to some of our property and equipment becoming fully depreciated during 2005 and 2006, with no offsetting acquisitions during the year.

Net Loss: We incurred a loss of \$3,387,291 (\$0.09 per share) for the year ended December 31, 2006, compared to a loss of \$4,205,659 (\$0.13 per share) for the year ended December 31, 2005. Our revenues and future profitability and future rate of growth are substantially dependent on our ability to:

- * license the software applications to a sufficient number of clients;
- * to be cash-flow positive on an ongoing basis;
- * modify the successful software applications, over time, to provide enhanced benefits to existing users; and
- * successfully develop related software applications.

Liquidity and Capital Resources

General: Since inception, we have funded our operations from private placements of debt and equity securities. In addition, until September 1999, we derived revenues from consulting contracts with affiliated parties, the proceeds of which were used to fund operations. Until such time as we are able to generate adequate revenues from the licensing of our software applications, we cannot assure that that we will be successful in raising additional capital, or that cash from the issuance of debt securities, the exercise of existing warrants and options, and the placements of additional equity securities, if any, will be sufficient to fund our long-term research and development and selling, general and administrative expenses.

At December 31, 2006, we had \$7,780 in cash and cash equivalents, and at December 31, 2005, we had \$71,193 in cash and cash equivalents. Our cash and cash equivalents decreased during 2006 primarily reflecting our net loss of \$3,387,291 and the resulting cash used in operations of \$1,976,022. Our cash and cash equivalents decreased in 2005 primarily reflecting our net loss of \$4,205,659 and the resulting cash used in operations of \$3,035,255. In the period from January 1 to March 31, 2007 we raised \$59,897

through the issuance of our 12% notes, and \$200,000 through the issuance of our 10% senior secured convertible promissory notes.

As discussed elsewhere in this report, our independent registered public accountants have added an explanatory paragraph to their audit opinion issued in connection with our consolidated financial statements. It states that the following conditions exist, which raise substantial doubt regarding our ability to continue as a going concern: our lack of revenues to date; our negative working capital of \$1,802,444 and our accumulated deficit of \$24,492,283 as at December 31, 2006; our net loss of \$3,387,291 and negative cash flow from operations of \$1,976,022 for the year then ended; our expectation of continued operating losses for the foreseeable future; and the fact that we have no lines of credit or other financing facilities in place.

We achieved our first commercial sale during the third quarter of 2005, however we were unable to recognize revenue in connection with this sale, as all of the criteria required for us to do so as set out in our accounting policies were not met. During April 2006 we determined that collection of the amount invoiced in connection with this was unlikely, and have recorded an allowance against the entire amount, as an offset against deferred revenue. On January 1, 2006 we entered into an agreement with a Value Added Reseller ("VAR"), pursuant to which we granted the VAR a license to sell our software to the VAR's customers for a period of three years. Our fee for this license, excluding applicable sales taxes, was \$155,000, of which \$151,650 had been received as of December 31, 2006. We will recognize revenue in connection with this sale once all of the criteria required for us to do so as set out in our accounting policies, have been met.

We anticipate additional commercial sales during the second quarter of 2007, however we cannot be assured that this will be the case. During the year ended December 31, 2006, we hired one new full-time employee and had three full-time employees and two full-time consultants leave the Corporation. We do not expect to hire any additional personnel during the next six months. We have not made, nor do we expect to make, any material commitments for capital equipment expenditures during the next twelve months.

We have an immediate requirement for additional working capital in order to proceed with our business plan. We review our cash needs and sources on a month-to-month basis and we are currently pursuing appropriate opportunities to raise additional capital to fund operations. Additional sources of capital could involve issuing equity or debt. In January and in March 2007, we engaged financial advisers to provide advice to us with respect to capital raising. However, additional funding may not be available to us on reasonable terms, if at all. The perceived risk associated with the possible sale of a large number of shares could cause some of our stockholders to sell their stock, thus causing the price of our stock to decline. In addition, actual or anticipated downward pressure on our stock price due to actual or anticipated sales of stock could cause some institutions or individuals to engage in short sales of our common stock, which may itself cause the price of our stock to decline. We may be unable to raise additional capital if our stock price is too low. A sustained inability to raise capital could force us to limit or curtail our operations.

We expect the level of our future operating expenses to be driven by the needs of our research and development and marketing programs offset by the availability of funds. In addition, we have since inception made an effort to keep our expenses relatively low and conserve available cash until we begin generating sufficient operating cash flow.

Sources of Capital: Our principal sources of capital for funding our business activities have been the private placements of debt and equity securities. During the year ended December 31, 2006, our sources of capital included the following, which generated cash for funding operations:

- the issuance of 10% senior secured convertible notes for cash proceeds of \$650,000;
- the issuance of 10% senior convertible notes for cash proceeds of \$750,000;

- the issuance of 10% promissory notes for cash proceeds of \$250,000;
- the issuance of 12% promissory notes, net of repayments, for cash proceeds of \$307,607; and
- the exercise of 20,000 series H warrants for cash proceeds of \$10,000.

In addition, the following stock-based transactions reduced our requirements for cash:

- the issuance of 800,000 common shares, valued at \$107,500, in consideration for consulting services rendered and to be rendered;
- the issuance of 740,000 common shares, valued at \$76,400, in consideration for finance fees;
- the issuance of 100,000 common shares, valued at \$11,500, in consideration for the deferral of payment of fees owing;
- the issuance of 250,000 common shares, valued at \$28,750, in settlement of accounts payable in the amount of \$25,000;
- the issuance of 118,378 common shares, valued at \$13,638, in satisfaction of interest payable on our 10% senior convertible notes;
- the issuance of 500,000 common shares, valued at \$45,000, pursuant to the terms of our 10% promissory note, for failure to repay all principal and interest outstanding prior to October 11, 2006.

The Corporation has not entered into any off-balance sheet arrangement which would have provided the Corporation with a source of capital.

Uses of Capital: Over the past several years, we have scaled our development activities to the level of available cash resources. Research and development expenses for the year ended December 31, 2006 decreased by approximately 14% as compared to the year ended December 31, 2005, as a result of cash conservation efforts. Selling, general and administrative expenses for the year ended December 31, 2006 decreased by approximately 15% as compared to the year ended December 31, 2005, due to several factors, including the reduction of our sales and marketing efforts, and as explained more fully under “Results of Operation.”

During the fourth quarter of 2004, and continuing through the latter part of the third quarter of 2005, we scaled back our sales and marketing program, in order to maintain a sustainable level for sales and marketing expenditures leading up to the first commercial release of our products. We hired one additional full-time employee in our sales department during September, 2005, in anticipation of imminent commercial sales, the first of which took place during September 2005. During the year ended December 31, 2006, we hired one new full-time employee and had three full-time employees and two full-time consultant leave the Corporation. Our plans with respect to future staffing will be dependant upon our ability to raise additional capital. We have not entered into any off-balance sheet arrangements which would have resulted in our use of capital.

The cost to implement appropriate controls and procedures to ensure compliance with Section 404 of the Act is included in our budget for 2007.

Commitments: We have entered into an operating lease agreement for office space which expires on April 30, 2010. Future minimum lease payments including operating costs are approximately as follows:

Year	Amount
2007	\$ 84,859
2008	67,694
2009	67,694
2010	22,565

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders

Validian Corporation

We have audited the accompanying consolidated balance sheets of Validian Corporation and subsidiaries (a Development Stage Enterprise) as of December 31, 2006 and 2005, and the related consolidated statements of operations, changes in stockholders' equity (deficiency) and comprehensive loss and cash flows for each of the years in the two-year period ended December 31, 2006 and the period from August 3, 1999 to December 31, 2006. These consolidated financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Validian Corporation and subsidiaries as of December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the years then ended and the period from August 3, 1999 to December 31, 2006, in conformity with U.S. generally accepted accounting principles.

The accompanying financial statements have been prepared assuming that the Corporation will continue as a going concern. As discussed in Note 2(a) to the consolidated financial statements, the Corporation has no revenues, has negative working capital at December 31, 2006, and has incurred a loss for the year, as well as negative cash flow from operating activities in the same period. The Company has accumulated a deficit and its economic viability is dependent on its ability to finalize the development of its principal products, generate sales and finance operational expenses which raises substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2(a). The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

As discussed in note 2 to the consolidated financial statements, in 2006 the Corporation changed its method of accounting for share-based payments.

VALIDIAN CORPORATION

(A Development Stage Enterprise)

Notes to Consolidated Financial Statements

Years ended December 31, 2006 and 2005

(In U.S. dollars)

1. General:

Validian Corporation (the "Corporation") was incorporated in the State of Nevada on April 12, 1989 as CCC Funding Corp. The Corporation underwent several name changes before being renamed to Validian Corporation on January 28, 2003.

Since August 3, 1999, the efforts of the Corporation have been devoted to the development of a high speed, highly secure method of transacting business using the internet, and to the sale and marketing of the Corporations' products. Prior to August 3, 1999, the Corporation provided consulting services for web site implementation, multimedia CD design, computer graphic publication, as well as implementation of dedicated software solutions used in connection with the French Minitel and the internet. As the Corporation commenced development activities on this date, it is considered for financial accounting purposes to be a development stage enterprise, and August 3, 1999 is the commencement of the development stage.

2. Summary of significant accounting policies:

(a) Future operations:

The consolidated financial statements have been prepared assuming that the Corporation will continue as a going concern. The Corporation has no revenues, has negative working capital of \$1,802,444, has accumulated a deficit of \$24,643,182 as at December 31, 2006, and has incurred a loss of \$3,387,291 and negative cash flow from operations of \$1,976,022 for the year then ended. In addition, the Corporation expects to continue to incur operating losses for the foreseeable future, and has no lines of credit or other financing facilities in place.

If the Corporation obtains further financing and generates revenue, it expects to incur operating expenditures of approximately \$3.1 million for the year ending December 31, 2007. In the event the Corporation cannot raise the funds necessary to finance its research and development and sales and marketing activities, it may have to cease operations.

All of the factors above raise substantial doubt about the Corporation's ability to continue as a going concern. Management's plans to address these issues include raising capital through the private placement of equity, the exercise of previously-issued equity instruments and through the issuance of additional promissory notes.

VALIDIAN CORPORATION

(A Development Stage Enterprise)

Notes to Consolidated Financial Statements

Years ended December 31, 2006 and 2005

(In U.S. dollars)

2. Summary of significant accounting policies (continued):

(a) Future operations (continued):

The Corporation's ability to continue as a going concern is subject to management's ability to successfully implement these plans. Failure to do so could have a material adverse effect on the Corporation's position and or results of operations and could also result in the Corporation's ceasing operations. The consolidated financial statements do not include adjustments that would be required if the assets are not realized and the liabilities settled in the normal course of operations.

Even if successful in obtaining financing in the near term, the Corporation cannot be certain that cash generated from its future operations will be sufficient to satisfy its liquidity requirements in the longer term, and it may need to continue to raise capital by issuing additional equity or by obtaining credit facilities. The Corporation's future capital requirements will depend on many factors, including, but not limited to, the market acceptance of its products and the level of its promotional activities and advertising required to generate product sales. No assurance can be given that any such additional funding will be available or that, if available, it can be obtained on terms favorable to the Corporation.

(b) Principles of consolidation:

These consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America and include the accounts of Validian Corporation and its wholly-owned subsidiaries, Sochrys Technologies Inc. and Evolusys S.A. All intercompany balances and transactions have been eliminated.

(c) Cash and cash equivalents:

Cash and cash equivalents include liquid investments with original maturity dates of three months or less.

(d) Property and equipment:

Property and equipment is stated at cost less accumulated depreciation, and includes computer hardware and software, furniture and equipment, equipment under capital lease and leasehold improvements. These assets are being depreciated on a straight-line basis over their estimated useful lives, as follows: computer hardware, furniture and equipment: 3 years; equipment under capital lease: over the term of the lease, being 4 years; computer software: 1 year; leasehold improvements: over the term of the lease, being 2 years.

Notes to Consolidated Financial Statements

Years ended December 31, 2006 and 2005

(In U.S. dollars)

2. Summary of significant accounting policies (continued):

(e) Leases:

Leases are classified as either capital or operating in nature. Capital leases are those which substantially transfer the benefits and risk of ownership to the Corporation. Assets acquired under capital leases are depreciated as described in note 1(d). Obligations recorded under capital leases are reduced by the principal portion of lease payments. The imputed interest portion of lease payments is charged to expense.

(f) Deferred financing costs:

Deferred financing costs represent the costs associated with arranging the 10% senior convertible notes and the 10% senior secured convertible notes. The costs are being amortized over the term of the notes.

(g) Prepaid expenses and deferred consulting services:

Deferred consulting services represent the portion of prepaid non-cash consulting fees for services to be rendered in periods in excess of twelve months from the balance sheet date. Prepaid non-cash consulting fees related to services to be rendered within twelve months from the balance sheet date are included in prepaid expenses on the balance sheet. These costs will be charged to expenses as the services are rendered. If for any reason circumstances arise which would indicate that the services will not be performed in the future, any remaining balance included in prepaid expenses and deferred consulting services will be charged to expense immediately.

(h) Income taxes:

Deferred income taxes are determined using the asset and liability method, whereby deferred income tax is recognized on temporary differences using enacted tax rates that are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Temporary differences between the carrying values of assets or liabilities used for tax purposes and those used for financial reporting purposes arise in one period and reverse in one or more subsequent periods. In assessing the realizability of deferred tax assets, management considers known and anticipated factors impacting whether some portion or all of the deferred tax assets will not be realized. To the extent that the realization of deferred tax assets is not considered to be more likely than not, a valuation allowance is provided.

Notes to Consolidated Financial Statements

Years ended December 31, 2006 and 2005

(In U.S. dollars)

2. Summary of significant accounting policies (continued):

(i) Revenue recognition:

For sales of product licenses, the Corporation recognizes revenue in accordance with Statement of Position 97-2, "Software Revenue Recognition" ("SOP 97-2"), as amended by Statement of Position 98-9, "Software Revenue Recognition with Respect to Certain Transactions", issued by the American Institute of Certified Public Accountants. Revenue from sale of product licenses is recognized when all of the following criteria are met: persuasive evidence of an arrangement exists, delivery has occurred, the fee is fixed or determinable and collectibility is probable.

Revenue from product support contracts is recognized ratably over the life of the contract. Revenue from services is recognized at the time such services are rendered.

For contracts with multiple elements such as product licenses, product support and services, the Corporation follows the residual method. Under this method, the total fair value of the undelivered elements of the contract, as indicated by vendor specific objective evidence, is deferred and subsequently recognized in accordance with the provisions of SOP 97-2. The difference between the total contract fee and the amount deferred for the undelivered elements is recognized as revenue related to the delivered elements. Vendor specific objective evidence for support and consulting services is obtained from contracts where these elements have been sold separately. Where the Corporation cannot determine the fair value of all of the undelivered elements, revenue is deferred until such time as it can be determined, or until all of the elements are delivered.

(j) Research and development:

Costs related to research, design and development of software products are charged to research and development expenses as incurred. Software development costs are capitalized beginning when a product's technological feasibility has been established, which generally occurs upon completion of a working model, and ending when a product is available for general release to customers, and is generating significant revenue.

(k) Foreign currency translation:

The functional currency for the financial statements of the Corporation is the United States dollar. Exchange gains or losses are realized due to differences in the exchange rate at the transaction date versus the rate in effect at the settlement or balance sheet date.

2. Summary of significant accounting policies (continued):

(I) New accounting policy - stock-based compensation:

Effective January 1, 2006, the Corporation adopted the provisions of Financial Accounting Standards Board Statement No. 123R "Share-Based Payment – a revision of FAS 123" (SFAS 123R) to account for its stock-based payments. SFAS 123R requires all share-based payments, including stock options granted by the Corporation to its employees, to be recognized as expenses, based on the fair value of the share-based payments at the date of grant. For purposes of estimating the grant date fair value of stock-based compensation, the Corporation uses the Black Scholes option-pricing model, and has elected to treat awards with graded vesting as a single award. The fair value of awards granted is recognized as compensation expense on a straight-line basis over the requisite service period, which in the Corporation's circumstances is the stated vesting period of the award.

In adopting SFAS 123R, the Corporation has applied the modified-prospective transition method. Under this method, the Corporation will recognize compensation costs for all share-based payments granted, modified, or settled after January 1, 2006, as well as for any awards that were granted prior to January 1, 2006 for which the requisite service had not been provided as of that date (unvested awards). Under the modified prospective method, prior periods are not adjusted, and the Corporation continues to provide pro forma disclosure for these periods, as presented below.

For reporting periods ending on or before December 31, 2005, the Corporation applied the intrinsic value-based method of accounting prescribed by Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees", and related interpretations including FASB Interpretation No. 44, "Accounting for Certain Transactions Involving Stock Compensation an interpretation of APB Opinion No. 25" issued in March 2000, to account for its stock options for employees. Under this method, compensation expense is recorded on the date of grant only if the current market price of the underlying stock exceeded the exercise price. Statement of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-Based Compensation," established accounting and disclosure requirements using a fair value-based method of accounting for stock-based employee compensation plans. These provisions are required to be applied to stock compensation granted to non-employees. As allowed by SFAS No. 123, the Corporation elected to apply the intrinsic value-based method of accounting described above for awards granted to employees, and adopted the disclosure requirements of SFAS No. 123.

2. Summary of significant accounting policies (continued):

(l) New accounting policy - stock-based compensation (continued):

Had compensation costs in respect of options granted to employees been determined using the fair value based method at the grant date, the Corporation's pro forma net loss and basic and diluted loss per share for the year ended December 31, 2005 would have been as follows:

Net loss, as reported	\$(4,205,659)
Deduct total stock-based employee compensation expense determined under the fair value-based method for all awards	<u>(1,071,008)</u>
Pro forma net loss	<u><u>\$(5,222,667)</u></u>
Loss per share:	
Basic and diluted – as reported	\$(0.13)
Basic and diluted – pro-forma	\$(0.17)

(m) Impairment or disposal of long-lived assets:

The Corporation accounts for long-lived assets in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". This Statement requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

(n) Use of estimates:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from those estimates.

2. Summary of significant accounting policies (continued):

- (o) New accounting policy – income tax consequences of issuing convertible debt with a beneficial conversion feature:

In September 2005, the FASB ratified the consensus reached by the Emerging Issues Task Force ("EITF") on Issue 05-8, "income Tax Consequences of Issuing Convertible Debt with a Beneficial Conversion Feature" ("EITF 05-8"). The Task Force reached the following consensus:

- The issuance of convertible debt with a beneficial conversion feature results in a basis difference in applying FASB Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes." Recognition of such a feature effectively creates a debt instrument and a separate equity instrument for reporting purposes, whereas the convertible debt is treated entirely as a debt instrument for income tax purposes;
- The resulting basis difference should be deemed a temporary difference because it will result in a taxable amount when the recorded amount of the liability is recovered or settled;
- Recognition of deferred income tax for the temporary difference should be reported as an adjustment to additional paid-in capital;

The foregoing consensus is effective for reporting periods commencing after December 15, 2005, and is required to be applied retrospectively to all debt instruments containing beneficial conversion features that are subject to EITF 00-27, "Application of Issue No. 98-5 to Certain Convertible Debt Instruments," and thus is applicable to debt instruments converted or extinguished in prior periods but which are still presented in the financial statements. In situations in which establishment of this deferred tax liability requires the reduction of a valuation allowance on existing deferred tax assets, such reduction should also be allocated to additional paid-in capital.

The adoption of this new accounting policy has had no impact on the Corporation's consolidated financial statements, as the reduction of the valuation allowance offsets the recognition of the deferred tax liability.

Promissory notes payable end of year	\$ 603,928	\$ 296,321

On July 13, 2006, in conjunction with the modification of the 10% senior secured promissory notes (note 7), the Corporation issued \$250,000 in principal amount of its 10% promissory notes. The note had a maturity date of July 13, 2007, and was unsecured. Under the terms of the note, the Corporation could pre-pay all or any portion of the balance outstanding on the note without penalty or bonus; interest was payable at maturity. A condition of the 10% promissory note was that in the event the note was not repaid on or before October 11, 2006 from the proceeds of a pre-identified \$500,000 financing, the Corporation would be required to issue 500,000 common shares to the holder of the note as a penalty. The Corporation did not meet this condition, and as a result, 500,000 common shares, valued at \$45,000 were issued to the holder on October 11, 2006. This penalty has been included in selling, general and administrative expenses for the year ended December 31, 2006.

The holder of the note was granted 1,000,000 common shares of the Corporation upon issuance of the note. In accordance with APB 14, "Accounting for Convertible Debt and Debt issued with Stock Purchase Warrants," \$150,000, representing the relative fair value of the shares at the issuance date, was allocated to the common shares. The 10% promissory note was being accreted to its face value on the effective interest method, through periodic charges to interest expense over the term of the note.

During the period from July 13 to December 21, 2006, the Corporation accreted the note payable through charges to interest expense totaling \$44,956.

The 10% promissory note was amended and replaced by a 10% senior secured convertible note (note 7) on December 21, 2006. The new note is "substantially different" from the original note, as that term is defined in EITF 96-19: "Debtor's Accounting for a Modification or Exchange of Debt Instruments". Accordingly, the Corporation has accounted for the modification as an extinguishment of the original debt, which resulted in a gain of \$44,956 on the extinguishment (note 11).

The following table sets forth the changes in the financial statement presentation of the balance allocated to the 10% promissory note at December 31, 2006:

7. 10% Senior secured convertible notes:

On June 1, 2006, the Corporation issued a total of \$500,000 of its 10% senior secured convertible notes. The notes were secured by a first position lien on all of the assets of the Corporation and had a maturity date of June 1, 2007. Under the terms of the notes, the holders were permitted, at any time, to convert all or a portion of the outstanding principal plus accrued interest into common stock of the Corporation at a ratio of one common share for each \$0.10 of debt and accrued interest converted; the Corporation had the option of pre-paying all or any portion of the balance outstanding on the notes at any time, without penalty or bonus; and interest was payable quarterly, in arrears. Additionally, the holders could demand repayment of 50% of the principal of the note, at such time as the Corporation completed an equity financing of \$500,000 or more.

Holders of the notes were also granted 1,000,000 common shares of the Corporation upon issuance of the notes. In accordance with APB 14, "Accounting for Convertible Debt and Debt issued with Stock Purchase Warrants," \$170,000, representing the relative fair value of the shares at the issuance date, was allocated to the common shares par value and additional paid in capital.

At the date of issuance, the conversion feature of the notes was "in-the-money". The intrinsic value of this beneficial conversion feature was \$330,000. In accordance with EITF 98-5, "Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratio" and EITF 00-27, "Application of Issue No. 98-5 to Certain Convertible Instruments," this amount was recorded as additional paid-in capital.

7. 10% Senior secured convertible notes (continued):

On December 21, 2006, the Corporation issued \$150,000 of its 10% senior secured convertible notes. The notes are secured by a first position lien on all of the assets of the Corporation, and have a maturity date of July 1, 2008. Under the terms of the notes, the holders are permitted, at any time, to convert all or a portion of the outstanding principal plus accrued interest into common stock of the Corporation at a ratio of one common share for each \$0.10 of debt and accrued interest converted; the Corporation has the option of pre-paying all or any portion of the balance outstanding on the notes at any time, without penalty or bonus; and interest is payable quarterly, in arrears.

Holders of the notes were also granted 600,000 common shares of the Corporation upon issuance of the notes. In accordance with APB 14, "Accounting for Convertible Debt and Debt issued with Stock Purchase Warrants," \$44,802, representing the relative fair value of the common shares at the issuance date, was allocated to the common shares par value and additional paid-in capital.

At the date of issuance, the conversion feature of the notes was not "in-the-money", and accordingly, none of the principal balance was allocated to additional paid-in capital.

The following table sets forth the financial statement presentation of the 10% senior secured convertible note proceeds on issuance:

7. 10% Senior secured convertible notes (continued):

On July 11, 2006, in conjunction with the issuance of \$250,000 in promissory notes (note 5), \$500,000 of the 10% senior secured convertible notes were amended and restated as follows: the first position lien on all of the assets of the Corporation was removed; the date of maturity was extended by one year to June 1, 2008; the Corporation was given the option of paying the quarterly interest either in cash or in common shares of the Corporation; the provision allowing the holder to demand immediate repayment of 50% of the face value of the note in the event of an equity financing by the Corporation of at least \$500,000 was removed. These amendments collectively resulted in the new notes being "substantially different" from the original notes, as that term is defined in EITF 96-19: "Debtor's Accounting for a Modification or Exchange of Debt Instruments". Accordingly the Corporation accounted for the modification as an extinguishment of the original debt, which resulted in a gain on the extinguishment of \$38,097; the accounting values relating to the modified 10% senior secured convertible notes were reclassified to 10% convertible notes at the date of modification.

On December 21, 2006, the 10% promissory note (note 5) was amended and replaced by a 10% senior secured convertible note. Accordingly, the modified 10% promissory note has been reclassified as a 10% senior secured convertible note as of the date of the modification.

Also on December 21, 2006, in conjunction with the modification of the 10% promissory note (note 5), \$500,000 in principal amount of the 10% senior convertible notes (note 8) were amended and replaced by 10% senior secured convertible notes. Accordingly, the modified 10% senior convertible notes have been reclassified as 10% senior secured convertible notes as of the date of the modification.

The 10% senior secured convertible notes are being accreted to their face value on an effective yield basis, through periodic charges to interest expense over the term of the notes.

The following table sets forth the changes in the financial statement presentation of the balance allocated to 10% senior secured convertible notes at December 31, 2006:

8. 10% Senior convertible notes:

On various dates between June 30 and December 21, 2006, the Corporation issued an aggregate of \$750,000 of its 10% senior convertible notes. \$250,000 of the notes mature on July 1, 2008; \$500,000 mature on October 1, 2008. The notes are unsecured. Under the terms of the notes, the holders are permitted, at any time, to convert all or a portion of the outstanding principal plus accrued interest into common stock of the Corporation at a ratio of one common share for each \$0.10 of debt converted; the Corporation may pre-pay all or any portion of the balance outstanding on the notes at any time, without penalty or bonus; interest is payable quarterly, and may, at the Corporation's option, be paid either in cash or in common shares of the Corporation. If interest is paid in common shares, the number of shares required for settlement will be calculated using a 10% discount to the average closing price of the common stock, as listed on the exchange where the Corporation's common stock is traded, for the ten days prior to the date the interest is due to the holder.

Holders of the notes were also granted an aggregate of 1,200,000 common shares of the Corporation upon issuance of the notes. In accordance with APB 14, "Accounting for Convertible Debt and Debt issued with Stock Purchase Warrants," \$189,600, representing the relative fair value of the common shares at the issuance date, was allocated to the common shares par value and additional paid-in capital.

At the date of issuance, the conversion feature relating to \$600,000 in principal amount of the notes was "in-the-money". The intrinsic value of this beneficial conversion feature was \$185,297. In accordance with EITF 98-5, "Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ration" and EITF 00-27, "Application of Issue No. 98-5 to Certain Convertible Instruments," this amount was recorded as additional paid-in capital.

The 10% senior convertible notes are being accreted to their face value on the effective interest method, through periodic charges to interest expense over the term of the notes.

On December 21, 2006, in conjunction with the modification of the 10% promissory note (note 5), \$500,000 in principal amount of the 10% senior convertible notes were amended and restated as follows: a general security agreement, covering all the assets of the Corporation, was registered in favor of the holders. This amendment did not result in the new notes being "substantially different" from the original notes, as that term is defined in EITF 96-19 "Debtor's Accounting for a Modification or Exchange of Debt Instruments". Accordingly, the modified notes have been reclassified as 10% senior secured convertible notes as of the date of the modification; no gain or loss has been recorded on the transaction.

(a) Common stock transactions (continued):

During the year ended December 31, 2006, the Corporation issued 118,378 shares of its common stock in settlement of \$13,637 in accrued interest on the 10% senior convertible notes.

During the year ended December 31, 2005, the Corporation issued 1,157,866 shares of its common stock to holders of its 4% senior subordinated convertible debentures, in connection with the conversion of \$578,932 of debenture principal and accrued interest.

On December 31, 2005, the Corporation issued 485,672 shares of its common stock to holders of its 4% senior subordinated convertible debentures, in settlement of \$225,000 in principal, plus \$17,835 in accrued interest on maturity of the debentures.

During the year ended December 31, 2005, the Corporation issued 805,000 shares of its common stock in connection with the exercise of 805,000 stock purchase warrants for cash proceeds of \$402,500.

(b) Transactions involving stock purchase warrants:

On April 20, 2006, holders of the Series H warrants exercised 20,000 warrants, and purchased 20,000 shares of the Corporation's common stock for cash proceeds of \$10,000.

Effective June 1, 2006, the exercise price of the Corporation's Series I warrants was adjusted from \$0.90 to \$0.10, in accordance with the terms of the warrant agreements, which call for the conversion rate to be adjusted at such time as the Corporation issues debt or equity instruments having a conversion rate lower than \$0.90. On June 1, 2006, the Corporation issued senior secured convertible notes (note 7), which have a conversion rate of \$0.10.

On December 31, 2006, in connection with the resignation of one of the Corporation's directors, 520,000 Series E warrants and 1,005,000 stock options (note 9(c)) were surrendered in exchange for the issuance of 650,000 Series J warrants. The Series J warrants entitle the holder to purchase a total of 650,000 common shares of the Corporation at an exercise price of \$0.15 per share, are exercisable at any time, and expire on June 30, 2008. At the date of issuance, the fair value of the Series J warrants was \$18,307, which was lower than the aggregate fair value of the Series E warrants and the stock options surrendered (\$9,314 and \$17,688, respectively). Accordingly, the Corporation did not record an expense in relation to this transaction. The fair value of the Series J and Series E warrants, and the stock options, were calculated using the Black Scholes option pricing model with the following assumptions: expected dividend yield 0%; risk-free interest rate of 4.9%; expected volatility ranging from 136% to 143%; and an expected life ranging from 1.3 to 1.5 years.

(b) Transactions involving stock purchase warrants (continued):

On December 31, 2006, 400,000 Series G warrants and 2,652,500 Series H warrants expired.

On August 31, 2005, the 400,000 Series G warrants were amended to extend the expiry date from September 3, 2005 to December 31, 2006, as consideration for consulting services to be rendered during the period for which the extension was granted. \$15,292, representing the fair value of the extension granted in exchange for services rendered to December 31, 2005, was included in selling, general and administrative expenses for the year then ended; \$45,870, representing the fair value of the extension granted in exchange for services to be rendered during the next twelve months, was included in prepaid expenses at December 31, 2006, and has been included in selling, general and administrative expenses for the year ended December 31, 2006. The fair value of the extension was calculated using the Black Scholes option pricing model, with the following weighted average assumptions: expected dividend yield 0%; risk-free interest rate of 3.71%; expected volatility of 94%; and an expected life of 1.33 years.

On November 7, 2005, holders of the Series H warrants exercised a total of 55,000 warrants, and purchased 55,000 shares of the Corporation's common stock for cash proceeds of \$27,500.

On November 8, 2005, holders of the Series F warrants exercised a total of 750,000 warrants, and purchased 750,000 shares of the Corporation's common stock for cash proceeds of \$375,000.

Following is a summary of stock purchase warrants outstanding at December 31, 2006 and 2005:

	Exercise Price	Expiry	Outstanding 2006	Outstanding 2005

(c) Transactions involving stock options:

The Corporation has two incentive equity plans, under which a maximum of 7,000,000 options to purchase 7,000,000 common shares may be granted to officers, employees and consultants of the Corporation. The granting of options, and the related terms, are determined at the discretion of the board of directors. As of December 31, 2006, there were a total of 3,447,302 options granted under these plans, with exercise prices ranging from \$0.33 to \$0.67, and expiry dates ranging from May 7, 2008 to January 1, 2011. 3,272,302 of these options vested immediately upon issuance; 25,000 vested on November 14, 2006; and 150,000 vest on dates ranging from January 1, 2007 to November 14, 2008. 3,552,698 options remained available for grant under these plans as of December 31, 2006.

During the year ended December 31, 2006, the Corporation granted 100,000 stock options to an employee as an incentive to enter into full-time employment with the Corporation. The options vest on various dates between January 1, 2007 and January 1, 2009; have an exercise price of \$0.67; and an expiry date for unexercised options of January 12, 2011, with provision for early forfeiture in the event the holder ceases to be employed by the Corporation prior to the stated expiry date. The fair value of these options at date of grant was \$19,556, determined using the following assumptions: expected dividend yield 0%; risk-free interest rate of 4.39%; expected volatility of 158%; an expected life of 5 years; and an expected forfeiture rate of 1.5%.

In accordance with the Corporation's accounting policy in respect of stock options granted to employees (note 2(f)), the Corporation has included \$6,618, representing the fair value of the options earned during the year ended December 31, 2006, in selling general and administrative expenses for the year then ended. The related employment agreement was terminated effective March 30, 2007, at which time 66,667 of the 100,000 options originally granted to this employee remained unvested. Accordingly, there will be no further expense recognized in relation to these options.

During the year ended December 31, 2006, the Corporation also included in expenses the following amounts related to options granted to employees during 2005, which were unvested as at December 31, 2005: \$14,391 was included in selling, general and administrative expense; and \$9,939 was included in research and development expense. \$6,653, representing the fair value of the options attributable to the period remaining until the options are fully vested, will be recognized as expense on a straight-line basis over the remaining service period, which ends on November 14, 2008. During the year ended December 31, 2006, 250,000 of the options granted to employees during 2005, which were unvested as at December 31, 2005, were forfeited as a result of the termination of the related employment agreements. In order to reflect these forfeitures, the fair value of the unvested options recognized during the year was reversed, as follows: \$2,259 previously recognized as selling, general and administrative expense was reversed; and \$9,939 previously recognized as research and development expense was reversed.

(c) Transactions involving stock options (continued):

On December 31, 2006, in connection with the resignation of one of the Corporation's directors, 1,005,000 stock options and 520,000 Series E warrants were surrendered in exchange for the issuance of 650,000 Series J warrants (note 9(b)).

During the year ended December 31, 2005, the Corporation granted a total of 2,750,000 stock options to employees and consultants under the Corporation's 2004 Incentive Equity Plan. 400,000 of these options were granted to consultants in respect of services provided, and 2,350,000 options were granted to employees.

150,000 of the options granted to consultants during 2005 were in respect of services provided during 2004, for which a liability was accrued during 2004. 75,000 of these options were forfeited during the year ended December 31, 2005 as a result of the termination of the related consulting agreements.

The remaining 250,000 options granted to a consultant during 2005 vested immediately upon issuance, and gave the holder the right to purchase a total of 250,000 common shares at an exercise price of \$0.67. The expiry date for unexercised options is June 30, 2010, with provision for early forfeiture in the event the holder ceases to be engaged by the Corporation prior to the stated expiry date. In connection with these options, an expense of \$156,531, representing the fair value of the options at their grant date, was included in selling, general and administrative expenses for the year ended December 31, 2005. The fair value was calculated using the Black Scholes option pricing model, with the following assumptions: expected dividend yield 0%; risk-free interest rate of 3.76%; expected volatility of 161%; and an average expected life of 5.02 years.

(c) Transactions involving stock options (continued):

There were 350,000 options granted to employees on March 8, 2005, which included the following provisions: all of the options vested immediately upon issuance; 250,000 have an exercise price of \$0.90; 100,000 have an exercise price of \$0.50; the expiry dates for unexercised options range from March 31, 2009 to December 31, 2009, with provision for early forfeiture in the event the holder ceases to be employed by the Corporation prior to the stated expiry date. The fair value of these options at date of grant was \$161,585, determined using the Black Scholes option pricing model, with the following weighted average assumptions: expected dividend yield 0%; risk-free interest rate of 3.44%; expected volatility of 170%; and an average expected life of 4.29 years. 25,000 of these options were forfeited during the year ended December 31, 2005 as a result of the termination of the related employment agreement.

300,000 options, of which 150,000 vested immediately upon issuance and 150,000 were to vest upon the achievement of predefined goals, were granted to an employee on April 22, 2005. All of these options had an exercise price of \$0.50 and an expiry date for unexercised options of April 22, 2010, with provision for early forfeiture in the event the holder ceases to be employed by the Corporation prior to the stated expiry date. The fair value of the vested and unvested options at date of grant was \$134,530, determined using the Black Scholes option pricing model, with the following weighted average assumptions: expected dividend yield 0%; risk-free interest rate of 2.97%; expected volatility of 162%; and an average expected life of 5 years.

The Corporation granted 400,000 options to employees on June 22, 2005, and a further 900,000 on June 30, 2005. All of these options vested immediately upon issuance, had an exercise price of \$0.67, and an expiry date of June 30, 2010 for unexercised options, with provision for early forfeiture in the event the holder ceases to be employed by the Corporation prior to the stated expiry date. The fair value of these options at their grant dates was \$726,660, determined using the Black Scholes option pricing model, with the following weighted average assumptions: expected dividend yield 0%; risk-free interest rate of 3.76%; expected volatility of 161%; and an average expected life ranging from 5 to 5.02 years.

400,000 options, of which 225,000 vested immediately upon issuance and 175,000 had various vesting dates during the period from November 1, 2006 to November 14, 2008, were granted to employees on November 18, 2005. All of these options had an exercise price of \$0.67; expiry dates for unexercised options range from November 1 to December 31, 2010, with provision for early forfeiture in the event the holder ceases to be employed by the Corporation prior to the stated expiry date. The fair value of the vested and unvested options at date of grant was \$100,183, determined using the Black Scholes option pricing model, with the following weighted average assumptions: expected dividend yield 0%; risk-free interest rate of 4.45%; expected volatility of 158%; and an average expected life of 5 years.

12. Loss per share:

As the Corporation incurred a net loss during the years ended December 31, 2006 and 2005, the loss and diluted loss per common share are based on the weighted-average common shares outstanding during the year. The following outstanding instruments could potentially dilute loss per share for the periods presented:

	2006	2005
Stock options	3,447,302	5,252,302
Series E stock purchase warrants	1,635,000	2,155,000

Series J stock purchase warrants	650,000	--
	12,391,635	17,139,135

13. Related party transactions:

Included in accrued liabilities is \$128,715 (December 31, 2005: \$nil) in accrued salaries payable to the directors and a former director of the Corporation.

Included in 12% promissory notes payable (note 5) is \$7,902 payable to a company controlled by a director of the Corporation, and \$18,438 payable to a director. \$221 in accrued interest charges relating to these notes is included in accrued liabilities and interest and finance costs.

As discussed in note 14(b), the Corporation also entered into an agreement to sublease excess office space to a related company.

14. Guarantees and Commitments:

a) Guarantees

The Corporation has entered into agreements which contain features which meet the definition of a guarantee under FASB Interpretation No. 45 ("FIN 45"). FIN 45 defines a guarantee to be a contract that contingently requires the Corporation to make payments (either in cash, financial instruments, other assets, common stock of the Corporation or through the provision of services) to a third party based on changes in an underlying economic characteristic (such as interest rates or market value) that is related to an asset, liability or an equity security of the other party.

The Corporation has the following guarantees which are subject to the disclosure and measurement requirements of FIN 45:

VALIDIAN CORPORATION

(A Development Stage Enterprise)

Notes to Consolidated Financial Statements

Years ended December 31, 2006 and 2005

(In U.S. dollars)

14. Guarantees and Commitments (continued):

a) Guarantees (continued)

(i) In the normal course of business, the Corporation entered into a lease agreement for facilities. As the lessee, the Corporation agreed to indemnify the lessor for liabilities that may arise from the use of the leased facility. The maximum amount potentially payable under the foregoing indemnity cannot be reasonably estimated. The Corporation has liability insurance that relates to the indemnification described above.

(ii) The Corporation includes standard intellectual property indemnification clauses in its software license and service agreements. Pursuant to these clauses, the Corporation holds harmless and agrees to defend the indemnified party, generally the Corporation's business partners and customers, in connection with certain patent, copyright or trade secret infringement claims by third parties with respect to the Corporation's products. The term of the indemnification clauses is generally perpetual any time after execution of the software license and service agreement. In the event an infringement claim against the Corporation or an indemnified party is successful, the Corporation, at its sole option, agrees to do one of the following: (i) procure for the indemnified party the right to continue use of the software; (ii) provide a modification to the software so that its use becomes non-infringing; (iii) replace the software with software which is substantially similar in functionality and performance; or (iv) refund the residual value of the software license fees paid by the indemnified party for the infringing software. The Corporation believes the estimated fair value of these intellectual property indemnification clauses is minimal.

Historically, the Corporation has not made any significant payments related to the above-noted indemnities and accordingly, no liability related to the contingent features of these guarantees has been accrued in the financial statements.

b) Commitment

During April, 2004, the Corporation entered into a lease agreement for office space. In July 2005, and in April 2007, the lease period was extended for periods of one and three years, respectively. Minimum annual rent, including operating costs, payable under this contract is approximately as follows:

2007	\$ 84,900
2008	67,700
2009	67,700
2010	22,600
Total	\$ 242,900

14. Guarantees and Commitments (continued):

b) Commitment (continued)

Effective July 1, 2004, the Corporation also entered into an agreement to sublease excess office space to a related company. The companies are related by virtue of an officer and director of the Corporation being also an officer and director of the other company. Included in accounts receivable is \$nil (2005 - \$5,508) in rent receivable pursuant to this sublease agreement. The transaction has been recorded at the exchange amount. Rental expense for the year ended December 31, 2005, which is included in selling, general and administrative expenses, has been reduced by sublease income of \$31,808 (2005 - \$29,709). The anticipated remaining sublease income is approximately as follows: 2007 - \$10,297.

Rent expense incurred under the operating lease for the year ended December 31, 2005, net of sublease income, was \$118,647 (2005 - \$113,882).

15. Contingent liability:

On December 21, 2006, a former director of the Corporation commenced legal action against the Corporation with respect to approximately \$42,905 in unpaid salary owing to the former director at the date of his retirement, plus costs with respect to collecting the amount due. The Corporation is contesting this action; however a liability for unpaid salary in the amount of \$42,905 has been included in accrued liabilities at December 31, 2006. As of the date of the financial statements, additional costs which may become payable in relation to this claim cannot be reasonably estimated; as such, no provision has been made in the accounts for any such additional costs.

16. Financial instruments:

The carrying value of cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities, capital lease obligation and promissory notes payable approximates fair value due to the short term to maturity of these instruments. The 10% senior secured convertible notes, and the 10% convertible notes, have been recorded at their relative fair value at the date of issuance. As such, the carrying value of these notes approximates fair value.

17. Income taxes:

Deferred income taxes reflect the impact of temporary differences between amounts of assets and liabilities as reported for financial reporting purposes and such amounts as measured by tax laws. The tax effects of temporary differences that gave rise to significant portions of the deferred tax asset and deferred tax liability are as follows:

	2006	2005

20. Subsequent events:

On January 1, 5 and 11, 2007, the Corporation issued an aggregate of 659,001 shares of its common stock to the holders of the 10% senior secured convertible notes and the 10% senior secured notes, in satisfaction of \$44,342 of accrued interest on the notes.

On January 12, 2007, the Corporation issued an aggregate of 3,000,000 shares of its common stock pursuant to the terms of two contracts with unrelated parties to provide investor relations services to the Corporation for a period of six months, commencing January 17, 2007.

On January 16, 2007, the Corporation issued 1,000,000 shares of its common stock pursuant to the terms of a contract with an unrelated party to provide investor relations services for the period from October 1, 2006 to January 16, 2007. \$31,519, representing the fair of the stock relating to services provided under this contract to December 31, 2006, was included in accrued liabilities and selling, general and administrative expenses at December 31, 2006.

Also on January 16, 2007, the Corporation issued 600,000 shares of its common stock to an unrelated party in settlement of \$60,000 in fees payable, which was included in accrued liabilities at December 31, 2006.

On January 16, 2007, the Corporation issued 775,000 shares of its common stock in settlement of \$77,500 in fees relating to the placement of the Corporation's 10% senior secured convertible notes and 10% senior convertible notes. \$67,500 in fees settled was included in accrued liabilities at December 31, 2006; \$10,000 was incurred subsequent to December 31, 2007.

On various dates during the period from January 23 to February 23, 2007, the Corporation received an aggregate of \$59,897 from the issuance of its 12% promissory notes to unrelated parties.

On March 9, 2007, the Corporation amended the terms of its 10% senior secured convertible notes, as follows: the rate at which the holder is entitled to convert principal and interest outstanding on the notes was changed from one common share for every \$0.10 of debt converted, to one common share for every \$0.06 of debt converted.

As a result of the amendment to the Corporation's 10% senior secured convertible notes on March 9, 2007, the exercise price of the Series I warrants was also adjusted from \$0.10 to \$0.06 effective February 9, 2007.

20. Subsequent events (continued):

Also on March 9, 2007, the Corporation received \$200,000 in cash proceeds from the issuance of its 10% senior secured convertible notes. The notes mature on June 1, 2008, and are secured by a general assignment of all assets of the Corporation. Under the terms of the note, the holder is permitted, at any time, to convert all or a portion of the outstanding principal plus accrued interest into common stock of the Corporation at a ratio of one common share for each \$0.06 of debt converted; the Corporation may pre-pay all or any portion of the balance outstanding on the notes at any time, without penalty or bonus; interest is payable quarterly, and may, at the Corporation's option, be paid either in cash or in common shares of the Corporation. If interest is paid in common shares, the number of shares required for settlement will be calculated using a 10% discount to the average closing price of the common stock, as listed on the exchange where the Corporation's common stock is traded, for the ten days prior to the date the interest is due to the holder. The Corporation issued 400,000 shares of its common stock to the holder pursuant to the terms of the note.

On March 9, 2007, the Corporation issued 49,333 shares of its common stock in satisfaction of finance fees relating to the \$200,000 in senior convertible notes issued on the same date.

On March 14, 2007, the Corporation issued 25,000 shares of its common stock pursuant to the terms of a contract with an unrelated party to provide investor relations services to the Corporation for a one month period.

In April, 2007, the Corporation negotiated an agreement with respect to a three year extension of its lease, for 3,287 square feet of office space, a reduction of 2,289 square feet from the 5,576 square feet it currently occupies.

On May 15, 2007, the Corporation received \$250,000 in cash proceeds from the issuance of its 10% senior secured convertible notes. The notes mature on May 31, 2009, and are unsecured. Under the terms of the note, the holder is permitted, at any time, to convert all or a portion of the outstanding principal plus accrued interest into common stock of the Corporation at a ratio of one common share for each \$0.03 of debt converted; the Corporation may pre-pay all or any portion of the balance outstanding on the notes, without penalty or bonus, provided the holder grants permission to do so. Interest is not payable until such time as payment is requested by the holder, and may, at the Corporation's option, be paid either in cash or in common shares of the Corporation. If interest is paid in common shares, the number of shares required for settlement will be calculated using a 10% discount to the average closing price of the common stock, as listed on the exchange where the Corporation's common stock is traded, for the ten days prior to the date the interest is due to the holder. The Corporation issued 750,000 shares of its common stock to the holder pursuant to the terms of the note.

Item 8. Changes In and Disagreements With Accountants on Accounting and Financial Disclosures.

There have been no changes in or disagreements with accountants with respect to accounting and/or financial statements.

Item 8A. Controls and Procedures.

The term “disclosure controls and procedures” is defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, or the Exchange Act. This term refers to the controls and procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission.

In connection with the audit of our consolidated financial statements for the years ended December 31, 2006 and 2005, our independent registered public accounting firm advised the Board of Directors and management of certain significant internal control deficiencies that they considered to be, in the aggregate, a material weakness. These internal control deficiencies were first identified by our independent registered public accounting firm in connection with the audit of our consolidated financial statements for the year ended December 31, 2004. In particular, our independent registered public accounting firm identified the following weaknesses in our internal control system: (1) a lack of segregation of duties; and (2) the lack of timely preparation of certain back up schedules. The independent registered public accounting firm indicated that they considered these deficiencies to be reportable conditions as that term is defined under the standards established by the American Institute of Certified Public Accountants. A material weakness is a significant deficiency in one or more of the internal control components that alone or in the aggregate precludes our internal controls from reducing to an appropriately low level of risk that material misstatements in our financial statements will not be prevented or detected on a timely basis. We considered these matters in connection with the period-end closing of accounts and preparation of the related consolidated financial statements and determined that no prior period financial statements were materially affected by such matters. Notwithstanding the material weakness identified by our independent registered public accountants, we believe that the financial statements, and other financial information included in this report, fairly present in all material respects, the financial condition, results of operation and cash flows of the Corporation as of, and for, the periods represented in this report.

Our size has prevented us from being able to employ sufficient resources at this time to enable us to have an adequate level of supervision and segregation of duties within our internal control system. We will continue to monitor and assess the costs and benefits of additional staffing within the Company.

We were unable to eliminate the identified weaknesses with respect to the period covered by this report. However, we began to implement some of the steps identified below to remediate the material weakness to the extent that our size and resources allowed us during 2004. Set forth below is a discussion of the significant internal control deficiencies that have not been remediated.

Lack of segregation of duties. Since commencing the development phase of our operations in August 1999, our size has prevented us from being able to employ sufficient resources to enable us to have an adequate level of supervision and segregation of duties within our internal control system. Until the beginning of the fourth quarter of 2005, we had only three people involved in the processing of accounting entries: the Office Administrator, the Controller and the Chief Financial Officer. It was therefore difficult to effectively segregate accounting duties. During the fourth quarter of 2005, we retained the services of a part-time independent consultant to assist in performing routine, month end accounting procedures. This consultant left the Corporation effective May, 2005, however, and has not been replaced. While we strive to segregate duties as much as practicable, there is insufficient volume of transactions to justify

additional full time staff. As a result, this significant internal control deficiency had not been remediated as of the end of the period covered by this report, nor do we know if we will be able to remediate this weakness in the foreseeable future. However, we will continue to monitor and assess the costs and benefits of additional staffing.

Lack of timely preparation of back up schedules. Throughout 2005 and until the third quarter of 2006, we were able to complete most of our back up schedules prior to the arrival of our independent registered public accountants' audit staff. However, we did not file our Form 10-QSB for the quarter ended September 30, 2006 until November 24, 2006, partially as a result of our lack timely preparation of back up schedules; the audit of our 10-KSB for the year ended December 31, 2006 was also delayed for this reason. As such, we believe that this material weakness had not been remediated as of the end of the period covered by this report, although progress in remediation had been made. One of our objectives in hiring the part-time consultant during the fourth quarter of 2005 to perform routine, month end accounting procedures, was to improve the timeliness of preparation of back up schedules and thus permit us to complete our financial reporting on a more timely basis. This individual provided some assistance in these areas, however the arrangement did not work out as anticipated, and the consultant was no longer engaged by us as of May 2006. Effective during the quarter ended March 31, 2007, we have commenced the process of reviewing and expanding our formal month-end procedures, with the objective of improving the timeliness of the preparation of future quarterly reports and related back up schedules.

If we are unable to remediate the identified material weakness, there is a more than remote likelihood that a material misstatement to our SEC reports will not be prevented or detected, in which case investors could lose confidence in the accuracy and completeness of our financial reports, which could have an adverse effect on our ability to raise additional capital and could also have an adverse effect on our stock price.

As required by the SEC rules, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Report. This evaluation was performed under the supervision and with the participation of our management, including the President and Chief Executive Officer and Chief Financial Officer and Treasurer. Based upon that evaluation, our President and Chief Executive Officer and Chief Financial Officer and Treasurer have concluded that our controls and procedures were not effective as of the end of the period covered by this Report due to existence of the significant internal control deficiencies described above.

There has been no change in internal control over financial reporting, other than the measures noted above, during the year ended December 31, 2006 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 8B. Other Information.

PART III

Item 9. Directors, Executive Officers, Promoters and Control Persons: Compliance with Section 16(a) of the Exchange Act.

The following table sets forth certain information concerning our directors and executive officers as of December 31, 2006:

<u>Name</u>	<u>Age</u>	<u>Position</u>
Bruce I. Benn	53	Director, President, Chief Executive Officer, Executive Vice President and Secretary

Effective May 6, 2005, the Board of Directors of the Company appointed Bruce I. Benn to the positions of President and Chief Executive Officer of the Company. Mr. Benn has served as a Director, Executive Vice President and Secretary of the Company since February 2004. From 1999 until February 2004, he provided services to the Company through Capital House Corporation. Mr. Benn plays a major role in making key management and strategic decisions and oversees all aspects of corporate finance for the Company. He has been principally responsible for arranging the \$16 million of capital investment for the Company from 1999 to date. Since 1989, Mr. Benn has been the President, Director and co-founder of Capital House Corporation, a boutique investment bank that has provided and/or arranged early and mid stage venture capital and hands-on managerial assistance to a portfolio of leading technology software companies. Mr. Benn was also a founder, Director and Officer of DevX Energy, Inc. from 1995 until October 2000. From 1980 to 1993, he was with Corporation House Ltd., where he was a Vice President and a Director from 1985 to 1993. He is an attorney and holds a Masters of Law degree from the University of London, England, a Baccalaureate of Laws from the University of Ottawa, Canada, and a Bachelor of Arts in Economics from Carleton University in Ottawa, Canada.

<u>Name</u>	<u>Age</u>	<u>Position</u>
Ronald I. Benn	52	Director, Chief Financial Officer and Treasurer

Ron Benn was appointed a Director, Chief Financial Officer and Treasurer of the Company in February 2004. He is a co-founder, Officer and Director of Capital House Corporation since 1989. He was recently Chief Financial Officer of Coast Software Inc., a position he held from September 2000 to February 2004 and where he was directly involved in raising more than \$7 million in capital. Since 1995, he also has been a Director of Telemus Electronics. From 1995 until 2000 he was Chief Financial Officer of DevX Energy, Inc., a publicly traded company on the NASDAQ exchange. He has 22 years' experience in senior finance positions, having begun his career in 1980 with Clarkson Gordon (now Ernst & Young) in the audit department. He holds a Chartered Accountant designation with the Institute of Chartered Accountants of Ontario (1982), and Bachelor of Commerce (Honours) degree from the University of Windsor, in Windsor, Canada and Bachelor of Science degree from Carleton University in Ottawa, Canada. Ron Benn is the brother of Bruce Benn.

Audit Committee Financial Expert

The SEC has adopted rules to implement certain requirements of the Sarbanes-Oxley Act of 2002 pertaining to public company audit committees. One of the rules adopted by the SEC requires a company to disclose whether it has an "audit committee financial expert" serving on its audit committee. Our board of directors has not yet established an audit committee and as a result provides the functions of an audit committee. As such, our board has not yet appointed an audit committee financial expert. We believe that

our board of directors, taken as a whole, has the financial, accounting and other relevant education and experience necessary to qualify as an audit committee financial expert under Item 401(e) of Regulation S-B. At this time, our board of directors believes it would be desirable to have an audit committee, and for the audit committee to have an audit committee financial expert serving on the committee. While informal discussions as to potential candidates have occurred, at this time no formal search process has commenced.

Code of Ethics Policy

We have not yet adopted a code of ethics policy because we are a development stage company, in the early stages of operations. We intend to adopt a code of ethics policy in the future.

Compliance with Section 16(a) of The Securities Exchange Act of 1934

To our knowledge, based solely on a review of such materials as are required by the Securities and Exchange Commission, none of our officers, directors or beneficial holders of more than ten percent of our issued and outstanding shares of common stock failed to timely file with the Securities and Exchange Commission any form or report required to be so filed pursuant to Section 16(a) of the Securities Exchange Act of 1934, during the year ended December 31, 2005.

Item 10. Executive Compensation.

The following table shows all the cash compensation paid or to be paid by us or our subsidiaries, as well as certain other compensation paid or accrued, during the fiscal years indicated, to our chief executive officer and other executive officers who received total annual salary and bonus in excess of \$100,000 during the past fiscal year in all capacities in which the person served.

We have issued options pursuant to our Amended and Restated Incentive Equity Plan, which was adopted by our board of directors and became effective on May 30, 2003. The plan, as amended and restated, was approved by our stockholders on February 25, 2005. The amended and restated plan is administered by the board of directors, who has the authority to grant stock options and stock appreciation rights to our officers, employees and consultants. A total of 3,912,302 shares of common stock were reserved for issuance under the terms of the Amended and Restated Incentive Equity Plan. In the event of certain mergers, sales of assets, reorganizations, consolidations, recapitalizations, stock dividends or other changes in corporate structure affecting our common stock, the committee administering the plan must make an equitable substitution or adjustment in the aggregate number of shares reserved for issuance under the plan and in the number of shares exercisable under, and the exercise price of, outstanding options under the plan.

In respect of our Amended and Restated Incentive Equity Plan, we have granted options to purchase an aggregate of 3,912,302 shares of our common stock to non-employees in consideration for consulting services rendered. These options entitle the holders to purchase shares of common stock at an exercise price of \$0.33 per share. The options vested immediately upon their issuance, and are exercisable until May 7, 2008, provided the holder remains engaged by us as of that date, with provision for early forfeiture in the event the holder ceases to be engaged by us prior to the stated expiry date. Of the 3,912,302 options originally granted under this plan, none were exercised as of March 30, 2007, and 2,315,000 expired during the year ended December 31, 2005 on termination of the related consulting agreement, leaving 1,597,302 currently outstanding.

On December 15, 2004, the board of directors adopted the 2004 Incentive Equity Plan, which was approved by our stockholders on February 25, 2005. The 2004 Incentive Equity Plan is administered by the board of directors, who has the authority to grant stock options and stock appreciation rights to our officers, employees and consultants, and to establish the option vesting schedule. A total of 3,087,698 shares of common stock are reserved for issuance under the terms of the 2004 Incentive Equity Plan. In the event of certain mergers, sales of assets, reorganizations, consolidations, recapitalizations, stock dividends or other changes in corporate structure affecting our common stock, the committee administering the plan must make an equitable substitution or adjustment in the aggregate number of shares reserved for issuance under the plan and in the number of shares exercisable under, and the exercise price of, outstanding options under the plan.

In respect of our 2004 Incentive Equity Plan, we have granted options to purchase 2,850,000 shares of our common stock to employees and non-employees in consideration for services rendered and as incentives, entitling the holders to purchase shares of our common stock at exercise prices as follows: 75,000 at \$0.95; 325,000 at \$0.90; 400,000 at \$0.50; 1,950,000 at \$0.67; and 100,000 at \$0.225. 2,483,000 of these options vested on various dates between October 1, 2004 and January 1, 2006, and are exercisable until various dates between March 31, 2009 and December 31, 2010. Of the remaining 367,000 options granted to employees under this plan, 317,000 were forfeited due to the termination of the related employment agreement; and 50,000 have not yet vested, and will vest on dates between November 14, 2007 and November 14, 2008. All options granted under our 2004 Incentive Equity Plan include provision for early forfeiture in the event the holder ceases to be engaged by us prior to the stated expiry date. Of the 2,850,000 options originally granted under this plan, none were exercised as of March 30, 2007, and 1,442,000 had expired or had been forfeited as of that date on termination of the related employment or consulting agreement, leaving 1,408,000 currently outstanding.

Item 12. Certain Relationships and Related Transactions.

Included in accrued liabilities at December 31, 2006 is \$128,715 in accrued salaries payable to the directors and former director of the Corporation. Included in 12% promissory notes payable is \$7,902 payable to a company controlled by a director of the Corporation, and 18,438 payable to a director. Included in interest and finance charges for the year ended December 31, 2006 is \$221 in accrued interest charges relating to these notes.

Effective July 1, 2004, our company entered into an agreement to sublease excess office space to a related company. This other company is related to our company due to Ronald Benn being an officer and director of both companies. Included in accounts receivable at December 31, 2006 and 2005, is \$nil and \$5,508, respectively, in rent receivable pursuant to this sublease agreement. Sublease income for the years ended December 31, 2006 and 2005, respectively, of \$31,808 and \$29,709, has been recorded as a reduction of rental expense in the accounts of our company.

Item 14. Principal Accountant Fees and Services

The following table sets out fees billed by the Company's principal accountant for audit and related services for each of the previous two fiscal years:

Description of services	Fees billed for 2006 fiscal year	Fees billed for 2005 fiscal year
Audit fees	\$ 37,416	\$ 35,216
Audit-related fees	\$ 66,879	\$ 69,441

We do not currently have an audit committee, however it is our policy to have all audit and audit-related fees pre-approved by the board of directors. All of the above fees were pre-approved by the board of directors.

Audit-related fees were incurred in relation to our quarterly reports on Form 10-QSB and our Forms SB2, which were filed in connection with the registration of the common stock underlying our 4% senior subordinated convertible debentures and our private placement of common stock and warrants.

There were no tax-related fees incurred during the year.

SIGNATURES

In accordance with Section 13 or 15(d) of the Securities Exchange Act of 1934, the small business issuer has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Exhibit 4.10

THE SALE AND ISSUANCE OF THE SECURITIES REPRESENTED BY THIS 10% SENIOR SECURED CONVERTIBLE NOTE HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE “ACT”), OR UNDER THE SECURITIES LAW OF ANY STATE OR OTHER JURISDICTION. THESE SECURITIES HAVE BEEN ACQUIRED FOR INVESTMENT AND NOT WITH A VIEW TO, OR IN CONNECTION WITH, THE DISTRIBUTION THEREOF. THESE SECURITIES MAY NOT BE OFFERED, SOLD, PLEDGED, OR TRANSFERRED UNLESS (I) A REGISTRATION STATEMENT UNDER THE ACT IS IN EFFECT AS TO THESE SECURITIES AND SUCH OFFER, SALE, PLEDGE, OR TRANSFER IS IN COMPLIANCE WITH APPLICABLE SECURITIES LAW OF ANY STATE OR OTHER JURISDICTION OR (II) AN EXEMPTION FROM THE ACT IS AVAILABLE AND SUCH OFFER, SALE, PLEDGE, OR TRANSFER IS IN COMPLIANCE WITH APPLICABLE SECURITIES LAW OF ANY STATE OR OTHER JURISDICTION.

10% SENIOR SECURED CONVERTIBLE NOTE

[Amount]

March 9, 2007

For value received, Validian Corporation, a Nevada corporation (together with its successors and assigns, the “Company”), with an address at 30 Metcalfe Street, Ottawa, Ontario, Canada K1P 5L4, promises to pay to _____ (the “Holder”) with an address at _____, the principal amount of Two Hundred Thousand Dollars (\$200,000) and to pay interest thereon, all as hereinafter specified.

1. Identification of Note. This Note is issued as part of the Holder’s investment into the Company.

2. Maturity.

2.1 Maturity Date. Unless earlier converted as provided in Section 3 hereof, this Note will automatically mature and be due and payable on the earlier of (a) July 1, 2008 (the “Maturity Date”) or (b) the occurrence of an Event of Default (as defined in Section 8 hereof).

2.2 Interest. Interest shall accrue from the date of this Note on the unpaid principal amount at a rate equal to ten percent (10%) per annum, computed on the basis of the actual number of days elapsed and a year of 365 days from the date of this Note until the principal amount and all interest accrued thereon are paid (or converted, as provided in Section 3 hereof). Interest shall be due and paid to the Holder quarterly. The first quarterly payment shall be paid to the Holder on June 9, 2007. At the written request of Holder, interest may be accrued by the Company and not actually paid to Holder. Any accrued interest shall be paid to Holder at such a time specified by Holder in writing. At the Company’s option, interest can be paid in either (a) cash or (b) shares of common stock, calculated at a ten percent (10%) discount to the average closing price of the common stock, as listed on the exchange where the Company’s Common Stock is traded, for the ten (10) trading days prior to the date the interest is due to the Holder. The stock referenced in this Section 2.2 shall be included in the registration rights provisions in Section 5 and be subject to the calculation for purposes of Section 4.

2.3 Prepayment. The Company shall not have the right to prepay this Note without first obtaining prior written consent from the Holder. Such consent shall not be unreasonably withheld.

2.4 Security Agreement. This Note is secured by that certain Security Agreement, dated March 9, 2007, and attached hereto as Exhibit A.

3. Conversion.

3.1 Voluntary Conversion. The holder may voluntarily convert the Note, in whole or in part, into Common Stock of the Company at any time.

3.2 Mechanics and Effect of Conversion.

(a) The principal and any unpaid and accrued interest of this Note shall convert into shares of Common Stock at a conversion price of six cents (\$0.06) per share ("Conversion Price").

(b) No fractional shares will be issued upon conversion of this Note. In lieu of any fractional shares to which the Holder would otherwise be entitled, the Company will pay to the Holder in cash the unconverted amount that would otherwise be converted into such fractional shares.

(c) In the event that the Outstanding Amount under this Note is converted into Common Stock pursuant to Section 3.1 hereof, the Holder shall surrender this Note, duly endorsed, to the Company and the Note shall thereupon be canceled, provided that if Holder partially converts pursuant to Section 3.2(a) hereof, the Company shall issue a Note to Holder for the remaining amount of principal that was not converted. At its expense, the Company will issue and deliver to such Holder, a certificate or certificates representing the number of duly authorized, validly issued, fully paid and non-assessable shares of Common Stock to which such Holder is entitled upon such conversion, together with a check payable to the Holder for any cash amounts payable pursuant to Section 3.2(b) hereof.

(d) Unless a registration statement under the Securities Act of 1933, as amended, with respect to the shares of Common Stock issued upon conversion of this Note has been filed with the Securities and Exchange Commission, each share issued upon conversion of this Note shall be stamped or otherwise imprinted with a legend substantially in the following form:

"THIS SECURITY HAS NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE "1933 ACT"), OR APPLICABLE STATE SECURITIES LAWS AND MAY NOT BE TRANSFERRED OR OTHERWISE DISPOSED OF UNLESS IT HAS BEEN REGISTERED UNDER THE 1933 ACT AND SUCH LAWS OR AN EXCEPTION FROM REGISTRATION IS AVAILABLE."

(e) Upon conversion of this Note in accordance with Section 3 hereof, all rights with respect to this Note shall terminate, whether or not the Note has been surrendered for cancellation, and the Company will be forever released from all of its obligations and liabilities under this Note except its obligations pursuant to Section 3.2(c) hereof, except if Holder partially converts the Note pursuant to Section 3 hereof, whereby all rights with respect to the portion of the Note that has been converted will terminate pursuant to this Section 3.2(e), but the remainder Note will possess all of the rights granted in this Note.

4. Limitations on Conversion. In no event shall the Holder be entitled to convert any portion of this Note in excess of that portion of this Note upon conversion of which the sum of (1) the number of shares of Common Stock beneficially owned by the Holder and its affiliates (other than shares of Common Stock which may be deemed beneficially owned through the ownership of the unconverted portion of the Notes or the unexercised or unconverted portion of any other security of the Borrower (including, without limitation, the warrants issued by the Borrower pursuant to the Purchase Agreement) subject to a limitation on conversion or exercise analogous to the limitations contained herein) and (2) the number of shares of Common Stock issuable upon the conversion of the portion of this Note with respect to which the determination of this proviso is being made, would result in beneficial ownership by the Holder and its affiliates of more than 9.9% of the outstanding shares of Common Stock. For purposes of the proviso to the immediately preceding sentence, beneficial ownership shall be determined in accordance with Section 13(d) of the Securities Exchange Act of 1934, as amended, and Regulations 13D-G thereunder, except as otherwise provided in clause (1) of such proviso. Holder may waive the limitations set forth herein by sixty-one (61) days prior written notice to the Company.

5. Registration Rights. The Company shall file a registration statement, and any amendments thereto, with the Securities and Exchange Commission (the “SEC”) and cooperate with the SEC to have such registration statement, and any amendments thereto, declared effective, which includes the shares underlying this Note and those shares issued pursuant to Section 2.2 hereof, as soon as reasonably practicable, provided that Holder shall have piggy-back rights with respect to any registration statement filed by the Company

6. Payment. Except as set forth herein, all payments shall be made in lawful money of the United States of America at the principal offices of the Holder. Payment shall be credited first to the accrued interest then due and payable and the remainder applied to principal.

7. Subordination. No indebtedness shall be senior, equal or *pari passu* in any respect to this Note without the prior written consent of the Holder, except for the Notes between the Company and _____. To the extent bankruptcy proceedings are initiated by the Company or a third party, the Holder shall receive the same percentage of ownership *pari passu* as the Holder would have under Section 3 hereof, regardless of any bankruptcy protection afforded to the Company.

8. Events of Default. The entire unpaid Outstanding Amount shall become immediately due and payable upon the occurrence of an Event of Default. An “Event of Default” shall be deemed to have occurred if:

(a) the Company shall: (i) be unable, or admit in writing its inability, to pay its debts as they mature; (ii) make a general assignment for the benefit of creditors; (iii) be adjudicated a bankrupt or insolvent; (iv) file a voluntary petition in bankruptcy, or a petition or answer seeking reorganization or an arrangement with creditors to take advantage of any insolvency law, or an answer admitting the material allegations of a bankruptcy, reorganization or insolvency petition filed against it; (v) take corporate action for the purpose of effecting any of the foregoing; or (vi) have an order for relief entered against it in any proceeding under the United States Bankruptcy Code;

(b) an order, judgment or decree shall be entered, without the application, approval or consent of the Company by any court of competent jurisdiction, approving a petition seeking reorganization of the Company or appointing a receiver, trustee or liquidator of the Company or of all or a substantial part of its assets, and such order, judgment or decree shall continue unstayed and in effect for any period of thirty (30) consecutive days; or

(c) the Company shall fail to pay as and when due any principal or interest hereunder and such nonpayment shall continue uncured for a period of ten (10) business days after written notice by the Holder thereof.

9. Transfer; Successors and Assigns. This Note may be transferred only upon surrender of the original Note for registration of transfer, duly endorsed, or accompanied by a duly executed written instrument of transfer in form satisfactory to the Company. Thereupon, a new note for the same principal amount and interest will be issued to, and registered in the name, of, the transferee. Interest and principal are payable only to the registered holder of this Note. The terms and conditions of this Note shall inure to the benefit of and binding upon the respective successors and assigns of the parties.

10. Governing Law. This Note and all acts and transactions pursuant hereto and the rights and obligations of the parties hereto shall be governed, construed and interpreted in accordance with the laws of the State of New York, without giving effect to principles of conflicts of law and choice of law that would cause the laws of any other jurisdiction to apply.

11. Notices. Whenever any notice is required to be given by the Company to a Holder, such notice shall be sent in writing via first class mail, postage prepaid, to the Holder at the Holder's last address appearing on the books maintained by the Company for registration, which notice shall be conclusively presumed to have been duly given, whether or not the Holder receives such notice. Whenever any notice is required to be given by the Holder of this Note to the Company, such notice shall be sent in writing via first class mail, postage prepaid, to the Company at the Company's address above.

12. Amendments and Waivers. This Note and any term hereof may be amended, waived, discharged or terminated only by an instrument in writing signed by the party against whom enforcement of such amendment, waiver, discharge or termination is sought. No waivers of any term, condition or provision of this Note, in any one or more instances, shall be deemed to be, or construed as, a further or continuing waiver of any such term, condition or provision.

13. Immunity of Members, Officers, Directors and Employees. No recourse shall be had for the payment of the principal or interest on this Note or for any claim based thereon or otherwise in any manner in respect thereof, to or against any subsidiary, member, officer, director or employee, as such, past, present or future, of the Company or any respective subsidiary, member, officer, director or employees, as such, past, present or future, of any predecessor or successor company, either directly or through the Company or such predecessor or successor company, whether by virtue of any constitutional provision or statute or rule of law, or by the enforcement of any assessment or penalty, or in any other manner, all such liability being expressly waived and released by the acceptance of this Note and as part of the consideration for the issuance thereof.

14. Approval of Reverse Stock Split. Prior to the Company authorizing any reverse stock split of the Common Stock, the Company must receive prior written approval from Holder and such prior written approval shall not be unreasonably withheld by Holder.

SECURITY AGREEMENT

SECURITY AGREEMENT (this "Agreement"), dated as of March 9, 2007, by and among Validian Corporation, a Nevada corporation (the "Company"), and the secured party signatory hereto and his respective endorsees, transferees and assigns (collectively, the "Secured Party").

WITNESSETH:

WHEREAS, pursuant to a Convertible Note, dated the date hereof, between the Company and the Secured Party (the "Note"), the Company has agreed to issue to the Secured Party and the Secured Party has agreed to purchase from the Company a 10% Secured Convertible Note, due one year from the date of issue (the "Note"), which is convertible into shares of the Company's Common Stock (the "Common Stock"); and

WHEREAS, in order to induce the Secured Party to purchase the Note, the Company has agreed to execute and deliver to the Secured Party this Agreement for the benefit of the Secured Party and to grant to it a first priority security interest in certain property of the Company to secure the prompt payment, performance and discharge in full of all of the Company's obligations under the Note.

NOW, THEREFORE, in consideration of the agreements herein contained and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto hereby agree as follows:

15. Certain Definitions. As used in this Agreement, the following terms shall have the meanings set forth in this Section 1. Terms used but not otherwise defined in this Agreement that are defined in Article 9 of the UCC (such as "general intangibles" and "proceeds") shall have the respective meanings given such terms in Article 9 of the UCC.

15.1 "Collateral" means the collateral in which the Secured Party is granted a security interest by this Agreement and which shall include the following, whether presently owned or existing or hereafter acquired or coming into existence, and all additions and accessions thereto and all substitutions and replacements thereof, and all proceeds, products and accounts thereof, including, without limitation, all proceeds from the sale or transfer of the Collateral and of insurance covering the same and of any tort claims in connection therewith:

(a) All Goods of the Company, including, without limitations, all machinery, equipment, computers, motor vehicles, trucks, tanks, boats, ships, appliances, furniture, special and general tools, fixtures, test and quality control devices and other equipment of every kind and nature and wherever situated, together with all documents of title and documents representing the same, all additions and accessions thereto, replacements therefor, all parts therefor, and all substitutes for any of the foregoing and all other items used and useful in connection with the Company's businesses and all improvements thereto (collectively, the "Equipment"); and

(b) All Inventory of the Company; and

(c) All of the Company's contract rights and general intangibles, including, without limitation, all partnership interests, stock or other securities, licenses, distribution and other agreements, computer software development rights, leases, franchises, customer lists, quality control procedures, grants and rights, goodwill, trademarks, service marks, trade styles, trade names, patents, patent applications, copyrights, deposit accounts, and income tax refunds (collectively, the "General Intangibles"); and

(d) All Receivables of the Company including all insurance proceeds, and rights to refunds or indemnification whatsoever owing, together with all instruments, all documents of title representing any of the foregoing, all rights in any merchandising, goods, equipment, motor vehicles and trucks which any of the same may represent, and all right, title, security and guaranties with respect to each Receivable, including any right of stoppage in transit; and

(e) All of the Company's documents, instruments and chattel paper, files, records, books of account, business papers, computer programs and the products and proceeds of all of the foregoing Collateral set forth in clauses (i)-(iv) above.

(f) All intellectual property, including but not limited to the following:

(i) Software Intellectual Property:

(1) all software programs (including all source code, object code and all related applications and data files), whether now owned, upgraded, enhanced, licensed or leased or hereafter acquired by the Company, above;

(2) all computers and electronic data processing hardware and firmware associated therewith;

(3) all documentation (including flow charts, logic diagrams, manuals, guides and specifications) with respect to such software, hardware and firmware described in the preceding clauses (a) and (b); and

(4) all rights with respect to all of the foregoing, including, without limitation, any and all upgrades, modifications, copyrights, licenses, options, warranties, service contracts, program services, test rights, maintenance rights, support rights, improvement rights, renewal rights and indemnifications and substitutions, replacements, additions, or model conversions of any of the foregoing.

(ii) Copyrights:

(1) all copyrights, registrations and applications for registration, issued or filed, including any reissues, extensions or renewals thereof, by or with the United States Copyright Office or any similar office or agency of the United States, any state thereof, or any other country or political subdivision thereof, or otherwise, including, all rights in and to the material constituting the subject matter thereof, including, without limitation, any referred to in Schedule I hereto;

(2) any rights in any material which is copyrightable or which is protected by common law, United States copyright laws or similar laws or any law of any State, including, without limitation, any thereof referred to in Schedule I hereto.

(iii) Copyright License:

(1) any agreement, written or oral, providing for a grant by the Company of any right in any Copyright, including, without limitation, any thereof referred to in Schedule I hereto.

(iv) Patents:

(1) all letters patent of the United States or any other country or any political subdivision thereof, and all reissues and extensions thereof, including, without limitation, any thereof referred to in Schedule I hereto;

(2) all applications for letters patent of the United States and all divisions, continuations and continuations-in-part thereof or any other country or any political subdivision, including, without limitation, any thereof referred to in Schedule I hereto.

(v) Patent License:

(1) all agreements, whether written or oral, providing for the grant by the Company of any right to manufacture, use or sell any invention covered by a Patent, including, without limitation, any thereof referred to in Schedule I hereto.

(vi) Trademarks:

(1) all trademarks, trade names, corporate names, company names, business names, fictitious business names, trade styles, service marks, logos and other source or business identifiers, and the goodwill associated therewith, now existing or hereafter adopted or acquired, all registrations and recordings

thereof, and all applications in connection therewith, whether in the United States Patent and Trademark Office or in any similar office or agency of the United States, any state thereof or any other country or any political subdivision thereof, or otherwise, including, without limitation, any thereof referred to in Schedule I hereto;

(2) all reissues, extensions or renewals thereof.

(vii) Trademark License:

(1) any agreement, written or oral, providing for the grant by the Company of any right to use any Trademark, including, without limitation, any thereof referred to in Schedule I hereto.

(viii) Trade Secrets:

(1) common law and statutory trade secrets and all other confidential or proprietary or useful information and all know-how obtained by or used in or contemplated at any time for use in the business of the Company (all of the foregoing being collectively called a “Trade Secret”), whether or not such Trade Secret has been reduced to a writing or other tangible form, including all documents and things embodying, incorporating or referring in any way to such Trade Secret, all Trade Secret licenses, including each Trade Secret license referred to in Schedule I hereto, and including the right to sue for and to enjoin and to collect damages for the actual or threatened misappropriation of any Trade Secret and for the breach or enforcement of any such Trade Secret license.

15.2 “Company” shall mean, collectively, the Company and all of the subsidiaries of the Company, a list of which is contained in Schedule A, attached hereto.

15.3 “Obligations” means all of the Company’s obligations under this Agreement and the Note, in each case, whether now or hereafter existing, voluntary or involuntary, direct or indirect, absolute or contingent, liquidated or unliquidated, whether or not jointly owed with others, and whether or not from time to time decreased or extinguished and later decreased, created or incurred, and all or any portion of such obligations or liabilities that are paid, to the extent all or any part of such payment is avoided or recovered directly or indirectly from the Secured Party as a preference, fraudulent transfer or otherwise as such obligations may be amended, supplemented, converted, extended or modified from time to time.

15.4 “UCC” means the Uniform Commercial Code, as currently in effect in the State of New York.

16. Grant of Security Interest. As an inducement for the Secured Party to purchase the Note and to secure the complete and timely payment, performance and discharge in full, as the case may be, of all of the Obligations, the Company hereby, unconditionally and irrevocably, pledges, grants and hypothecates to the Secured Party, a continuing security interest in, a continuing first lien upon, an unqualified right to possession and disposition of and a right of set-off against, in each case to the fullest extent permitted by law, all of the Company's right, title and interest of whatsoever kind and nature in and to the Collateral (the "Security Interest").

17. Representations, Warranties, Covenants and Agreements of the Company. The Company represents and warrants to, and covenants and agrees with, the Secured Party as follows:

17.1 The Company has the requisite corporate power and authority to enter into this Agreement and otherwise to carry out its obligations thereunder. The execution, delivery and performance by the Company of this Agreement and the filings contemplated therein have been duly authorized by all necessary action on the part of the Company and no further action is required by the Company. This Agreement constitutes a legal, valid and binding obligation of the Company enforceable in accordance with its terms, except as enforceability may be limited by bankruptcy, insolvency, reorganization, moratorium or similar laws affecting the enforcement of creditor's rights generally.

17.2 The Company represents and warrants that it has no place of business or offices where its respective books of account and records are kept (other than temporarily at the offices of its attorneys or accountants) or places where Collateral is stored or located, except as set forth on Schedule A attached hereto;

17.3 The Company is the sole owner of the Collateral (except for non-exclusive licenses granted by the Company in the ordinary course of business), free and clear of any liens, security interests, encumbrances, rights or claims, and is fully authorized to grant the Security Interest in and to pledge the Collateral. There is not on file in any governmental or regulatory authority, agency or recording office an effective financing statement, security agreement, license or transfer or any notice of any of the foregoing (other than those that have been filed in favor of the Secured Party pursuant to this Agreement) covering or affecting any of the Collateral. So long as this Agreement shall be in effect, the Company shall not execute and shall not knowingly permit to be on file in any such office or agency any such financing statement or other document or instrument (except to the extent filed or recorded in favor of the Secured Party pursuant to the terms of this Agreement).

17.4 No part of the Collateral has been judged invalid or unenforceable. No written claim has been received that any Collateral or the Company's use of any Collateral violates the rights of any third party. There has been no adverse decision to the Company's claim of ownership rights in or exclusive rights to use the Collateral in any jurisdiction or to the Company's right to keep and maintain such Collateral in full force and effect, and there is no proceeding involving said rights pending or, to the best knowledge of the Company, threatened before any court, judicial body, administrative or regulatory agency, arbitrator or other governmental authority.

17.5 The Company shall at all times maintain its books of account and records relating to the Collateral at its principal place of business and its Collateral at the locations set forth on Schedule A attached hereto and may not relocate such books of account and records or tangible Collateral unless it delivers to the Secured Party at least 30 days prior to such relocation (i) written notice of such relocation and the new location thereof (which must be within the United States) and (ii) evidence that appropriate financing statements and other necessary documents have been filed and recorded and other steps have been taken to perfect the Security Interest to create in favor of the Secured Party valid, perfected and continuing first priority liens in the Collateral.

17.6 This Agreement creates in favor of the Secured Party a valid security interest in the Collateral securing the payment and performance of the Obligations and, upon making the filings described in the immediately following sentence, a perfected first priority security interest in such Collateral. Except for the filing of financing statements on Form-1 under the UCC with the jurisdictions indicated on Schedule B, attached hereto, no authorization or approval of or filing with or notice to any governmental authority or regulatory body is required either (i) for the grant by the Company of, or the effectiveness of, the Security Interest granted hereby or for the execution, delivery and performance of this Agreement by the Company or (ii) for the perfection of or exercise by the Secured Party of its rights and remedies hereunder.

17.7 On the date of execution of this Agreement, the Company will deliver to the Secured Party one or more executed UCC financing statements on Form-1 with respect to the Security Interest for filing with the jurisdictions indicated on Schedule B, attached hereto and in such other jurisdictions as may be requested by the Secured Party.

17.8 The execution, delivery and performance of this Agreement does not conflict with or cause a breach or default, or an event that with or without the passage of time or notice, shall constitute a breach or default, under any agreement to which the Company is a party or by which the Company is bound. No consent (including, without limitation, from stock holders or creditors of the Company) is required for the Company to enter into and perform its obligations hereunder.

17.9 The Company shall at all times maintain the liens and Security Interest provided for hereunder as valid and perfected first priority liens and security interests in the Collateral in favor of the Secured Party until this Agreement and the Security Interest hereunder shall terminate pursuant to Section 11. The Company hereby agrees to defend the same against any and all persons. The Company shall safeguard and protect all Collateral for the account of the Secured Party. At the request of the Secured Party, the Company will sign and deliver to the Secured Party at any time or from time to time one or more financing statements pursuant to the UCC (or any other applicable statute) in form reasonably satisfactory to the Secured Party and will pay the cost of filing the same in all public offices wherever filing is, or is deemed by the Secured Party to be, necessary or desirable to effect the rights and obligations provided for herein. Without limiting the generality of the foregoing, the Company shall pay all fees, taxes and other amounts necessary to maintain the Collateral and the Security Interest hereunder, and the Company shall obtain and furnish to the Secured Party from time to time, upon demand, such

releases and/or subordinations of claims and liens which may be required to maintain the priority of the Security Interest hereunder.

17.10 The Company will not transfer, pledge, hypothecate, encumber, license (except for non-exclusive licenses granted by the Company in the ordinary course of business), sell or otherwise dispose of any of the Collateral without the prior written consent of the Secured Party.

17.11 The Company shall keep and preserve its Equipment, Inventory and other tangible Collateral in good condition, repair and order and shall not operate or locate any such Collateral (or cause to be operated or located) in any area excluded from insurance coverage.

17.12 The Company shall, within twenty (20) days of obtaining knowledge thereof, advise the Secured Party promptly, in sufficient detail, of any substantial change in the Collateral, and of the occurrence of any event which would have a material adverse effect on the value of the Collateral or on the Secured Party's security interest therein.

17.13 The Company shall promptly execute and deliver to the Secured Party such further deeds, mortgages, assignments, security agreements, financing statements or other instruments, documents, certificates and assurances and take such further action as the Secured Party may from time to time request and may in its sole discretion deem necessary to perfect, protect or enforce its security interest in the Collateral.

17.14 The Company shall permit the Secured Party and its representatives and agents to inspect the Collateral at any time, and to make copies of records pertaining to the Collateral as may be requested by the Secured Party from time to time.

17.15 The Company will take all steps reasonably necessary to diligently pursue and seek to preserve, enforce and collect any rights, claims, causes of action and accounts receivable in respect of the Collateral.

17.16 The Company shall promptly notify the Secured Party in sufficient detail upon becoming aware of any attachment, garnishment, execution or other legal process levied against any Collateral and of any other information received by the Company that may materially affect the value of the Collateral, the Security Interest or the rights and remedies of the Secured Party hereunder.

17.17 All information heretofore, herein or hereafter supplied to the Secured Party by or on behalf of the Company with respect to the Collateral is accurate and complete in all material respects as of the date furnished.

17.18 Schedule A attached hereto contains a list of all of the subsidiaries of Company.

18. Defaults. The following events shall be "Events of Default":

18.1 The occurrence of an Event of Default (as defined in the Note) under the Note;

18.2 Any representation or warranty of the Company in this Agreement shall prove to have been incorrect in any material respect when made;

18.3 The failure by the Company to observe or perform any of its obligations hereunder for ten (10) days after receipt by the Company of notice of such failure from the Secured Party; and

19. Duty To Hold In Trust. Upon the occurrence of any Event of Default and at any time thereafter, the Company shall, upon receipt by it of any revenue, income or other sums subject to the Security Interest, whether payable pursuant to the Note or otherwise, or of any check, draft, note, trade acceptance or other instrument evidencing an obligation to pay any such sum, hold the same in trust for the Secured Party and shall forthwith endorse and transfer any such sums or instruments, or both, to the Secured Party for application to the satisfaction of the Obligations.

20. Rights and Remedies Upon Default. Upon occurrence of any Event of Default and at any time thereafter, the Secured Party shall have the right to exercise all of the remedies conferred hereunder and under the Note, and the Secured Party shall have all the rights and remedies of a secured party under the UCC and/or any other applicable law (including the Uniform Commercial Code of any jurisdiction in which any Collateral is then located). Without limitation, the Secured Party shall have the following rights and powers:

20.1 The Secured Party shall have the right to take possession of the Collateral and, for that purpose, enter, with the aid and assistance of any person, any premises where the Collateral, or any part thereof, is or may be placed and remove the same, and the Company shall assemble the Collateral and make it available to the Secured Party at places which the Secured Party shall reasonably select, whether at the Company's premises or elsewhere, and make available to the Secured Party, without rent, all of the Company's respective premises and facilities for the purpose of the Secured Party taking possession of, removing or putting the Collateral in saleable or disposable form.

20.2 The Secured Party shall have the right to operate the business of the Company using the Collateral and shall have the right to assign, sell, lease or otherwise dispose of and deliver all or any part of the Collateral, at public or private sale or otherwise, either with or without special conditions or stipulations, for cash or on credit or for future delivery, in such parcel or parcels and at such time or times and at such place or places, and upon such terms and conditions as the Secured Party may deem commercially reasonable, all without (except as shall be required by applicable statute and cannot be waived) advertisement or demand upon or notice to the Company or right of redemption of the Company, which are hereby expressly waived. Upon each such sale, lease, assignment or other transfer of Collateral, the Secured Party may, unless prohibited by applicable law which cannot be waived, purchase all or any part of the Collateral being sold, free from and discharged of all trusts, claims, right of redemption and equities of the Company, which are hereby waived and released.

21. Applications of Proceeds. The proceeds of any such sale, lease or other disposition of the Collateral hereunder or from payments made on account of any insurance policy insuring any portion of the Collateral shall be applied first, to the expenses of retaking,

holding, storing, processing and preparing for sale, selling, and the like (including, without limitation, any taxes, fees and other costs incurred in connection therewith) of the Collateral, to the reasonable attorneys' fees and expenses incurred by the applicable Secured Party in enforcing the Secured Party's rights hereunder and in connection with collecting, storing and disposing of the Collateral, and then to satisfaction of the Obligations pro rata among each Secured Party (based on then-outstanding principal amounts of Notes at the time of any such determination), and to the payment of any other amounts required by applicable law, after which the Secured Party shall pay to the Company any surplus proceeds. If, upon the sale, license or other disposition of the Collateral, the proceeds thereof are insufficient to pay all amounts to which the Secured Party is legally entitled, the Company will be liable for the deficiency, together with interest thereon, at the rate of 15% per annum or the lesser amount permitted by applicable law (the "Default Rate"), and the reasonable fees of any attorneys employed by the Secured Party to collect such deficiency. To the extent permitted by applicable law, the Company waives all claims, damages and demands against the Secured Party arising out of the repossession, removal, retention or sale of the Collateral, unless due solely to the gross negligence or willful misconduct of the Secured Party as determined by a final judgment (not subject to further appeal) of a court of competent jurisdiction.

22. **Costs and Expenses.** The Company agrees to pay all out-of-pocket fees, costs and expenses incurred in connection with any filing required hereunder, including without limitation, any financing statements, continuation statements, partial releases and/or termination statements related thereto or any expenses of any searches reasonably required by the Secured Party. The Company shall also pay all other claims and charges which in the reasonable opinion of the Secured Party might prejudice, imperil or otherwise affect the Collateral or the Security Interest therein. The Company will also, upon demand, pay to the Secured Party the amount of any and all reasonable expenses, including the reasonable fees and expenses of its counsel and of any experts and agents, which the Secured Party may incur in connection with (i) the enforcement of this Agreement, (ii) the custody or preservation of, or the sale of, collection from, or other realization upon, any of the Collateral, or (iii) the exercise or enforcement of any of the rights of the Secured Party under the Note. Until so paid, any fees payable hereunder shall be added to the principal amount of the Note and shall bear interest at the Default Rate.

23. **Responsibility for Collateral.** The Company assumes all liabilities and responsibility in connection with all Collateral, and the obligations of the Company hereunder or under the Note shall in no way be affected or diminished by reason of the loss, destruction, damage or theft of any of the Collateral or its unavailability for any reason.

24. **Security Interest Absolute.** All rights of the Secured Party and all Obligations of the Company hereunder, shall be absolute and unconditional, irrespective of: (a) any lack of validity or enforceability of this Agreement, the Note or any agreement entered into in connection with the foregoing, or any portion hereof or thereof; (b) any change in the time, manner or place of payment or performance of, or in any other term of, all or any of the Obligations, or any other amendment or waiver of or any consent to any departure from the Note or any other agreement entered into in connection with the foregoing; (c) any exchange, release or nonperfection of any of the Collateral, or any release or amendment or waiver of or consent to departure from any other collateral for, or any guaranty, or any other security, for all or any of the Obligations; (d) any action by the Secured Party to obtain, adjust, settle and cancel in its sole

discretion any insurance claims or matters made or arising in connection with the Collateral; or (e) any other circumstance which might otherwise constitute any legal or equitable defense available to the Company, or a discharge of all or any part of the Security Interest granted hereby. Until the Obligations shall have been paid and performed in full, the rights of the Secured Party shall continue even if the Obligations are barred for any reason, including, without limitation, the running of the statute of limitations or bankruptcy. The Company expressly waives presentment, protest, notice of protest, demand, notice of nonpayment and demand for performance. In the event that at any time any transfer of any Collateral or any payment received by the Secured Party hereunder shall be deemed by final order of a court of competent jurisdiction to have been a voidable preference or fraudulent conveyance under the bankruptcy or insolvency laws of the United States, or shall be deemed to be otherwise due to any party other than the Secured Party, then, in any such event, the Company's obligations hereunder shall survive cancellation of this Agreement, and shall not be discharged or satisfied by any prior payment thereof and/or cancellation of this Agreement, but shall remain a valid and binding obligation enforceable in accordance with the terms and provisions hereof. The Company waives all right to require the Secured Party to proceed against any other person or to apply any Collateral which the Secured Party may hold at any time, or to marshal assets, or to pursue any other remedy. The Company waives any defense arising by reason of the application of the statute of limitations to any obligation secured hereby.

25. Term of Agreement. This Agreement and the Security Interest shall terminate on the date on which all payments under the Note have been made in full and all other Obligations have been paid or discharged. Upon such termination, the Secured Party, at the request and at the expense of the Company, will join in executing any termination statement with respect to any financing statement executed and filed pursuant to this Agreement.

26. Power of Attorney; Further Assurances.

26.1 The Company authorizes the Secured Party, and does hereby make, constitute and appoint it, and its respective officers, agents, successors or assigns with full power of substitution, as the Company's true and lawful attorney-in-fact, with power, in its own name or in the name of the Company, to, after the occurrence and during the continuance of an Event of Default, (i) endorse any notes, checks, drafts, money orders, or other instruments of payment (including payments payable under or in respect of any policy of insurance) in respect of the Collateral that may come into possession of the Secured Party; (ii) to sign and endorse any UCC financing statement or any invoice, freight or express bill, bill of lading, storage or warehouse receipts, drafts against debtors, assignments, verifications and notices in connection with accounts, and other documents relating to the Collateral; (iii) to pay or discharge taxes, liens, security interests or other encumbrances at any time levied or placed on or threatened against the Collateral; (iv) to demand, collect, receipt for, compromise, settle and sue for monies due in respect of the Collateral; and (v) generally, to do, at the option of the Secured Party, and at the Company's expense, at any time, or from time to time, all acts and things which the Secured Party deems necessary to protect, preserve and realize upon the Collateral and the Security Interest granted therein in order to effect the intent of this Agreement, the Note and the Warrants, all as fully and effectually as the Company might or could do; and the Company hereby ratifies all that said attorney shall lawfully do or cause to be done by virtue hereof. This power of

attorney is coupled with an interest and shall be irrevocable for the term of this Agreement and thereafter as long as any of the Obligations shall be outstanding.

26.2 On a continuing basis, the Company will make, execute, acknowledge, deliver, file and record, as the case may be, in the proper filing and recording places in any jurisdiction, including, without limitation, the jurisdictions indicated on Schedule B, attached hereto, all such instruments, and take all such action as may reasonably be deemed necessary or advisable, or as reasonably requested by the Secured Party, to perfect the Security Interest granted hereunder and otherwise to carry out the intent and purposes of this Agreement, or for assuring and confirming to the Secured Party the grant or perfection of a security interest in all the Collateral.

26.3 The Company hereby irrevocably appoints the Secured Party as the Company's attorney-in-fact, with full authority in the place and stead of the Company and in the name of the Company, from time to time in the Secured Party's discretion, to take any action and to execute any instrument which the Secured Party may deem necessary or advisable to accomplish the purposes of this Agreement, including the filing, in its sole discretion, of one or more financing or continuation statements and amendments thereto, relative to any of the Collateral without the signature of the Company where permitted by law.

27. Notices. All notices, requests, demands and other communications hereunder shall be in writing, with copies to all the other parties hereto, and shall be deemed to have been duly given when (i) if delivered by hand, upon receipt, (ii) if sent by facsimile, upon receipt of proof of sending thereof, (iii) if sent by nationally recognized overnight delivery service (receipt requested), the next business day or (iv) if mailed by first-class registered or certified mail, return receipt requested, postage prepaid, four days after posting in the U.S. mails, in each case if delivered to the following addresses:

28. Other Security. To the extent that the Obligations are now or hereafter secured by property other than the Collateral or by the guarantee, endorsement or property of any other person, firm, corporation or other entity, then the Secured Party shall have the right, in its sole discretion, to pursue, relinquish, subordinate, modify or take any other action with respect

thereto, without in any way modifying or affecting any of the Secured Party's rights and remedies hereunder.

29. Miscellaneous.

29.1 No course of dealing between the Company and the Secured Party, nor any failure to exercise, nor any delay in exercising, on the part of the Secured Party, any right, power or privilege hereunder or under the Note shall operate as a waiver thereof; nor shall any single or partial exercise of any right, power or privilege hereunder or thereunder preclude any other or further exercise thereof or the exercise of any other right, power or privilege.

29.2 All of the rights and remedies of the Secured Party with respect to the Collateral, whether established hereby or by the Note or by any other agreements, instruments or documents or by law shall be cumulative and may be exercised singly or concurrently.

29.3 This Agreement constitutes the entire agreement of the parties with respect to the subject matter hereof and is intended to supersede all prior negotiations, understandings and agreements with respect thereto. Except as specifically set forth in this Agreement, no provision of this Agreement may be modified or amended except by a written agreement specifically referring to this Agreement and signed by the parties hereto.

29.4 In the event that any provision of this Agreement is held to be invalid, prohibited or unenforceable in any jurisdiction for any reason, unless such provision is narrowed by judicial construction, this Agreement shall, as to such jurisdiction, be construed as if such invalid, prohibited or unenforceable provision had been more narrowly drawn so as not to be invalid, prohibited or unenforceable. If, notwithstanding the foregoing, any provision of this Agreement is held to be invalid, prohibited or unenforceable in any jurisdiction, such provision, as to such jurisdiction, shall be ineffective to the extent of such invalidity, prohibition or unenforceability without invalidating the remaining portion of such provision or the other provisions of this Agreement and without affecting the validity or enforceability of such provision or the other provisions of this Agreement in any other jurisdiction.

29.5 No waiver of any breach or default or any right under this Agreement shall be considered valid unless in writing and signed by the party giving such waiver, and no such waiver shall be deemed a waiver of any subsequent breach or default or right, whether of the same or similar nature or otherwise.

29.6 This Agreement shall be binding upon and inure to the benefit of each party hereto and its successors and assigns.

29.7 Each party shall take such further action and execute and deliver such further documents as may be necessary or appropriate in order to carry out the provisions and purposes of this Agreement.

29.8 This Agreement shall be construed in accordance with the laws of the State of New York, except to the extent the validity, perfection or enforcement of a security interest hereunder in respect of any particular Collateral which are governed by a jurisdiction other than the State of New York in which case such law shall govern. Each of the parties hereto

irrevocably submit to the exclusive jurisdiction of any New York State or United States Federal court sitting in Manhattan county over any action or proceeding arising out of or relating to this Agreement, and the parties hereto hereby irrevocably agree that all claims in respect of such action or proceeding may be heard and determined in such New York State or Federal court. The parties hereto agree that a final judgment in any such action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law. The parties hereto further waive any objection to venue in the State of New York and any objection to an action or proceeding in the State of New York on the basis of forum non conveniens.

29.9 EACH PARTY HERETO HEREBY AGREES TO WAIVE ITS RESPECTIVE RIGHTS TO A JURY TRIAL OF ANY CLAIM OR CAUSE OF ACTION BASED UPON OR ARISING OUT OF THIS AGREEMENT. THE SCOPE OF THIS WAIVER IS INTENDED TO BE ALL ENCOMPASSING OF ANY DISPUTES THAT MAY BE FILED IN ANY COURT AND THAT RELATE TO THE SUBJECT MATTER OF THIS AGREEMENT, INCLUDING WITHOUT LIMITATION CONTRACT CLAIMS, TORT CLAIMS, BREACH OF DUTY CLAIMS AND ALL OTHER COMMON LAW AND STATUTORY CLAIMS. EACH PARTY HERETO ACKNOWLEDGES THAT THIS WAIVER IS A MATERIAL INDUCEMENT FOR EACH PARTY TO ENTER INTO A BUSINESS RELATIONSHIP, THAT EACH PARTY HAS ALREADY RELIED ON THIS WAIVER IN ENTERING INTO THIS AGREEMENT AND THAT EACH PARTY WILL CONTINUE TO RELY ON THIS WAIVER IN THEIR RELATED FUTURE DEALINGS. EACH PARTY FURTHER WARRANTS AND REPRESENTS THAT IT HAS REVIEWED THIS WAIVER WITH ITS LEGAL COUNSEL AND THAT SUCH PARTY HAS KNOWINGLY AND VOLUNTARILY WAIVES ITS RIGHTS TO A JURY TRIAL FOLLOWING SUCH CONSULTATION. THIS WAIVER IS IRREVOCABLE, MEANING THAT, NOTWITHSTANDING ANYTHING HEREIN TO THE CONTRARY, IT MAY NOT BE MODIFIED EITHER ORALLY OR IN WRITING, AND THIS WAIVER SHALL APPLY TO ANY SUBSEQUENT AMENDMENTS, RENEWALS AND SUPPLEMENTS OR MODIFICATIONS TO THIS AGREEMENT. IN THE EVENT OF LITIGATION, THIS AGREEMENT MAY BE FILED AS A WRITTEN CONSENT TO A TRIAL BY THE COURT.

29.10 This Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and, all of which taken together shall constitute one and the same Agreement. In the event that any signature is delivered by facsimile transmission, such signature shall create a valid binding obligation of the party executing (or on whose behalf such signature is executed) the same with the same force and effect as if such facsimile signature were the original thereof.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK]

IN WITNESS WHEREOF, the parties hereto have caused this Security Agreement to be duly executed on the day and year first above written.

RENEWAL LEASE

THIS LEASE made the 20th day of March, 2007.

BETWEEN:

NATIONAL CAPITAL COMMISSION
hereinafter called the "Commission"

OF THE FIRST PART

AND:

VALIDIAN CORPORATION
hereinafter called the "Lessee"

OF THE SECOND PART

WHEREAS by an Indenture of Lease dated the 14th day of April, 2004 (the "Original Lease") entered into between the National Capital Commission, of the first part, as the Commission, and Validian Corporation, of the second part, as Lessee, the National Capital Commission demised and leased unto the property municipally known as 30 Metcalfe Street, containing approximately 5,576 per square foot of office space on the 6th floor, for a term of two (2) years plus sixteen (16) days to be computed from the 15th day of April, 2004 and to be fully completed and ended on the 30th day of April, 2006.

AND WHEREAS by a Renewal Lease dated the 18th day of August, 2005, (hereinafter referred to as the "First Renewal Lease") entered into between the National Capital Commission, of the first part as Commission, and Validian Corporation, of the second part as Lessee, the Commission and the Lessee agreed to a renewal of lease for a further term of one (1) year commencing on the 1st day of May 2006 and thenceforth next ensuing and fully to be completed on the 30th day of April 2007.

AND WHEREAS the Lessee has requested the Commission grant to the Lessee a Renewal Lease of the Premises for a further term of Three (3) years commencing on the 1st day of May, 2007 on the terms hereinafter set forth (the "Renewal Lease"), and the Commission has agreed to do so;

WITNESSETH that in consideration of the rents, covenants and agreements hereinafter reserved and contained, the parties hereto hereby covenant and agree each with the other as follows:

1. The Commission hereby leases to the Lessee the Premises for a term of Three (3) years, commencing on the 1st day of May, 2007 and thenceforth next ensuing and fully to be completed on the 30th day of April, 2010, subject to the payment due in advance on the first day of each month. Base Rent, Estimated Operating Costs and Estimated Realty Taxes shall be payable during the term of this Renewal Lease in the following amounts:

THIS WARRANT HAS NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, (THE "ACT") OR ANY STATE SECURITIES LAW, AND MAY NOT BE OFFERED FOR SALE, SOLD OR TRANSFERRED UNLESS A REGISTRATION STATEMENT UNDER SUCH ACT AND APPLICABLE STATE SECURITIES LAWS SHALL BE EFFECTIVE WITH RESPECT THERETO, OR AN OPINION OF COUNSEL, IN FORM AND SUBSTANCE REASONABLY ACCEPTABLE TO THE COMPANY, THAT AN EXEMPTION FROM REGISTRATION UNDER THE ACT AND APPLICABLE STATE SECURITIES LAWS IS AVAILABLE OR UNLESS SOLD PURSUANT TO RULE 144 UNDER THE SAID ACT.

VALIDIAN CORPORATION

COMMON STOCK PURCHASE WARRANT

Warrant No.: 1
Series J

Number of Warrant Shares: 650,000

Date of Issuance: December 31, 2006

Validian Corporation, a Nevada corporation (the "**Company**"), hereby certifies that, for value received, **Andre Maisonneuve** (the "**Holder**") is entitled, subject to the terms set forth below, to purchase from the Company upon surrender of this Warrant, at any time or times on or after the date hereof, but not after 11:59 P.M. Eastern Time on the Expiration Date (as defined herein) **650,000** (six hundred and fifty thousand) fully paid nonassessable **shares** of Common Stock (as defined in Section 1(a)) of the Company (the "**Warrant Shares**") at the purchase price per share provided in Section 1(a) below (the "**Exercise Price**"); provided, however, that in no event shall the Holder be entitled to exercise this Warrant for a number of Warrant Shares in excess of that number of Warrant Shares which, upon giving effect to such exercise, would cause the aggregate number of shares of Common Stock beneficially owned by the Holder and its affiliates to exceed 4.99% of the outstanding shares of the Common Stock following such exercise. For purposes of the foregoing proviso, the aggregate number of shares of Common Stock beneficially owned by the Holder and its affiliates shall include the number of shares of Common Stock issuable upon exercise of this Warrant with respect to which the determination of such proviso is being made, but shall exclude shares of Common Stock which would be issuable upon (i) exercise of the remaining, unexercised Warrants beneficially owned by the Holder and its affiliates and (ii) exercise or conversion of the unexercised or unconverted portion of any Other Securities of the Company beneficially owned by the Holder and its affiliates (including, without limitation, any convertible notes, convertible preferred stock, warrants or rights to receive shares of Common Stock) subject to a limitation on conversion or exercise analogous to the limitation contained herein. Except as set forth in the preceding sentence, for purposes of this paragraph, beneficial ownership shall be calculated in accordance with Section 13(d) of the Securities Exchange Act of 1934, as amended. The Holder may waive the foregoing limitations by written notice to the Company upon not less than 61 days prior notice (with such waiver taking effect only upon the expiration of such 61 day notice period).

Section 1.

(a) Definitions. The following words and terms as used in this Warrant shall have the following meanings:

"Business Day" means any day except Saturday, Sunday and any day which is designated in the State of New York as a legal holiday or a day on which banking institutions are authorized or legally required by other government action to close.

"Common Stock" means (i) the Company's common stock, par value \$.001 per share, and (ii) any capital stock into which such Common Stock shall have been changed or any capital stock resulting from a reclassification of such Common Stock.

"Escrow Agent" means Alan R. Turem, P.C. having an office at 4651 Roswell Road, Suite B-105 Atlanta, Georgia 30342.

"Exercise Price" shall be \$0.15 USD, subject to adjustment as hereinafter provided.

"Expiration Date" means June 30, 2008.

"Holder" includes the Person in whose name this Warrant has been issued or any transferee or assignee provided that such transferee or assignee has become a Holder in accordance with the provisions of this Warrant.

"Other Securities" means (i) those securities, convertible securities, options and warrants of the Company issued prior to, and outstanding on, the date of issuance of this Warrant, (ii) shares of Common Stock, and warrants or other securities that are convertible into or exchangeable for shares of Common Stock, issuable in connection with the subsequent acquisitions by the Company.

"Person" means an individual, a limited liability company, a partnership, a joint venture, a corporation, a trust, an unincorporated organization, a government or any department or agency thereof, or any other entity or organization.

"Securities Act" means the Securities Act of 1933, as amended.

"Warrant" means this Warrant and all Warrants issued in exchange, transfer or replacement thereof.

"Warrant Shares" means the shares of Common Stock issuable upon the exercise of this Warrant.

(b) Other Definitional Provisions.

(i) Except as otherwise specified herein, all references herein (A) to the Company shall be deemed to include the Company's successors and (B) to any applicable law defined or referred to herein, shall be deemed references to such applicable law as the same may have been or may be amended or supplemented from time to time.

(ii) When used in this Warrant, the words "**herein**," "**hereof**," and "**hereunder**," and words of similar import, shall refer to this Warrant as a whole and not to any provision of this Warrant, and the words "**Section**," "**Schedule**," and "**Exhibit**" shall refer to Sections of, and Schedules and Exhibits to, this Warrant unless otherwise specified.

(iii) Whenever the context so requires, the neuter gender includes the masculine or feminine, and the singular number includes the plural, and vice versa.

Section 2. Exercise of Warrant.

(a) Exercise may be done at any time during normal business hours on any Business Day on or after the opening of business on the date hereof and prior to 11:59 P.M. Eastern Time on the Expiration Date by delivery to the Escrow Agent and the Company in the manner specified below of (i) a written notice of such Holder's election to exercise this Warrant which notice shall be in the form attached as Exhibit A hereto, (the "**Exercise Notice**"), and shall specify the number of Warrant Shares to be purchased and the other information set out therein, (ii) payment to the Company of an amount equal to the Exercise Price multiplied by the number of Warrant Shares as to which the Warrant is being exercised (the "**Aggregate Exercise Price**") in cash or by check or wire transfer payable to the Company in immediately available funds, and (iii) the surrender of this Warrant. Provided, that if such Warrant Shares are to be issued in any name other than that of the registered Holder of this Warrant, such issuance shall be deemed a transfer and the provisions of Section 7 shall be applicable and the Exercise Notice shall be accompanied by such additional documentation as may be required by that Section. Such Exercise Notice, payment, Warrant and other documentation required for exercise shall be delivered to the Escrow Agent at the address set out in Section 1 with a copy of the Exercise Notice being delivered simultaneously to the Company.

(b) In the event of any exercise of the rights represented by this Warrant in compliance with Section 2(a), a certificate or certificates for the Warrant Shares so purchased, in such denominations as may be requested by the Holder hereof and registered in the name of, or as directed by, the Holder, shall be delivered at the Company's expense to, or as directed by, such Holder as soon as practicable after such rights shall have been so exercised, and in any event no later than five (5) Business Days after delivery of the Exercise Notice to the Escrow Agent. In the case of a dispute as to the determination of the Exercise Price of a security or the arithmetic calculation of the Warrant Shares, the Company shall promptly issue to the Holder the number of shares of Common Stock that is not disputed and shall submit the disputed determinations or arithmetic calculations to the Holder via facsimile within one Business Day of receipt of the Holder's Exercise Notice. If the Holder and the Company are unable to agree upon the determination of the Exercise Price or

arithmetic calculation of the Warrant Shares within one day of such disputed determination or arithmetic calculation being submitted to the Holder, then the Company shall immediately submit via facsimile (i) the disputed determination of the Exercise Price to an independent, reputable investment banking firm or (ii) the disputed arithmetic calculation of the Warrant Shares to its independent, outside accountant. The Company shall cause the investment banking firm or the accountant, as the case may be, to perform the determinations or calculations and notify the Company and the Holder of the results no later than two (2) Business Days from receipt of the disputed determinations or calculations. Such investment banking firm's or accountant's determination or calculation, as the case may be, shall be deemed conclusive absent manifest error.

(c) Unless the rights represented by this Warrant shall have expired or shall have been fully exercised, the Company shall, as soon as practicable and in no event later than five Business Days after any exercise and at its own expense, issue a new Warrant identical in all respects to the Warrant exercised except (i) it shall represent rights to purchase the number of Warrant Shares purchasable immediately prior to such exercise under the Warrant exercised, less the number of Warrant Shares with respect to which such Warrant is exercised, and (ii) the Holder thereof shall be deemed for all corporate purposes to have become the Holder of record of such Warrant Shares immediately prior to the close of business on the date on which the Warrant is surrendered and payment of the amount due in respect of such exercise and any applicable taxes is made, irrespective of the date of delivery of certificates evidencing such Warrant Shares, except that, if the date of such surrender and payment is a date when the stock transfer books of the Company are properly closed, such Person shall be deemed to have become the Holder of such Warrant Shares at the opening of business on the next succeeding date on which the stock transfer books are open.

(d) No fractional shares of Common Stock are to be issued upon the exercise of this Warrant, but rather the number of shares of Common Stock issued upon exercise of this Warrant shall be rounded up or down to the nearest whole number.

(e) If at any time from the date of issuance of this Warrant there is no effective registration statement registering the resale of the Warrant Shares by the Holder at such time, this Warrant may also be exercised at such time by means of a "cashless exercise" in which the Holder shall be entitled to receive a certificate for the number of Warrant Shares equal to the quotient obtained by dividing $[(A-B) (X)]$ by (A), where:

(A) = the VWAP, as defined below, on a trading day from 9:30 a.m. to 4:02 p.m. Eastern Time ("Trading Day") immediately preceding the date of such election;

(B) = the Exercise Price of this Warrant, as adjusted; and

(X) = the number of Warrant Shares issuable upon exercise of this Warrant in accordance with the terms of this Warrant by means of a cash exercise rather than a cashless exercise.

“VWAP” means, for any date, the price determined by the first of the following clauses that applies: (a) if the Common Stock is then listed or quoted on Nasdaq, Amex or the N.Y. Stock Exchange (a “Principal Market”), the daily volume weighted average price of the Common Stock for such date (or the nearest preceding date) on the Principal Market on which the Common Stock is then listed or quoted as reported by Bloomberg Financial L.P.; (b) if the Common Stock is not then listed or quoted on a Principal Market and if prices for the Common Stock are then quoted on the OTC Bulletin Board, the volume weighted average price of the Common Stock for such date (or the nearest preceding date) on the OTC Bulletin Board; (c) if the Common Stock is not then listed or quoted on a Principal Market and if prices for the Common Stock are then reported in the “Pink Sheets” published by the National Quotation Bureau Incorporated (or a similar organization or agency succeeding to its functions of reporting prices), the most recent bid price per share of the Common Stock so reported; or (d) in all other cases, the fair market value of a share of Common Stock as determined by a nationally recognized-independent appraiser selected in good faith by shareholders holding a majority of the principal amount of shares of Common Stock of the Company then outstanding.

Section 3. Covenants as to Common Stock; Certain Registrations. The Company hereby covenants and agrees as follows:

- (a) This Warrant is, and any Common Stock Warrants issued in substitution for or replacement of this Warrant will upon issuance be, duly authorized and validly issued.
- (b) All Warrant Shares which may be issued upon the exercise of the rights represented by this Warrant will, upon issuance, be validly issued, fully paid and nonassessable and free from all taxes, liens and charges with respect to the issue thereof.
- (c) During the period within which the rights represented by this Warrant may be exercised, the Company will at all times have authorized and reserved at least 100% of the number of shares of Common Stock needed to provide for the exercise of the rights then represented by this Warrant and the par value of said shares will at all times be less than or equal to the applicable Exercise Price.
- (d) The Company will not, by amendment of its charter or through any reorganization, transfer of assets, consolidation, merger, dissolution, issue or sale of securities, or any other voluntary action, avoid or seek to avoid the observance or performance of any of the terms to be observed or performed by it hereunder, but will at all times in good faith assist in the carrying out of all the provisions of this Warrant. Without limiting the generality of the foregoing, the Company (i) will not increase the par value of any shares of Common Stock receivable upon the exercise of this Warrant above the Exercise Price then in effect, and (ii) will take all such actions as may be necessary or appropriate in order that the Company may validly and legally issue fully paid and nonassessable shares of Common Stock upon the exercise of this Warrant.

- (e) This Warrant will be binding upon any entity succeeding to the Company by merger, consolidation or acquisition of all or substantially all of the Company's assets.

Section 4. Taxes. The Company shall pay any and all issue or transfer taxes or other incidental expenses (but not including any income or capital taxes) which may be payable with respect to the issuance and delivery of Warrant Shares upon exercise of this Warrant.

Section 5. Warrant Holder Deemed Not a Stock Holder. Except as otherwise specifically provided herein, no Holder, as such, of this Warrant shall be entitled to vote or receive dividends or be deemed the Holder of shares of the Company for any purpose, nor shall anything contained in this Warrant be construed to confer upon the Holder hereof, as such, any of the rights of a stockholder of the Company or any right to vote, give or withhold consent to any corporate action (whether any reorganization, issue of stock, reclassification of stock, consolidation, merger, conveyance or otherwise), receive notice of meetings, receive dividends or subscription rights, or otherwise, prior to the issuance to the Holder of this Warrant of the Warrant Shares which he or she is then entitled to receive upon the due exercise of this Warrant. In addition, nothing contained in this Warrant shall be construed as imposing any liabilities on such Holder to purchase any securities or as a stockholder of the Company, whether such liabilities are asserted by the Company or by creditors of the Company. Notwithstanding this Section 5, the Company will provide the Holder of this Warrant with copies of the same notices and other information given to the stockholders of the Company generally, contemporaneously with the giving thereof to the stockholders.

Section 6. Representations of Holder. The Holder of this Warrant, by the acceptance hereof, represents that it is acquiring this Warrant and the Warrant Shares for its own account for investment and not with a view to, or for sale in connection with, any distribution hereof or of any of the shares of Common Stock or other securities issuable upon the exercise thereof, and not with any present intention of distributing any of the same. The Holder of this Warrant further represents, by acceptance hereof, that, as of this date, such Holder is an accredited investor as such term is defined in Rule 501(a) of Regulation D promulgated by the Securities and Exchange Commission under the Securities Act (an "**Accredited Investor**"). Upon exercise of this Warrant, the Holder shall, if requested by the Company, confirm in writing, in a form satisfactory to the Company, that the Warrant Shares so purchased are being acquired solely for the Holder's own account and not as a nominee for any other party, for investment, and not with a view toward distribution or resale other than pursuant to an effective registration statement or an exemption under the Securities Act and that such Holder is an Accredited Investor. Notwithstanding the foregoing, by making the representations herein, the Holder does not agree to hold the Warrant or the Warrant Shares for any minimum or other specified term and reserves the right to dispose of the Warrant and the Warrant Shares at any time in accordance with or pursuant to a registration statement or an exemption under the Securities Act. If such Holder cannot make such representations because they would be factually incorrect, it shall be a condition to such Holder's exercise of the Warrant that the Company receive such other representations as the Company considers reasonably necessary to assure the Company that the issuance of its securities upon exercise of the Warrant shall not violate any United States or state securities laws.

Section 7. Ownership and Transfer.

(a) The Company shall maintain at its principal executive offices (or such other office or agency of the Company as it may designate by notice to the Holder hereof), a register for this Warrant, in which the Company shall record the name and address of the Person in whose name this Warrant has been issued, as well as the name and address of each transferee. The Company may treat the Person in whose name any Warrant is registered on the register as the owner and Holder thereof for all purposes, notwithstanding any notice to the contrary, but in all events recognizing any transfers made in accordance with the terms of this Warrant.

(b) The Holder of this Warrant understands that this Warrant has not been and is not expected to be, registered under the Securities Act or any state securities laws, and may not be offered for sale, sold, assigned or transferred unless (a) subsequently registered thereunder, or (b) such Holder shall have delivered to the Company an opinion of counsel, reasonably satisfactory in form, scope and substance to the Company, to the effect that the securities to be sold, assigned or transferred may be sold, assigned or transferred pursuant to an exemption from such registration; provided that (i) any sale of such securities made in reliance on Rule 144 promulgated under the Securities Act may be made only in accordance with the terms of said Rule and further, if said Rule is not applicable, any resale of such securities under circumstances in which the seller (or the Person through whom the sale is made) may be deemed to be an underwriter (as that term is defined in the Securities Act) may require compliance with some other exemption under the Securities Act or the rules and regulations of the Securities and Exchange Commission thereunder; and (ii) except as provided below, neither the Company nor any other Person is under any obligation to register the Common Stock Warrants under the Securities Act or any state securities laws or to comply with the terms and conditions of any exemption thereunder except as may be expressly set out herein.

(c) Subject to compliance with any applicable securities laws and the conditions set forth in Section 7 hereof, this Warrant and all rights hereunder are transferable, in whole or in part, upon surrender of this Warrant at the principal office of the Company, together with a written assignment of this Warrant substantially in the form attached hereto as Exhibit B duly executed by the Holder or its agent or attorney and funds sufficient to pay any transfer taxes payable upon the making of such transfer. Upon such surrender and, if required, such payment, the Company shall execute and deliver a new Warrant or Warrants in the name of the assignee or assignees and in the denomination or denominations specified in such instrument of assignment, and shall issue to the assignor a new Warrant evidencing the portion of this Warrant not so assigned, and this Warrant shall promptly be cancelled. A Warrant, if properly assigned, may be exercised by a new Holder for the purchase of Warrant Shares without having a new Warrant issued.

(d) This Warrant may be divided or combined with other Warrants upon presentation hereof at the aforesaid office of the Company, together with a written notice specifying the names and denominations in which new Warrants are to be issued, signed by the Holder or its agent or attorney. Subject to compliance with Section 7, as to any transfer which may be involved in such division or combination, the Company shall execute and deliver a new Warrant or Warrants in exchange for the Warrant or Warrants to be divided or combined in accordance with such notice.

(e) The Company shall prepare, issue and deliver at its own expense (other than transfer taxes) the new Warrant or Warrants under this Section 7.

(f) The Company agrees to maintain, at its aforesaid office, books for the registration and the registration of transfers of the Warrants.

(g) If, at the time of the surrender of this Warrant in connection with any transfer of this Warrant, the transfer of this Warrant shall not be registered pursuant to an effective registration statement under the Securities Act and under applicable state securities or blue sky laws, the Company may require, as a condition of allowing such transfer (i) that the Holder or transferee of this Warrant, as the case may be, furnish to the Company a written opinion of counsel (which opinion shall be in form, substance and scope customary for opinions of counsel in comparable transactions) to the effect that such transfer may be made without registration under the Securities Act and under applicable state securities or blue sky laws, and/or (ii) that the Holder or transferee execute and deliver to the Company an investment letter in form and substance acceptable to the Company and/or (iii) that the transferee be an “accredited investor” as defined in Rule 501(a)(1), (a)(2), (a)(3), (a)(7), or (a)(8) promulgated under the Securities Act or a qualified institutional buyer as defined in Rule 144A(a) under the Securities Act.

Section 8. Adjustment of Exercise Price and Number of Shares. In order to prevent dilution of the rights granted under this Warrant, the Exercise Price and the number of shares of Common Stock issuable upon exercise of this Warrant shall be adjusted from time to time as follows:

(a) Adjustment of Exercise Price upon Subdivision or Combination of Common Stock. If the Company at any time after the date of issuance of this Warrant subdivides (by any stock split, stock dividend, recapitalization or otherwise) one or more classes of its outstanding shares of Common Stock into a greater number of shares, the Exercise Price in effect immediately prior to such subdivision will be proportionately reduced and the number of shares of Common Stock obtainable upon exercise of this Warrant will be proportionately increased. If the Company at any time after the date of issuance of this Warrant combines (by combination, reverse stock split or otherwise) one or more classes of its outstanding shares of Common Stock into a smaller number of shares, the Exercise Price in effect immediately prior to such combination will be proportionately increased and the number of shares of Common Stock obtainable upon exercise of this Warrant will be proportionately decreased.

(b) Reorganization, Reclassification, Consolidation, Merger or Sale. Any recapitalization, reorganization, reclassification, consolidation, merger, sale of all or substantially all of the Company's assets to another Person (as defined in Section 1(a)) or other transaction which is effected in such a way that Holders of Common Stock are entitled to receive (either directly or upon subsequent liquidation) stock, securities or assets with respect to or in exchange for Common Stock is referred to herein as "**Organic Change.**" Prior to the consummation of any Organic Change, the Company will make appropriate provision to ensure that each of the Holders of the Common Stock Warrants will thereafter have the right to acquire and receive in lieu of or addition to (as the case may be) the shares of Common Stock immediately theretofore acquirable and receivable upon the exercise of such Holder's Common Stock Warrants, such shares of stock, securities or assets as may be issued or payable in the Organic Change with respect to or in exchange for the number of shares of Common Stock immediately theretofore acquirable and receivable upon the exercise of such Holder's Common Stock Warrants had such Organic Change not taken place (without taking into account any limitations or restrictions on exercise). In any such case, the Company will make appropriate provision with respect to such Holders' rights and interests to insure that the provisions of this Section 8 will thereafter be applicable to the Common Stock Warrants (including, in the case of any such consolidation, merger or sale in which the successor entity or purchasing entity is other than the Company, an immediate adjustment of the Exercise Price to the value for the Common Stock reflected by the terms of such consolidation, merger or sale, and a corresponding immediate adjustment in the number of shares of Common Stock acquirable and receivable upon exercise of the Common Stock Warrants, if the value so reflected is less than the Exercise Price in effect immediately prior to such consolidation, merger or sale). The terms of any documents evidencing an Organic Change shall include such terms as to give effect to the tenor of this provision and evidencing the obligation to deliver to each Holder of Common Stock Warrants such shares of stock, securities or assets as, in accordance with the foregoing provisions, such Holder may be entitled to acquire.

(c) Distribution of Assets. If the Company shall declare or make any distribution of its assets (or rights to acquire its assets) to the Company's stockholders as a partial liquidating dividend, by way or return of capital or otherwise (including any dividend or distribution to the Company's stockholders of cash or shares (or rights to acquire shares) of capital stock of a subsidiary) (a "**Distribution**"), at any time after the issuance of this Warrant, then the Holder of this Warrant shall be entitled upon exercise of this Warrant for the purchase of any or all of the shares of Common Stock subject hereto, after the record date for determining shareholders entitled to receive such Distribution, to receive the amount of such assets (or rights) which would have been payable to the Holder had such Holder been the Holder of such shares of Common Stock on the record date for determination of stockholders entitled to such Distribution.

(d) Notices.

(i) Immediately upon any adjustment of the Exercise Price, the Company will give written notice thereof to the Holder of this Warrant, setting forth in reasonable detail and certifying the calculation of such adjustment.

(ii) The Company will give written notice to the Holder of this Warrant prior to the date on which the Company closes its books or takes a record (A) with respect to any dividend or distribution upon the Common Stock, (B) with respect to any pro rata subscription offer to Holders of Common Stock or (C) for determining rights to vote with respect to any Organic Change, dissolution or liquidation and in no event shall such notice be provided to such Holder prior to such information being made known to the public.

(iii) The Company will also give written notice to the Holder of this Warrant prior to the date on which any Organic Change, dissolution or liquidation will take place and in no event shall such notice be provided to such Holder prior to such information being made known to the public.

Section 9. Lost, Stolen, Mutilated or Destroyed Warrant. If this Warrant is lost, stolen, mutilated or destroyed, the Company shall, on receipt of an indemnification undertaking, issue a new Warrant of like denomination and tenor as the Warrant so lost, stolen, mutilated or destroyed.

Section 10. Notice. Any notices, consents, waivers or other communications required or permitted to be given under the terms of this Warrant must be in writing and will be deemed to have been delivered (i) upon receipt, when delivered personally; (ii) upon receipt, when sent by facsimile (provided confirmation of transmission is mechanically or electronically generated and kept on file by the sending party); or (iii) upon receipt, when delivered by a delivery service, in each case properly addressed to the party to receive the same. The addresses and facsimile numbers for such communications shall be:

If to the Company:

Validian Corporation
30 Metcalfe Street
Suite 620
Ottawa, Canada K1P 5L4
Telephone: (613) 230-7211
Telefax: (404) 230-6055

If to the Holder of this Warrant:

Andre Maisonneuve
1500 Riverside Drive
Suite 2203
Ottawa, ON K1G 4J4

Each party shall provide five days' prior written notice to the other party of any change in address or facsimile number.

Section 11. Miscellaneous.

(a) No Voting Rights; Limitation of Liability - Prior to exercise, this Warrant will not entitle the Holder to any voting rights or other rights as a stockholder of the Company. No provision hereof, in the absence of affirmative action by the Holder to exercise this Warrant, and no enumeration herein of the rights or privileges of the Holder, shall give rise to any liability of the Holder for the purchase price of the Warrant Shares pursuant to the exercise hereof.

(b) Waiver and Modification This Warrant and any term hereof may be changed, waived, discharged, or terminated only by an instrument in writing signed by the party or Holder hereof against which enforcement of such change, waiver, discharge or termination is sought.

(c) Headings - The headings in this Warrant are for convenience of reference only and shall not limit or otherwise affect the meaning hereof.

(d) Governing Law - THIS WARRANT SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF NEVADA. The Holder hereby submits to the jurisdiction of the State of Nevada and agrees that service of all writs, process and summonses in any such suit, action or proceeding brought in the United States against the Company may be made upon the Escrow Agent and shall be governed by and interpreted under the laws of the State of Nevada without regard to principles of conflicts of law thereof.

IN WITNESS WHEREOF, the Company has caused this Warrant to be executed by its officer thereunto duly authorized as of the date first indicated above.

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER,
Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002**

I, Bruce Benn, of Validian Corporation, certify that:

- (1) I have reviewed this report on Form 10-KSB of Validian Corporation;
- (2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- (3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operation and cash flows of the small business issuer as of, and for, the periods presented in this report;
- (4) The small business issuer's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the small business issuer and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (c) Disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and
- (5) The small business issuer's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the small business issuer's auditors and the audit committee of the small business issuer's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal controls over financial reporting.

Exhibit 31.2

CERTIFICATION OF CHIEF FINANCIAL OFFICER, Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Ronald Benn, of Validian Corporation, certify that:

- (1) I have reviewed this report on Form 10-KSB of Validian Corporation;
- (2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- (3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operation and cash flows of the small business issuer as of, and for, the periods presented in this report;
- (4) The small business issuer's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the small business issuer and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (c) Disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and
- (5) The small business issuer's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the small business issuer's auditors and the audit committee of the small business issuer's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal controls over financial reporting.
