Significant Events in the Quarter

- On March 7, 2006 Corus Radio received five Canadian Music Industry Awards. Corus Radio also received four Radio Marketing Bureau Crystal Awards, recognizing the best in radio creative. 102.1 the Edge, Q107 Toronto, 99.3 The FOX, FM96, The New 1031 Fresh FM, Corus Radio Calgary, Power 97 and Y108 Hamilton were recognized across several different categories.
- On March 11, 2006 Corus Entertainment's CJOB celebrated its 60th anniversary. Since March 11, 1946, CJOB-AM has been a vital part of Winnipeg's city landscape, delivering local news, weather and traffic and an interactive forum for discussing the issues that matter most to the community.
- On March 20, 2006 the CRTC held a public hearing regarding the licensing of a new FM radio broadcasting undertaking in Québec City. Corus was an applicant.
- On April 3, 2006 Nelvana and Nickelodeon jointly announced the production of a second season for 3-D musical preschool series *The Backyardigans*.
- On April 4, 2006 Nelvana announced that *Jacob Two-Two* would be available on the AOL KOL service.
- On April 13, 2006 the Company paid a quarterly dividend, for holders of its Class A and Class B shares, of \$0.0975 and \$0.10 respectively.
- On May 8, 2006 Corus Entertainment, Scholastic, NBC Universal, Classic Media/Big Idea and ION Media announced a new children's network featuring bilingual (English and Spanish) content.
- On May 11, 2006 Corus Entertainment and CBC/Radio-Canada announced that they had reached an agreement that will see CBC/Radio-Canada purchase Corus' 53% ownership stake in the digital television service The Documentary Channel, subject to the approval of the Canadian Radio-television and Telecommunications Commission (CRTC). In a separate agreement, CBC Television and Corus extended their current television affiliation agreements in Kingston and Peterborough.
- On May 14, 2006 the Company announced that it had received 17 LEO Awards. The winners included Movie Central's *Terminal City* with six awards, while YTV's series *Being Ian* and *Zixx: Level II* and W Network's *The Shopping Bags* also took home awards.

- On May 19, 2006 Corus Custom Networks announced the launch of its Digital Signage department, which features multiple TV screens with customized information and advertising that can be found in retail, banks, airports, restaurants, grocery stores and public transportation.

Significant Events Subsequent to the Quarter

- On June 1, 2006 the Company introduced its new direct-to-family broadband video storefront TreehouseDirect.
- On June 2, 2006 the Company announced that effective Wednesday, June 7, 2006, its ticker symbol on the Toronto Stock Exchange ("TSX") would be modified as part of a broader symbol change initiative previously announced by the TSX. The ticker symbol CJR.NV.B previously used on the TSX for the Company's Class B Non-Voting Shares was replaced by the ticker symbol CJR.B.
- On June 2, 2006 as part of Corus Entertainment's integrated multiplatform strategy, Treehouse announced that it will launch its new live-action preschool series *This is Emily Yeung* on mobile, online and on video-on-demand (VOD) prior to its broadcast premiere.
- On June 5, 2006 Corus Radio Vancouver launched a reformatted CHMJ-AM. The new AM730 Continuous Drive Time Traffic and the Best of Talk delivers continuous traffic reports during the critical morning and afternoon drive periods. The new station also features the Vancouver White Caps and Giants and the Seattle Seahawks play-by-play as well as the "best of talk," offering original programming and time-shifted CKNW signature programming.
- On June 13, 2006 the Company announced that *Jane and the Dragon*, a Nelvana co-production, and Corus-supported series *ReGenesis* and *Terminal City* had won 2006 Banff World Television Festival Awards.
- As of June 30, 2006 the Company had purchased an additional 257,900 Class B Non-Voting Shares for cancellation under its Normal Course Issuer Bid at an average price of \$36.40 per share.
- On July 13, 2006 Corus and Astral Media announced that they had reached an agreement to purchase the remaining 20% of TELETOON network from Cookie Jar Entertainment. The deal, subject to CRTC review, will give both Corus and Astral a 50% ownership in the network. The purchase price for Cookie Jar's 20% stake is approximately \$96.0 million.

Management's Discussion and Analysis

Management's Discussion and Analysis of the financial position and results of operations for the nine month period ended May 31, 2006 is prepared at June 30, 2006. The following should be read in conjunction with Management's Discussion and Analysis, consolidated financial statements and the notes thereto included in our August 31, 2005 Annual Report and the consolidated financial statements and notes of the current quarter. The financial highlights included in the discussion of the segmented results are derived from the unaudited consolidated financial statements. All amounts are stated in Canadian dollars unless specified otherwise.

Cautionary statement regarding forward-looking statements

To the extent any statements made in this report contain information that is not historical; these statements are forward-looking statements within the meaning of applicable securities laws. These forward-looking statements related to, among other things, our objectives, goals, strategies, intentions, plans, estimates and outlook and can generally be identified by the use of the words such as "believe", "anticipate", "expect", "intend", "plan", "will", "may" and other similar expressions. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. Although Corus believes that the expectations reflected in such forward-looking statements are reasonable, such statements involve risks and uncertainties and undue reliance should not be placed on such statements. Certain material factors or assumptions are applied in making forward-looking

statements and actual results may differ materially from those expressed or implied in such statements. Important factors that could cause actual results to differ materially from these expectations include, among other things: our ability to attract and retain advertising revenues; audience acceptance of our television programs and cable networks; our ability to recoup production costs, the availability of tax credits and the existence of co-production treaties; our ability to compete in any of the industries in which we do business; the opportunities (or lack thereof) that may be presented to and pursued by us; conditions in the entertainment, information and communications industries and technological developments therein; changes in laws or regulations or the interpretation or application of those laws and regulations; our ability to integrate and realize anticipated benefits from our acquisitions and to effectively manage our growth; our ability to successfully defend ourselves against litigation matters arising out of the ordinary course of business; and changes in accounting standards. Additional information about these factors and about the material assumptions underlying such forward-looking statements may be found in our Annual Information Form. Corus cautions that the foregoing list of important factors that may affect future results is not exhaustive. When relying on our forward-looking statements to make decisions with respect to Corus, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. Unless otherwise required by applicable securities laws, we disclaim any intention or obligation to publicly update or revise any forward-looking statements whether as a result of new information, events or circumstances that arises after the date thereof or otherwise.

Overview of Consolidated Results

The third quarter was highlighted by strong revenue growth from Television and another quarter of positive segment profit contribution from Content, while Radio overcame an industry-wide slump in April to post solid revenue gains in May. The year-to-date results are impacted by a pre-tax \$132.0 million debt refinancing loss resulting from the purchase and cancellation of its Senior Subordinated Notes (“Notes”) and the termination of the associated cross-currency agreements. These transactions resulted in an after-tax loss of \$1.89 per share in the second quarter and year to date.

Financial Results

Revenues

Revenues for the third quarter were \$181.6 million, an increase of 6% over \$171.9 million last year. Radio and Television experienced increases of 5% and 9% respectively. For the nine-month period, revenues of \$541.3 million represented a 7% increase over \$507.8 million last year. Radio and Television experienced increases of 8% and 10% respectively. Content decreased by 14% for the three-month period and 17% for the nine-month period as fewer episodes were delivered. Please refer to the following section for a further discussion of segmented results.

Direct cost of sales, general and administrative expenses

Direct cost of sales, general and administrative expenses for the third quarter were \$123.9 million, up 4% from \$119.5 million in the prior year. For the nine-month period, expenses were \$371.7 million, up 5% from the prior year. Expense increases in Television were a result of higher revenues, while increases in Radio were a result of the integration of the new stations in Québec. Expenses at Content decreased as a result of lower revenues, while Corporate expenses increased as a result of stock-based compensation and compliance costs. Please refer to the following section for a further discussion of segmented results.

Depreciation

Depreciation expense for the third quarter was \$5.7 million, a decrease of \$1.1 million from last year, while for the nine-month period depreciation of \$15.7 million represented a \$2.1 million decrease from the

prior year. This decrease reflects a lower capital cost base and continues a trend reflecting lower capital expenditures in recent years.

Amortization

Amortization expense for the third quarter was \$0.8 million, down from \$1.1 million last year, while for the nine-month period amortization of \$2.3 million represented a decrease of \$1.1 million from last year. The decrease is a result of certain deferred start-up and reformatting costs becoming fully amortized, as well as the write-off in the second quarter of deferred financing costs associated with the Senior Subordinated Notes. The write-off of these costs has been recorded as a component of the debt restructuring loss. The remaining deferred start-up costs of \$0.6 million will be fully amortized over the next several quarters, while \$6.0 million in deferred financing charges relating to the new bank debt is being amortized over the life of the facility.

Interest on long-term debt

Interest expense for the third quarter was \$9.0 million, down from \$13.9 million last year, while for the nine-month period interest expense was \$34.6 million, representing a decrease of \$6.7 million from \$41.3 million last year. The Company refinanced its debt at the end of January 2006, with the result that the Notes, which paid interest at an effective rate of 9.33%, were replaced with bank debt paying interest on a floating rate plus a margin. Interest rate swap agreements fix the interest rate at 4.13% plus a margin on \$400.0 million of the bank debt for the full term of the facility. The effective interest rate for the third quarter was 5.3% on bank debt, compared to 9.1%, primarily on the Notes, in the prior year.

Debt restructuring loss

In the second quarter of fiscal 2006, the Company purchased and cancelled U.S.\$373.6 million of its Notes. Concurrently, the cross-currency agreements which fixed the exchange rate on the principal and interest on the Notes were effectively terminated. In order to fund the purchase of the Notes, the Company amended its credit facility with a syndicate of banks. These transactions resulted in the Company recording a pre-tax debt restructuring loss of \$132.0 million in the second quarter. The components of this loss include mark-to-market payments on the cross-currency agreement terminations, consent and tender premiums, the non-cash write-off of deferred financing charges related to the Notes, and other fees. The after-tax impact of these transactions was approximately \$1.89 per share.

Other expense (income), net

Other expense for the third quarter was \$4.6 million, compared to income of \$1.8 million in the prior year, while for the nine-month period other expense of \$3.4 million represented a decrease from income of \$10.8 million in the prior year. The current year includes severance-related restructuring charges of \$4.1 million incurred in the Radio segment in the third quarter. The prior year nine-month period included foreign exchange and derivative gains of \$4.2 million and \$4.4 million, respectively. The financial instruments which gave rise to these gains were terminated in fiscal 2005 so there is no corresponding impact in fiscal 2006.

Income taxes

The effective tax rate for the third quarter was 35.5% and 54.9% for the nine-month period, compared with the Company's 37.3% statutory rate. The difference between the effective and statutory rates on a year to date basis is primarily due to the tax treatment of certain elements of the debt refinancing transaction that occurred in the second quarter.

Net income (loss)

Net income for the third quarter was \$23.2 million, compared to \$19.4 million last year, while for the nine-month period, a net loss of \$11.2 million represented a decrease of \$72.6 million from the prior year. Earnings per share for the third quarter were \$0.55 basic and \$0.54 diluted, compared with earnings per share of \$0.45 basic and diluted last year. For the nine-month period, the loss per share was \$0.26 per share basic and diluted, compared to basic and diluted earnings per share of \$1.44 and \$1.43 respectively. The after-tax impact of the debt refinancing transaction in the second quarter of fiscal 2006 was a loss of approximately \$1.89 per share.

Radio

The Radio division comprises 51 radio stations situated primarily in nine of the ten largest Canadian markets by population and in the densely populated area of southern Ontario. Corus is Canada's leading radio operator in terms of revenues and audience reach.

Financial Highlights

	Three months ended May 31,		Nine months ended May 31,	
(thousands of Canadian dollars)	2006	2005	2006	2005
Revenues	71,904	68,340	202,080	187,415
Direct cost of sales, general and administrative expenses	50,763	46,156	149,572	134,193
Segment profit	21,141	22,184	52,508	53,222

The quarter and year-to-date results of fiscal 2006 reflect the impact of acquisitions and disposals that occurred in both fiscals 2006 and 2005. A reconciliation of Radio same station results is provided on page 15.

Revenues for the third quarter were \$71.9 million, up 5% from the corresponding period last year. For the nine-month period, revenues of \$202.0 million were up 8% from a year ago. On a same station basis revenues were up 3% and 6% over the prior year for the three- and nine-month periods, respectively. Revenue growth for the quarter was experienced in Western Canada and Ontario, with Vancouver, Calgary, Winnipeg, and the Ontario regional stations contributing above market average growth in the quarter, as indicated by the Trans-Canada Radio Advertising by Market ("TRAM") Report for the three months ended May 31, 2006. Local airtime sales for the third quarter increased over the prior year by 6%, while national airtime sales decreased by 5% in the quarter. On a same station basis, local airtime sales increased by 4% while national airtime sales decreased by 4% in the quarter. This decrease in national airtime sales was the result of a very soft market in the month of April, in which TRAM reported a decline in radio industry revenues over the prior year. Based on the May TRAM it would appear that the market decline in the month of April was temporary. On a same station basis, Corus Radio continues to track ahead of the market growth for the fiscal year. Corus Radio believes that its assets continue to be competitively positioned to take advantage of the strong ad market.

Direct cost of sales, general and administrative expenses for the third quarter were \$50.8 million, up 10% from the corresponding period last year. For the nine-month period, expenses of \$149.6 million were up 11% over the prior year. On a same station basis expenses were up 4% and 5% over the prior year for the three- and nine-month periods respectively. This same station expense growth is attributed to increased investments in new media and programming content, principally related to professional hockey which was unavailable last year and contributed approximately \$2.1 million in costs to the current year. During the third quarter Corus Radio incurred \$4.1 million in expenses related to restructuring costs primarily in Western Canada. These costs are reflected in *Other expense (income), net*. Expenses related to the integration of the recently acquired Québec stations are marginally higher than managements' expectations and this combined with lower than anticipated revenue growth has had a negative impact on results for the quarter and year to date.

Segment profit for the third quarter was \$21.1 million, a decrease of 5% from last year, while for the nine-month period segment profit of \$52.5 million represented a 1% decrease from the prior year. On a same station basis, segment profit increased by 3% and 8% over the prior year for the three- and nine-month periods respectively.

Television

The Television division comprises the following: specialty television networks YTV, W Network, Treehouse TV, Corus' 80% interest in Country Music Television Limited ("CMT"), a 50.5% interest in Telelatino, a 40% interest in TELETOON and a 20% interest in Food Network; Corus' premium television services Movie Central and Encore Avenue; interests in three digital television channels: SCREAM, Discovery Kids Canada and The Documentary Channel; Corus Custom Networks, a cable advertising service; three local television stations; and Max Trax, a residential digital music service.

Financial Highlights

	Three months ended May 31,		Nine months ended May 31,	
(thousands of Canadian dollars)	2006	2005	2006	2005
Revenues	98,951	90,508	298,699	270,752
Direct cost of sales, general and administrative expenses	57,264	55,838	168,600	160,726
Segment profit	41,687	34,670	130,099	110,026

Revenues for the third quarter were \$99.0 million, up 9% from the corresponding period last year. Revenues of \$298.7 million for the nine-month period represented a 10% growth over prior year. Revenue growth was driven by continued advertising growth of 11% and 12% for the three- and nine-month periods, respectively, and subscriber growth of 10% and 9% for the three- and nine-month periods, respectively. The strong advertising results were driven by double-digit growth in W Network, TELETOON and Telelatino. In total, specialty advertising revenues grew 11% over the prior year's quarter. Specialty advertising growth for the nine-month period was 13%, while total revenues from local and other television properties grew by 5% over the prior year. Subscriber revenue growth was driven by Movie Central, which finished the quarter with 822,000 subscribers, up 10% from 748,000 at August 31, 2005. The Company attributes this increase to successful marketing campaigns surrounding high-profile HBO programming, including *Rome* and the sixth season of *The Sopranos*, which launched in March 2006. The rate of subscriber growth is expected to slow in the fourth quarter as churn rates in the summer months are traditionally higher.

Direct cost of sales, general and administrative expenses were \$57.3 million for the third quarter, up 3% from the prior year, and \$168.6 million for the nine-month period, up 5% from the prior year. The increase was primarily due to higher programming costs, as amortization of program rights increased by 7% over the prior year. These costs fluctuate in proportion to changes in subscriber levels, as a result of program supply agreements, and content requirements based on the prior year's revenues, as a result of conditions of license. These increased costs were offset by effective cost containment in other general and administrative overhead, which decreased by 2% in the current quarter due to a lease write-off in the prior year, and increased by 1% over the prior year on a year-to-date basis, due to higher marketing costs as well as bad debt expense incurred in the first quarter of this year.

Segment profit for the third quarter was \$41.7 million, up 20% from the prior year, while segment profit of \$130.1 million for the nine-month period represented an 18% increase over the prior year.

Content

The Content division participates in the production and distribution of television programs and the sale and licensing of related products and rights.

Financial Highlights

	Three months ended May 31,		Nine months ended May 31,	
(thousands of Canadian dollars)	2006	2005	2006	2005
Revenues	12,594	14,599	45,356	54,368
Direct cost of sales, general and administrative expenses	12,104	14,450	42,440	52,572
Segment profit	490	149	2,916	1,796

Revenues for the third quarter were \$12.6 million, a decrease of 14% from the prior year. For the nine-month period, revenues of \$45.4 million represented a 17% decrease from the prior year. During the three- and nine-month periods, Content delivered 25 and 60 completed episodes respectively, compared to 28 and 99 episodes in the prior year. Production is on schedule to deliver approximately the same number of episodes as last year. The year-to-date decrease in revenues from the prior year was due to fewer episodes being delivered in the current year, and the decline in *Beyblade* revenues towards the end of fiscal 2005. The *Beyblade* decline is not likely to reverse and merchandising revenues will not return to the levels of the past few fiscal years until new brands come on line. These decreases have been offset in the current year by library sales. Included in Content's revenues for the three- and nine-month periods are intercompany revenues of \$1.5 million and \$4.5 million, respectively. These revenues are eliminated upon consolidation.

Direct cost of sales, general and administrative expenses for the third quarter were \$12.1 million, down 16% from the prior year. For the nine-month period, expenses of \$42.4 million represent a decrease of 19% from the prior year. The decrease reflects ongoing diligence in expense control, as well as lower film amortization and third-party participation costs that fluctuate in proportion to revenues.

Segment profit for the third quarter was \$0.5 million, compared to \$0.1 million last year. For the nine-month period segment profit was \$2.9 million compared to \$1.8 million in the prior year. The Content division continues to perform in line with the Company's current expectations of modest segment profit and neutral to positive free cash flow.

Corporate

The Corporate segment results represent the incremental cost of corporate overhead in excess of the amount allocated to the operating segments.

Financial Highlights

(thousands of Canadian dollars)	Three months ended May 31,		Nine months ended May 31,	
	2006	2005	2006	2005
Stock-based compensation	2,764	1,946	6,551	4,588
Other general and administrative costs	2,783	2,878	9,596	8,051
General and administrative expenses	5,547	4,824	16,147	12,639

General and administrative expenses increased to \$5.5 million in the third quarter from \$4.8 million in the same period last year, and for the nine-month period increased to \$16.1 million from \$12.6 million last year.

Stock-based compensation includes the expenses related to the Company's Performance Share Units and the issuance of stock options. The increase in the quarter and year-to-date expenses reflect the impact of Corus' higher average share price in fiscal 2006 compared to the same periods last year.

The increase in other general and administrative costs of \$1.5 million for the nine-month period relate primarily to increased costs of information technology and costs associated with implementing the requirements of the Sarbanes-Oxley Act and new Canadian securities standards.

Quarterly Consolidated Financial Information

The following table sets forth certain unaudited data derived from the unaudited consolidated financial statements for each of the eight most recent quarters ended May 31, 2006. In management's opinion, these unaudited consolidated financial statements have been prepared on a basis consistent with the audited consolidated financial statements contained in the Company's Annual Report for the year ended August 31, 2005.

Seasonal Fluctuations

As discussed in Management's Discussion and Analysis for the year ended August 31, 2005, Corus' operating results are subject to seasonal fluctuations that can significantly impact quarter-to-quarter operating results. In particular, as the Company's broadcasting businesses are dependent on general advertising and retail cycles associated with consumer spending activity, the first quarter results tend to be the strongest and second quarter results tend to be the weakest in a fiscal year.

Significant items causing variations in quarterly results

- The second quarter of fiscal 2006 was impacted by the purchase and cancellation of the Company's Senior Subordinated Notes, as well as the termination of the cross-currency agreements associated with the Notes. The after-tax impact of these transactions was approximately \$80.7 million or \$1.89 per share.

Risks and Uncertainties

In fiscal 2006 a number of regulatory proceedings and decisions occurred which may have an impact on Corus. These include the granting of a pay television license by the CRTC to an entity allowing it to compete with our premium television services and the start-up of satellite radio. The CRTC is also conducting radio and television policy reviews that may impact Corus' regulated entities.

Except as noted above, there have been no material changes in any risks or uncertainties facing the Company since the year ended August 31, 2005.

Financial Position

Total assets at May 31, 2006 were \$1.86 billion compared to \$1.93 billion at August 31, 2005. The following discussion describes the significant changes in the consolidated balance sheet since August 31, 2005.

Current assets decreased by \$82.8 million. Cash and cash equivalents decreased by \$82.3 million. This decrease is the result of financing activities related to the purchase of the Senior Subordinated Notes and the termination of the associated cross-currency agreements as well as the purchase of the Company's shares through the Normal Course Issuer Bid. Other non-cash current working capital items did not fluctuate significantly from the year-end balances.

Non-current assets increased by \$16.9 million. Investments and other assets decreased by \$8.6 million, as the Company divested itself of an interest in a privately owned Canadian media company. Property, plant and equipment decreased by \$0.9 million as capital expenditures of \$14.6 million were offset by depreciation of \$15.7 million. The property, plant and equipment balance will continue to decline as the significant investments from fiscals 2001 and 2002 get depreciated, however capital expenditures in the third quarter of fiscal 2006 were higher than in the first two quarters as the Company invests in consolidating its Montreal Radio facilities. Program and film rights (current and non-current) increased by \$28.2 million, as accruals for acquired rights of \$119.3 million were offset by amortization of \$92.0 million. Accruals for program rights are weighted to the first half of the fiscal year, as programming is acquired for the fall launch and the ensuing broadcast year. Film investments increased by \$11.9 million as net film spending of \$34.8 million was offset by film amortization and accruals for tax credits. This increase is primarily in projects in development and process for series that will be delivered in future periods. Deferred charges decreased by \$9.3 million due to amortization and the write-off of deferred financing charges as a result of the refinancing transactions in the second quarter. This was offset by the addition of new deferred financing charges related to the new bank facility. Broadcast licenses decreased

by \$3.8 million and goodwill decreased by \$4.1 million as a result of the sale of two radio stations in the first quarter.

Current liabilities increased by \$5.1 million. Accounts payable and accrued liabilities decreased by \$1.3 million and income taxes payable increased by \$6.5 million. Accounts payable and accrued liabilities related to working capital decreased by \$21.5 million, due to the timing of the payment of interest, while non-working capital accruals for program rights and film investments increased by \$20.1 million, as the Company grows its program rights assets.

Non-current liabilities decreased by \$23.9 million. Long-term debt increased by \$181.4 million, resulting from the refinancing transaction in the second quarter. The Company paid \$436.0 million to purchase its Senior Subordinated Notes, and has drawn down \$622.8 million on its new bank facility. This bank facility combined with an existing cash balance was used to finance the purchase of the Notes and terminate the associated cross-currency agreements. Deferred credits decreased by \$162.0 million as a result of the termination of the cross-currency agreements associated with the Senior Subordinated Notes. Net future tax liability (including current future tax asset) decreased by \$42.0 million primarily as a result of the tax impact of the refinancing transaction in the second quarter.

Share capital decreased by \$11.9 million as a result of the repurchase and cancellation of shares with a book value of \$16.3 million under the Company's recently implemented issuer bid. This was offset by the receipt of \$4.0 million on the exercise of employee stock options, in response to a recent increase in the Company's share price. Contributed surplus increased by \$2.1 million as a result of expensing stock options for the period. Cumulative translation adjustment increased by \$1.4 million due to the effect of the strengthening Canadian dollar on the translation of the net assets of self-sustaining foreign operations.

Liquidity and Capital Resources

Cash flows

Overall, the Company's cash and cash equivalents position has decreased by \$82.3 million in fiscal 2006, compared to an increase of \$14.4 million in the prior year. This is due to the refinancing of the Company's debt in the second quarter. Free cash flow is historically weak in the third quarter, as the Company paid interest on its Senior Subordinated Notes. With the retirement of these Notes in the second quarter of this fiscal year, this interest is no longer paid. On a year-to-date basis however, the amount of interest paid in the current year is approximately the same as the prior year, since interest on the bank debt is now paid monthly as opposed to semi-annually.

Cash provided by operating activities in fiscal 2006 is \$66.1 million, compared to \$61.1 million last year. This increase is primarily due to cash provided by a \$16.9 million increase in segment profit, offset by an increased investment in non-cash working capital of \$3.7 million, and higher payments for program rights of \$17.4 million.

Cash used in investing activities in fiscal 2006 is \$2.2 million, compared to \$10.1 million last year. The current year includes \$10.6 million in proceeds from the sale of certain radio and other assets, and \$8.1 million from the disposal of investments, while capital expenditures are ahead of the prior year. This trend will continue through the remainder of the year.

Cash used in financing activities in fiscal 2006 is \$146.2 million compared to \$36.5 million last year. In the second quarter of fiscal 2006, the Company purchased and cancelled its Senior Subordinated Notes, terminated the cross-currency agreement associated with the Notes, and amended its credit facility. In the third quarter of fiscal 2006, the Company continued to purchase outstanding Notes, and repaid a portion of its revolving credit facility. In the third quarter, the Company continued purchasing its own shares under

an issuer bid that began in the second quarter of fiscal 2006. To the end of the third quarter, 776,800 shares had been purchased for cash consideration of \$27.4 million.

Liquidity

As at May 31, 2006, the Company has available \$170.0 million under a revolving term credit facility that matures on January 24, 2011. Interest rates on the Company's facilities fluctuate with Canadian bankers' acceptances and LIBOR.

As at May 31, 2006, the Company had a cash balance of \$55.8 million and a working capital balance of \$109.0 million. Management believes that cash flow from operations and existing credit facilities will provide the Company with sufficient financial resources to fund its operations for the next 12 months.

Net debt and adjusted net debt

At May 31, 2006, net debt was \$570.8 million, up from \$307.1 million at August 31, 2005. Adjusted net debt at May 31, 2006 was \$570.8 million, up from \$465.9 million at August 31, 2005. This increase in net debt is a result of the cash flows incurred to buy back the Senior Subordinated Notes and terminate the associated cross-currency agreements. Adjusted net debt to segment profit at May 31, 2006 was 2.7 times, up from 2.4 times at August 31, 2005. This ratio remains below management's stated guidance range of 3.0 to 3.5 times.

Off-balance sheet arrangements and derivative financial instruments

During the second quarter of fiscal 2006 the Company entered into Canadian interest rate swap agreements to fix the interest rate on its outstanding bank loans. The estimate fair value of these agreements at May 31, 2006 is \$8.4 million. No asset has been included in the consolidated balance sheet.

As at August 31, 2005, the consolidated balance sheet included a liability of \$158.8 million related to a cross-currency agreement. Corus terminated this agreement in the second quarter of fiscal 2006 as part of the refinancing of its debt. The fair value of the liability at the date of its termination was included in the debt refinancing loss recorded in the second quarter of fiscal 2006.

Outstanding Share Data

As at June 30, 2006, 1,723,929 Class A Voting Shares and 40,204,775 Class B Non-Voting Shares were issued and outstanding.

Key Performance Indicators

The Company measures the success of its strategies using a number of key performance indicators. With the exception of radio same station segment results, these have been outlined in the Management's Discussion and Analysis contained in the Annual Report for the year ended August 31, 2005, including a discussion as to their relevance, definitions, calculation methods and underlying assumptions. Certain key performance indicators are not measurements in accordance with Canadian or U.S. generally accepted accounting principles ("GAAP") and should not be considered as an alternative to net income or any other measure of performance under Canadian or U.S. GAAP.

The following tables reconcile those key performance indicators that are not in accordance with GAAP measures:

Corus Entertainment Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
May 31, 2006
(in thousands of Canadian dollars except share information)

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The interim consolidated financial statements include the accounts of Corus Entertainment Inc. and its subsidiaries ["Corus" or the "Company"]. The notes presented in these interim consolidated financial statements include only significant events and transactions occurring since the Company's last fiscal year and are not fully inclusive of all matters normally disclosed in the Company's annual audited financial statements. As a result, these interim consolidated financial statements should be read in conjunction with the Company's consolidated financial statements for the year ended August 31, 2005.

These interim consolidated financial statements follow the same accounting policies and methods of application as the most recent annual consolidated financial statements.

Corus' operating results are subject to seasonal fluctuations that can significantly impact quarter-to-quarter operating results. Accordingly, one quarter's operating results are not necessarily indicative of a subsequent quarter's operating results. Each of the broadcasting businesses [Radio and Television] and the Content business has unique seasonal aspects.

For the broadcasting businesses, operating results are dependent on general advertising and retail cycles associated with consumer spending activity. Accordingly, operating results for the first quarter tend to be the strongest, reflecting pre-Christmas advertising activity, and for the second quarter tend to be the weakest, consistent with lower consumer spending in winter months.

For the Content business, operating results are dependent on the timing and number of television programs made available for delivery in the period, as well as the timing of merchandising royalties received, none of which can be predicted with certainty. Consequently, Content's operating results may fluctuate significantly from quarter to quarter. As well, cash flows may fluctuate and are not necessarily closely related to revenue recognition.

2. FILM INVESTMENTS

	As at May 31, 2006	As at August 31, 2005
Projects in development and in process, net of advances	24,571	15,876
Completed projects and distribution rights	31,507	28,796
Investments in third-party-produced film projects	14,267	13,745
	70,345	58,417

3. BROADCAST LICENSES AND GOODWILL

During the first quarter of fiscal 2006, the Company completed the sale of two radio stations for an aggregate purchase price of \$9,115. There were reductions of \$3,840 and \$4,063 in broadcast licenses and goodwill, respectively, and an immaterial loss was recorded on these dispositions.

4. LONG-TERM DEBT

	As at May 31, 2006	As at August 31, 2005
Senior Subordinated Notes	599	445,162
Bank loans	625,954	-
	626,553	445,162

On March 7, 2002, Corus issued U.S.\$375,000 aggregate principal amount of 8.75% Senior Subordinated Notes [the “Notes”] due in 2012 at a price of 99.186% of their aggregate principal amount. The Company entered into cross-currency agreements to fix the liability for interest and principal payments on the Notes. The agreements resulted in an effective interest rate of 9.33% on the Canadian dollar equivalent of the U.S. debt. The exchange rate applicable to the principal portion of the debt was fixed at Cdn.\$1.6107, translating to approximately Cdn.\$604,000.

On December 15, 2005, the Company announced that it had commenced a cash tender offer and consent solicitation for its Notes. On January 23, 2006, the Company completed its tender offer for the Notes, and as a result U.S.\$373,646 of the Notes were acquired by the Company and cancelled, leaving U.S.\$1,354 outstanding. Concurrently, the cross-currency agreements were effectively terminated. As at May 31, 2006, U.S.\$544 of the Notes remain outstanding.

In order to fund the purchase of the Notes, the Company’s credit facility with a syndicate of banks was amended and its operating loan facility was terminated. The amendment resulted in an extension of the maturity of the credit facility to January 24, 2011. The amount committed is \$800,000, of which \$300,000 is available on a revolving basis [the “Revolving Facility”] and \$500,000 on a non-revolving basis [the “Term Facility”], and is repayable at maturity. Funds are available to the Company in both Canadian and U.S. dollars and charge interest on a fluctuating basis plus a margin. Other terms of the amended credit facility are substantially similar to the prior credit facility. As at May 31, 2006, \$130,000 of the Revolving Facility and all of the Term Facility were utilized in Canadian dollars.

Interest rates on the balance of the bank loans fluctuate with Canadian bankers’ acceptances and LIBOR. The Company has entered into Canadian interest rate swap agreements to fix the interest rate at 4.13% plus a margin on \$400,000 of the Term Facility for the full term of the facility.

These transactions resulted in the Company recording a \$131,951 debt refinancing loss in the second quarter of fiscal 2006. The components of this loss include mark-to-market payments on the cross-currency agreement termination, consent and tender premiums, the write-off of deferred financing charges, and underwriting and other fees.

Stock Option Plan

Under the Company's Stock Option Plan, the Company may grant options to purchase Class B Non-Voting Shares to eligible officers, directors and employees of or consultants to the Company. The maximum number of shares that can be reserved for issuance under the plan is 4,084,642. All options granted are for terms not to exceed ten years from the grant date. The exercise price of each option equals the market price of the Company's stock on the date of the grant. Options vest 25% on each of the first, second, third and fourth anniversary dates of the date of grant.

Corus Entertainment Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
May 31, 2006
(in thousands of Canadian dollars except share information)

During the first quarter of fiscal 2006, the Company granted 262,000 stock options with a weighted average exercise price of \$32.25 per share and a term of seven and a half years. The weighted average fair value of the stock options granted in the first quarter of fiscal 2006 was \$11.16 per option.

As at May 31, 2006, the Company has outstanding stock options for 3,497,965 Class B Non-Voting Shares, of which 2,491,376 are exercisable.

The fair value of each option granted was estimated on the date of the grant using the Black-Scholes option pricing model with the following assumptions:

	Fiscal 2006	Fiscal 2005
Expected life	5 years	5 years
Risk-free interest rate	3.73%	4.31%
Dividend yield	0.31%	0.21%
Volatility	33.33%	35.98%

The estimated fair value of the options is amortized to income over the option's vesting period on a straight-line basis. The Company has recorded stock-based compensation expense for the three- and nine-month periods of \$734 and \$2,181 (2005 - \$567 and \$1,712) and this has been credited to contributed surplus.

For options granted to employees up to August 31, 2003, had compensation costs for the Company's Stock Option Plan been determined based on the fair value based method of accounting for stock-based compensation, the Company's net income and earnings per share would have been reduced to the pro forma amounts indicated below:

	Three months ended May 31,		Nine months ended May 31,	
	2006	2005	2006	2005

During the nine months ended May 31, 2006, the Company repurchased and cancelled 776,800 Class B Non-Voting Shares for a total cash consideration of \$27,402. This cash consideration exceeded the carrying value of the shares repurchased by \$11,120, which amount was charged to retained earnings.

7. BUSINESS SEGMENT INFORMATION

The Company's business activities are conducted through three reportable operating segments:

Radio

The Radio segment comprises 51 radio stations, situated primarily in high-growth urban centres in Canada. Revenues are derived from advertising broadcast over these stations.

Television

The Television segment includes interests in several specialty television networks, pay television, conventional television stations, a digital music service and cable advertising services. Revenues are generated from subscriber fees and advertising.

Content

The Content segment includes the production and distribution of television programs and the sale and licensing of related products. Revenues are generated from licensing of proprietary films and television programs, merchandise licensing and publishing.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies. Management evaluates each business segment's performance based on revenues less direct cost of sales, general and administrative expenses. Transactions between reporting segments are recorded at fair value.

(in thousands of Canadian dollars except share information)

Fair values

The fair values of long-term debt and derivative financial instruments have been determined as follows:

Long-term debt

The carrying value of the Company's bank loans approximates their fair value because interest charges under the terms of the bank loans are based on current Canadian bankers' acceptance and LIBOR rates.

Derivative financial instruments

The estimated fair values of these agreements are as follows:

	<u>May 31, 2006</u>		<u>August 31, 2005</u>	
	<u>Carrying value</u>	<u>Estimated fair value</u>	<u>Carrying value</u>	<u>Estimated fair value</u>
Cross-currency agreements	-	-	(158,838)	(242,005)
Interest rate swap agreements	-	8,380	-	-

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

9. EARNINGS PER SHARE

The following is a reconciliation of the numerator and denominators (in thousands) used for the computation of the basic and diluted earnings per share amounts:
