ASP VENTURES CORP.
(A Development Stage Company)
NOTES TO UNAUDITED FINANCIAL STATEMENTS
June 30, 2005

Note 1 - Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared by management in accordance with the instructions in Form 10-QSB and, therefore, do not include all information and footnotes required by generally accepted accounting principles and should, therefore, be read in conjunction with the Company's Form 10-KSB for the year ended December 31, 2004, filed with the Securities and Exchange Commission. These statements do include all normal recurring adjustments which the Company believes necessary for a fair presentation of the statements. The interim operations results are not necessarily indicative of the results for the full year ending December 31, 2005.

Note 2 - Additional Footnotes Included By Reference

Except as indicated in these Notes, there have been no other material changes in the information disclosed in the notes to the financial statements included in the Company's Form 10-KSB for the year ended December 31, 2004, filed with the Securities and Exchange Commission. Therefore, those footnotes are included herein by reference.

Note 3 - Going Concern

At June 30, 2005 the Company has incurred losses since inception as well as negative cash flow from operations. These conditions raise substantial doubt about the ability of the Company to continue as a going concern. The financial statements do not include any adjustments that might result for the outcome of this uncertainty.

The Company's ability to continue as a going concern is subject to achieving profitable operations and/or obtaining necessary funding from outside sources.

Note 4 - Related Party Payables

Related party payables consist of unsecured payables to officers, have no specific terms, are due on demand, and total $114,500.

Note 5 - Related Party Transactions

The Company incurred consulting fees to an officer and director of the company for $10,500 and $9,000 during the six months ended June 30, 2005 and 2004, respectively.

The Company incurred consulting fees to a significant shareholder for the amount of $30,000 during the six months ended June 30, 2005 and 2004, respectively.

The Company rents office space from a shareholder, in the amount of $ 1,000 per month.

Note 6 - Supplemental Cash Flow Information

During the three months ended March 31, 2005, the Company recorded stock subscriptions receivable for $12,500 in exchange for the issuance of 1,250,000 share of common stock. During the three months ended June 30, 2005, the stock subscriptions were cancelled.

From January 1st to June 30, 2004, the Company issued 250,000 shares of common stock in exchange for consulting services valued at $6,250.

ITEM 2.

MANAGEMENT'S PLAN OF OPERATION

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the financial statements and accompanying notes and the other financial information appearing elsewhere in this periodic report. The Company's fiscal year end is December 31.

This report and the exhibits attached hereto contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The forward-looking statements include, without limitation, statements as to management's good faith expectations and beliefs, which are subject to inherent uncertainties which are difficult to predict and may be beyond the ability of the Company to control. Forward-looking statements are made based upon management's expectations and belief concerning future developments and their potential effect upon the Company. There can be no assurance that future developments will be in accordance with management's expectations or that the effect of future developments on the Company will be those anticipated by management.

The words "believes," "expects," "intends," "plans," "anticipates," "hopes," "likely," "will," and similar expressions identify such forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause the actual results, performance or achievements of the Company, or industry results, to differ materially from future results, performance or achievements expressed or implied by such forward-looking statements.

These risks and uncertainties, many of which are beyond our control, include (i) the sufficiency of existing capital resources and the Company's ability to raise additional capital to fund cash requirements for future operations; (ii) uncertainties involved in the acquisition of an operating business; (iii) the ability of the Company to achieve sufficient revenues through an operating business to fund and maintain operations; (iv) volatility of the stock market; and (v) general economic conditions. Although the Company believes the expectations reflected in these forward-looking statements are reasonable, such expectations may prove to be incorrect.

Readers are cautioned not to place undue reliance on these forward-looking statements which reflect management's view only as of the date of this report. The Company undertakes no obligation to publicly release the result of any revisions to these forward-looking statements which may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events, conditions or circumstances. For additional information about risks and uncertainties that could adversely affect the Company's forward-looking statements, please refer to the Company's filings with the Securities and Exchange Commission, including its Annual Report on Form 10-KSB for the fiscal year ended December 31, 2004.

Business

The Company's plan of operation for the coming year is to identify and acquire a favorable business opportunity. The Company does not plan to limit its options to any particular industry, but will evaluate each opportunity on its merits.

The Company has not yet entered into any agreement, nor does it have any commitment or understanding to enter into or become engaged in any transaction, as of the date of this filing. Any decision to participate in a specific business opportunity will be made based upon a Company analysis of the merits of the prospective business based on objective criteria.

<u>Results of Operations</u>

During the period ended June 30, 2005, the Company remained in the process of identifying a prospective business opportunity, which opportunity if acquired, may or may not produce revenue. Therefore, due to this uncertainty, the Company does not expect any revenues until such time as a revenue producing acquisition is accomplished.

During the six month period ended June 30, 2005, the Company completed several private placements of its common stock to fund operations.

For the current fiscal year, the Company anticipates incurring a loss as a result of administration expenses, accounting costs, consulting fees and expenses associated with maintaining its disclosure obligations under the Exchange Act of 1934, as amended ("Exchange Act"). Since the Company does not anticipate generating any revenues in the near term it will continue to operate at a loss.

Net Losses

For the period from March 23, 1989 to June 30, 2005, the Company has recorded a cumulative net loss of $1,421,718. The Company's operating losses are attributable to general and administrative expenses. The general and administrative expenses include incorporation costs, accounting expenses, professional fees consulting fees and costs associated with the preparation of disclosure documentation in connection with registration pursuant to the Exchange Act.

C**apital Expenditures**

The Company expended no amounts on capital expenditures for the period from March 23, 1989 (inception) to June 30, 2005.

Liquidity and Capital Resources

The Company is in the development stage and, since inception, has experienced significant changes in liquidity, capital resources and shareholders' equity. The Company had current assets of $5,536 and total assets of $5,536 as of June 30, 2005. These assets consist of cash on hand of $4,036 and $1,500 in prepaid expenses. Net stockholders deficiency in the Company was $169,114 at June 30, 2005.

Cash flow provided from financing activities was $76,250 for the six month period ended June 30, 2005 as compared to cash flow provided from financing activities of $11,500 for the six month period ended June 30, 2004. Cash flow provided from financing activities in the current six month period was realized from the sale of the Company's common stock.

Cash flow used in operating activities was $74,303 for the six month period ended June 30, 2005 as compared to cash flow used in operating activities of $11,480 for the six month period ended June 30, 2004. Cash flow used in operating activities in the current six month period was spent on general and administrative costs.

The Company adopted The 2004 Benefit Plan of ASP Ventures Corp. on April 6, 2004. Under the benefit plan, the Company may issue stock, or grant options to acquire the Company's common stock to employees of the Company or its subsidiaries. The board of directors, at its own discretion may also issue stock or grant options to other individuals, including consultants or advisors, who render services to the Company or its subsidiaries, provided that the services rendered are not in connection with the offer or sale of securities in a capital-raising transaction. Further, no stock may be issued, or option granted under the benefit plan to consultants, advisors, or other persons who directly or indirectly promote or maintain a market for the Company’s stock. The 2004 Benefit Plan of ASP Ventures Corp. has been registered with the Securities and Exchange Commission pursuant to Form S-8. The Company has neither issued shares nor granted options pursuant to this benefit plan as of the period ended June 30, 2005.

The Company had a working capital deficit of $169,114 as of June 30, 2005 and has funded its cash needs from inception through a series of debt and equity transactions, including several private placements. The bulk of these transactions have taken place outside of the United States. The Company will require new debt or equity transactions to satisfy cash needs over the next twelve months.

As of June 30, 2005, the Company had no significant assets. Management does not believe that the Company has sufficient resources to meet the anticipated needs of the Company’s operations through the calendar year ending December 31, 2005 unless new funding is made available for general working capital. The Company may raise new capital through debt instruments, private placements or the public registration of its securities. However, the Company can offer no assurance that any capital raising efforts will be successful. Should the Company be unsuccessful in any capital raising efforts, management believes that it may need to curtail or cease business operations.

The Company has no current plans for the purchase or sale of any plant or equipment.

The Company has no current plans to engage any employees.

Critical Accounting Policies

In the notes to the audited financial statements for the year ended December 31, 2004 included in the Company’ Form 10-KSB, the Company discusses those accounting policies that are considered to be significant in determining the results of operations and its financial position. The Company believes that the accounting principles utilized by it conform to accounting principles generally accepted in the United States of America.

The preparation of financial statements requires management to make significant estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. By their nature, these judgments are subject to an inherent degree of uncertainty. On an on-going basis, the Company evaluates its estimates, including those related to bad debts, inventories, intangible assets, warranty obligations, product liability, revenue, and income taxes. The Company bases its estimates on historical experience and other facts and circumstances that are believed to be reasonable, and the results form the basis for making judgments about the carrying value of assets and liabilities. The actual results may differ from these estimates under different assumptions or conditions.

<u>Going Concern</u>

The Company's auditors have expressed substantial doubt as to the Company's ability to continue as a going concern as a result of an accumulated deficit of $1,347,440 as of December 31, 2004 which has grown to $1,421,718 as of June 30, 2005. The Company's ability to continue as a going concern is subject to the ability of the Company to realize a profit and /or obtain funding from outside sources. Management's plan to address the Company's ability to continue as a going concern includes: (1) obtaining funding from private placement sources; (2) obtaining additional funding from the sale of the Company's securities; (3) establishing revenues from prospective business opportunities; (4) obtaining loans and grants from various financial institutions where possible. Although management believes that it will be able to obtain the necessary funding to allow the Company to remain a going concern through the methods discussed above, there can be no assurances that such methods will prove successful.

ITEM 3. CONTROLS AND PROCEDURES

The Company's president acts both as the Company's chief executive officer and chief financial officer and is responsible for establishing and maintaining disclosure controls and procedures for the Company.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 ("Exchange Act"), as of June 30, 2005. Based on this evaluation, our principal executive officer and our principal financial officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective and adequately designed to ensure that the information required to be disclosed by us in the reports we submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the applicable rules and forms and that such information was accumulated and communicated to our chief executive officer and chief financial officer, in a manner that allowed for timely decisions regarding required disclosure.

(b) Changes in Internal Controls

During the period ended June 30, 2005, there has been no change in internal control over financial reporting that has materially affected, or is reasonably likely to materially affect our internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

Legal proceedings were initiated by Gem Global Yield Fund Limited and Turbo International Ltd. ("Plaintiffs") against the Company on February 4, 2004 in the United States District Court, Southern District of New York. The claim was for $525,000 plus interest in connection with the Company's alleged breech of a settlement agreement purportedly made between the parties as the result of funds loaned to Elite Jet, Inc., a non-party to the action. Although the Company denied any liability in this action it was unable to respond in a timely fashion to the legal proceedings which resulted in a default judgment in favor of the Plaintiffs on May 19, 2004 in the amount of $588,725. The Company continues to deny any liability in this matter and believes that in the event Plaintiffs attempt to enforce this judgment through court proceedings that the Company will ultimately succeed on the merits of its position.

ITEM 2. CHANGES IN SECURITIES

On May 19, 2005 the Company authorized the issuance of 5,000,000 shares of common stock to Abdulmajeed al Fakin in exchange for cash consideration of $0.01 a share or $50,000 pursuant to the terms of a stock subscription agreement. The Company relied on exemptions provided by Section 4(2) and Regulation S of the Securities Act of 1933, as amended (“Securities Act”). No sales commissions were paid in connection with this transaction.

The Company made this offering based on the following factors: (1) the issuance was an isolated private transaction by the Company which did not involve a public offering; (2) there was only one offeree who was issued the Company’s stock for cash consideration; (3) the offeree stated an intention not to resell the stock; (4) there were no subsequent or contemporaneous public offerings of the stock; (5) the stock was not broken down into smaller denominations; and (6) the negotiations that lead to the issuance of the stock took place directly between the offeree and the Company.

Regulation S provides generally that any offer or sale that occurs outside of the United States is exempt from the registration requirements of the Securities Act, provided that certain conditions are met. Regulation S has two safe harbors. One safe harbor applies to offers and sales by issuers, securities professionals involved in the distribution process pursuant to contract, their respective affiliates, and persons acting on behalf of any of the foregoing (the “issuer safe harbor”), and the other applies to resales by persons other than the issuer, securities professionals involved in the distribution process pursuant to contract, their respective affiliates (except certain officers and directors), and persons acting on behalf of any of the forgoing (the “resale safe harbor”). An offer, sale or resale of securities that satisfied all conditions of the applicable safe harbor is deemed to be outside the United States as required by Regulation S. The distribution compliance period for shares sold in reliance on Regulation S is one year.

The Company complied with the requirements of Regulation S by having no directed selling efforts made in the United States, by selling only to a purchaser who was outside the United States at the time the subscription originated, and ensuring that the subscriber is a non-U.S. person with an address in a foreign country.

On June 2, 2005 the Company authorized the issuance of 500,000 shares of common stock to Amin Mohamed Abullah in exchange for cash consideration of $0.01 a share or $5,000 pursuant to the terms of a stock subscription agreement. The Company relied on exemptions provided by Section 4(2) and Regulation S of the Securities Act of 1933, as amended (“Securities Act”). No sales commissions were paid in connection with this transaction.

The Company made this offering based on the following factors: (1) the issuance was an isolated private transaction by the Company which did not involve a public offering; (2) there was only one offeree who was issued the Company’s stock for cash consideration; (3) the offeree stated an intention not to resell the stock; (4) there were no subsequent or contemporaneous public offerings of the stock; (5) the stock was not broken down into smaller denominations; and (6) the negotiations that lead to the issuance of the stock took place directly between the offeree and the Company.

The Company complied with the requirements of Regulation S by having no directed selling efforts made in the United States, by selling only to a purchaser who was outside the United States at the time the subscription originated, and ensuring that the subscriber is a non-U.S. person with an address in a foreign country.

I, Ross Wilmot, chief executive officer and chief financial officer of ASP Ventures Corp., ("Registrant") certify that:

1. I have reviewed this Quarterly Report on Form 10-QSB ("Report") of Registrant;

2. Based on my knowledge, this Report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this Report;

3. Based on my knowledge, the financial statements, and other financial information included in this Report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the period presented in this Report;

4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the Registrant and have:

a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to me by others within those entities, particularly during the period in which this Report is being prepared;

b) Evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this Report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this Report based on such evaluation; and

c) Disclosed in this Report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the registrants fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and

5. I have disclosed, based on my most recent evaluation, to the Registrant's auditors and the audit committee of Registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal controls over financial reporting.
