Notes To The Financial Statements

September 30, 2009

(U.S. Dollars)

(Unaudited)

Note 1. General Organization And Business

FormCap Corp. (the "Company" or "FormCap") was incorporated in the State of Florida on April 10, 1991, under the name of Aarden-Bryn Enterprises, Inc. The Company become a foreign registrant in the State of Nevada on December 24, 1998, and became qualified to transact business in the State of Nevada.

Since its incorporation, the Company has changed its name several times. On August 27, 1998 the Company changed its name to Corbett's Cool Clear WTAA, Inc., on September 24, 1999 to WTAA International, Inc., on December 6, 2001 to Gravitas International, Inc., and finally to its current name, FormCap Corp. on October 12, 2007.

On September 18, 2007, the Company merged the Florida jurisdiction and the Nevada jurisdiction into one Nevada jurisdiction.

These financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At September 30, 2009, the Company had not yet achieved profitable operations, has accumulated losses of \$7,551,213 since inception and expects to incur further losses in the development of its business, of which cast substantial doubt about the Company's ability to continue as a going concern.

The Company's ability to continue as a going concern is dependent upon future profitable operations and/or the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management has obtained additional funds by related party advances, however there is no assurance that this additional funding is adequate and further funding may be necessary.

Note 2. Significant Accounting Policies

These financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America and are stated in US dollars. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates which have been made using careful judgment. Actual results may differ from these estimates.

The financial statements have, in management's opinion, been properly prepared within the framework of the significant accounting policies summarized below :

(a) Development Stage Company

The Company is a development stage company. The Company is devoting substantially all of its present efforts to establish a new business and none of its planned principal operations have commenced. All losses accumulated since inception has been considered as part of the Company's development stage activities.

(b) Financial Instruments

The carrying values of cash, accounts receivable, accounts payable, promissory notes payable and due to related parties approximate fair value because of the short-term nature of these instruments. Management is of the opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

(c) Stock Issued in Exchange for Services

The valuation of common stock issued in exchange for services is valued at an estimated fair market value as determined by officers and directors of the Company based upon other sales and issuances of the Company's common stock within the same general time period.

(d) Stock-based Compensation

FASB ASC (Accounting Standards Codification) 718 "Stock Compensation" requires public companies to recognize the cost of employee services received in exchange for equity instruments, based on the grant-date fair value of those instruments, with limited exceptions. FASB ASC 718 "Stock Compensation" also affects the pattern in which compensation cost is recognized, the accounting for employee share purchase plans, and the accounting for income tax effects of share-based payment transactions. For small business filers, FASB ASC 718 "Stock Compensation" is effective for interim or annual periods beginning after December 15, 2005. The Company adopted the guidance in FASB ASC 718 "Stock Compensation" on October 1, 2007.

(e) Foreign Currency Translation

The Company translates foreign currency transactions and balances to its reporting currency, United States Dollars, in accordance with FASB ASC 830 "Foreign Currency Matters". Monetary assets and liabilities are translated into the functional currency at the exchange rate in effect at the end of the year. Non-monetary assets and liabilities are translated at the exchange rate prevailing when the assets were acquired or the liabilities assumed. Revenue and expenses are translated at the rate approximating the rate of exchange on the transaction date. All exchange gains and losses are included in the determination of net income (loss) for the year.

(f) Basic and Diluted Loss Per Share

The Company presents of both basic and diluted earnings per share ("EPS") on the face of the income statement. Basic loss per share is computed by dividing the net loss available to common shareholders by the weighted average number of common shares outstanding during the year. Diluted EPS gives effect to all dilative potential common shares outstanding during the year including stock options, using the treasury stock method, and convertible preferred stock, using the if-converted method. In computing diluted EPS, the average stock price for the year is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilative potential common shares if their effect is anti dilative.

(g) Income Taxes

The Company follows FASB ASC 740 "Income Taxes", which requires the use of the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred tax assets and liabilities are recognized for future tax consequences attributable to temporary differences between the financial statements carry amounts of existing assets and liabilities and loss carry forwards and their respective tax rates expected to apply to taxable income in the year in which those temporary differences are expected to be recovered or settled.

(h) Recently Issued Accounting Pronouncements

In May 2008, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 162, The Hierarchy of Generally Accepted Accounting Principles. SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles that are presented in conformity with generally accepted accounting principles in the United States. SFAS No. 162 is effective 60 days following the Securities and Exchange Commission's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles. The Company does not believe SFAS No. 162 will have a material impact on its financial statements.

In March 2008, the FASB issued SFAS No. 161, Disclosure about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133. SFAS No. 161 changes the disclosure requirements for derivative instruments and hedging activities. Entities are required to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under Statement No. 133 and its related interpretations and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Company does not believe SFAS No. 161 will have a material impact on its financial statements.

In December 2007, the FASB issued SFAS No. 141(R), Business Combinations. SFAS No. 141(R) retains the fundamental requirements in SFAS No. 141, Business Combinations, that the acquisition method of accounting be used for all business combinations and for an acquirer to be identified for each business combination. SFAS No. 141(R) requires an acquirer to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date, with limited exceptions specified in SFAS No. 141(R). In addition, SFAS No. 141(R) requires acquisition costs and restructuring costs that the acquirer expected but was not obligated to incur to be recognized separately from the business combination, therefore, expensed instead of part of the purchase price allocation. SFAS No. 141(R) will be applied prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Early adoption is prohibited. The Company expects to adopt SFAS No. 141(R) to any business combinations with an acquisition date on or after January 1, 2009. The Company does not believe SFAS No. 141(R) will have a material impact on its financial statements.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities. SFAS No. 159 permits an entity to irrevocably elect fair value on a contract-by-contract basis as the initial and subsequent measurement attribute for many financial assets and liabilities and certain other items including insurance contracts. Entities electing the fair value option would be required to recognize changes in fair value in earnings and to expense upfront cost and fees associated with the item for which the fair value option is elected. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of SFAS No. 157, Fair Value Measurements. The Company does not expect the adoption of SFAS No. 159 to have a material impact on its financial condition or results of operations.

Note 3. Common Stock

Shares Subscriptions and retirement.

On March 3, 2009, the Company entered into an agreement to issued 400,000 restricted shares in accordance with Regulation 144 of the United States Securities Act at \$0.10 per share with Black Hawk Financial, Inc. for an aggregate amount of \$40,000 for consultation services provided to the Company.

On March 3, 2009, 120,000,000 shares issued on October 16, 2007 on promissory notes were retired to treasury.

On May 11, 2009, 200,000 restricted shares issued on March 3, 2009, with Black Hawk Financial, Inc. were retired to treasury.

On July 1, 2009, the Company entered into an agreement to issued 2,000,000 restricted shares in accordance with Regulation 144 of the United States Securities Act at \$0.10 per share with Duke Enterprises, LLC for an aggregate amount of \$200,000 for consultation services provided to the Company.

On July 15, 2009, the Company entered into an agreement to issued 100,000 restricted shares in accordance with Regulation 144 of the United States Securities Act at \$0.10 per share with Metropolis Acquisition Corporation for an aggregate amount of \$10,000 for consultation services provided to the Company.

On July 15, 2009, the Company entered into an agreement to issued 500,000 restricted shares in accordance with Regulation 144 of the United States Securities Act at \$0.10 per share with Jim D. Romano for an aggregate amount of \$50,000 for consultation services provided to the Company.

On July 21, 2009, the Company approved the issuance of 5,000,000 shares at \$0.01 per share to settle amounts of \$50,000 of debt due to a debtor of the Company.

On July 31, 2009, 5,000,000 shares issued on October 16, 2007 on promissory notes were retired to treasury.

Note 4. Related Party Accounts

On September 30, 2009, \$853,914 was due to several individuals and corporations related to the Company through ownership. These amounts bear no interest and are due on demand; the Company recorded no imputed interest on these borrowings.

Note 5. Royalty and License Fees Payable

The Company had \$135,000 in outstanding license fees payable as at December 31, 2008 and September 30, 2009 and is in default in these agreements on December 31, 2002. The company is no longer in this line of business and since no legal action was taken against the company, the company is considering of writing off the stated amount in November 2009.

Note 6. Prepaid Consulting Services

On July 1, 2009, the Company issued 2,000,000 restricted shares, at \$0.10 per share, to Duke Enterprises for consulting services to be performed over the following two years. Because the shares were issued in advance of receipt of services, the Company recognized an asset,

Prepaid Consulting Services, with a value of \$200,000. As of September 30, 2009, \$25,000 of this asset has already been expensed. \$100,000 of this asset will be consumed within the next year, and is classified as current, whereas the remaining \$75,000 is classified as non-current.

Note 7. Income Taxes

The Company provides for income taxes under FASB ASC 740 "Income Taxes". FASB ASC 740 "Income Taxes" requires the use of an asset and liability approach in accounting for income taxes. Deferred tax assets and liabilities are recorded based on the differences between the financial statement and tax bases of assets and liabilities and the tax rates in effect currently.

The company has fully impaired any deferred tax asset due to the improbability of future taxable earnings.

Note 8. Subsequent Events

- (a) On October 15, 2009, the Registrant (the "Borrower") and Rich Investments Ltd. (the "Lender") signed a Loan Agreement (the "Loan Agreement").

The Lender has agreed to advance to the Borrower by way of loan, and the Borrower has agreed to borrow from the Lender, the sum of USD\$400,000 (the "Principal Sum") on the terms and conditions set forth in the Loan Agreement.

The Principal Sum will bear interest at the rate of 12% per annum calculated semi annually, not in advance from the date of advance of the Principal Sum provided however that, notwithstanding the foregoing rate of interest and the date of repayment of the Principal Sum, a minimum of USD\$12,000 (the "Minimum Interest") will be payable by the Borrower to the Lender on account of interest on the Principal Sum.

The Lender shall be entitled to, at anytime during the term of this Loan Agreement before repayment of the Principal Sum and by notice in writing to the Borrower without special form, convert the outstanding Principal Sum of 400,000 units of the Borrower, each such unit consisting of one (1) fully paid common share in the

capital of the Borrower and one (1) purchase warrant for a further free-trading common share exerciseable at USD\$0.35 for a period of two (2) years from the issuance of the warrant.

The Principal Sum, together with all accrued but unpaid interest, is repayable by the Borrower to the Lender on or before April 15, 2010 (the "Due Date").

(b) On August 28, 2009, the Registrant and Calderan Ventures Ltd. (collective the "Borrower") and Leare Developments Ltd. (the "Lender") signed a Loan Agreement (the "Loan Agreement").

The Lender has agreed to advance to the Borrower by way of loan, and the Borrower has agreed to borrow from the Lender, the sum of USD\$60,000 (the "Principal Sum") on the terms and conditions set forth in the Loan Agreement.

The Principal Sum will bear interest at 12% per annum compounded annually, not in advance, such interest to accrue and to be paid on the due date.

PART I

This Interim Report on Form 10-Q contains forward-looking statements that have been made pursuant to the provisions of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and the Private Securities Litigation Reform Act of 1995 and concern matters that involve risks and uncertainties that could cause actual results to differ materially from historical results or from those projected in the forward-looking statements. Discussions containing forward-looking statements may be found in the material set forth under “Business,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and in other sections of this Form 10-Q. Words such as “may,” “will,” “should,” “could,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “potential,” “continue” or similar words are intended to identify forward-looking statements, although not all forward-looking statements contain these words. Although we believe that our opinions and expectations reflected in the forward-looking statements are reasonable as of the date of this Report, we cannot guarantee future results, levels of activity, performance or achievements, and our actual results may differ substantially from the views and expectations set forth in this Interim Report on Form 10-Q. We expressly disclaim any intent or obligation to update any forward-looking statements after the date hereof to conform such statements to actual results or to changes in our opinions or expectations.

Readers should carefully review and consider the various disclosures made by us in this Report, set forth in detail in Part I, under the heading “Risk Factors,” as well as those additional risks described in other documents we file from time to time with the Securities and Exchange Commission, which attempt to advise interested parties of the risks, uncertainties, and other factors that affect our business. We undertake no obligation to publicly release the results of any revisions to any forward-looking statements to reflect anticipated or unanticipated events or circumstances occurring after the date of such statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

General

The Company has been in the process of identifying and discussing strategic merger or acquisitions. The Company will need to raise substantial additional capital to fund this strategy. The Company is seeking such additional funds through private equity or debt financing. There can be no assurance that such funding will be available on acceptance terms. The Company's continued existence as a going concern is ultimately dependent upon its ability to secure additional funding.

Operation

The Company has not been active since November 2003. The losses for the nine months ended September 30, 2009 was \$322,839 for consulting, accounting, filing, writing off of acquisition deposit, general and administrative expenses. There was no revenue for those periods stated above.

Plan of Operation and joint venture agreements

We currently have minimal cash reserves and a significant working capital deficit. Accordingly, our ability to pursue our plan of operations is contingent on our being able to obtain funding for the development of our projects.

On March 11, 2009, the Company had signed a Joint Venture Development and Operating Agreement with MLXjet, Inc and Mixed Media Corp, both of Vancouver B.C.

The ownership and revenue interests of the Parties under this Joint Venture shall be a 60% (sixty percent) interest to FormCap and a 40% (forty percent) interest to MLXjet Inc. FormCap shall be the operator and/or manager of the JV Assets and the Joint Venture.

The Assets of MLXjet Assets and FormCap are to be owned and operated jointly as the Joint Venture. The Joint Venture will develop the Business of MLXjet in Canada, United States and Mexico, in accordance with the MLX/FABUSEND business plan, and share the Revenues of the Joint Venture.

On July 17, 2009, FormCap announces cancellation of Joint Venture agreement with MLXjet, Inc. and MLXjet Media Corp.

On July 8, 2009, the Company had signed an option agreement with Morgan Creek Energy Corp. to acquire up to a 50% Working Interest (40.75% Net Revenue Interest) in Morgan Creeks' approximately 13,000 acre entire Frio Draw Prospect located in Curry County, New Mexico. Under the terms of the agreement, FormCap is required to drill and complete two mutually defined targets on the acreage to earn its interest.

Following the initial two wells, Morgan Creeks' management and land team will work with FormCap to establish additional targets on the Frio draw based on technical data and drill results. The two companies will jointly fund additional targets and have committed to a minimum five holes drill program in order to effectively test the Frio Draw.

On September 21, 2009, Morgan Creek Energy Corp. issued a letter terminating the option agreement signed on July 8, 2009 as FormCap is unable to meet the payment requirements within the Option Period provided.

Liquidity and Financial Resources

The Company remains in the development stage. Operations were financed through advances and loans from directors and related parties. The directors and related parties have also advanced funds into the Company to cover cash flow deficiencies. These advances have no stated repayment terms.

The Company's financial statements are presented on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. At September 30, 2009, we have been unsuccessful in our efforts to raise additional capital to meet our plan of operations. Our cash position as of September 30, 2009 was (\$685). We have accumulated operating losses of \$7,551,213.

Critical Accounting Policies

The Company's discussion and analysis of its financial condition and results of operations are based upon the Company's financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of the financial statements requires the Company to make estimates and judgments that affect the reported amount of assets, liabilities, and expenses, and related disclosures of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to intangible assets, income taxes and contingencies and litigation. The Company bases its estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Company at present does not engage in any business activities thus will not be subjected to any quantitative or qualitative influences to market risk.

Item 4T. Controls and Procedures.

The Company's Chief Executive Officer and its Chief Financial Officer are primarily responsible for the accuracy of the financial information that is presented in this quarterly Report. These officers have as of the close of the period covered by this Quarterly Report, evaluated the Company's disclosure controls and procedures (as defined in Rules 13a-4c and 15d-14c promulgated under the Securities Exchange Act of 1934 and determined that such controls and procedures were effective in ensuring that material information relating to the Company was made known to them during the period covered by this Quarterly Report.

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fourth quarter of our 2008 fiscal year that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
