PART I – FINANCIAL INFORMATION

Item 1. Financial Statements.

See the attached statements at the end of this Form 10-QSB.

Item 2. Management Discussion and Analysis.

Material changes in the financial condition of the issuer and in the results of its operations since the end of its last fiscal year and its results from the comparable period in its last fiscal year include the following.

Balances as of June 30, 2004, Compared to December 31, 2003

The issuer's cash at June 30, 2004 ("Q2") was \$116,118, which is \$25,447 more than it was at December 31, 2003 ("FYE"), when it was \$90,671. This mostly reflects the receipt of the fee for a new franchise in Iowa (\$35,000), which is slightly offset by the continued reduction of accounts payable. Due to the increase in cash and some smaller changes in accounts receivable, the current assets at Q2 increased \$29,258 to \$147,388 from \$118,130 at FYE. Net property and equipment increased slightly from FYE partly because of software purchases; long term receivable has decreased \$5,721 because of payments received since FYE in connection with the sale of a restaurant in 1995. Thus, total assets at Q2 increased by \$25,392 to \$236,529 from \$211,137 at FYE.

Current liabilities increased slightly by \$2,816 to \$88,557 at Q2 from \$85,741 at FYE. This reflects the booking of the \$35,000 franchise fee received from the Company's new Iowa franchisee as unearned deferred income (which will not be recognized as income until the franchisee opens its restaurant); the increase in deferred income was offset by a reduction in the Company's loan payable and accounts payable of \$32,184. The reduction

in accounts payable reflects the continued progress the Company has made in paying off its line of credit, loan payable and accounts payable from the profits it has made during the period. Deferred revenue decreased slightly from \$92,841 at FYE to \$85,555 at Q2, reflecting the continued amortization of income deferred from the advance payment of royalties from certain franchisees and the gain deferred from the 1995 sale of a restaurant.

The Three Months Ended June 30, 2004, Compared to June 30, 2003

Material changes in the results of operations for the three months ended Q2 compared to the second quarter of 2003 ("Q03") include the following: Revenue increased slightly from \$66,401 in Q03 to \$69,000 in Q2. Actual franchise fees received by the Company remained roughly the same, too, from Q03 to Q2. Fee revenue decreased at Ventura, California, because it was closed down; it also decreased at Marshfield, Wisconsin, because of slightly decreased sales combined with a reduction in the royalty percentage charged to the franchisee. These decreases were offset by increased franchise fees from Jackson, Michigan, because of increased sales, and the combined effects of the other locations. Operating expenses decreased by \$9,615 during Q2 to \$50,995 from \$60,610 during Q03, mostly as a result of lower travel expense (in Q03 the Company held a franchisee meeting in Las Vegas, which was not repeated in 2004), lower accounting and legal expenses and a reduction in miscellaneous expenses of \$7,599, which resulted from the write off of a debt that is no longer owed. As a result, income from operations increased \$12,214 during Q2, when compared to Q03. Other income decreased \$10,604 compared to Q03, mostly because the Company does not receive settlement payments any longer. Consequently, net income increased slightly by \$1,610 when compared to Q03.

Income per common share (both basic and diluted) was less than \$.01 per share for Q2 and Q03.

The Six Months Ended June 30, 2004, Compared to June 30, 2003

Material changes in the results of operations for the six months ended June 30, 2004 ("YTD04"), compared to the same period in 2003 ("YTD03") include the following: There was a decrease of \$2,732 in YTD04 revenue mostly attributable to a decrease in miscellaneous income. YTD04 operating expenses increased slightly by \$4,732 in YTD04 to \$115,758, mostly as a result of an increase in salaries that began in June 2003. As a result, income from operations decreased by \$7,464 to \$21,557 in YTD04. Other income decreased by \$14,273 because settlement income decreased by \$15,000 when compared to YTD03. Thus, because of these decreases, net income in YTD04 decreased by \$21,737 to \$29,862 in YTD04.

Income per common share (both basic and diluted) was less than \$.01 per share for YTD04 and was \$.01 per share for YTD03.

Liquidity and Capital Resources

Changes in the issuer's liquidity and capital will depend mostly on continuing royalty

fees received from franchisees using the issuer's trademark and restaurant concept. This in turn will be reflective of the general economies in the areas where Hudson's Grill restaurants are located. The issuer does not currently plan to raise any capital or borrow funds to meet liquidity needs, and thus, will rely solely on cash flows from operations.

The issuer is currently allocating a major part of its cash flow to pay off accounts payable; it plans to continue to do so until all of its past due debts are paid off. This may take the next several years to accomplish. The Company's cash balance of \$116,118 at June 30, 2004, was \$25,447 more than at the year ended December 31, 2003.

The issuer does not sustain much seasonal volatility in revenues since its franchisees are dispersed geographically and climactically. Additionally, it does not have any material commitments for capital expenditures and doesn't plan any in the foreseeable future.

Item 3. Disclosures; Controls and Procedures.

With the participation of management, the Company's President evaluated the Company's disclosure controls and procedures as of the end of the quarterly period covered by this report. Based on this evaluation, the President concluded that the disclosure controls and procedures are effective in connection with the Company's filing of its quarterly report on Form 10-QSB for this quarterly period.

Subsequent to the date of the president's evaluation, through the date of this filing of Form 10-QSB for this quarterly period, there have been no significant changes in the Company's internal controls or in other factors that could significantly affect these controls, including any significant deficiencies or material weaknesses of internal controls that would require corrective action.

PART II - OTHER INFORMATION

NOTES TO FINANCIAL STATEMENTS

1. UNAUDITED INFORMATION

The balance sheet of Hudson's Grill International, Inc. (the "Company") as of June 30, 2004 and the statements of operations for the three- and six-month periods ended June 30, 2004 and 2003 were taken from the Company's books and records without audit. However, in the opinion of management, such information includes all adjustments (consisting only of normal recurring accruals) which are necessary to properly reflect the financial position of the Company as of June 30, 2004 and the results of operations for the three and six months ended June 30, 2004 and 2003.

Certain information and notes normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted, although management believes that the disclosures are adequate to make the information presented not misleading. Interim period results are not necessarily indicative of the results to be achieved for an entire year. These financial statements should be read in conjunction with the financial statements and notes to financial statements included in the Company's financial statements as filed on Form 10-KSB for the year ended December 31, 2003.

2. STOCK OPTIONS

The Company president's compensation includes the granting of stock options. Currently, the president is granted 18,000 stock options per month. The Company also grants 10,000 stock options per month to each of the two directors of the Company, as compensation for services as directors. All options are fully vested when granted and expire in seven years.

The Company accounts for stock options granted to its directors and employees using the intrinsic value method prescribed by APB No. 25 which requires compensation expense be recognized for stock options when the quoted market price of the Company's common stock on the date of grant exceeds the option's exercise price. No compensation cost has been reflected in net income for the granting of director and employee stock options as all options granted had an exercise price greater than the quoted market price of the Company's common stock on the date the options were granted.

Had compensation cost for the Company's stock options been determined consistent with the SFAS 123 fair value approach, the Company's net income and net income per common share for the three and six month periods ended June 30, 2004 and 2003, on a pro forma basis, would have been as follows:

HUDSON'S GRILL INTERNATIONAL, INC.

The fair values of stock options granted during fiscal years 2004 and 2003 were estimated on the dates of grant using the Black-Scholes option pricing model with the following weighted average assumptions:

Volatility	200%	50%
Interest rate	4.62%	3.75%
Dividend yield	- %	- %
Expected life	7 years	7 years

3. CONTINGENCY

The Company's former parent, Hudson's Grill of America, Inc. ("HGAI") was involved in litigation arising from a lease associated with a franchised restaurant location that has ceased operations. In addition, HGAI is secondarily liable under other leases for restaurants it sold in prior years. None of these restaurants, lease agreements or obligations were transferred to or assumed by the Company. The Company, based upon consultation with its legal counsel, is of the opinion that the former parent's actual and contingent obligations with respect to these leases can no longer be attributable to the Company because of the statute of limitations, but if counsel is wrong in its assessment and if a creditor obtained a judgment against the former parent, stock in the Company formerly held by HGAI could be subject to attachment or execution by the creditor under certain limited circumstances. Accordingly, the Company believes these matters will not have a material adverse effect on the Company's financial condition or results of operations, and no provision for any estimated loss is reflected in the accompanying financial statements.

HUDSON'S GRILL INTERNATIONAL, INC.

NOTES TO FINANCIAL STATEMENTS

4. EARNINGS PER SHARE

Basic earnings per share are calculated on the weighted average number of common shares outstanding during each period. Diluted earnings per share is computed by dividing net income by the weighted average number of common shares and common stock equivalents outstanding for the period. Common stock equivalents are excluded from the computation if such inclusion would have an anti-dilutive effect.

The following table sets forth the computation of basic and diluted earnings per share:

	THREE MONTHS ENDED JUNE 30,	
	2004	2003
Numerator:		
Net income	<u>\$ 20,050</u>	<u>\$ 18,440</u>
Denominator:		
Weighted average common shares outstanding	7,256,986	7,256,986
Effect of dilutive stock options	<u>1,564,000</u>	<u>-</u>
Dilutive weighted average common shares	<u>8,820,986</u>	<u>7,256,986</u>
Basic earnings per share	<u>\$ *</u>	<u>\$ *</u>
Diluted earnings per share	<u>\$ *</u>	<u>\$ *</u>

*Less than \$.01 per share

At June 30, 2004 and 2003, the Company had 2,402,000 and 3,710,000 stock options that were not included in the dilutive earnings per share calculation because the effect would have been anti-dilutive. Such stock options were excluded because the exercise price of the stock options was greater than the average market price of the Company's common stock in the applicable period
