ITEM 1. FINANCIAL STATEMENTS

As used herein, the terms “Company,” “we,” “our”, and “us”, refer to Montana Mining Corp., a Nevada corporation, unless otherwise indicated. In the opinion of management, the accompanying unaudited financial statements included in this Form 10-QSB reflect all adjustments (consisting only of normal recurring accruals) necessary for a fair presentation of the results of operations for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year.

MONTANA MINING CORP.
(A Development Stage Company)
NOTES TO UNAUDITED FINANCIAL STATEMENTS
September 30, 2007

Note 1 - Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared by management in accordance with the instructions in Form 10-QSB and, therefore, do not include all information and footnotes required by generally accepted accounting principles and should, therefore, be read in conjunction with the Company's Form 10-KSB for the year ended December 31, 2006, filed with the Securities and Exchange Commission. These statements do include all normal recurring adjustments which the Company believes necessary for a fair presentation of the statements. The interim operations are not necessarily indicative of the results to be expected for the full year ended December 31, 2007.

Note 2 – Additional Footnotes Included By Reference

Except as indicated in the following Notes, there have been no other material changes in the information disclosed in the notes to the financial statements included in the Company's Form 10-KSB for the year ended December 31, 2006, filed with the Securities and Exchange Commission. Therefore, those footnotes are included herein by reference.

Note 3 - Going Concern

As of September 30, 2007, the Company's revenue generating activities are not in place, and the Company has incurred losses since inception. Further, the Company has current liabilities in excess of current assets. These conditions raise substantial doubt about the ability of the Company to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Management's plan to address the Company's ability to continue as a going concern includes procuring funding from private placement sources, establishing revenues from the acquisition of a prospective business opportunity and securing loans from financial institutions where possible. Management believes that they will be able to accomplish one or more of these items, however, there can be no assurance that management will be successful.

Note 4 – Related Party Payables

At September 30, 2007, the Company had related party payables to an officer of the Company for consulting services of \$11,000 and advances on various Company expenses of \$2,150, which are unsecured, non-interest bearing and due on demand.

The Company also had three related party payables to a shareholder of the Company for \$10,000, \$14,980, and \$10,000 with associated accrued interest of \$3,205. These payables are unsecured, bear interest at 10% per annum, and are due on demand.

ITEM 2. MANAGEMENT'S PLAN OF OPERATION

This Management's Plan of Operation and Results of Operations and other parts of this report contain forward-looking statements that involve risks and uncertainties. Forward-looking statements can also be identified by words such as "anticipates," "expects," "believes," "plans," "predicts," and similar terms. Forward-looking statements are not guarantees of future performance and our actual results may differ significantly from the results discussed in the forward-looking statements. Factors that might cause such differences include, but are not limited to, those discussed in the subsections entitled "Forward-Looking Statements and Factors That May Affect Future Results and Financial Condition" below. The following discussion should be read in conjunction with our financial statements and notes thereto included in this report. All information presented herein is based on our period ended September 30, 2007. Our fiscal year end is December 31.

Plan of Operation

The Company's plan of operation for the coming year is to identify and acquire a favorable business opportunity. We do not plan to limit our options to any particular industry, but will evaluate each opportunity on its merits.

We have not yet entered into any agreement, nor do we have any commitment or understanding to enter into or become engaged in any transaction, as of the date of this filing.

Results of Operations

During the period ended September 30, 2007, the Company remained in the process of identifying a prospective business opportunity, which opportunity if acquired, may or may not produce revenue. Therefore, due to this uncertainty, the Company does not expect any revenues until such time as a revenue producing acquisition is accomplished and thus will likely continue to operate at a loss.

Net Loss

For the period from inception December 7, 1999 to September 30, 2007, the Company recorded an operating loss of \$165,387. Net losses for the three month period ended September 30, 2007 were \$5,792 as compared to \$4,895 for the three months ended September 30, 2006. Net losses for the nine month period ended September 30, 2007 were \$19,599 as compared to \$18,132 for the nine months ended September 30, 2006. The Company's operating losses in the current nine month period are attributable to general and administrative expenses including accounting costs and consulting fees. General and administrative expenses in prior periods have also included exploration expenses and costs directly related to a precious metals exploration program. The Company has not generated any revenues since inception.

The Company expects to continue to operate at a loss through fiscal 2007 and due to the nature of our search for a suitable business opportunity cannot determine whether we will ever generate revenues from operations.

Income Tax Expense (Benefit)

The Company has a prospective income tax benefit resulting from a net operating loss carryforward and start up costs that will offset any future operating profit.

Impact of Inflation

The Company believes that inflation has had a negligible effect on operations over the past three years.

Capital Expenditures

The Company expended no amounts on capital expenditures for the period from inception to September 30, 2007.

Capital Resources and Liquidity

The Company had current assets of \$1,071 and total assets of \$1,071 as of the nine month period ended September 30, 2007, consisting exclusively of cash on hand. Net stockholders' deficiency in the Company was \$56,005 at September 30, 2007. The Company is in the development stage and, since inception, has experienced significant changes in liquidity, capital resources and shareholders' equity.

Cash flow used in operating activities was \$154,639 for the period from inception to September 30, 2007. Cash flow used in operating activities for the nine month period ended September 30, 2007 was \$19,507 as compared to \$15,420 in cash flow used in operating activities for the nine months ended September 30, 2006. Cash flow used in operating activities in the current nine month period can be attributed to accounting costs and consulting expenses.

Cash flow provided from financing activities was \$155,710 for the period from inception to September 30, 2007. Cash flow provided by financing activities for the nine month period ended September 30, 2007 was \$15,171 as compared to \$15,950 for the nine months ended September 30, 2006. Cash flow provided by financing activities in the current nine month period can be attributed to shareholder loans.

Cash flows used in investing activities was \$0 for the period from inception to September 30, 2007.

The Company's current assets are insufficient to conduct its plan of operation over the next twelve (12) months. Further, should the Company acquire a business opportunity over the next twelve month period, cash requirements will exceed current assets and the Company will have to seek debt or equity financing to fund operations. The Company has no current commitments or arrangements with respect to, or immediate sources of funding. Further, no assurances can be given that funding, if needed, would be available or available to the Company on acceptable terms. The Company's major shareholders would be the most likely source of new funding in the form of loans or equity placements though none have made any commitment for future investment and the Company has no agreement formal or otherwise.

The Company had no formal long term lines of credit or other bank financing arrangements as of September 30, 2007.

Since earnings, if any, will be reinvested in operations, the Company does not expect to pay cash dividends in the foreseeable future.

The Company has no defined benefit plan or contractual commitment with any of its officers or directors.

The Company has no current plans for any significant purchase or sale of any plant or equipment.

Off Balance Sheet Arrangements

As of September 30, 2007, the Company has no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources that is material to stockholders.

Critical Accounting Policies

In the notes to the audited financial statements for the year ended December 31, 2006 included in the Company's Form 10-KSB, the Company discusses those accounting policies that are considered to be significant in determining the results of operations and its financial position. The Company believes that the accounting principles utilized by us conform to accounting principles generally accepted in the United States of America.

The preparation of financial statements requires Company management to make significant estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. By their nature, these judgments are subject to an inherent degree of uncertainty. The Company bases its estimates on historical experience and other facts and circumstances that are believed to be reasonable, and the results form the basis for making judgments about the carrying value of assets and liabilities. The actual results may differ from these estimates under different assumptions or conditions.

Forward Looking Statements and Factors That May Affect Future Results and Financial Condition

The statements contained in the section titled "*Plan of Operation*," with the exception of historical facts, are forward looking statements within the meaning of Section 27A of the Securities Act. A safe-harbor provision may not be applicable to the forward looking statements made in this Form 10-QSB because of certain exclusions under Section 27A (b). Forward looking statements reflect our current expectations and beliefs regarding our future results of operations, performance, and achievements. These statements are subject to risks and uncertainties and are based upon assumptions and beliefs that may or may not materialize. These statements include, but are not limited to, statements concerning:

- our anticipated financial performance and business plan;
- the sufficiency of existing capital resources;
- our ability to raise additional capital to fund cash requirements for future operations;
- uncertainties related to the Company's future business prospects;
- the ability of the Company to generate revenues to fund future operations;
- the volatility of the stock market and;
- general economic conditions.

We wish to caution readers that the Company's operating results are subject to various risks and uncertainties that could cause our actual results to differ materially from those discussed or anticipated including the factors set forth in the section entitled "*Risk Factors*" below. We also wish to advise readers not to place any undue reliance on the forward looking statements contained in this report, which reflect our beliefs and expectations only as of the date of this report. We assume no obligation to update or revise these forward looking statements to reflect new events or circumstances or any changes in our beliefs or expectations, other than is required by law.

Risks Factors

Our future operating results are highly uncertain. Before deciding to invest in us or to maintain or increase your investment, you should carefully consider the risks described below, in addition to the other information contained in our annual report. If any of these risks actually occur, our business, financial condition or results of operations could be seriously harmed. In that event, the market price for our common stock could decline and you may lose all or part of your investment.

We have a history of significant operating losses and such losses may continue in the future.

Since our inception in 1999, our expenses have substantially exceeded our income, resulting in continuing losses and an accumulated deficit of \$145,788 at December 31, 2006. During the nine months ended September 30, 2007, we recorded a net loss of \$19,599. The Company has never realized revenue from operations. We will continue to incur operating losses as we maintain our search for a suitable business opportunity and satisfy our ongoing disclosure requirements with the Securities and Exchange Commission ("Commission"). Our only expectation of future profitability is dependent upon our ability to acquire a revenue producing business opportunity, which acquisition can in no way be assured. Therefore, we may never be able to achieve profitability.

The Company's limited financial resources cast severe doubt on our ability to acquire a profitable business opportunity.

The Company's future operation is dependent upon the acquisition of a profitable business opportunity. However, the prospect of such an acquisition is doubtful due to the Company's limited financial resources. Since we have no current business opportunity, the Company is not in a position to improve this financial condition through debt or equity offerings. Therefore, this limitation may act as a deterrent in future negotiations with prospective acquisition candidates. Should we be unable to acquire a profitable business opportunity the Company will, in all likelihood, be forced to cease operations.

We are dependent upon a key person, who would be difficult to replace.

Our continued operation will be largely dependent upon the efforts of Ruairidh Campbell, our sole officer and director. We do not maintain key-person insurance on Mr. Campbell. Our future success also will depend in large part upon the Company's ability to identify, attract and retain other highly qualified managerial, technical and sales and marketing personnel. Competition for these individuals is intense. The loss of the services of Mr. Campbell, the inability to identify, attract or retain qualified personnel in the future or delays in hiring qualified personnel could make it more difficult for us to maintain our operations and meet key objectives such as the acquisition of a suitable business opportunity.

The market for our stock is limited and our stock price may be volatile.

The market for our common stock has been limited due to low trading volume and the small number of brokerage firms acting as market makers. Because of the limitations of our market and volatility of the market price of our stock, investors may face difficulties in selling shares at attractive prices when they want to. The average daily trading volume for our stock has varied significantly from week to week and from month to month, and the trading volume often varies widely from day to day.

We may incur significant expenses as a result of being quoted on the Over the Counter Bulletin Board, which may negatively impact our financial performance.

We may incur significant legal, accounting and other expenses as a result of being listed on the Over the Counter Bulletin Board. The Sarbanes-Oxley Act of 2002, as well as related rules implemented by the Commission has required changes in corporate governance practices of public companies. We expect that compliance with these laws, rules and regulations, including compliance with Section 404 of the Sarbanes-Oxley Act of 2002 as discussed in the following risk factor, may substantially increase our expenses, including our legal and accounting costs, and make some activities more time-consuming and costly. As a result, there may be a substantial increase in legal, accounting and certain other expenses in the future, which would negatively impact our financial performance and could have a material adverse effect on our results of operations and financial condition.

Our internal controls over financial reporting may not be considered effective, which could result in a loss of investor confidence in our financial reports and in turn have an adverse effect on our stock price.

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, beginning with our annual report for the year ending December 31, 2007, we may be required to furnish a report by our management on our internal controls over financial reporting. Such report will contain, among other matters, an assessment of the effectiveness of our internal controls over financial reporting as of the end of the year, including a statement as to whether or not our internal controls over financial reporting are effective. This assessment must include disclosure of any material weaknesses in our internal controls over financial reporting identified by management. If we are unable to assert that our internal controls are effective as of December 31, 2007, investors could lose confidence in the accuracy and completeness of our financial reports, which in turn could cause our stock price to decline.

Going Concern

The Company's auditors have noted substantial doubt as to the Company's ability to continue as a going concern as a result of an accumulated deficit of \$145,788 as of December 31, 2006 which increased to \$165,387 as of September 30, 2007. The Company's ability to continue as a going concern is subject to the ability of the Company to realize a profit and /or obtain funding from outside sources. Management's plan to address the Company's ability to continue as a going concern includes: (1) obtaining funding from private placement sources; (2) obtaining additional funding from the sale of the Company's securities; (3) establishing revenues from prospective business opportunities; (4) obtaining loans and grants from various financial institutions where possible. Although management believes that it will be able to obtain the necessary funding to allow the Company to remain a going concern through the methods discussed above, there can be no assurances that such methods will prove successful.

ITEM 3. CONTROLS AND PROCEDURES

The Company's president acts both as the Company's chief executive officer and chief financial officer and is responsible for establishing and maintaining disclosure controls and procedures for the Company.

(a) Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as of September 30, 2007. Based on this evaluation, our principal executive officer and our principal financial officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective and adequately designed to ensure that the information required to be disclosed by us in the reports we submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the applicable rules and forms and that such information was accumulated and communicated to our chief executive officer and chief financial officer, in a manner that allowed for timely decisions regarding disclosure.

(b) Changes in Internal Controls

During the period ended September 30, 2007, there has been no change in internal control over financial reporting that has materially affected, or is reasonably likely to materially affect our internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

EXHIBIT 31

CERTIFICATION OF CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Ruairidh Campbell certify that:

1. I have reviewed this report on Form 10-QSB ("Report") of Montana Mining Corp.;
2. Based on my knowledge, this Report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this Report;
3. Based on my knowledge, the financial statements, and other financial information included in this Report, fairly present in all material respects the financial condition, results of operations and cash flows of the small business issuer as of, and for, the period presented in this Report;
4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the small business issuer and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the small business issuer is made known to me by others within those entities, particularly during the period in which this Report is being prepared;
 - b) Evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this Report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this Report based on such evaluation; and
 - c) Disclosed in this Report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and
5. I have disclosed, based on my most recent evaluation, to the small business issuer's auditors and the audit committee of the small business issuer's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal controls over financial reporting.

Date: November 9, 2007

EXHIBIT 32

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER
PURSUANT TO 18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO SECTION 906 OF
THE SARBANES-OXLEY ACT OF 2002**

In connection with the report on Form 10-QSB of Montana Mining Corp. for the quarterly period ended September 30, 2007 as filed with the Securities and Exchange Commission on the date hereof ("Report"), I, Ruairidh Campbell, do hereby certify, pursuant to 18 U.S.C. §1350, as adopted pursuant to §906 of the Sarbanes-Oxley Act of 2002, that, to the best of my knowledge:

- (1) This Report complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in this Report fairly represents, in all material respects, the financial condition of the small business issuer at the end of the period covered by this Report and results of operations of the small business issuer for the period covered by this Report.

/s/ Ruairidh Campbell

Ruairidh Campbell

Chief Executive Officer and Chief Financial Officer

November 9, 2007

This certification accompanies this Report pursuant to §906 of the Sarbanes-Oxley Act of 2002 and shall not, except to the extent required by the Sarbanes-Oxley Act of 2002, be deemed filed by the small business issuer for the purposes of §18 of the Securities Exchange Act of 1934, as amended. This certification shall not be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended (whether made before or after the date of this Report), irrespective of any general incorporation language contained in such filing.

A signed original of this written statement required by §906 has been provided to the small business issuer and will be retained by the small business issuer and furnished to the Securities and Exchange Commission or its staff upon request.
