ITEM 1. FINANCIAL STATEMENTS

As used herein, the terms “Company,” “we,” “our,” “us,” “it,” and “its” refer to Montana Mining Corp., a Nevada corporation, unless otherwise indicated. In the opinion of management, the accompanying unaudited financial statements included in this Form 10-Q reflect all adjustments (consisting only of normal recurring accruals) necessary for a fair presentation of the results of operations for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year.

MONTANA MINING CORP.
(A Development Stage Company)
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2008

Note 1 – Basis of Presentation

The accompanying unaudited consolidated condensed financial statements have been prepared by management in accordance with the instructions in Form 10-Q and, therefore, do not include all information and footnotes required by generally accepted accounting principles and should, therefore, be read in conjunction with the Company's Form 10-K for the year ended December 31, 2007, filed with the Securities and Exchange Commission. These statements do include all normal recurring adjustments which the Company believes necessary for a fair presentation of the statements. The interim operations are not necessarily indicative of the results to be expected for the full year ended December 31, 2008.

Note 2 – Additional Footnotes Included By Reference

Except as indicated in the following Notes, there have been no other material changes in the information disclosed in the notes to the financial statements included in the Company's Form 10-K for the year ended December 31, 2007, filed with the Securities and Exchange Commission. Therefore, those footnotes are included herein by reference.

Note 3 – Going Concern

As of March 31, 2008, the Company's revenue generating activities are not in place, and the Company has incurred losses since inception. These factors raise substantial doubt about the Company's ability to continue as a going concern.

The Company is currently in the process of building on a suitable business opportunity pursuant to the execution of a franchise agreement. Should the Company be unable to establish a business concentrated on the franchise agreement it will resume the process of identifying a suitable business opportunity either by acquisition or merger. Management believes that both the terms of the franchise agreement and alternatively the identification of a suitable business opportunity will require additional funds through debt and/or equity financing. However, there can be no assurance that management will be successful in establishing a business concentrated on the franchise agreement or that it will be successful in identifying a suitable business opportunity or that funds to suit either of these endeavors will be available to the Company.

MONTANA MINING CORP.

	\$ <u>88,924</u>	<u>55,155</u>

Note 5 – Franchise Agreement

In February 2008, the Company formed Fitness USA, Inc. (“Fitness USA”) as a wholly owned subsidiary for the purpose of entering into a new line of business. On March 7, 2008 the Company, through Fitness USA, entered into an LA Boxing Franchise Agreement (the “Agreement”) with LA Boxing Franchise Corporation (“LA Boxing”) to acquire an exclusive franchise to open an LA Boxing gym in the Beverly Hills/Brentwood area of Los Angeles, California.

LA Boxing has developed a membership fitness system for its franchisees that consists of unique boxing and kickboxing training regimens. The proprietary system features membership software and accounting programs, boxing equipment, operations manuals, sales manuals, training and instruction programs that are provided to franchisees as part of a turn-key approach focused on the success of each business.

The Agreement grants Fitness USA the exclusive right to operate one LA Boxing gym in exchange for an initial franchise fee of \$25,000, a monthly royalty fee of 6% on gross revenues and a monthly advertising contribution equal to 2% of monthly gross revenues. Fitness USA is also required to spend a minimum of \$5,000 per month on local advertising when the franchised location has opened for business. Operations related to Fitness USA have not yet commenced.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This *Management's Discussion and Analysis of Financial Condition and Results of Operations* and other parts of this quarterly report contain forward-looking statements that involve risks and uncertainties. Forward-looking statements can also be identified by words such as "anticipates," "expects," "believes," "plans," "predicts," and similar terms. Forward-looking statements are not guarantees of future performance and our actual results may differ significantly from the results discussed in the forward-looking statements. Factors that might cause such differences include but are not limited to those discussed in the subsection entitled *Forward-Looking Statements and Factors That May Affect Future Results and Financial Condition* below. The following discussion should be read in conjunction with our financial statements and notes thereto included in this report. Our fiscal year end is December 31. All information presented herein is based on the three month period ended March 31, 2008.

Discussion and Analysis

On February 5, 2008, the Company formed a wholly owned subsidiary, Fitness USA, Inc. to enter into a LA Boxing Franchise Agreement ("Agreement") with LA Boxing Franchise Corporation ("LA Boxing") in order to become an LA Boxing franchisee. The Agreement grants us the exclusive right to operate one LA Boxing location in the Beverly Hills/Brentwood area of Los Angeles, California in exchange for an initial franchise fee of \$25,000, a monthly royalty fee of six (6%) percent and a monthly advertising contribution of two percent (2%) of monthly gross revenues. We are also required to spend a minimum of \$5,000 per month on local advertising once the location is established. The Company has paid the initial franchise fee but is currently seeking the requisite financing to open an LA Boxing franchise.

LA Boxing has developed a membership fitness system for franchisees that consists of unique boxing and kickboxing training regimens. LA Boxing's proprietary system features membership software and accounting programs, boxing equipment, operations manuals, sales manuals, training, and instruction programs that are provided to franchisees as part of a turn-key approach focused on the success of each business.

The Company's plan of operation for the coming year is to actively pursue the development of our initial LA Boxing franchise and, upon those results, expand our operations to additional franchises within the United States and abroad.

If we are unable to pursue our business plan with respect to our LA Boxing franchise due to financial constraints, we will attempt to identify and acquire an alternative business opportunity. In this event, we will not limit our options to any particular industry, but will evaluate each opportunity on its merits. We have not yet entered into any other agreements, nor do we have any commitment or understanding to enter into or become engaged in any other transactions, as of the date of this filing.

The Company's plan of operation will require a minimum of \$250,000 in funding over the next 12 months, which funding is not currently available.

Results of Operations

During the three month period ended March 31, 2008, the Company's operations consisted of (i) satisfying continuous public disclosure requirements, (ii) seeking to identify prospective business opportunities, (iii) performing due diligence with respect to LA Boxing, and (iv) entering into the Agreement with LA Boxing.

The Company has been funded since inception from equity placements and by major shareholders in the form of loans. All of the capital raised to date has been allocated for the Agreement and general and administrative costs as well as interest expenses.

Net Loss

For the period from December 7, 1999, to March 31, 2008, the Company recorded an operating loss of \$182,966. The Company's operating loss is primarily attributed to the Agreement and general and administrative expenses which include incorporation costs, offering costs, accounting costs, and costs associated with the preparation of disclosure documentation in connection with registration pursuant to the Exchange Act of 1934, as amended. General and administrative expenses also include mining exploration expenses incurred by consultants, the costs associated with test results, costs directly related to our exploration program, and option expenses. We did not generate any revenue during this period.

Capital Expenditures

The Company expended no amounts on capital expenditures for the period from December 7, 1999, to March 31, 2008.

Income Tax Expense (Benefit)

The Company has a prospective income tax benefit resulting from a net operating loss carryforward and start up costs that will offset any future operating profit.

Impact of Inflation

The Company believes that inflation has had a negligible effect on operations over the past three years.

Liquidity and Capital Resources

The Company had current and total assets of \$51 as of March 31, 2008, consisting solely of cash on hand. Net stockholders' deficit in the Company was \$73,584 at March 31, 2008. The Company is in the development stage and, since inception, has experienced significant changes in liquidity, capital resources, and stockholders' deficit.

Cash flow used in operating activities was \$168,248 for the period from December 7, 1999, to March 31, 2008. Cash was used on accounting, administration, consulting, and exploration expenses.

Cash flow provided from financing activities was \$193,299 for the period from December 7, 1999, to March 31, 2008. Financing activities have consisted of sales of the Company's common stock as well as related and non-related party loans.

Cash flow used in investing activities was \$25,000 for the period from December 7, 1999, to March 31, 2008. Cash was used on the initial franchise fee required by the Agreement with LA Boxing.

The Company's current assets are insufficient to conduct its plan of operation over the next twelve (12) months. We will have to seek debt or equity financing to fund the opening of our LA Boxing franchise location and corporate operations. The Company has no current commitments or arrangements with respect to, or immediate sources of funding. Further, no assurances can be given that a funding is available. The Company's shareholders are the most likely source of new funding in the form of loans or equity placements though none have made any commitment for future investment and the Company has no agreement formal or otherwise. The Company's inability to obtain funding will have a material adverse affect on its plan of operation.

The Company has no current plans for the purchase or sale of any plant or equipment other than that equipment necessary to the opening of an LA Boxing gym location.

The Company has no current plans to make any changes in the number of employees other than those employees necessary to the opening of an LA Boxing gym location which opening can in no way be assured.

Off Balance Sheet Arrangements

As of March 31, 2008, we have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources that is material to stockholders.

Critical Accounting Policies

In Note 1 to the audited financial statements for the years ended December 31, 2007 and 2006, included in our Form 10-K, the Company discusses those accounting policies that are considered to be significant in determining the results of operations and its financial position. The Company believes that the accounting principles utilized by it conform to accounting principles generally accepted in the United States.

The preparation of financial statements requires Company management to make significant estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. By their nature, these judgments are subject to an inherent degree of uncertainty. On an on-going basis, the Company evaluates estimates. The Company bases its estimates on historical experience and other facts and circumstances that are believed to be reasonable, and the results form the basis for making judgments about the carrying value of assets and liabilities. The actual results may differ from these estimates under different assumptions or conditions.

Going Concern

The Company's auditors have expressed an opinion as to the Company's ability to continue as a going concern as a result of an accumulated deficit of \$172,302 as of December 31, 2007, which deficit increased to \$182,966 as of March 31, 2008. The Company's ability to continue as a going concern is subject to the ability of the Company to realize a profit and /or obtain funding from outside sources. Management's plan to address the Company's ability to continue as a going concern includes: (i) obtaining funding from private placement sources; (ii) obtaining additional funding from the sale of the Company's securities; (iii) establishing revenues establishing an LA Boxing gym location; and (iv) obtaining loans and grants from financial institutions where possible. Although management believes that it will be able to obtain the necessary funding to allow the Company to remain a going concern through the methods discussed above, there can be no assurances that such methods will prove successful.

Forward Looking Statements and Factors That May Affect Future Results and Financial Condition

The statements contained in the section titled *Management's Discussion and Analysis of Financial Condition and Results of Operations* and elsewhere in this current report, with the exception of historical facts, are forward looking statements. Forward looking statements reflect our current expectations and beliefs regarding our future results of operations, performance, and achievements. These statements are subject to risks and uncertainties and are based upon assumptions and beliefs that may or may not materialize. These statements include, but are not limited to, statements concerning:

- our anticipated financial performance and business plan;
- the sufficiency of existing capital resources;
- our ability to raise additional capital to fund cash requirements for future operations;
- uncertainties related to the Company's future business prospects;
- our ability to generate revenues from future operations;
- the volatility of the stock market and;
- general economic conditions.

We wish to caution readers that our operating results are subject to various risks and uncertainties that could cause our actual results to differ materially from those discussed or anticipated, including the factors set forth in the section entitled *Risk Factors* included elsewhere in this report. We also wish to advise readers not to place any undue reliance on the forward looking statements contained in this report, which reflect our beliefs and expectations only as of the date of this report. We assume no obligation to update or revise these forward looking statements to reflect new events or circumstances or any changes in our beliefs or expectations, other than as required by law.

Stock-Based Compensation

On January 1, 2006, we adopted SFAS No. 123 (revised 2004) (SFAS No. 123R), Share-Based Payment, which addresses the accounting for stock-based payment transactions in which an enterprise receives employee services in exchange for (a) equity instruments of the enterprise or (b) liabilities that are based on the fair value of the enterprise's equity instruments or that may be settled by the issuance of such equity instruments. In January 2005, the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin (SAB) No. 107, which provides supplemental implementation guidance for SFAS No. 123R. SFAS No. 123R eliminates the ability to account for stock-based compensation transactions using the intrinsic value method under Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and instead generally requires that such transactions be accounted for using a fair-value-based method. We use the Black-Scholes-Merton ("BSM") option-pricing model to determine the fair-value of stock-based awards under SFAS No. 123R, consistent with that used for pro forma disclosures under SFAS No. 123, Accounting for Stock-Based Compensation. We have elected the modified prospective transition method as permitted by SFAS No. 123R and accordingly prior periods have not been restated to reflect the impact of SFAS No. 123R. The modified prospective transition method requires that stock-based compensation expense be recorded for all new and unvested stock options, restricted stock, restricted stock units, and employee stock purchase plan shares that are ultimately expected to vest as the requisite service is rendered beginning on January 1, 2006, the first day of our fiscal year 2006. Stock-based compensation expense for awards granted prior to January 1, 2006 is based on the grant date fair-value as determined under the pro forma provisions of SFAS No. 123.

Prior to the adoption of SFAS No 123R, we measured compensation expense for our employee stock-based compensation plans using the intrinsic value method prescribed by APB Opinion No. 25. We applied the disclosure provisions of SFAS No. 123 as amended by SFAS No. 148, *Accounting for Stock-Based Compensation – Transition and Disclosure*, as if the fair-value-based method had been applied in measuring compensation expense. Under APB Opinion No. 25, when the exercise price of the Company's employee stock options was equal to the market price of the underlying stock on the date of the grant, no compensation expense was recognized.

We account for equity instruments issued in exchange for the receipt of goods or services from other than employees in accordance with SFAS No. 123 and the conclusions reached by the Emerging Issues Task Force ("EITF") in Issue No. 96-18. Costs are measured at the estimated fair market value of the consideration received or the estimated fair value of the equity instruments issued, whichever is more reliably measurable. The value of equity instruments issued for consideration other than employee services is determined on the earliest of a performance commitment or completion of performance by the provider of goods or services as defined by EITF 96-18.

Recent Accounting Pronouncements

In January 2007, we adopted FIN 48. FIN 48 clarifies the accounting for uncertain taxes recognized in an enterprise's financial statements in accordance with SFAS No. 109, *"Accounting for Income Taxes."* FIN 48 prescribes a recognition threshold and measurement of a tax position taken or expected to be taken in an enterprise's tax return. In addition, FIN 48 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods and disclosure related to uncertain income tax positions.

In February 2007, the FASB issued SFAS 159, "The Fair Value Option for Financial Assets and Financial Liabilities." SFAS 159 creates a fair value option allowing an entity to irrevocably elect fair value as the initial and subsequent measurement attribute for certain financial assets and financial liabilities, with changes in fair value recognized in earnings as they occur. SFAS 159 also requires an entity to report those financial assets and financial liabilities measured at fair value in a manner that separates those reported fair values from the carrying amounts of assets and liabilities measured using another measurement attribute on the face of the statement of financial position. Lastly, SFAS 159 requires an entity to provide information that would allow users to understand the effect on earnings of changes in the fair value on those instruments selected for the fair value election. SFAS 159 is effective for fiscal years beginning after November 15, 2007 with early adoption permitted. The Company is continuing to evaluate SFAS 159 and to assess the impact on our results of operations and financial condition if an election is made to adopt the standard.

In December 2007, the FASB issued SFAS No. 160, *Non-controlling interests in Consolidated Financial Statements – An amendment of ARB No. 51*. This statement's objective is to improve the relevance, comparability, and transparency of the financial information that a reporting entity provides in its consolidated financial statements by establishing accounting and reporting standards that require ownership interests in the subsidiaries held by parties other than the parent be clearly identified. The adoption of SFAS 160 did not have an impact on the Company's financial statements.

In December 2007, the FASB issued SFAS No. 141 (revised), *Business Combinations*. This revision statement's objective is to improve the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its effects on recognizing identifiable assets and measuring goodwill. The adoption of SFAS 141 (revised) did not have an impact on the Company's financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not required.

ITEM 4T. CONTROLS AND PROCEDURES

Management's Report on Internal Control over Financial Reporting

The Company's management, including our chief executive officer and chief financial officer, is responsible for establishing and maintaining adequate internal control over our financial reporting. Internal control over financial reporting is a process designed by, or under the supervision of, our chief executive and chief financial officers and implemented by our board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements. Because of their inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation, our management concluded that our internal control over financial reporting was effective as of March 31, 2008.

Changes in Internal Controls over Financial Reporting

During the period ended March 31, 2008, there has been no change in internal control over financial reporting that has materially affected, or is reasonably likely to materially affect our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None.

ITEM 1A. RISK FACTORS

Our future operating results are highly uncertain. Before deciding to invest in us or to maintain or increase your investment, you should carefully consider the risks described below, in addition to the other information contained in this quarterly report. If any of these risks actually occur, our business, financial condition or results of operations could be seriously harmed. In that event, the market price for our common stock could decline and you may lose all or part of your investment.

Risks Related to the Company's Business

We have a history of significant operating losses and such losses may continue in the future.

Since our inception in 1999, our expenses have substantially exceeded our income, resulting in continuing losses and an accumulated deficit of \$172,302 at December 31, 2007 which increased to \$182,966 as of March 31, 2008. The Company has never realized revenue from operations. Our only expectation of future profitability is dependent on the future results of operation from our LA Boxing franchise or the acquisition of an alternative revenue producing business opportunity.

The Company's limited financial resources cast severe doubt on our ability to pursue our business plan or to acquire a profitable business opportunity.

The Company's future operation is dependent upon the development of our LA Boxing franchise or on the acquisition of an alternative profitable business opportunity. We are finding it difficult to realize the financing needed for opening our LA Boxing franchise location and cannot be certain that such financing will be forthcoming. Our inability to finance the opening of our franchise location will prevent us from developing our business and may act as a deterrent in any future negotiations with alternative acquisition candidates. Should the Company be unable to develop a profitable business opportunity in the near term, it will, in all likelihood, be forced to cease operations.

We are dependent upon a key person, who would be difficult to replace.

Our continued operation will be largely dependent upon the efforts of Ruairidh Campbell, our sole officer and director. We do not maintain key-person insurance on Mr. Campbell. Our future success also will depend in large part upon the Company's ability to identify, attract and retain other highly qualified managerial, technical and sales and marketing personnel. Competition for these individuals is intense. The loss of the services of Mr. Campbell, the inability to identify, attract or retain qualified personnel in the future or delays in hiring qualified personnel could make it more difficult for us to maintain our operations and meet key objectives such as the acquisition of a suitable business opportunity.

Risks Related to the Company's Stock

The market for our stock is limited and our stock price may be volatile.

The market for our common stock has been limited due to low trading volume and the small number of brokerage firms acting as market makers. Because of the limitations of our market and volatility of the market price of our stock, investors may face difficulties in selling shares at attractive prices when they want to. The average daily trading volume for our stock has varied significantly from week to week and from month to month, and the trading volume often varies widely from day to day.

We may incur significant expenses as a result of being quoted on the Over the Counter Bulletin Board, which may negatively impact our financial performance.

We may incur significant legal, accounting and other expenses as a result of being listed on the Over the Counter Bulletin Board. The Sarbanes-Oxley Act of 2002, as well as related rules implemented by the Commission has required changes in corporate governance practices of public companies. We expect that compliance with these laws, rules and regulations, including compliance with Section 404 of the Sarbanes-Oxley Act of 2002 as discussed in the following risk factor, may substantially increase our expenses, including our legal and accounting costs, and make some activities more time-consuming and costly. As a result, there may be a substantial increase in legal, accounting and certain other expenses in the future, which would negatively impact our financial performance and could have a material adverse effect on our results of operations and financial condition.

Our internal controls over financial reporting may not be considered effective in the future, which could result in a loss of investor confidence in our financial reports and in turn have an adverse effect on our stock price.

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 we are required to furnish a report by our management on our internal controls over financial reporting. Such report must contain, among other matters, an assessment of the effectiveness of our internal controls over financial reporting as of the end of the year, including a statement as to whether or not our internal controls over financial reporting are effective. This assessment must include disclosure of any material weaknesses in our internal controls over financial reporting identified by management. If we are unable to continue to assert that our internal controls are effective, our investors could lose confidence in the accuracy and completeness of our financial reports, which in turn could cause our stock price to decline.

The Company does not pay dividends.

The Company does not pay dividends. We have not paid any dividends since inception and have no intention of paying any dividends in the foreseeable future. Any future dividends would be at the discretion of our board of directors and would depend on, among other things, future earnings, our operating and financial condition, our capital requirements, and general business conditions. Therefore, shareholders should not expect any type of cash flow from their investment.

The Company requires immediate capital funding.

The Company requires financing, either through equity offerings or debt placements, in order to open our anticipated LA Boxing franchise location and meet working capital requirements. Any new financing may result in a significant dilution for our current shareholders. Further, our ability to meet short-term and long-term financial commitments is dependent on the realization of financing in the immediate future. Unless the Company can meet its financial obligations it will likely be forced to cease operations.

The Company's shareholders may face significant restrictions on their stock.

The Company's stock differs from many stocks in that it is a "penny stock." The Commission has adopted a number of rules to regulate "penny stocks" including, but not limited to, those rules from the Securities Act as follows:

- | | |
|--------|---|
| 3a51-1 | which defines penny stock as, generally speaking, those securities which are not listed on either NASDAQ or a national securities exchange and are priced under \$5, excluding securities of issuers that have net tangible assets greater than \$2 million if they have been in operation at least three years, greater than \$5 million if in operation less than three years, or average revenue of at least \$6 million for the last three years; |
| 15g-1 | which outlines transactions by broker/dealers which are exempt from 15g-2 through 15g-6 as those whose commissions from traders are lower than 5% total commissions; |
| 15g-2 | which details that brokers must disclose risks of penny stock on Schedule 15G; |
| 15g-3 | which details that broker/dealers must disclose quotes and other information relating to the penny stock market; |
| 15g-4 | which explains that compensation of broker/dealers must be disclosed; |
| 15g-5 | which explains that compensation of persons associated in connection with penny stock sales must be disclosed; |
| 15g-6 | which outlines that broker/dealers must send out monthly account statements; and |
| 15g-9 | which defines sales practice requirements. |

Since the Company's securities constitute a "penny stock" within the meaning of the rules, the rules would apply to us and our securities. Because these rules provide regulatory burdens upon broker-dealers, they may affect the ability of shareholders to sell their securities in any market that may develop; the rules themselves may limit the market for penny stocks. Additionally, the market among dealers may not be active. Investors in penny stock often are unable to sell stock back to the dealer that sold them the stock. The mark-ups or commissions charged by the broker-dealers may be greater than any profit a seller may make. Because of large dealer spreads, investors may be unable to sell the stock immediately back to the dealer at the same price the dealer sold the stock to the investor. In some cases, the stock may fall quickly in value. Investors may be unable to reap any profit from any sale of the stock, if they can sell it at all. Shareholders should be aware that, according to Commission Release No. 34-29093 dated April 17, 1991, the market for penny stocks has suffered from patterns of fraud and abuse. These patterns include:

- control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer;
- manipulation of prices through prearranged matching of purchases and sales and false and misleading press releases;
- "boiler room" practices involving high pressure sales tactics and unrealistic price projections by inexperienced sales persons;
- excessive and undisclosed bid-ask differentials and markups by selling broker-dealers; and
- the wholesale dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired level, along with the inevitable collapse of those prices with consequent investor losses.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS ON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER
PURSUANT TO RULE 13a-14 OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED,
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Ruairidh Campbell certify that:

1. I have reviewed this report on Form 10-Q ("Report") of Montana Mining Corp.;
2. Based on my knowledge, this Report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this Report;
3. Based on my knowledge, the financial statements, and other financial information included in this Report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the period presented in this Report;
4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant is made known to me by others within those entities, particularly during the period in which this Report is being prepared;
 - b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this Report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this Report based on such evaluation; and
 - c) Disclosed in this Report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. I have disclosed based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.

Chief Executive Officer and Chief Financial Officer

CERTIFICATION OF CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER
PURSUANT TO 18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO SECTION 906 OF THE
SARBANES-OXLEY ACT OF 2002

In connection with the report on Form 10-Q of Montana Mining Corp. for the quarterly period ended March 31, 2008 as filed with the Securities and Exchange Commission on the date hereof ("Report"), I, Ruairidh Campbell, do hereby certify, pursuant to 18 U.S.C. §1350, as adopted pursuant to §906 of the Sarbanes-Oxley Act of 2002, that, to the best of my knowledge and belief:

- (1) This Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in this Report fairly represents, in all material respects, the financial condition of the registrant at the end of the period covered by this Report and results of operations of the registrant for the period covered by this Report.

Date: April 30, 2008

/s/ Ruairidh Campbell

Ruairidh Campbell

Chief Executive Officer and Chief Financial Officer

This certification accompanies this Report pursuant to §906 of the Sarbanes-Oxley Act of 2002 and shall not, except to the extent required by the Sarbanes-Oxley Act of 2002, be deemed filed by the registrant for the purposes of §18 of the Securities Exchange Act of 1934, as amended. This certification shall not be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended (whether made before or after the date of this Report), irrespective of any general incorporation language contained in such filing.

A signed original of this written statement required by §906 has been provided to the registrant and will be retained by the registrant and furnished to the Securities and Exchange Commission or its staff upon request.
