EXHIBIT LIST

<u>Exhibit</u>	<u>Description</u>	<u>Sequential Page Number</u>
	* Announcement dated 11 September 2003 re: Naspers pay-television subscribers to 30 June 2003	

Naspers pay-television subscribers to 30 June 2003

Going forward, Naspers will only release subscriber numbers at six-month intervals, as at 31 March and 30 September, in line with financial results announcements.

Where required, the group will release trading updates as required by the JSE. Shareholders are reminded of the trading update released last week where Naspers indicated that financial results to September 2003 may substantially exceed those of the corresponding period last year.

The group ended the quarter with 2 005 338 subscribers, 67% of whom subscribe to the digital service. The major impact of this period is the traditional churn experienced during the summer holiday season in some of our markets.

South Africa:

In line with expectations, the South African subscriber base, which is mature, remained flat for the quarter, ending with 1 043 888 subscribers. Subscribers to the digital service increased by 14 751 during the quarter, mainly due to subscribers continuing to migrate from the analogue to the digital service. Digital subscribers now represent 66% of the subscriber base.

Sub-Saharan Africa:

Certain analogue services across Africa are being terminated. This has resulted in a decline in the analogue subscriber base by 2 752, to end the quarter with 12 657 subscribers.

The digital subscriber base in sub-Saharan Africa declined by 2 599 for the quarter to 242 395. This decline is due to a combination of factors, including the end of the soccer season and churn experienced during the summer holiday season. Subsequent to 30 June, and following the end of the summer holiday season, the digital sub-Saharan subscriber base has shown good growth.

Greece:

Greece experienced the usual summer churn, with the analogue base declining by 14 978 and the digital base declining by 3 444 subscribers, ending the quarter with 101 007 and 136 304 subscribers, respectively. Following the end of the summer holiday season, the subscriber base has shown good growth.

Cyprus also traditionally experiences summer churn, with the subscriber base declining by 5 992 subscribers, to end the quarter with 48 444 subscribers.

Thailand:

UBC increased its subscription fee and ceased broadcasting the Nation Channel effective 1 May 2003 and as a result has experienced higher churn than normal. The situation has been aggravated by the continued problem of provincial cable piracy, with the subscriber base declining by 16 946 subscribers, to end the quarter with 420 643 subscribers. Subscriber churn stabilised after 30 June.
