

UNITED STATES SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, D.C. 20549

FORM 10-KSB

[X] ANNUAL REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES  
EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2002

**Enviro-Energy Corporation**  
(Name of Small Business Issuer in its charter)

Delaware  
(State or other jurisdiction of  
incorporation or organization)

95-4520761  
(I.R.S. Employer Identification No.)

3897 Cinco Amigos - Santa Barbara, CA 93105  
(Address of principal executive offices) (Zip Code)

805-682-4839  
Issuer's Telephone Number

Securities registered under Section 12(b) of the Exchange Act: None

Securities to be registered under section 12(g) of the Act:

<b><u>Title of Each Class to be registered</u></b>	<b><u>Name on each exchange on which each class is to be registered</u></b>
Common Stock, .001 par value	Nasdaq Over the Counter Bulletin Board

Check whether the issuer (1) filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. [X] Yes [ ] No

Check if there is no disclosure of delinquent filers in response to Item 405 of Regulation S-B is not contained in this form, and no disclosure will be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-KSB or any amendment to this Form 10-KSB. [X]

State issuer's revenues for its most recent fiscal year. **\$15,054,619**

State the aggregate market value of the voting and non-voting common equity held by non-affiliates of the Company (based on the closing price on such stock as reported by the Over the Counter Bulletin Board) on December 31, 2003: **\$1,665,000**

**Common Stock, \$.001 par value per share, 300,000,000 shares authorized, 258,948,099 and 254,620,919 issued and outstanding as of December 31, 2002 and 2001, respectively. Preferred Stock, \$001. par value per share, 10,000,000 shares authorized, and 4,000,000 and -0- issued and outstanding as of December 31, 2002 and 2001, respectively.**

## TABLE OF CONTENTS

### Part I

Item 1. Description of Business	3
Item 2. Description of Property	6
Item 3. Legal Proceedings	6
Item 4. Submission of Matters to a Vote of Security Holders	6

### Part II

Item 5. Market for Common Equity and Related Stockholder Matters	6
Item 6. Management's Discussion and Analysis or Plan of Operation	9
Item 7. Financial Statements	12
Item 8. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure	33

### Part III

Item 9. Directors, Executives, Officers and Significant Employees	33
Item 10. Remuneration of Directors and Executive Officers	35
Item 11. Security Ownership of Management and Others and Certain Security Holders	35
Item 12. Certain Relationships and Related Transactions	35
Item 13. Exhibits and Reports on Form 8-K	36
Item 14. Controls and Procedures	36
SIGNATURES	37
CERTIFICATION	38

## **PART I**

### **ITEM 1. DESCRIPTION OF BUSINESS**

#### **a) BUSINESS DEVELOPMENT, ORGANIZATION AND ACQUISITION ACTIVITIES**

Enviro-Energy Corporation, ("Enviro-Energy", the "Company" or "ENGY") was formed in Delaware in May 1994, as Baseball Properties, Inc., a publicly held Delaware Corporation. Baseball Properties, Inc. acquired ThermaFreeze(TM), Inc. in January 1997. Subsequently, the Company's name was changed to ThermaFreeze(TM), Inc. trading under the symbol "THFZ". On July 3, 2001, the Company's name changed to Enviro-Energy Corporation, and the ticker symbol changed to "ENGY".

Enviro-Energy Corporation is composed of two wholly owned corporate entities and the public corporation. The subsidiaries are: Colvico, Inc. of Spokane, Washington which is a general contractor, specializing in electrical contracting; and Energy Flow Management Inc., of Spokane, Washington, which develops a proprietary line of anaerobic digestion systems.

The Company is organized to maximize synergies, internal growth, and use of assets. In particular the Company seeks growth of sales through efforts in conjunction with internally generated new business in bio-waste-to-energy and related sectors.

#### **b) BUSINESS OF ISSUER**

##### **Colvico, Inc.**

Colvico, Inc. is primarily an electrical contractor that performs work in the states of Washington, Oregon, Idaho, Montana and California. The revenues are primarily derived under fixed price contracts and time and material contracts. The company maintains a excellent reputation in high voltage construction work and has been successful in maintaining its financial condition through excellent management.

##### **Energy Flow Management Inc.**

Enviro-Energy Corporation, at December 31, 2002 had one major operating unit. Enviro-Energy Bio-Waste-To-Energy Systems organized under Energy Flow Management, Inc., is focused on converting bio-masses into gases, electrical energy and saleable by-products. The Company has contracted for a license for use of the patented Advanced Anaerobic Processing Technology. It has further developed proprietary technology for small-scale systems suitable for farm use. The Company intends to own and operate distributed waste-to-energy systems placed throughout the agricultural community as well as sell systems with maintenance and operating contracts.

The market for these systems is primarily farms generating animal waste from contained herds such as feedlots, dairies, and hogs and poultry operations.

Enviro-Energy's strategy is, to a certain extent dependent, among other factors, on its ability to raise the necessary capital to support its operating subsidiary companies in developing their activities and exploit proprietary technologies. Enviro-Energy has investigated a variety of methods of raising additional working capital such as through the sale of shares of its common stock, through the issue of debt instruments and by potential licensing arrangements. There can be no assurance that Enviro-Energy will raise such capital on terms acceptable to it, if at all. Failure to obtain adequate financing may jeopardize the Company's existence. See "Management's Discussion and Analysis of Financial Condition and Results of Operations".

### **Patents**

EFMI's digester technology is protected by United States Patent No. 6,296,766. The patent covers a series of controls, feedback systems and monitoring to minimize or eliminate variances in throughput for anaerobic digestion, solving the most troublesome aspect of digesters. A method for an anaerobic digester system is provided that employs a cumulative database to better monitor and control the anaerobic process, as compared with conventional anaerobic digester systems. The method includes the storing and ensiling of a feedstock, preferably a biomass, to form a digester feed material, which is then processed by a digester. The process evolves a biogas and forms a digested material. The process is monitored, to collect a plurality of digester data from all stages of the process. These individual points or elements of the data are telemetered to a cumulative data base for storage and eventual retrieval and the cumulative data base is mined to compile predictive, feed forward controls and construct feedstock correlations between the metabolic activity within the digesters and an analysis of the feedstocks into the digesters. The method further includes the production of a high quality plant growth media from the digested mash, and recovery of the biogas generated within the digester. The biogas is collected with the aid of a biogas recovery system. The biogas is predominantly methane, and the anaerobic digester system is preferably operated to maximize the quantity and quality of methane generated.

### **Research And Development Activities**

The Company, among other things, plans to develop and market its ENVIRO-ENERGY bio-waste-to-energy systems, implement and execute its business and marketing strategy successfully, continue to develop and upgrade its technology and information-processing systems, meet the needs of a changing market, provide customer service, respond to competitive developments and attract, integrate, and motivate qualified personnel provided the company can generate sales and profit.

As is typical of any new and rapidly evolving market, demand and market acceptance for recently introduced products are subject to a high level of uncertainty and risk. Moreover, because this market is new and rapidly evolving, it is difficult to predict its future growth rate, if any, and its ultimate size. If the market fails to develop, develops more slowly than expected or becomes saturated with competitors, or if the Company's products do not achieve or sustain market acceptance, the Company's business, results of operation may be materially and adversely affected.

There can be no assurances the Company will be successful in accomplishing any or all of its plans, and the failure to do so could have a material adverse effect on the company's business, results of operations and financial condition.

### **Impact Of Environmental Laws**

Enviro-Energy believes that its operations currently comply, in all material respects, with the applicable federal, state and local laws, rules, regulations and ordinances relating to the Company's various operating and planned activities. Furthermore, Enviro-Energy does not anticipate that maintaining such compliance will have a material impact upon its capital expenditures, future earnings and competitive position.

### **Government Approvals**

Enviro-Energy is not aware of any additional government approvals required for its products and services other than those permits applicable to and associated with the use of the ENVIRO-ENERGY bio-waste-to-energy anaerobic digester units. The permits may be for conditional use, and/or permits associated with the impact of operations upon water usage, air quality, and hazardous materials being treated, processed or contained. Lead times associated with permits being awarded vary, from a few days to many months, and depend upon many factors including, but not exclusively, location. Accordingly, delays associated with these lead times may impact negatively upon the Company's ability to properly perform its activities.

### **Employees**

The Company currently has one (1) Corporate Officer. There are approximately 100 operating employees in EFMI and its subsidiary Colvico, Inc (First Quarter 2002 Acquisition). Colvico hires both union and non-union employees. Total employment varies seasonally. The Company also uses the services of outside contractors and engineering specialists as required. As the Company begins to develop its markets it will need to add employees.

### **c) REPORTS TO SECURITY HOLDERS**

The Company shall furnish its shareholders with annual reports containing audited financial statements and such other periodic reports as the Company may determine to be appropriate or as may be required by law. The Company shall comply with periodic reporting, proxy solicitation and certain other requirements by the Securities Exchange Act of 1934.

Interested parties may read and copy any materials filed with the SEC at the SEC's Public Reference Room at 450 Fifth Street, N. W., Washington, D.C. 20549. Information may be obtained on the operation of the Public Reference Room by calling the SEC at 1 (800) SEC-0330. The SEC maintains an Internet site (<http://www.sec.gov>) that contains reports, proxy and information statements and other information regarding the Company that is filed electronically with the SEC.

## **ITEM 2. DESCRIPTION OF PROPERTY**

### **A. Description of Property**

The Company maintains an office at 3897 Cinco Amigos, Santa Barbara, California 93105. This office provides for general administrative services, public company investor relations, and general sales support for the anaerobic digestion systems. The space is provided to the Company by the CEO at no charge.

The Company's management has committed to lease administration premises comprising just under 2,800 square feet, intended to be the Company's group administration headquarters in Spokane, Washington. The lease is for a period of 64 months commencing May 1, 2002 at a monthly rental of approximately \$2,800 per month. The Company has decided to not occupy these quarters due to business conditions downturn. This has caused the Company to become involved in litigation regarding leasehold improvements and related items.

## **ITEM 3. LEGAL PROCEEDINGS**

The Company is a defendant in a lawsuit regarding a lease of office space located in Spokane Washington. The lease term is for a period of 64 months commencing May 1, 2002 at a monthly rental of \$2800. We have provided for estimated costs of \$20,000 in the 2002 financial statements.

## **ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

None.

## **ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS**

### **a). *Market Information***

The Company's Common Stock is traded on the OTC Bulletin Board under the symbol "ENGY". The following table sets forth the high and low bid quotations for the Common Stock for the periods indicated. These quotations reflect prices between dealers, do not include retail mark-ups, mark-downs, and commissions and may not necessarily represent actual transactions.

<b>PERIOD</b>	<b>Common Stock</b>	
	<b>HIGH</b>	<b>LOW</b>
<u>Calendar Year 2002</u>		
First Quarter ended 3/31/02	\$0.14	\$0.018
Second Quarter ended 6/30/02	\$0.01	\$0.036
Third Quarter ended 9/30/02	\$0.062	\$0.03
Fourth Quarter ended 12/31/02	\$0.041	\$0.023
<u>Calendar Year 2001</u>		
First Quarter ended 3/31/01	\$0.49	\$0.06
Second Quarter ended 6/30/01	\$0.22	\$0.06
Third Quarter ended 9/30/01	\$0.07	\$0.01
Fourth Quarter ended 12/31/01	\$0.04	\$0.01

The Transfer Agent for the shares of common voting stock of the Company are maintained by: United Stock Transfer Company, 3615 South Huron Street, Suite 104, Englewood, CO 80110 Phone: (303)783-9055.

*b) Holders*

As of December 31, 2002 and 2001, the Company has approximately 1,884 and 1,885, respectively, stockholders of record.

*c) Dividends*

The Company has not paid any dividends to date. In addition, it does not anticipate paying dividends in the immediate foreseeable future. The Board of Directors of the Company will review its dividend policy from time to time to determine the desirability and feasibility of paying dividends after giving consideration to the Company's earnings, financial condition, capital requirements and such other factors as the board may deem relevant.

*d) Securities Authorized For Issuance Under Equity Compensation Plans*

The Company has no equity compensation plans.

**Recent Sales of Unregistered Securities; Use of Proceeds From Registered Securities**

During the year ended December 31, 2001, the Company issued 75,000,000 shares of its \$0.001 par value common stock upon the election to convert by certain shareholders of 5,000,000 shares of \$0.001 par value convertible preferred shares convertible at a ratio of 15:1.

During the year ended December 31, 2001, the Company issued 10,039,167 shares of its \$0.001 par value common stock to existing shareholders for consulting services valued at \$559,572, the fair market value of the underlying shares.

During the year ended December 31, 2001, the Company issued 1,487,500 shares of its \$0.001 par value common stock to unrelated third party individuals and entities for consulting services valued at \$128,488, the fair market value of the underlying shares.

During the year ended December 31, 2001, the Company issued 27,838,827 shares of its \$0.001 par value common stock to an accredited individual pursuant to a private offering for cash of \$1,350,000.

During the year ended December 31, 2001, the Company issued 20,000 shares of its \$0.001 par value common stock for legal services valued at \$5,200, the fair market value of the underlying shares.

During the year ended December 31, 2001, the Company issued 97,700,000 shares of its \$0.001 par value common stock to a major shareholder for extinguishment of debt and financing enticements totaling \$6,954,700.

During the year ended December 31, 2001, the Company issued 314,153 shares of its \$0.001 par value common stock for marketing services valued at \$68,300, the fair market value of the underlying shares.

During the year ended December 31, 2001, the Company issued 500,000 shares of its \$0.001 par value common stock to acquire technology valued at \$170,000, the fair market value of the underlying shares.

During the year ended December 31, 2001, the Company issued 3,150,743 shares of its \$0.001 par value common stock to acquire an interest in Environmental Reclamation, Inc. (ERI) valued at \$2,276,582, the value of goodwill in the Company's interest in ERI.

During the year ended December 31, 2001, the Company issued 10,000,000 shares of its \$0.001 par value common stock for research and development services valued at \$200,000, the fair market value of the underlying shares.

During the year ended December 31, 2001, the Company issued 193,891 shares of its \$0.001 par value common stock to certain holders of warrants who exercised their rights for cash of \$26,675.

During the year ended December 31, 2001, the Company issued 2,000,000 shares of its \$0.001 par value common stock for financing enticements valued at \$90,000, the fair market value of the underlying shares.

During the year ended December 31, 2001, the Company cancelled 297,500 shares of its \$0.001 par value common stock authorized but not issued to certain individuals. The shares were cancelled for non-payment.

During the year ended December 31, 2002, the Company issued 70,000 shares of its \$0.001 par value common stock for legal services valued at \$4,700, the fair market value of the underlying shares.

During the year ended December 31, 2002, the Company cancelled 42,817 shares of its \$0.001 par value common stock due to over issuance and valued at \$2,569, the fair market value of the underlying shares.

During the year ended December 31, 2002, the Company issued 300,000 shares of its \$0.001 par value common stock for directors fees, valued at \$42,000, the fair market value of the underlying shares.

During the year ended December 31, 2002, the Company issued 1,000,000 shares of its \$0.001 par value common stock for the purchase of Energy Flow Management, Inc., valued at \$70,000, the fair market value of the underlying shares.

During the year ended December 31, 2002, the Company issued 3,000,000 shares of its \$0.001 par value common stock for patent royalty payments, valued at \$90,000, the fair market value of the underlying shares.

During the year ended December 31, 2002, the Company contracted to issue 4,000,000 shares of its \$0.001 par value preferred stock for the purchase of Colvico, Inc., valued at \$4,000,000, the fair market value of the underlying shares.

## **ITEM 6. MANANAGEMENTS'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION**

### **OVERVIEW**

During the course of 2001 acquisitions and business development activities brought a variety of opportunities and challenges to the Company. As the Company expanded it became apparent that to maximize the potential of the Company, management had to make critical decisions concerning focus and allocation of resources. Analysis of various factors suggested that a significant growth factor might be realized in bio-waste conversion sectors while the remediation and reclamation sectors required more intensive investments of critical resources with perhaps more certain, but less dramatic impacts to revenue, profit and long term sustained growth. Therefore management elected to implement strategies which had the potential to rapidly develop its bio-waste business and abandon its investment in its remediation and reclamation group. The result is a well-defined strategy and focus for the Company which management believes will crystallize into tangible results in revenue and cash flow during the coming year.

Capital continues to be an issue for the Company as its attempts to expand its business base and develop new products. A number of strategies are under development including; seeking traditional lines of operating capital against cash flows and assets, joint ventures, strategic alliances and direct investments into specific operating units by organizations seeking access to our technologies and engineering capabilities. While no one activity has matured the Company believes that it has reasonable prospects for more than one of these strategies to develop into successful infusions of fresh capital.

### **Bio-Waste Sector**

This sector is organized under Energy Flow Management, Inc., a wholly owned subsidiary of the Company.

The Company emerged from 2001 with what is thought to be a substantial opportunity to enter a mature market in need of product. This market is for processes capable of economically treating manure waste streams generated by confined animals. The vast majority of farms in the world are small. To be price and operationally viable any solution capable of satisfying total demands needs to be produced in some sort of manufactured mode with attending remote monitoring and operations.

The Company believed that it had designed such a product using extensive modifications to the non-exclusive license of a patent for large scale bio-waste remediation. Preliminary results from product announcements, together with market size data, convinced management this market was where the future of the Company should be focused. However, the Company had to overcome several hurdles to enter this market successfully.

First, the Company needed critical operating mass. At the conclusion of 2001 the Company was not yet large enough to carry the financial burden of this development. Second, the Company needed a strategy to support field operations. Due to energy conversion requirements, the majority of operating and maintenance costs are derived from the need for sophisticated and well trained electrical personnel. However, service loads in a small system do not support the expense of one person. Therefore the Company needed an economical solution to carry the costs of skilled staff until a given geographic area developed sufficient units to carry its overhead. Third, manufacturing requires facilities and expertise. The Company did not wish to subcontract manufacturing for a variety of reasons but did not yet have internal capacity. Finally, it was evident that the Company needed to manufacture and install a demonstration facility as soon as possible. These issues defined the acquisition strategy for the Company.

During the year 2002, the Company initiated the process of manufacturing, installing and testing of its first facility on a dairy farm. Due to the complexities of this processing facility, tests continue to be run on the machinery, and new operating procedures are in the process of being installed. With the support of Colvico, Inc., as experienced electrical contractor and its staff, the assembly of this facility was done in house.

Through continued research by management, the Company hopes to develop other uses for the bio-waste applications. However, the Company is still in need of a critical operating mass. At the conclusion of 2002 the Company was not yet large enough to carry the financial burden of this development.

### Electrical Contracting Sector

On January 29, 2002 the Company completed the acquisition of Colvico, Inc., a company with sustainable revenues and profit, electrical expertise, manufacturing capacity and geographic resources within the initial market area of the Company. Manufacturing of the first system was immediately launched and marketing activity accelerated. The Company has been pleased by the depth and range of market interest from both domestic and international markets as well as small farms through large-scale farms. A critical factor to the economics of these bio-waste systems is the ability to convert energy units into revenue. Energy units are comprised of the by-products (or outputs) of the waste treatment system. In macro terms these products are a blend of methane, carbon dioxide, recycled water and green fertilizer. While traditional programs look to converting methane to electricity, this is neither always desirable nor feasible in areas where electricity rates are low or transmission lines inadequate. Further carbon dioxide is often not fully utilized, especially in small scale units. The Company believes that it has found a viable new market for its energy units by providing energy products for greenhouses. Contained plant growth (greenhouses) are high consumers of every form of energy unit produced by the Company's bio-waste systems. Fertilizer is consumed by plants, carbon dioxide enhances plant growth, and heat and/or electricity is essential for sustained greenhouse operation.

### **PLAN OF OPERATIONS FOR THE FISCAL YEAR ENDING DECEMBER 31, 2003**

The Company will continue focus on its bio-waste systems. Marketing will be conducted through internal staff as well as through independent agencies. The Company currently has representation throughout the United States and Israel. It expects to develop further representation in Canada, Europe and other strategic markets during the year.

Marketing will center around the fully containerized small scale system. The Company anticipates the successful installation of its first small system in the Portland, Oregon area in May 2002. This installation will serve the needs of the dairy farmer/client and also be used as a show facility and test for the Company. The Company is also developing prospects for large scale (mega farm) systems.

Due to specific economies, and the requirement to focus limited resources, the Company has centered on the dairy industry as its primary market, with the beef industry as its secondary focus. While market opportunities in other segments (such as hogs or poultry) are also considered strong the Company intends to maintain emphasis on its primary markets until its is well established.

Management has further concluded that the many opportunities for the growth and success of this business unit will occur through joint ventures or other forms of close associations with parties who have greater financial capacity, access to technology or contracts outside the group's normal theater of influence, and who need the operating resources and engineering talents of the group. The Company is actively pursuing these avenues and is optimistic that it will succeed in its efforts.

**RESULTS OF OPERATIONS FOR THE YEAR DECEMBER 31, 2002 AS COMPARED TO THE YEAR DECEMBER 31, 2001**

Revenues for the twelve months ending December 31, 2002 increased to \$15,054,619 from \$1,149 for the twelve months ended December 31, 2001.

Cost of sales were to \$13,758,912 in the year 2002 and \$-0- for 2001.

General and administration costs in the year 2002 were to \$1,784,197 as compared to \$1,455,259 for 2001.

Other expenses in the year 2002 were \$ 80,716 and for the year 2001 they were \$5,626,335.

Gain from discontinued operations was \$153,432 for year end 2002 and a loss from discontinued operations of \$4,041,857 for year end 2001.

The expenses for the year 2002 and 2001 reflect all stocks issued for exchange of values. There were 4,627,183 shares and 196,947,131, issued respectively.

During the year 2002, stocks issued to unrelated third parties was 2,627,183 and 1,000,000 was issued to purchase Energy Flow Management, Inc. All stocks were valued at the NasDaq Over the Counter Bulletin Board for respective periods.

During the year 2001, stocks issued to related parties are as follows: 75,000,000 for conversion of preferred stock to common; 10,039,169 for consulting Services; and, 97,700,000 for extinguishing the total debt outstanding of the Company. Stock issued to other parties totaled 14,207,963. All stocks were valued at the Enviro-Energy Corporation's stated closing value at the NasDaq Over the Counter Bulletin Board for December 31, 2001.

The charges for loss on "Discontinued Operations" in the year ended 2001 was the result of the Company's Board of Director's decision to cease any further advances to ERI. This expenses reflect the total advances made. The basis for this action by the Company is by adopting Statement of Financial Accounting Standards No. 144.

Interest expenses in the year 2002 was \$80,716, as compared to \$9,758, for the year 2001.

The net loss for the years ended 2002 and 2001 was \$338,563 and \$11,122,302, respectively.

**ITEM 7. FINANCIAL STATEMENTS**

**Enviro-Energy Corporation**

**FINANCIAL STATEMENTS  
and  
INDEPENDENT AUDITORS' REPORTS  
  
DECEMBER 2002 AND 2001**

## **INDEPENDENT AUDITORS' REPORT**

Board of Directors  
Enviro-Energy Corporation and Subsidiaries

We have audited the accompanying consolidated balance sheet of Enviro-Energy Corporation and Subsidiaries as of December 31, 2002, and the related consolidated statements of operations, stockholders' equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Enviro-Energy Corporation and Subsidiaries as of December 31, 2002, and the results of their operations and their cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

## **INDEPENDENT AUDITOR'S REPORT**

April 14, 2003

Board of Directors  
Enviro-Energy Corporation  
Spokane, WA

I have audited the Statements of Operations, Stockholders' Equity, and Cash Flows of Enviro-Energy Corporation for the year ended December 31, 2001. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement presentation. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the statements of operations, equity and cash flows for the year ended December 31, 2001, in conformity with generally accepted accounting principles in the United States of America.

The accompanying notes are an integral part of these financial statements.

**Enviro-Energy Corporation**  
**Notes to the Consolidated Financial Statements**

**Note 1 - Organization and Nature of Operations:**

The Company was organized May 1994 under the laws of the State of Delaware, as Baseball Properties, Inc.

In January 1997, the Company acquired ThermaFreeze, Inc., a Nevada corporation, and changed its name to ThermaFreeze, Inc. From January 1997 to February 2001, the Company was considered a development stage company as it attempted to develop certain "cold-packing" technology for market. During February 2001, the Company ceased to pursue the development of the "cold-packing" technology.

On February 28, 2001, the Company acquired 51% of the total outstanding shares of Environmental Reclamation, Inc. (ERI). ERI was engaged in the remediation of heavy metal contaminated soil and properties, remediation and clean up of hazardous waste and illegal drug laboratory operations, abandoned mine reclamation and maintenance of operating mining facilities.

On July 3, 2001, ThermaFreeze Inc. changed its name to Enviro-Energy Corporation. Through the remainder of 2001, the Company attempted to capitalize on its acquisition of ERI. By December 31, 2001, the Company determined that it would be in the best interest of its shareholders to liquidate its ownership in ERI in order to pursue the development of technology in Advanced Anaerobic Digester System.

Energy Flow Management, Inc. (EFMI) is a wholly owned subsidiary acquired in July 2001. EFMI is responsible for developing and promoting the Company's ENVIRO-ENERGY Bio-Waste-to-Energy Systems. The Systems process environmental bio-wastes and pollutants converting them into energy units, "green" fertilizers and recycled water. Energy units are converted into electricity or heat as appropriate. The Systems are intended to provide a practical solution to "contained animal" farmwaste through the effective, efficient and environmentally friendly recycling of natural waste products.

The Company acquired 100% of the outstanding stock of Colvico, Inc. ("Colvico") during January 2002. Colvico is an electrical engineering company located in Spokane, Washington. Its work is performed primarily under fixed price contracts concentrated in the Pacific Northwest. The operating cycle of the Company's contracts varies, but is typically less than one year.

**Note 2 – Summary of Significant Accounting Policies:**

A summary of the significant accounting policies followed by the Company in preparing the accompanying consolidated financial statements follows:

Consolidated financial statements

The accompanying consolidated financial statements include those of Enviro-Energy Corporation and its consolidated subsidiaries. Intercompany accounts and transactions have been eliminated in consolidation.

**Enviro-Energy Corporation**  
**Notes to the Consolidated Financial Statements**

**Note 2 – Summary of Significant Accounting Policies (continued):**

Method of accounting for long-term construction contracts

Contract revenue included in the accompanying consolidated financial statements was determined using the percentage-of-completion method of accounting which takes into account the cost, estimated earnings, and revenue-to-date on fixed-fee and cost-plus-fee contracts not yet completed.

The amount of revenue recognized at the balance-sheet date is the portion of the total contract price that the cost expended to date bears to the anticipated final cost based on current estimates of cost to complete. It is not related to the progress billings to customers. This method is used because management considers total cost to be the best available measure of progress on the contracts. Because of inherent uncertainties in estimating costs, it is at least reasonably possible that the estimates used will change within the near term.

Because long-term contracts extend over one or more years, changes in job performance, changes in job conditions, and revisions in estimates of cost and earnings during the course of the work are reflected in the accounting period in which the facts that require the revision become known. Claims for additional contract revenue are recognized when realization of the claim is assured and the amount can reasonably be determined.

At the time a loss on a contract becomes known, the entire amount of the estimated ultimate loss is recognized in the consolidated financial statements.

Contracts that are substantially complete are closed for financial statement purposes. Revenue earned on contracts in progress in excess of billings is (Under billings) classified as a current asset. Amounts billed in excess of revenue earned (Over billings) as a current liability.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Significant estimates used in preparing the accompanying consolidated financial statements include those involved in determining contract revenue under the percentage-of-completion method, the determination of the deferred tax asset valuation allowance, and the valuation of assets, including goodwill, acquired in business combinations. Actual results could differ from those estimates.

Cash and cash equivalents

The Company maintains a cash balance in a non-interest-bearing account that currently does not exceed federally insured limits. For the purpose of the statements of cash flows, all highly liquid investments with an original maturity of three months or less are considered to be cash equivalents.

Accounts receivable

Accounts receivable, including contract receivables, are carried at the original invoice amount and are written off in the period in which they are determined to be uncollectible. Management determines the collectibility of accounts by regularly evaluating individual customer receivables and considering a customer's financial condition, credit history, and current economic conditions. Recoveries of trade receivables previously written off are recorded when received. Management's evaluation resulted in a no allowance for doubtful accounts at the balance-sheet date.

**Enviro-Energy Corporation**  
**Notes to the Consolidated Financial Statements**

**Note 2 – Summary of Significant Accounting Policies (continued):**

Property and equipment

Property and equipment are stated at cost and are depreciated using the straight-line method based on the lesser of the estimated useful lives of the assets based on the following life expectancy:

Leasehold improvements	20 years
Equipment	5-10 years
Furniture and fixtures	4-6 years

Repairs and maintenance expenditures are charged to operations as incurred. Major improvements and replacements, which extend the useful life of an asset, are capitalized and depreciated over the remaining estimated useful life of the asset. When assets are retired or sold, the costs and related accumulated depreciation and amortization are eliminated and any resulting gain or loss is reflected in operations.

Goodwill

Goodwill represents the excess of the cost subsidiaries purchased over the assigned value of the net assets acquired. The Company reviews the recoverability of goodwill annually and whenever events or changes in circumstances indicate that the carrying value may not be recoverable. The measurement of possible impairment is based primarily on the ability to recover the balance of the goodwill from expected future operating cash flows on an undiscounted basis.

Loss per share

Net loss per share is presented in accordance with Statement of Financial Accounting Standards No. 128 (SFAS 128) "Earnings Per Share." Basic loss per share is computed by dividing losses available to common stockholders by the weighted average number of common shares outstanding during the year. Common shares issuable upon the exercise of stock purchase warrants or upon the conversion of preferred shares are not included in the loss per share computation as such shares are antidilutive.

Fair value of financial instruments

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of December 31, 2002. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values. These financial instruments include cash, notes and accounts receivable, accounts payable, and notes payable. Fair values were assumed to approximate carrying values for cash and payables because they are short term in nature and their carrying amounts approximate fair values or their stated interest rates approximate current market rates.

Impairment of long-lived assets

Long-lived assets held and used by the Company are reviewed for possible impairment whenever events or circumstances indicate the carrying amount of an asset may not be recoverable or is impaired. Subsequent to December 31, 2001, the Company entered into an agreement to dispose of the net assets and liabilities of Environmental Reclamation, Inc. valued at \$2,276,582 (see Note 8). As of December 31, 2001, the amount was written off as "loss on disposition of assets."

**Enviro-Energy Corporation**  
**Notes to the Consolidated Financial Statements**

**Note 2 – Summary of Significant Accounting Policies (continued):**

Stock-based compensation

The Company accounts for stock-based awards to employees in accordance with Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" and related interpretations and has adopted the disclosure-only alternative of FAS No. 123, "Accounting for Stock-Based Compensation." For the years ended December 31, 2002 and 2001, there were no stock options issued or outstanding. Common shares granted to consultants, independent representatives and other non-employees are accounted for using the fair value method as prescribed by FAS No. 123.

Deferred income taxes

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Segment reporting and concentration

The Company's operations are principally in the commercial electrical construction contracting industry. Segment information is not presented since substantially all the Company's revenue is attributed to a single reportable segment. The following major customers individually represented over 10% of the Company's 2002 revenue:

Customer 1	19%
Customer 2	11%

Reclassifications

Certain reclassifications of 2001 amounts have been made in the accompanying consolidated financial statements to conform to the 2002 presentation, with no effect on the previously reported net loss.

**Enviro-Energy Corporation**  
**Notes to the Consolidated Financial Statements**

**Note 3 - Contracts in progress**

For the years ended December 31, 2002 and 2001, contract amounts, costs, estimated earnings, and the related billings to date on completed contracts and contracts in progress were as follows:

	2002		
	Contract Revenues	Contract Cost	Gross Profit
Total construction activity	\$ 15,094,054	\$13,405,100	\$ 1,688,954
Construction contracts completed during the year	6,949,847	5,599,617	1,350,230
Construction contracts in progress at December 31, 2002	\$ 8,144,207	\$ 7,805,483	\$ 338,724

	2001		
	Contract Revenues	Contract Cost	Gross Profit
Total construction activity	\$ 16,151,600	\$ 13,918,207	\$ 2,233,393
Construction contracts completed during the year	10,967,522	9,456,156	1,511,366
Construction contracts in progress at December 31, 2002	\$ 5,184,078	\$ 4,462,051	\$ 722,027

Contracts in progress as of December 31, 2002 were as follows:

Cumulative costs to date	\$ 13,405,100
Cumulative gross profit to date	<u>1,688,954</u>
Cumulative revenue earned	15,094,054
Less progress billings to date	<u>14,393,108</u>
Net under billings	<u><b>\$ 700,946</b></u>

The following is included in the accompanying balance sheet under these captions as of December 31, 2002:

Costs and estimated earnings on contracts in progress in excess of billings	\$ 1,118,053
Billings in excess of costs and estimated earnings on contracts in progress	<u>417,107</u>
Net under billings	<u><b>\$ 700,946</b></u>

**Enviro-Energy Corporation**  
**Notes to the Consolidated Financial Statements**

**Note 4 - Property and equipment**

Property and equipment at December 31, 2002 consisted of the following:

Construction equipment & Vehicles	\$1,824,641
Tools	692,671
Office furniture and fixtures	50,575
Leasehold improvements	60,470
Land	<u>22,000</u>
	2,650,357
Less accumulated depreciation and amortization	<u>425,165</u>
Total	<b><u>\$2,225,192</u></b>

Depreciation and amortization expense was \$425,165 and \$318,109 for the years ended December 31, 2002 and 2001, respectively.

**Note 5 - Line of credit**

Colvico, Inc. maintains a \$1,000,000 revolving line of credit agreement with a local bank. The line expires in July 2003. Borrowings on the line bear interest at the bank's prime rate (4.25% at December 31, 2002), plus 0.25%. Any borrowings are collateralized by all equipment of the Company and are personally guaranteed by the president of Colvico, who is also an officer/director and stockholder of the Company. As of December 31, 2002, the outstanding balance was \$5,596.

**Note 6 – Long-term debt**

Long-term debt at December 31, 2002 consisted of the following:

Note payable, dated December 1, 2000, unsecured, non-interest-bearing, with an original principal of \$295,512. The note payable requires 33 monthly payments of \$8,955 through September 2003.	\$ 77,259
Fifteen notes payable, due various dates before February 2007, secured by vehicles and equipment. Interest rates range from 5.9% to 9.6%, and the notes payable require monthly payments of \$23,495.	<u>351,636</u>
	428,895
Less current portion	<u>248,387</u>
Long-term portion	<b><u>\$ 180,508</u></b>

Future minimum payments under the above notes payable at December 31, 2002 are as follows:

Year Ending December 31,	
2003	\$ 248,387
2004	63,673
2005	69,397
2006	42,240
2007	<u>5,198</u>
Total	<b><u>\$ 428,895</u></b>

**Enviro-Energy Corporation**  
**Notes to the Consolidated Financial Statements**

**Note 7 - Income taxes**

The provision for income taxes differs from the amount computed by applying the statutory federal income tax rate to the loss before provision for income taxes as follows:

	<u>2002</u>	<u>2001</u>
U.S federal statutory rate	(34%)	(34%)
Change in deferred tax asset valuation allowance	<u>34%</u>	<u>34%</u>
Total	<u>-%</u>	<u>-%</u>

As of December 31, 2002, the Company has a net operating loss carryforward of approximately \$15,000,000 for income tax purposes, which will be available to offset future taxable income. If not used, this carry forward will expire through 2022. The deferred tax asset relating to the operating loss carry forward has been fully offset by a valuation allowance at December 31, 2002 and 2001.

The principal components of deferred tax assets and liabilities consisted of the following at December 31, 2002:

	<u>2002</u>
Deferred tax asset:	
Operating loss carryforward	\$ 5,100,000
Deferred tax liability:	
Property, plant, and equipment	(200,000)
Deferred tax asset valuation allowance	<u>(4,900,000)</u>
Net deferred tax asset	<u>\$ -</u>

**Note 8 - Discontinued operations**

Following the purchase of ERI in February of 2001, the Company determined that its environmental reclamation business was not strategic to the Company's ongoing objectives and discontinued capital and human resource investment in the business. Accordingly, the Company elected to report its environmental reclamation business as discontinued operations by early adopting SFAS 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," in 2001. The financial statements have been reclassified to segregate the net assets and operating results of the discontinued operations for the year ended December 31, 2001.

**Enviro-Energy Corporation**  
**Notes to the Consolidated Financial Statements**

**Note 8 - Discontinued operations (continued)**

Summary operating results of the discontinued operations are as follows:

	For the Year Ended December 31, 2001
Revenue	<u><b>\$ 4,572,059</b></u>
Gross profit	<u><b>1,538,538</b></u>
Operating loss	(41,655)
Interest income	5,970
Interest expense	(232,168)
Other income	<u><b>150,076</b></u>
Loss from discontinued operations	<u><b>\$ (117,777)</b></u>

The operating loss in 2001 includes depreciation and amortization of \$318,019. In 2002 the Company eliminated certain assets and liabilities related to the discontinued operation, resulting in a 2002 gain of \$153,432.

Assets and liabilities of discontinued operations are as follows:

	December 31, 2001
Cash and cash equivalents	\$ 76,895
Other current assets	3,508,197
Property, plant and equipment, net	1,806,107
Goodwill	327,359
Investments	<u>246,300</u>
Assets of discontinued operations	<u><b>\$ 5,964,858</b></u>
Current liabilities	\$ 6,029,192
Long-term debt	633,983
Obligations under capital leases	<u>29,597</u>
Liabilities of discontinued operations	<u><b>\$ 6,692,772</b></u>

The Company agreed to dispose of ERI by exchanging its common shares for restricted shares of affiliates of J.W. Reed Corporation. Management has determined that such shares to be received in 2003 had nominal value and management intends to distribute them as a dividend to the Company's stockholders. Accordingly, no value has been placed on the shares to be received.

**Enviro-Energy Corporation**  
**Notes to the Consolidated Financial Statements**

**Note 9 - Stockholders' equity**

The Company is authorized to issue 300,000,000 shares of its \$0.001 par value common stock and 10,000,000 shares of its \$0.001 par value preferred stock. Preferred stock has a preference upon liquidation and has no stated dividend.

During 2002 and 2001 the Company entered into the following capital stock transactions:

<u>Description of transactions</u>	<u>Transaction Amount*</u>
2002 issuances (cancellation) of common stock:	
70,000 shares issued for legal services received	\$ 4,700
42,817 shares canceled to correct prior issuance	(2,569)
300,000 shares issued for Directors' services	42,000
1,000,000 shares issued to complete EFMI purchase	70,000
3,000,000 shares issued for consulting and royalties	<u>90,000</u>
Total 2002 common stock issuances	204,131
2002 issuable preferred stock:	
4,000,000 shares contracted to be issued for purchase of Colvico, Inc.	<u>4,000,000</u>
Total 2002 capital stock transactions	<b><u>\$4,204,131</u></b>
2001 issuances of common stock:	
75,000,000 shares issued upon conversion of 5,000,000 convertible preferred shares by certain stockholders at a 15:1 ratio	\$ -
10,039,167 shares issued to existing stockholders for consulting services	559,572
1,487,500 shares issued for consulting services	128,488
27,838,827 shares issued for cash pursuant to private offering	1,350,000
20,000 shares issued for legal services received	5,200
97,700,000 shares issued to a major stockholder for extinguishment of debt and financing enticements	6,954,700
314,153 shares issued marketing services	68,300
500,000 shares issued to acquire technology	170,000
3,150,743 shares issued to acquire ERI	2,276,582
10,000,000 shares issued for research and development services	200,000
193,891 shares issued for cash upon exercise of warrants	26,675
2,000,000 shares issued for financing enticements	<u>90,000</u>
Total 2001 common stock issuances	<b><u>\$11,829,517</u></b>

\*Transactions were valued at the market price of the Company's common stock at the date of the transaction. Shares issued in conjunction with business combinations were valued at the fair value of the underlying net assets of the business acquired.

Also in 2001, 297,500 common shares were authorized for issuance for cash but were canceled for nonpayment.

## Enviro-Energy Corporation

### Notes to the Consolidated Financial Statements

#### Note 10 – License agreement

The Company (through EFMI) has a non-exclusive invention license agreement with the owner of a patent on the “Anaerobic Digester System”. The agreement permits the Company to construct, operate, and sell anaerobic digester facilities using the licensed technology. The agreement terminates upon the expiration of the related patent or upon any default of obligations under the agreement. Royalties are payable quarterly at a rate of 8% of gross revenue from use of the technology up to a maximum royalty of \$100,000; thereafter, the rate drops to 5%.

#### Note 11 - Acquisitions

##### Environmental Reclamation, Inc.

On February 28, 2001, Enviro-Energy Corporation concluded an agreement with Environmental Reclamation, Inc. (ERI), an Ontario, Canada corporation and several of its shareholders whereby Enviro-Energy Corporation acquired a total of 6,257,894 shares of ERI's common stock from seven selling shareholders, representing 51% of ERI's total outstanding shares, in exchange for the issuance of a total of 3,150,743 shares of its authorized but unissued common stock. As discussed in Note 8, the Company discontinued the operation of ERI in early 2002 and recorded a loss on the discontinued business and disposal at December 31, 2001.

##### Energy Flow Management, Inc.

On July 7, 2001, the Company signed a Share Exchange Agreement to acquire 100% of Energy Flow Management Inc. (EFMI) for 1,000,000 restricted shares of the Company's \$0.001 par value common stock. These restricted shares were escrowed against completion of the first major project of EFMI, which is an Advanced Anaerobic Digester System (AADS), and were issued in 2002. EFMI has a non-exclusive license of patents pending protecting its process and technology for the AADS (see Note 10).

##### Colvico, Inc.

On January 29, 2002, the Company acquired all of the outstanding common shares of Colvico, Inc. The results of Colvico, Inc.'s operations have been included in the consolidated financial statements since that date. Colvico, Inc. is an electrical general contractor doing business in the states of Washington, Montana, Oregon and California.

The aggregate purchase price was \$4,000,000 in preferred stock that is convertible to common stock at a ratio of 4 shares of common stock for one share of preferred stock. The Company had not yet issued the preferred stock and no preferred shares had been converted to common shares through December 31, 2002.

The following table summarizes the estimated value of the assets acquired and liabilities assumed at the date of acquisition. The Company obtained a third-party valuation of certain rolling stock and performed a self-appraisal on titled equipment.

Current assets	\$ 3,187,286
Property and equipment	2,552,613
Intangible asset - Goodwill	756,551
Total assets acquired	<u>6,496,450</u>
Current Liabilities	1,796,509
Long-term debt	699,941
Total liabilities assumed	<u>2,496,450</u>
Net assets acquired	<u><b>\$ 4,000,000</b></u>

**Enviro-Energy Corporation**  
**Notes to the Consolidated Financial Statements**

**Note 11 - Acquisitions (continued)**

The depreciable assets acquired have average remaining lives of 5 to 10 years and will be written off to operations during that term.

Unaudited pro forma consolidated results of operations for the years ended December 31, 2002 and 2001 as though Colvico, Inc. had been acquired as of January 1, 2001 follow.

	<u>2002</u>	<u>2001</u>
Revenue	\$ 15,622,339	\$ 16,152,749
Net loss	\$ (272,343)	\$ (11,306,449)
Basic and diluted loss per share	\$ (0.00)	\$ (0.03)

**Note 12 - Related party transactions**

Colvico, Inc. (a subsidiary) rents its shop and office building from its president on a monthly basis. Rent expense for the years ended December 31, 2002 and 2001 was \$128,400 for each year.

Colvico, Inc. provides general accounting services for companies owned by its president and charges each company a monthly fee equivalent to the time spent. For 2002 such charges, included in other income, totaled \$48,400.

The Company has accounts receivable - related parties (Colvico's president and related companies) of \$387,847 and accounts payable - related parties (companies owned by Colvico's president) of \$68,658 at December 31, 2002.

In 2001 the Company issued 97,700,000 shares of its \$0.001 par value common stock to Thermal Products, Inc., a related entity, in exchange for the extinguishment of debt totaling \$1,428,123 and financing enticements totaling \$5,526,577, for a combined total of \$6,954,700, the fair market value of the underlying shares.

The Company issued 2,000,000 and 10,039,167, the shares of its \$0.001 par value common stock to certain shareholders of the Company for patent costs and consulting services valued at \$88,000 and \$559,572, the value of the underlying shares, for 2002 and 2001, respectively.

In 2001 the Company entered into an agreement with an officer and director to perform accounting and administrative services. The agreement was terminated later in 2001 and the total expenses incurred under the agreement totaled \$384,355 for the year ended December 31, 2001. The individual remains a stockholder of the Company but is no longer an officer/director. The demand note payable for the unpaid balance, including 8% interest, totaled \$351,826 at December 31, 2002.

**Note 13 - Warrants**

The Company has outstanding 1,000,000 warrants to purchase 1,000,000 shares of the Company's \$0.001 par value common stock at an exercise price of 75% of the average mean of the purchase price of the common stock for five trading days immediately preceding the notice of purchase.

**Enviro-Energy Corporation**  
**Notes to the Consolidated Financial Statements**

**Note 14 – Commitments and contingencies**

Leases

The Company entered into two operating lease agreements for rental of office and warehouse space in the state of Washington with terms ranging from three to five years. These leases require payments of taxes, insurance, and maintenance costs by the Company. The leases have either month-to-month rental clauses or no specified renewal options upon the expiration of the term. In addition, the Company subleases portions of its office and warehouse facilities under a month-to-month lease agreement for \$1,000 per month.

Future minimum lease payments under non-cancelable operating leases as of December 31, 2002 were as follows:

Year Ending December 31,	
2003	\$ 148,032
2004	151,032
2005	<u>27,000</u>
Total	<u><b>\$ 326,064</b></u>

For the years ended December 31, 2002 and 2001, total rent expense amounted to \$126,951 and \$99,587, respectively, net of sublease income of \$55,819 and \$79,000, respectively.

Penalties

The Company is subject to various penalties and liquidated damages in the event that certain jobs are not completed by the contracted completion date. Management does not believe that the outcome of these matters will have a material effect on the Company's financial position or results of operations.

Lease Guarantees

During the year ended December 31, 2002, the Company guaranteed certain non-cancelable operating leases on behalf of a related party. As of December 31, 2002, the future minimum lease payments under these non-cancelable operating leases were \$485,100.

Bonding Agreements

The Company has a bonding agreement with a surety company for its projects. As part of the bonding agreement, the surety has recourse against all of the Company's assets, and the surety's obligations are indemnified by the Company's president/sole shareholder. At December 31, 2002 the Company letters of credit totaling \$615,000 securing construction bonds.

Lease Litigation

In February 2002 the Company entered into a long-term operating lease agreement for office facilities. Later in 2002 management vacated the leased facility and sought to terminate the lease. In October 2002 the lessor filed a suit against the Company seeking approximately \$200,000 of the remaining lease payments. The parties are exploring possible settlement and management and legal counsel currently estimate the loss to total approximately \$20,000, which was accrued at December 31, 2002.

**Enviro-Energy Corporation**  
**Notes to the Consolidated Financial Statements**

**Note 15 – Contract backlog**

The following schedule summarizes changes in backlog on contracts during the year ended December 31, 2002. Backlog represents the amount of revenue the Company expects to realize from work to be performed on uncompleted contracts in progress at December 31, 2002 and from contractual agreements on which work has not yet begun:

Backlog balance at December 31, 2001	\$ 9,036,737
New contracts and contract adjustments during the year	<u>7,521,617</u>
Sub-total	16,558,354
Less contract revenue earned during the year	<u>15,054,619</u>
Backlog balance at December 31, 2002	<u><b>\$ 1,503,735</b></u>

**Note 16 - Retirement plan**

Colvico, Inc. maintains a profit sharing plan which covers all nonunion employees who have met the specific requirements as to age and length of service. Employees are eligible upon completing one year of service and attaining the age of 21. An employee must work at least 1,000 hours during a 12-month period for purposes of eligibility. The contribution each year is determined by the Company, and each participant receives an allocation of the annual contribution in proportion to his/her compensation for the plan year. Profit sharing expense for the years ended December 31, 2002 and 2001 was \$34,285 and \$125,475, respectively.

In addition, the Company pays union retirement benefits for workers covered under collective bargaining agreements. The Company does not administer these retirement plans and includes the benefit costs in job costs.

**ITEM 8. Changes In and Disagreements With Accountants on Accounting and Financial Disclosure.**

On January 9, 2003, we engaged LeMaster & Daniels PLLC as our independent accountants for the year ended December 31, 2002 and dismissed our former independent accountants, Beckstead & Watts. None of the reports of our former accountants or our current accountants, in respect of our financial statements for Calendar 2002 or Calendar 2001 contained an adverse opinion or a disclaimer of opinion, or was qualified or modified as to uncertainty, audit scope, or accounting principles. Our Board of Directors unanimously approved the change.

During our two most recent calendar years and to the date hereof, there have been no disagreements between us and our former accountants on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which if not resolved to the satisfaction of the former accountants, would have caused it to make reference to the subject matter of the disagreement in connection with its report.

**ITEM 9. Directors, Executive Officers, Promoters and Control Persons; Compliance with Section 16(a) of the Exchange Act**

a) The names, ages and positions of the Company's Directors and Executive Officers are as follows:

<u>Name</u>	<u>Age</u>	<u>Position</u>
Thomas Bowers	55	Chairman, CEO and CFO
Robert Peha	44	Director
Anthony Hepton(1)	44	Director
Cory Colvin	38	Director

(1) Mr. Hepton resigned in March 2003.

*Thomas Bowers.* Mr. Bowers has held the positions of CEO and CFO with the Company since 2002. He has been involved as an officer and/or director of over-the-counter Bulletin Board companies for approximately twenty-five years. He has held positions including chief operating officer, vice president of sales, chief executive officer and chairman of the board. All the businesses were primarily involved with alternative energy, energy reseller, manufacturing and international project management services. Mr. Bowers has a BA from the College of Idaho; MA Economics and an MBA from the UC/Berkeley.

*Robert Peha.* Mr Peha has held the position of director with the Company since 2001. He is currently an executive director for a leading developer and supplier of aerospace and defense hardware. Prior to this position he was a Vice President and General Manager of a solid propellant systems business with a Fortune 1000 company. His leadership experience includes engineering and project management on various defense and aerospace programs, department management and overall business unit leadership. He received a Bachelor of Science in Mechanical Engineering from the University of Washington, and a MBA from City University in Seattle Washington.

*Cory Colvin.* Mr. Colvin has been a director of the Company since 2002. He is responsible for direct supervision of all aspects of the electrical contracting business of the Company, incorporating all disciplines for proficiency and efficiency implementation. He also oversees strategic planning, market analysis and probing for potential business opportunities within Colvico's identified niche. Other responsibilities consist of monitoring all projects quality assurance, expense control/enforcement, scheduling, development of safety and QA/QC policies/procedures, and customer satisfaction. Other responsibilities, performed as necessary, consist of acting in the capacity of Project Engineering and Design. Duties consist of initiating design/build projects from the conceptual phase to the actual working design and installation. Specialization consists of complete electrical installation for commercial, industrial and residential for all phases of electrical ie:(design, rough-in, trim, and fixture/device installation). Other areas of expertise consist of complete fire alarm design and installation, airfield lighting, precision approach path indicator (PAPI) lighting, runway end indicator lighting (REIL) lighting, high voltage, highway illumination, traffic signalization, and specialty lighting design and installation (ie: parking lots, roadway, viaducts, sporting areas, parks, landscape lighting, and security lighting). He is familiar with all published codes and standards in respect to the electrical trade. (National Electric Codes (NEC)).

b) The Company has no significant employees as defined in Regulation S-B, Item 401(b).

c) There are no family relationships between any of the Company's principals.

d) Involvement on Certain Material Legal Proceedings During the Last Five Years

(1) No director, officer, significant employee or consultant has been convicted in a criminal proceeding, exclusive of traffic violations.

(2) No bankruptcy petitions have been filed by or against any business or property of any director, officer, significant employee or consultant of the Company nor has any bankruptcy petition been filed against a partnership or business association where these persons were general partners or executive officers.

(3) No director, officer, significant employee or consultant has been permanently or temporarily enjoined, barred, suspended or otherwise limited from involvement in any type of business, securities or banking activities.

(4) No director, officer or significant employee has been convicted of violating a federal or state securities or commodities law.

#### Compliance with Section 16(a) of the Exchange Act

Based solely on a review of Forms 4 and 5 furnished to the Company and filed with the Securities and Exchange Commission under Rule 16a-3(e) promulgated under the Securities Exchange Act of 1934, the Company believes that all directors, officers and beneficial owners of more than 10% of any class of equity securities filed on a timely basis the reports required by Section 16(a) of the Exchange Act during the most recent fiscal year.

## **ITEM 10. EXECUTIVE COMPENSATION**

### (1) Compensation of Executive Officers

Name	Title	Salary	Bonus	Common Stock
Thomas Bowers	Chairman/CEO	\$ 50,000	-0-	-0-
Cory Colvin	Director(1)	\$350,000	-0-	-0-
All Executive Officers as a Group		\$400,000	-0-	-0-

(1) Mr.Colvin receives compensation for his services to the Company's subsidiary, Colvico, Inc. of which he is President. He does not receive compensation for his services as director to Enviro-Energy.

The Company has no employment contracts in place with any of its Officers.

The Company has no standard arrangements to compensate its non-employee directors. During the year ended December 31, 2002, the Company issued 300,000 of its \$0.001 par value common shares to Robert Peha and 200,000 common shares to Anthony Hepton as compensation for their services as directors. Such shares were valued and recorded at \$28,000 and \$14,000, respectively.

## **ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT**

a) The following table sets forth information as of the date of this Registration Statement certain information with respect to the beneficial ownership of the Common Stock of the Company concerning stock ownership by (i) each director, (ii) each executive officer, (iii) the directors and officers of the Company as a group, and b) each person known by the Company to own beneficially more than five (5%) of the Common Stock. Unless otherwise indicated, the owners have sole voting and investment power with respect to their respective shares.

Title of Class	Name and Address of Beneficial Owner (1)	Amount and nature of beneficial ownership (all direct unless otherwise noted)	Percent of Class
<b>Principal Shareholders</b>			
Common	Split Rock Ventures, LLC (2)	55,500,000	21.43%
<b>Executive Officers and Directors</b>			
Common	Robert Peha	300,000	.10%
Common	Anthony Hepton (3)	200,000	.07%
Common	Cory Colvin	3,000,000	1.16%
	All directors and officers as a group	3,500,000	1.33%

(1) Address is c/o Enviro-Energy Corporation, 3897 Cinco Amigos, Santa Barbara, CA 93105

(2) Split Rock Ventures, LLC is owned 100% by Cory Colvin

(3) Mr. Hepton resigned in March 2003.

c) There are no arrangements which might result in a change of control of the registrant.

## **ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS**

Not applicable.

### **ITEM 13. EXHIBITS AND REPORTS ON FORM 8-K**

### **ITEM 14. CONTROLS AND PROCEDURES**

The Registrant's President and Principal Accounting Officer have evaluated the Registrant's disclosure controls and procedures within 90 days of the filing date of this annual report. Based upon this evaluation, the Registrant's President and principal Accounting Officer concluded that the Registrant's disclosure controls and procedures are effective in ensuring that material information required to be disclosed is included in the reports that it files with the Securities and Exchange commission.

There were no significant changes in the Registrant's internal controls or, to the knowledge of the management of the Registrant, in other factors that could significantly affect these controls subsequent to the evaluation date.

## SIGNATURES

Pursuant to the requirements of Section 12 of the Securities Exchange Act of 1934, the Company has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

## CERTIFICATION

I, Thomas Bowers, certify that:

1. I have reviewed this annual report on Form 10-KSB of Enviro-Energy Corporation.
2. Based on my knowledge, this annual report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this annual report.
3. Based on my knowledge, the financial statements, and other financial information included in this annual report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of and for the periods presented in this annual report.
4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the Registrant and have:
  - a. designed such disclosure controls and procedures to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this annual report is being prepared;
  - b. evaluated the effectiveness of the Registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this annual report (the "Evaluation Date"); and
  - c. presented in this annual report our conclusions about the effectiveness of disclosure controls and procedures based on our evaluation as of the Evaluation Dates.
5. I have disclosed, based on our most recent evaluation, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
  - a. all significant deficiencies in the design or operations of internal controls which could adversely affect the Registrant's ability to record, process, summarize and report financial data and have identified for the Registrant's auditors any material weaknesses in internal controls; and
  - b. any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal controls; and
6. I have indicated in this annual report whether there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
