Non-GAAP Financial Measures

Non-GAAP gross margin, operating expenses, net loss and net loss per share, where applicable, exclude the effect of stock-based compensation and, with respect to the six months ended June 30, 2008, restructuring expense, the gain on sale of our DSL related assets, the gain on legal settlement, the benefit due to the reversal of accrued royalties; and with respect to the six months ended June 30, 2007, the loss on legal settlement and restructuring expense. The company uses the non-GAAP information internally to evaluate its continuing operational performance and its cash requirements and to determine incentive compensation, and believes these non-GAAP measures are useful to investors as they provide additional insight into the underlying operating results and the company's cash requirements and its ongoing performance in the ordinary course of its operations. However, non-GAAP measures are not stated in accordance with, should not be considered in isolation from and are not a substitute for GAAP measures, and our non-GAAP measures may be different from similarly titled non-GAAP measures reported by other companies.
