QUINTEK TECHNOLOGIES, INC.

NOTES TO THE FINANCIAL STATEMENTS AS OF MARCH 31, 2002 (UNAUDITED)

(1) BASIS OF PRESENTATION

In the opinion of management, the accompanying unaudited financial statements of Quintek Technologies, Inc. (the "Company") include all adjustments (consisting only of normal recurring adjustments) considered necessary to present fairly its financial position as of March 31, 2002, the results of operations for the nine and three months ended March 31, 2002 and 2001, and cash flows for the nine months ended March 31, 2002 and 2001. The results of operations for the nine and three months ended March 31, 2002 and 2001, are not necessarily indicative of the results to be expected for the full year or for any future period. The information included in this Form 10-QSB should be read in conjunction with Management's Discussion and Analysis and financial statements and notes thereto included in the Company's 2001 Form 10-KSB.

(2) GOING CONCERN

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles, which contemplate continuation of the Company as a going concern; however, the Company has sustained substantial operating losses. In view of this matter, realization of a major portion of the assets in the accompanying balance sheet is dependent upon continued operations of the Company, which in turn is dependent upon the Company's ability to meet its financing requirements, and the success of its future operations.

The Company's management is unable to determine how long its cash flow will sustain its operations or whether certain creditors will initiate actions to collect amounts due. Accordingly, the Company will require an additional capital infusion or revenues from additional sales to continue operations. Management is not certain if additional capital or sales proceeds will become available and is considering other strategic alternatives, which may include a merger, asset sale, or another comparable transaction, or financial restructuring. If unsuccessful in completing a strategic transaction, the Company may be required to cease operations.

(3) INVESTMENTS

The investment held by the Company consists of an 8.516% ownership interest in PanaMed, Inc., a C corporation at March 31, 2002. The Company exerts significant influence over PanaMed, Inc. because of common management; therefore, the investment is accounted for using the equity method of accounting.

(4) NET LOSS PER SHARE

Basic net loss per share is based on the weighted average number of common shares outstanding of 32,232,302 and 19,786,358, for the nine month periods ended March 31, 2002 and 2001, respectively. The weighted average number of common shares outstanding for the three-month periods ended March 31, 2002 and 2001 was 36,460,204 and 21,475,676, respectively. The basic and diluted net loss per share calculations are the same because potential dilutive securities would have had an antidilutive or immaterial effect. Securities that were not included in the net loss per share calculation because they were antidilutive consist of the convertible bonds and warrants.

(8) FACTORING PAYABLE

The Company has entered into an arrangement with a factoring company (the "Factor") to factor receivables with recourse. The Factor funds 85% of the face value of approved invoices and retains the remaining 15% as a deposit against its fees. The factoring fee is 1% of the factored amount for every 10 days of use. The deposit, less fees, is refunded to the Company once payment is received from the customer. The Company records a factoring payable liability for the amount of the funds received from the Factor. When payment is ultimately received from the customer, the factoring payable and the related receivable are removed from the balance sheet. At March 31, 2002, the Company had a factoring payable balance of \$130,490.

NOTES TO THE FINANCIAL STATEMENTS AS OF MARCH 31, 2002 (UNAUDITED)

(10) COMMITMENTS AND CONTINGENCIES

a. SEC Inquiry

During the first quarter of 2002, the Company learned the Securities and Exchange Commission has undertaken an informal inquiry to determine whether violations of federal securities laws may have occurred in connection with sales of securities issued by the Company or the Company's affiliate, Panamed Corporation. The Company believes that the inquiry relates mainly to press releases issued in October 2001 about the formation of PanaMed and in January and March 2002 about the attempts to begin selling equipment in Central Europe, and about the trading patterns in the Company's securities around the time those announcements were made. The Company does not believe the inquiry will have an adverse effect on the financial statements.

In October 2001, the Company sold 2,000,000 shares of common stock to an investor. The agreement stipulated that the Company would file a registration statement for the investor's stock within 30 days of the sale. As of March 31, 2002, the registration statement has not been filed. The Company is negotiating a settlement to the agreement.

(11) SUBSEQUENT EVENTS

Subsequent to March 31, 2002, the Company issued 2,743,523 shares of restricted common stock for cash in the amount of \$139,102. Additionally, 51,462 shares of restricted common stock were issued from the conversion of convertible bonds.

Item 2. Management's Discussion and Analysis

1.1 Results of Operations

Our revenues totaled \$333,472 and \$546,642 for the nine months ended March 31, 2002 and 2001, respectively, a decrease of \$213,170 (39%) due primarily to a decrease in machine sales. Our revenues totaled \$121,084 and \$79,692 for the three months ended March 31, 2002 and 2001, respectively, an increase of \$41,392 (52%). The majority of equipment sales in the prior year occurred in the three months ended December 31, 2000.

For the nine months ended March 31, 2002 and 2001, cost of sales was \$141,195 and \$327,272, respectively, a decrease of \$186,077 (57%). For the three months ended March 31, 2002 and 2001, cost of sales was \$35,831 and \$73,830, respectively, a decrease of \$37,999 (51%). The decrease in cost of sales is due to a decrease in machine sales. Our cost of sales for both periods consisted mostly of labor and production costs.

Operating expenses totaled \$866,376 for the nine-month period ended March 31, 2002 as compared to \$888,166 for the prior nine-month period. Operating expenses totaled \$136,554 and \$230,691 for the three months ended March 31, 2002 and 2001, respectively, a decrease of \$94,137 (41%). This decrease is due primarily to a reduction in stock based compensation expenses.

Other expenses of \$219,961 for the nine-month period ended March 31, 2002, and \$198,218 for the three-month period ended March 31, 2002, consists primarily of our share of the loss of PanaMed, Inc. Our investment in PanaMed, Inc., is accounted for using the equity method. Under this method of accounting, the investment is carried at cost, adjusted for our proportionate share of undistributed earnings or losses.

We incurred acquisition expenses of \$100,000 and \$600,000 in the twelve months ended June 30, 2001 and 2000, respectively. In the quarter ended March 31, 2000, we acquired Juniper Acquisition Corporation, a blank check corporation that was registered with the Securities and Exchange Commission under the Securities Exchange Act of 1934. We incurred acquisition expenses of \$600,000 in the nine months ended March 31, 2000, and \$100,000 in the six months ended June 30, 2001, in connection with the Juniper acquisition. We acquired Juniper in order to comply with the OTC Bulletin Board requirement that all issuers must be registered with the SEC under the Exchange Act, in order to continue to be quoted on the OTC Bulletin Board.

1.2 Liquidity and capital resources

We have historically financed operations from the sale of common stock and the conversion of common stock warrants. At March 31, 2002, we had cash on hand of \$970 and working capital of \$(1,002,949) as compared to cash on hand of \$3,073 and working capital of \$(1,022,410) at period-end, June 30, 2001.

Net cash used in operating activities of \$268,989 and \$350,084 for the nine months ended March 31, 2002 and 2001, respectively, is attributable primarily to operating losses as adjusted for stock

based compensation.

Net cash provided by investing activities of \$2,400 for the nine months ended March 31, 2002 consists of purchases of fixed assets and shareholder repayments on notes receivable. Net cash used in investing activities of \$2,837 for the nine months ended March 31, 2001 consists of purchases of fixed assets and shareholder payments of notes receivable.

Net cash provided by financing activities of \$264,486 for the nine months ended March 31, 2002 is due to cash received from the issuance of common stock, borrowing on convertible bonds, and other miscellaneous adjustments. Net cash provided by financing activities of \$350,309 for the nine months ended March 31, 2001 is due primarily to cash received from the issuance of common stock less payments on convertible bonds.

During the first quarter of 2002, we learned the Securities and Exchange Commission has undertaken an informal inquiry to determine whether violations of federal securities laws may have occurred in connection with sales of securities issued by our affiliate, PanaMed Corporation or us. We believe that the inquiry relates mainly to press releases issued in October 2001 about the formation of PanaMed and in January and March 2002 about our attempts to begin selling equipment in Central Europe, and about the trading patterns in our securities around the time those announcements were made.

We occasionally enter into factoring agreements with a factoring company (the "Factor"). The Factor funds 85% of the face value of approved invoices and retains the remaining 15% as a deposit against its fees. When payments are remitted to the Factor, the deposit, less fees ranging from 1% to 15%, is refunded. Fees are determined based on the length of time the invoice is outstanding.

We have accrued substantial payroll costs over the past twelve months that are unpaid as of March 31, 2002. These payroll costs are paid intermittently as cash becomes available. In addition, we assumed certain payroll tax liabilities as the result of the merger with Pacific Diagnostic Technologies, Inc., on January 14, 1999. We have negotiated a payment plan with the Internal Revenue Service to pay the payroll taxes assumed in the merger.

We believe that the receipt of net proceeds from the sale of the common stock and the exercise of common stock warrants plus cash generated internally from sales will be sufficient to satisfy our future operations, working capital and other cash requirements for the remainder of the fiscal year. However, if we are unable to raise sufficient capital, we may need sell certain assets, enter into new strategic partnerships, or merge with another company to effectively maintain operations. Our audit for the years ended June 30, 2001 and 2000, contained a going concern qualification.

Part II. Other Information

Item 2. Changes in Securities and Use of Proceeds

From December 31, 2001, to March 31, 2002, we issued 543,706 shares of our restricted

common stock in transactions that were not registered under the Securities Act of 1933, as follows:

(A) On January 8, 2002, we sold 360,000 shares of restricted common stock at an average price of \$0.05 per share to three individuals in reliance on the exemption contained in Section 4(2) of the Securities Act of 1933, for a total consideration of \$23,000. The closing price of our common stock on the OTC Bulletin Board on the day these shares were sold was \$0.21 per share.

Item 3. Defaults Upon Senior Securities

At March 31, 2002, we were in default on payment of \$211,064 of convertible bond indebtedness. These bonds matured during 2001 but have not been repaid. Our total bond indebtedness at December 31, 2001 was \$351,405 including the amount in default. Interest continues to accrue on the defaulted indebtedness. At May 15, 2002, the amount remaining due and unpaid on the defaulted indebtedness was \$160,164.

The convertible bonds are unsecured, general obligations of Quintek which are convertible into common stock at the option of the holders. The holders of the bonds that are in default have indicated that they do not want to convert their debt to stock and wish to be repaid in cash. At present we do not have funds to repay the indebtedness. We do not know whether we will be

able to repay or renegotiate the debt. If we are unable to cure the default or renegotiate our debt, we may not be able to continue as a going concern.
