News Release

Third Quarter Results and Update On Business Activities

North Vancouver, British Columbia, April 29, 2004 – Open EC Technologies, Inc. (the “Company”) (TSX-V:OCE; OTC:OCEIF). The Company announces the financial results for the third quarter ended February 29, 2004 and provides an update on its operating activities. The Company has SEDAR filed its BC Form 51-901F Third Quarter Report containing financial statements prepared by management without audit for the nine months ended February 29, 2004 (the “Quarterly Report”). Pursuant to the requirements of National Instrument 54-102, this news release provides a reasonable summary of the information contained in the Quarterly Report.

Financial Review

As at February 29, 2004 and February 28, 2003:

As of February 29, 2004, Open EC had \$9,952 in cash and cash equivalents compared with \$23,515 as of February 28, 2003. Open EC's working capital at February 29, 2004 was (\$537,351) compared with working capital of (\$251,622) as at February 28, 2003. Capital assets, which represent net book value of computer and testing equipment, computer software, office equipment, office furniture, display booths and leasehold improvements were \$124,471 at February 29, 2004 compared with \$144,755 as at February 28, 2003. As the Company's expenses continue to exceed revenues, the Company's net current assets discussed above decreased by \$19,635 in the quarter ended February 29, 2004.

Open EC generates revenue through software sales, consulting services, training services and maintenance fees. Product sales were derived through two alternative fee structures: licensing fees and software royalties. Service and maintenance contracts are generally entered into at the time a product sale is completed.

Revenue for the quarter ended February 29, 2004 was \$127,355 compared with \$170,701 for the quarter ended February 28, 2003 and \$136,225 for the quarter ended November 30, 2003. Revenue for the nine months ended February 29, 2004 was \$375,079 compared with \$423,107 for the nine months ended February 28, 2003.

Open EC has found that the North American market for business-to-business electronic commerce platforms and services is changing rapidly but that significant real opportunities, which may produce significant revenues, are still at an early stage of development. Open EC's ultimate success depends upon substantial organizations buying and implementing its software products and related services. The implementation of these software products by these organizations is complex, time consuming and

expensive. It also requires that these organizations change established business practices and conduct business in new ways. Open EC's ability to attract customers requires a significant amount of consultation and collaboration with the potential customers during the sales process. These factors lead to long closing cycles but generally result in stable long-term relationships, which produce recurring revenue streams for the Company.

Salaries and wages for the quarter ended February 29, 2004 were \$112,821 compared with \$131,232 for the quarter ended February 28, 2003. The decrease represents the continuing effects of a cost cutting program by management in 2003/2004.

General and administrative expenses for the quarter ended February 29, 2004 were \$100,368 compared with \$94,880 for the quarter ended February 28, 2003. The increase is primarily the result of increased professional fees.

Amortization expense for the quarter ended February 29, 2004 was \$4,777 compared with \$11,537 for the quarter ended February 28, 2003. The decrease of this expense reflects a continued slowdown in upgrading equipment, software and leasehold improvements.

Other expenses incurred relate primarily to net interest costs (\$6,429) for the quarter ended February 29, 2004 compared to nil interest income for the quarter ended February 28, 2003. This change from net interest income to net interest expense reflects the financing cost associated with a convertible debenture. Long-term interest expense for this quarter was \$6,439 versus nil in 2003.

Operating Activities

Open EC is a provider of business-to-business electronic commerce platforms. It has a strong history in the provision of software, which enables business-to-business electronic commerce. The operating company, SoftCare EC Solutions Inc. (formerly SoftCare Electronic Commerce Inc.) was founded in 1990 and developed software to facilitate business-to-business electronic exchange of documents. Open EC's first product, Tradelink, has been recognized as a leader in the electronic data interchange ("EDI") market. In the late 1990's management recognized the potential for the expansion of business-to-business transactions through the use of the internet. As a result the Company embarked on the development of an internet based business-to-business electronic commerce platform in 1997. Since that time the Company's new Open E|C business-to-business electronic commerce platform has been under continuous development, this involves conducting research and developing the initial and subsequent versions of the Open E|C platform. In June of 1999, the first version of Open E|C was installed and Open EC began selling the Open E|C platform and related services. Open EC currently markets both Open E|C and Tradelink primarily in the United States and Canada.

Open EC's primary focus remains the business-to-business electronic exchange of documents. In this respect Tradelink remains an important component of the Company's sales. Open EC continues to enhance Tradelink in order to drive its acceptance in the EDI market place. Open EC also has developed and continues to develop certain applications to support its Open|EC Platform.

The Company's near term milestones include the development, with its partner Mala Ventures, Inc. (a company controlled by a director of the Company), of a suite of products to be co-marketed by an independent third party U.S. company to their existing customer base. The delivery of these products and their commercial application is expected in the fiscal year ended 2004.

The settlement of certain longstanding liabilities by way of shares for debt settlements totaling up to \$200,000 was recently announced. The Company is also carrying out negotiations to settle other debts for cash settlements, and complete working capital financings of approximately \$500,000 within the next six months.

The foregoing contains forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995. The statements may be identified by such forward-looking terminology as “expert,” “believe,” “may,” “will,” “intend,” “plan,” and similar statements or variations. Such forward-looking statements are based on our current estimates and assumptions and involve certain significant risks and uncertainties, including: risk associated with and dependence on the industry subject matter of the information; fluctuations in quarterly revenues due to lengthy selling cycles; product implementation cycles; customer budget cycles; and timing of revenue recognition; dependence on major customers; successful and timely development and introduction of new products and versions; rapid technological changes; increased competition; retention of key senior managers; and other industry related factors. Other important factors that should be considered are included in the Company’s audited financial statements for the fiscal year ended May 31, 2003 and other reports filed on SEDAR and the Company’s 20F and 6K’s files with the SEC. Actual results may differ materially. The Company assumes no obligation for updating any such forward-looking statements.

Open EC Technologies, Inc.

(formerly Softcare EC Inc.)

Notes to Financial Statements

1. NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Open EC Technologies, Inc., (the “Company”) was incorporated pursuant to the Company Act of the Province of British Columbia on March 30, 1981. On November 8, 2001 the Company changed its name from SoftCare EC.Com, Inc. to Softcare EC Inc. On June 23, 2003 the Company changed its name from Softcare EC, Inc. to Open EC Technologies, Inc.

The Company and its subsidiary companies develop and market Electronic Data Interchange (“EDI”) software primarily to retailers, financial and public institutions, utility companies, pharmaceutical companies and wholesalers across Canada, the United States and Asia. The Company and its subsidiary companies also develop and market e-commerce software, providing software through internet portals and by licenses, as well as providing consulting and support services to both domestic and international markets.

These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles, on a going concern basis, which presumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future.

The Company incurred a loss of \$97,748 for the quarter ended February 29, 2004 [2003 - \$69,558], and has a deficit of \$17,007,795 as at February 29, 2004 [2003 – \$16,318,348], which has been funded primarily by the issuance of securities and increased payables.

The Company’s continuation as a going concern is uncertain and is dependent upon its ability to achieve profitable operations and upon the continued financial support of its shareholders, option holders and warrant holders or upon its ability to obtain additional financing or new equity.

The Company’s ability to achieve profitability and positive cash flows from operations will depend upon numerous factors. These factors include its ability to attract strategic corporate partners for the development, marketing, distribution, and sale of its software products, the progress of its research and development programs and its ability to protect its proprietary rights over product names and trademarks. The outcome of these matters cannot be predicted at this time. These consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue in business.

2. SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements have been expressed in Canadian dollars and are prepared in accordance with Canadian generally accepted accounting principles. A reconciliation of amounts presented in accordance with United States generally accepted accounting principles is detailed in note 15. The following is a summary of the significant accounting policies used in the preparation of these consolidated financial statements:

Principles of consolidation

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, SoftCare EC Solutions Inc. (a Canadian company), (formerly SoftCare Electronic Commerce Inc.), and Solutions’s wholly owned subsidiaries, SCC Holdings Ltd. (a Canadian company), SCEC Holdings Ltd. (a Canadian company) and SoftCare Electronic Commerce (U.S.A.) Inc. (a Washington corporation). All significant intercompany balances and transactions have been eliminated on consolidation.

Cash and cash equivalents

The Company considers all highly liquid financial instruments purchased with an original maturity of three months or less to be cash equivalents. Cash equivalents are recorded at cost, which approximates market value.

Open EC Technologies, Inc.

(formerly Softcare EC Inc.)

Notes to Financial Statements

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Translation of foreign currencies

The Company follows the temporal method of accounting for the translation of integrated foreign subsidiary operations. Monetary assets and liabilities of foreign subsidiaries denominated in foreign currencies are translated into Canadian dollars at the exchange rate in effect at the balance sheet date. Other balance sheet items are translated at exchange rates in effect when the assets are acquired or obligations incurred. Revenue and expense items are translated at the average rate of exchange for the period. Foreign exchange gains and losses resulting from these translations are reflected in the consolidated statement of operations.

Short-term investments

Short-term investments are available for sale securities and are carried at market value. Short-term investments consist of investments in a term note, with financial institutions with an original maturity of more than three months.

Leases

Leases are classified as either capital or operating leases. Leases which transfer substantially all the benefits and risks of ownership of the property to the Company are accounted for as capital leases. Capital lease obligations reflect the present value of future lease payments, discounted at the appropriate interest rate.

All other leases are accounted for as operating leases wherein rental payments are expensed as incurred.

Software development costs

Software development costs are charged to expense as incurred unless the development project meets the criteria under Canadian generally accepted accounting principles for deferral and amortization. The Company has not deferred any software development costs to date.

Capital assets

Capital assets are stated at cost less accumulated amortization. Capital assets are amortized at rates sufficient to write off their cost over their estimated useful lives on a declining balance method, after taking into account their estimated residual values, at the following annual rates:

Computer and testing equipment	30%
Computer software	100%
Office equipment	20%
Office furniture	20%
Display booths	30%
Leasehold improvements	Lesser of the term of the lease or the remaining estimated useful life of the asset

Computer and office equipment acquired under capital leases is amortized on a straight-line basis over the lesser of the term of the lease or the remaining estimated economic life of approximately three to five years.

Open EC Technologies, Inc.

(formerly Softcare EC Inc.)

Notes to Financial Statements

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Advertising Expense

Advertising costs are charged to expense as incurred. Advertising expense for the quarter ended February 29, 2004 was nil [2003-nil].

Income Taxes

The Company utilizes the liability method of tax allocation. Under this method, future tax assets and liabilities are determined based on differences between financial reporting and tax bases of assets and liabilities, and measured using the substantially enacted tax rates and laws that will be in effect when the differences are expected to reverse. If it is more likely than not that some portion or all of a future tax asset will not be realized, a valuation allowance is recognized.

Stock based compensation

Effective June 1, 2002, the Company adopted the new recommendations of the CICA Handbook Section 3870, "Stock-based Compensation and Other Stock-based Payments" ("Section 3870") which requires that a fair value-based method of accounting be applied to all stock-based payments to non-employees and to employee awards that are direct awards of stock, awards that call for settlement in cash or other assets or are stock appreciation rights that call for settlement by the issuance of equity instruments. Section 3870 permits the Company to continue its existing policy of treating all other employee and director stock options as capital transactions (the settlement method), but requires no pro forma disclosure of net income and per share information as if the Company has accounted for these stock options under the fair value method. No restatement of prior periods is required as a result of the adoption of the new recommendations.

Employee stock bonus plan

Equity instruments contributed to the Employee Stock Bonus Plan (the "Plan") by the Company are recorded at their estimated fair value at the date of their contribution and are recorded as a credit in shareholders' equity. A contra equity account is recognized until allocations to participants are made and compensation expense is recognized.

Compensation expense is measured based on the intrinsic value of the award at the date of grant and recognizes that cost in the period when it is likely that performance criteria will be met and/or the equity instruments allocated to participants will be released.

Impairment of long-lived assets

The Company monitors the recoverability of long-lived assets, including capital assets and goodwill, based upon estimates using factors such as future asset utilization, business climate and future non-discounted cash flows expected to result from the use of the related assets or to be realized on sale. The Company's policy is to write down assets to their net recoverable amount using undiscounted cash flows, in the period when it is likely that the carrying amount of the asset will not be recovered.

Open EC Technologies, Inc.

(formerly Softcare EC Inc.)

Notes to Financial Statements

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue recognition

A software supply arrangement entered into by the Company may encompass multiple elements, including software sales, consulting services, training services and maintenance fees. The total fee for a multiple element arrangement is allocated to each element based upon objective evidence of the fair value of each element. Fair value is established through the Company's policy to charge to customers the same price as when the element is sold separately. Revenue from sales made to re-sellers is recognized after the third-party sale occurs and the revenue is determinable. Consulting services offered by the Company are not considered essential to the functionality of the software arrangement. As a result, consulting and training services revenues are recognized as the work is performed. Maintenance contract revenue is deferred and recognized over the respective contract periods. Revenue from direct software sales is recognized when the product has been delivered, as no significant obligations remain, fees are fixed and determinable, collectibility is probable, and persuasive evidence of an arrangement exists. If software sales are contingent upon successful installation and subsequent customer acceptance, the revenue and work in progress costs are deferred until customer acceptance is achieved.

Financial instruments

The carrying value of cash and cash equivalents, accounts receivable, bank indebtedness, accounts payable and accrued liabilities approximate their fair values due to the relatively short periods to maturity. The fair value of short-term investments has been determined based on quoted market prices. The carrying value of capital lease obligations approximates fair value as the effective interest rate on these instruments approximate current market rates. The carrying value of subsidiary redeemable Class A preference shares approximates fair value based on discounted cash flows.

Income (loss) per share

Loss per common share for the quarters ended February 29, 2004 and February 28, 2003 is computed by dividing the loss for the period by the weighted average number of common shares outstanding during the period, excluding shares held by the SoftCare Employee Stock Bonus Plan Trust ("SESB Trust"). Loss per share reflects the potential dilution of securities that could result from the exercise of dilutive options and warrants. For the quarters ended February 29, 2004 and February 28, 2003, none of the outstanding options and warrants has been included in the calculation of diluted loss per common share because their effect was anti-dilutive.

For the quarters ended February 29, 2004 and February 28, 2003

	2004 \$	2003 \$
<hr/>		
Numerator		
Loss for the quarter	(97,748)	(69,558)
Denominator		
Weighted average number of common shares outstanding	2,324,362	2,324,362
Less: Employee Stock Bonus Plan Shares(1)	77,420	77,420
Basic loss per common share	(0.044)	(0.031)

(1) Adjusted for share consolidation effective June 2003.

Open EC Technologies, Inc.

(formerly Softcare EC Inc.)

Notes to Financial Statements

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of estimates

The preparation of the consolidated financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts recorded in the consolidated financial statements. Actual results could differ from these estimates.

3. CREDIT AND EXCHANGE RATE RISK

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist principally of cash and cash equivalents that are held with one financial institution and accounts receivable. The Company operates internationally, which gives rise to the risk that cash flows may be adversely impacted by exchange rate fluctuations. The Company's operations are in the field of supplying electronic commerce computer software licenses and support services to domestic and international markets. Many of its customers are outside of Canada and therefore a significant percentage of its revenues may be derived from, and may be paid in, U.S. dollars. The Company has not entered into contracts for foreign exchange hedges. The Company performs ongoing credit evaluations of its customers and maintains allowances for potential credit losses which, when realized, have been within the range of management's expectations.

As at February 29, 2004 three [February 28, 2003 - five] customers represented 67% [February 28, 2003 - 80%] of the accounts receivable balance. For the period ended February 29, 2004 seventy-one [February 28, 2003 - sixty-five] customers represented 100% of sales [February 28, 2003 - 100%].

4. CAPITAL ASSETS

As at February 29, 2004	Cost	Accumulated amortization	Net book value
	\$	\$	\$
Computer and testing equipment	401,681	367,947	33,734
Computer software	175,674	174,712	962
Software License	23,450	-	23,450
Office equipment	40,179	29,470	10,709
Office furniture	131,510	75,895	55,616
Display booths	25,063	25,063	-
	<u>797,557</u>	<u>673,087</u>	<u>124,471</u>

As at February 28, 2003

Computer and testing equipment	401,681	351,566	50,115
Computer software	174,713	172,691	2,022
Office equipment	42,808	23,971	18,837
Office furniture	131,510	61,991	69,519
Display booths	25,063	20,801	4,262
Leasehold improvements	-	-	-
	<u>775,775</u>	<u>631,020</u>	<u>144,755</u>

Capital assets include computer and office equipment acquired under capital leases having a cost of \$333,165 [2003 - \$333,165] and accumulated amortization of \$259,702 [2003 - \$235,312].

Open EC Technologies, Inc.

(formerly Softcare EC Inc.)

Notes to Financial Statements

5. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

The Company has accounts payable and accrued liabilities of the following at:

	February 29 2004 \$	February 28 2003 \$
Accounts payable	208,560	131,890
Accrued professional fees	195,215	86,406
Accrued employee vacation	92,443	76,305
	496,218	294,601

6. OBLIGATIONS UNDER CAPITAL LEASES

The Company leases certain of its computer and office equipment under capital leases. The future minimum lease payments required under capital leases expiring May 2004 are as follows:

	\$
2004	1,941

7. SUBSIDIARY REDEEMABLE CLASS A PREFERENCE SHARES

Subsidiary redeemable Class A preference non-voting shares, par value \$1.00 per share.

The Company's subsidiary, SoftCare EC Solutions Inc., has no outstanding redeemable Class A preference shares

8. NOTES PAYABLE

Two \$25,000 notes were issued on November 5, 2002 with interest of 10% accrued annually and due on demand.

9. CONVERTIBLE DEBENTURE

On March 17, 2003, the Company issued a convertible debenture in the principal amount of \$341,250 Cdn. (US \$250,000). The principal bears interest at the rate of prime plus three and half percent per annum, has a term of three years and is secured by all the assets of the Company.

The debenture is convertible into units consisting of one common share and one half-share purchase warrant. The conversion rate is \$0.11 per unit of principal outstanding to March 17, 2005, and \$0.12 per unit of principal outstanding to March 17, 2006. Each whole warrant obtained on conversion shall entitle the holder to purchase one common share of the Company and a term of one year remaining. The warrant exercise price shall be \$0.11 per share to March 17, 2005.

During the quarter ended February 29, 2004, interest payable of \$6,881 was accrued, and for the nine months ended February 29, 2004, interest payable was \$20,643.

Open EC Technologies, Inc.

(formerly Softcare EC Inc.)

Notes to Financial Statements

10. COMMON STOCK

[a] Authorized

100,000,000 [2002 - 100,000,000] common voting shares without par value.

On June 17, 2003, the Company consolidated its issued and outstanding share capital on the basis of ten old shares for one new common share.

[b] Issued

2,324,362 [2002 – 23,243,617] common voting shares without par value

On May 16, 2002 the Company issued 1,200,000 units to the President of the Company, for cash proceeds of \$132,000 pursuant to a non-brokered private placement. Each unit consists of one common share and one Share Purchase Warrant. Each Share Purchase Warrant entitles the holder to purchase one common share at an exercise price of \$0.13 per share until May 16, 2004.

[c] Stock Options

The Company has a stock option plan (the “plan”) pursuant to which the Board of Directors of the Company may grant nontransferable stock options to purchase common shares of the Company to directors, officers, employees, advisors, and consultants. The maximum number of common shares that may be optioned under the plan is 20% of the issued and outstanding common shares of the Company.

As at February 29, 2004, the Company had the following stock options outstanding:

Exercise price \$	Outstanding #	Remaining life Years	Number of options exercisable
4.00	53,777	0.90	47,311
3.50	8,500	3.00	3,400
1.60	17,500	3.00	17,500
1.50	4,000	3.50	4,000
1.30	19,000	3.50	19,000
1.00	14,000	2.92	14,000
	116,777		105,211

A summary of the changes in stock options for the period ended is presented below:

	Number of shares #	Weighted Average exercise price \$
Balance May 31, 2001	2,075,339	1.21
1,130,000 options re-priced		(0.68)
Granted	1,286,000	0.19
Expired or cancelled	(423,063)	0.53
Balance, May 31, 2002	2,938,276	0.38
Granted	190,000	0.15
Expired or cancelled	(1,785,502)	0.53
Balance, May 31, 2003	1,342,774	0.15
Expired or cancelled	(5,000)	
Effect of share consolidation June 2003	(1,203,997)	
Balance, August 31, 2003	133,777	1.50
Expired or cancelled	(17,000)	
Balance, February 29, 2004	116,777	2.72

Open EC Technologies, Inc.

(formerly Softcare EC Inc.)

Notes to Financial Statements

10. COMMON STOCK (cont'd)

[d] Pro-forma stock-options disclosure:

A summary of the required pro forma disclosure of the impact on the consolidated statement of operations is presented in the table below:

Net Loss, as reported	\$(97,748)
Compensation expense related to the fair value of Stock	
Options granted to non-employees	nil
Pro-forma net loss	\$(97,748)
Pro-forma loss per share:	
Basic and diluted	\$(0.042)

The fair value of stock options granted to employees, directors and consultants was estimated on the date of grant using the Black Scholes option pricing model with the following assumptions for grants made during the year: risk-free interest rate 5.25%, estimated volatility 304%, expected life 5 years. No grants of options were made during the period.

[e] Warrants

At November 30, 2003 the Company had share purchase warrants outstanding as follows:

Number of Warrants	Exercise price	Expiration date
120,000	\$1.30	May 16, 2004
120,000 (1)		

(1) After effect of share consolidation June 2003.

[f] Employee Stock Bonus Plan

On April 15, 1999, the Company established the SESB trust in order to create a non-leveraged Employee Stock Bonus Plan whose members are directors, officers, consultants and employees who have completed six months or more service with the Company.

Under the terms of the Plan, common shares held by the SESB trust will be allocated to participants when annual revenue targets are met or exceeded. However, the Company's Board of Directors has the discretion to allocate shares even if the targets are not achieved if it is in the best interest of the Company. Common shares allocated will vest irrevocably for participants in the Plan when revenue targets are achieved or the directors otherwise resolve that they are vested.

Upon the termination of an employee, shares that are not vested will be returned to the plan. Any shares placed in escrow shall be subject to mandatory repurchase by the Company at a price of US\$0.01 per share should the participant terminate. Five years after establishment of the Plan, there shall be an exchange of allocated but unvested shares granted under the Plan and remaining in escrow for a new class of redeemable non-voting preferred shares. Each common share will be exchanged for one new preferred share.

During the period ended February 29, 2004, no shares [February 28, 2003 - nil shares] were allocated or released to employees, under the plan. All shares allocated to employees have either been released to employees or returned to the SESB trust as a result of employee resignations during the year.

Open EC Technologies, Inc.

(formerly Softcare EC Inc.)

Notes to Financial Statements

10. COMMON STOCK (cont'd)

The balance of the shares held in the plan as at February 29, 2004 is 77,420 (February 28, 2003-774,200) and of this balance none have been allocated for future release. The balance of 77,420 is after giving affect to the Company's share consolidation.

No compensation expense has been recognized in the statement of operations for the period-ended February 29, 2004 in respect of the SESB Trust [February 28, 2003 - nil]. Compensation expense is recorded at fair value of the shares once shares have been committed to be released. At February 29, 2004, the fair value of the unallocated common shares based on quoted market sources was \$11,613 [February 28, 2003 - \$7,742].

[g] Shares to be Issued:

As a result of various employee terminations during the years ended May 31, 2003 and 2002, the Company is obligated to issue 10,000 shares, post consolidation, to employees as part of the severance packages agreed with the terminated employees. The shares to be issued have been valued based upon the market price of the shares on the date the employees were terminated.

11. COMMITMENTS AND CONTINGENCIES

[a] The Company leases its premises and certain automobiles under operating leases expiring through 2009. The approximate future minimum lease commitments under operating lease agreements for the six years ending May 31, 2009 are as follows:

2004	126,341
2005	221,185
2006	240,103
2007	246,527
2008	247,411
2009	20,593
	<hr/>
	1,102,160

Rent expense for the quarter ended February 29, 2004 amounted to \$15,000 [February 28, 2003 - \$6,588].

During the years ended May 31, 2002 and 2003, the Company laid off a number of employees. To date, no actions were forthcoming from such employees laid-off. In respect to these employees terminations, the Company has an obligation to issue an aggregate of 10,000 common shares in settlement of termination agreements.

One of the Company's subsidiaries entered into a lease with the Landlord for the rental of premises through March 2003. In June 2002, the subsidiary vacated the premises. The Landlord has made a demand of approximately \$200,000 on the subsidiary for the payment of rentals through March 2003. The Company does not anticipate paying this amount and it intends to vigorously defend the demand made by the Landlord. The outcome of this matter cannot be predicted at this time with certainty. Accordingly, no amounts with respect to this claim had been recorded during the quarter ended February 29, 2004.

[b] The Company was named as a third party in a default judgment, together with Financial Management Group, a U.S. company, in the amount of US \$150,000 for damages with respect to the use of allegedly unauthorized proprietary software. The U.S. courts ruled in favour of the Company during the quarter ended November 30, 2003 to have the default judgement overturned. A Notice of Hearing was issued on April 22, 2004 with respect to an evidentiary hearing on May 24, 2004 concerning the Company being named as a third party to a judgement against Financial Management Group.

Open EC Technologies, Inc.

(formerly Softcare EC Inc.)

Notes to Financial Statements

12. INCOME TAXES

At May 31, 2003, for Canadian income tax purposes, the Company has approximately \$686,000 of undeducted expenditures for tax purposes expiring through May 2005 relating primarily to share issue costs and approximately \$11,544,000 of non-capital losses available for income tax purposes to reduce taxable income of future years that expire as follows:

	Non-capital losses \$
2004	328,000
2006	829,000
2007	750,000
2008	2,214,000
2009	3,609,000
2010	3,201,000
2011	613,000
	11,544,000

At May 31, 2003, the Company also has non-capital loss carry-forwards of approximately \$2,155,000 which can be applied to reduce income earned in the United States which expire as follows:

	Non-capital losses \$
2019	777,000
2020	1,211,000
2021	167,000
	2,155,000

The ability of the Company to use the losses that expire prior to 2021 may be impacted by the application of provisions contained in the Internal Revenue Code of the United States. No adjustments have been made for the nine month period ended February 29, 2004.

Future income taxes reflect the net tax effects of the temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's future tax assets as of May 31, 2003 are as follows:

	2003 \$	2002 \$
Non-capital loss carryforwards	4,388,000	4,246,000
Share issue costs	261,000	375,000
Unused capital cost in excess of net book value	36,000	337,000
Other	-	32,000
Total future assets	4,685,000	4,990,000
Valuation allowance	(4,685,000)	(4,990,000)
Net future assets	—	—

Open EC Technologies, Inc.

(formerly Softcare EC Inc.)

Notes to Financial Statements

12. INCOME TAXES (CONTINUED)

A reconciliation of the Company's effective income tax rate to the federal statutory rate follows:

	2003 \$	2002 \$
Tax at statutory rate	(387,000)	(1,407,000)
Amortization of share issue costs for tax and accounting	130,000	(147,000)
Effect on change in tax rate	536,000	-
Other	29,000	18,000
Temporary difference for which no new tax benefit has been recognized	(308,000)	1,536,000
	—	—

13. RELATED PARTY TRANSACTIONS

Directors, officers and companies controlled by officers of the Company provide paralegal, accounting, computer programming and system design services, license fees and advisory services to the Company. During the nine months ended February 29, 2004, the Company was invoiced \$126,584 [February 28, 2003 - \$31,926] for these services that were charged to general and administrative expenses. At February 29, 2004 \$103,983 [February 28, 2003 - \$32,393] is included in accounts payable and accrued liabilities. All transactions are in the normal course of operations and are recorded at exchange amounts established and agreed upon between the related parties.

14. SEGMENTED INFORMATION

The Company operates in one business segment and substantially all of the Company's operations, assets and employees are located in Canada. The following represents sales based on the location of the customer.

	2004 %	2003 %	2002 %	Qtr.	Year	Year
Canada	88	41	89			
U.S.	12	58	11			
Other	-	1	-			

Open EC Technologies, Inc.

(formerly Softcare EC Inc.)

Notes to Financial Statements

15. RECONCILIATION OF GENERALLY ACCEPTED ACCOUNTING PRINCIPLES

The Company prepares its consolidated financial statements in accordance with Canadian generally accepted accounting principles ("Canadian GAAP"), which as applied in these consolidated financial statements conform in all material respects to those accounting principles generally accepted in the United States ("U.S. GAAP"), except as follows:

The following table sets out the amounts that would have been reported in the balance sheet had these statements been prepared in conformity with U.S. GAAP.

Consolidated balance sheets

	February 29 2004 \$	February 28 2002 \$
Additional paid in capital	644,041	621,255
Deficit	(17,007,795)	(16,318,348)

For purposes of reporting in accordance with US GAAP, amounts referred to as contributed surplus under Canadian GAAP are referred to as additional paid-in capital.

Recent Pronouncements

In May 2003, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standard (SFAS) No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equities". SFAS 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). The requirement of SFAS 150 apply to issuers' classification and measurement of freestanding financial instruments, including those that comprise more than one option or forward contract. SFAS 150 does not apply to features that are embedded in a financial instrument that is not a derivative in its entirety. SFAS 150 is effective at the beginning of the first interim period beginning after June 15, 2003, except for mandatorily redeemable financial instruments of non-public entities. It is to be implemented by reporting the cumulative effect of a change in an accounting principle for financial instruments created before the issuance date of SFAS 150 and still existing at the beginning of the interim period of adoption. Restatement is not permitted. The adoption of this standard is not expected to have material affect on the Company's results of operations or financial position.

In December 2002, FASB issued SFAS 148, "Accounting for Stock-Based Compensation-Transition and Disclosure, which amends SFAS 123 to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS 148 expands the disclosure requirements of SFAS 123 to require more prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the affect for fiscal years ended after December 15, 2002. The disclosure provisions of SFAS 148 are effective for financial statements for interim periods beginning after December 15, 2002. The Company has adopted SFAS 148 and its impact is not expected to have a material affect on the Company's results of operations or financial position.

In June 2002, the FASB issued SFAS 146, "Accounting for Costs Associated with Exit or Disposal Activities". The provisions of this SFAS are effective for exit or disposal activities that are initiated after December 31, 2002, with early application encouraged. This Statement addresses financial accounting and reporting for costs associated with exit or disposal activities and nullifies Emerging Task Force (EITF) Issue 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in Restructuring)". This Statement requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred. The Company has adopted SFAS 146 and its impact is not expected to have a material affect on the Company's results of operations or financial position.

Schedule C: Management Discussion and Analysis

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion relates to the financial condition, changes in financial condition and results of operations of Open EC Technologies, Inc. (formerly Softcare EC Inc.), and its subsidiaries Softcare EC Solutions Inc. (formerly Softcare Electronic Commerce Inc.), SCEC Holdings, SCC Holdings and Softcare Electronic Commerce (U.S.A.) Inc. for the nine months ended February 29, 2004 and February 28, 2003. Open EC Technologies Inc., its wholly owned subsidiary Softcare EC Solutions Inc. and its wholly owned subsidiaries SCC Holdings, SCEC Holdings and Softcare Electronic Commerce (U.S.A.) Inc. are collectively referred to as "Open EC", or as the "Company". The discussion should be read in conjunction with the financial statements of Open EC and related notes included therein.

Overview

Open EC is a provider of business-to-business electronic commerce platforms. It has a strong history in the provision of software, which enables business-to-business electronic commerce. The operating company, Open EC Solutions Inc. (formerly Open EC Electronic Commerce Inc.) was founded in 1990 and developed software to facilitate business-to-business electronic exchange of documents. Open EC's first product, Tradelink, has been recognized as a leader in the electronic data interchange ("EDI") market. In the late 1990's management recognized the potential for the expansion of business-to-business transactions through the use of the internet. As a result the Company embarked on the development of an internet based business-to-business electronic commerce platform in 1997. Since that time the Company's new Open E|C business-to-business electronic commerce platform has been under continuous development, this involves conducting research and developing the initial and subsequent versions of the Open E|C platform. In June of 1999, the first version of Open E|C was installed and Open EC began selling the Open E|C platform and related services. Open EC currently markets both Open E|C and Tradelink primarily in the United States and Canada.

Open EC's primary focus remains the business-to-business electronic exchange of documents. In this respect, Tradelink remains an important component of the Company's sales. Open EC continues to enhance Tradelink in order to drive its acceptance in the EDI market place.

Open EC has developed and continues to develop certain applications to support its Open|EC Platform. While Open EC develops these applications, there can be no assurance that such products, once completed, will meet customer requirements, overall market requirements, or that the products will perform in a satisfactory manner.

Financial Position

As at February 29, 2004 and as at February 29, 2003:

As of February 29, 2004, Open EC had \$9,952 in cash and cash equivalents compared with \$23,515 as of February 28, 2003. Open EC's working capital at February 29, 2004 was (\$537,351) compared with working capital of (\$251,622) as at February 28, 2003. Capital assets, which represent net book value of computer and testing equipment, computer software, office equipment, office furniture, display booths and leasehold improvements were \$124,471 at February 29, 2004 compared with \$144,755 as at February 28, 2003. The Company's net current assets discussed above increased by \$19,635 in the quarter ended February 29, 2004 due to the acquisition of software license.

Results of Operations

Open EC generates revenue through software sales, consulting services, training services and maintenance fees. Product sales were derived through two alternative fee structures: licensing fees and software royalties. Service and maintenance contracts are generally entered into at the time a product sale is completed.

Quarters ended February 29, 2004 and February 28, 2003

Revenue for the quarter ended February 29, 2004 was \$127,355 compared with \$170,701 for the quarter ended February 28, 2003.

Open EC has found that the North American market for business-to-business electronic commerce platforms and services is changing rapidly but that significant real opportunities, which may produce significant revenues, are still at an early stage of development. Open EC's ultimate success depends upon substantial organizations buying and implementing its software products and related services. The implementation of these software products by these organizations is complex, time consuming and expensive. It also requires that these organizations change established business practices and conduct business in new ways. Open EC's ability to attract customers requires a significant amount of consultation and collaboration with the potential customers during the sales process. These factors lead to long closing cycles but generally result in stable long-term relationships, which produce recurring revenue streams for the company.

Salaries and wages for the quarter ended February 29, 2004 were \$112,821 compared with \$131,232 for the quarter ended February 28, 2003. The decrease represents the continuing affects of a cost cutting program by management in 2003/2004.

Selling expenses for the quarter ended February 29, 2004 were \$708 compared with \$1,610 for the quarter ended February 28, 2003, demonstrating no significant change in selling costs.

General and administrative expenses for the quarter ended February 29, 2004 were \$100,368 compared with \$94,880 for the quarter ended February 28, 2003. The increase is primarily the result of increased professional fees.

Amortization expense for the quarter ended February 29, 2004 was \$4,777 compared with \$11,537 for the quarter ended February 28, 2003. The decrease of this expense reflects a slowdown in the upgrading of equipment, software and leasehold improvements.

Other income (expense) was net interest costs (\$6,429) for the quarter ended February 29, 2004 compared to nil interest income for the quarter ended February 28, 2003. This change from net interest income to net interest expense reflects the financing cost associated with the convertible debenture. Long-term interest expense for this quarter was \$6,439 versus nil in 2003.

Liquidity and Capital Resources

The consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles, on a going concern basis, which presumes that the company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future.

To date the company has incurred significant losses both for the current year to date and the previous fiscal years. In addition, the Company has accumulated a significant deficit. These losses and the deficit have been funded primarily by the issuance of securities including funds derived from a convertible debenture completed in the fourth quarter to May 31, 2003.

During the past quarter, the Company did not carry out any financings.

The Company's continuation as a going concern is uncertain and is dependant upon its ability to achieve profitable operations and upon the continued financial support of its shareholders, option holders and warrant holders or upon its ability to obtain additional financing or new equity. It's ability to achieve profitability and positive cash flows from operations will depend on numerous factors. These factors include its ability to attract strategic, corporate partners for the development, marketing, distribution and sale of its software products, the progress of its research and development programs and its ability to protect its proprietary rights over the product names and trademarks. The outcome of these matters cannot be predicted at this time. The consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue in business. To date Open EC has been able to achieve certain milestones in its efforts to combat these dependant factors including the registration of its trademark Open|EC, continued innovation from research and development and building contacts and alliances with potential strategic corporate partners.

As of February 29, 2004, Open EC had \$9,952 in cash and cash equivalents. This, including other current assets, brought Open EC's total working capital to (\$537,351). The Company has the potential to raise future capital through working capital financing, the exercise of warrants and new stock options when granted. However, there is no assurance that the exercise of warrants will occur or that employees, directors or agents will exercise their stock options when granted.

Milestones and Benchmarks

The Company's near term milestones include:

The development, with its partner Mala Ventures, Inc. (a company controlled by a director of the Company) of a suite of products to be co-marketed by an independent third party U.S. company to their existing customer base. The delivery of these products and their commercial application is expected in the fiscal year ended 2004.

The settlement of certain longstanding liabilities by way of shares for debt settlements totaling up to \$200,000 was recently announced by the Company. The Company is also carrying out negotiations to settle other debts, and to complete a working capital financing of \$500,000 within the next six months.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this Form 6-K to be signed on its behalf by the undersigned, thereunto duly authorized.
