NOTES TO FINANCIAL STATEMENTS  
December 31, 2000

1. MANAGEMENT'S REPRESENTATION OF INTERIM FINANCIAL INFORMATION

The accompanying financial statements have been prepared by Tabatha III, Inc. without audit pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted as allowed by such rules and regulations, and management believes that the disclosures are adequate to make the information presented not misleading. These financial statements include all of the adjustments which, in the opinion of management, are necessary to a fair presentation of financial position and results of operations. All such adjustments are of a normal and recurring nature. These financial statements should be read in conjunction with the audited financial statements at June 30, 2000.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Liquidity and Capital Resources

As of December 31, 2000, the Company remains in the development stage. Since inception, it has experienced no significant change in liquidity or capital resources or stockholder's equity other than the receipt of proceeds in the amount of \$11,100 from its inside capitalization funds. Consequently, for the period ended December 31, 2000, the Company's balance sheet reflects current and total assets of \$7,232 in the form of cash, and current liabilities of \$0.

The Company does not have sufficient assets or capital resources to pay its on-going expenses while it is seeking out business opportunities, and it has no current plans to raise additional capital through sale of securities, or otherwise. As a result, although the Company has no agreement in place with its shareholders or other persons to pay expenses on its behalf, it is currently anticipated that the Company will rely on loans or additional capital contributions from shareholders or to pay expenses at least until it is able to consummate a business transaction.

Results of Operations

During the period from March 17, 2000 (inception) through December 31, 2000, the Company has engaged in no significant operations other than organizational activities, acquisition of capital and preparation and filing of its registration statement on Form 10-SB under the Securities Exchange Act of 1934, as amended, compliance with its periodical reporting requirements and initial efforts to locate a suitable merger or acquisition candidate. No revenues were received by the Company during this period.

The Company experienced a net loss of \$16,284 for the second quarter and a net loss of \$16,377 for the six months ended December 31, 2000. The loss during the quarter and during the six months ended December 31, 2000 is primarily the result of legal, consulting, and accounting costs related to initial registration under the Securities Exchange Act of 1934 and subsequent compliance with reporting requirements of the securities laws. The Company does not expect to generate any revenue until it completes a business combination, but will continue to incur legal and accounting fees and other costs associated with compliance with its reporting obligations. As a result, the Company expects that it will continue to incur losses each quarter at least until it has completed a business combination. Depending upon the performance of any acquired business, the Company may continue to operate at a loss even following completion of a business combination.

### Plan of Operations

For the fiscal year ending June 30, 2001, and for the succeeding twelve months, the Company expects to continue its efforts to locate a suitable business acquisition candidate and thereafter to complete a business acquisition transaction. The Company anticipates incurring a loss for the fiscal year as a result of expenses associated with compliance with the reporting requirements of the Securities Exchange Act of 1934, and expenses associated with locating and evaluating acquisition candidates. The Company does not expect to generate revenues until it completes a business acquisition, and, depending upon the performance of the acquired business, it may also continue to operate at a loss after completion of a business combination.

### Need for Additional Financing

The Company believes it will require additional capital in order to pay the costs associated with carrying out its plan of operations and the costs of compliance with its continuing reporting obligations under the Securities Exchange Act of 1934, as amended, for the fiscal year ending June 30, 2001 and thereafter. This additional capital will be required whether or not the Company is able to complete a business combination transaction during the current fiscal year. Furthermore, once a business combination is completed, the Company's needs for additional financing are likely to increase substantially.

No specific commitments to provide additional funds have been made by management or other stockholders, and the Company has no current plans, proposals, arrangements or understandings to raise additional capital through the sale or issuance of additional securities prior to the location of a merger or acquisition candidate. Accordingly, there can be no assurance that any additional funds will be available to the Company to allow it to cover its expenses. Notwithstanding the foregoing, however, to the extent that additional funds are required, the Company anticipates receiving such funds in the form of advancements from current shareholders without the issuance of additional shares or other securities, or through the private placement of restricted securities. In addition, in order to minimize the amount of additional cash which is required in order to carry out its business plan, the Company might seek to compensate certain service providers by issuances of stock in lieu of cash.

PART II - OTHER INFORMATION

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K.

- (a) No exhibits are filed as part of this report.
- (b) No reports on Form 8-K were filed by the Company for the quarter ended December 31, 2000.
