RISK FACTORS

2. Listed in the order of importance, the factors which the Company considers to be the most substantial risks to an investor in this offering in view of all facts and circumstances or which otherwise make the offering one of high risk or speculative (i.e., those factors which constitute the greatest threat that the investment will be lost in whole or in part, or not provide an adequate return.
 1. *The company will not be able to implement its business strategy unless sufficient funds are raised in this offering, which could prevent the company from becoming profitable.*

Expressions Graphics, Inc. is a development stage company and is very dependent on the proceeds of this offering in order to implement its business plans. There can be no assurance that Expressions Graphics, Inc. will realize sufficient proceeds to complete organizational and development costs, or to provide adequate cash flow for planned marketing expenses. In such event, growth of the company may be severely retarded. Should the company fail to achieve sufficient sales investors may lose their entire cash investment.
 2. *The high level of competition in our market may result in pricing pressures, reduced margins, or the inability of our products to achieve market acceptance.*

Expressions Graphics, Inc. will operate in an extremely competitive market. The graphics market is currently well populated by large businesses, small businesses, as well as home-based operations. Small home-based operations compete favorably because of low start-up and operational costs; while, product line may be limited, at-home spare-time operations can generate sufficient extra-cash income to warrant continued participation. Larger business operations offer a wider product line to compete favorably, and must sustain higher equipment and operational costs to achieve profitable results. The company is attempting to compete by offering the wider product line of larger businesses through its low overhead Internet store. Investors should thoroughly evaluate the business strategies and plans as set forth by Expressions Graphics within this Offering document, to understand whether these plans and strategies are sufficient to compete favorably within such a competitive marketplace. With the absence of any recent operational history, Expressions Graphics, Inc. cannot assure investors that either business strategies or operations will provide sufficient profit margin on our products to achieve profitability.

Expressions Graphics, Inc.

3. *The company will not be able to achieve initial profitability in a reasonable timeframe if management and employees of the company are required to devote substantial time to other interests, in conflict with time required for the interests of the company.*

The management and employees of Expressions Graphics, Inc. currently devote substantial time to other interests; either individually or through businesses in which they may have an interest, notwithstanding the fact that time may be necessary to the business of Expressions Graphics, Inc. The company does not currently have any full-time employees; each employee maintaining full-time employment elsewhere until Expressions Graphics, Inc. can achieve profitable operations and support full-time employment. As a result, certain conflicts of interest may arise between Expressions Graphics, Inc. and its employees that may not be readily susceptible to resolution, and will be resolved only through the exercise of good judgment, as is consistent with commitment to the development, establishment, and profitability of Expression Graphics, Inc.

4. *The company may not survive early periods of operation due to customer dissatisfaction, unless selected subcontractors provide an acceptable level of quality workmanship and timely product delivery.*

Expressions Graphics, Inc. will be dependent upon subcontractors for product manufacturing and delivery. Subcontractors will be used to assemble and deliver products, either from materials provided by the subcontractor or provided through Expressions Graphics, Inc. Management cannot verify with complete certainty that selected subcontractors will provide the quality of workmanship and timely delivery needed to ensure total customer satisfaction. Inferior workmanship or late delivery provided through a subcontractor would not adequately satisfy the needs of the customer. Expressions Graphics, Inc. may neither survive initial periods of operation, nor expect recovery because of negative customer reactions. The company current has no informal or formal arrangements or agreements with any subcontractor.

5. *Successful business operations are dependent on the stability, quality, and growth of the Internet industry; change to or in the Internet industry are beyond the company's control, yet adverse changes could impact operations and/or profitability.*

Expressions Graphics, Inc. business will be influenced by the rate of use and expansion in the Internet industry. Revenues could be adversely impacted if Internet usage does not continue to grow. Possible factors which could adversely impact Internet usage might include, for example, stability and regulation. Stability; includes security of customer information and transactions, and controls to insure Internet stability where viruses or computer hacking is imposed. Regulation; includes the imposition of sales or other taxes on Internet transactions or usage. Internet commerce is an evolving marketplace with new and unique risks associated with its use. The company will conduct business over the Internet, significant changes in the internet industry will directly effect the company's operations. Increased transactional costs or capital investment in heightened security could adversely effect the company's profitability.

6. *Investors could lose all or a substantial portion of their investment because the Offering price arbitrarily determined by the company has been set too high.*

The Offering Price of the Common Shares bears no relation to book value, assets, earnings, or any other objective criteria of value. The price has been arbitrarily determined by the Company. Investors could lose all or a part of their investment if the Offering price has been arbitrarily set too high. There can be no assurance that, even if a public trading market develops for Expressions Graphics, Inc., the shares will attain market values commensurate with the Offering Price.

Expressions Graphics, Inc.

7. *The company may not realize sufficient proceeds from this Offering to implement its business plans, as the company is offering shares on direct participation basis, rather than using the experience of a dealer-broker.* Expressions Graphics, Inc. is offering Shares on a direct participation basis; and no individual, firm, or corporation has agreed to purchase or take down any of the offered Shares. No assurance can be given that any or all of the Shares will be sold. The company does not plan to use a dealer-broker, even though a dealer-broker may have more experience, resources or contacts to more effectively achieve the sale of shares. A delay in the sale of the shares in this Offering can be expected to cause a similar delay in the implementation of the company's business plan.

8. *Penny Stocks – Investors will be subject to additional disclosure requirements, probable price fluctuations, and the lack of liquid market for securities.*

The Securities and Exchange Commission has adopted a rule that includes the definition of a "penny stock" as any equity security that has a market price of less than \$5.00 per share. Expressions Graphics, Inc.'s Common stock may be designated a "penny stock" as defined by Rule 3a51-1 of the Securities Exchange Act. For any transaction involving a penny stock, the rules require that; the broker or dealer approve a person's account for transactions in penny stocks; and, the broker or dealer receive from the investor a written agreement to the transaction setting forth the identity and quantity of the penny stock to be purchased. In order to approve a person's account for transactions in penny stocks, the broker or dealer must obtain financial information, investment experience, and objectives of the person, make a reasonable determination that the transactions in penny stocks are suitable for that person and that person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks. In addition to the additional disclosure requirements, material risks associated with penny stocks include price fluctuations and the lack of a liquid market for such securities. Investors may find it difficult to find a suitable buyer for their stock and may experience extreme price fluctuations resulting from a small volume of sales.

9. *Investors will have restricted liquidity of securities in this Offering, as the securities are to be registered in the States of California and Nevada only.*

Expressions Graphics, Inc. will initially register its securities for sale in the States of Nevada and California. The company is considering regional registration in the southwestern states. As the securities will likely not be considered a "covered" security, state registration is required for initial sales from the issuer and resales by investors. Investors wishing to sell their securities to residents of states where the offering has not been registered may only be able to do so if an "exception" to state registration exists. Investors in this Offering must consider that registration of these securities in the State of Nevada and California only, may restrict liquidity of the securities.

Subcontractors will also be used where expertise needed to provide the highest quality product may be more readily available through the subcontractor's resources.

Currently, Expressions Graphics, Inc. has no plans to market and produce any products except through subcontractors. The company intends to establish necessary subcontractor relationships and agreements as set forth as early objectives in our business plan (see Business and Properties, Items 4(a) and 4(b)); the company currently has no informal or formal arrangements or agreements with any subcontractor.

Expressions Graphics, Inc.

The company does intend to maintain a selected inventory of available products, and materials comprising such products that can be readily modified and assembled to provide a customized version of the product. Where products are readily available through this inventory, or modifications to inventoried materials can be readily completed, Expressions Graphics, Inc. may perform the final selection or assembly steps needed to produce the desired product. This inventory of selected popular products may be expected to enhance customer satisfaction because of improved product availability.

The web site will allow customers to customize items on their own. Preset templates for customizable products can be filled in using an online library of graphics and fonts. Name the principal competitors that the Company has or expects to have in its area of competition. Indicate the relative size and financial and market strengths of the Company's competitors in the area of competition in which the Company will be operating. State why the Company believes it can effectively compete with these and other companies in its area of competition.

Note: Because this Offering focuses primarily on details concerning the Company rather than the industry in which the Company operates or will operate, potential investors may wish to conduct their own separate investigation of the Company's industry to obtain a broader insight in assessing the Company's prospects.

Expressions Graphics, Inc. intends to market graphics products through the Internet media. The company has not expended any resources to conduct market research, including any industry surveys or reports, or any other third party reports. The management of Expressions Graphics, Inc. considers the graphics market to be well established and particularly popular for home-based or very small businesses. Our company intends to combine the accessibility gained through the Internet, and the availability of selection through small businesses (subcontractors), to provide our customers with improved product selection and availability. Expressions Graphics, Inc. expects to compete very favorable through the coordination and use of graphic products "competitors" as partners or subcontractors to improve customer selection and availability of products. The company has no basis for this expectation, except that existing smaller businesses may see benefit to sales coordination through a centrally available web site.

Product price is expected to be consistent with price currently established in the graphics products market. Expressions Graphics, Inc. will negotiate volume discounts with suppliers and subcontractors when product sales reach sufficient quantities. Selection and availability will be consistently maintained and improved to achieve and increase customer purchase volume. The majority of individual product items, currently or readily available, are expected to be listed at less than \$20.00 per unit. These currently or readily available product items which are modified to provide limited customized characteristics may be expected to be available at or near a \$30.00 or less per unit level, with availability extended to permit production. Expressions Graphics, Inc.

100's or 1000's of dollars, and can only be assessed individually as customer desires and needs are determined.

As management is able to identify popular and profitable product lines the manufacturing and distributing can be internalized. Expressions Graphics, Inc. may develop its own production and fulfillment facilities for the most profitable products or acquire the subcontractor fulfilling those orders. Regardless of the method employed management believes the ability to "test drive" a product line or potential acquisition is a key benefit towards establishing a competitive edge in an industry with relatively low barriers to entry and competitors that are more adequately capitalized.

- (d) Describe specifically the marketing strategies the Company is employing or will employ in penetrating its market or developing a new market. Set forth in response to Question 4 below the timing and size of the results of this effort which will be necessary in order for the Company to be profitable. Name any customers that account for, or based upon existing orders will account for a major portion (20% or more) of the Company's sales. Describe any major existing sales contracts.

The news media will be used to announce the Internet availability of the company's web-site, with an introduction of services and products available, as well as influence access to the web-site for additional choice and information. Telemarketing will be used to reinforce the news media campaign, and provide an opportunity for more detailed marketing to prospective customers (i.e., those with the means to access the Internet). The primary and consistent marketing focus for Expressions Graphics, Inc. will be the internet site, with initial marketing information displayed as the customer accesses the site, with format and instruction to permit access of catalogs, characterization options, and custom application information and direction.

The Company will first utilize the business contacts in the Southern California, Northern California, and the East Coast developed by the company President through his years of experience in the graphics industry. This will provide some initial sales expected to generate profits sufficient for daily operations during the product and web development stage.

Next; a localized marketing approach will be taken. A small regional area will be targeted and monitored in order to develop the marketing model. Then, when the model is producing acceptable levels of return, expanding into selected high density areas before any national campaigns are attempted.

- (e) State the backlog of written firm orders for products and/or services as of a recent date (within the last 90 days) and compare it with the backlog of a year ago from that date.

Expressions Graphics, Inc. does not currently have a backlog of written firm orders for products or services as of a recent date, nor does the Company have an operational background or history which would provide for a comparative backlog of one year ago for such products or services.

Expressions Graphics, Inc.

The Company has not undergone any stock split or dividend, of recapitalizations in anticipation of this offering or otherwise.

The Company may identify beneficial acquisitions in the future. However, none have been identified at this time.

Expressions Graphics, Inc.

- 4 (a).** If the Company was not profitable during its last fiscal year, list below in chronological order the events which in management's opinion must or should occur or the milestones which in management's opinion the Company must or should reach in order for the Company to become profitable, and indicate the expected manner of occurrence or the expected method by which the Company will achieve the milestones.

Expressions Graphics, Inc. has no operational history nor profitability to be shown for the prior fiscal year. Management intends accomplishment of the following chronological events to evaluate implementation, operational function, and indicators of profitability as follows the receipt of proceeds from this offering.

<u>Event or Milestone</u>	<u>Manner of Occurrence/ Method of Achievement</u>	<u>Number of Months After Receipt of Proceeds when should be accomplished</u>
Infrastructure setup (Milestone)	Web site development Initial subcontractor selection for targeted product lines.	2 months
Test Sales and Fulfillment (Event)	Test sales developed through President's prime business contacts	3 months
Introduction/Visibility (Event)	News media advertisement and Telemarketing campaign	5 months
Market penetration (Milestone)	Internet site inquiries and limited customer orders received. Order volume to be evaluated. Management evaluation to assess effectiveness of Introduction/Visibility event, complimentary plan, if required, to increase exposure.	6 months
Profitability evaluation (Review)	Management business review; assess profitability, operational and production capacity, supplier and subcontractor performance. Refine business plans as appropriate.	12 months

Expressions Graphics, Inc. will establish initial sales through use of the President's business contacts established through years of experience in the graphics industry. No generalized sales will be processed until business systems have been tested; goal is to prevent any negative initial perception in the market.

Expressions Graphics, Inc. must ensure the success of its Introduction/Visibility Event to have any valid expectations of successful business implementation and resultant profitability. Market penetration must be evaluated and re-evaluated to determine if further introduction and visibility events may be necessary. Although additional accomplishments will be required to support business operations, e.g., supplier and subcontractor acquisition, market penetration sufficient to support base operations remains as the primary necessary accomplishment.

Expressions Graphics, Inc.

- 4 (b).** State the probable consequences to the Company of delays in achieving each of the events or milestones within the above time schedule, and particularly the effect of any delays upon the Company's liquidity in view of the Company's then anticipated level of operating costs. (See Question #'s 11 and 12)

<u>Event or Milestone</u>	<u>Manner of Occurrence/ Method of Achievement</u>	<u>Number of Months After Receipt of Proceeds when should be accomplished</u>
Infrastructure setup	Web site development Initial subcontractor selection	2 months
Test Sales and Fulfillment (Event)	Test sales developed through President's prime business contacts	3 months
Introduction/Visibility (Event)	News media advertisement and Telemarketing campaign	5 months
Market penetration (Milestone)	Internet site queries and customer orders	6 months
Profitability evaluation (Review)	Management business review	12 months

A delay in the completion of infrastructure setup will cause a corresponding delay to all subsequent events. Web site development must be completed before any marketing activities can be initiated; currently, web site development is underway and is expected to be fully completed on schedule. Subcontractor relationships and agreements must be established before product development and deliveries can be achieved; although no agreements, formal or informal, are currently established, preliminary communications and exchanges have been positive. Initial subcontractor selection is expected to be completed on schedule.

Test sales and fulfillment will be developed through the President's prime business contacts, and will constitute a test of the Expressions Graphics, Inc. infrastructure. A delay in the completion of this event will cause a delay in the company's ability to open business to the general public.

The consequence of delays in attaining necessary visibility will be the further expenditure of proceeds to refine and/or enhance, and re-implement an Introduction/Visibility Event. Until such time as necessary exposure is attained to permit sufficient market penetration, proceeds could be fully expended in attempt to gain such necessary exposure. Expressions Graphics, Inc. cannot guarantee that sufficient customers will exist to support business operations, until Introduction/Visibility is performed, and is reasonably successful.

Expressions Graphics, Inc.

The market penetration milestone refers to attaining a sufficient number of site visits and customer orders to warrant Expressions Graphics, Inc. management to consider that necessary visibility to support profitable operations has been achieved. Market penetration will be evaluated using data collected from the web site traffic. The number of overall site visits will be used to determine the effectiveness of marketing efforts designed to direct potential customers to the site. Resulting orders and the number of abandoned orders will be used to evaluate the variety and pricing of products. This milestone will be considered achieved when the number of site visits, and ratio of orders to abandoned orders, is determined sufficient and acceptable to support profitable operations..

Liquidity is a measurement of a company's ability to meet potential cash requirements. Expressions Graphics will have significant liquidity needs to support its introductory program, and may require continued liquidity until the success of its introductory program can be ascertained. The company is dependent upon the proceeds from this offering to meet liquidity needs during implementation and introduction; should our introductory program not achieve expected results, the business will fail and investors will lose their entire investment.

However, the company has extremely low overhead and the cash requirements in the start up phase will largely be variable costs directly related to sales. This float of cash related to sales will more likely limit the rate of growth of the company rather than threaten its continued existence. Also, officers of the company may invest additional cash into the company as needed to continue operations and promote growth; except, potential investors in this Offering should be aware that no officers of the company have entered into any agreement, informal or formal, to invest additional cash.

Note: After reviewing the nature and timing of each event or milestone, potential investors should reflect upon whether achievement of each within the estimated timeframe is realistic, and should assess the consequences of delays or failure of achievement in making an investment decision.

OFFERING PRICE FACTORS

If the securities offered are common stock, or are exercisable for or convertible into common stock, The following factors may be relevant to the price at which the securities are being offered.

- 5.** What were net, after-tax earnings for the last fiscal year?
Expressions Graphics, Inc. is a development stage company without meaningful operational history; or net, after-tax earnings for the last fiscal year.
- 6.** If the Company had profits, show offering price as a multiple of earnings.
Adjust to reflect for any stock splits or recapitalizations, and use conversion or exercise price in lieu of offering price, if applicable.

Expressions Graphics Inc. was incorporated on January 13, 2000; and did not have profits for the last fiscal year.

Expressions Graphics, Inc.

7. (a) What is the net tangible book value of the Company? If deficit, shown in parenthesis.)

For this purpose, net tangible book value means total assets (exclusive of copyrights, patents, goodwill, research and development costs and similar intangible items) minus total liabilities. If the net tangible book value per share is substantially less than this offering (or exercise or conversion) price per share, explain the reasons for variation.

Expressions Graphics, Inc. current net tangible book value is \$2,358.00 or \$0.004 per share. Giving effect to the sale by the Company of all offered shares at the public offering price, the net tangible book value of the Company would be \$77,358.00 or \$0.037 per share which results in dilution to the new shareholders of \$0.013 per share. This dilution is an effect of the initial compensation paid in common stock to the officers of the Company and the costs of formation. Management has set the offering price at the same price per share as that used to convert initial investment and compensation of the officers to shares in the Company.

7. (b) State the dates on which the Company sold or otherwise issued securities during the last 12 months, the amount of such securities sold, the number of persons to whom they were sold, and relationship of such persons to the Company at the time of the sale, the price at which they were sold, and if not sold for cash, a concise description of the consideration. (Exclude bank debt).

Expressions Graphics, Inc. issued 400,000 shares of common stock to Neil Brouillette, the current President, on March 13, 2000. The shares were issued at an arbitrary value of \$.05 (five cents) per share for the following valuable consideration:

- a. 100,000 shares for an initial cash investment of \$5,000.00 deposited in the Company's bank account on March 8, 2000.
- b. 300,000 shares for compensation during start-up period valued by the board at \$15,000.00 which was fully earned at the time of acceptance of the office of President. No other compensation has been offered or accepted; and is not anticipated until such time as the company begins to generate revenues.

Expressions Graphics, Inc. issued 140,000 shares of common stock to Frank Drechsler, the current Vice President on March 13, 2000. The shares were issued at an arbitrary value of \$.05 (five cents) per share for the following valuable consideration:

- a. 40,000 shares were issued for an initial cash investment of \$2,000.00; for payment of the "incorporation" process of the Company paid on January 11, 2000, and a \$100.00 bank deposit for company funds applied on February 9, 2000.
- b. 100,000 shares for compensation during setup period valued by the board at \$5,000.00; which was fully earned at the time of acceptance of the office of Vice President. No other compensation has been offered or accepted; and is not anticipated until such time as the company begins to generate revenues.

Expressions Graphics, Inc. issued 20,000 shares of common stock to Michele Spain, the current Treasurer, on April 12, 2000. The shares were issued at an arbitrary value of \$.05 (five cents) per share for the following valuable consideration:

20,000 shares for compensation during the startup period valued by the board at \$1,000.00, which was fully earned at the acceptance of the office of Treasurer. No other compensation has been offered or accepted; and is not anticipated until such time as the company begins to generate revenue.

Note: All shares issued bear a restrictive legend subject to Rule 144 of the Securities Exchange Act.

Expressions Graphics, Inc.

8. (a) What percentage of the outstanding shares of the Company will the investors in this offering have? Assume exercise of outstanding options, warrants or rights and conversion of convertible securities, if the respective exercise or conversion prices are at or less than the offering price. (Also assume exercise of any options, warrants or rights and conversions of any convertible securities in this offering.) Assuming maximum offering is sold: 72.8 %
- (b) What post-offering value is management implicitly attributing to the entire Company by establishing the price per security set forth on the cover page (or exercise conversion price if common stock is not offered)? (Total outstanding shares after offering times offering price, or exercise or conversion price if common stock is not offered.) Assuming maximum offering is sold: \$101,000.00

(For above purposes, assume outstanding options are exercised in determining "shares" if the exercise prices are at or less than the offering price. All convertible securities, including outstanding convertible securities, shall be assumed converted and any options, warrants or rights in this offering shall be assumed exercised.)

Note: After reviewing the above, potential investors should consider whether or not the offering price (or exercise or conversion price, if applicable) for the securities is appropriate at the present stage of the Company's development.

USE OF PROCEEDS

- 9 (a). The following table sets forth the use of proceeds from this offering (based on the minimum and maximum offering amounts):

Use of Proceeds	Maximum Offering <u>Amount</u>	<u>Percent</u>
Transfer Agent Fee	\$ 1,000.00	1 %
Printing Cost	\$ 250.00	1 %
Legal Fees	\$ 5,000.00	7 %
Accounting Fees	\$ 2,500.00	3 %
Working Capital	\$66,250.00	88 %
	<hr/>	<hr/>
Total	\$75,000.00	100%

Management anticipates expending these funds for the purposes indicated above. To the extent that expenditures are less than projected, the resulting balance will be retained and used for general working capital purposes or allocated according to the discretion of the Board of Directors. Conversely, to the extent that such expenditures require the utilization of funds in excess of the amount anticipated, supplemental amounts may be drawn from the other sources, including, but not limited to, general working capital and/or external financing. The net proceeds of this offering that are not expended immediately may be deposited in an interest or non-interest bearing account, or invested in government obligations, certificates of deposit, commercial paper, money market funds, or similar investments.

Expressions Graphics, Inc.

- 9 (b).** If there is no minimum amount of proceeds that must be raised before the Company may use the proceeds of this offering, describe the order of priority in which the proceeds set forth above in the column Maximum Offering Amount will be used.

Expressions Graphics, Inc. will use proceeds in the following order of priority:

- (1) Printing Costs - In an effort to achieve the maximum offering
- (2) Transfer Agent - Necessary to perform the offering
- (3) Accounting - Funds in reserve for the preparation and audit of future required filings
- (4) Legal Fees - The company prefers to keep debt to a minimum during the startup phase
- (5) Working Capital - Funded last and applied in a manner best suited to implement the business plan

Working capital is expected to be used in the following manner:

- a. Rent and office expense of approximately \$500.00 per month of \$6,000.00 per year.
- b. Additional web site development of approximately \$5000.00 for the first stage of product testing, and an additional \$5000.00 budgeted for changes and enhancements to be implemented based on test sales and customer response.
- c. Inventory of common, ready to ship products is initially expected to be at approximately \$5,000.00 to \$10,000.00.
- d. Production equipment may be purchased to fulfill certain orders. The custom images uploaded to the web site for T-shirts and mugs will likely be produced by Expressions Graphics, Inc. due to the need for close interaction with the web site. The cost of the equipment to produce these types of products should not exceed \$5000.00.

The remaining working capital will be used for marketing expenses; printing costs, postage, telephone, advertising through direct mail pieces and other methods depending on market reaction.

Note: The telemarketing campaign will be commission based which will impact profit margin on sales.

No salaries will be paid to officers from this offering nor does Expressions Graphics, Inc. intend to use outside consultants.

This initial offering was intended to be a small offering to provide enough capital to test the concept and develop sales revenue sufficient to support daily operations.

Note: After reviewing the portion of the offering allocated to the payment of offering expenses, and to the immediate payment to management and promoters of any fees, reimbursements, past salaries or similar payments, a potential investor should consider whether the remaining portion of his investment, which would be that part available for future development of the Company's business and operations, would be adequate.

- 10 (a).** If material amounts of funds from sources other than this offering are to be used in conjunction with the proceeds from this offering, state the amount and sources of such other funds, and whether the funds are firm or contingent. If contingent, explain.

Material amounts of funds from sources, neither firm nor contingent, other than this offering are not anticipated or intended to be used in conjunction with the proceeds from this offering.

Expressions Graphics, Inc.

- 10 (b).** If any material part of the proceeds is to be used to discharge indebtedness, describe the terms of such indebtedness, including interest rates. If the indebtedness to be discharged was incurred within the current or previous fiscal year, describe the use of proceeds of such indebtedness.

Expressions Graphics, Inc. intends the use of no material part of the proceeds to discharge indebtedness.

- 10 (c).** If any material amount of proceeds is to be used to acquire assets, other than in the ordinary course of business, briefly describe and state the cost of the assets and other material terms of the acquisitions. If the assets are to be acquired from officers, directors, employees or principal stockholders of the company or their associates, give the names of the persons from whom the assets are to be acquired and set forth the cost to the Company, the method followed in determining the cost, and any profit to such persons.

No material amount of the proceeds is to be used to acquire assets, other than in the ordinary course of business. The company does not intend the acquisition of assets from officers, directors, employees, or principal stockholders of the company or their associates.

- 10 (d).** If any amount of the proceeds is to be used to reimburse any officer, director, employee or stockholder for services already rendered, assets previously transferred, or monies loaned or advance, or otherwise, explain.

No amount of the proceeds is intended to be used for the reimbursement of previously rendered services, transferred assets, monies loaned or advanced, or otherwise.

- 11.** Indicate whether the Company is having or anticipates having within the next 12 months any cash flow or liquidity problems and whether or not it is in default or in breach of any note, loan, lease or other indebtedness or financing arrangement requiring the Company to make payments. Indicate if a significant amount of the Company's trade payables have not been paid within the stated trade term. State whether the Company is subject to any unsatisfied judgments, liens or settlement obligations and the amounts thereof. Indicate the Company's plans to resolve any such problems.

Expressions Graphics, Inc. does not have nor anticipates having within the next 12 months any cash flow or liquidity problems, and is not in default or in breach of any note, loan, lease or other indebtedness or financing arrangement requiring the company to make payments. Expressions Graphics, Inc. is not subject to any unsatisfied judgements, liens or settlement obligations.

Expressions Graphics, Inc.'s basis for not anticipating cash flow problems in the next 12 months include; a current extremely low overhead, no debt and cash sufficient to satisfy current obligations. Potential investors should cautiously evaluate company expectations providing the preceding basis. The Company is dependent on the Offering proceeds to implement its business plans, should the Offering fail to raise sufficient proceeds, the Company's growth could be severely retarded. Dependence on a nominal level of sales could render the company operationally inactive for extended periods of time. This should be carefully considered with realization that no officers of the company have entered into any agreement, informal or formal, to invest additional cash, if needed. If an event or milestone of our business plan is not achieved as scheduled, the company would expect profitability to be delayed. The company does not anticipate any delays or cash flow problems which would expose the company's continued operations or existence.

Expressions Graphics, Inc.

The potential exists for a substantial float of orders, minimum purchases resulting in some retained inventory and possible customer returns or charge backs that could effect cash flow. The company may have to curtail marketing efforts until suitable credit accounts can be established or additional capital can be raised.

- 12.** Indicate whether proceeds from this offering will satisfy the Company's cash requirements for the next 12 months, and whether it will be necessary to raise additional funds. State the source of additional funds, if known.

Expressions Graphics, Inc. currently has extremely low overhead and fully anticipates the proceeds from this offering will satisfy cash requirements for the next 12 months. Even in the extreme event that no proceeds were received from this Offering, the company has sufficient funds to satisfy expenses for the next 12 months in a predominantly inactive state. Sufficient profits from sales, loans, or other investment would be needed to satisfy the cash requirements of implementing the company's business plans.

The company will seek to raise additional funds as required by the customer reaction to Expression Graphics, Inc. method of bringing its products to market. Growth beyond expected levels could require additional cash, as well as an unforeseen opportunity in the form of a contract with a large client or beneficial acquisition of a profitable subcontractor.

An additional offering of securities could be made or, if sufficient credit history has developed, a loan may be possible through a traditional banking entity. The officers of Expressions Graphics, Inc. may invest additional cash into the company as needed; however, no officer of the company has entered into any agreement, formal or informal, to invest additional cash.

Expressions Graphics, Inc.

INDEPENDENT AUDITORS' REPORT

TO THE BOARD OF DIRECTORS OF EXPRESSIONS GRAPHICS, INC.:

We have audited the accompanying balance sheet of Expressions Graphics, Inc. (A Development Stage Company) as of June 30, 2000 and the related statements of operations, stockholders' equity and cash flows for the period from January 13, 2000 (inception) to June 30, 2000. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Expressions Graphics, Inc. (the "Company") is currently a development stage company under the provisions of Statement of Financial Accounting Standards ("SFAS") No. 7. The Company was incorporated under the laws of the State of Nevada on January 13, 2000. Management has established the Company's accounting year-end to be December 31. The Company is an e-commerce business that provides a multitude of graphic design services, such as design of corporate logos, storefront signage and letterhead design, to small businesses and professionals primarily in Southern California.

Basis of Presentation

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles, which contemplates continuation of the Company as a going concern. However, the Company has no established source of revenue. This matter raises substantial doubt about the Company's ability to continue as a going concern. Without realization of additional capital, it would be unlikely for the Company to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset and liability amounts that might be necessary should the Company be unable to continue in existence.

Management plans to take the following steps that it believes will be sufficient to provide the Company with the ability to continue in existence:

- Management intends to raise up to \$75,000 from an SB-1 offering to fund the Company.
- Management expects that the Company will need approximately \$30,000 over the next twelve months to sustain operations. In six to eight months, management projects to generate between \$30,000 to \$40,000 per month in revenues from customers derived from word-of-mouth and repeat business. In addition, the Company is intending on advertising on the internet. It is management's intent to expand its customer base nationally through e-commerce.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1 - DESCRIPTION OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES
(Continued)

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with original maturities of three months or less to be cash equivalents.

Concentration of Credit Risk

From time to time the Company places its cash in what it believes to be credit-worthy financial institutions. However, cash balances may exceed FDIC insured levels at various times during the year.

Comprehensive Income

SFAS No. 131, "Reporting Comprehensive Income," establishes standards for the reporting and display of comprehensive income and its components in the financial statements. As of June 30, 2000, the Company has no items that represent comprehensive income and, therefore, has not included a schedule of Comprehensive Income in the accompanying financial statements.

Loss Per Share

The Company presents loss per share in accordance with SFAS No. 128, "Loss Per Share," which requires presentation of basic loss per share ("Basic LPS") and diluted loss per share ("Diluted LPS"). The computation of Basic LPS is computed by dividing loss available to common stockholders by the weighted average number of outstanding common shares during the period. Diluted LPS gives effect to all dilutive potential common shares outstanding during the period. The computation of Diluted LPS does not assume conversion, exercise or contingent exercise of securities that would have an antidilutive effect on earnings. As of June 30, 2000, the Company has no potentially dilutive common shares outstanding.

Income Taxes

The Company accounts for income taxes pursuant to SFAS No. 109, "Accounting for Income Taxes". Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences, and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion of, or all of, the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

NOTE 2 - COMMITMENTS AND CONTINGENCIES

Operating Leases

The Company leases office space under a non-cancelable operating lease that expires in April 2001. Lease expense for the period from January 13, 2000 (inception) to June 30, 2000 was approximately \$400.

Future minimum lease payments under operating leases with an initial or remaining terms of one year or more are as follows:

Year Ending December 31,	
2000	\$ 2,700
2001	<u>1,400</u>
Total	<u>\$ 4,100</u>

NOTE 3 - STOCKHOLDERS' EQUITY

Common Stock

During the period from January 13, 2000 (inception) to June 30, 2000, the Company had the following common stock transactions:

- Issued 140,000 shares of its common stock for \$7,000.
- Issued 420,000 shares of its common stock as compensation to its officers for the six-month start-up period. The Company valued the shares at \$21,000, which was the fair market value as of the issuance date.

NOTE 4 - INCOME TAXES

The components of the provision for income taxes for the period from January 13, 2000 (inception) to June 30, 2000 are as follows:

Current Tax Expense	
U.S. Federal	\$ -
State and local	<u>-</u>
Total Current	<u>-</u>
Deferred Tax Expense	
U.S. Federal	-
State and local	<u>-</u>
Total Deferred	<u>-</u>
Total Tax Provision (Benefit)	<u>\$ -</u>

The reconciliation of the effective income tax rate to the Federal statutory rate is as follows for the period from January 13, 2000 (inception) to June 30, 2000:

Federal Income Tax Rate	34.0%
Effect of Valuation Allowance	<u>(34.0)%</u>
Effective Income Tax Rate	<u>0.0%</u>

At June 30, 2000, the Company had net carryforward losses of approximately \$1,500. Because of the current uncertainty of realizing the benefits of the tax carryforward, valuation allowances equal to the tax benefits for deferred taxes have been established. The full realization of the tax benefit associated with the carryforward depends predominantly upon the Company's ability to generate taxable income during the carryforward period.

Deferred tax assets and liabilities reflect the net tax effect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and amounts used for income tax purposes. Significant components of the Company's deferred tax assets and liabilities are as follows as of June 30, 2000:

Deferred Tax Assets	
Loss Carryforwards	\$ 1,500

MANAGEMENT'S DISCUSSION AND ANALYSIS OF CERTAIN RELEVANT FACTORS

- 47.** If the Company's financial statements show losses from operations, explain the causes underlying these losses and what steps the Company has taken or is taking to address these causes.

This current loss is a result of the initial compensation paid to the officers of the Company and the costs of formation. Expressions Graphics is newly formed and has not begun to sell its products. The company is preparing to sell a marquee banner system and traditional vinyl banners. Management expects that the sales of these basic products will provide sufficient revenue for profitable operations.

No proceeds are required from this offering to establish some sales of the products currently available to the company. The proceeds from the offering are intended accelerate the implementation and expansion of the business plan. Those funds raised beyond the estimated \$8,750 in costs associated with the offering will provide additional working capital giving the company the ability to more aggressively develop and market its products.

Due to low overhead costs, the company believes that the introduction of the first products will provide a revenue stream sufficient to support the company as a going concern.

- 48.** Describe any trends in the Company's historical operating results. Indicate changes now occurring in the underlying economics of the industry or the Company's business which, in the opinion of management, will have a significant impact (either favorable or adverse) upon the Company's results of operations within the next 12 months, and give a rough estimate of the probable extent of impact.

Expressions Graphics, Inc. is newly formed and has not had a prior fiscal year.

- 49.** If the Company sells a product or products and has had significant sales during its last fiscal year, state the existing gross margin (net sales less cost of such sales as presented in accordance with generally accepted accounting principles) as a percentage of sales for the last fiscal year: ____%
What is anticipated gross margin for next year of operations? ____%
If this is expected to change, explain. Also, if reasonably current gross margin figures are available for the industry, indicate these figures and the source or sources from which they are obtained.

Expressions Graphics, Inc. is newly formed and has not had a prior fiscal year.

- 50.** Foreign sales as a percent of total sales for last fiscal year: ____%
Domestic government sales as a percent of total domestic sales for last fiscal year: ____%
Explain the nature of these sales, including any anticipated changes:
