PART I

ITEM 1. DESCRIPTION OF BUSINESS.

General

The Company was incorporated under the laws of the State of Delaware on August 19, 1997. To date, the Company's only activities have been organizational ones, directed at developing its business plan and raising its initial capital. The Company has not commenced any commercial operations. The Company has no full-time employees and owns no real estate.

The Company is a "blind pool" or "blank check" company, whose business plan is to seek, investigate, and, if warranted, acquire one or more properties or businesses, and to pursue other related activities intended to enhance shareholder value. The acquisition of a business opportunity may be made by purchase, merger, exchange of stock, or otherwise, and may encompass assets or a business entity, such as a corporation, joint venture, or partnership. The Company has very limited capital, and it is unlikely that the Company will be able to take advantage of more than one such business opportunity. The Company intends to seek opportunities demonstrating the potential of long-term growth as opposed to short-term earnings.

At the present time, the Company has not identified any business opportunity that it plans to pursue, nor has the Company reached any agreement or definitive understanding with any person concerning an acquisition.

ITEM 2. DESCRIPTION OF PROPERTY.

The Company currently has no investments in real estate, real estate mortgages, or real estate securities. The Company maintains a mailing address at 5150 Tamiami Trail North, Suite 202, Naples, Florida 34103. The Company pays no rent for the use of this mailing address.

ITEM 3. LEGAL PROCEEDINGS.

The Company is not a party to any pending legal proceedings, and no such proceedings are known to be contemplated. No director, officer or affiliate of the Company, and no owner of record or beneficial owner of more than five percent (5%) of the securities of the Company, or any associate of any such director, officer or security holder is a party adverse to the Company or has a material interest adverse to the Company in reference to pending litigation.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of the security holders of the Company during the fourth quarter of the fiscal year which ended December 31, 2002.

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

There is not currently a public trading market for the Company's securities. Such securities are currently held of record by a total of approximately 61 persons.

No dividends have been declared or paid on the Company's securities, and it is not anticipated that any dividends will be declared or paid in the foreseeable future.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Certain statements in this report, including statements in the following discussion which are not statements of historical fact, are what are known as "forward looking statements," which are basically statements about the future. For that reason, these statements involve risk and uncertainty since no one can accurately predict the future. Words such as "plans," "intends," "will," "hopes," "seeks," "anticipates," "expects" and the like often identify such forward looking statements, but are not the only indication that a statement is a forward-looking statement. Such forward looking statements include statements concerning our plans and objectives with respect to the present and future operations of the Company, and statements which express or imply that such present and future operations will or may produce revenues, income or profits. Numerous factors and future events could cause the Company to change such plans and objectives or fail to successfully implement such plans or achieve such objectives, or cause such present and future operations to fail to produce revenues, income or profits. Therefore, the reader is advised that the following discussion should be considered in light of the discussion of risks and other factors contained in this report on Form 10KSB and in the Company's other filings with the Securities and Exchange Commission. No statements contained in the following discussion should be construed as a guarantee or assurance of future performance or future results.

Liquidity and Capital Resources

As of December 31, 2002, the Company remains in the development stage. For the fiscal year ended December 31, 2002, the Company's balance sheet reflects current asset and total assets of \$ 3,070, \$ 3,068 of which is in the form of a loan receivable, and current liabilities of \$1,220.

The Company will carry out its plan of business as discussed above. The Company does not have sufficient assets or capital resources to pay its ongoing expenses while it is seeking out business opportunities, and it has no current plans to raise additional capital through sale of securities, or otherwise. As a result, although the Company has no agreement in place with its shareholders or other persons to pay expenses on its behalf, it is currently anticipated that the Company will rely on loans or additional capital contributions from shareholders to pay expenses at least until it is able to consummate a business transaction.

Results of Operations

During the period from August 19, 1997 (inception) through December 31, 2002, the Company has engaged in no significant operations other than organizational activities, acquisition of capital and preparation and filing of its registration statement on Form 10-SB under the Securities Exchange Act of 1934, as amended, compliance with its periodical reporting requirements and initial efforts to locate a suitable merger or acquisition candidate. No revenues were received by the Company during this period, and the Company has accumulated a deficit of \$ 12,658 during the development stage.

Plan of Operations

For the fiscal year ending December 31, 2003, the Company will carry out its business plan as discussed above. The Company anticipates incurring a loss for the fiscal year as a result of expenses associated with compliance with the reporting requirements of the Securities Exchange Act of 1934, and expenses associated with the completion of its pending business acquisition. There are, however, no assurances that this acquisition will be completed, in which case the Company will continue its efforts to locate a suitable business for this purpose. The Company does not expect to generate revenues until it completes a business acquisition, and, depending upon the performance of the acquired business, it may also continue to operate at a loss after completion of a business combination.

Need for Additional Financing

The Company will require additional capital in order to meet its cash needs for the next year, including the costs of compliance with the continuing reporting requirements of the Securities Exchange Act of 1934, as amended.

No specific commitments to provide additional funds have been made by management or other stockholders, and the Company has no current plans, proposals, arrangements or understandings with respect to the sale or issuance of additional securities prior to the location of a merger or acquisition candidate. Accordingly, there can be no assurance that any additional funds will be available to the Company to allow it to cover its expenses. Notwithstanding the foregoing, to the extent that additional funds are required, the Company anticipates receiving such funds in the form of loans or advancements from current shareholders without issuance of additional shares or other securities, or through the private placement of restricted securities rather than through a public offering.

The Company may also seek to compensate providers of services by issuances of stock in lieu of cash. For information as to the Company's policy in regard to payment for consulting services, see "Certain Relationships and Transactions."

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

No officer, director, promoter, affiliate or beneficial owner of the Company has, has had, or proposes to have, any direct or indirect material interest in any asset proposed to be acquired by the Company through security holdings, contracts, options, or otherwise.

The Company has adopted a policy under which any consulting or finder's fee that may be paid to a third party for consulting services to assist management in evaluating a prospective business opportunity would be paid in stock rather than in cash. Any such issuance of stock would be made on an ad hoc basis. Accordingly, the Company is unable to predict whether, or in what amount, such stock issuance might be made.

It is not currently anticipated that any salary, consulting fee, or finder's fee shall be paid to any of the Company's directors or executive officers, or to any other affiliate of the Company except as described under "Executive Compensation" above.

Although management has no current plans to cause the Company to do so, it is possible that the Company may enter into an agreement with an acquisition candidate requiring the sale of all or a portion of the Common Stock held by the Company's current stockholders to the acquisition candidate or principals thereof, or to other individual or business entities, or requiring some other form of payment to the Company's current stockholders, or requiring the future employment of specified officers and payment of salaries to them. It is more likely than not that any sale of securities by the Company's current stockholders to an acquisition candidate would be at a price substantially higher than that originally paid by such stockholders. Any payment to current stockholders in the context of an acquisition involving the Company would be determined entirely by the largely unforeseeable terms of a future agreement with an unidentified business entity.
