PART I – FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

As used herein, the terms “Company,” “we,” “our,” and “us” refer to ComCam International, Inc., a Delaware corporation, unless otherwise indicated. In the opinion of management, the accompanying unaudited financial statements included in this Form 10-Q reflect all adjustments (consisting only of normal recurring accruals) necessary for a fair presentation of the results of operations for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year.

COMCAM INTERNATIONAL, INC.
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2010

Note 1 – Organization and Summary of Significant Accounting Policies

Organization

The consolidated financial statements consist of Comcam International, Inc. (“Comcam”) and its wholly owned subsidiary Pinnacle Integrated Systems, Inc. (“Pinnacle”). Collectively, these entities are referred to as the “Company”.

Comcam was organized under the laws of the state of Delaware on September 19, 1998. The Company’s operations consist primarily of the research and development of advanced compact video systems that utilize built-in digital compression technology. Pinnacle is a security systems integrator focused on correctional facilities across the United States, providing turnkey system design and installation, maintenance contracts, and field support technicians.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared by management in accordance with the instructions in Form 10-Q and, therefore, do not include all information and footnotes required by generally accepted accounting principles and should, therefore, be read in conjunction with the Company’s Form 10-K for the year ended December 31, 2009, filed with the Securities and Exchange Commission. These statements do include all normal recurring adjustments which the Company believes necessary for a fair presentation of the statements. The interim operations are not necessarily indicative of the results to be expected for the full year ended December 31, 2010.

Additional Footnotes Included By Reference

Except as indicated in the following Notes, there have been no other material changes in the information disclosed in the notes to the financial statements included in the Company’s Form 10-K for the year ended December 31, 2009, filed with the Securities and Exchange Commission. Therefore, those footnotes are included herein by reference.

Note 2 – Going Concern

As of March 31, 2010, the Company has negative working capital, a stockholders’ deficit, and has incurred losses since inception. These factors taken alone raise substantial doubt about the Company’s ability to continue as a going concern. However, management is in the process of procuring additional financing to expand marketing efforts and product development which actions, if successful, will enable the Company to continue as a going concern. Nevertheless, there can be no assurance that sufficient financing will be available to the Company to successfully pursue its marketing and product development efforts.

COMCAM INTERNATIONAL, INC.
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2010

Note 3 – Long-Term Debt

Long-term debt consists of the following:

	March 31, 2010 (Unaudited)	December 31, 2009 (Audited)
Note payable to Robert Betty, bearing interest at 3%, secured by the common stock and assets of Pinnacle, and due in five monthly installments of \$200,000, beginning February 15, 2010. The Company is in default of the agreement.	\$ 904,438	1,000,000
Notes payable to Paul Higbee, bearing interest at 8%, due March 2012, secured by the intellectual property of the Company.	465,000	465,000
Unsecured note payable to Global Megatrend, bearing interest at 7.5% and due on demand. The note may be converted to common shares of the Company, at the option of the holder, based on certain terms related to outstanding shares and per share prices. The Company is in default of the agreement.	176,568	176,568
Convertible debenture to HNI, LLC of \$125,000 bearing interest at 12%, and due on demand. The Company is in default of the agreement.	125,000	125,000
	1,671,006	1,766,568
Less current portion	(1,206,006)	(1,766,568)
	\$ 465,000	-

Note 4 – Supplemental Cash Flow Information

During the three months ended March 31, 2010, the Company issued 508,200 shares of common stock in exchange for \$127,050 of accrued interest expense.

During the three months ended March 31, 2010 and March 31, 2009, cash paid for interest was \$9,438 and \$0, respectively.

COMCAM INTERNATIONAL, INC.
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2010

Note 5 – Legal Matters

In October 2009, Park Valley Associates II, LP filed a Writ of Execution in the Court of Common Pleas of Delaware County, Pennsylvania, Case #08-016724 against the Company in order to garnish its bank accounts charging a balance due of \$191,827 and costs of \$9,591 in connection with the Company's failure to pay rent. The Company is in negotiations with counsel for Park Valley Associates II, LP to settle the outstanding amount due and has paid \$54,000 since the writ was filed. The balance due is included in accrued expenses in the balance sheets.

Note 6 – Subsequent Events

The Company has evaluated subsequent events from the balance sheet date through the date the financial statements were issued. Other than the events noted below, the Company is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

During the period since March 31, 2010, the Company issued 200,000 shares of common stock to four individuals for \$50,000 at \$0.25 per share.

Note 7 – Recent Accounting Pronouncements

In April 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-13, "Effect of Denominating the Exercise Price of a Share-Based Payment Award in the Currency of the Market in Which the Underlying Equity Security Trades" ("ASU 2010-13"). ASU 2010-13 addresses the classification of a share-based payment award with an exercise price denominated in the currency of a market in which the underlying equity security trades. FASB Accounting Standards Codification ("ASC") Topic 718 was amended to clarify that a share-based payment award with an exercise price denominated in the currency of a market in which a substantial portion of the entity's equity securities trade shall not be considered to contain a market, performance or service condition. Therefore, such an award is not to be classified as a liability if it otherwise qualifies for equity classification. The amendments in ASU 2010-13 are effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010, with early application permitted. We do not anticipate that the adoption of this guidance will have a material impact on our financial position and results of operations.

In February 2010, the FASB issued ASU No. 2010-09, "Amendments to Certain Recognition and Disclosure Requirements" ("ASU 2010-09"), which amends ASC Topic 855, "Subsequent Events." The amendments to ASC Topic 855 do not change existing requirements to evaluate subsequent events, but: (i) defines a "SEC Filer," which we are; (ii) removes the definition of a "Public Entity"; and (iii) for SEC Filers, reverses the requirement to disclose the date through which subsequent events have been evaluated. ASU 2010-09 was effective for us upon issuance. This guidance did not have a material impact on our financial position and results of operations.

COMCAM INTERNATIONAL, INC.
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2010

Note 7 – Recent Accounting Pronouncements (continued)

In January 2010, the FASB issued ASU No. 2010-06, “Improving Disclosures about Fair Value Measurements” (“ASU 2010-06”). ASU 2010-06 requires new disclosures for (i) transfers of assets and liabilities in and out of levels one and two fair value measurements, including a description of the reasons for such transfers and (ii) additional information in the reconciliation for fair value measurements using significant unobservable inputs (level three). This guidance also clarifies existing disclosure requirements including (i) the level of disaggregation used when providing fair value measurement disclosures for each class of assets and liabilities and (ii) the requirement to provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for level two and three assets and liabilities. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about activity in the roll forward for level three fair value measurements, which is effective for fiscal years beginning after December 15, 2010. The adoption of this guidance has not had a material impact on our financial position and results of operations.

Management believes the impact of other recently issued standards and updates, which are not yet effective, will not have a material impact on the Company’s consolidated financial position, results of operations or cash flows upon adoption.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This *Management's Discussion and Analysis of Financial Condition and Results of Operations* and other parts of this quarterly report contain forward-looking statements that involve risks and uncertainties. Forward-looking statements can be identified by words such as "anticipates," "expects," "believes," "plans," "predicts," and similar terms. Forward-looking statements are not guarantees of future performance and our actual results may differ significantly from the results discussed in the forward-looking statements. Factors that might cause such differences include but are not limited to those discussed in the subsection entitled *Forward-Looking Statements and Factors That May Affect Future Results and Financial Condition* below. The following discussion should be read in conjunction with our financial statements and notes thereto included in this report. Our fiscal year end is December 31. All information presented herein is based on the three month period ended March 31, 2010.

Discussion and Analysis

Our financial condition and results of operations depend primarily on revenue generated from the sale of our products and specialized services in addition to our ability to realize additional debt or equity financing. We can provide no assurance that revenue going forward will provide sufficient cash flows to sustain our operations though revenue approximating that required to sustain operations is anticipated through our fiscal year end. Further, although we have no commitments for financing we remain in the process of procuring additional equity financing as we seek to redress any shortfall in cash flows to sustain operations while seeking to expand our business.

Summary

The Company is both a network solutions innovator and a provider of fusion technologies for security products and modern networks. Our proprietary digital wireless camera systems and security integration solutions address complex command-and-control applications for rapid-deployment military situations, borders, ports, airports, and detention facilities.

Our video fusion platform adds next generation, real-time, interactive command-and-control capabilities to legacy security systems for greater performance at lower cost. The platform seamlessly integrates a suite of analytics and third-party security solutions to improve real-time decision making for critical events over any wireless network. We accomplish this through the sale or licensing of: i) intelligent camera and micro-server devices, ii) a suite of software and software toolkits for command-and-control, mobile display, and storage/data management, and iii) specialized "Intelligent Video Analysis" software applications using biometrics, sensors, motion detection/tracking, access control, and other functions.

The Company's applications have been deployed with the Department of Defense (DOD), Federal Bureau of Investigation (FBI), Immigration & Customs Enforcement (ICE), and many other law enforcement and intelligence agencies in addition to businesses across a wide range of industries. On our own or working with prime government contractors like DRS, Motorola, and Siemens, our products are deployed in such diverse locales as the John F. Kennedy International Airport, isolated sections of the Texas-Mexico border, and remote mountain passes in Afghanistan.

We recently acquired Pinnacle, a security systems integrator of correctional facilities across the United States. Pinnacle provides turnkey system design and installation, maintenance contracts, and field support technicians. As a systems integrator Pinnacle can take the role of the prime contractor or can play a key support role to leading government integrators. Over the past three years Pinnacle has completed more than 15 projects, with the largest topping \$4.2 million, utilizing a skill set and the resources to successfully complete projects in the \$10-\$15 million range.

Results of Operations

During the three month period ended March 31, 2010, we were engaged in (i) the ongoing development and sale of our *Internet Protocol* remote control platform cameras, micro servers, associated software, and unique end-to-end network solutions, (ii) providing turnkey system design and installation, maintenance contracts, and field support technicians through Pinnacle, (iii) an equity financing through the sale of our common stock, and (iv) satisfying continuous public disclosure requirements.

Revenue

Revenue for the three months ended March 31, 2010, increased to \$947,540 from \$6,710 for the three months ended March 31, 2009. The increase in revenue over the comparable periods is primarily due to Pinnacle's sales in the current three month period. We expect to increase revenues in future periods through an increase in (i) Pinnacle's sales to correction facilities and (ii) sales of our next generation video products.

Cost of revenue for the three months ended March 31, 2010, was \$710,678 compared to \$0 for the three months ended March 31, 2009. The realization in the cost of revenue in the current period can be primarily attributed to the costs of materials related to Pinnacle's sales. We expect costs of revenue to increase in future periods with a corresponding increase in sales of our products.

Gross profit for the three months ended March 31, 2010, increased to \$236,862 from \$6,710 for the three months ended March 31, 2009. The increase in gross profit over the comparable periods is primarily attributable to the operations of Pinnacle. We expect that gross profit will increase in the near term and that gross profit as a percentage of revenue will remain relatively constant in future periods.

Expenses

Operating expenses for the three months ended March 31, 2010, increased to \$495,559 from \$52,161 for the three months ended March 31, 2009. The increase in operating expenses over the comparative periods is primarily attributable to an increase in general and administrative expenses to \$492,471 from \$52,161, which increases are mainly due to the operations of Pinnacle and an increase in research and development expenses to \$3,088 from \$0. We expect that operating expenses will remain constant in the near term.

Depreciation and amortization expenses for the three months ended March 31, 2010 and 2009 were \$126,258 and \$3,171, respectively.

Other Income (Expense)

Interest income for the three months ended March 31, 2010, was \$419 as compared to \$0 for the three months ended March 31, 2009.

Interest expense for the three months ended March 31, 2010, increased to \$27,671 from \$21,710 for the three months ended March 31, 2009. The Company expects that losses from interest expense will decrease over the future periods as management strives to reduce debt.

Net Losses

Net losses for the three months ended March 31, 2010, increased to \$285,949 from \$67,161 for the three months ended March 31, 2009. The increase in losses over the comparative periods is primarily due to an increase in general and administrative expenses over the comparable periods that exceeded the increase in gross profit over the comparable periods. We expect to realize net profits in future periods as gross profits exceed general and administrative expenses but may continue to operate at a net loss through the year ended December 31, 2010.

Income Tax Expense (Benefit)

The Company has an income tax benefit resulting from net operating losses to offset any future operating profit. The net operating loss carry forwards at March 31, 2010, was over \$6,500,000. These will begin to expire in the year 2019. The amount of net operating loss carry forwards that can be used in any one year can be limited by significant changes in the ownership of the Company and by the applicable tax laws which are in effect at the time such carry forwards are utilized.

Impact of Inflation

The Company believes that inflation has had a negligible effect on operations over the past three years. We believe that we can offset inflationary increases in the cost of materials and labor by increasing sales and improving operating efficiencies.

Capital Expenditures

The Company made no significant capital expenditures on property or equipment for the three months ended March 31, 2010 or 2009.

Liquidity and Capital Resources

The Company had a working capital deficit of \$976,722 as of March 31, 2010 and \$1,786,500 as of December 31, 2009. The Company had current assets of \$1,367,796 and total assets of \$2,068,769 as of March 31, 2010. Current assets consisted primarily of cash totaling \$378,949 and accounts receivable of \$940,194. In addition to current assets, total assets also consisted primarily of intangible assets of \$582,713 and property and equipment of \$106,931. The Company had current liabilities of \$2,344,518 and total liabilities of \$2,809,518 as of March 31, 2010. Liabilities consisted primarily of accounts payable, accrued expenses, excess billings, the current portion of long-term debt, and long-term debt.

Cash flows used in operations were \$120,361 for the three months ended March 31, 2010, as compared to \$11,212 for the three months ended March 31, 2009. The increase in cash flows used in operations over the comparative periods can be primarily attributed to the increase in net losses and decreases in both accounts receivable and excess billings in the current period that were only partially offset by a decrease in accounts receivable. We expect to continue to use cash flow in operating activities over the near term.

Cash flows used in investing activities were \$5,411 for the three months ended March 31, 2010, as compared to \$0 for the three months ended March 31, 2009. Cash flows used in investing activities in the current period are from the purchase of property and equipment. The Company expects to continue to use cash flows in investing activities in future periods.

Cash flows provided by financing activities were \$286,938 for the three months ended March 31, 2010, as compared to \$17,000 for the three months ended March 31, 2009. Cash flows provided by financing activities for the current period are attributable to the issuance of common stock for cash which was partially offset by a payment on long-term debt. We may continue to provide cash flow from financing activities.

We may not have sufficient current assets or operational cash flow to meet our obligations or satisfy cash needs through 2010. Sources for other prospective financings may consist of loans from shareholders, the sale of equity, or loans from other sources. Although we have funded our cash needs from inception from revenue, sales of our equity, and a series of debt transactions we can provide no assurance that we will be able to obtain sufficient financing. If we are unable to increase our cash flows from operating activities or obtain sufficient financing, we may not be able to continue operations.

The Company has no lines of credit or other bank financing arrangements.

The Company has no commitments for future capital expenditures that were material at March 31, 2010.

The Company has an employee benefit plan registered under Form S-8 pursuant to which it could issue or option shares of its common stock to employees, directors, officers, consultants or advisors on the terms and conditions set forth therein. As of March 31, 2010, 50,000 shares remained available for issuance or grant under this plan.

The Company has no current plans for the purchase or sale of any plant or equipment.

The Company has no current plans to make any changes in the number of employees.

The Company does not expect to pay cash dividends in the foreseeable future.

Off-Balance Sheet Arrangements

As of March 31, 2010, the Company has no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources that is material to stockholders.

Going Concern

The Company's auditors have expressed an opinion as to our ability to continue as a going concern as a result of an accumulated deficit of \$6,280,351 as of December 31, 2009 which has increased to \$6,566,300 as of March 31, 2010. Our ability to continue as a going concern is subject to the ability of the Company to obtain a profit and/or obtaining the necessary funding from outside sources. Management's plan to address the Company's ability to continue as a going concern includes (i) increases in revenue; (ii) decreases in general and administrative costs; (iii) financing from private placement sources; and (iv) converting outstanding debt to equity. Although the Company believes that it will be able to remain a going concern, through the methods discussed above, there can be no assurances that such methods will prove successful.

Critical Accounting Policies

In Note 1 to the audited financial statements for the years ended December 31, 2009 and 2008, included in our Form 10-K, the Company discussed those accounting policies that are considered to be significant in determining the results of operations and its financial position. The Company believes that the accounting principles utilized by it conform to accounting principles generally accepted in the United States. The preparation of financial statements requires Company management to make significant estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. By their nature, these judgments are subject to an inherent degree of uncertainty. On an on-going basis, the Company evaluates estimates. The Company bases its estimates on historical experience and other facts and circumstances that are believed to be reasonable, and the results form the basis for making judgments about the carrying value of assets and liabilities. The actual results may differ from these estimates under different assumptions or conditions.

Revenue Recognition

The Company generates revenues from product sales, consulting, installation of security systems, and support and maintenance contracts. The Company's revenue recognition policy is as follows:

- Development and Delivery of Security Systems - Profits on long-term contracts are recorded primarily using the percentage of completion method for individual contracts. Estimated percentage of completion is determined on the basis of total costs expended as a percentage of total estimated costs. As the Company's long-term contracts extend over one or more years, revisions in cost and profit estimates are reflected in the accounting period that the revisions become known. Because of inherent uncertainties in estimating costs, it is at least reasonably possible that the estimates used will change within the near term.
 - Contract costs include all direct materials, labor, and other costs. General and administrative costs are charged to expense as incurred. At the time a loss on a contract is expected, the entire amount of the estimated loss is recognized.
 - The asset, "Costs and estimated earnings in excess of billings on uncompleted contracts," represents revenues earned in excess of amounts billed. The liability, "Billings in excess of costs and estimated earnings on uncompleted contracts," represents billings in excess of revenues earned.
- Support and Maintenance Revenue – Revenue from support and maintenance agreements is recognized ratably over the term of the agreement, which in most instances is one year.
- Service Revenue – Revenue from system upgrades is recognized as the services are performed. Revenue from training and development services is recognized as the services are performed.
- Product Sales Revenue – Revenue from product sales is recognized at the time the product is shipped and invoiced and collectibility is reasonably assured. The Company believes that revenue should be recognized at the time of shipment as title passes to the customer at the time of shipment.
- Consulting Revenue – Revenues from consulting services are recognized when a consulting agreement is executed that establishes the amount and scope of service to be provided, the consulting services have been performed, and the Company has no additional rescission, refund, or customer satisfaction requirements, and collectibility of the amount billed is reasonably assured.

Forward-Looking Statements and Factors That May Affect Future Results and Financial Condition

The statements contained in the section titled *Management's Discussion and Analysis of Financial Condition and Results of Operations* and elsewhere in this current report, with the exception of historical facts, are forward-looking statements. Forward-looking statements reflect our current expectations and beliefs regarding our future results of operations, performance, and achievements. These statements are subject to risks and uncertainties and are based upon assumptions and beliefs that may or may not materialize. These statements include, but are not limited to, statements concerning:

- our anticipated financial performance;
- the sufficiency of existing capital resources;
- our ability to raise additional capital to fund cash requirements;
- uncertainties related to our business;
- increases in revenues;
- the volatility of the stock market and;
- general economic conditions.

We wish to caution readers that our operating results are subject to various risks and uncertainties that could cause our actual results to differ materially from those discussed or anticipated including the factors set forth in the section entitled *Risk Factors* included elsewhere in this report. We also wish to advise readers not to place any undue reliance on the forward-looking statements contained in this report, which reflect our beliefs and expectations only as of the date of this report. We assume no obligation to update or revise these forward-looking statements to reflect new events or circumstances or any changes in our beliefs or expectations, other than as required by law.

Stock-Based Compensation

We have adopted Accounting Standards Codification Topic ("ASC") 718, (formerly SFAS No.123) (revised 2004) (SFAS No. 123R), Share-Based-Payment, which addresses the accounting for stock-based payment transactions in which an enterprise receives employee services in exchange for (a) equity instruments of the enterprise or (b) liabilities that are based on the fair value of the enterprise's equity instruments or that may be settled by the issuance of such equity instruments.

We account for equity instruments issued in exchange for the receipt of goods or services from other than employees in accordance with ASC 505. Costs are measured at the estimated fair market value of the consideration received or the estimated fair value of the equity instruments issued, whichever is more reliably measurable. The value of equity instruments issued for consideration other than employee services is determined on the earliest of a performance commitment or completion of performance by the provider of goods or services.

Recent Accounting Pronouncements

Please see Note 7 to our consolidated financial statements for recent accounting pronouncements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not required.

ITEM 4T. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

In connection with the preparation of this report on Form 10-Q, an evaluation was carried out by the Company's management, with the participation of the chief executive officer and the chief financial officer, of the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 ("Exchange Act")). Disclosure controls and procedures are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Commission's rules and forms and that such information is accumulated and communicated to management, including the chief executive officer and the chief financial officer, to allow timely decisions regarding required disclosures.

Based on that evaluation, the Company's management concluded, as of the end of the period covered by this report, that the Company's disclosure controls and procedures were effective in recording, processing, summarizing, and reporting information required to be disclosed, within the time periods specified in the Commission's rules and forms, and that such information was accumulated and communicated to management, including the chief executive officer and the chief financial officer, to allow timely decisions regarding required disclosures.

Changes in Internal Control over Financial Reporting

There have been no changes in internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) during the period ended March 31, 2010 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In October 2009, Park Valley Associates II, LP filed a Writ of Execution in the Court of Common Pleas of Delaware County, Pennsylvania, Case #08-016724 against the Company in order to garnish its bank accounts charging a balance due of \$191,827 and costs of \$9,591 in connection with the Company's failure to pay rent. The Company is in negotiations with counsel for Park Valley Associates II, LP to settle the outstanding amount due and has paid \$54,000 since the writ was filed. The balance due is included in accrued expenses in the balance sheets.

ITEM 1A. RISK FACTORS

The Company's operations and securities are subject to a number of risks. Below we have identified and discussed the material risks that we are likely to face. Should any of the following risks occur, they will adversely affect our business, financial condition, and/or results of operations as well as the future trading price and/or the value of our securities.

Risks Related to the Company's Business

THE COMPANY'S ABILITY TO CONTINUE AS A GOING CONCERN IS IN QUESTION

The Company's auditors included an explanatory statement in their report on our consolidated financial statements for the years ended December 31, 2009 and 2008, stating that there are certain factors which raise substantial doubt about the Company's ability to continue as a going concern. These factors include limited revenue generating activities in place, and losses since inception.

THE COMPANY HAS A HISTORY OF LOSSES AND MAY INCUR LOSSES FOR THE FORESEEABLE FUTURE

The Company had an accumulated deficit of over \$6,500,000 as of March 31, 2010. We do not expect to achieve profitability in the next twelve months and can provide no assurances that we will ever achieve profitability or in the event that we do achieve profitability that we will be able to sustain that profitability over time.

IF THE COMPANY DOES NOT GENERATE SUFFICIENT CASH FLOW FROM OPERATIONS AND IS UNABLE TO OBTAIN ADDITIONAL CAPITAL TO OPERATE ITS BUSINESS, WE MAY NOT BE ABLE TO EFFECTIVELY CONTINUE OPERATIONS

As of March 31, 2010, the Company had a working capital deficit of \$976,722. We do not expect to generate sufficient cash flow from operations to cover our expenditures until the end of 2010. Until the point at which cash flow from operations match expenditures we will have to obtain additional working capital from debt or equity placements to effectively continue our operations. However, we have no commitment for the provision of additional working capital. Should we be unable to secure additional capital to cover our short fall in cash flow, such condition would cause us to reduce expenditures which could have a material adverse effect on our business.

THE COMPANY MAY NOT BE SUCCESSFUL IN INTEGRATING THE BUSINESS OPERATIONS OF PINNACLE INTO OUR BUSINESS OPERATIONS, STIFLING GROWTH AND DISRUPTING OUR BUSINESS.

The Company's recent acquisition of Pinnacle involves the integration of companies that have previously operated independently. Successful integration will depend on our ability to consolidate operations and procedures and to integrate Pinnacle's management team with our own. If we are unable to do so, we may not realize the anticipated potential benefits of the acquisition, our business development could be stifled, and results of operations may suffer. Difficulties could include the loss of key employees, the disruption of Pinnacle's ongoing businesses, and possible inconsistencies in standards, controls, procedures and policies.

THE COMPANY MAY NOT BE ABLE TO DEVELOP NEW PRODUCTS

We have historically had difficulty producing our products because of cash flow shortages. Though we have recently resumed the production of our products, our future success depends in a significant part on our ability to evolve our hardware and software and to develop and introduce new products and technologies in response to market demands. If adequate funds are not available, the Company's ability to develop or enhance products and services or otherwise respond to competitive pressures would be significantly limited.

THE VIDEO MONITORING SURVEILLANCE INDUSTRY IS SUBJECT TO RAPID TECHNOLOGICAL CHANGE AND THE COMPANY'S PRODUCTS COULD BECOME OBSOLETE AT ANY TIME

Evolving technology, updated industry standards, and frequent new product and service introductions characterize the video surveillance systems and security integration services markets; our products could become obsolete at any time. Competitors could develop products similar to or better than our own, finish development of new technologies in advance of the Company's research and development, or be more successful at marketing new products, any of which factors may hurt our prospects for success.

THE MARKET ACCEPTANCE OF THE COMPANY'S PRODUCTS IS CRITICAL TO THE COMPANY'S GROWTH

The Company generates revenue from the design and sale of video surveillance systems and security integration services; therefore, market acceptance of our products is critical. If our customers do not accept or purchase our products, then our revenue, cash flow and/or operating results will be negatively impacted.

THE COMPANY COMPETES WITH LARGER AND BETTER-FINANCED CORPORATIONS

Competition within the international market for video surveillance systems and security integration services is intense. While the Company's products are distinguished by next-generation innovations that are more sophisticated, flexible and cost effective than many competitive products currently in the market place, a number of entities offer video surveillance systems, and new competitors may enter the market in the future. Some of our existing and potential competitors have longer operating histories, greater name recognition, larger customer bases and significantly greater financial, technical and marketing resources than we do, including well known multi-national corporations.

THE COMPANY IS LARGELY DEPENDENT UPON FEW CUSTOMERS

We have in the past, and may in the future, lose our customers or a substantial portion of our business with one or more major customers. If we do not sell products to our existing customers in the quantities anticipated, or if our customers reduce or terminate their relationships with us, market perception of our products and technology, growth prospects, and financial condition and results of operations could be harmed. Any termination of our relationship with our largest customers or any other customers could materially reduce our revenue.

THE COMPANY DEPENDS UPON ONE MANUFACTURER AND LIMITED SOURCE SUPPLIERS

Pennsylvania-based Strategic Manufacturing Technologies, Inc., currently procures our components and manufactures our video surveillance systems. Our components are purchased for us from such source suppliers as Motorola, Inc., and Analog Devices, Inc. We anticipate that the Company will continue to depend upon one or few manufacturers, as well as a limited number of source suppliers, which dependence, reduces the level of control we have and exposes us to significant risks such as inadequate capacity, late delivery, substandard quality and higher prices, all of which could adversely affect the Company's business. We currently have no agreement with Strategic Manufacturing Technologies, Inc. for the manufacture of our video surveillance systems.

If our suppliers were unable to provide parts in the volumes needed or at an acceptable price, our manufacturer and the Company would have to identify and qualify acceptable replacements from alternative sources of supply. If the Company was unable to obtain these components in a timely fashion, it would likely not be able to meet demand. Any disruption of either component procurement or manufacturing delays could adversely affect the Company's results of operations.

THE COMPANY'S SUCCESS DEPENDS ON THE COMPANY'S ABILITY TO ATTRACT AND RETAIN KEY PERSONNEL

The Company's future success will depend substantially on the continued service and performance of Don Gilbreath, Robert Betty and other key personnel. We have relatively few senior personnel, and so the loss of Don Gilbreath, Robert Betty or any other key employees could have a material adverse effect on the Company's business prospects, financial condition and results of operations. Our future success also depends on the Company's ability to identify, attract, hire, train, retain and motivate technical, managerial and sales personnel. Competition for such personnel is intense, and we cannot assure that we will succeed in attracting and retaining such personnel. Our failure to attract and retain the necessary technical, managerial and sales personnel could have a material adverse effect on our business prospects, financial condition and results of operations.

MISAPPROPRIATION OF PROPRIETARY RIGHTS OR CLAIMS OF INFRINGEMENT OR LEGAL ACTIONS RELATED TO INTELLECTUAL PROPERTY COULD ADVERSELY IMPACT THE COMPANY'S FINANCIAL CONDITION

The Company's success depends significantly on protecting proprietary technology. Despite the Company's efforts to protect its proprietary rights, unauthorized parties may attempt to copy or otherwise obtain and use our technology or products. Monitoring unauthorized use of the Company's technology is difficult, and we cannot be certain that the steps we have taken will prevent misappropriation of our technology, particularly in foreign countries where the laws may not protect our proprietary rights as fully as in the United States.

In addition, from time to time, third parties may assert patent, copyright, trademark and other intellectual property rights claims against us with respect to existing or future products or technology. If there is a successful claim of infringement and the Company fails or is unable to develop non-infringing technology or license the infringed or similar technology on a timely basis, the Company's business and results of operations could be seriously harmed.

THE COMPANY'S BUSINESS IS SUBJECT TO GOVERNMENTAL REGULATIONS

International, national and local standards set by governmental regulatory authorities set the regulations by which communications are transmitted within and across respective territories. The Company's fixed and mobile digital video cameras and communication systems are subject to such regulation in addition to national, state and local taxation. Our products may be required to meet Federal Communications Commission approval, specifically for Classes A & B of Part 15 for the telephone related applications of our hardware products. Further, climate change legislation and greenhouse gas regulation is becoming increasingly ubiquitous. Although the Company successfully operates within current governmental regulations it is possible that regulatory changes could negatively impact our operations and cause us to diminish or cease operations.

THE COMPANY'S PRODUCTS ARE SUBJECT TO ENVIRONMENTAL LAWS

New hazardous materials restrictions have been and are being sought in numerous jurisdictions worldwide. As these restrictions take effect, the Company may need to change the components it uses in certain key products. These components may be difficult to procure or more expensive than the components we currently use. As such, current and future environmental regulations could negatively impact our operations.

Risks Related to the Company's Stock

THE COMPANY MAY NEED TO RAISE ADDITIONAL CAPITAL TO FUND OPERATIONS WHICH COULD ADVERSELY AFFECT OUR SHAREHOLDERS

The Company may need to raise additional capital to fund operations until such time as our revenues match our expenditures. We expect that revenue will match expenditures by or before 2011. Until the point at which cash flow from operations can match expenditures we may have to realize up to \$1,000,000 additional capital for operations. Capital realized would be used for research and development expenses, marketing costs and general and administrative expenses. We have no commitment from any sources of financing to provide us with any needed capital requirements. Any equity financing will obligate us to issue additional shares of the Company's common stock which will result in dilution to existing shareholders. If we are unable to obtain sufficient capital, then we will need to restrict or even cease operations, which actions would adversely affect our shareholders.

WE INCUR SIGNIFICANT EXPENSES AS A RESULT OF BEING REGISTERED WITH THE COMMISSION, WHICH EXPENSES NEGATIVELY IMPACT OUR FINANCIAL PERFORMANCE.

We incur significant legal, accounting and other expenses as a result of the Sarbanes-Oxley Act of 2002, as well as related rules implemented by the Commission, which control the corporate governance practices of public companies. Compliance with these laws, rules and regulations, including compliance with Section 404 of the Sarbanes-Oxley Act of 2002, as discussed in the following risk factor, has substantially increased our expenses, including legal and accounting costs, and made some activities more time-consuming and costly. Further, expenses related to our compliance may increase in the future, as legislation affecting smaller reporting companies comes into effect that may negatively impact our financial performance to the point of having a material adverse effect on our results of operations and financial condition.

THE COMPANY'S STOCK PRICE IS VOLATILE

The market price for our common stock is subject to significant volatility and trading volumes are low. Factors affecting the Company's market price could include:

- the Company's perceived prospects;
- negative variances in our operating results, and achievement of key business targets;
- limited trading volume in shares of the Company's common stock in the public market;
- sales or purchases of large blocks of our stock;
- changes in, or the Company's failure to meet, earnings estimates;
- changes in securities analysts' buy/sell recommendations;
- differences between our reported results and those expected by investors and securities analysts;
- announcements of new contracts by the Company or our competitors;
- announcements of legal claims against us;
- market reaction to any acquisitions, joint ventures or strategic investments announced by us or our competitors;
- developments in the financial markets;
- general economic, political or stock market conditions.

In addition, our stock price may fluctuate in ways unrelated or disproportionate to our operating performance. The general economic, political and stock market conditions that may affect the market price of the Company's common stock are beyond our control. The market price of the Company's common stock at any particular time may not remain the market price in the future. In the past, securities class action litigation has been instituted against companies following periods of volatility in the market price of their securities. Any such litigation, if instituted against us, could result in substantial costs and a diversion of management's attention and resources.

THE COMPANY'S STOCK IS A PENNY STOCK AND, THEREFORE, THE COMPANY'S SHAREHOLDERS MAY FACE SIGNIFICANT RESTRICTIONS ON THEIR STOCK

The Company's stock differs from many stocks in that it is a "penny stock." The Commission defines a penny stock in Rule 3a51-1 of the Exchange Act as, generally speaking, those securities which are not listed on either NASDAQ or a national securities exchange and are priced under \$5, excluding securities of issuers that (a) have net tangible assets greater than \$2 million if they have been in operation at least three years, (b) have net tangible assets greater than \$5 million if in operation less than three years, or (c) average revenue of at least \$6 million for the last three years. OTCBB securities are considered penny stocks unless they qualify for one of the exclusions.

The Commission has adopted a number of rules to regulate penny stocks. These rules include, but are not limited to, Rules 3a51-1, 15g-1, 15g-2, 15g-3, 15g-4, 15g-5, 15g-6 and 15g-9 under the Exchange Act. Since our securities constitute a "penny stock" within the meaning of the rules, the rules would apply to us and our securities. The rules may further affect the ability of owners of shares to sell their securities in any market that may develop for them. There may be a limited market for penny stocks, due to the regulatory burdens on broker-dealers. The market among dealers may not be active. Investors in penny stock often are unable to sell stock back to the dealer that sold them the stock. The mark-ups or commissions charged by the broker-dealers may be greater than any profit a seller may make. Because of large dealer spreads, investors may be unable to sell the stock immediately back to the dealer at the same price the dealer sold the stock to the investor. In some cases, the stock may fall quickly in value. Investors may be unable to reap any profit from any sale of the stock, if they can sell it at all.

Shareholders should be aware that, according to the Commission Release No. 34-29093, the market for penny stocks has suffered in recent years from patterns of fraud and abuse. These patterns include:

- control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer;
- manipulation of prices through prearranged matching of purchases and sales and false and misleading press releases;
- "boiler room" practices involving high pressure sales tactics and unrealistic price projections by inexperienced sales persons;
- excessive and undisclosed bid-ask differentials and markups by selling broker-dealers; and
- the wholesale dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired level, along with the inevitable collapse of those prices with consequent investor losses.

OUR INTERNAL CONTROLS OVER FINANCIAL REPORTING MAY NOT BE CONSIDERED EFFECTIVE IN THE FUTURE, WHICH COULD RESULT IN A LOSS OF INVESTOR CONFIDENCE IN OUR FINANCIAL REPORTS AND IN TURN HAVE AN ADVERSE EFFECT ON OUR STOCK PRICE.

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 we are required to furnish a report by our management on our internal controls over financial reporting. Such report must contain, among other matters, an assessment of the effectiveness of our internal controls over financial reporting as of the end of the year, including a statement as to whether or not our internal controls over financial reporting are effective. This assessment must include disclosure of any material weaknesses in our internal controls over financial reporting identified by management. If we are unable to continue to assert that our internal controls are effective, our shareholders could lose confidence in the accuracy and completeness of our financial reports, which in turn could cause our stock price to decline.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the quarter ended March 31, 2010 the Company authorized the issuance of 508,200 shares of common stock to Paul Higbee in exchange for the extinguishment of an accrued interest obligation of \$127,050 valued at \$0.25 per share due on certain promissory notes, pursuant to exemption provided by Section 4(2) of the Securities Act of 1933, as amended ("Securities Act"). No commission was paid in connection with this offering.

The Company complied with the exemption requirements of Section 4(2) of the Securities Act based on the following factors: (1) the issuance was an isolated private transaction that did not involve a public offering; (2) there was one offeree; (3) the offeree stated an intention not to resell the stock; (4) there have been no subsequent or contemporaneous public offerings of the stock; (5) the stock was not broken down into smaller denominations; and (6) the discussions that lead to the issuance of the stock took place directly between the offeree and the Company.

During the quarter ended March 31, 2010 and to the issue date of this current report, the Company authorized the issuance of 1,730,000 shares of common stock to 20 persons or entities in exchange for \$432,500 valued at \$0.25 per share, pursuant to the exemption provided by Rule 506 of Regulation D of the Securities Act. No commission was paid in connection with this offering to the following individuals and entities:

<i>Investor</i>	<i>Shares</i>	<i>Consideration</i>
Barbaro, Michael	100,000	\$25,000
Besson, Mike	100,000	\$25,000
Bozek, Michal	40,000	\$10,000
Buckley, Michael	80,000	\$20,000
Carey, Michael	20,000	\$5,000
Carter, Donald Jr.	100,000	\$25,000
Crowther, James B. Jr.	120,000	\$30,000
Gallagher, Hugh Jeffrey	40,000	\$10,000
Hart, John	40,000	\$10,000
Hart Roofing & Remodeling	100,000	\$25,000
Hoggard, Gene	30,000	\$7,500
Maurer, Stephen K.	100,000	\$25,000
Rose, Louis C.	410,000	\$102,500
Schay, David	100,000	\$25,000
Spinella, Charles	50,000	\$12,500
Strange Trust	60,000	\$15,000
Struzik, Tony	20,000	\$5,000
Sztamenits Limited Family Partnership	100,000	\$25,000
Traxler, Dan	60,000	\$15,000
Visosky, Mark	60,000	\$15,000
<i>Total</i>	<i>1,730,000</i>	<i>\$432,500</i>

The Corporation complied with the requirements of Rule 506 of Regulation D of the Securities Act by: (i) foregoing any general solicitation or advertising to market the securities; (ii) selling only to accredited investors; (iii) having not violated antifraud prohibitions with the information provided to the investors; (iv) being available to answer questions by the investors; and (v) issuing restricted securities to the investors.

ITEM 3. DEFAULTS ON SENIOR SECURITIES

None.

ITEM 4. (REMOVED AND RESERVED)

Removed and reserved.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

Exhibits required to be attached by Item 601 of Regulation S-K are listed in the Index to Exhibits on page 26 of this Form 10-Q, and are incorporated herein by this reference.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

21*	Subsidiaries (incorporated by reference to the Form 10-K filed with the Commission on April 16, 2010).
31	Certification of the Chief Executive Officer and Chief Financial Officer pursuant to Rule 13a-14 of the Securities and Exchange Act of 1934, as amended, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 (attached).
32	Certification of the Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. Section 1350 as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (attached).
*	Incorporated by reference to previous filings of the Company.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER
PURSUANT TO RULE 13a-14 OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED,
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Don Gilbreath certify that:

1. I have reviewed this report on Form 10-Q of ComCam International, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the period presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e) and internal control over financial reporting (as defined in the Exchange Act Rules 13a-15(f) and 15d-15(f) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including any consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.

Date: May 12, 2010

/s/ Don Gilbreath

Don Gilbreath, Chief Executive Officer and Chief Financial Officer

CERTIFICATION OF CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER
PURSUANT TO 18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO SECTION 906 OF THE
SARBANES-OXLEY ACT OF 2002

In connection with the report on Form 10-Q of ComCam International, Inc. for the quarterly period ended March 31, 2010, as filed with the Securities and Exchange Commission on the date hereof, I, Don Gilbreath, do hereby certify, pursuant to 18 U.S.C. §1350, as adopted pursuant to §906 of the Sarbanes-Oxley Act of 2002, that, to the best of my knowledge and belief:

- (1) This report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in this report fairly presents, in all material respects, the financial condition of the registrant at the end of the period covered by this report and results of operations of the registrant for the period covered by this report.

Date: May 12, 2010

/s/ Don Gilbreath

Don Gilbreath, Chief Executive Officer and Chief Financial Officer

This certification accompanies this report pursuant to §906 of the Sarbanes-Oxley Act of 2002 and shall not, except to the extent required by the Sarbanes-Oxley Act of 2002, be deemed filed by the registrant for the purposes of §18 of the Securities Exchange Act of 1934, as amended. This certification shall not be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended (whether made before or after the date of this report), irrespective of any general incorporation language contained in such filing.
