**Re: China Natural Gas, Inc.
Form 10-K for the Fiscal Year Ended December 31, 2009
Filed March 10, 2010
File No. 000-31539**

Dear Mr. She:

We have limited our review of your filing to disclosure relating to your contacts with countries that have been identified as a state sponsor of terrorism, and we have the following comments. Our review with respect to this issue does not preclude further review by the Assistant Director group with respect to other issues. At this juncture, we are asking you to provide us with supplemental information, so that we may better understand your disclosure. Please be as detailed as necessary in your response. After reviewing this information, we may raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filings. We look forward to working with you in these respects. We welcome any questions you may have about our comment or on any other aspect of our review. Feel free to call us at the telephone numbers listed at the end of this letter.

General

1. We note that you are included in the May 2008 Genocide Intervention Network's Sudan Peer Performance Analysis of companies identified as the highest offenders in Sudan. We also note a December 2008 news article citing your CEO discussing a report that highlighted compressed natural gas opportunities in emerging markets including Iran and stating that you intend to capitalize on these opportunities. Finally, we note that you have a joint venture with CNPC Kunlun Natural Gas Co., a gas subsidiary of China National Petroleum Co., a company

that has operations in Sudan and investments in Cuba, Iran and Syria. Sudan, Iran, Syria and Cuba are identified by the State Department as state sponsors of terrorism, and are subject to U.S. economic sanctions and export controls. We note that your Form 10-K does not include disclosure regarding contacts with Sudan, Iran, Syria or Cuba. Please describe to us the nature and extent of any past, current, and anticipated contacts with the referenced countries, whether through subsidiaries, resellers, distributors or other direct or indirect arrangements. Your response should describe any services or products you have provided to those countries and any agreements, commercial arrangements, or other contacts you have had with the governments of those countries or entities controlled by those governments.

2. Please discuss the materiality of any contacts with the referenced countries described in response to our prior comment, and whether those contacts constitute a material investment risk for your security holders. You should address materiality in quantitative terms, including the approximate dollar amounts of any associated revenues, assets, and liabilities for the last three fiscal years. Also, address materiality in terms of qualitative factors that a reasonable investor would deem important in making an investment decision, including the potential impact of corporate activities upon a company's reputation and share value. As you may be aware, various state and municipal governments, universities, and other investors have proposed or adopted divestment or similar initiatives regarding investment in companies that do business with U.S.-designated state sponsors of terrorism. Your materiality analysis should address the potential impact of the investor sentiment evidenced by such actions directed toward companies that have operations associated with Iran, Syria or Sudan. In this regard, please address the potential reputational impact of your joint venture with CNPC Kunlun Natural Gas Co.

Please respond to these comments within 10 business days or tell us when you will provide us with a response. Please submit your response letter on EDGAR.

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filings include all information required under the Exchange Act of 1934 and that they have provided all information investors require for an informed investment decision. Since the company and its management are in possession of all facts relating to the company's disclosure, they are responsible for the accuracy and adequacy of the disclosures they have made.
